ODDS AND ENDS: Early to bed and early to rise you'll never meet any of the regular guys. . . . "Money may be filthy, but a little of it will buy a lot of disinfectant." L. E. Darrow. . . . COURTESY? Helen Stahl and a friend were returning from a trip Sunday evening. It was dusk and they had been following a large truck for quite a while, when suddenly Helen stepped on the gas and passed. Turning to her girl friend she remarked that the truck drivers are really courteous to motion for her to pass. "What do you mean (motion)," the friend asked, "he didn't motion, that truck was loaded with cattle and what you saw was a cow's tail sticking out the side." . . . HOW? How can a man race a speed boat and injure his wife's foot? Homer Conrad of Bldg. 31-2 is an ardent speed boat fan and has entered his racing shell in numerous events. Week before last he arrived home rather tired after taking a beating from rough water so it was natural that he retire early. He dropped off to sleep then suddenly began to dream. He dreamed that he was racing again, the water was rough, the speed terrific, he was being thrown and tossed about. The action became more violent when suddenly there came a crash. He opened his eyes—he and Violet (Mrs. Conrad) were lying on the floor in the midst of a wrecked bed which had collapsed during the violent nightmare. They moved the wreckage against a wall and slept on the springs and mattress until morning. Violet arose half asleep and forgetting about the wrecked bed and kicked a piece with her bare foot which was bruised by the impact. . . . BEGINNER'S LUCK: R. A. Woehr is quite a sports lover. He plays a mean game of golf, is very proficient with a gun in the field, and throws quite a line when fishing (fish line, that is). It seems he has a younger brother who does not know too much about fishing, so Bob took it upon himself to instruct that lad in fine points of fishing. He picked St. Joe, Mich., as the spot for the lesson and on its completion the score read: The Kid had three bass and three pike; Bob, you guessed it, was skonked. Must be beginner's luck. . . . Ed Foley is either a victim of circumstance or a mean man. This writer heard through the grapevine that Mr. and Mrs. Foley were quite active during the Legion convention. Ed was occupied with Legion activities while Imo was working with the auxiliary. As they had no advance information as to the various programs, the first one through with a meeting went home to await the other. One evening Ed arrived home first, and being tired, locked up and went to bed. Later Mrs. Foley came home and tried the door. Since it was locked, she pressed the bell but got no result. She then called home with the same result. Finally she went to a friend's house and spent the night. The next morning Ed arose and opened the door to get the paper. There sat Imo in the swing, fully dressed.

Ramblings Bldg. 31-2

There'll be some changes made. The AC Section has graduated to a Division. Mr. Pumphrey is now Division Engineer for the AC Motor-Generator Engineering Div. Mr. Baker is now working with Mr. March as Assistant Designing Engineer of the whole Division. Mr. McDougal is the Division Engineer for the DC Motor, Generator and Dynamometer Eng. Div. . . . Now that "Mac" has vacated his office space and moved into Mr. Baker's office, many of the engineers are eyeing Mac's old office as their possible private office. The new DC boss will be soon a mere shadow of himself if he keeps going back and forth down the long hall from motor-generators to dynamometers. . . . Speaking of engineers, we have a new commercial engineer. He is Deward F. Lefler from North Carolina. He has a wife and an 11 weeks old baby girl, Shirley Ann. . . . Going back to Mr. McDougal, we might as well continue to say that he is such a good scout that he has invited the whole Engineering Division to his cottage at Dewart Lake for a potluck picnic. "Poor Mac," everybody and their children have decided to go, weather permitting, on Sunday, Sept. 18. Seventy-five per cent of the Division is expected to attend making a crowd of about 90 people. Plans are for a wiener bake with all the trimmings. Recreation will consist of badminton, volleyball, archery, horseshoe, hiking and boating.

Our early Fall weather brought out some beautiful colors including the bright green shirt Charlie Schild had on while visiting us. Glad to see you, Charlie, green shirt and all. . . . Don Kruse fell victim to his own joke when Kenny "fixed" his cigarette. The moral of the story is—never trust your fellow man. . . . Phil Kraft was so interested in the candy he got from the wagon he forget to stop for his change—it was a $5 bill too. Must have been good candy. . . . Ezra Garringer's complexion matched his hair when Ida told him about the "Three Little Rabbits." Wonder why? . . . Tonight our bowling team known as the "Israeli Bombers" take off, in quest of some prize money in the Twilight League at the Court Alleys. This team is captained by Ralph "Back up Ball" Thomas. Other members of the team are: New "Wrong Approach" Neuman, Don "Shining Example" Kruse, Roger "When do we bowl the girls?" Crabill and Al "Get them next game" Middaugh. Ralph Thomas is the new secretary of the league so our handicap should be a little larger this year. This team is ably coached by Ray "Crew Cut" Solga. . . . Leona Zwick said she could hardly wait for the bowling season to start. Must be she missed free meals from Ralph Thomas. . . . It's really interesting to notice the boys jockey for position in the elevator every night at 3:30. The pole position is usually won by Jay Hensler. By being the last one on the elevator he usually wins the position next to the gate by the use of elbows and standing on some other persons feet. Years of experience of boarding a bus gains him the advantage. They say he can go through a crowd waiting for a bus like a Notre Dame quarter back and be one of the first five in the bus. . . . Clara Kleint has a new theme song "Your Lips Tell Me No, No, But There's Yes, Yes, in Your Eyes." . . . "Hello again" and "Welcome back" to Cora Jane Conrad. . . . Ray Greek returned from the Quarter-Century picnic the proud owner of a pop-up toaster which he won. Congratulations. . . . We hear Carroll Elder almost caught a blonde in his "woman trap" the other day. Better luck next time, Carroll. . . . Happy birthday to Beth Jacobs from all the gang.

Quarter Century Club Outing

Camp Limberlost 1949 Saturday, Sept. 10

The pensioners were well represented at the picnic. Above, a group of retired employees pose for their picture.

Employees and pensioners with more than 40 years of service are shown, above, at the Q-C Club's annual outing.

The large turnout of ladies at the annual outing and 35th anniversary celebration is shown, above.

Standing In Line . . . . . .

Eats At End Of Line. . . . .

Annual Outing

(Continued from Page 1)

a.m., but a big throng was already in line much earlier. A caravan of cars that stretched nearly two blocks was on hand to haul all those without a means of getting to the camp, nearly 45 miles north of Fort Wayne.

Upon arrival at the beautiful camp on tbe edge of Oliver Lake, the 25-year employees were soon actively cbatting with friends and participating in many of the sports. Softball, horseshoe, shuffleboard and card games kept many busy, while others enjoyed the free refreshments or went for a boat ride on the lake.

Dinner Bell Rings

Several large groups gathered around the commissary at 11 a.m. to have their picture taken, then the old-fashioned dinner bell rang out at noon and everyone came running. The four-abreast line stretched down the road, around the side of the mess hall, and into the parking lot. A quartet started singing out some of the old tunes, as everyone waited impatiently to get at the food tbat was filling tbe air with a mouth-watering aroma.

Four separate serving units were arranged inside the mess hall, where trays were heaped high with generous servings of fried chicken and dressing, mashed potatoes and gravy, salad, green beans, sliced tomatoes, bread and rolls, milk, coffee, ice cream, and cake. Cigars, cigarettes, and chewing gum were also given out at the end of the line, along with a gift pocket-knife as a souvenir of the event. Each knife was engraved: "G-E Quarter Century Club, Fort Wayne Works."

The efficient setup of the serving lines completed the task in less than an hour and a half.

Tbe group gathered at tables in the shade around and under a large tent, where melons were served to all those still hungry.

Then at 2 p.m. the 25-year employees assembled in the open air pavilion, where they enjoyed a short business meeting and variety show.

Fred L. Schafenacker, president of the club, welcomed the crowd and provided the group with the following factual information:

Membership in December, 1949, will total 1,604.

At the present time, there are 1,591 members.

There have been 84 members added to the roster so far this year; of this number, 11 are women and 73, men.

The women members total 141.

The retired membership includes 274 men, 33 women.

Mr. Schafenacker then introduced C. H. Matson, Works Manager. Mr. Matson opened his remarks with a welcome in behalf of the Company to all attending the outing.

"This is an influential and a democratic organization," said Mr. Matson. "Its influence on younger people can be more than each of you individually realize. This in-

Crowd Enjoys Entertainment . .

Henry Lepper, above, was the oldest member of the club at the outing. He is 87 years old.

Winners of the 10 G-E toasters as attendance prizes are shown above: (l. to r., standing) H. M. Hibler, Bldg. 19-2; Roy Hosler, Bldg. 26-4; Fred Trautman, Bldg. 4-3; C. J. Raquet, Bldg. 19-4; E. F. Fretz, Bldg. 4-5, and R. L. Greek, Bldg. 17-4. Seated: (l. to r.) Gladys Beal, Bldg. 4-4; Mae Heit, Bldg. 4-3; H. E. Herbst, Bldg. 6-1, and W. L. O'Brien, Bldg. 4-5.

A. L. Hadley, above, was the only charter member present at the 35th anniversary outing of the club.

fluence should be used to the good of our Club, our Company and the Country which we love."

He followed the welcome with a brief tribute to President C. E. Wilson on having completed 50 years of service with General Electric. He stated that Mr. Wilson's record of achievements with the Company and as a citizen should be an inspiration to everyone. He then briefly outlined the plans that have been made throughout the Company and at the Fort Wayne Works to achieve the goals of the various programs established to make General Electric an even better place in which to work and to assure higher employment and greater security for all.

Looking to the future, Mr. Matson stated, "Analyzing today's business trends there are many things which indicate that the recession has at least been temporarily halted. As a matter of fact, in some departments of our business, there is a slight upward swing. Though this is no time to be highly optimistic, we feel much better about the future than we did a few short months ago."

M. E. Lord, Manager of the Fractional Horsepower Motor divisions, was then introduced. Referring to commercial trends in his divisions, he also suggested that the outlook for the future was much brighter than heretofore. "Heavy inventories which forced cutbacks in production and employment throughout the country during the summer months are being reduced," said Mr. Lord, "and as a result, there is some increased buying which is most encouraging."

After Mr. Lord's short talk, Mr. Schafenacker turned the meeting over to J. V. Johnson, who acted as master of ceremonies for the variety show.

Musical Act Opens Show

The program opened with an unusual musical act from Bronson, Mich., featuring Mary and Bill Ward and their mother, Mrs. Ruth Ward. The young boy and girl first played several selections on their marimba-xylophone; Mary then played a symphonic number on the instrument. An accordion solo by Bill followed, and in conclusion the brother-sister act provided a drum duet. The instrumental virtuosos were accompanied on the piano by their mother.

An outstanding acrobatic number was then presented by young Nancy Long, formerly with the Ringling Bros. Circus.

Randy Brown, master ball-and-paddle artist, amazed the group with his manipulations of a ball attached by rubber string to a

wooden paddle. Several from the audience participated in this novelty act.

Magician Rudy Saxon then fascinated the group with a fine display of legerdemain. He topped off his performance with a feat of memory. He tore out pages from two copies of a magazine, threw them into the audience, and then invited members of the audience to shout out the pages that they were holding. As different page numbers were called out, he would tell what stories and ads appeared on them and in what location.

Jack Wainwright, proprietor of the camp, was then introduced. After greeting all the Q-C members and inviting them back next year, he introduced the final act on the program.

Duet Is Q-C Favorite

A favorite of past Q-C outings, the act featured Mrs. Mildred Germanson and Robert Cocherille.

Opening with Sigmund Romberg's "One Kiss," the duet also sang the ballad, "When You Walk In The Room." Mr. Cocherille then sang an outstanding rendition of "When Irish Eyes Are Smiling" and was joined by the audience in the last chorus.

Mrs. Germanson has played numerous starring roles as lead soprano with the Independent players of Columbus, O. Mr. Cocherille has been a member of both the Pittsburgh and Detroit Civic Opera companies.

They were accompanied on the piano by Mr. Wainwright's wife, Janet.

Mr. Schafenacker then returned to the stage for the drawing and presentation of attendance prizes, 10 G-E toasters.

This special four-page supplement tells in pictures the story of the Q-C Club Outing and 35th anniversary celebration held last Saturday at Camp Limberlost, Oliver Lake. This section may be easily slipped from the issue and kept as a souvenir.

Apprentice BROADCAST

by MILDRED ELLIS

That long awaited day has finally arrived for the "Two Bobs" on the drafting course. Today Robert Birkenbeul and Robert Finton will pass through our portals as graduates. . . . Barnes is still trembling in his boots for fear a certain person (with a burnt finger) will find out who left that hot soldered piece laying on the bench while he answered the telephone. . . . For some people New Haven is a good place and for some it is not so good, eh, Ralph? . . . Auer is back in our midst after an absence of seven weeks. Myron injured his shoulder playing ball and had an extended vacation. . . . Baby, it's gonna be cold inside if Meads and Miller don't get those furnaces fixed. . . . Wagner isn't satisfied with just hunting like the rest of the fellows; now he wants to buy a couple of squirrel dogs from Charles Mowery. He always claims he gets two for one. (Two shots for one squirrel?) . . . The Apprentice softball team turned in two wins over the week-end. In a warmup game Friday night they walloped a team from Riverhaven 17-7. Sunday afternoon, our boys came through again by defeating a strong club from U. S. Rubber, 9-7. If Marc (Cripple) Junk would get that slack out of his knee and stand up straight he would see those good ones come right down the middle. . . . Carl Hubartt has been named secretary-treasurer of the bowling league. . . . Fremion and Birkenbeul raided the lakes of Michigan. The report is that they caught some fish. . . . It's beginning to look like the apprentices should form an auto repair association and save money on their repair bills. . . . The golf team composed of Lew Davis, Warren Brown, Skeets Lahrman, Don Dimke, Gene Werling and Wilbur Jones are heading into the final round of their season. Next Saturday they tour the links at Brookwood for the championship of the General Electric Co. Best of luck to you and here's hoping you all shoot plenty of birdies or eagles. . . . The only plot of ground not being used to build a house on right now seems to be the one adjacent to Ecenbarger's mansion. So naturally it receives most of the refuse and junk from Harry's place. Oh well, I guess it's all right because Harry is the one who will have to either look at it or clean it up. . . . After many painstaking tries at his first promotion, Paul (Boomdocker) Mischo made his first stripe in the USMCR. Congratulations, Paul. . . . Ward Staley says his goats wouldn't give any milk for three days after the article about them appeared in the WORKS NEWS. Everyone was very sorry and to make amends, the fellows decided to take all their tin cans out to Ward's so he won't have to buy feed for his goats. . . . Dick Gebert reports that he has recently read that apprenticeship existed 4000 years ago during the reign of Hammurabi, the Babylonian king.

Employees' Store To Discontinue Kindling Orders

Orders for kindling are so far ahead of supply that it seems wise to discontinue taking orders until further notice, R. L. Fischbach, Employees Store, stated today.

A. E. Leider Participates In Round-Table Discussion On Problems Of Production

A. E. Leider, Manager of Production Services, participated in a round-table discussion on production problems Monday night at the Keenan Hotel. Mr. Leider met with six other key production men of Fort Wayne and F. M. Scotten, editor of "Production Engineering and Management" magazine and moderator of the group.

Among the various topics discussed at the meeting were machine tools, training, and quality control. The results of the round-table discussion will be published in an early issue of the magazine.

PROUD PARENTS—Congratulations to Mr. and Mrs. H. P. Love, who, Aug. 27, became the proud parents of a bouncing 8 lb. 2 oz. baby boy. They have named him, Nathan LeRoy. . . . CONGRATULATIONS — Happy birthday to E. M. Stanbery, Sept. 13, and C. M. Leitch and Julian Stark, Sept. 15. . . . NICE KNOWING YOU—We extend a hearty welcome to Paul Althoff, Development Division, and to W. Boltz, DC Division. A belated welcome to Jean Pappert. . . . LUNCHEON—The girls in Production entertained with a farewell dinner for Celeste Moran, who became the wife of Henry Schnelker Sept. 3. The bride was presented with a lovely gift. . . . ABSENTEES AND A WELCOME—Patty Rogers, who worked in the Engineering File Room, has taken a month's leave of absence. We welcome Patty Beebe, from Winter Street, who replaces Patty Rogers. . . . WHY!—Joan Walters has gotten to be quite a cake baker, except she hasn't learned yet how to keep one from falling apart. Has anyone got the answer? . . . ABSENT-MINDED?—Everyone who owns a car knows they must purchase a new driver's license when they expire, but Jim Capps just discovered the other day he had been using his old license. He has corrected his mistake by puchasing a new license. Don't feel too bad, Jim, everyone makes mistakes. . . . AUTHENTIC APPROVAL OR DISAPPROVAL — The boys at least are getting the first laugh on Dick Jones and Forry Carlson, who were inquisitive or gullible and bought some gadgets for their cars that are supposed to save gas. Dick and Forry are going to keep accurate records and prove or disapprove them once and for all. Who knows—maybe they will have the last laugh. . . . RETURNEE—Tony Schneble has returned from his vacation with no changes made. . . . BUBBLE GUM BLOWER—Anyone wishing instructions on how to chew bubble gum with greater finesse contact Mary Olsen or Delores Koch of the Tabulation section. They are past masters of this art. . . . HELP! NO THANKS—If Jerry Zehender wants to know how to put his furnace back together and install a new oil burner see Tom Dole. There is one catch though, Tom had to call in the service man to fix his. . . . BELATED CONGRATULATIONS—Thanks, Red Braden, for bringing the National Semi-Pro Crown back to Fort Wayne. It was a great job. . . . HARD TIMES—Why is it Toby Tyler has to sell apples? You tell us. . . . ONE PAIR—Ask Walt Gerke why he came to work last week with two different socks on. Is he paying off on some of his bets? . . . NEWS—Helen Conrad has agreed to mow all your lawns if you promise to keep all aches and pains away.

TOP FLOOR TOPICS BLDG. 26-5

by WALT POHLER

Last spring Blanche McDonald and her husband purchased a suburban home located north of the city. The McDonalds planted a garden and during the season have raised some very nice vegetables. At planting time Blanche stated they would raise sufficient potatoes to supply most of the people on our floor. With this thought in mind we have followed the progress of these potatoes very closely all summer. We are sorry to report that Blanche states now that the potatoes haven't done so well and those people depending on this source of supply had better look elsewhere. She promises that next year will be another year. She is sure she will be able to supply everyone at that time. . . . We had two new recruits in our golf league last Thursday, Bill Braun, Bldg. 26-5, and Andy Allen, Bldg. 26-B. Howard Winters was the hot shot this week. For the first time in league play he was able to get away from the bad influence of playing in the same foresome with Walt Pohler. Howard's net score was 37. Anderberg and Shipman tied for second with a net score of 40. . . . Anderberg is getting more proficient in throwing his clubs than he is in swinging them. We are sure that next week he will actually throw his driver into the creek. Last Thursday he missed by inches. . . . The bowling season is getting underway. Several of our people bowl in league competition each year. We believe the first to take the drives were Carl Hanson and Louie Sordelet. Both report good scores for opening night. . . . We extend our sincere sympathy to Mrs. Lela White in the death of her husband Edwin White. . . . Mitzie Lue Juillerat, daughter of Mr. and Mrs. Everett Juillerat, sends thanks to the girls who sent her the nice cards and hankies during her recent sickness. Mitzie Lue wants her friends to know that she has recovered to the point that she can attend school this year. . . . Edith Juillerat is being transferred from second shift to first shift. . . . Second shift operators are planning a wiener bake for Sept. 30 at the home of Mable Meyers in Bluffton. Any first trick operators who care to attend are cordially invited. . . . Thelma Henry spent Labor Day week-end in New York City. The outstanding feature of the week-end was a 13 course dinner at a Chinese restaurant. . . . Gerdom, our reporter on second shift, fell down some steps at Helmer recently skinning both elbows and ruining her son's jacket. It seems she was carrying a sack of potatoes which were spilled all over the street.

TOOL BITS — BLDGS. 19-4 & 5

by Harry Travelbee

Don Alcott finds it unnecessary to carry windstorm insurance on his garage. From all reports he has enough weight hanging from the walls to anchor it securely in the wildest storm. We know what you mean, Don, because we have the same trouble at our place. Don says he only hopes that the sides don't collapse and catch him while he is putting the car away, that is, if he can get the car into the garage. . . . We think that it is a mean trick for two grown men to gang up on one little squirrel. These fellows chased the squirrel for about half a mile before chasing him up a telephone pole and finally shooting him. Might ask Bill Mowery and Art Braun about this. . . . Bill Jones believes in being on the job with that camera of his. As proof he was passing out cigars and showing us a picture of his new daughter born Wednesday, Sept. 7, 1949, at the St. Joe Hospital. Our congratulations to Mr. and Mrs. Jones. . . . Willie Garman had a swell answer for that black eye which he received last week. He claims that a piece of toast popped out of his automatic pop-up toaster and caught him in his best eye. . . . See Carl Einsiedel for the best way to prepare spring chicken. . . . Cary Baker has been serenading Indiana State Fair goers for the past week. . . . Gus Weigand says the best way to remember that you forgot your raincoat is to go outside and have it start pouring. . . . Art Thieme has finally figured out why Walter Griener never catches any fish. Besides fishing in the weeds, Art claims that Walt wasn't even using any bait. We finally got the story on this fishing trip straight, and our informant tells us that besides rowing Walt on the weeds, Art did cut Walt's line with a knife and threw in his biggest fish.

Completes 30 Years' Service

Delphos A. Winter, Bldg. 4-4, completed 30 years of service with the Company Monday, Sept. 5. The next day several of his friends in FHP Div. 1, offered their congratulations on his long service. In the picture are: (l. to r.) Arthur McNamara, Chauncey Buel, O. J. Mettler, Div. Supt.; Mr. Winter, Florian Korte, General Foreman; Ed Robin, Foreman, George Prince, Asst. General Foreman, and Louis Scherer.

It's Windy Here

by JOAN AUBREY

WARNING to all G-E Bowlers, after years of retirement Bill Caston has at last dug his bowling shoes out of the bottom desk drawer and is going back into action. . . . Have you ever heard of someone building a new house and garage and not having a piece of wood left big enough to make a step for a stepladder? Well, Henry Gollmer did. It's all right to be economical, Hank, but you don't need carry it to extremes. . . . Have you seen Mr. Dennison's new robin egg blue Packard? Some class. . . . I wonder if Gordon Smith will be able to pick up a pencil next week. After pulling all those big fish in all week at Lake Alice, Wis., his arm may be a little lame. . . . By the way, Gable, have you gone out to mow the Smith's lawn yet? . . . We would like to wish a very happy birthday to Gene Foster Sept. 15 and to Perry O'Neill Sept. 19. . . . Last week-end Kenny Sheehan and wife flew to Chicago to attend the Railroad Fair, and he said they had a swell time. . . . I understand Hugh Neely will be happy to escort anyone on a special conducted tour of his back yard and explain the many types of plant life (weeds that is). He can guarantee you will see plants you have never seen anywhere before.

Specialty Transformer, Ballast Divisions Exhibit Products At Chamber Of Commerce

A display representing most of the products made by the Specialty Transformer and Ballast divisions has been exhibited the last few weeks at the Fort Wayne Chamber of Commerce building.

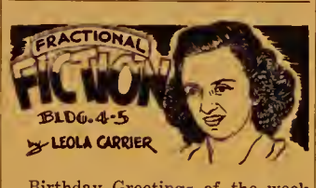
The products included an aircraft transformer, ballasts for fluorescent lamps, control transformer, neon sign transformer, voltage stabilizers, and radio and television transformers.

At one side of the display was a fluorescent table lamp, which showed the parts which were made here by the specialty Transformer and Ballast divisions.

An electrical quiz that explained the use of transformers and ballasts in various forms of electrical systems offered an unusual sidelight for those viewing the exhibit. Operated by a panel of buttons, the correct answers were given by means of small lights on the signboard.

All Fort Wayne industries have been invited to display their products in the Chamber's lounge room. Every two weeks a different industry has utilized the display space. The General Electric Company was granted the entire month of September.

The Fractional Horsepower Motor divisions are now completing their exhibit, which will be on display for the remainder of the month.



Cyrus Stonehill, Manager of the Ballast Sales division; H. K. Pritchard, Manager of the Specialty Transformer Sales division, and P. M. Staehle, Manager of the Specialty Transformer and Ballast Sales divisions, are shown, above, examining the display.

P's and Q's of 17-1

by Joe Kramer

We apologize to our readers for not having a column last week, but due to the lack of news it was impossible to get a column together. So again, to both of our readers, we apologize. . . . We noticed a strange face on the first trick Monday. Of course, he isn't a stranger in Bldg. 17-1 but it has been so long since Jerry Humbarger has gotten up with the chickens, that he had to wear dark glasses to work. Jerry's only complaint is he won't be able to find out how Ma Perkins and John's other wife make out in the afternoons. Maybe you should get a wire recorder, Jerry, and have these two programs recorded so you can play them back when you get home from work. . . . We were glad to see Ed Brosche return from his Florida vacation. In case you want to know anything about conditions in Florida contact Ed as he still has a vivid remembrance of the Florida sunshine. Some people sure are lucky. . . . George Mosshammer lost his appetite the first of the week. It seems George attended the Quarter Century Club outing and partook of too many refreshments—liquid, that is. . . . Herb Kallmeier spent last Saturday listening to the horn on his new Dodge. One night last week after work Herb went out to catch the bus for the trip home. He said he remembered hearing a horn blow but didn't pay any attention to it. In fact, the horn followed the bus all the way to the corner where Herb got off the bus. Of all the people to be in the car, it was Herb's boy who remembered that his Dad had asked him to pick him up after work that night. . . . Anyone having a map showing the best route to and from California should contact Ernie Riley as Ernie is contemplating a trip to California next vacation time. . . . Pete Schible was seen grinding his cut off tools. We don't know but from the looks of things, winter is approaching and Pete is getting ready to gather the wood in for the winter use. . . . We are glad to welcome two more former Division 19 employees back—Bill Hodges and Nora Williams who returned to work this past week. Bill is working in Bldg. 4-B, and Nora is back in Bldg. 2-E. . . . Henry Wichern should keep his tobacco cupboard a little cleaner so that his customers won't get their hands dirty. . . . The new face in the south end of Bldg. 17-1 is Weldon Stucky. With Weldon in the south end, it is going to give Brosche an opportunity to catch up on the sports happenings of the night before as Weldon brings that good morning newspaper to work. . . . Johnny Junk and Cliff Coombes are back on the first trick in Bldg. 17-1 again. Also Orval Haver, who has been on the Bldg. 4-1 paint oven, is back in the punch press section once more. . . . Don't forget to see Clarence Doctor about his HOG STORY of the year. . . . The champions have returned! John (Red) Braden, manager of the G-E Voltmen, has returned with the National Semi-Pro Champion baseball championship for the third consecutive year. Our congratulations to Red on his success at Witchita. We have just received word that Manager Braden was named one of the six outstanding men of the nation by the Witchita press. Another of the outstanding persons was President Truman. . . . Horace Harmon really raises large apples on his farm. Horace brought some apples into work last Monday that were five inches in diameter. It was thought he brought the apples to Neil Allen, but due to some mix-up, Norbert Meyers took them home. . . . Start now to build up your Christmas reserve—turn in those suggestions. Remember the big extra prizes for the best suggestions turned in through September and October.

Birthday Greetings of the week go to Dale Frederick and Don Dickerson. . . . We congratulate Ralph McCain in winning first and third place of the scenery section in the color slide competition at the YWCA Co-Ed Camera Club. . . . An exhaustive investigation of Pete Cunningham's proud boast of a triple addition to the family brought to light the fact that these additions were of the feline nature. The family cat is the proud mother of the three "meowing" children. . . . Dale Frederick (corn raiser) says he has corn as big as telegraph poles. He wonders if any body can beat that—with a story or with the corn? . . . Chris Stauffer (gardener or farmer) brings in tomatoes that weigh a pound and a quarter. . . . George Langenberg was caught passing the sample of peanuts that they gave away on a downtown street. We wonder how many times he passed so he could get the free peanuts from the man.

It's about time somebody invented a weed salad—so the home garden planting season won't have been a total loss.

Personnel-ities

by VEORA HABIG

From all reports the Quarter Century Club picnic last Saturday was a huge success. The committee in charge deserves a big vote of thanks, which is hereby extended to all who helped to make the Thirty-fifth anniversary outing so outstanding. . . . It seems that group discussions soon lead to casual remarks about their favorite make of car. Herschel Smith recently purchased a Dodge and now he and Mr. Freeman are comparing the performance of their respective cars. . . . There is absolutely no excuse why we employees of Bldg. 8-2 should not be safety conscious since Herschel Smith is our Safety Engineer and Don Campbell is in charge of newspaper publicity in connection with the new city ordinance governing pedestrian control. If you are walking close to Herschel, you had better take all precautions to keep your distance, as he is practicing his hand signals to indicate whether he is turning or stopping. Don is becoming more safety conscious and says from now on jaywalking is against his principles. . . . We are happy that the Voltmen succeeded in winning the Championship for the third consecutive year. Congratulations to "Red" Braden and his team. . . . Ruth Shull appropriated an organ grinder that Irene Sprunger purchased for a child's gift and tried a little street vending. Evidently she didn't make enough profit to make it interesting, because she went out of business soon after she started. . . . Happy birthday to Laurene Procise. . . . Our thought for this week is "Well-arranged time is the surest mark of a well-arranged mind."

CLOSING DATE FOR NEXT ISSUE
Monday Noon, September 19, 1949

LOST AND FOUND

FOUND—Russwin key No. 90402. Found at the Q-C Club outing at Limberlost Camp Saturday by Fred Schafenacker.

FOUND—Prayer book to honor St. Joseph. Found in yard by Bldg. 8.

FOUND—White handkerchief trimmed in lace. Found in yard by Bldg. 8.

FOUND—One pair of pearl beads. Found on sidewalk near Lindley Cate.

FOR SALE

G-E REFRIGERATOR—Cabinet ironer. Westinghouse roaster with grill. H-2296.

ARGUS A-2 CAMERA—With carrying case, like new; Green sport coat, size 38; North Star illuminated automobile compass, never used. Huntertown 2911.

1941 FORD—Excellent condition, reasonable. E-3365.

JUNIOR BRIDESMAID DRESS—And slip; also boy's sport coats size 8, 10 and 12. A-67832.

1942 PLYMOUTH—Four-door, special deluxe, radio, heater, good condition, sell outright or take older car in trade. H-20384.

LADIES' WHITE FIGURE SKATES—Size 5½, nearly new; ladies' white roller skates, size 6, perfect condition. 2602 Brooklyn.

COCKER SPANIEL PUPPIES—Seven weeks old. Goodrich Cunningbam, R. R. 4, Huntington, Ind.

FUEL OIL SPACE HEATER—Brand new, never used, heats five rooms, cost $119.50, will sell for $76. 5101 Buell Drive.

REFRIGERATOR—Used one year, 7.4 cu. ft. box, $100; used C-E six ft. box for $50. H-55114.

9X12 AXMINSTER RUG—$10; White handmade silk and cotton baby caps for one to two year olds. A-77601.

FRYERS—Dressed for freezer lockers, 50 cents per lb. 37F40 Arcola.

HORTON PORTABLE IRONER—Like new. H-82881.

CONCORD GRAPES—E-2769.

PEERLESS BLOWER—With motor and Honeywell control, in excellent condition. H-26182.

18 IN. HEATROLA—$16. A-36324 or 714 Russell.

MINNEAPOLIS-HONEYWELL ELECTRIC JANITOR—Spring return, with three controls for coal furnace, used one month. $35. H-19044.

OIL SPACE HEATER—45,000 BTU, heats four rooms, tank, 2/3 full of kerosene. A-99332.

GIRL'S GREEN WINTER COAT—And leggings, size 9, $6, in good condition; lovely large metal doll and furniture like new. $5 A-86476.

WHITE ENAMEL KITCHEN SINK—20x24, $5; kitchen table, three chairs, $3; pair mixing faucets, $3; 12x14 floor register and box, $3. H-19136 after 5 p.m.

FLAT TOP GAS RANGE—Late model. $40. H-77764.

ESTATE OIL BURNING HEATROLA—Used two years, reasonable. A-86640.

GIRL'S WOOL SNOW SUIT—Two piece, dark green, extra sheepllned vest, size 8, like new, $16. H-17472.

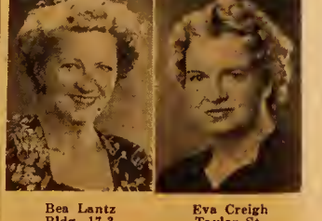
FOR RENT

SLEEPING ROOMS—Single or double, quiet adult home, close to C-E. 308 W. Brackenridge.

WANTED

GOOD 2'8" x 6'8" EXTERIOR DOOR—H-60262.

TRANSPORTATION



WANTS RIDE—Carrie Edgar, from Yoder, Ind. (Smith Road). Works for G. Smith, Div. 13 at Taylor St. Taylor St. Extension 337.

THANK YOU NOTE

IRENE MEYERS WISHES TO THANK All Elex members and friends for their generous contributions and sympathy during the illness and death of her father, William F. Meyers.

G-E GOLF

By Hugh Dubdit

The Day: Saturday, Sept. 17 (tomorrow).

The Time: From dawn until dark.

The Place: Brookwood Golf Course.

The Event: The annual G-E Blind Bogey Tournament.

The Players: All G-E golfers, whether members of the G-E leagues or not.

The Qualifications: Payment of green fees.

Make up a foursome, trio, pair, or come yourself, but come out and be eligible for one of the many prizes.

Also Saturday, the playoffs for the championship will take place at Brookwood at 9 a.m. The teams competing are as follows: Representing the Monday afternoon group is the Wire Mill team, which finished with a point total of 101, thirty-six ahead of second place. Members of this team are Morris, Hills, Kuzeff, Bodeker, Penkul, Irwin, Elward, and Englebrecht.

The Monday night group winners, the Apps, with a point total of 46 is composed of Ralph Wickliffe, Bill Jones, L. D. Lahrman, Louis Davis, Don Dimke, Warren Brown, and Gene Werling.

Red Braden, Bill Kayser, Bob Dent, W. Miller, and Charles Lauer are on the roster of the Nineteenth Holers, winners of the Tuesday night group, with a point total of 50.

The Brassies, of the Wednesday Winter St. group, defeated the Mashies to take the group championship in a playoff between first and second half winners. Their lineup will be chosen from the following: John Skevington, W. S. Kirke, Glenn Schimmele, Glenn Macy, L. S. Burtzner, and L. J. Houser.

The captains of the teams involved in the playoff have declined to name the man to compete at the present time. The playoff will be played over 18 holes. The scores of these men will count and be entered in the Blind Bogey.

We'll see you all out at Brookwood tomorrow.

G-E Touch Football Season To Open Soon

The season for the Touch Football league will soon begin. All players interested in playing this year are to report to either Erv Huth, Bldg. 20-2, Ext. 617, or Dennis O'Connell, Bldg. 8-1, Ext. 798.

The officials of the league would like to have teams from the Firemen, Test Engineers, Taylor St., Winter St., Transformer, FHP Motor, and Apprentiee School, as well as any other section interested in playing.

Special Meeting Announced For Ladies' Bowling League

There will be a special meeting of the Friday Night Ladies' Bowling League at 8 p.m. tonight at the G-E Club alleys. Regular bowling will begin at 8:30 p.m.

G-E Industrial Basketball Practice Set For Sept. 23

Opening of the G-E Industrial basketball season was announced today. All interested players are to be at the G-E Club gym, Friday, Sept. 23, for a two-hour practice beginning at 7 p.m.

ARTHUR C. TREECE IS NAMED MANAGER, EMPLOYEE RELATIONS FOR CHEMICAL DEPARTMENT

Arthur C. Treece, formerly of Fort Wayne, has been named Manager of the Employee Relations division of the Chemical Department at Pittsfield, Mass.

Since 1947 Mr. Treeee has been at the Company's plastics laminating plant in Coshocton, O.; first as manager of the plant and later as assistant to the manager of the plasties division for laminated products.

Shortly after graduating from high school in Fort Wayne, Mr. Treece started as a machine operator here at the Fort Wayne Works. In 1933 he was named general foreman of the mica and insulation and molding seetion. In 1936 he was assigned as produet engineer of the plasties division at the Fort Wayne Works.

After serving as eommercial engineer and sales manager in the Chicago office of the plastics division, Mr. Treece was assigned to the Meriden, Conn. Works of that division. In 1945 he became manager of the Pittsfield Molded Products Works.

PARTIZAN CHAPTER PLANS WHITE ELEPHANT PARTY

The September meeting of the Partizan Chapter of Elex will be held Tuesday, Sept. 20, at 1:30 p.m. in the G-E Club building. It will be in the form of a White Elephant party featuring the sale of articles donated by members. The items brought for sale are to be unwrapped.

Annette Hastings is chairman of the meeting. She will be assisted by Alma Gerberding and Pauline Gilbert.

Congratulated For Long Service

James Grogg, Bldg. 19-1, reached the 30-year mark of his General Electric career Monday, Aug. 29. To commemorate this occasion, several of his friends and co-workers joined in their congratulations. Left to right in the picture are: Kenneth Strong, Mr. Grogg, R. M. Hartigan, Manager of Motor-Generator Mfg.; Walter Gerdom, and Charles Waltemath.

Inquiring Reporter:

IF YOU HAD THE OPPORTUNITY FOR ONE DAY, WITH WHOM WOULD YOU MOST LIKE TO EXCHANGE JOBS?

LLOYD GRIDER

Bldg. 19-1

"President Truman. This way I could get an honest picture and a better understanding of existing conditions of our United States and other world affairs affecting us directly or indirectly."

LOUISE HUGO

Taylor St.

"I can't think of anyone that I would rather exchange jobs with for one day, as I am well-satisfied and happy with the jobs that I have; such as keeping a home and working at General Electric."

HAL HOFFMAN

Bldg. 26-2

"I would like to divide my day between two jobs. First, with the Mayor of Fort Wayne for at least part of the day, to approve measures for traffic conditions and the elevation of the Nickel Plate. The remainder of the day, I would like to sit in on one of the meetings of the American-British monetary conference just to see what goes on behind the scenes."

UNA MAE TINDER

Bldg. 17-3

"Inez Robb would be an interesting person with whom to exchange jobs. Being a newspaper correspondent, she travels to meet interesting people and visits faraway places."

DAVID A. BRIDGES

Bldg. 6-1

"I would like to trade with Charles Wilson, President of G-E. Then I would have an even greater opportunity to work for the good of our Company."

Voltmen Return Home

George Todhunter is shown, above, being welcomed across the base after his home run in the first inning of the Bellingham, (Wash.) Bells game Wednesday night, Aug. 31. This was the second of two markers tallied by the Voltmen in the bottom of the first. They won this game, 6-4. (Officini NBC photo)

In the game with the Weimar, (Tex.) Herder Truckers Monday night, Aug. 29, Weimar Leftfielder Bell doubled to deep right to drive in a mate who had walked in the third inning. In the photo above, Bell is shown being thrown out at the plate a half minute later on a hard collision with Voltmen Catcher Morgan trying to score on Kneuper's single to left. Les Lockett then threw a strike to the plate and thus put an end to the rally, which had brought the score to 4-1. Weimar scored another run in the eighth, but they were unable to overcome the lead which the Voltmen had stacked up in the first inning. The Voltmen won that game, 4 to 2. (Official NBC photo)

Mayor Henry E. Branning, Jr. was on hand Thursday night, when the Voltmen arrived here with their huge trophy. He is shown, above, congratulating Manager John "Red" Braden. In the picture are: (l to r.) Charlie Wilt, G-E Club Manager; Dee Hamilton, coach; Harold Carter, G-E Club president; Mayor Branning, Manager Braden, Charlie Shipman, pitcher; Don Hormann, left field; Bill Ricks, pitcher; Charles Bobilya, right field, and (kneeling) Scott Cary, pitcher.

G-E Voltmen

(Continued from Page 1)

tournament. Manager Braden was selected as pilot of the All-Stars.

The team follows:

Catchers: Marlyn Voss, Golden, (Colo.) Coors, and Carl Brewington, Elk City, (Okla.) Elks.

Pitchers: Voltmen Bill Ricks and Frank Ververka; Al Cicotte, Coors; Bob Mistele, Elks, and Frank Lary, Tuscaloosa, (Ala.) Indians.

First Baseman: Voltman Bill Ebranyi.

Second Baseman: Voltman George Todhunter.

Third Baseman: Ned Formar, Indians.

Shortstop: Ed Coleman, Bellingham, (Wash.) Bells.

Outfielders: Voltman John Corriden; Jack Riley, Elks, and Cliff Pemberton, Coors.

Utility: Willie Skeen, Coors, and Bill Henderson, Indians.

The Voltmen received many congratulatory telegrams from their fellow employees, Fort Wayne businessmen, and sports editors and directors from throughout the country.

In commenting on the national tourney, Manager John "Red" Braden stated:

"Without a doubt, the greatest factor in our favor was that of experience. We met a number of strong clubs; none possessed our all-round balance and ability to work as a unit. This year's tournament had the finest field of any meet in which we've participated. So, we can feel good about turning the trick.

"We were definitely a marked club. The opponents used only their ace hurlers. The fans picked on us unmercifully, even calling the plays for the umpires. Fortunately for us, we took the razzing by the fans and got around the better pitchers by utilizing one big inning or seizing the slightest break.

Coors and our management certified any and all tournament players prior to the first games. There were no violations. We wanted to win and did."

Reject Canadian Series

Then, earlier this week, the Voltmen's season officially closed when Manager Braden and officials of the G-E Club announced that the Voltmen would not participate in the 1949 North American series.

The announcement was as follows:

"Not being able to anticipate a possible Canadian-American Series prior to the windup of the National Semipro tournament, it was impossible to arange any definite plans with the Voltmen players for extending their playing season. The Voltmen are all employed in industry or have a business of their own and have returned to those occupations following the completion of the Wichita meet. It would be unfair to the Voltmen supporters for us to field any team for the International Series other than the one that captured the title.

"Co-operation in scheduling a minimum of conflicts during the playing season by the Pistons and Daisy managements has been appreciated both by the Voltmen management and the public. It would be unfair to compete with the playoff games now scheduled for these two local teams.

"Although the Voltmen missed a berth in the Michigan-Indiana League playoffs, we feel that our season was brought to a successful conclusion in the bringing of the third successive national title to Fort Wayne."

Kitchener, Ont., won the Canadian national title this year and was ready to meet the Voltmen in Fort Wayne, before the cancellation was announced by the Voltmen management and affirmed by the National Baseball Congress.

World's Series In Japan

The congress announced this week, however, that the series will definitely be played again in 1950 with the winning team scheduled for the world's series under the National Baseball Congress jurisdiction at Tokyo, Japan.

General Douglas MacArthur has approved the world's series for the non-professionals at Tokyo next year with the winner of the United States-Canadian playoffs to represent this hemisphere under NBC zoning regulations. The Eastern Hemisphere will be represented by the team winning playoffs between national championship clubs from Korea, Japan, China, and the Philippines.

London, Ont., won the North American title for Canada last year by winning the rubber game of a best-out-of-seven series over the Voltmen.

Definite site and dates for the 1950 North American series will be announced later this year. The series will be scheduled so that the winning team can be in Tokyo in time for the non-professional world's series there.

John Corriden, centerfielder, is shown receiving the Sportsmanship Trophy. (Official NBC photo)

"We want to make it clear that we added players to our club for the sole purpose of winning the meet and maintaining General Electric's position at the top of the semipro standings. It would not have been right for us to make the trip without the feeling that our chances were A-1. Critics of our policy might take note of the fact that the Coors flew in Al Cicotte from New York especially to hurl two games against us. A similar move was made in getting Clayton Freese for the finals. Both the

Good Progress

There are many encouraging signs that things have been soundly on the mend.

Automobile production in August was greater than the previous all-time record set over twenty years ago.

The scheduled steel production rate turned back upward to 86.3% of capacity, after reaching a low of 77.8% in July.

Paper manufacturing rebounded upward. Textiles showed further marked recovery.

Refrigerators and many other appliances continued on the "improved" list.

* * *

Meanwhile, values have been getting more attractive in almost all lines.

Department store sales jumped upward about 15% in the week ending August 20, from the previous week.

Retail sales in general for July were up to within 3% of a year ago, after having stood up surprisingly well during the last ten months during which one industry after another had its decline and then began its recovery.

Factory, wholesale, retail, and home stocks started filling back up with new goods at the improved values.

The latest Bureau of Census figures (for July) showed civilian employment had already risen back up to 59,720,000, a new high over any former peacetime period except during six months of 1948 and two months of 1947.

* * *

While all this was going on, the latest report of the Bureau of Labor Statistics disclosed that the cost of living had again gone down slightly. And there was the prospect of further declines in food and clothing to more than make up for some increases in rent that apparently yet must be made because of construction costs.

* * *

Some of the increased buying . . . some of the beginning replacement of depleted inventories . . . may have been in expectation of possible fall strikes in the steel, auto, rubber, and electrical industries. But most of it was real business . . . real evidence that we are soundly on the mend in this country despite our burdens at home and abroad.

This healthy progress can continue. But it *will* continue only if we keep at work—and keep up our resistance to ill-advised cost increases—so as to be able to keep on offering customers the kind of values at which they can and will buy.

ANTI-WASTE CAMPAIGN IS LAUNCHED

Specialty Transformer, Ballast Divisions Plan Annual Sales Confab

"Cooperation Beats Competition" Is Theme Of Meeting To Be Held At Lake Wawasee, Sept. 25-28

The Specialty Transformer and Ballast divisions of General Electric will hold their fourth annual sales conference at South Shore Inn, Lake Wawasee, Sept. 25-28, it was announced today by P. M. Staehle, Manager of the Sales divisions.

"Cooperation beats competition" will be the theme of the conference. This theme will be exemplified by means of a football motif which will be carried throughout in posters, charts, and prepared talks.

Emphasis will be placed on a better understanding of the customers' need for prompt, efficient service in this era of stiff competition.

Committee Announces Program For Family Nights Oct. 12-15

The Family Night Committee is shown getting in the mood for the film, "Our Family Album," which traces the history of the Fort Wayne General Electric back 50 years. Seated: (l. to r.) J. E. Estabrook, chairman, and R. A. Woehr. Standing: I. H. Freeman, C. J. Monroe and Frank Ondrovik.

A series of G-E Family Night programs are being planned for all employees, their families and friends, it was announced today by a committee representing the various product, service and contributing divisions.

Wednesday, Oct. 12; Thursday, Oct. 13; Friday, Oct. 14, and Saturday, Oct. 15, are the dates scheduled for the programs to be held in the G-E Club auditorium.

The show will feature "Tremblin' in the Kremlin," a stage presentation featuring a Broadway cast; "By Their Works," the latest G-E film, and the first showing of "Our Family Album," a film devoted to Fort Wayne General Electric.

In order to make it possible for all employees and their families to attend, two afternoon performances in addition to evening presentations have been scheduled for the four days.

All Divisions Plan Programs To Reduce Loss

An accelerated program to eliminate waste has been inaugurated throughout the Fort Wayne Works to reduce unnecessary costs in product prices.

This program is one of many being conducted during the next few months in accordance with plans laid at the time recognition was given to President C. E. Wilson for having completed 50 years of service with the Company.

Committees have been appointed in the product, service and contributing divisions to organize and promote this program.

The FHP Motor Manufacturing Loss Control representatives will act as chairmen of the FHP divisional committees. They are: B. C. Parent, Div. 1; M. W. Reed, Div. 15; H. B. Reynolds, Div. 16; J. E. Kramer, Divs. 19 and 20; G. E. Zollers, Div. 13; A. W. Weisenberger, Div. 14; G. L. Smith, Div. 17; C. H. Kleinknight, Div. 7, Decatur; A. L. Rediger, Div. 27, Tiffin, and D. B. Waltenberger, Div. 30, DeKalb.

The FHP Motor Committee for Elimination of Waste will coordinate the activities of the divisional committees. Headed by W. H. Sunier, the committee consists of

(Continued on Page 3)

Preparations Are Made For Annual Inventory

Preparations were being made this week for the Annual Physical Inventory, which will be taken Friday, Sept. 30, at the Broadway and Taylor St. plants.

All divisions will take the inventory Friday except certain divisions at the Taylor St. plant and the Decatur plant, which will conduct the inventory Saturday, Oct. 1.

In general, all shop operations will cease for the day, except for emergency production and service requirements. All salaried persons will work as usual, unless notified.

The WORKS NEWS will be issued on Thursday next week because of the inventory Friday.

EMPLOYEES' STORES CLOSE NEXT WEEK FOR INVENTORY

The Employees' Stores at the Broadway and Taylor St. plants will be closed Wednesday, Sept. 28; Thursday, Sept. 29, and Friday, Sept. 30, for inventory.

Elex To Take Excursion To Sonja Henie Ice Revue

The Elex club will sponsor an excursion to see the Sonja Henie Ice Revue Saturday, Dec. 3. Buses will leave the Greyhound station for Indianapolis early Saturday morning and will return to Fort Wayne that night.

Elex To Hold Conference In Chicago October 15-16

The Elex Club's fall conference will be held Saturday and Sunday, Oct. 15-16, at the Palmer House in Chicago. All contact girls are urged to attend this two-day meeting. Members are also invited.

The conference cost is $20. This includes the bus fare, hotel room, Saturday dinner, and Sunday luncheon, and registration fee.

Chairmen Of Community Chest Drive Schedule Meetings For Solicitors

Solicitors for the Community Chest drive will meet next week for final instructions before opening the campaign Monday, Oct. 3.

The goal for the Broadway, Taylor St. and Winter St. plants has been set at $45,000, exclusive of the Company's contribution. Goals for the divisions are as follows:

FHP Motor Divisions	$19,710
Works Service, Contributing Div.	$9,720
Specialty Transformer, Ballast Div.	$6,660
Motor, Generator Divisions	$5,445
Winter St.	$3,465

The meetings of solicitors will start Tuesday. The first shift at Taylor St. will meet at 8:30 a.m.

(Continued on Page 4)

Chairmen for the Allen County Community Chest drive at the Broadway, Taylor St. and Winter St. plants are shown, above, at one of their recent meetings: (l. to r.) Dwight M. Myers, Motor and Generator division; Roger Grant, Winter St. plant; K. W. Michael, General Chairman; R. L. Soughan, Specialty Transformer and Ballast divisions; Dick Kent, Works Service and Contributing divisions; Robert J. Duras, FHP Motor divisions at Taylor St., and D. H. Hanson, FHP Motor divisions at Broadway. J. V. Johnson, co-chairman for the Works Service and Contributing divisions, was not present when this picture was taken.

Immigration Is The Sincerest Form Of Flattery

If capitalism is wrong, why don't people who hate it leave America? If socialism is desirable, why don't they go to England? If communism is what the so-called "common man" wants, why doesn't he move in droves to Russia?

Nobody wants to leave America—but tens of millions of men and women all over the world, in every country, want, yearn, plead for the chance to come to America.

Parlor pinks here lisp about the beauties of statism, where the government guarantees security. People in those countries know all about this business of government taking care of you from cradle to grave. Particularly the grave. Do what you're told or you get hurried into it.

They vastly prefer America, with its chance for progress, its high living standard, its liberty, its dignity of the individual. They'd swap security for your liberty any time. Look out that you aren't talked into the trade.

—Warner & Swasey

Rear Admiral Jones Extends Navy's Gratitude To G-E Personnel

Through the fine efforts of the Fort Wayne Works and local representatives of the Lamp Department, two special, deep-sea diving lamps were flown here several weeks ago from the G-E Lamp Dept. headquarters in Cleveland, O., for use by Navy divers to aid them in the search for the body of Bernice Bremer, 6.

The little girl, her sister, brother, and cousin drowned August 14 while attending a reunion at Clear Lake.

G-E personnel did a commendable job in contributing their time and talents to checking and adjusting the mobile power units and assisting the Navy in their efforts. In recognition of this, the following letter was received this week by John E. Estabrook, Assistant to the Works Manager, from Rear Admiral J. Cary Jones, Commandant of the Ninth Naval District at Great Lakes, Ill.:

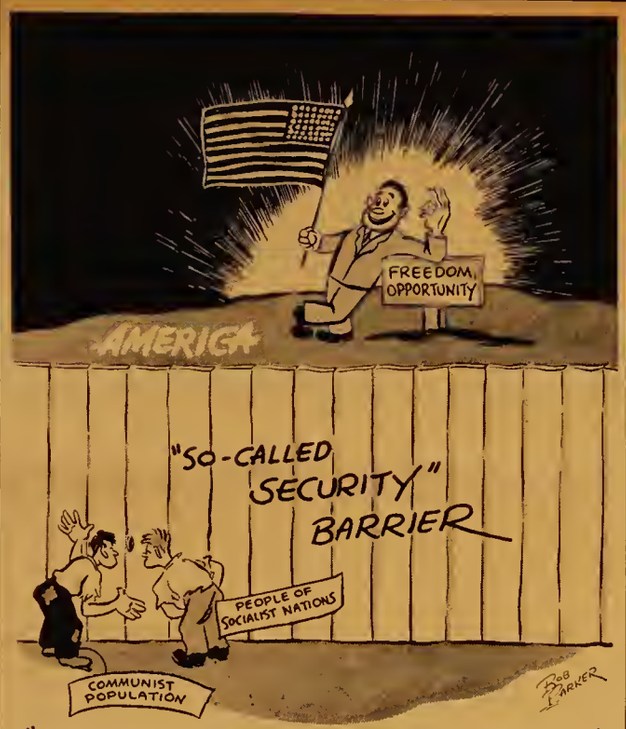
"The Navy men who participated in the recent diving operations at Clear Lake in an attempt to recover the body of the little Bremer girl have reported to me concerning the whole-hearted cooperation of the General Electric Company and yourself in making the facilities of your plant available and in furnishing items of underwater diving equipment.

"On behalf of the Navy, and particularly for Headquarters Ninth Naval District, I thank you sincerely for your help and interest, both of which were invaluable and made possible the necessary underwater exploration.

"Please extend my personal gratitude to the General Electric personnel who cooperated with us so appreciably."

* * *

HOW LUCKY ARE YOU?



History proves that man has been lucky—or unlucky—for hundreds of years. So much does Luck play an important part of our lives that we are inclined to overlook the real concept of it.

What is Luck—really?

Asked if he believed in Luck, a modern wise man answered: "I should say I do! It's a wonderful force. You see some fellow reach out and grab an opportunity that the other fellow standing around had not realized was there. He calls into play his breadth of vision. He sees the possibilities in the situation and has the ambition, desire and courage to tackle them. He intensifies his strong points, bolsters his weak ones, cultivates those personal qualities that cause other men to trust him and cooperate with him. He sows the seeds of sunshine and good cheer, gives freely of what he has. He thinks a little straighter, works a little harder and longer. He doesn't worry over trifles. He plans his work ahead and sticks to it, rain or shine. He talks and acts like a winner for he knows in time he will be one . . . . And then —LUCK DOES ALL THE REST!"

Just how lucky are you? The opportunities for you to "cash in" on good fortune are all around you. To what extent your good luck will be is limited only by your own energies and foresight.

So let yourself go!

"THAT FELLOW SURE LOOKS HAPPY"

G-E Company Puts Human Factor First

Editor's Note: The following article is one in a series published by the CHICAGO TRIBUNE on human relationship in industry by Clayton Kirkpatrick. This appeared in the Sept. 20 issue.

Three years ago top executives of the General Electric Company, including President Charles E. Wilson, appraised themselves and decided they were failures.

They stood at the head of a billion dollar enterprise preeminent in the manufacture and sale of electrical equipment. They were bosses of nearly 200,000 employes. A quarter of a million stockholders had enough confidence in them to lend them their savings. Millions of Americans liked their products enough to spend a billion and a half dollars a year for them. By every material standard the company was a success.

Failure Is Recognized

What weighed on Wilson and his staff, however, was a failure in the field of human relations. They believed they had failed to provide jobs that adequately satisfied their employes. Furthermore, in common with some other industrial enterprises, General Electric did not seem to be liked, respected, appreciated, or ever understood by great numbers of Americans.

They recognized that if they and other business leaders did not do something really effective to recover the good will and confidence of their workers and the public in general, they could not hope to survive and the free enterprise system was doomed.

There are the circumstances that have inspired one of the most enthusiastic, energetic, ambitious, and carefully planned programs for improving employe and public relations the United States has ever seen.

Wilson and his staff are out to sell General Electric's social and economic value as a place to work. They are out to sell the advantages of the American free enterprise system. They are organizing the campaigns with the care and resourcefulness they have shown in launching new products in the past.

And as far as the General Electric employe is concerned, the company is selling a new product. In typical sales parlance it is called by its principal promoter, L. R. Boulware, vice president in charge of employe relations, a "nine point, new model job."

The new General Electric job offered in the summer of 1947 contained the following ingredients:

1. Good pay. The company undertakes voluntarily to give each worker what is right in comparison with pay for similar work under similar conditions in the plant and the community. The company makes a genuine effort to keep pay rates equitable. In addition it offers such extras as paid vacations and holidays, life insurance, suggestion awards and other benefits, including stock bonuses for thrifty workers.

Good Working Places

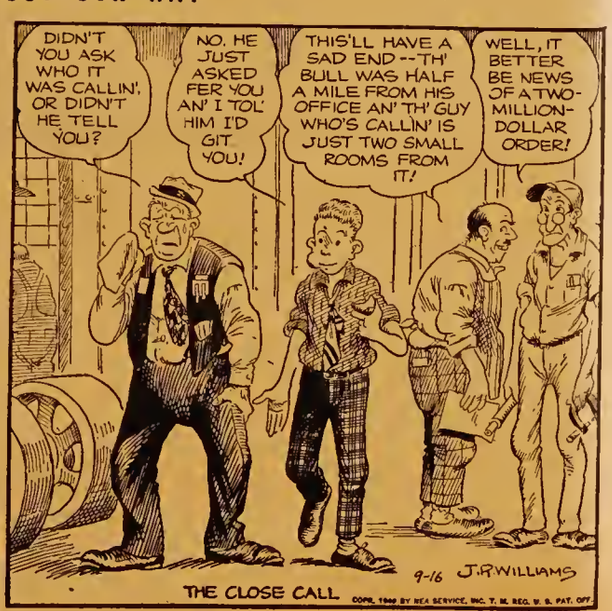
2. Good working conditions. Management tries to find and welcomes suggestions from employes leading to safe, well equipped, convenient, and pleasant working places.

3. Good bosses. The functions of foremen and supervisors are expanded to include the building of good morale as well as good products. Leading rather than pushing is emphasized.

4. A chance to get ahead. Promotions are made fairly and on the basis of merit.

5. Steady work. Production is planned, so far as possible, to match a steady flow of orders. Selling programs are designed to combat seasonal peaks and valleys so that work will be steady.

6. Being treated with respect. General Electric believes that every American is entitled to be treated with respect. Management aims to see that every worker is recognized as an individual and that his dig-



(Continued on Page 3)

Now is your chance to help a swell guy put over a swell job, by helping Ken Michael put over the Community Chest Drive 100 percent. . . . Now that Mel Kiessling is doing a little architect work on the side, we will expect to see not only a happy Fort Wayne, but a more beautiful Fort Wayne as well. . . . Speaking of things beautiful, we understand that Fred Fenner's new home is going to be very liveable as well as lovely. . . . Your reporter staged a little contest with Vern Castle the other day. I had a box of candy bars on my desk, celebrating my birthday, but I lost all of my customers when Vern came in with a new fish pole. The male population just weren't eating candy then. . . . We extend our sympathies to Laurel Weaver in the death of her father, Marion Bacon, who was also an employee.

OUT OUR WAY

By J. R. WILLIAMS

Anti-Waste

(Continued from Page 1)

Harold Carter, T. L. Staley, F. T. Gamec, R. A. Wefel, and L. A. Erickson.

The committee for elimination of waste in the Large Motor and Generator divisions includes: E. C. Reese, chairman; W. R. Blomker, secretary; R. M. Hartigan, A. N. Farrell, and C. L. Anderson.

The following have been named to committees in the Works Service and Contributing divisions to eliminate waste: Doyal G. White, J. L. Lare, C. A. Brenner, J. B. Greer, H. E. Hire, l. D. Rinehart, A. W. Howard, R. T. Craig, M. H. Tam, P. G. Singleton, H. S. Shields, L. D. Platt, E. K. Wolfe, W. P. Altekruse, A. E. Leider, C. D. Uncapher, C. R. Olson, H. B. Leach, and R. L. Kierspe.

The central committee for the Specialty Transformer and Ballast divisions consists of H. P. Koogle, Inspection and Test; C. W. Kronmiller, Engineering, and H. P. Korte, Manufacturing.

Floor committees will be established in the near future, with the Quality Control man acting as chairman of each committee.

Organize FHP Committees

The committees for manufacturing loss control of FHP motors are composed of representatives of various functions. These include an Engineering representative, Supervisor of Planning, General Foreman, Supervisor of Inspection and Test, and other interested persons as assigned by the superintendent or branch plant managers. Manufacturing Loss Control representatives are then named as chairmen.

W. H. Sunier, chairman of the FHP Motor Committee for Elimination of Waste, points out:

"These people are in close touch with the waste and losses peculiar to the type of motors and parts they manufacture and, with the help of their co-workers, they will carry their waste elimination program to the desired reduction."

The coordinating committee plans an early meeting with the Manufacturing Loss Control representatives.

Emphasize Losses

Special emphasis will be given to manufacturing losses which constitute the major element of waste in manufacturing of motors.

Manufacturing losses include:

(1) Rework and repair labor spent in reworking parts or motors which do not meet specifications, or fail to meet our customers' requirements.

(2) Scrap, which is the material or parts which cannot be reworked to specifications.

(3) Extra costs which become necessary because normal planned methods cannot be followed in meeting our customers' needs.

In commenting on this latter group of losses, Mr. Sunier stated:

"These losses are not restricted to the manufacturing operation, such as machining, grinding, casting, winding, or assembly. They also include those losses caused by errors in interpretation of customers' requirements, design, drafting, material purchasing and scheduling, as well as inspection and testing. This emphasizes the fact that all who are a part of the FHP Motor divisions have a real part in our program for elimination of waste."

Stress At Meetings

The Large Motor and Generator divisions, according to Chairman E. C. Reese, will base a great part of their campaign to stressing the importance of waste elimination at foremen and supervisors, engineering, and informative meetings.

An aggressive drive is also being made in these divisions to reduce all losses; improve usage of shop supplies and reduce the expense of tools; improve material usage, and product quality.

Breakdowns of various expenditure items are being made, distributed, and discussed to illustrate the actual costs involved.

Engineer to Assist Program

The full-time services of Dale E. Amstutz, rotating engineer, have been obtained by the Large Motor and Generator divisions to assist in the extensive studies of major loss items.

Sub-committees are also being established for projects as they are required. The first sub-committee named includes J. E. Laisure, H. S. Garton, L. C. Michel, and Dale E. Amstutz.

Committees Stimulate Interest

The committees have been selected for the Works Service and Contributing divisions to include the greatest users of the account and other individuals who may assist in the control of expenditures charged to those accounts. It is hoped that these committees will be able to stimulate interest and inspire those who can do the most to eliminate waste, especially in the Works Service division, but also in the product divisions on such accounts as power, heat and light, water, maintenance, shop service, and shop supplies.

G-E Club To Hold Square Dance For Employees, Families Oct. 7

A square dance will open the G-E Club's 1949-50 entertainment season Friday, Oct. 7, it was announced today by Ralph Heminger, chairman of the entertainment committee.

The dance will begin at 8:30 p.m. and will consist of both round and square dancing to the music of Joe Taylor's Indiana Red Birds band. Mr. Taylor works in Bldg. 27; his bass player, Bill Allen, is at Taylor St., and Ed Parker, the caller, works in Bldg. 24.

This group played for the G-E Club's dances last year and can be heard every Saturday at 11 a.m. over Station WFTW.

All employees and their families are invited.

Membership cards will be required for admission to the G-E Club auditorium. The cards may be obtained from George Waldschmidt, Bldg. 8-2.

Three 'Failures'

(Continued from page 2)

nity is never in any way offended. Members of management seek to deserve similar respect from workers.

Workers Get Facts

7. Getting the facts. To satisfy employes desires to know what is going on in the company, management tells them about plans, successes, setbacks, and problems.

8. The worker's importance. The company undertakes to give each worker more information about the requirements, responsibilities, and possibilities involved in his job. It emphasizes that each job is worth while and important.

9. Liking the job. Efforts are made to make each job genuinely attractive, interesting, and deeply satisfying.

General Electric does not consider its responsibility finished, however, when it creates and sells to its employes a satisfactory job. It has undertaken the additional task of teaching its employes the fundamental economics of the free enterprise system.

Its 15,000 supervisory employes are given courses in company sponsored schools. They are expected to pass along to workers information on the relation of profits to progress, for example, and how the income from a big enterprise is divided among its stockholders and its employes.

In addition, it distributes to employes each week a statement from the company explaining matters affecting the company and its operation. The information is factual and presented in simple language. The General Electric Commentator, after it is distributed to employes, is published in the general newspapers of the cities where the company has plants. These reach an audience of some 7 million persons.

Subjects of the commentators include such controversial issues as the company's attitude toward unions (it accepts and does not fight recognized unions), the company's profits, and their distribution, revision of the Taft-Hartley law, extra pay in benefit programs, and other matters.

Company Speaks Its Mind

General Electric speaks its mind and tells the facts. It is committed to a policy of truth and "talking it over" no matter how distasteful that might be occasionally. It refuses to be silenced by its lawyers, by public relations counsel intent on discretion, or by the size of its opponents—quite often the federal government.

In the words of President Wilson, "This is it, and nothing is going to matter if, through failure even to try to seek the truth and to speak up publicly in discussing it, we should go the way of others—in ignorance and cowardice—to the end of our freedom, and hope, and material and spiritual well being."

Specialty Transformer

(Continued from Page 1)

"The problem of delivery has become much more acute," states Mr. Staehle, "since manufacturers, distributors, and others are reluctant to maintain the inventories which they once thought were necessary."

New product developments in ballasts for fluorescent lamps, aircraft transformers for national defense, television transformers, and heavy duty transformers will be announced to the salesmen and fully discussed.

The conference will be attended by key district salesmen from all parts of the nation; representatives from International General Electric and Canadian General Electric; Apparatus Department personnel from Schenectady, N. Y., and local sales, engineering and manufacturing personnel.

M. F. Bacon Dies

Marion F. Bacon, 53, of 529 Kinnaird ave., died Thursday, Sept. 15, at the Lutheran Hospital following a week's illness. An employee of the Motor and Generator division, he worked in Bldg. 19-1.

Services were held Saturday at the Klaehn funeral home at 3 p.m., with Dr. Elmer E. Voelkel officiating. Burial was in Lindenwood Cemetery.

FHP Motor Divisions Present Display Of Products At Chamber Of Commerce

Gordon Graham, Manager of the G-E Apparatus Department's Sales Office at Fort Wayne, R. C. Hanna, Assistant Manager of Sales for the FHP Motor divisions, and Allen Tremper, Director of Purchases for the Wayne Pump Company, are shown looking at the display exhibited at the Fort Wayne Chamber of Commerce by the Fractional Horsepower Motor divisions. This display is part of a series by Fort Wayne manufacturers and is being exhibited from Sept. 16 to Sept. 30. It illustrates to local businessmen the wide varlety of G-E motors used in Fort Wayne industry. All motors on exhibit are used by one or more Fort Wayne firms.

Products exhibited are a gasollne pump motor, jet pump motor, and sump pump motor from Division 13; ironer motor from Division 17; seriea motor parts from Division 1; oil burner motor from Decatur; washing machine motor from DeKalb, and general purpose motors from Decatur and Division 14.

Central Standard Time

At midnight Saturday, Sept. 24, the Daylight Saving Schedule will end and clocks throughout the city will be set back one hour, returning to Central Standard Time.

The Broadway and Taylor St. plants, however, will not change their clocks until midnight Sunday, Sept. 25.

Any third shift operators working on Sunday night will ring in on Daylight Saving Time and ring out on Central Standard Time so that the interval worked will be one hour more than the clock card registration. The Payroll sections will take notice of this adjustment in time.

The Decatur plant will change to Central Standard Time on the same week-end as Fort Wayne.

C. S. Matson
Works Manager

Birthday greetings go to Evanell Holman. We understand she won herself a birthday present in the form of a blanket at the Auburn street fair. . . . Yes, it is Herschel (Strong Arm) Smith again. We understand the first performance that he put on with the 50 lb. weights was free. At all performances hereafter, there will be a slight fee. We also understand the competition wasn't too great as he had a crowd of pensioners as his audience. . . . George Waldschmidt is most unhappy with the noise and clatter of the weaker sex in Bldg. 8-2 as they leave the building. We would like to ask the girls to be a little more quiet for George. . . . Lois Miller spent the week-end at Hamilton Lake. She said it was too rough for fishing, but she enjoyed herself eating and playing cards. . . . Yours truly spent one night at the Auburn street fair and was rained out. . . . Cora Polhamus has contacted Herschel Smith for steel mitts to be worn when approaching the door of Bldg. 8. . . . Don Campbell had two guests from the New York office last week: Fred Neal, Manager of Publications (WORKS NEWS), and M. T. Hicks, WORKS NEWS Co-ordinator. . . . Jean Smith reported to work Monday on time, much to everyone's surprise. She baked a cake over the week-end, but we hear from good authority that she did not partake of it. Smart girl. . . . The report from the Suggestion Office is that this contest has really stirred our employees into action. We are happy to see such an interest shown. . . . Bill Allen and his wife were among those present at the Auburn street fair. . . . Iris Knapp, formerly of Bldg. 8-2, says "hello" to her many friends in the Personnel Div. and if she could get Cheryl (the new arrival) past the guards she would like to make an appearance to say "hello" too.

Who is going to be guilty of not setting his clock back this week? . . . Morris Hicks co-ordinator of all the WORKS NEWS in G-E and his superior Fred Neal were guest speakers at our last column writer's meeting and gave us some interesting information on WORKS NEWS activities in the various plants throughout the Company. . . . Ward Staley has tried to do his bit toward aiding the state conservation program, but it has always ended in failure. First he tried to hatch some quail eggs in a homemade incubator, and then the other day he got a pair of quail to raise. After spending considerable time preparing a nice pen he went to transfer the birds from their small box to the larger pen. There was a loud whiring noise and the birds were gone. Now Ward has a "for rent" sign on the new pen. Can't some of you conservationists get him another pair of quail? . . . Lately we have had a considerable parade of people through the aisles with the little white introduction cards. This is a much more welcome sight than when they have the brown envelopes. . . . Jack Pollock is still having difficulty with his friend Jerry Knight early in the mornings. He either comes to the door in his pajamas yelling that he will be right out or is asleep on the porch with the paper over his face. One morning Jack said it looked like Jerry was catching crickets along the foundation of the house. . . . It is a pleasure to report that John Leiendecker, Jr., the four-year-old son of John Leiendecker our micrometer checker, is making good progress at the Lutheran Hospital where he has been a patient since being stricken with polio. Junior is now able to be up and around some, on his own. . . . Birthday greetings this week to Paul Boedeker. . . . When we asked Howard McMaken how he made out at the Auburn street fair, the only reply we could get was, "No comment." . . . Walter Schelper is back after his third week of vacation. He spent it traveling west as far as Iowa where he spent some time visiting his son.

Celebrates 35th Anniversary

Walter F. Rehling, Bldg. 4-5, celebrated his 35th anniversary with General Electric Sept. 18. Last Friday several of his friends joined with their congratulations and best wishes on his long service. Left to right, above, are: H. G. Siebold, FHP Div. 15 Supt.; Mr. Rehling, Ernest T. Kromm, C. J. LeGras, foreman; Wilbur E. Tibbitts, E. F. Sonday, General Foreman, and Harry C. Grimm.

Women's Division Of Squares Club Elects Officers, Announces Calendar

Mrs. Marvin A. Baker was named president of the Women's Division of the Squares Club. Other new officers include: Mrs. Lee Beard, vice president; Mrs. Orval Doherty, secretary; Mrs. Robert H. Johnson, treasurer; Mrs. Robert Rowe, and Mrs. Frank Fleischer, members-at-large, and Mrs. C. J. Herman, president emeritus.

The following committee chairmen were named for the 1949 season:

Program, Mrs. Kenneth Wheatley; house, Mrs. Ronald F. Robinson; membership, Mrs. William A. Pringle; publicity, Mrs. Gilbert E. Jamieson; telephone, Mrs. G. E. Hicks; nominating, Mrs. Elwood M. Stansbery, and contact with the Squares Club, Mrs. Robert Hanna.

The annual reception was held yesterday at the Squares hall on Berry St. C. Lane Breidenstein of the Fort Wayne Better Business Bureau was the main speaker. His topic was "How Not To Be Swindled." Mrs. I. H. Freeman and Mrs. J. J. Clarkson served as co-chairmen of the meeting.

The calendar for the new year is as follows:

Oct. 15, potluck and bridge party for members and husbands; co-chairmen, Mrs. C. H. Rinne and Mrs. J. B. Greer.

Nov. 17, Thanksgiving bridge with Fred Smith of WKJG as speaker; co-chairmen, Mrs. Max Barrows and Mrs. Lore Ferverda.

Dec. 14, Christmas bridge for members and guests. A children's dance recital will be on the program. Co-chairmen are Mrs. Frank Chayka and Mrs. John Margerum.

Jan. 19, meeting will feature a white elephant sale and an informal bridge. Co-chairmen are Mrs. Robert Rowe and Mrs. Walter Konow.

A potluck and bridge for members and husbands will be held Feb. 18. Mrs. Harold Carter and Mrs. Marvin Schmidt are co-chairmen for the event.

A newcomers' bridge party will be held Mar. 22. The annual style show and guest bridge will be April 26. Co-chairmen will be Mrs. Larry Wightman and Mrs. R. W. Dochterman. The May 24 meeting will he the "Last Roundup" and election of officers. Mrs. Clifford Leegard and Mrs. K. K. Cooper are co-chairmen of the event.

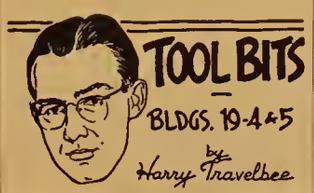
Community Chest

(Continued from Page 1)

and the second shift, at 4 p.m., in the cafeteria; the first shift at Winter St. will meet in the conference room at 1:30 p.m., and the first shift at Broadway will meet at 10 a.m. in the G-E Club auditorium. The second shift at Broadway will meet Wednesday at 4 p.m. in the large conference room of Bldg. 8-2.

A sound, slide film and a talk by Herbert Weil, co-chairman of the Allen County Community Chest drive, will be presented at each meeting.

Tours have been arranged for groups of employees to some of the Red Feather agencies. Yesterday noon a group visited Pixley Child Welfare center; this afternoon another group will tour St. Vincent's Villa, and Monday morning a tour will be made of the College Club Day Nursery unit of the Children's Day Care Association.



US SECOND SHIFTERS

By Earl Stauffer

Time has come for the second shift to find its voice. This column then is our answer. The success of "Us Second Shifters" depends on all who work with the Owls after dark. . . . No lead off item could be any better than the one from Bldg. 17-2 where we learn that the stork paid a real visit to the Joe Hawks. Frank Sylvester and Frances Esther, twins make a total of seven children for the Hawks. . . . Russ Bowdy, Ed Lathomer, Melvin Cook (who incidentally is a good amateur photog), Dick Maxton, Russ May, Clarence Weimer, and Bea Lantz have all rejoined the fold in Bldg. 17-2. . . . Mary Heymann, Eileen Foor, Helen Lantz and Barbara Wilson have formed a whizbang bowling team for the coming season. . . . The stork also dropped a girl at the Bill Millers, Bldg. 17-2. . . . Cedar Shores, some ten miles from our fair city, gives us the best fish yarn. Big Bill Geist, Bldg. 17-4, and his boys have taken so many bass out of that small lake that the water must have gone down an inch. Ask Bill if you don't believe me. . . . Now you can call Pete Marke, Bldg. 4-5, "Grandpappy." One grandchild, a boy, came along Sept. 13. From our Bldg. 4-5 informer we hear that Iris Summers and Clara Dixon are going on the first shift. . . . Happy birthday to Bernadine McCune and Bob Williams in Bldg. 4-5. . . . From the Repair and Return section Bldg. 4-4 we learn that Ray Smith bid goodby to the gang 'till the first of "50" last Friday night. . . . Arnold Benz plans to go to Cincinnati for a few days and loaf the rest of his third week of vacation. . . . Howard Keppler will take over while Cecil Onion is away to the convention. . . . That ever busy stork found the "Ramrod" Martins and brought girl No. 2. . . . We do not as yet have any one from across the street to dig up the news but the choicest item is about those three time champions the "Hot Shots" Bob Craig, Lloyd (I want to be President) Grider, Warren Wickliffe, Jim Sternberger, and Oscar Bunch of the Owl Golf League. . . . In order to make this column a whale of a success write up interesting items and send them to Earl Stauffer, Bldg. 17-4, second shift. . . . Oh yes, If you don't like the above name suggest a new one.

Nearly half of September is over. Already we hear that Thanksgiving is just around the corner. . . . What a nice automobile Phil Baker is maneuvering about town. Such streamlined lines it has. The airplane-front design sure gives it class. Phil, that's a mighty nice Studebaker. . . . Another new car owner is Mary Reed. She too is driving around a fine car. We didn't know, Mary, that you could operate one of those four-wheeled critters. . . . Well, if this isn't a good one. It sure is—driving his car to work then walking home at quitting time and all the way mumbling censored sayings about the little wife not coming after him and upon arriving home discovers that the bus still was parked in the G-E lot. John Morgan, let's give the little woman a hand. . . . Many of us are readers of good novels but Shoup, a book-of-the-month reader, has quite a library of high class literature. Shoup, let's borrow a few of your last editions to read in our spare moments. . . . Betty Reichert is taking treatment at Ann Arbor this week. Hope your treatment is a success, Betty. . . . Ralph Stanley was a sightseer at the Winchester Air Show. He can tell you about blowing up a balloon for a balloon ascension. He's good on finding "wabbits nests" on airports too! . . . The bowling season is here again. We should get some news about the gang. Chet McIntosh tops the first night average. After telling the other ones how to keep their average down, he pops up with a 275. With a little practice a 300 is soon in order. . . . How did you do it, Chet? Oh yes, you said you've been practicing all summer. . . . Mina Lampe surely must have a lot of riders these days. We saw a big semi-truck parked at her place the other day. Or is it that you just like to give them a variety? . . . Bonnie Foor is back with us again, a winder on Leonard Meyer's line. . . . A cheerie greeting to Rita Wellman, Viola Melchi, Dorothy Heimann, Irene Bieberich, and Flossie Hower. . . . Dan Zeser would like to enjoy a "little more sleep" these cool mornings. . . . To Harvey "Hoot Owl" Hileman goes credit for good housekeeping—handy with the broom. . . . Any odd jobs of hauling, Pete Koenig will be the little man to do it for you. . . . Paul Schamerloh always seems to smile when things goes wrong. How do you do it, Paul? . . . Joe Weber is back after a week of illness. Hope you feel as good as ever, Joe. . . . Have you noticed that worried look Ezra Brandyberry carries around lately? He is absolutely worried "hairless" over all the applicants for the Indiana Dance. . . . Leona Tinner just bubbles over with laughter these days. Have you noticed her new outfit? . . . We all sincerely hope for a speedy recovery for Dave Embler's little boy who has polio. . . . Have you noticed the good looking corduroy jackets worn these days by Lohnas McIntosh, Roger Schuster, Dick Steele, and Alice McBride? Very nice indeed. . . . I see Charlie Debolt, Clark Flaugh, Bob Bolinger, Gloyd Dellinger, Jess Hamrick, and lots of the folks are back hard at it. Good for them! . . . But the thing that amuses me is that Orval Fisher has at long last parted with the ole Plymouth and got himself a Chevy. Boy if that old Plymouth could really talk it would tell some real tales. Yes, it has gone to retirement down in Ohio. . . . Fireball Stults is still on the ball too. Glad to see him that way as good men are hard to find. What did I say? . . . Maggie Fruchte, the gal with the 29 charms, is still here with us and I believe that she is getting more beautiful everyday. Quarter, Maggie! . . . Becky (Hirschy) Werst is here too. . . . Bob Kreischer is on the job working for McDougal. Doing right good. . . . I would like to know how Lorena Keller is. Haven't heard from her for sometime. Hi, Lorena! . . . Butch Schroeder, the mechanical genius of the winding line, had one of those things the other day. A 40 year anniversary, in fact it was his birthday and so he treated all the gals and some of the fellows. Life is just beginning, Butch. . . . Bummy Bumgartner, the boy mechanic, is off due to illness. I just don't know the cause but will find out and let you know; in the meantime, we all hope that Bummy comes back pretty soon.

Seems as though a couple of the boys in Bldg. 19-4 had a rough week-end. John Neukam came in Monday with a nice scratch across his nose, but as usual, he had a good alibi. He said he was hunting crickets and just as he was down on all fours ready to grab Mr. Cricket, a twig flew up to scratch his nose and knocked his glasses off. Sounds good, John, but there are a few of us that have some serious doubt about your story. . . . Then Steward Bohrer came in also with a mark on his face just beside his right eye. Steward tells us he was splitting wood with a hatchet Saturday and it seems that a piece of the wood hit him. Now, folks, both of these stories were told us with sober faces—draw your own conclusions. . . . News of the week—Special to WORKS NEWS: John Roemer caught a nice mess of fish at Turkey Lake Saturday. We have been told that his wife helped him. She rowed the boat. . . . Bill Jones seems to have no limit to the jobs that he can perform. We haven't the time nor the space to list them all, but we will mention a new accomplishment—that of baking a fine chocolate cake last Saturday. Bill doesn't care much for cake frosting so he wasn't too careful how that turned out. (We hear he poured the frosting on the cake something like you pour syrup on pancakes.) He is a very brave man, because he brought a piece in his lunch. What's more, he didn't try to give it away either, and from the latest report, he was still able to be on his feet. . . . Carl Baermann enjoyed his third week of vacation last week. Carl said he spent the week at home working on his car and doing a few odd jobs around the house. Good idea, Carl. . . . Emmet Arthur Rasor is now working on lathe in Bldg. 19-5. Glad to have you with us Art. Incidently, Art is a Central fan and he had to miss the Decatur-Central football game just because his sister was getting married that Friday night.

100 Foremen Attend Annual Picnic At Voigt's Retreat

Approximately 100 members of the Foremen's Association attended the club's annual stag picnic Saturday, Sept. 17, at Voigt's Retreat, near New Haven. The picnic started at 1 p.m. and a special program was presented later in the afternoon. Ernie Hanauer, G-E Fire Chief, gave a demonstration of fire extinguishing techniques and Custer Dunifon presented his dog obedience show. Softball, handball, basketball, horseshoes, and card games kept all the members busy. That is, when they weren't eating roast beef sandwiches, German potato salad, baked beans, relishes, etc. The photos, above, show several of the scenes at the outing.

Wengert Spends Vacation Visiting Family In Germany

If you should ask Hugo Wengert, of the Plating Section in Bldg. 2-2, where he went on his vacation, he would no doubt say, "Home to see my mother and family." But home in that sense of the word to him is in Germany.

Hugo left LaGuardia Field in New York at 2:30 a.m. Wednesday, July 27, and arrived in London in time for the evening meal. Since he was in England only long enough to eat, he was unable to form any opinion of the country. Hugo observed, however, that although the service was superb, the food was not up to par.

At 10 p.m. he boarded his plane for the second lap towards his journey's end at Urach. He landed at the Frankfort airport at 2 a.m. Thursday. Hugo then went through Customs. At that time he had to declare how much money, both cash and travelers' checks, he was carrying. After stating the amount of money in his possession, he was given a book in which to record his money and expenses. He was also issued his ration book, which entitled him to a month's quota of food. With his papers and luggage in order, he then started on the final lap of his trip.

Hugo Wengert

No Shelter For Many

He took a bus to Frankfort, since he missed his air connections to Stuttgart. At the depot he saw the first results of the recent war. Three or four thousand people were sleeping in the building. With no other shelter, the homeless were utilizing every nook and corner in the public buildings for night quarters. The scene was so deplorable, according to Hugo, that if he wasn't so near home he would have turned back for the States at that time.

Because there were no trains leaving the city at night, he had to find some other means of transportation to Urach. Before he could secure a taxi for home, he had to cash a travelers' check into one of the three kinds of money they have in Germany — American, German, or military. He then had to awaken an American Express clerk, who gave Hugo all the money he had, about 33 marks.

With the aid of some American soldiers, he located a taxi and also gasoline for the car. They then took the Autobahn, a super-highway with no crossroads. With only one stop to get gas on the way, he came to his home Thursday morning—exactly 36 hours and 20 minutes after he left New York.

Visits With Family

He then had several days' visit with his family before taking a motor trip through Germany, Italy, France, and Belgium. This was the first time he had seen his mother since he left for the United States 27 years ago. In fact, this trip was a complete surprise for Mrs. Wengert, for Hugo had not written her about his coming.

Some outstanding features of the war damages he noticed were the cities destroyed by Allied bombers. One city, Pforcheim, which is about the size of Fort Wayne, was completely razed. Aachen fared a little better, because it has about 20 walls still standing. The cathedral at Nuremburg was untouched, except for broken windows, among three blocks of rubble. During his stay in Germany, Hugo saw no churches damaged by American bombing and only one hospital that was unavoidably hit.

His mother's home was no exception to the bombing. One corner of the adjoining bakery was hit, and there are boards where the show windows used to be. In the backyard there is a gapping hole large enough for a small house foundation.

Reconstruction Is Slow

Hugo stated that reconstruction has begun, although it it coming along slowly. They are cleaning up the debris and rebuilding homes, but have no industries to speak of. The method of obtaining building material is unique. The workers go into a house and shovel the bricks, stones or plaster into a waiting truck. The salvaged material is then taken to a crusher and later made into a form of cement blocks.

Stores are mere shacks. One store, where Hugo made a purchase, was literally a hole in the ground. To get to the main part of the building, he had to descend a long ladder. The storekeeper and his family conducted the business and lived there.

He explained that the people could not buy many items, either rationed or non-rationed, because the Germans have no money. With few industries, there is almost no work and, therefore, no money. Another factor is that there are too many refugees to support.

G.I. Joe Is Favorite

Hugo is very proud of the American soldiers in Germany, especially those stationed in his mother's home a short time.

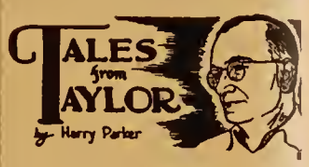
At the beginning of the invasion a number of G.I.'s took over the house, telling his family to remain in the basement. When her grandchild became hungry, Mrs. Wengert attempted to get some milk. The second soldier she asked got three gallons of milk and refused any money for it. She then told him about Hugo and later was questioned by the Commanding officer about her son stateside. The next day the Americans moved out, leaving the house spic and span and with everything in its place. French soldiers billeted there left the house a wreck after two months' occupation of the home.

Our Germany-vacationist had the honor of attending the first general election in that country for many years. He remarked that a large percentage of the voters turned out to vote. About 77 percent of the people voted, and the main reason was to vote down Communism. At that, they were not sure they voted for the right person; but they were certain that the candidate was not a Red.

Caught In Soviet Zone

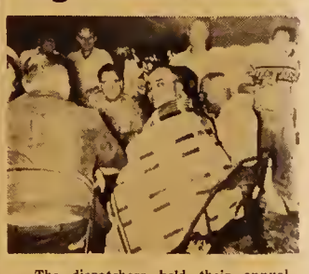
Hugo also had some excitement during his visit. While he and his mother were taking some pictures of the Berlin Blockade, they became lost in finding their way back home. By accident they wandered into the Russian Zone and were picked up by the police. After four anxious hours of questioning and waiting they were released, but not before the Russians had confiscated Hugo's camera.

He returned to the United States Tuesday, Aug. 16, after leaving Germany Monday afternoon. Going through customs this time took three and a half hours for the 41 people aboard the plane. The customs officers were more strict than those going into Germany. Any item not declared by the people returning to the states was detained.



Hugo came to this country 27 years ago to avoid Germany's military training. He came to Fort Wayne to visit an aunt and has lived here 23 years.

Among the fans who were entertained at the Prom Terrace last Sunday when Sammy Kay and his band appeared, none were more enthusiastic than Charlie Curtis and Bill Shuler. 'Tis said they executed the polka and rhumba with ease and grace, even offered free instructions to some who were less perfect in that style. Perhaps they feel well rewarded by receiving an autographed photograph to remember the big night! . . . In case you missed seeing Herschel O'Dier's baby's picture in last Saturday's News, you can still find it in the Rotogravure section. . . . Congratulations to Mr. and Mrs. David Mannix who became parents of a baby girl. Mardell, Mrs. Mannix, formerly was employed in the field section. . . . Last Friday our own Ed Gluscnkamp rounded out 33 years of employment with G-E. We congratulate him on his long service record. . . . Evelyn Daugherty is looking forward to next week when the bigger, better than ever, free Bluffton Street Fair will be celebrated. There'll be lots of hand shakin' when she gets there and meets all the oldtimers. . . . Margie Fenstermaker, who decorated a float for her sorority to enter in the parade at the Auburn Street Fair, felt amply rewarded for her time and effort when it received the second prize trophy. . . . We extend our sympathy to Opal Bates whose brother died last week.



Two more draftsmen leave our midst today as graduate apprentices. They are Warren Berkheiser and Frank Woenker. Lots of luck, fellows. . . . We wish a speedy recovery to Ralph Obringer who is confined to the Lutheran Hospital (Room 211) due to appendectomy. . . . If Miller comes to work some day with a "well smoked" color we will know he didn't get all the bricks out of his chimney. . . . "Almanac Ev." they call Schmidt because he gives his fellow workers the daily lowdown on signs of the moon, planting data, tide rises and falls etc. . . . Sorry we are late in congratulating Mr. and Mrs. William E. Jones who are the proud parents of a baby girl, Carol Elaine, who was born Sept. 7. Bill was on hand with a picture of Carol to show the fellows when he passed out the cigars. . . . Ask Konow about the queen he took to see Sammy Kaye. He loved it—Sammy Kaye, not the queen. . . . A good slogan for all apprentices is to remember what Confucius say—when in hot water, be nonchalant; take a bath. . . . The way Bergman and Davis pass around their boats, one would think they were in the Navy. . . . We hear that Mischo had a little trouble with the headlights on Wagner's car the other night out at McMillen Park. . . . B. O. Smith had a very red swollen eye last week. He claimed a piece of grinding wheel was in it, but a few of his fellow workers expressed different opinions. . . . It isn't spring so it must be love. To confirm our suspicions, it was reported that John Marks was seen looking at engagement rings. . . . Skeets Lahrman played 18 holes of golf, returned wet and cold from the "heavy dew." . . . Fred Borton spent eight hours casting, returned with two small bass and a sore shoulder. Is it worth it, fellows? . . . The apprentice softball team took advantage of some breaks and smart base running to beat the Squares 8-5 Monday night for the second half championship. Kenny Zurbuch took over in the fifth inning and saved the day by breezing 'em by the opponents. Our boys play the Works Lab, first half champs, for the title in a best of three series starting Wednesday. . . . Bowling was off with a bang this year in the Apprentice League which now meets on Tuesdays at 8:30. Some mid-season's scores were turned in with Skeets Lahrman boasting a 234 and Marc Junk a 202 and 211. The teams are more balanced this year and the competition keener. Can you imagine a fellow admitting that his wife beat him in bowling. Bob Zollinger did. . . . Lew Davis has left our midst to continue his drafting in the G-E plant at San Jose, Calif. We will all miss Lew, but we wish him lots of luck.

Ora Goff had a terrifying experience at the Quarter Century Club picnic. Along in the late afternoon he and his passengers decided to go home. Reaching in his pocket for the car keys, he found that they were AWOL. He searched everywhere, but to no avail and had just about decided to walk home when someone announced over the loud speaker that some keys had been found. They turned out to be his, thereby saving him from a long trek home. . . . Art Brandenberger was doing some plain and fancy instructing last Sunday when he endeavored to show his wife how to use an outboard motor to dredge a channel in the lake bottom. His wife was at the helm and apparently was doing a first rate job until the propeller came into contact with some submarine object, putting the whole works out of commission. He now tells us that he is going to give up the idea of using this piece of equipment as a dredge. . . . Mabel Miller is rapidly getting in form for the coming National Shuffleboard tournament this fall. Every evening finds her on some court or another seeking to improve her skill. So far she has far outstripped all of her opponents which includes such experts as her husband and Frank Phillips.

Some people are like blotters. They soak it all in, but get it all backwards.

Big Chief All Wet

The dispatchers held their annual picnic a few weeks ago at Evan Morris' home on Blue Lake. Evan treated the gang to motorboat rides during the outing. The day being rather windy, many of the guests were thoroughly drenched during the ride and had to requisition whatever dry clothing was available. Harold Kochlinger solved this problem easily with one of Morris' blankets. The picture shows "Big Chief Sawed Off" holding his pow-wow.

Have you noticed all the guys and gals wearing the green badges? That means the "go" signal for a perfect year of safety. . . . By the way, if you noticed two mummiform fingers on yours truly, that is because I had them where they shouldn't have been. So do as I say, not as I do. . . . Speaking of safety, drive carefully. Now that fall is here, we will have leaves on the street and if it rains it is much more difficult to stop. Our future taxpayers don't always stop to realize that they shouldn't dash after something in the street without looking both ways. If the kids bother you, that's good. You will be up on your toes and watching for their safety. . . . Someone else that doesn't always watch what she is doing is Rose Heche. She leaves in such a hurry at night, she just grabs any old coat. The other evening she was seen exchanging coats with Mary Zirkle out by the Broadway gate. . . . Ann Kensill doesn't believe in the old saying, "an apple a day, keeps the doctor away." She prefers peaches. She also is going to be a very good girl from now on. Realizing that Christmas is just three months from Sunday, we can see why. Someone might be doing their shopping early. Of course, you'll have to tone down that twinkle in your eyes a little. . . . Little Monte Craig is now issuing his calling cards from the Thomas Toor residence. Tommy and Olivia (the papa and mama) are both former co-workers. . . . It's a happy birthday to Bill Martin. He received a classy fishing outfit. It was even equipped with an attached bluegill. Of course, he has his ideas about people who go to birthday parties and then forget the present, especially when it was a frog. . . . Minnie McCague must have brought her Sunday-go-to-meeting umbrella to work the other morning. After she got to work, she wiped the rain off very carefully and polished the umbrella good. . . . Edith Beaty is going to have to set the alarm the next time she takes a nap. She almost missed the party. . . . Isabelle Blackburn is the new Elex contact girl replacing Mary Jane Lochner. . . . Among the girls looking forward to tomorrow's trip to Chicago are: Beulah Johnson, Marcille Thomas, Elizabeth Wert, Alice Loftus, Leona Hollis, Elvira Diller and Hedy Harrison. . . . Ethel Perry was on a fishing trip to Michigan last week. Now for some fish stories. . . . Margie Drake is taking up sewing, even to being outfitted with a new dress form. . . . Augusta Boehm's smile is because she is a grandma. . . . As usual Leona Hollis was full of enthusiasm and giggles, so Lilly Schock went shopping for an all day sucker to quiet her. It worked part way, because the sucker only lasted half a day. Better try one of those all week jobs next time. . . . "How dee doo dee" to all our newcomers. Hope you like us. . . . "Ya wanna buy a duck?" Ivah Grandstaff is the person to see. . . . Have you noticed the new red easy cushion that Jenny Zimmerman has? . . . It wasn't Pete the tramp, but Pete the dog deciding to take a snooze in bed. Now JoAnn Kemery is looking for some feather to make Pete a pillow all his own. . . . Mary O'Shaugnessy was up to visit us last week. She is at Taylor St. now. . . . Walter Kryder really has a time getting his tie adjusted Friday mornings. . . . Imagine anyone not liking yellow tomatoes. Harold Kiel doesn't, especially when they are all over his shirt. . . . Keep in mind the Community Chest drive. We will be around to see you one of these days. . . . Also if you haven't given to the emergency polio drive, do so now. You can't realize just what that kind of help means until one of your own loved ones has had polio. And we never know who can be the next victim.

Four Are Granted Patents

R. A. Fuller

A patent has recently been granted to R. A. Fuller on a system for obtaining instantaneous reversal of capacitor start motors that are equipped with a centrifugal switch.

With this system, capacitor start motors can be used on several applications such as cranes, hoists, overhead doors and others where instantaneous reversal service is required, with a minimum amount of control or relays.

Mr. Fuller is an Application Engineer in the Fractional Horsepower Motor Sales divisions, Taylor St. He is a graduate engineer of Worcester Polytechnic Institute and has been with General Electric since June 24, 1924. He became affiliated with the FHP Motor Sales divisions in 1945. This is Mr. Fuller's fifth patent.

R. F. Rowe

R. F. Rowe, Design Engineer in the Ballast division of the Specialty Transformer and Ballast Engineering divisions, has been granted a patent on an enclosure for a fluorescent lamp ballast. The doughnut shaped enclosure facilitates compact mounting of the ballast in the base of floor and table lamps, and in wall and ceiling fixtures for Circline lamps.

This is Mr. Rowe's second patent.

W. R. Goss

A patent has been granted to W. R. Goss by the U. S. Patent Office covering an adjustable speed dynamoelectric machine. This invention consists of a special arrangement of windings on a split pole stator that permits operating the machine through a wide speed range without the instability that is usually encountered in such operation. The Patent Office allowed 17 claims to originality in this patent.

This is the seventh patent granted to Mr. Goss. He is a Group Leader in the Fractional Horsepower DC and Specialty Motor Engineering division. He started with General Electric in 1927 and has been in the Fractional Horsepower Motor Engineering divisions since 1928.

J. H. Stark

The U. S. Patent Office has granted a patent to J. H. Stark for an improved and simplified brush holder.

Mr. Stark is a Design Engineer in the Fractional Horsepower DC and Specialty Motor Engineering division. His invention consists of the use of resilient insulating material between the brush tube and its support to replace fiber or similar materials having lower insulation resistance in the presence of moisture. His invention also makes a permanent tight fit possible without the use of set screws. Five claims of originality were allowed.

He has been employed by General Electric since 1923 and has worked in the Fractional Horsepower Motor Engineering divisions since 1938. This is the seventh patent granted to him.

Rounds Out 30 Years Of Service

Paul E. Henricks, Bldg. 4-4, has rounded out 30 years with the Company. At that time he received the congratulations of his friends and co-workers. In the picture are: (l. to r.) O. J. Mettler, FHP Div. 1 Supt.; Mr. Henricks, Otto Roehm, William Schultz, Henry Kammer, Louis Davis, Florian Korte, and George Prince.

Announcement—Jean Marie, the daughter of Mr. and Mrs. Christian Seidof, is just one week old today. The grandparents, Mr. and Mrs. Robert Wylie, are delighted with the 7 lb. 5 oz. young lady. . . . **Co-chairmen**—R. W. Kent, Bldg. 18-5, and J. V. Johnson, Bldg. 18-2, will serve as co-chairmen of the Community Chest drive for Bldg. 18. We are all familiar with the accomplishments of the Red Feather organization and now, more than in the past years, your help is needed. You will not miss the weekly contributions—collectively they will give help to many who are less fortunate. It will ever be that we are our brother's keeper—so be ready to greet your solicitor with a smile and an increase over last year's amount. Our quota for Allen County has been increased 12 per cent. "Care Enough to Share Enough!" If you have not taken time to acquaint yourself with the agencies covered by the Community Chest, do so, they are worthwhile. . . . **Honeymoon**—Dale Mossburg, Bldg. 18-1, will return Monday, after enjoying a honeymoon in Michigan. Doris Stuckey and Dale were married Sept. 11 at Warren, Ind. Our congratulations. . . . Delores Patterson has been transferred from Bldg. 26-2 to Bldg. 18-4. . . . Dorothy Janel, Bldg. 18-1, celebrated her second wedding anniversary the 20th. . . . Mr. and Mrs. Wayne Fritz and Phyllis Tanner, Bldg. 18-1, spent the week-end at Wesler Lake. . . . **Vacations**—Helen Gellert, is enjoying a week's vacation from her duties in Bldg. 18-2. Edith Drivelbliss, Bldg. 18-1, was on a cruise on the Great Lakes. Richard Fry of Bldg. 18-1 will return Monday from a two weeks' vacation in Minnesota and a few days at home to recuperate. . . . Thelma Stone, Bldg. 18-1, served at the wedding of Jean Barkley (a former Bldg. 18-1 payroll girl) last Saturday at Monroeville. . . . A. W. Howard of Bldg. 18-1, is a victim of the cold that has been going around. (It isn't funny—have had it myself). . . . Chester Kowalski, Bldg. 18-1, was a little tired on Monday. It seems that a rib barbecue may have been the reason. . . . We are sorry that Dorothy Long, Bldg. 18-4, is still afflicted with polio. We trust that her condition will show improvement by the time this column is printed. . . . It was nice to see E. H. Solnica and F. E. Firestone, former Fort Wayne employees, in from Schenectady on Monday. . . . Mary Cooper of Bldg. 18-2 entertained friends from Chicago for the week-end. . . . Mr. and Mrs. Harold Lehman, Doris of Bldg. 18-2, Harold of Bldg. 19-5, were in Chicago for the week-end.

Horses and elephants can sleep while standing up—like father with a two-week-old son.

Get Into The Act: Come on, everyone, please get into the act. We mean by that, that we would like to see every employee of the Wire and Insulation Division get their name in the WORKS NEWS between now and the end of the year. You don't have to be a practical jokester or do something that you may think is dumb or silly. How about the many good and concrete things you do? Such as being active in civic, social or religious affairs? How about that hobby of yours, your wife's or that son or daughter of yours. These are all good things and other people would like to know about them, so don't be bashful, step right up. Elaine Allen or your Division Editor are more than willing to listen to your story and help put it together. So as we pass you each day just yell out "Hey there, Elaine or Al, I got something for the NEWS," and I assure you we will be all ears. . . . Last week for instance Ralph Obringer talking to one of his coworkers remarked he never gets his name in the NEWS. This otber coworker remarked to Ralph that he grew so small that everyone overlooks him. Now, Ralph, if you would have come to us you no doubt could have had your name in the NEWS many times, but we just did not know, come up and see us sometime and tell us all about yourself. . . . We understand Leo Elward's wife was out of town last week and poor little Leo was so lonely he made everyone else he was around feel sorry for him. He finally cut loose and spent some hard earned cash for two long distance phone calls just to hear her wifely voice. You sure you weren't checking up on her, Leo, or were you? . . . Bing Englebrecht got so mad and provoked at those little golf balls just because they would not fall into a hole that he gave up and went home before the game was over. We think it was for this reason that his team lost the sweaters they were playing for. Always take it easy, Bing. . . . Charley Brubaker has been having a tough time harvesting his oats. He says most of it is wild. Charley, have you read the Good Book lately? If not we suggest you do, "As you sow so shall you reap."

Insulation News

Most kids just like to write their name in concrete, but with Jim Norris it's a case of all or nothing. Last week Jim was putting a new concrete floor in his basement when he and his feet got tangled up on the job, and down went Jim to leave the neatest imprint on the nice new floor. We don't know who, but some kind person must have rescued him, 'cause he's still on the job. . . . Hans Muller was eavesdropping on the Abbott and Costello team of Bldg. 12-3 (Gardt and Hattendorf to you) and this is what he heard: Gardt: "How do you spell "swivel?" Hattendorf: "I think it is spelled with two V's." Gardt: "No, that's two swivels." We're giving them the benefit of a doubt when we say that we think they were just kidding. . . . Have you heard the latest about Ray Fisher? It seems he prefers a lady barber, so in the absence of his wife, he had his daughter cut his hair. What some parents don't demand of their children. . . . Dorothy Baumgartner has the secret for making your first million. She says that first you get a job as time clerk, and then you just save your pennies and before you know it you have enough money for a trip to Chicago. . . . Some people eat an apple a day to keep the doctor away, but Bill Glenn has a different formula. He eats peppermint drops.

Honored For Long Service

Walter G. Muehlenbruch, Bldg. 20-2, was honored for his 30-year record of service last week. A number of his co-workers gathered to congratulate him on his anniversary with General Electric. They are: (l. to r.) John Lare, Clifford Thiebolt, Geraldine Didier, Gloria Wiebke, Mr. Muehlenbruch, and Jay B. Greer.

BELATED NEWS—Some of the guys and gals in Bldg. 4-6 had a wiener bake Friday, Sept. 10, at Walt Gerke's house. Along with the liquid equalizer there was enough fun and food to let everyone have a great time. It has been mentioned to have a hayride soon. Let's don't wait too long—snow will be on the ground. . . . FISH STORY—Many people were admiring the picture of the seven pound Northern Pike which Paul O. Nohle caught in Minnesota. An interesting angle to it is the fish was caught with a mermaid plug. This goes to show the men aren't the only ones who are susceptible to a curvacious figure with a big line. . . . GOLF—Jack Jennings and Forry Carlson, who did not sparkle in their performance in the Blind Bogey Golf Tournament at Brookwood Saturday, Sept. 17, still were fortunate in the drawing and collected cash prizes for their efforts. Others in Bldg. 4-6 to receive cash prizes were Lou Davis, Walt Sunier, Joe Rowan, and Bob Knepple. . . . HOWDY—The A.C. Division welcomes Margrete Evens, a new typist, who comes from Taylor Street. She is taking Eileen Hennen's place, who left G-E to attend Indiana Business College. We wish to welcome Ed Rathbun to the Dev. Division. He is a test engineer and is working for Fred Suhr. . . . NEWS FROM GREAT BRITAIN—Gwen Steinbarger, on a leave of absence from the D. C. Div., is having a wonderful time in North Wales. Her vacation ended Wednesday, Sept. 21, when she sailed on the Queen Mary for the USA. . . . BOWLING—The A. C.'s bowling team opened the season with a big flop when Walt Gerke fell flat on his face. How straight and stiff he bowled the rest of the night. Payroll girls started their bowling season last Friday night at St. Paul's Hall. . . . PARKING TICKET—Lou Davis, visiting in California, received a ticket. Being a visitor he came home without appearing in court or paying his fine. A few weeks later he decided to pay the ticket since it came from the same town in which Lou has decided to live. He wouldn't want anything to happen after he got there. By the way, Lou left last Friday to make his home in California. Lots of luck to you and your family. . . . DISTINGUISHED VISITORS — The Hermetic Section was honored by a visit from Sol London and Mike Davich Sept. 21. . . . BOSSES—Anyone wanting to know who is the boss in the Robert Dobbin household see Bob. "She is only three years old." . . . LOST AND FOUND—It seems Thelma Voiral is forever losing her purse. She lost one again last Friday afternoon, but some kind-hearted person returned it with all the contents in it. . . . GOOD-BYES—A luncheon was given for Joan Poos Thursday, Sept. 15, at the Works Restaurant. The girls presented her with a lovely gift. Friday, Sept. 16, which was Joan's last day, the Dev. Division honored her with a nice gift which was presented very well by Bob Sharrow. The three engineers who she worked for also presented her with a nice gift. . . . HAPPY BIRTHDAY—Happy Birthday to Gloria Hormann whose birthday was Sept. 15.

This tangy fall weather with its football games and hunting trips ushers in one of our finest seasons. Let's hope we have many days to enjoy its beauty. Above all, let's get outside and see what Jack Frost has done to the countryside. It's well worth our time to travel into the country in the next few weeks. Here's hoping you make the most of it. . . . We were rather worried about Walter Beeth and his straw hat, but now all is well—he gave it up for his winter dome warmer. A sure sign of approaching cold weather. . . . Erv Zollinger doesn't look like a heavy weight but that new flooring right in front of his machine sorta says different. . . . Warning to all fish—This is to warn you to go to the deepest depths of the lake and hide. Howard Brooks has a new fish pole and will be on the hunt for you. A hint to the wise is sufficient. Oh yes, and be sure to keep your mouth shut—you'll live longer. . . . When you speak of bright tee shirts—speak softly about that green one of Maurie Snyder's—it'll speak for itself. . . . No wonder Norm Jones was floating on high last week—the good news is that Norm has made the Company's "A" Course. Congratulations. . . . Speaking of Norm, we wonder why he turned that bright shade of red when his co-workers persented him with that little gift? . . . Emmie Stock is back after a two-day successful run on the Chicago stage with the Civic Theater's "House In A Sea." . . . Ned Neuman got so excited after bowling a 200 game Friday night, he forgot to change shirts and wore his bowling shirt to work on Monday morning. . . . From the little hamlet of Ossian comes our little lightning bug, Bill Mills, better known as "Firefly" Mills. Seems as though Bill gained his nickname due to the big black cigars he smokes. . . . The wedding bells will soon ring out for our genial test engineer Bob Dorsey. . . . Everything was nice and quiet Friday afternoon until Jim Smith told Buck Lydy about the fire. Lydy moved so fast that you couldn't see him. He got the fire out in no time and everything was under control. . . . It must be housecleaning time the way Jim Smith and Norm Hawk are cleaning up their places.

M. B. A. SICK LIST

Joseph Hofer, Inez Green, Patty Rogers, Joseph Goodman, Bruce Hapner, Ralph Obringer, David Dunfee, Levi Brown, Helen Rider, Elvira Romary, Dorothy Lee, and Dorothy Long.

Left the Hospital

Pearl Forshea and Dorman Kirke.

No ad will be received over the telephone. Send all ads to WORKS NEWS office, Bldg. 8-2.

CLOSING DATE FOR NEXT ISSUE
Monday noon, September 26, 1949

FOR SALE

MOSSBERG-M-151 AUTOMATIC RIFLE—Good condition, $25. A-99575.

NEW BOWLING SHIRTS AND DRESSES—A-60412.

GOOD CLOTHING—Sizes: Girl, 12; Ladies, 13; Man, 36 chest, 32 waist; wool slack suits, suits, coats, dresses. A-99555.

HEATROLA—Several lengths 3 in. stove pipe; several feet, gas pipe, saw frame. A-86831.

ELGIN BICYCLE—Very good condition. 1129 E. Pontiac St.

AUTOMATIC FURNACE CONTROLS—With bonnet control; new Motorola car radio. A-87251.

HOUSE TRAILER—For sale or rent. 1121 Sherman St. or E-32225.

BOY'S LICHT BLUE SUIT—And sport coat, size 16-18; girl's brown teddy bear coat, size 12, all like new. 3615 Lafayette St. H-70322.

JONATHAN APPLES—1125 Clara or A-87012.

BOY'S RAINCOAT—Size 14-18; Wama-Paca brown fingertip coat, like new, $10. H-19845.

MATCHED TWIN RED FOX FUR PIECES—$35. 370 W. Baker St., Call after 4 p.m. or Sundays.

YOUTH'S SIZE BED—Springs and mattress with sanitary cover, excellent condtiion, $15. A-98772.

CHILD'S SIDEWALK BIKE—3-6 year old size, like new, $5. H-9916 or 425 E. Leith St.

1935 PONTIAC—$100, good condition. A-70423 or 307 Mechanic.

TWO BOYS' WINTER COATS—Size 12-14; Two girls' spring coats, size 12-16; girl's winter coat, size 14. H-75784.

COMPLETE 1940 BUICK CENTURY MOTOR—Reasonable. A-26582 or A-9204 and ask for Larry.

CHILD'S ONE-PIECE SNOW SUIT—Blue, size 2, $4. H-75304.

MOTORETTE — First class condition. 1222 Burgess St.

FOR RENT

SLEEPING ROOM—Large, warm room for man, private entrance, near G-E. H-46704.

TWO-ROOM FURNISHED APARTMENT—On bus line. H-44032 after 4 p.m.

THREE-ROOM FURNISHED APARTMENT—Private entrance, bath, automatic hot water, near Winter St. G-E $14 per week. E-5988.

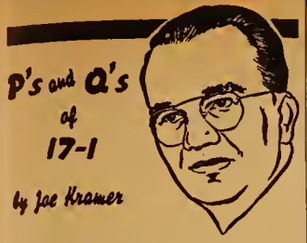
FRONT ROOM—On car line, innerspring mattress, all modern, meals if desired. A-60175.

WANTED

GIRL'S BICYCLE—H-17585.

TRANSPORTATION

WANTS RIDE—Carl Miller, from three miles north of Bluffton on State Road 1. Works in FWS Accounting Division from 8-5:15. Extension 748.



WANTS RIDE—Donald House, from 223 Henry St., New Haven. Telephone 3823. Works in Bldg. 19-4 from 3:30-11:48.

Decimal Minute Men Hold Family Party

The Decimal Minute Men opened their 1949-50 program Thursday night, Sept. 15, with a family party at Sears Pavilion.

A group of 50 enjoyed a potluck supper, games, and awarding of attendance prizes.

The steering committee, composed of John Laymon, Jr., Gene Foster and Neal Hench, was in charge of the affair.

You can complain about the troubles you have with your old car, but a certain punch press operator is sure having trouble with his new car and it is not due to mechanical defects of the automobile. Last week we reported how Herb Kellermeier took the bus home while his son followed him in his car. This week Herb's wife asked him to pick her up at the grocery. After driving to a store, Herb had quite an enjoyable hour talking to a number of friends until the rude awakening when Herb was informed that he was standing in front of the Rogers store instead of Krogers. Seems the car just won't cooperate with Herb. . . . Weldon Stucky has really acquired a tan due to his recent visits to Florida with Ed Brosche. . . . There is a change of shifts in Bldg. 17-1 with Red Gitter coming on days and John Miles taking over the second trick inspection. . . . The farmers in the south end of Bldg. 17-1 have acquired a new member to their group. Ted Brockmeyer is in the pop corn business and from all reports, the pop corn is really nice and tender. See Ted for samples and prices. . . . The bowling season is getting into full swing with Bldg. 17-1 well represented. The granddaddy of Bldg. 17-1 bowlers, Frank Quinn, is really talking the game up and always on the alert for new prospects. We wonder if Frank was instrumental in getting Jerry Humbarger to work days so that his bowling arm could be used in the Small Motor League Wednesday nights. . . . They say Fort Wayne is the city of champions, what with John Braden managing the nation's champion semi-pro baseball team, his brother Harold Braden was captain of the golf team winning the championship of the G-E interdivision golf leagues. Harold was very capably assisted by two other Bldg. 17-1 golfers, Charles (Chucky) Lauer and Robert (Rosy Boy) Dent. . . . Ed Martin, the sheet metal shop, has spent this week vacationing. Ed bought his granddaughters bicycles and is now teaching them how to ride them. . . . George Mosshammer has painted two rooms of his house in pastel shades. One is pink and the other is blue. George gave us his reason that these colors are soothing and easy to relax in. He still hasn't figured out how to get the apple tree in the blue room. Whoever heard of relaxing without having refreshments. . . . If the Daisies are looking for a hard hitting first baseman, they had better see Betty Sue Morris. The only thing they have to be careful of is to keep all cars a safe distance from home plate when Betty is hitting. . . . Lillie Pion didn't have enough to eat at the wiener bake, so she went home and made a new cup of coffee and finished the evening with coffee and cake. Lillie still hasn't been able to figure out why she didn't sleep very well that night. . . . Agnes Cordes wants someone to give Mary Gerhard lessons in playing ball. The first time Mary was batting she hit Agnes on the head with the bat. Then the next time she hit her in the leg with the ball. . . . Ernie Riley is still waiting for maps so that he may plan his trip to California next vacation time. . . . We reported last week that John Braden's picture appeared in a Wichita paper as one of the six outstanding men of the week. We have since noticed that there was also a picture of Donald Duck on this same page. . . . We want to welcome Barbara Yingling to Bldg. 17-1, from Bldg. 6-2. Barbara is working in the Cost section. We hope she enjoys her work here. . . . Those were nice looking colored pictures Virgil Hartman brought in to show us at work the other day. We wonder if they were taken in Pennsylvania.

We of Division 1 express our sympathy to Donna Lindley whose father, Ira Webber, died during the week-end. . . . Glen Carney came into work Monday morning unrecognized because he was wearing a tie! We offer you our congratulations on having 30 years of service for the G-E. . . . Elmer Sible is driving a Plymouth now and he said it was so used to going 70 to 80 miles an hour that he is having trouble keeping it to 40 where he insists it is going to stay. . . . Bonnie Wolfe is driving a new Chevy! . . . Birthday greetings to Olga Kuzeff. . . . Edna Hergenrader is up and at them again and says that she will soon be back at work! . . . Charlie Hendrickson is really getting quite forgetful, for two mornings straight he forgot to turn off the car lights and had to run back to the parking lot! . . . Ed Robbins was on his vacation last week and we wonder if he got up early to take any short trips? . . . Helen Struver,

Best Bass

Above is evidence of what can be accomplished by a master craftswoman when knowledge of the art of angling is properly applied. This 20 in., 3½ lb., small-mouth bass was caught by Eveline Best of Bldg. 4-3, at Webster Lake on a half-dollar cane pole, line that had three knots, a bluegill hook, and a cricket for bait. The landing of the giant bass, which required 20 minutes of skillful handling and maneuvering, was witnessed by Ray White, Bldg. 18-4 and Fred Drivelbiss, Bldg. 8-1.

Edna Bauer and Elbert Niswonger are back in 1x29 again. Beulah Briner is a new one, hope you all stay a long time. . . . Anyone having an old Sears, Roebuck catalogue please bring it to Bonnie Birely. . . . Margaret Hilgeman is having trouble with the moths. They have eaten two purses in the last couple weeks. . . . Florian Korte was seen going toward Tommy's Beach with a five gallon can. I suppose the next thing we will see will be a tank wagon. . . . We hope Gilbert Walker's little show is a big success. . . . Louie Sauers, better known as "ye old

Proud Grandparents: Congratulations to Mr. and Mrs. Herman Macke who became grandparents of a grandson; also to Florence Lea who has a granddaughter. . . . **Absent-Minded:** Lawrence Chesterman was told by someone one morning that it was the 13th. Then he remembered that it was his wife's birthday. . . . Art Bashelier's application for a "hole loan" was rejected. However, Art reports that construction of the house is progressing satisfactory and that the dog will soon be able to move. There will then be one more room of Art's home for human occupancy. . . . Did you notice the striped coat that Christ Stauffer is now wearing? . . . The co-workers in Bldg. 4-5 wish to express their sympathy to John Hollaway in the death of his mother.

valve grinder" is having his troubles too. Sticky valves, I guess. . . . Ed Glenwith wonders why they don't produce a play called "The Old Wagon Track." When they do you can bet Ed will be in the front row. . . . We are wondering why Waldemar Schmidt only smokes a cigarette Friday afternoons and never any other time during the week? . . . Where was Frank Brindle hiding all day Friday, we just couldn't find him! . . . After Ed Boedeker ate the soup for his dinner Friday he didn't look half as sleepy as he did in the morning. . . . Wonder what Wilbur Stocks and O. J. Mettler did about those little pick cards they got last Saturday? . . . In case Carl Metker comes up missing some day; you may find him down in the Huntington jail if he doesn't get down there soon and settle up for that ticket! . . . Helen White is back again. She was off a week for illness. You're looking good again. . . . Irma Huhn spent last Sunday at St. Joseph's College at Rensselear, Indiana. Did you gain a little knowledge or did you just go for that good chicken dinner? . . . For a couple of girls that never have any excitement, they claim, Esther Muzzillo and Maxine Root were foolish for buying those beautiful new suits. . . . If you want any information on bowling ask Malinda Gehle who is an expert at the game! . . . It sure is nice to see Eveline Best back again. . . . Esther Fagan will have no excuses for not baking pies and cakes now—that old line of hers won't work since she has a new stove. . . . George Prince is going fishing and squirrel hunting this week while on his vacation. . . . Orville Coleman thanks everyone for the birthday cards especially the one big one he got! . . . This is for Harry Haberkorn who is on pension—it came to me via Elmer Sible who says that the fish are biting better at Ridinger Lake than they ever did at Pretty Lake! The last one caught was a 20 pound Pike! . . . I hope that everyone that takes the Elex trip to the Chicago Railroad Fair has a grand time and by-the-way have you joined Elex yet? If your contact girl has accidentally missed you, go contact her and JOIN NOW!

D. M. M. ANNOUNCES MEMBERSHIP DRIVE

At a meeting at the Chamber of Commerce Monday evening, the Decimal Minute Men completed plans for a membership campaign. Jack Faust was appointed in charge of arrangements.

Inquiring Reporter:

WHAT DO YOU THINK IS THE BIGGEST PROBLEM NOW FACING THIS COUNTRY?

TRULIE NELSON

Bldg. 26-5

"I think our greatest problem is the fear and threat of depression. Considering the unemployment which keeps going up instead of down, the cost of living keeps going up."

WILLIAM DECKER

Bldg. 17-4

"The Communist problem. We are all wondering how next they will try to inconvenience this country in both our domestic and foreign affairs."

JAY BROWN

Taylor St.

"Unemployment. Without work everything goes down hill."

ANTHONY KOORSEN

Bldg. 6-3

"I believe that trying to balance the budget of the United States and making the country more secure is our biggest problem."

JEANNE DERHEIMER

Bldg. 31-1

"Communism. It has made great inroads into our government and is threatening our freedom. Communists are causing racial prejudice to a great extent and also many of the strikes."

Hot Shots Regain Owl Golf League Championship Title For Third Year

The Voltmen and the Hot Shots. Both are three time champions. Both emerged from titanic battles like true champions.

Naturally the comparison ends at this point, since the Voltmen rule the roost in semipro baseball while the Hot Shots have no equal in tbe Owl Golf League.

The vaunted Hot Shots won the right to enter the final playoff by trouncing the Jolly Boys 21 strokes over a 34 stroke spot. John Shanahan's Hy Flyers won their way into the finals by besting Earl Stauffer's Cold Sbots by two points.

The final 18 holes was a dilly of a match to watch. The wind came down No. 1 fairway with icicles on it and found all of the participants wrapped up like they were at a football game. Their red hot spirit made up for the chilly weather. At the end of the first nine holes the Hot Shots had the Hy Flyers down 33 strokes of a 48 stroke handicap spot. From here it looked like a complete rout, but John Shanaban and Dick Bierbaum had otber ideas. They held Warren Wickliffe and Bob Craig down to an 11 point margin, while Fred Uhrick and Dick Merchant did a likewise good job in holding Jim Sternberger and Oscar Bunch to a seven point lead. The total was a 51 stroke difference or a bare three point victory for the three time champions.

Tbe winners had a total of 346 strokes (which is way off from the 317 last year), while the losers shot a total of 397.

Warren Wickliffe was the individual champion for the year, with a 38.5 average for 12 games.

We cannot close the season without giving credit where it is due. First to Pappy Garland, the league manager, and all of the players who year after year make the Owl Golf League the whopping big success tbat it is.

This is the final missive of the year and also sign off. Like I said last year, "Next year we will have a new cbamp."

The Hot Shots of the Owl Golf league won the league championship for the third straight year. Members of the championship team are: (l. to r.) Lloyd Grider, Jim Sternberger, Bob Craig, Oscar Bunch, and Warren Wickliffe.

G-E GOLF

By Hugh Dubdit

The league championship playoff last Saturday produced the most hotly-contested play in any such match thus far. Led by Bill Kayser with a 79, the Nineteenth Holers of the Tuesday evening group shot a 361 total. This score, with a handicap of 15, gave them a 346 net score. The Wire Mill of the Monday afternoon group totaled 348 and was the scratch team with no handicap. Third place went to the Brassies of the Winter St. Wednesday group, whose combined scores totaled 378. The Brassies handicap was 27, which gave them a net score of 351. The Apprentice team of the Monday evening group ended up in fourth place, carding 364 with a handicap of 10 for a net score of 354, just eight strokes off the winners' pace.

Low individual scores of the playoff included Ray Hills of the Wire Mill 79; Bud Morris of Wire Mill and Red Braden of Nineteenth Holers at 81, and John Skevington of Winter St., 82.

Rollie Wickliffe of the Apprentice team must be a firm believer in a good night's rest before a golf match. So much so that it took a phone call from Brookwood, almost at tee-time, to get him out of bed.

Asher Addresses Cost Accountants

L. I. Asher, Divisions Accountant in the Fractional Horsepower Motor divisions, addressed the Muskegon, Mich., Chapter of the National Association of Cost Accountants Monday, Sept. 19. His subject was "Payroll Procedures." Mr. Asher is a past president of the Fort Wayne Chapter of the National Association of Cost Accountants.

Apprentices Win League Playoff For Second-Half

The Apprentice team won the second-half playoff of the Interdivision softball league. They eliminated the Firemen, 5-4, and the Squares, 10-5. Good pitching and heads-up fielding spelled the margin of victory in these two games.

Squares won their way to the finals by defeating the Works Lab in a tight well-played game, 2-1. Rogers' home-run with a man on, in the seventh inning, brought victory for the Squares.

The Apps will play the Works Lab, first half winners, in a two out of three series to decide the league championship.

G-E Club's League Bowling Season Opens

The Small Motor Bowling league was one of the many G-E Club leagues that opened the 1949 bowling season last week. The league, composed of 12 five-men teams, opened its season Wednesday, Sept. 14, at 6:30 p.m. Frank Quinn, Bldg. 17-1, is president of the league. Ray Lindemuth, Bldg. 18-5, is vice-president. The above pictures show several of the league members in action on their opening night of bowling.

TOUCHING THE BASES

by Walter Histed

The hard-hitting St. Joe Auscos handed the Lafayette Red Rox two defeats, 5-2 and 12-10, last week, but the Red Sox picked themselves off the ground over the week-end to hammer the St. Joe Auscos twice to forge a tie and force a fifth game in the Michigan-Indiana league's post season classic. The Auscos then returned with renewed strength Tuesday night and downed the Red Sox by a scorching 11-6 victory to take the championship playoff series.

Line scores:

St. Joseph .....030 052 011—12 14 4
Lafayette .....211 111 012—10 18 2
Lee and Katz
Hazel and Emrick

Lafayette .....100 000 002—3 7 1
St. Joseph .....000 001 000—1 6 3
Herring and DeLion
Fields

St. Joseph .....111 000 100— 4 10 0
Lafayette .....022 000 42x—10 13 2
Stewart and Katz
DeLion and Hazel

St. Joseph .....013 020 320—11 16 2
Lafayette .....202 010 100— 6 11 2
Lee and Westerkamp
Herring, Hazel, DeLion, Clifton and Hixson.

The Michigan-Indiana league regular season schedule ended Wednesday, Sept. 7, as Michigan City took two games played in the rain at Lafayette, 12 to 1, and 9 to 7. The games were especially disasterous to the Red Sox. In addition to the loss of the games, Catcher Augie Hixson broke the index finger of his throwing hand and was lost to the team for the playoffs.

The game scheduled between the Auscos and Buds at Benton Harbor was washed away completely by the elements.

Final regular season standings:

	W.	L.	Pct.	G.B.
St. Joseph	33	15	.688	—
Michigan City	32	18	.640	2
Benton Harbor	29	19	.604	4
Lafayette	26	23	.531	7½
VOLTMEN	17	32	.347	16½

South Bend and Windsor, which dropped out during the season, are not listed.

The St. Joseph Auscos dropped the Benton Harbor Buds out of the play-off by taking two straight from their Twin City rivals, 3 to 2, and, 6 to 1.

The first game was a tight pitching battle between Mack Stewart, of the Auscos, and Hugh Orphan, of the Buds. The Buds scored first in the second inning when successive doubles by Joe Mack and Bill Leach opened the run-making. With two out, Hank Richel singled to bring home Leach. After the second inning, Stewart had the Buds completely under control. Orphan kept the Auscos away from the plate for three innings, but in the fourth his own wildness was his downfall. Scott beat out an infield hit, after which Orphan walked Logan and Winters. Wilber Fields singled to score Scott and Logan, while Winters scored the winning run on Carl Kennedy's fly.

The decisive game was a close contest for five innings. The Auscos had scored the only run of the game up to that time in the fourth on Kennedy's single and Bernie Westerkamp's long double. Westerkamp was out trying for a triple on his hit. The roof fell in on the Buds in the sixth. Scott singled to center and Logan beat out a bunt for a hit. Winters walked, filling the bases. Wilmer Fields drove Nick Stanley's first pitch over the right-field fence for a grand-slam homer. With Roy Lee limiting the Buds to three hits in eight innings and six in all, the Auscos were ready for the final play-off series against the Michigan City-Lafayette winner.

Line scores:

First game at St. Joseph.
Benton Harbor .....020 000 000—2 5 0
St. Joseph .....000 300 00x—3 7 0
Orphan and Kovach
Stewart and Westerkamp
Second game at Benton Harbor
St. Joseph .....000 104 100—6 11 1
Benton Harbor .....000 000 001—1 6 2
Lee and Westerkamp
Stanley, Orphan and Kovach; loser, Stanley

Split First Two Games

The Red Sox came from behind in the second game to tie the score in the seventh, and pushed across the winner in the ninth to tie up the series with the Cubs and force a third game.

The Cubs, behind seven-hit pitching by Lefty Frank Ververka, got the jump on the Red Sox in the series by winning the opener, 3 to 1. The Cubs jumped on Slim DeLion for all of their runs in the initial frame when, with one out Sunday, Thomas and Fuchs singled to score one run. Mettler's single and Stu Hofferth's long fly-ball brought in the other two runs.

Ververka protected this margin with shut-out ball for eight innings; but in the ninth, the Red Sox had him on the ropes with one run in and the bases full with none out. The cool southpaw set down three right handed batters, Bestudik, Novak and Cannizo in order, to protect his lead and end the game.

In the second game, the Cubs held the upper hand for six innings, as they built up a four to one lead over Lefty Al Hazel. In the seventh, the Red Sox drove into a tie game on Andres' single, Galvin's double, and a long triple by Joe Bestudik. Ritter's fly brought in Bestudik with the game tying run. In the Red Sox ninth, Desiderato singled with one out and was sacrificed to second by Ritter. Felix Mackiewicz beat out a high bounder to second and Bestudik walked. Len Novak, batting with two out, drove the ball to the right-field wall to break up the game.

Line scores:

First game at Michigan City
Lafayette .....000 000 001—1 7 1
Mich. City .....300 000 00x—3 10 1
DeLion and Bestudik
Ververka and Hofferth
Second game at Lafayette
Mich. City .....002 011 000—4 7 2
Lafayette .....000 100 301—5 13 0
Wallace and Hofferth
Hazel and Bestudik

Lafayette Eliminates Cubs

Lafayette ended Michigan City's hopes for the M-I League playoff title by dumping the Cubs, 5-2, Tuesday night, Sept. 13, to take the best of three series, 2-1.

Line score:

Michigan City .....000 020 000—2
Lafayette .....000 112 01x—5

Schedule Is Announced For G-E Rod, Gun Club

The following schedule has been announced for the G-E Rod and Gun Club members and all employees interested in 30 caliber rifle shooting:

Saturday, Sept. 24: D.C.M. Qualification.

Sunday, Oct. 2: Match with Fort Wayne Rifle and Revolver Club.

Sunday, Oct. 9; Miller Trophy Match.

G-E INDUSTRIAL BASKETBALL TEAM TO PLAY TONIGHT

The G-E Club industrial basketball team will hold its first workout tonight from 7 to 9 p.m. All players interested in playing with the industrial team are asked to be at the Club gym tonight.

Manager Bill Schible will have to build a new team around a few veterans and is looking for players. From last year's team, only Bucher and Gettys are ready for action. The other members will be out of the lineup for various reasons.

The team has scheduled practice sessions for Tuesday, Sept. 27, and Thursday, Sept. 29, from 8 to 10 p.m.

FOUL LINE FABLES

by KEGHEAD KEGLER

Another bowling season has rolled around. We don't have many scores to report due to the fact that the league secretaries are not in the groove as yet.

"Buck" Buckles of the Interdivision league started the season by falling over the ball rack on alley four. Luckily he came out of it O.K.

The new alley man at the club is none other than Charlie Shipman, baseball pitcher for the Voltmen the last few seasons.

Anyone wishing to bowl in a Saturday afternoon league starting at 1 p.m., please contact Charlie Wilt at the Club.

Apparatus League

Russell Dunten of Team No. 2 led the first night's bowling with a nice 552, and Fred Schafenacker came up with high game of 213.

In spite of a new ball, "Sore Thumb" Blomker lived up to his name by having his thumb all patched up for the first night.

Two hundred scores: Howard Hickman, 210; Russell Dunten, 210; "Sore Thumb" Blomker, 201; Roy Lawrence, 201; Bob Krugh, 200, and Russ Sealover, 201.

Masonic League

The Levels, Plumbs, and Composite teams started right out with three victories each.

Harold Braden was the only individual to come up with a 200 count, at 203.

Small Motor League

The league opened with a bang Wednesday, but the pins didn't fall to suit some of the boys. Paul Boedeker really had the ball rolling his way, having a couple of hot games with a 201 and 200 count. Vance had a 232, Seidel had a 223, and Jim Daley, after a slow start, finished with a 223.

Last, but far from least, Orval Haver had a 219. Three high teams were Cost with a 925 count; Test with a 906; and Production with an 890.

Decatur League

On the opening night of the G-E Fraternal League, Chet McIntosh of Bldg. 2 gave the boys something to shoot at when he wound up his night's effort with a big 275 and a series of 641, as he led the Teeple Truck Team to three wins over G-E Club.

Tony Murphy of Bldg. 1, came up with a 226 as his K of C's won two from Bob Lord's Moose team.

Leo Hoffman's Preble AC's took three on the chin from the Elks.

High Series: McIntosh, 641.

High scores: A. Murphy, 226; H. Strickler, 214.

Women's League

The Decatur G-E Women's Bowling league got off to a good start Sept. 15.

Rita Herndon rolled the high score for the evening, a nice 192. Evelyn Plasterer had a 169 and 166 and the high series total of 483. Team No. 1 rolled the high team series of 705.

TOP FLOOR TOPICS

BLDG. 26-5

by WALT POHLER

It was 11:30 P.M. and we had just returned home from a day in the country. At this time we attempted to write something that can be called a column under the heading of "Top Floor Topics." If our column falls short of your expectations please forgive us! We don't have very much to write about. You see our business is on the up grade and we don't have much time to get around and talk to people about what they are doing that is interesting. Also we failed to contact our night trick reporter this week so we have no news from them. . . . The golf league is about our only topic for this week. Instead of playing on Thursday, as we usually do, we played Saturday morning. We combined two events, and played in the blind bogey tournament as well as playing our league games. We have no information as to whether or not anyone won anything in the blind bogey at this time, but the winners of our weekly tournament were Anderberg first with a net score of 72, Mills second with a net score of 75 and Shipman and Pierce tied for third with a net score of 78. Every one enjoyed refreshments on the nineteenth hole. Walt Mertz then invited everyone out to see his new trailer home. . . . The big news of the day was the announcement by Jack Lea, no relation to the southern general, of the arrival of a new daughter the week before. The daughter has been named Lorie Suzanne. We extend our congratulations to the proud parents. . . . Time to go to bed, folks, so this will be all for this time. Will try to do better next week.

G-E Majors Complete Successful Season

Tom Lawson

Jack Waltke

Tom Anderson

The G-E Club's Major softball team has completed a successful season with the help of Tom Lawson, first baseman; Tom Anderson, assistant manager and rightfielder, and Jack Waltke, pitcher. Lawson is only 20 years old and has been playing regular softball for several seasons. In 49 times at bat, he averaged .224 for the season. Anderson is a veteran campaigner for the G-E Club. One of the team's regular pitchers. Waltke had a season record of nine won and four lost.

A time for calm judgment

There's trouble afoot in coal, steel, rubber, auto, and other industries.

Some people have already been called off their jobs. Others are threatened with loss of pay through strikes at their own plants or through failure of supplies from other struck plants.

All industry faces a total or partial shutdown.

The trouble is not over wages. Another national pattern wage increase seems admittedly a dead issue.

The most difficult problem at the principal trouble points is the question as to whether or not pension plans *can* be newly set up there and, if so, *how* they can be set up.

The sober discussions, the heated arguments and, in some areas, the actual fighting over this complicated and expensive matter, all bid fair to run to next spring and beyond.

The progress desired in this field cannot come from heedless action based on emotion. It can only come from calm and thoughtful examination of the facts and from the resulting pursuit of what is sensibly in the best interest of all concerned, including most of all the employees themselves.

The sound spread of good pensions is a desirable objective, but there is no sudden need to wreck production and the jobs of so many people just in trying to accomplish by force what can be accomplished quickly and soundly only by careful examination and sober judgment.

The newspapers indicate a UE meeting is set for Monday in New York for representatives from the locals to decide whether or not to recommend a strike vote among UE members at Westinghouse and General Electric plants "in order to compel the companies to bargain in good faith."

We cannot speak for other companies but, as we are sure you all appreciate, we certainly have never refused to bargain in good faith at any time.

Incidentally, on July 13, at our last negotiating meeting, the UE representatives stated they would get in touch with us at some later unspecified date for possible further negotiations. Although we are and have been available to consider further meetings, the UE has made no effort to resume negotiations.

But, meanwhile, there is a special reason why members of the General Electric family should keep their seats in the stands while others are struggling for the most part over major problems that are new to them and very difficult.

There is a special reason for not losing pay of from $5 to $10 million a week in a G.E. strike—or for not losing any more of our production and pay than is going necessarily to result from the strikes and shutdowns in other plants.

That reason is that we in General Electric already enjoy a good pension plan. It has been voluntarily and painstakingly and soundly developed over the 37 years since 1912. We are confident it will prove to be the equal or superior of any new and significant pension plan that can emerge from the present conflict.

Let's keep our seat in the stands. Let's maybe even count our other blessings meanwhile—the good pay, good working conditions, stock bonus plan, and the other extra benefits of a General Electric job.

Let's claim the privilege of drawing all the pay we can during this trouble. Let's have the privilege of a look later at how any newly developed benefits compare with what we have had right along. Let's then, and always, compare what we have with what we believe is fair.

Gold Key Order Contest Gets Underway

Engineering Projects Are Announced

Fifty outstanding engineering developments in the Apparatus Department will receive special attention during the period from Oct. 1 through Dec. 31, 1949, E. E. Johnson, Manager of Engineering for the Department, announced this week.

"These will be known as Gold Seal Engineering Development projects," Mr. Johnson said. "They will be selected from the scores of outstanding engineering projects sent in by the Engineering divisions of all Apparatus product divisions and laboratories.

G-E Supervisors' Club To Hold Theater Party

A theater party to see "The Philadelphia Story," a comedy, has been arranged for the G-E Supervisors' Club Wednesday night, Oct. 12, at the Civic Theater. Curtain time is 8:30 p.m. Tickets will be distributed by contact men.

$1,000 Award Is Presented To O'Neill For Suggestion

A $1,000 suggestion award was made Friday to Perry O'Neill for his idea to use steel retaining pins in unit hearing motors instead of wooden pins. This is the fourth time an award of $1,000 or more has been paid to suggestors at the Fort Wayne Works. Shown, above, are: (l. to r.) F. L. Gale, Mr. O'Neill, R. C. Dennison, FHP Div. 17 Supt., and Lisle Hodell, Manager of FHP Manufacturing divisions.

Perry J. O'Neill, FHP Division 17 at Taylor St., has received $1,000 for his suggestion of using steel retaining pins instead of wooden ones in unit bearing motors.

Suggestors Will Be Given Lighters As Bonus Awards

A G-E monogramed cigarette lighter will be presented to every employee who submits one or more suggestions between Sept. 1 and Nov. 15 on which the regular award is $10 or more, it was announced today by A. C. Hartman, chairman of the Fort Wayne Works suggestion committee.

The cigarette lighters will be given as a part of the suggestion contest now in progress.

Forty-one employees received awards this week amounting to $1,624.50. Mr. O'Neill's brother,

Sales Divisions Here To Take Active Part In Apparatus Campaign

The Gold Key Order Contest is now underway at all Apparatus Sales Offices in the United States, and I.G.E. Offices in other parts of the world, C. H. Lang, Vice President in charge of Sales for the Apparatus Department, announced this week.

"Reports that have reached me are most encouraging concerning this drive to get extra business," Mr. Lang said. "I am confident that we will wind up the year with extra orders that will help keep our people and facilities busy."

(Continued on Page 4)

Employees Are Requested To Note Address, Numbers On Weekly Payroll Checks

All employees are requested to check the address appearing on their weekly payroll check. If there has been any change in that address, your foreman or supervisors should be notified so that necessary changes can be made by the payroll section. Employees should also compare the numbers on their check with those given on their social security card and report any discrepancy.

Arrangements Are Completed For Family Night Programs

DECATUR FAMILY NIGHT TO BE GIVEN OCT. 11

The Decatur Family Night programs will be held Tuesday, Oct. 11, at the Junior-Senior high school auditorium, Jefferson and Third Sts., for all Decatur G-E employees, their families and friends.

Performances have been scheduled for 1, 7 and 9 p.m.

"Family Night has been planned for the purpose of developing a greater appreciation of the privileges which we enjoy as Americans and of how the objectives of the General Electric Company assist in making these privileges more available to everyone," according to E. W. Lankenau, Plant Manager.

The program will include a sound, slide film titled "Our Family Album." This film tells the story of the growth of the Fort Wayne Works and the Decatur plant and includes many of the interesting

(Continued on Page 4)

Foreign plotters tune in on a report from an agent on the secrets of American economic success and high standard of living in the production of "Tremblin' in the Kremlin" to be given at the General Electric Family Nights. Left to right are: Joyce Randolph, as the beautiful Commissar of Visual Propaganda; Alexis Rotov, as the returned spy, and Martin Noble, as Stalin. The one-act comedy was written and directed by Robert L. Fegley, of the G-E Visual Education division.

FOREMEN, SUPERVISORS TO DISTRIBUTE TICKETS

Announcement was made today that free tickets for the Fort Wayne Family Night programs will be available from foremen and supervisors at the Broadway, Taylor St. and Winter St. plants beginning Monday, Oct. 3.

The programs will be held Wednesday through Saturday, Oct. 12-15, in the G-E Club auditorium.

Although there is no charge for admittance, tickets are being used to prevent over-crowding at any single performance.

Following is the schedule for the Family Night programs:

Wednesday, Oct. 12—1:15, 7 and 9 p.m.

Thursday, Oct. 13—1:15, 7 and 9 p.m.

Friday, Oct. 14—7 and 9 p.m.

Saturday, Oct. 15—8 p.m.

(Continued on Page 4)

Mary Leiter Is Elected President Of Elex Club

Mary Leiter, Winter St., was elected president of Elex Club for the 1949-50 season.

Mary Leiter

Other new officers elected include:

Bea Lantz, Bldg. 17-3, first vice president; Alice Dahman, Bldg. 4-5, second vice president; and Geraldine Schmidt, Bldg. 31-2, secretary.

Jo Alles, Bldg. 4-2, was elected to a two-year term on the board of directors. Other directors elected were Lois Drewett and Mabel Miller, both of Taylor St. Helen Engle, Bldg. 4-3, and Betty Garber, Bldg. 4-6, were named trustees.

Bldg. 16-2 Cafeteria To Be Closed Tomorrow

The cafeteria in Bldg. 16-2 will be closed tomorrow because of inventory. Other cafeteria, restaurant, and food wagon services will be conducted as usual.

FORT WAYNE WORKS NEWS

Don Campbell.....Editor

Volume 32 Thursday, September 29, 1949 No. 39

How Have You Been Making Out This Year?

Whether you operate a lathe or a drill press . . . pound a typewriter eight hours a day or jockey a truck . . . whether you're an accountant or a foreman . . . chances are you could be doing worse . . . and maybe better . . . but chances are you're making a pretty fair living this year.

Sure . . . you probably can't afford all the things you'd like; maybe that new jalopy will have to wait another year . . . and maybe that new fall outfit is a little steep for your budget. But remember that swell vacation . . . think of the little house you're so proud of . . . and take a good look at those healthy kids! Put it all together and things don't look so bad, do they?

And it isn't LUCK that's brought what you've got, and it isn't good fortune either. You've worked for it, 40 hours a week worth. You deserve what you have; you've earned it.

And what about the future—tomorrow—next year? A good job, continued good health, and all the other things that make for a happy life . . . that's probably what you want . . . and so does the guy next door.

But sometimes . . . through no fault of yours . . . when you least expect it—when you're least prepared—trouble comes. An accident, illness, or an emotional disturbance can disrupt the harmony of your family and leave you prostrate and seemingly helpless.

But this is 1949, and along with scientific advancement society has also taken strides forward in the delicate art of furthering human happiness and welfare. Today, when adversity strikes, you no longer stand alone and helpless; at your side—well-organized and well-trained—stand Fort Wayne's 20 Red Feather services, supported through your Community Chest . . . ready to bring to all, regardless of race, color or religion efficient and sympathetic help.

By uniting these 20 appeals, the Allen County Community Chest saves thousands of dollars in campaign expenses alone; federation protects you, the contributor, from constant and unrelated appeals . . . it assures you of better planning of social services . . . it conserves the time and energy of volunteer workers . . . and it guarantees the effective use of funds through annual review of budgets of each Red Feather service by an impartial budget committee of representative citizens.

Greater need and extended services make Fort Wayne's 1950 Chest goal 12 per cent higher than last year's contributions, and it's going to take lots of generosity from lots of people, people like you, to insure the continued fine work of your Community Chest and the 20 Red Feather services supported through it.

The participation of the Fort Wayne Works in the Allen County Community Chest drive starts Monday, with a goal of $45,000 to be raised exclusive of the Company's contribution. Due to the drop in employment since last year, individual giving must be higher than in 1948 to achieve this goal. So, when the solicitor for your section comes around and asks you to lend a hand, let's all pitch in and dig for the Chest!

It Happened This A. M. . . . At 2:37 Another American Was Born!

This morning a muffled gasp broke a tense expectant silence. Then a tiny cry let it be known that all was well. And a mere thimble-full of foot planted its first imprint in this wide and wondrous world.

Thus came another little traveler from nowhere to here—one of more than 10,000 who arrive in America every day.

We want him to know that here he is not classed by birth—either as lordly or lowly.

—that here we believe all men are created equal.

—that everyone is endowed by his Creator with inalienable rights.

—that the measure of a man lies in his abilities and character.

So let each one of us, individually, make it a personal rule to:

1. ACCEPT . . . or reject . . . people on their individual worth.

2. DON'T LISTEN to, or spread, rumors against a race, or a religion.

3. SPEAK UP, wherever we are, against prejudice, and work for understanding.

It's Your Federal Government

The World's Worst Businessman

By Robert L. Johnson

Editor's Note: Following is the first in a series of articles describing the major findings of the "Citizens Committee for the Hoover Report." These articles are written by Robert L. Johnson, President of Temple University and Chairman of the committee. This committee is a voluntary, nonprofit, nonpartisan organization of leading citizens which has undertaken the task of informing the public of just what reorganization means and what the Hoover Commission recommendations, if enacted into law, will mean to each individual and to the nation.

How long would your company stay in business if it lost money and ran into debt year after year? For that matter how long could you run your own home if you spent $10 to go to the store to buy one dollar's worth of goods?

On any such basis, you'd soon be out of a job—and a home.

Year after year the federal government loses money. It spends, literally, more than $10 filling out forms to place a single purchase order. And half the things it buys cost less than $10.

Uncle Sam is just about the world's worst manager. He owns $29 billions worth of goods, including a million automobiles, and has no clear account of where they are or what they are. Some of his departments are stocked up 50 years ahead on simple supplies.

Mis-Management Is Evident

He borrows money from himself and pays interest on it. He maintains enough records and documents—mostly worthless—to fill six Pentagon Buildings. He keeps seven different sets of books. Neither his books nor his budget give any real notion of the financial score. The Post Office, for example, has to wait eight months to find out exactly how much money it has lost. This year it will lose about $500 millions. This is more than the cost of the whole government 50 years ago.

If you're an ex-serviceman you saw money thrown around in wartime just as I did. In war some extravagance is unavoidable. But in peacetime the Army asked funds for houses in Alaska at $58,000 per house, and for 829,000 tropical uniforms at $129 apiece.

These are just a few examples from the Report of the Commission on Organization of the Executive Branch of the Government.

Non-Partisan Board Named

It all began because Congress, President Truman, and the public saw real danger in government duplication, lack of organization and waste. In July, 1947, Congress created the Commission with six leading Democrats and six outstanding Republicans as members. At President Truman's suggestion, former President Herbert Hoover was named chairman and Secretary of State Dean Acheson, vice chairman.

The Commission put 300 experts to work digging up facts. Nobody was mad at anybody. Everybody wanted to get at the truth. After months of hard study resulting in two million words of facts and figures, the Commission reported to Congress that bad organization and outmoded methods are laying a heavy toll on the nation. At least $3 billion and, I think, $4 billion a year can be saved without cutting government services.

You and I are citizens. We pay taxes. We'd better have a good look at our government before it gets too big for us to understand and too costly for us to support. If that should happen the government will no longer work for us; we will work for it. Many free peoples in history have lost their freedom in that fashion.

We Pay Taxes Upon Taxes

Put it another way: We now pay in federal taxes $300 a year per person, over $1,000 per year per family. We pay income taxes which we can see, and other taxes which we can't see:—60% on cigarettes, 25% on such things as cameras, 20% on light bulbs, cosmetics, luggage and so forth; 15% on travel and telephone calls. We pay taxes upon taxes in the cost of everything we eat, wear, and use.

We carry a big load of debt—$7,000 per average family. This isn't pie in the sky. It is my promise to pay—and yours—as real as any grocery bill. We pay interest, at the rate of $150 per family per year, on that debt.

Let us look facts in the eye: The purchasing power of your dollar and the living standards of your family are undermined by useless federal expenditures. Your dollar is worth only half what it was 10 years ago, and taxes are a major reason. At the present pace it may soon be worth much less than that.

It's Up To You

What to do about it? In the last analysis it's your government! Its actions are your actions. You have a vote in its management—not once every four years, once every two years, nor once a year, but once a day. You can express yourself in favor of "better government at a better price." But you must, first of all, understand the problem.

In the next article in this series I'd like to tell you more about the necessity for government reorganization. Meanwhile let's remember what Mr. Hoover said on his birthday: "If the people are to run the government, it is the people who must think."

RED FEATHER

Questions and Answers

Editor's Note: The following is the first in a series of questions and answers regarding the Community Chest. An attempt has been made here to answer the many questions which have arisen from time to time concerning the activities and operation of the Community Chest and its 20 Red Feather agencies. If you have a question you want answered, send it to the WORKS NEWS, Bldg. 8-2.

Why do you have a Community Chest?

Because it is the simplest and most economical way to raise and administer the money needed by the 20 Red Feather services. It assures you that there will be no duplication of services and no overlapping.

Is it expensive to raise money under the Chest plan?

No! One campaign costs less than 20. The cost is less than 3.9% of goal. Separate campaigns would cost 10 to 15 per cent of the amounts raised.

What would happen if there were no Community Chest?

Not only would there be many more separate fund raising campaigns, but some of the smaller existing agencies now dependent upon the Chest would cease to function. That would mean elimination of services which are important for the welfare of people.

How is Chest money distributed to the agencies?

A Budget Committee, made up of unpaid volunteers, makes a careful study of the finances and operation of each Red Feather Service. Only after a businesslike consideration of its needs is the amount of funds determined for appropriation to each agency.

Why isn't "X" agency a member of the Chest?

Some agencies do not meet the Chest's strict requirements in budgeting, management and program. Others are not interested in membership because they are financed by endowments, church contributions, or from other sources sufficient to cause them to want to be independent of any federation.

Why do some agencies charge for services when they are included in the Chest?

It is generally recognized as good practice to permit persons to pay as much as they are able for anything they receive. Much of the Chest support of these services comes in the form of deficit financing. For example: Dollar-a-year memberships in a recreation program could not possibly pay for its operation . . . the small hourly fee charged for nursing service could not maintain an adequate public health nursing service . . . the modest sum paid by a widow for temporary care of her child in a nursery or institution could not cover the entire cost of his care.

(Continued on page 3)

Community Chest Drive Starts Monday

The College Club Day Nursery is a part of the Children's Day Care Association, which includes the Westside Day Nursery and Foster Home units. These provide day care for children whose mothers must work or where family circumstances make such care imperative. Last year 147 different children were given 14,463 days' care.

This year's Community Chest solicitation begins Monday at the Fort Wayne Works, with all employees urged to contribute as generously as possible in an effort to raise a quota of $45,000 exclusive of the Company's contribution.

Nearly 400 solicitors have been appointed to canvass the Broadway, Taylor St. and Winter St. plants. The Decatur plant will conduct its campaign later in October.

R. J. Duras is chairman of the Fractional Horsepower Motor divisions for Taylor St.:

DIVISION 13

R. O. Dunfee, leading solicitor; B. Shirey, O. Meyer, N. Bell, H. Bubb, Q. Romey, F. Erickson, J. Eme, M. Bledsoe, M. Armstrong, E. McMaken, A. Lindenberg, J. Knight, B. Imel, T. Cowan, S. Wolff, L. Jentzsch, P. Hille, R. Merchant, and J. Turley.

DIVISION 14

C. W. Reiter, leading solicitor; I. Osterman, M. Smiley, A. Weisenberger, V. Hammons, R. Johnson, M. Dukes, H. Poorman, C. Auker, A. Johnson, C. Hensoth, L. Green, I. Armey, G. Wall, G. Angle, J. Wilson, R. Crosley, and T. Kitchen.

DIVISION 17

L. A. Shattuck, leading solicitor; W. Hawley, R. Libby, O. Johnston, G. Pantazin, R. Stoops, M. Keokuck, D. Richards, N. Christlieb, D. Patten, B. Fleek, H. Slater, W. Yant, L. Sinn, G. Miller, T. Stapleton, B. Boldt, J. McKee, E. Beers, and R. Shreeve.

DIVISION 10

R. Kallmyer, leading solicitor.

DIVISION 36

R. Blackburn, leading solicitor; B. Brickley, E. VanHorn, and P. Groh.

DIVISION 12

M. Cameron, leading solicitor; V. Stoner, Taylor St.; P. Holmes, Bldg. 6-2, and N. Singleton, Bldg. 18-3.

DIVISIONS 5 AND 3

C. Monroe, leading solicitor.

D. H. Hanson is chairman of the Fractional Horsepower Motor divisions for Broadway:

DIVISION 1

C. A. Rietdorf, leading solicitor; A. Merwin, D. Kable, R. Maxwell, L. Hubartt, M. Buckmaster, I. Hanny, L. Davis, F. Voirol, P. Zimmerman, W. Tennison, F. Buhr, and B. Parent.

DIVISION 15

Charles Curtis, leading solicitor; Ray Dotzer, Fred Schaaf, Roy Berdelman, Elaine Sutter, W. Scott, Sam Buckley, Mary Stewart, Paul Kennerk, Harry Anderson, Ray Lepper, Harry Murphy, Paul Boyer, Cecelia Horstman, Herbert Cook, Charlotte Clover, Forest Allman, Lloyd Covault, Leola Carrier, Harold Struver, Elmer Fretz, and James Battrick.

DIVISION 16

Herbert Koch, leading solicitor; Herb Lemmel, Don Krinn, Robert Schuelke, Paul Kable, Paul Bender, Robert Shumaker, Audrey Bright, Floetta Zartman, Mary Wright, Erma Landes, Josephine Matter, Isabel Blackburn, Leota Hollis, Wilhelmina Beeth, Bernadette Lantz, Eileen Foor, Beulah Johnson, Dorothy Askren, and Ann Lapadot.

DIVISIONS 19 AND 20

Virgil Hartman, leading solicitor; E. Riley, C. Combes, F. Bennett, H. Tons, C. Fryer, C. Hemrick, D. Mosure, J. Kramer, G. Myers, G. Barnes, R. Baker, H. Wengert, H. Jefferies, D. Smith, and B. Newman.

DIVISION 33

E. G. Stock, leading solicitor; Ralph Thomas, Orlando Surface, Ruth Baker, Charles Crankshaw, Carl Swain, Carl Freygang, and Beth Jacobs.

DIVISION 83

Walter Whonsetler, leading solicitor; M. D. Barrows, J. H. Jennings, C. T. Johnson, H. L. Osborne, W. M. Rowan, E. W. Sherbondy, Mary Smoak, and Jessie Chadwick.

DIVISION 10

John Welch, leading solicitor.

DIVISION 11

Hilda Reed, leading solicitor.

D. M. Myers is chairman of the Large Motor and Generator divisions:

First Shift—L. Swager, Paul Walker, Joe Dahman, F. Brown, Sr., C. Steele, H. Zuber, E. Lamboley, M. Libbing, O. Gamble, D. Heckman, K. Kighland, A. Nahrwald, Harry Skevington, M. Johnson, C. Marhenke, J. Burton, Betty Eisenacher, Jack Newton, G. Lewis, and Joe Formanek.

Second Shift—E. Kahlenbeck, F. McBride, L. Tagtmeyer, C. Seslar, F. Coulter, F. Serovey, and L. Snyder.

Winter St. Plant

Roger Grant is the campaign chairman of the Winter St. plant:

Elaine Colburn, leading solicitor; Marie Leemhuies, Helen Wyss, Eleanor Otter, Dorothy Dobler, and William Oberwitte.

C. Kreischer, leading solicitor; S. Gerkins, and C. Brokaw.

R. Keen, leading solicitor; Verne Gratts, W. Reed, M. Pool, and Charles Foulks.

Irene Salmon, leading solicitor; Marjorie Mayer, and Marilyn Smith.

C. Kirbach, leading solicitor; Helen Wyss, Paul Carter, H. Comer, Mary Leiter, Evelyn Bowers, Glen Courtney, and Horace Redding.

R. W. Kent and J. V. Johnson are co-chairmen for the Works Service and Contributing divisions:

GENERAL SERVICE

F. Somers, leading solicitor; W. Morehous; G. Ely, A. Delagrange, H. Stirlen, H. Stenbacher, E. Anderson, A. Buchwald, L. Dove, G. Scheiman, A. Lants, A. Morgan, G. Dunfon, L. Woodward, R. Pierson, H. Dewart, T. Raypole, D. Mumma, A. Beck, E. Ream, J. Niedermeyer, R. Kreigh, R. Miller, C. Geller, J. Banks, C. Hlair, G. Crouse, H. Gooley, C. Bartaway, R. Gangwer, A. Frank, F. Bendel, W. Leonard, E. Reed, A. Branger, W. Chaney, C. Banks, and J. Schrieber.

WORKS LABORATORY

Martha Wesner, leading solicitor; Ilene Hardisty, Paula Gerding, Daisy Sherck, and Dorothy Medsker.

PRODUCTION SERVICE

H. Shields, leading solicitor; Douglas Blessing, George Welker, Phyllis Grace, W. Switzer, A. J. Koorsen, R. W. Guingrich, F. G. Goetz, Carmen Sordelet, Helen Brawn, Ruth Stier, and Glenn Wilson.

APPRENTICE

E. Werling, leading solicitor; H. Meads, J. Rowen, and M. Junk.

PERSONNEL

Ruth Shull, leading solicitor; Clara Linderman, Minnie Fryback, Irene Ofenloch, Janis Parker, and H. Zimmerman.

GENERAL TOOL

H. C. Foreman, leading solicitor; H. Buell, A. Ormsby, R. Zimmerman, R. Schafer, J. Schemehorn, A. Nebur, C. Wiedelman, H. Nagel, A. Wiegand, G. Houser, R. Truelove, E. Sauerwien, P. Brinkroeger, P. Richter, C. Ahlersmeyer, J. McFeely, P. Bauman, F. Druhot, and L. Welker.

ADMINISTRATION

Vivian Bond, leading solicitor.

WAGE RATE PRODUCT QUALITY

Joan Miller, leading solicitor.

FINANCIAL

Ruth Fritz, leading solicitor.

TECHNICAL SERVICE

Herman Kappel and Patricia Olinger, leading co-solicitors.

ORDER SERVICE

R. P. Cheeseman, leading solicitor.

WIRE AND INSULATION

Jim Gargett and T. R. Buckles, leading co-solicitors; Clarence Coulten, Ralph Lindeman, Russell Bridge, Cletus Lothamen, Melvin Bill, Dean Inman, Murray DeArmond, Adolphus Menefee, Harold Serg, Dewey Parkison, Walter Englehrecht, Hans Mueller, Chester Steinbarger, Russel Le Bean, and Dorothy Le Brecht.

R. L. Soughan is chairman of the Specialty Transformer and Ballast Divisions:

DIVISION 91

Emmett Bobay, leading solicitor; John Huges, Paul Noffze, Gerald Schafer, Albert Campton, Melvin Leykauf, Lloyd Haller, Clifford Schwartz, Harry Hollins, and Donna Belle Wagner.

DIVISION 94, BLDG. 26-3

Margaret Reynolds, leading solicitor; Rose Onstatt, Hazel Scott, Mildred Haslup, Amanda Doty, Doris Rinehold, Madge Lechlietner, Evelyn Armstrong, Stella Frantz, Mildred Steffey, and Elvira Romary.

DIVISION 94, BLDG. 26-4

Leo Klejnot, leading solicitor; Leatha Hey, Russell James, Phyllis Borkenstein, Raymond Horstman, Joseph Troendly, Theodore Lauterberg, and Marian Fawcett.

DIVISION 94, BLDG. 26-5

William Mills, leading solicitor; Elvie Dafforn, Grace Bolyard, Hazel Bennett, Evelyn Miller, Eva Bobbish, Rouqua Wiebel, Gladys Racht, Howard Bash, and Wyonetta Gerdom.

DIVISION 81

Anna Rastetter, leading solicitor.

DIVISION 85

Robert Burns, leading solicitor.

DIVISION 39

Virginia Winegart and Dorothy Bartholomew, leading co-solicitors.

DIVISION 82

Gertrude Wagner, leading solicitor; W. Miller, Robert Henry, Barbara Dolson, and Gail Kirk.

Pixley Child Welfare center is an institution providing a happy home for a limited number of children who temporarily cannot live in their own homes. Last year 27 different children received 6,085 days' care.

Work Of Community Chest Seen In Red Feather Agency Tours

Have you ever observed a group of youngsters struggling for an even break in life . . . handicapped folks struggling to work out their own destinies . . . bed-ridden children struggling to live?

If you have, then you'll be quick to realize where your yearly Community Chest donation goes . . . for these and others like them are the recipients of the aid and assistance of 20 Red Feather agencies in this area.

The opportunity to observe several local agencies in action was accorded a group of General Electric employees last Thursday, Friday and Monday, as they were guests of the Allen County Community Chest on brief but enlightening tours of inspection. Representing a good cross-section of the Broadway, Taylor St. and Winter St. plants, those making the trips included:

John Hughes, Bldg. 26-1; Josephine Matter, Bldg. 17-3; Ed Harvey, Taylor St.; Douglas Heckman, Bldg. 19-2; Vern Gratts, Winter St., and Walter Leonard, Bldg. 5, visited the Pixley Child Welfare center Thursday morning, Sept. 22.

Clyde Hemrick, Bldg. 17-1; Kenneth Highland, Bldg. 19-3; Leola Carrier, Bldg. 4-5; Elmer Sherbondy, Bldg. 4-6; Ernest Brown, Taylor St.; Rokua Wibel, Bldg. 26-5, and Dick Kent, Bldg. 18-5, toured St. Vincent's Villa Friday afternoon, Sept. 23.

William Mills, Bldg. 26-5; Betty Eisenacher, Bldg. 31-1; Charles Foulks, Winter St.; Orlando Surface, Bldg. 17-4; Dorothy Richards, Taylor St.; Frank Goetz, Bldg. 6-2, and Paul Bilue, Taylor St., visited the College Club Day Nursery Monday morning, Sept. 26.

Red Feather

(Continued from page 2)

Do Chest agencies give cash relief?

Only a small part of Community Chest funds can be used for relief purposes. A few family agencies give limited financial help in special cases. However, Red Feather services are largely preventive. Chest agencies, for instance, help prevent juvenile delinquency by youth programs . . . divorce, by family counseling . . . disease, by well-baby clinics . . . handicaps, by education for prevention of deafness, and so on.

The Government provides money for people in need, such as old-age assistance, aid to dependent children and general relief. Community Chest agencies are not tax-supported, and they do another job entirely.

Isn't the Chest run by the rich?

No matter what your income, you are welcome as a volunteer worker. Volunteer solicitors in the campaign range from clerks to heads of corporations. There are housewives, union members, businessmen . . . come and get acquainted, and you will soon see that a share in the leadership is open to everyone. The Chest is run by people who know how to get things done. It has the benefit of some of the best brains in this town absolutely free. Specialists in finance, business organizations, public relations, labor and many other fields give volunteer service

(Continued on Page 4)

A group of G-E employees are shown, above, as they visited a classroom at St. Vincent's Villa early Friday afternoon, Sept. 23, on one of the Allen County Community Chest's tours of local Red Feather agencies. St. Vincent's Villa is a child-care institution offering specialized services for Catholic children. Last year 117 Allen County children received 25,883 days' care.

Order Contest

(Continued from Page 1)

The Gold Key Order Contest is being held by the Sales divisions of the Apparatus Department and the Apparatus divisions of International General Electric Company as part of a program during the Charles E. Wilson Golden Anniversary period designed to improve the Company in every phase of its operations.

Contest Based On Effort

During the period from Sept. 2 to Dec. 15, the emphasis will be on Gold Key Orders achieved through extra effort, skill, ingenuity and industry, Mr. Lang said. These orders will not be selected simply by the amount of money involved, but by the extra effort required to get them.

"A Gold Key Order could be one for only $5,000 worth of equipment, if, for example, the order came from a customer who hasn't been on our books for a decade," Mr. Lang explained. "Or it could be for an extra piece of equipment on a project sale after we had already written it off as 'lost to competition'."

The 50 orders finally selected by the Apparatus Sales Committee as Gold Key Orders will be placed in a gold mail bag with a gold key and presented to Mr. Wilson late in December.

Orders Will Provide Work

"This Gold Key Order Program should achieve what all of us have wanted, and that which Mr. Wilson hopes for most of all: an influx of orders to provide work for the employees in the shop," Mr. Lang said.

In commenting on the Wilson Gold Seal Order Program, P. M. Staehle, Manager of Sales for the Specialty Transformer and Ballast division; F. M. Kissell, Sales Manger of the Fort Wayne Large Motor and Generator section of the Large Motor and Generator division, and A. W. Bartling, Manager of Sales for the Fractional Horsepower Motor divisions, observed that the present sag in the growth curve of the Fort Wayne Works businesses reflects a decline in business activity which is caused largely by post-war business adjustment. This year's decrease in the growth of electric loads throughout the country is a trend which they said must be reversed quickly. They added that nothing is more likely to accomplish this purpose than good, old-fashioned, hard selling.

Sales Letter Is Issued

Typical of the extra effort being made by the three Product Sales divisions at Fort Wayne is a recent sales letter distributed by Mr. Bartling to approximately 750 District Sales people. This letter reads in part:

"The contest is on! Our opportunity to perform is here. The rules for acceptance of our orders are our normal qualifications — extra effort — ingenuity — imagination — industry.

"The Fractional Horsepower divisions offer you their assistance. Four Sales Managers are your key assistants at Fort Wayne. The quota for the fractional horsepower motor business is eight Gold Seal orders out of the total of 50 in the Apparatus Department.

"You are the quarterbacks in this contest. We offer our assistance. Let us know the signal and we will help you by the following:

(1) Quicker propositions and more complete information
(2) Inform us of your sales obstacles and we will help you overcome them.
(3) Better service to all customers.

"Inform us of the orders you propose to nominate and enter for Sales Committee approval. Teamwork will win for us."

Mentzer Completes 35 Years' Service

C. P. Mentzer, Bldg. 26-2, recently completed 35 years with General Electric. To celebrate his anniversary, his friends in the Transformer division attended a presentation of the 35-year service certificate. Mr. Mentzer is seated, while standing are: (l. to r.) Fred Banks, Pauline Neddo, Glenn Hobbs, Evelyn Mayfield, Dean Lockwood, Al Cobert, and Robert Mann.

Squares Plan Unusual Event For Open House Friday Night

The G-E Squares Club will hold an open house in the club rooms Friday night, Sept. 30.

An unusual program has been planned. A mysterious "hidden host" will entertain the crowd and a prize will be given to anyone who can identify this person.

Red Feather

(Continued from page 3)

which would cost thousands of dollars if paid for.

Isn't there too much red tape?

When there is a real emergency, any Community Chest agency is ready to act at once. However, in 99 cases out of 100, there is time enough to do things right. This means finding out the facts and determining what kind of help is most needed.

If the agencies gave service without knowing these things, it would not be possible to do a good job for the persons needing help. A few people might waste the time and money of several different agencies.

Briefsteak is what you now get at the butcher's.

Engineering Projects

(Continued from Page 1)

"This is an excellent opportunity for engineers to rededicate ourselves to the challenging tasks before us," Mr. Johnson said. "The primary purpose is, of course, to make an engineering contribution to the program of improving the Company in every phase of its operations during the Charles E. Wilson Golden Anniversary period."

Many Changes In 50 Years

"Fifty years ago when Mr. Wilson joined the General Electric family, a factory was a forest of belts," Mr. Johnson said. "General Electric was building the largest turbines yet—500 KW. There were no tungsten lamps, no radio sets, and no House of Magic. General Electric sales that year soared to $25,000,000.

"Now after 50 years, electric motors have replaced the belts, television is sweeping the country, and both the size of turbines and General Electric sales are 40 times as large.

"The magic of electricity has transformed our homes and our future, has given us new business and opened a vista of great progress to come.

Tasks Are Challenging

"During this period when we are observing Mr. Wilson's fiftieth anniversary, we must dedicate ourselves anew to the challenging tasks of leading the way in this new electric age," Mr. Johnson said.

"Although we are justly proud of General Electric's past contributions, I am confident that we will achieve still greater engineering effort that will attain new heights for the Company's contribution to the public good," he said.

"How well we fulfill this challenge will be reflected in the number of new projects which ultimately result in better living through electricity for all," he added.

For Those Started This Year

The 50 gold seal engineering development projects will involve those which were initiated this year and hold great promise, show considerable progress this year, or were completed this year.

Projects may cover new or improved products, product components, materials, processes or knowledge which results in reduced costs, new service to customers, more jobs, increased sales and other benefits.

These projects will be written up and bound in a book to be presented to Mr. Wilson by the Engineering divisions at the close of the anniversary period, Mr. Johnson said.

Information Clinic

QUESTION

Is there going to be a TAB Day this year?

ANSWER

TAB Day was observed during the past two years when members of the Company's Test, Apprentice and Business training courses, as well as other training groups, met with management for a picnic. In view of general conditions, the Education Committee has recommended that no TAB Day be held this year.

Decatur Family Night

(Continued from Page 1)

experiences to which Decatur employees have contributed so much.

This will be followed by a one-act play titled "Tremblin' in the Kremlin," which features a cast of professional actors from Broadway.

A showing of the G-E film, "By Their Works," featuring Decatur's Aeolian Choir, will conclude the program.

Free tickets will be available to all employees from foremen and supervisors starting Monday, Oct. 3.

Distribute Tickets

(Continued from Page 1)

It should be noted that there are no matinees Friday or Saturday and only one evening show Saturday.

The slide, sound film, "Our Family Album," is being produced locally and should be one of the hits of the program.

"Tremblin' in the Kremlin," which features a cast from Broadway, has been shown in several other works communities to capacity audiences and in every instance has been given top billing.

The program also includes the G-E film, "By Their Works," in which the Decatur Aeolian Choir appears.

All employees are invited to bring their family and friends and this should be considered when requesting tickets.

A boxing trainer says that fast footwork is most important in fighting. It comes in handy, also, in not fighting.

$1,000 Award Is Presented To O'Neill For Suggestion

Twins Eye G-E Check

Mr. and Mrs. Perry O'Neill and daughters, Karen and Sharon, are looking at the check he received for his $1,000 suggestion. Evidently the twins are thinking of ways to spend the money, but Dad and Mom have other ideas. The money is going into the bank for a future date.

(Continued from Page 1)

Raymond, in FHP Div. 13, was awarded $80 for his idea pertaining to milling shafts.

A $150 award went to M. Miriam Valentine of FHP Motor Div. 19. Her award was made on her suggestion for purchasing parts.

Other award-receivers who got various amounts ranging from $5 to $20 for their suggestions are:

FHP Motor Div. 13: Donald Mozena.

FHP Motor Div. 14; Guy C. Bragg.

FHP Motor Div. 15: Neil W. Anderson, Angelo J. Trentadue, Rudolph A. Becker, Harold J. Cunningham (two awards), Raymond H. Cristman, Milton E. Roller, Willia K. Dillman, and Walter Amacher.

FHP Motor Div. 19: Dorothea Swank, Clarence Roth (two awards), and Leon W. Rademaker.

FHP Motor Div. 10: C. T. Culver.

Specialty Transformer Div. 91: Russell T. Golliver, Charles Druce (two awards), John A. Kennell, Roedean M. Dowell, Iona C. Gray, J. H. Plescher (two awards), Charles R. Mercer, Ralph Valentine, Phyllis Fisher, Donald C. Ford, Ralph S. Foust, and Robert A. Bunyan.

Specialty Transformer Div. 94: William A. Rectanus, Betty Jean Sapp, Ethel I. Hullinger, Nona Hedges, and Velma Siteler.

Tiffin Plant: Eugene D. Gooley and Don R. Kirchner.

DeKalb Plant: Clifford V. Smith and Lorraine Roof.

Decatur Plant: Clarence Morgan and Clement B. Meyer.

Miscellaneous: Mrs. Margaret Snyder.

One of a family team at G-E, Perry has two other brothers working for the Company. Ray, in Div. 13, who was also in the limelight this week with his $80 award; and Ed, who works in Bldg. 8-1. Another brother, Ralph, used to work at the Winter St. Works. His father first worked for the Jenny Electric Works and later retired in 1933. Mr. O'Neill came back to work in Bldg. 17-2 during the recent war.

Perry is a sports fan and is especially interested in the Notre Dame football games. This year, however, his interest in football will be near the radio, with the twins taking charge of the household. The O'Neills have twin daughters, Karen and Sharon, who are four months old.

Beginning his G-E career in 1933, he first worked as a messenger in Bldg. 18-B. He later became a stockkeeper in the Transformer division. After working in the Wire Mill, he attended the Works Specialist Training School. Upon completion of the course, he became a blacksmith's helper. He then transferred to the FHP Motor division as an operations planner.

In 1942 he enlisted in the Marines and served with the corps 46 months. He saw overseas duty in Hawaii. Returning to General Electric in 1946, he first did production work in Bldg. 4-6, and later transferred to Taylor St. He is now in charge of production inventory control for FHP Div. 17 at Taylor St.

Brother Receives $80

Raymond O'Neill, FHP Div. 13, is shown (left) receiving a $80 suggestion award from his foreman, Ed Kimmel. His idea was a proposed method of milling two shafts, instead of one at a time.

HERE and THERE in BUILDING 17-4

by Maxine Baker

"Better get your overcoat," Fall arrived Friday with a beautiful pageant of sunshine and blue skies followed by dark clouds and rain. It looked almost like March got lost. . . . Bill Wherle is collecting the toys in cracker jack boxes. He says he can use them pretty soon so if you find a top or whistle in your cracker jack, don't forget Bill. . . . The way Tony Miller got grease all over himself we thought maybe he was getting in practice for a greased pig catching contest at the Bluffton Fair. . . . It's not the Fountain of Youth that keeps Harry Crouse going; it's those ham salad sandwiches everyday. . . . Norm Jones wrote to Chicago for theater tickets and requested them for Sept. 31! . . . We wonder why Carl Matthias always laughs so hard at the mention of an "O-o-o-h" bird? . . . Dick Seidel denied getting fat. He says he is still a growing boy. Oh boy! . . . Tomorrow we wish Betty McPherson all the good luck in the world in her dual career of housewife and mother. So long from all the gang and may you have a world of joys and if that won't work how about twin boys? . . . Cy Seymour is reminding the many losers of certain bets that Steve Kelker has a sure fire method of paying off his bets. He is saving a dollar a week. . . . Birthday greetings to Art Schmidt Sept. 20 and Alice Pflueger, the 22nd. . . . Roger Crabill has a side line now in the way of a fish market. . . . Bill Turner says not all people who drive fast have accidents. It can happen at 25 m.p.r. . . . Clara Kleint is off to New York for her third week of vacation. Best wishes for many more years of wedded bliss to Maxine and Lawrence Baker who will celebrate their eleventh anniversary Oct. 2. . . . On Monday Frank Surface visited the College Club Day Nursery as our representative on the current "Come and See Tour" sponsored by the Community Chest. He can give you at least one reason for wearing a red feather. Be sure to get yours.

Transformer Tattles BLDG. 26-4

by Mary Ann Miller

Mrs. Lee Gambrell and Mrs. Ray Horstman put on a benefit show for polio Sept. 13 in their neighborhood. It turned out to be a real success. The proceeds were $57. We think everyone should be more polio minded. . . . What do you know, John St. Claire has another haircut. . . . Dutch Norwald is always getting everything all mixed up. Imagine him asking one of the boys if he could go deer fishing up in Canada. . . . How's your carrots, Bugs Bunny Braden? . . . The testers welcome Hazel Dilworth to their section. . . . How are you getting along, Raney, since you and Shane have connected up. . . . Emma Lytal just came back from a trip to Wisconsin and almost was hit by a deer. . . . Leatha Hey is vacationing in the East for two weeks. . . . Nora Coburn is spending this week in Chicago. . . . The hermetic people admire the beautiful flowers Wilda Frauhiger has been bringing to work. . . . Hope Frankie Schlatter and Carrie Green enjoyed the Notre Dame football game last week-end. Oh yes, we don't want to forget, Bill Rectanus was there too. . . . The people in the Green Room were glad to see Dick Ehrman back on a visit from California. . . . Rita Fleckenstein who is in the WACS came back for a visit last week. . . . Dick Gollar has Herman Conrad doing all his heavy work for 50 cents off on his rent a month. . . . Did you know that Leo Klejnot is peddling his car around now since his transmission fell out? . . . Ask Opal Runyon where she spent her honeymoon. . . . Dutch Norwald wants to know if northerners come from Canada or Kansas. . . . Schlatter doesn't have to feel alone when it comes to powdering his nose. George Gorrell does it too. . . . Roy Hostler has toast every meal since he won the toaster at the Quarter Century Club picnic. . . . Frankie Schaltter was late one morning last week. . . . The boys didn't know if he was playing with his new fly rod or trying to get ahead of the boys on this time changing. . . . Congratulations to Mr. and Mrs. Marsh Foelber on the birth of a daughter. . . . We wish Tom Hildebrand and Jordan Gunkel a speedy recovery.

ROVINGS in 17-2

by JEANETTE BLOUGH

"Not in doing what you like, but in liking what you do is the secret of happiness."—J. M. Barrie.

My good reporter, Joe Haas, tells me there just isn't any news in the tool room. Things are sort of slow elsewhere so I went home from work the other evening and sez to my mother. "Mom there just doesn't seem to be any items for 'Rovings' at all. What do you say, let's go for a drive and try to find something to write about?" She grabbed her bonnet and we took off. . . After a short drive I thought I spotted a familiar character, and in distress too. Sure enough there was none other than Kenny Hyman, foreman of 16x40. He had locked his keys in the car. "Good Deed Gertie" and her mom picked him up and headed for his home, just a little over a mile away. (Wish it would have been my foreman, it would be an ideal time to ask for a raise.) We were about half way to the Hyman residence when Kenny remembered he left his hat in the home he had just visited. Oh, well, he did remember where he lived. . . . Hilmer Drayer and his wife took his father-in-law to the hospital the other night for a minor operation. They were sitting in the room talking when the nurse walked in and said to Hilmer, "I thought you would be in bed by this time." He answered that he thought that it was a good idea, but he would have to go home first. . . . We offer congratulations to Mr. and Mrs. Joe Hawk on the arrival of twins. They were born Sept. 12, and their names are Frank and Francis. Herb Winter is also a new papa. The Winters are very happy about the birth of a baby girl. They have two boys. . . . Jerry Wert will be a little careful about where he talks shop hereafter. He met some of the fellows the other night while they were eating a steak dinner and mentioned work. It cost him exactly $3 a "treat." . . . Al Knight left us to work at Taylor St. on second shift.

PENSIONER PARADE

Strike up the band, here comes the Pensioner Parade!

This is the debut of a featured column to give the news of what all you retired folks are doing since taking that permanent vacation from G-E. This is your column. Let us know what you're doing and where you are. Send any items to the WORKS NEWS office in Bldg. 8-2 at G-E. . . . Sherman Stilwell, formerly of Bldg. 31-2, has left for Ely Lake in Allegan County, Mich. He is going to do some archery hunting for deer. The season opens Oct. 1 and continues until Dec. 15. The limit is one deer and he tells us that chances are good at getting a bulls-eye only if you are within 30 feet of the deer. This will be Mr. Stilwell's third attempt. He was able to spend only one week before, but now that he is retired he intends to stay the entire season. . . . William Baber, of Auburn, has an unusual hobby; since retiring, he has been able to devote most of his time to it. He is making plastic reeds for woodwind instruments, such as saxophones and clarinets. . . . Thomas I. Hosler, formerly of Leo, is Florida-bound for some of that good sunshine this winter. . . . It's deep in the heart of the Lone Star State for Gottlieb Fuchshuber. He is leaving Ossian soon for Texas, where he will visit his son.

Mrs. Foreman Dies

Mrs. Genevieve Foreman, 21, was killed in an automobile accident Thursday, Sept. 22, at 1:30 a.m. Her husband and one other passenger were also killed in the same crash.

Mrs. Foreman had worked for General Electric since 1944. At the time of her death she was an assembler in Bldg. 26-3.

Services were held Saturday at the Harper Funeral Home in Ilaven. Rev. Gail Davis officiated and burial was in the IOOF Cemetery.

We understand Ed Rodenbeck has been trying desperately to save fuel in his oil burner. The total cost to date is one new suit of clothes and a new thermostat. What happened, Ed, did it blow up? . . . "Heep Big Chief," Willy Roby, buys wigwam at Big Lake. . . . Saturday, Oct. 1, is a red letter day for Si Alspaugh. His daughter is getting married. . . . We have a celebrity in our midst. Watch the newspaper, Sat. Oct. 8, for Waldo Martin's picture. . . . The gang is wondering just what happened to the skunks Bob Warnament has collected the last three weeks. . . . Theron Kitchen is still driving his International Harvester Chevy to work. . . . "Vondy" is now getting all his news first hand now that he has a telephone. . . . We still can't believe Meredith Trout would take advantage of his fellow workers by juggling the names on the calendar. Or could it be he is saving his energy to finish painting his house he started last Spring? . . . Lottie McFarland was certainly surprised when two boys asked her if her cat "Spud" could come out and fight with their cat. . . . Mildred Orr celebrated her birthday last week and she received many useful gifts. . . . Happy birthday, Mildred. . . . We know where Winnie Scheurich gets all her pep from. Half and Half tobacco accounts for it. . . . We are very happy to welcome Marie Wickleman back from a long illness. . . . Clarence Weist is wearing his riding gloves to work again. Are you riding a horse now, Clarence, or a bicycle? . . . How come the boys were so jealous when Walt Niemeyer was talking to a certain party a couple of weeks ago? . . . Harold Somers had nothing to say about the wonderful team the St. Louis Cards are when they lost 19-6. How about rooting for the "Bums," Harold? . . . Louie Botteron is now trying to purchase two loads of dirt. It sounds like he and his neighbor are still having yard difficulties. . . . Maxine Daniels and Hubby Danny, are still trying to find a name for their "pouch." Anyone with any good ideas please get in touch with them. . . . Williadean Rathert was one sorry gal when the Dinner-Winner man called, and she answered her phone by saying, "hello". . . . "Pappy" Grier may not think too much of O'Grady's car but Mike shouldn't mind what his cats do. . . . Tom Harber invited Orville Robinson to his farm to spend the day but he forgot to tell Orville the weeds had to be cut. . . . Fred Vogt should take bowling lessons from Helen Miller. Helen started out the season with a 192, while Fred, believe-it-or-not, bowled an 85. . . . Paul Hitzeman has found how old he is. He says that anyone past 40 should not try to pick apples. . . . John "grub 'em out" Heine is finally getting his lake lot in shape. John and the poison ivy have become great pals. . . . Theron Kitchen's old Chevy is still in the hospital—no door. . . . We hear Marcile Bandtel is one handy person to have around the house. She can do most anything. . . . Fred Kiel sees to it that the finishers get plenty of exercise when he is on the job. . . . Anyone wanting tires changed on their car please contact Bertha Witte. She changes a flat on the way to work and still makes it on time. By-the-way, just who is the pin-up girl in Div. 14? . . . We hear Dale Irwin really celebrated his birthday Sunday, Sept. 18. Happy birthday, Dale. . . . . A speedy recovery to Helen Perry who has taken a leave of absence. Helen was also very pleased with the cards she had received from the girls. . . . Ruth Dannecker and Polly Brown have started bowling, but we hear through the grapevine Polly won't tell anyone her score. . . . Ivan Osterman is in a fog again. He doesn't know the difference between fireworks and thunder. . . . We hear a very distinguished looking gentleman in the person of Paul Smith, wore a fancy beige brown and yellow "Junior T" shirt on his first night bowling.

Hench Rounds Out 30 Years Of Service

Neal R. Hench, Bldg. 16-3, recently rounded out 30 years' service with the Company. A group of his friends in the Wage Rates section joined with their best wishes and congratulations on his long service. In the picture are: (l. to r.) C. G. Arnold, H. J. Dannecker, Mr. Hench, L. P. Persing, A. R. Ruble, and C. H. Weber.

Committees Appointed For Engineers' Club

C. M. Summers, Bldg. 28-2, has been appointed program chairman of the Fort Wayne Engineers' Club. His committee members are J. J. Clarkson, M. C. Halleck and C. W. Kronmiller, all of G-E, and Don Sinish.

The meeting, Sept. 15, featured E. E. Blaurock, head of the Product Engineering Department of the U. S. Rubber Co., Fort Wayne branch. His subject was "Engineering Developments in Rubber Industry."

Other programs will be based on economics, management-engineer relations, international and civic affairs, developments in color photography, science, the Christmas party and annual meeting.

General Electric men on the membership committee are M. D. Barrows, chairman; and A. L. Ulmer.

Fairy tales are harmful to children, say some educators. Maybe they shouldn't listen to those dad tells mom.

US Second Shifters

By Earl Stauffer

Here we go at our second attempt at putting US Second Shifters in the Works News. . . . We want to remind all of the girls that the last day for Elex membership is Sept. 30. . . . We start in Bldg. 17-2 where Arlouine Wise is quite busy this week. Her mother, Mrs. Anderson is here from Oregon, her niece Ann and her nephew Ridgie from Ohio. . . . Roxana Miller is leaving for Bldg. 4 and days. . . . Three questions need answers: What happened to John Anderson's coat, Lloyd Oberholtzer's lunch box, and Frank Wilson (who says his eyes don't do so good in the dark) on his return from Bldg. 6? . . . Dick Maxton says he came out second best with a truck. . . . Herb Winters is the proud papa of a baby girl born Sept. 21. . . . Ura Mae Tinder, Bldg. 17-3, must have been wrapped up in a paint job because she left her lunch at the paint store. They were nice, they brought it to the gate. . . . Charlie Crain, Bldg. 17-4, really has a snazzy new sweater. We hear that his better half gets the credit for the good taste. . . . Kenny Ford and Sandy Bennett hold their heads at half mast whenever they go by Big Bill Geist. He catches the fish at Cedar Shores, and they get the goose eggs at Hamilton Lake. . . . Jolly Boy Ray Stanger and John Miles rejoined the gang in Bldg. 17-1. . . . Here is a dandy from across the street in Bldg. 26-4. Going home from work last Thursday we saw three women pushing a Kaiser over the St. Joe river bridge. So now we know how Lee Mohr and Norm Shane get 25 miles to a gallon on their cars. . . . Anybody wishing information on fishing tackle and bait should contact Rudy Becker, Bldg. 4-5. He has a new supply, any size, shape, kind and color. . . . Mary Berger has a new tattoo job. Very neat and must be seen to be appreciated. Come on, gang, make her show up. . . . Pete Macke should be more careful in getting into a car at night. The wrong one may lead to a bad influence. . . . Alice Klingel's sister Dorothy Bixler, Decatur; who used to work in Bldg. 17-3 and Taylor street, little 8 and a half mo. old son Donnie is much improved from his recent attack of polio and is expected to return home soon. (To that this humble reporter says, Amen.) . . . Also from Bldg. 4-2 it seems Colie Stovall swore off of squirrel hunting when he got only a cold for his efforts the other day. . . . This column would have taken over a whole page if we would have heard as much from everywhere as we did over in the repair and return section in Bldg. 4-4. . . . Archie Wright after losing several games of euchre has agreed to show how to lose the easy way. . . . R and R is quite musical since Lloyd Miller joined the Owls. . . . Everyone asks, "What has happened to John Stanek's black beauty." . . . Say, Jeanette Conrad, how about a house warming? . . . Charles Griffen and Walt Sollberger ate an apple belonging to Miss Braumbaugh. We wonder if it was the same apple or Charlie's conscience that caused the discomfort Thursday evening. . . . Elmore Hurt doesn't look like Dagwood, but he takes after him the way he sails in to work the last second. As yet we do not know how Elmore picked up the handle of "vacuum cleaner." . . . Little Herbie Jehl shot six times at one fox squirrel. What was the matter, Herb? No shot or no hits? . . . Bob Mobberly left us for Div. 14 Taylor St. last week. . . . We are wondering if Carl Sleppy is going contractor on us since he bought the paint spraying outfit. . . . Walt Sollberger, Ira Runyon, and Herb Jehl set a new fad in small pipes.

He Is Now A G-E Pensioner

Just before George Delfs left, his safety record was called to our attention by Safety Committeemen in his section, and here it is:

THIRTY-TWO YEARS WITHOUT A LOST-TIME ACCIDENT

We had occasion to check the accident record of others leaving the Company with long service. It is surprising how many were free of even minor injuries.

We hope you are curious about the message in above picture. It ties in very well with George's no accident record. We arrived at the 207 years by using the following formula:

$$\frac{1{,}000{,}000 \text{ man hours divided by } 2.43 \text{ accident frequency rate}}{2{,}000 \text{ hours worked in one year}}$$

Without a doubt most employees are safe workers.

HERSCHEL L. SMITH,
Safety Engineer.

GENERAL ELECTRIC NEWS SUPPLEMENT

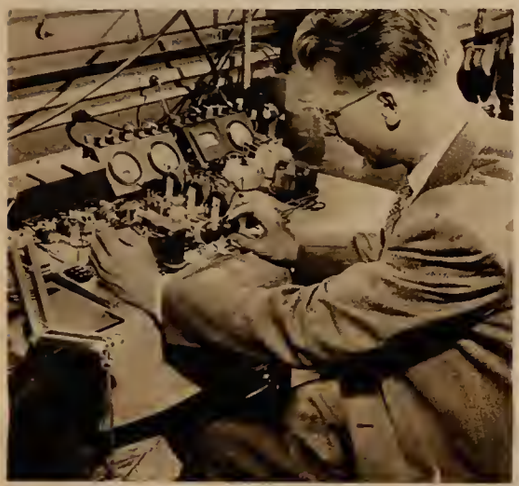
Candid Camera

VOLUME 14 SEPTEMBER 30, 1949 No. 9

All Tied Up . . . Getting ready for the three-legged race at recent G-E employees' picnic are Margie Erzengatian, left, and Mary Clark, aided by Bob Bodine, all of the Switchgear Divisions, Philadelphia.

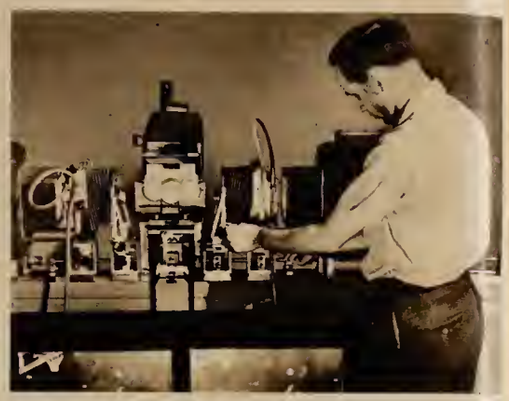
A Soaring Hobby . . . Holding the first plane model he ever made, Aubrey Pearson, Schenectady Works, views just a few of the many trophies he has won in airplane model competitions. Mr. Pearson won first prize recently in the New York Daily Mirror contest with his personally designed 7-foot model plane.

Set for Action . . . Quarter Century Club members at Bridgeport Works did some fishing at their recent summer outing. Birger Olson has o good grip on the pole while Jock Arnold does some coaching.



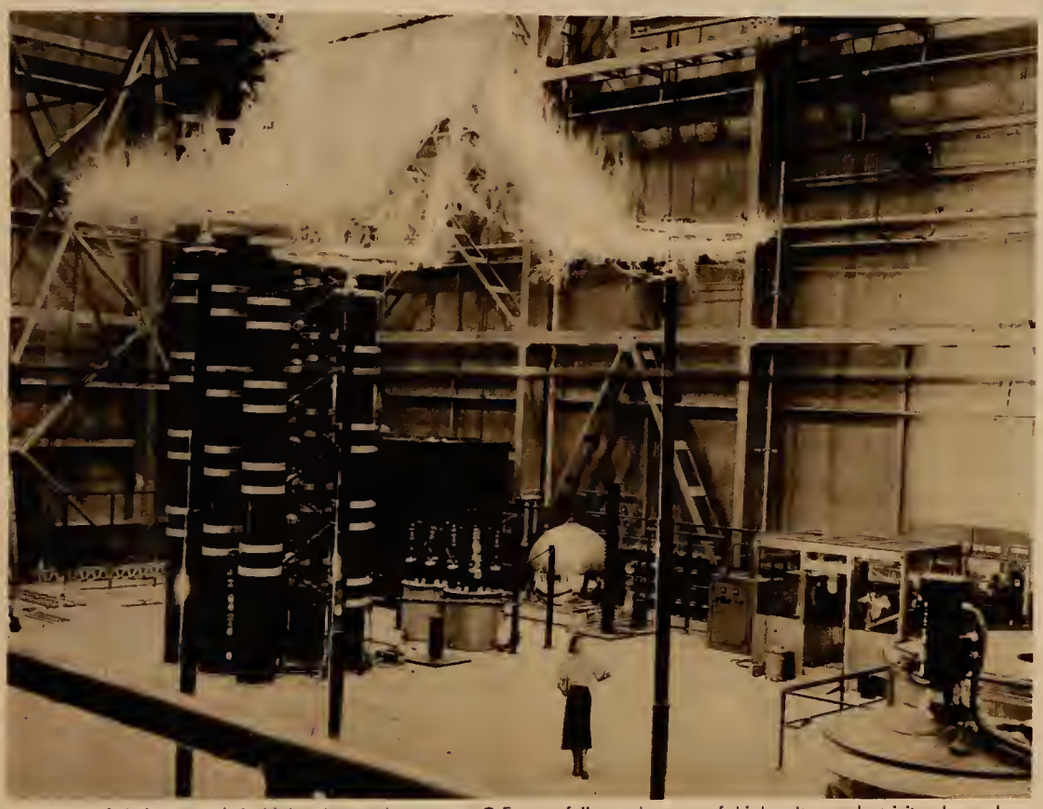
The Long and Short of It . . . (Above) One of the largest reported taken in New England woters this yeor, this 850-pound tuna was caught by Fronk Crowell, Lynn River Works employee, with the aid of three fellow fishermen. Clockwise from top right ore: Jim Wolker, Roy Downs, Mr. Crowell ond Horold Baker. In contrast, (left obove) Robert Schuelke shows Richard Poehler the "whopper" he hooked at recent Ft. Wayne Apprentice Alumni outing.

Today's Research and Eng



Dr. R. B. Nelson, of the Knolls Research Laboratory, develops powerful radio waves from new high power magnetron. With these waves capable of quickly heating many kinds of materials, such equipment may open new uses in industrial manufacture.

In Schenectady General Engineering and Consulting Laboratory, engineer V. J. Wattenberger applies new G-E amplistat in development for a control of variable jet nozzle actuator.



Laboratory tests and experiments are resulting in more new products and more efficient methods of factory production. Stanley Zaleski, extrusion operator at Pittsfield chemical laboratory, guides all-electric extruder for custom extrusion of nylon materials, producing superior quality to thread extrusion.

Further research in the basic requirements of primary color sharpness in color television is being done in the Television Section of the Electronics Laboratory by B. M. Tobin, engineer.

Solina Grassi of the Promotional Service Section at Lynn reflects the softly diffused glare-less light of new fluorescent street light, a product of two years' engineering development.

As a part of their research in high-voltage phenomena, G-E engineers at Pittsfield High Voltage Engineering Laboratory carefully study arcs of high-voltage electricity shown here rising 20 feet into the air from three revolving electrodes.

Product placed in home operation gives important data under working conditions, as in Providence, R. I., home of M. V. Gardner, Narragansett Electric Co. engineer. Here Suzanne Gardner has E. E. Linden, engineer, explain new G-E heat pump to her.

gineering create new jobs for tomorrow

THOUSANDS of General Electric employees are at work today on jobs that didn't exist ten or fifteen years ago — jobs that have been created by the scientists and engineers in their constant search for new and better products to offer the customer. Our whole television operation has been built in the last few years, our entire appliance business in the last 20 years, and, in fact, the whole electrical industry in the sixty years since Edison invented the electric lamp.

Today, the scientists and engineers of General Electric are working harder than ever to produce new jobs for tomorrow — in electronics, atomic energy, chemistry, and a hundred fields as yet unknown.

Shown at work here are a few of the men in whose test tubes and on whose drawing boards the jobs of tomorrow are being born today.

Passibly creoting new jabs is the recently develaped remate cantral wiring system at Bridgepart. New users are instructed in its simple aperation thraugh this push-buttan panel demanstratar, being explained by Baxter Lanius, Canstructian Materials advertising trainee, to Gerda Baes, stenagrapher.

Illuminating engineers at G.E.'s Nela Park are always perfecting better lighting standards. In this Flassmaar, Illinais schaalraam madernized schaal lighting is the result af their efforts, where law-brightness 40-watt fluarescent lamps make camfartable seeing canditians withaut desk level glare.

Checking drainage characteristics and pawer requirements an this experimental madel af the new and mare campact FA3JR Disposall unit are D. W. Gustavesan, designing draftsman, and J. H. Pawers, manoger Disposall engineering at Bridgepart.

In their Bridgepart laboratary, engineers T. M. Hartung, left, and R. E. Geiger wark an new G-E partoble dishwasher, which will apen new markets amang renters and small hame owners.

Candid Camera

Kiddie Karnival Queen . . . Youngsters of Potterson Club members of the Bridgeport Works hod o recent "Kiddie Kornivol" with pony rides, clowns, and gomes. Potty Ann McMough, daughter of Mr. ond Mrs. E. F. McMough, Jr., reigned os Queen. Her ladies-in-woiting: Moureen Cooney, doughter of Mr. ond Mrs. Michoel Cooney Jr., ond Josmin Mueller, doughter of Mr. and Mrs. Adolph Mueller.

Search for Fun . . . Children of G-E employees ot Tiffin, Ohio, plont were kept omused ot recent G-E Club picnic with the penny scromble and apple-eoting contest (below).

A Family Affair . . . Dovid M. Coville, Sr., who has been troining horness horses for yeors, clocks Storm King in a workout os Dovid, Jr. drives. Both fother ond son are employees ot the Schenectody Works. Lost yeor Storm King finished in the money 18 times out of 23 storts.

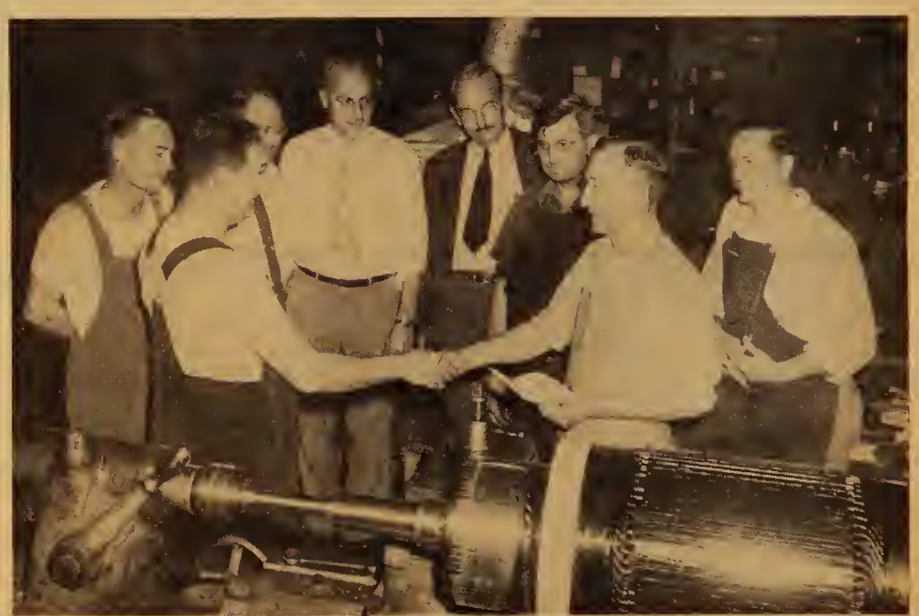
Lovely Models . . . Jeon Quade, employee ot Electronics Pork, Syracuse, displays Generol Electric's new lowest-priced FM-AM table rodio. Model 218 feotures genuine Armstrong FM in oddition to the standard AM bond ond is opproved by Underwriters' Laboratories.

Haugk Completes 30 Years At G-E

Elmer Haugk, FHP Motor Accounting Div. at Taylor St., recently completed his 30th year of service at General Electric. On his anniversary, a number of his friends gathered to extend their congratulations. Left to right are: Robert Wildermuth, Mr. Haugk, Luther Meyer, Jane Reeves, H. C. Brudi, L. I. Asher, and C. M. Schneiders.

BACK TO SCHOOL AGAIN. Forrest Mulvane (who recently returned from California) son of Mr. and Mrs. J. L. Mulvane, has again enrolled at Indiana University. This will be his senior year. . . . Dr. and Mrs. Leslie Wilson's daughter, Alice, has also left for Indiana University, where she too will be a senior. . . . CHANGES. Florence Martin is the second shift nurse at Taylor Street while Alta Mayle is back at Broadway on first shift in the Bldg. 8-1 Dispensary. Lyle Rupert has been transferred back in Bldg. 21 Dispensary, working days. . . . Dr. Garton has changed from an "old" Pontiac, to a brand new Buick. . . . VACATION NEWS. Dr. Murdock, who was on duty while the rest of us were on our vacation, spent a week in the East. Rumor has it that he has lots of beautiful pictures taken of Washington, D. C., and Virginia. . . . HAPPIEST CITY? While waiting to cross the Nickel Plate tracks, I couldn't help but wonder how the scowls and frowns on the motorists faces would register if "Look's" photographer were in the vicinity! . . . Minnie Fryback attended the Annual State Homecoming of the Masons and Eastern Stars at Franklin, Ind. . . . JUST A THOUGHT. Most of us know how to say nothing: few of us know when. . . . Birthdays usually call for a celebration, but for Veda Orff, it should be a holiday. Veda has been dismissed from the hospital and is recuperating at her sister's home. Then Sept. 24 marked another anniversary for her, so the entire section sends birthday greetings and wishes for a speedy convalescence. . . . Anyone meandering down the Midway at the Bluffton Street Fair probably met Mae Mulvane and also her niece, Mabel Wilson. They really have been enjoying the "sights" and exhibits. . . . Olive Walters, nurse at Taylor Street, attended the Railroad Fair at Chicago with Elex. . . . Imo Jean Schwartz intends to acquire a little "larning." She is attending the shorthand class at IU Extension. . . . Dr. H. L. Murdock celebrated a birthday while on vacation last week, so his birthday cake from members of the section was late for the occasion. . . . Dr. H. L. Garton, Works Physician, and Duane R. Stroud, Industrial Hygienist, spent Wednesday at the Tiffin Plant on business. . . . Bertha Schrader, with her son and daughter, had Sunday dinner with her daughter, Mrs. Joe Parker at Garrett. . . . "The leaves in autumn do not change color from the blighting touch of frost, but from the process of natural decay. They fall when the fruit is ripened, and their work is done. Their splendid coloring is but their graceful and beautiful surrender of life when they have finished their summer offering of service to God and man."—Tyron Edwards.

Don't forget the Safety Program! Keep our lost time accidents to a minimum by practicing care and using every safety device provided for us by the management. . . . Helen Hardy spent the week-end in Chicago where she attended a wedding. . . . Erna Mann, Clara Outlaw, Margie Rall and her mother and Mamie Allen joined the Elex Club on their trip to the Railroad Fair in Chicago. . . . Virginia Gebhart has been instructing her husband Bud in building a back porch. Of course, she didn't know any more about construction work than he, but she did know how to give orders. After a few days of hard but ineffectual labor, they finally called in an expert, her father. With his help and guidance, they expect to have it finished by the time the first snow flies. . . . It was sure a relief to Paul Monroe returning home a few days ago to find there the billfold he thought he had lost. . . . Floyd Loraine surely must look like a man from Mars when he gets fixed up with those goggles and respirator he wears while using his spray gun! . . . Be ready to greet your solicitor when the G-E Community Chest Drive campaign opens on Monday, Oct. 3.



We have finally found a way to get ahead in life it seems you have to wear a purple tie. For more information see the boys in final test. . . . The other evening when Art Luessenhop came to work, Charlie Penn was there to greet him and to see how many stators Art would run that night. Charlie had to have him an inspector. Since they run so many stators and pile them in boxes Art told Charlie without thinking "Oh about 17 bushel." . . . Roy Pickett has been wearing some mightly flashy "T" shirts to work lately—someone made the remark Roy doesn't look half bad in a sweater and that he could be called a "sweater boy." . . . Andy Anderson has been riding the bus last week, he is overhauling his Chrysler. . . . The talk around the shop now is all about bowling, Gus Harrison is Captain of a Thursday night league. Andy is secretary of a Wednesday night league. Harold Fletter has been rolling some pretty high games, he's rolled a high of 147 so far. . . . Oral Emrich, the star of the Friday night league last year, gave up bowling this year. He didn't have a good excuse so we figure that his wife was getting too good and since Oral couldn't compete with her anymore decided to give the game up. . . . Wayne Worman overheard some fellows talking the other day about taking their cars down to Central High School and let the kids who are taking shop work work on their cars. Right away Wayne wanted to take his down there. We don't like to disillusion him but, Wayne, they only repair cars not make them. . . . Who's the new heart throb that Clarabelle Castle has that she stands on top of the benches looking for him. . . . Cozey Walper has a new name "Duchess." The story goes that all the Duchess talks about is taking her dog to the Custer Dunifon training school. . . . Sarah Moore was on her vacation last week. She was going to take it two weeks ago but heard the fish weren't biting so postponed it a week so no doubt Sarah will have some tall fish stories this week. . . . Hilliard Moore is taking his vacation next week. He plans to go to Ann Arbor, Mich., and spend some time at the Lakes. . . . Oral Emrick also is taking his vacation next week. He is going to see some of the interesting points in Florida. . . . Ruby Stoops will see the Railroad Fair and Chicago this week-end. . . . Charley Engle is having open house for some of his friends at his cottage at Crooked Lake tomorrow. . . . Herb Richter is going to see the football game at Notre Dame tomorrow. . . . Thanks to "Butch" Witte and "Moe" for doing this column. You see, gang, they do all the work, the column just hasn't been changed to another name as yet.

Priscilla Thrasher, who in the world ever sent you those beautiful roses? All you need now, Pat, is a nice moonlight night and things could really happen. All you will have to say is, "I will and I Do," from there on live happily ever after in a garden of moonlight and roses. . . . If you have any old paint around the house you would like to return, Jess Easterday can tell you how to trade it in for some new. About five years ago Jess bought some paint to do some painting. However, Jess kept putting off the job from day to day until five years had elapsed. He then decided he would like to have another color, so Jess, old boy, takes his can of paint back to the dealer and gives them a story as long as your arm as to why he wants to make the exchange. This story we are told would make believe it or not Ripley look like a piker. . . . Lloyd Cowell is now at the Irene Byron Sanitarium and doing as well as can be expected. We wish you all the luck in the world, Lloyd.

Molthan Celebrates 30th Year At G-E

William H. Molthan, Bldg. 19-2, recently chalked up his 30th year at General Electric. Several friends and co-workers gathered to congratulate him and attend a presentation of his 30-year certificate. Left to right in the picture are: Paul Bryan, Herbert Dial, C. W. Hale, D. E. Egts, R. M. Hartigan, Motor-Generator Manufacturing Manager; Arnett Clouse, Mr. Molthan, and Howard Berrier.

What charm does Frank Laier have on Clarence Rentschler? Clarence was seen shining Frank's shoes the other noon. Gosh! my shoes need a shine, Clarence. . . . You know how buying new clothes peps a woman up. Here is a way to get new clothes free; just swap blouses like Lee Raver and Mary Nute do! . . . Melinda Beerman is on the sick list. Hope she gets back to work soon and is OK again. . . . I hear Virgil Dalman intends to buy a downtown store. Golly, he is some big business man! Would you sell your merchandise wholesale to your friends, Virg? . . . Edna Houser is back with us, so are Bob Wirges and Ruth Mutton. Nice to have you all back. . . . Lorinda Beirlein and Kathryn Hepker are back from their third week of vacation. They had a wonderful time. Incidently they took in the Railroad Fair. . . . Anyone needing a carpenter cheap, call Mildred Green or Esther Fagan who are beginners. They don't guarantee anything though. . . . Eleanore Kohrman, whose name will soon be Mrs. Thomas Krouse, is certainly busy these days with all the details of the main event which will be Oct. 8 at 9 a.m. at St. Paul's Catholic church. . . . I understand that since Hope Hatfield has her sandwich spread made she is through canning. Wish I had all that stuff canned! . . . Say, I wonder if Butch and Alice Claymiller got the sides of their new house up yet? It is getting a little cold now for Butch to take "sun" baths. . . . Glen McDonald was having trouble with a leaky roof. The south side of the house was leaking, so he looks on the north side to see what kind of shingles he needed. When he got home with the shingles he found out he had four different kind of shingles. Don't worry, Mac, what color the roof is, just as long as you keep dry; Note: Herman Buuck put them on! . . . Speaking of Herman "Poky" Buuck this bit of information came as a surprise, he is a baseball pitcher, too! . . . Bill Wickliffe missed seven putts last Saturday—must have been off the beam or as he says, "The green was too wet!" . . . That odor up here the other day was the "skunk" Louie Staulf and Lorenz Korte got in the euchre game at noon. . . . Marcie Geschwell and a girl friend went fishing the other week-end and much to their surprise they got a bite. After much struggling they finally landed their catch, which was a great big cat-fish. After they got it in the boat they didn't know how to take it off the hook! Suddenly they remembered that they had a towel in the boat and they wrapped the fish in the towel and removed it from the hook! That's ingenuity for you! . . . Ruby Zelt finally got the saddle turned around on his horse. We knew he would sooner or later. . . . Fern Wallace spent her whole noon hour looking for a cake for her mother's birthday and finally found one, but when she got home she found out that she had left it at the office! I don't know if she stirred one up real quick when she got home or not, maybe they put the party off for a day! . . . John Ormiston and his wife cleaned out their attic last spring. They discarded a lot of things they didn't need and they sorted things right and left when they came to a hat box. Johnny said that is just some old hats and proceeded to toss it out without looking inside. The other day Ruth was looking for her fall hat and all she could find is a box of real old hats. They had thrown Judy's and her hats in the fire instead of the old ones. Now Johnny has to reach down in that sock of his and get them some new ones! Are you sure, Johnny, that she didn't throw them away on purpose? . . . No one around here has an iron jaw, so we advise Paul Hendricks to make his candy bars of something else! . . . Birthday greetings to Eleanor Gilgor. . . . Eleanor was a model for her sorority's style show where they modeled furs! She said that she is going to buy at least two new ones this year! . . . Wonder what Frances Rose is doing with a 160 acres? . . . Betty Kummer went to visit her sister over Labor Day week-end, and they took a trip to the zoo and she said she sure got a kick out of the monkeys! . . . Hilda Seiler gets her flowers mixed. She called a "Joseph Coat" a "Jew" plant and says, "well wasn't Joseph a Jew?" Guess she is right at that. . . . Ruth and Charles Reed have been having fun cat-fishing! They use a lantern and flashlight and the other necessary equipment too, such as a pole, line, hook and nightcrawlers. . . . Mary Nute is a very good pie maker. Hilda Seiler says the apple pie was delicious! I would like a sample sometime too! . . . Pauline Kaufman is moving into her new home soon. Hope you like it a lot. . . . Johnny Pumphrey is back from his third week's vacation, looking well rested.

Birthday greetings of the week go to Kathryn Gilbert and Walter Amacher. . . . Rosa (Rosebud) Moody was seen thumbing or hitching a ride on a neighborhood girl's tricycle. . . . Theme of the week: Be safe and keep our lost time accidents down.

Let's all be real quiet and maybe 1949 will slip by without a non-stop dancing or roller skating contest.

Valentine Is Honored For Long Service

Frank Valentine, Bldg. 17-2, celebrated his 30th anniversary at General Electric Tuesday, Sept. 20. At that time several of his friends joined with their congratulations. In the picture are: (l. to r.) Jack Bendure, H. E. Boles, FHP Div. 16 Supt.; V. R. Castle, Mr. Valentine, Pres Slack, Robert Esterline, and Herbert Lemmel.

Inventory, Change in Time, Bluffton Street Fair, Russian Situation, and a cold in the bead—how could anyone get out of that whirl long enough to write a new column? . . . Inventory—a headache that comes but once a year—thank goodness. . . . Change in Time—a confusing state welcomed twice a year. . . . Bluffton Street Fair—This year has special significance for Mr. and Mrs. Elmer DeBolt, Bldg. 18-2. You see, their daughter, Norma Jean is being sponsored by the Wells County Junior Chamber of Commerce in the Junior Miss America contest. Last night the contestants from the State—beautified the surroundings and entertained during a banquet. Tonight the lucky Queen will be crowned by Governor Schricker. . . . Russian Situation—censored! Cold — Likewise. . . . News of Bldg. 18-5—Good luck to Norma Jean Snyder who is leaving today to take up housework as a permanent assignment. . . . The bowling team, which includes Eloise Kartholl, Ginny Bradtmiller, Dortha Kempf, Pat Beebe and Pat Olinger, is coming right along—at the bottom of the league! When the prizes are given out is there such a thing as a booby? Will keep you informed of the latest on the "Pin Heads" each week. . . . Erma Lucas took her vacation the other week for a trip through the Ozarks and on to St. Louis. . . . Ed Hagadorn is again a proud grandpa. Grandpas have to pass out cigars too, Ed! . . . Donna Walters went to Chicago with the Elex members and had a wonderful time. . . . Bldg. 18-4—It seems that fall is officially here. Did you remember to set your clock back? . . . Annabelle Redding is opening the season in all its traditions, attending the Notre Dame-Indiana football game Saturday. . . . Delores Patterson enjoyed the Elex trip to Chicago. Ray White took his family to the Railroad Fair, a surprise trip for their two sons. . . . We welcome Viola LeMaster from Regional Warehouse, Bldg. 6-2. She replaced Betty Mueller who will now become a full time housekeeper. . . . Gloria Koeble was listed among the influenza victims last week. . . . The bowling team states that it had pretty rough going the first game. Seems it is a problem to stay on one's feet when trying to get the ball down the alley. No use to ask them about it—they won't tell anyway. . . . Robert Mace, Bldg. 18-1, was the main speaker last Thursday at the orientation dinner for the Junior Chamber of Commerce. His subject was "What Are Jaycees?" . . . Hazel McDougall, Bldg. 18-2, states that aside from the bruises, injured hand and knee, that she received when she fell last Monday on her way to work, the pain of replacing her glasses was even greater. We are sorry, Hazel, and hope that you will soon feel better. . . . A. W. Howard can now be located in Bldg. 20-2 on telephone No. 2314. . . . Happy birthday to Esther Sears, Bldg. 18-4.

Eye Witness

Edith Drivelbiss, Bldg. 18-1, had a very enjoyable vacation traveling up the St. Lawrence River, but it was marred by tragedy. While cruising up the river Sept. 10, she was an eye witness to the Canadian Pacific DC-3 airliner crash which killed 23 passengers and crew members.

She was on the deck of the S. S. St. Lawrence watching the scenery when suddenly she heard an explosion and saw the plane nosedive into the treetops. Watching the disaster, she and several other witnesses observed things fly and fall from the airliner as it streaked towards the ground. Edith and other passengers aboard the ship signed statements that they plainly heard and saw an explosion, but no flames. Later a woman confessed to putting a bomb in the plane before its take-off.

On her return trip to Toronto, she passed the site of the crash again. At that time rescuers were performing their grim task of removing the bodies from the wreckage.

Thought of the Week: "All men may be born equal—but what they equal later counts!"

Man is the only animal you can skin more than once.

CLOSING DATE FOR NEXT ISSUE
Monday Noon, Oct. 3, 1949

LOST AND FOUND

LOST—Three boxes of Christmas cards in paper sack in ladies' rest room of Bldg. 26-4.

FOUND—One key in yard.

FOR SALE

MEN'S BOWLING OXFORDS—Size 10, black. A-75442.

27 FT. PEERLESS TRAILER—Bottle gas, tandem wheels. 409 Edgewood.

ELECTRIC RANGE—Dry or green wood, any size, we deliver. A-55774 after 4 p.m.

SHOTGUN—Single barrel, hammer type, 12 gauge, 30 in. barrel, full length, raised rib, like new. H-44952.

SNOW APPLES—$1 per basket, golden and red delicious. $1.50 per basket, containers extra. H-26482.

GIRL'S ADMIRAL BICYCLE — Very good condition. A-75192.

LAKE LOT—Reasonable, Goose Lake, basement complete and sealed, Walker's Landing. A-58345.

THREE ROOM HOUSE—Quarter acre lot. H-19221 or 2240 Nuttman.

PEERLESS BLOWER—With motor and Honeywell control, in excellent condition. H-26182.

GIRL'S AQUA BLUE KENWOOD COAT—Size 12, in good condition. A-26973.

SPEED WASHER — Corner lavatory, reasonable. E-2766.

1937 CHEVROLET—Two-door, with new motor, good tires. A-19931.

LARGE MODERN TRAILER HOME—Or will trade for apartment rental. New Haven 6563 from 6 to 9 p.m.

STOKER—Iron Fireman, A-1 condition. A-97695.

WALNUT BEDROOM SUITE—Complete with innerspring mattress. Good condition. $60. E-38901, Friday evenings or Saturday and Sunday.

CORNET—Good condition, good case, $35. E-37343.

COAL HEATING STOVE—Fire brick lined, 100 lb. capacity, good condition, $12. H-92452 after 4 p.m.

TABLE TOP GAS RANGE—Excellent condition inside and out. $15. H-1656 or 5137 S. Anthony Blvd.

TWO ROOM SEMI-MODERN HOUSE—And lot, $2,100 cash. H-26102.

AFRICAN VIOLETS — Purple, single and double flowers, 35 cents to 75 cents. A-50171.

FULL SIZE INNERSPRING MATTRESS—Good condition, H-24643 after 6 p.m.

MARSHALL BLOWER—2000 cu. ft., with quarter hp motor for hot air furnace. A-68274.

THREE PIECE YELLOW KENWOOD COAT AND LEGGING SET—In excellent condition, size 3. $10. H-70083.

STORKLINE BABY BED—Mattress and high chair, blonde maple, like new, $20. A-97605 or 6715 Bradbury Ave., Waynedale.

ELECTRIC TRAINS—Accessories; linen table cloth and napkins; also trains repaired. E-5204 or 1132 Wabash.

THREE-QUARTER SIZE MATTRESS—Used two weeks, $15. H-60332.

FOUR IN. DRAIN TILE—Approximately 40 ft. cheap, A-75442.

GIRLS' WHITE SHOE ROLLER SKATES—Size 6½-7½. Joann Spring, R.R. 1, Ossian, Ind., or Bldg. 18-3.

TEN ACRES—4½ mi. from Columbia City, 6-room house, modern except furnace, venetian blinds, all buildings white. Excellent producing land. Churubusco 4157.

FOR RENT

FOUR ROOM COTTAGE—At Tri-Lakes, year round. H-26143.

SLEEPING ROOM—Nicely furnished, on Broadway near G-E, privileges, gentleman preferred. H-48212.

GARAGE—608 Lavina after 4 p.m.

WANTED

GIRL'S BICYCLE—20 in. H-28755.

TO BUY OR RENT, TENOR SAXOPHONE—Any condition, urgently needed for G-E Squares dance band. D. P. Motter, Extension 591.

REFRIGERATOR—In good condition and reasonable. A-60873.

WILL TRADE FULL SIZE ELECTRIC STOVE FOR—Apartment size electric stove, or will buy outright. A-97605.

NAVAL OFFICER'S UNIFORM — Size 40, long. H-81555.

MISCELLANEOUS

HAULING OF ALL KINDS—Flagstone, dirt, cinders. H-66685 mornings.

TRANSPORTATION

WANTS RIDE—Golda Rodieb, from Markle. Works for C. Steinberg, Bldg. 17-1, from 7-3:30.

"FLY POWER" — The girls in the Central File room are going to watch where they put their little personal "this or that" from now on, since they discovered they have a Human Fly in their midst. One morning last week the girls were soooo anxious to get to work and found the doors locked. Bob Starkel, coming to the rescue, took one leap and was over the wall. He then unlocked the doors. Mr. Whonsetler, taking Mr. Coopers' place during his absence, and who is always on hand to unlock the doors says his "bus" broke down. It makes a good story. We wonder if he was just too excited over his daughter, Harriet's debut with the Philharmonic and forgot to get up. . . . REWARD—Don Reek, AC Section, will pay a large sum for correct advice on "How to Play Winning Poker." This should add to Charlie Koomjohn's income. . . . SUCCESS—Joe Donahue, who was just made captain of his bowling team, celebrated by a 185 score against his usual score of 140. Nice going, Joe. . . . RABBITS—Someone should advise Mildred Heinkel of the AC Section on how to increase her rabbit family. It can't be done with two males, Mildred. . . . DRIVING ABILITY—In the good old days Henry (Ham) Marahens put his car up on blocks in the winter time. Bob (Bumper Jack) Loveland is going "Ham" one better. The other day he put his Chevy up on a block (cement) in the G-E parking lot. What made you think of using a bumper jack to get off, Bob? . . . SCATTER PIN OR FLYING PIN—Lydia Wilkinson had a beautiful scatter pin for Virginia Mariotte the other noon, but Virginia didn't get to see it. As soon as Lydia came in the file room it flew off her sweater. If anyone sees a scatter pin flying around please give it to Virginia. . . . VERY SAD NEWS—We in Bldg. 4-6 are very sorry to hear that we are losing Doris Downs of the Engineering File Room. We all will miss your happy smiling face, Doris. Loads and loads of luck. . . . SLEEPY?—One day last week, Nina Andress of the Engineering File Room came to work with a dry cleaning ticket fastened to her dress without knowing it. When discovered, it took Mr. Cooper's wire cutter to take it off. Are you asleep when you come in from the lake, Nina? . . . TRAINING—Mary Olson spent last Friday at Great Lakes Training Center. She is an active reserve in the WAVES. . . . MISTAKE OR EYE TROUBLE?—Some one ask Irene Whelan about the "baby duck" she could see, breathing on a roof. It proved to be only a man's handkerchief. . . . SYMPATHY—We would like to express our deepest sorrow to Abbie Hartman, who lost a very good friend in the disastrous fire on the "Noronic" at Toronto, Canada. . . . CONGRATS—Happy Birthday to Bob Loveland, Wade Tyler, Herb Reitz, Jack Jennings and I. E. Ross, of the DC Division. Also to Leonard Krumbigil of Tabulating. . . . ADMIRATION—Everyone is admiring E. "Burbank" Letsinger's horticulture displays on his desk, these days. At present it is a branch loaded with delicious apples. . . . HURRY BACK—Ruth Furris has been ill for a few days. We hope she recovers soon and gets back to work. Mr. Bradley can't manage all those telephones on that side of the AC Section. . . . ZOOM—Bob "Flash" Starkel, who reaches his station before the fire alarm stops blowing could easily improve his time if he used a parachute. . . . HELP—Hugh Folsom wants a good bowling instructor for pointers towards a 200 game. . . . SURPRISE—Frank Ross was greatly surprised by a birthday party given in his honor Sept. 20. One of his greatest surprises was a paddling he received. There was a period of about an hour in which Frank did no sitting. This is not exaggerated in the least bit. . . . NICE GOING—Production Division has a country gentleman in their midst. This past week, with inventory at hand, Ralph Hageman had to move to the country. His retreat is near Wallen. . . . COMING AND GOING—Sorry to hear that George Pearce, DC Section, is leaving, but we are glad to hear that he is being replaced by Morris Brogden, another capable man. . . . ABSENT-MINDEDNESS—E. M. Stanbery was a little absent-minded the other day and forgot where he put his raincoat which contained his car keys. He finally found it, but he and his riders were a little late getting home. . . . RAILROAD FAIR—Last week-end Georgie Garrett was at the Railroad Fair at Chicago. Donna Bauermeister, Irene Wehlan, and Rebe Cappock spent Saturday there with the Elex Club. . . . CONVERSATION HEARD ON ELEVATOR—PHIL HINE (To JEAN PAPPERT) I owe you four cents. JEAN (To PHIL) I know it, but don't give me any pennies. Problem: How can it be done?

4-1 Floorage

By Marie Lantz

The story has come to us belatedly that Arnold Hendel is a "live-box fisherman." One day while Howard Hoffman was fishing in Sylvan Lake, Hendel moved in so close that Hoffman offered to open his live box lid—so that Hendel could fish in it and not go home "skunked." . . . Fred Pyle claims that a good way to stop chewing tobacco is to bum two chews of Horseshoe Plug. "That's enuf to make anybody quit chewing," he says. . . . The meanest man in the world is the barber who puts hair-restorer in his shaving lather. Next to him is Sam Sroufe who brags about his domestic accomplishments. . . . We hear that Rudy Becker will retire Oct. 1. Rudy, now in Bldg. 4-5 in the Small Lot Section, worked in Bldg. 4-1 in group 15x17 during the war and made many friends. We wish him all of the best in his retirement years. . . . A good way to warm up on these cool mornings is to smoke near oleum dip tanks. If you don't believe us, contact your Safety Committeeman. . . . We'd like to give George Hahn a horseshoe plug, but not one of the chewing variety. George is manager of the Fort Wayne Horseshoe Team which successfully won 29 games while dropping only six. Sept. 18, Sunday, they used a six-man team to defeat the Fairmount pitchers by a team total of 1,716,789 points. . . . The average mathematician would say that 1 plus 1 equals 2; but Fred Higgen's figuring adds up to 1. In other words, Fred purchased a two-room house which is to be moved and added to his present habitat this week sometime. Combined thus, Fred will not have two small homes—but one larger one. . . . And now, something new has been added. Dale Brown comes to us from Winter Street. He's just another one of those guys who is always looking for trouble that's right; he's an inspector. May Sept. 19 be the beginning of a happy part of your life, Dale.

Apprentice BROADCAST

by MILDRED ELLIS

We are happy to report that Obringer is recuperating in grand style. He wants to thank the fellows for the flowers. . . . Don't be just half safe—wear safety shoes and safety glasses. . . . "Boat Builder" Kirlin did it again. He made something, but we haven't been able to figure out what. It's standing in his back yard. His wife says, "Jack, that thing can be seen from here to New Haven." Jack could put a few more boards on it and make it into a garage or tool shed. The inside story is that Kirlin, being the kind father he is, decided to build a sand box for the kids and really let himself go. . . . "Fatty" Leffers has been seen trying on G-E sweaters. He must be counting on the team coming through with the softball title. So far, John hasn't found a sweater big enough that he can get it buttoned down the front. . . . Milt Goeglein has been quietly going ahead with the plans on his new house, which will he four miles out East State St. It sounds like it will be a complete house, but Milt says he will use it as a garage some day and build a larger home in the front. . . . Lew Davis didn't have to leave Fort Wayne—he left with a clean sheet: all his bills paid, his boat and lot sold, and the Brookwood Golf Course even owes him a dollar for his share of the prizes in last week's Blind Bogey Tournament. The fellows are hoping Lew can be persuaded to return in the spring to buy a couple of golf balls with his prize money. . . . Modern parents divide their time between worrying how their children will turn out and when they will turn in. . . . "Grable" Nix looks "out-of-this-world" in his new pedal pushers. . . . We know that certain criminals are given the "hot seat" for their deeds. We wonder what Barnes did to deserve that "not-so-hot" seat that he received. . . . Konow mentioned he was going to Chicago this week-end—probably to Maxwell St. He was taking orders for green suits. But how will they look under a blue light, Don? . . . Bill "Hot Rod" Owen just can't get along with or without a car. Now he has a '36 Plymouth, but he isn't sure he can get the title. . . . Dick "The Professor" Clendenen is going to hold midnight oil sessions at his house for the benefit of the "less fortunates" of his class. . . . Gebert needed a little spending money for a week-end cruise with the Navy, so he sold all "his" tools to the apprentices realizing a neat profit. . . . The first person out of class every Tuesday and Thursday evening is Paul Mishco. He makes a mad dash for the parking lot, where his queen is waiting patiently for him. The love bug has really got him. . . . The Apprentice Softball team scored three runs in the seventh to edge Works Lab, 5-4, in the first game of a best of three final playoff series. Milt Goeglein scored Zurbuch with the tying run. When Milt's double went through the outfielder's legs, Milt raced home with the winning run. Fine fielding plays were turned in by Butcher and Berkheiser. The team members voted Kenny Zurbuch the team's most valuable player. Skeets Lahrman and Art Rasor tied for second.

Mrs. Coolman Dies

Mrs. Flossie B. Coolman, 56, died Monday morning at her home in Wayne Township.

Mrs. Coolman worked at the Taylor St. plant from 1943 until she left the Company in 1945.

Inquiring Reporter:

WHAT DO YOU THINK OF THE RECENT PROPOSAL TO HOLD THE NATIONAL AIR RACES IN FORT WAYNE?

WILLIAM A. BROWN

Taylor St.

"It sounds like a swell idea and many would enjoy seeing it. This area is not too densely populated, in regards to the safety factor. It would bring a lot of business to the many cities and towns around here, and would also be good advertisement for Fort Wayne."

DOROTHY LEBRECHT

Bldg. 12-3

"The races would help to make our city better known and also let the people know that we now have as good an airport as even larger cities. I would like to see them held here, but hope that they will not endanger the lives of our happy community."

OTTO MILLER

Bldg. 4-2

"I think by all means every effort should be made to bring the air races to Fort Wayne. It would be an outstanding event for a city this size."

LOUIS MEYER

Bldg. 22

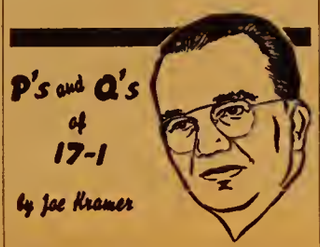
"Fort Wayne has one of the largest airfields in the country. I think it would be all right to hold the races here, as it would be educational and help business."

ANNA ALLMAN

Bldg. 26-3

"In my opinion there is no more danger in air racing and air shows as there would be in any kind of racing. If Fort Wayne is equipped to handle the planes, cars, and people this event would bring, in such a way to avoid a similar Cleveland tragedy, then I think it would be good for the city."

Have you one of the new "Hocus Pocus" pens? You know, hocus pocus and it writes red—hocus pocus again and it writes green. Your contact girl can get one for you. . . . Juanita Likens has to hurry home every night. She just has to know what Li'l Abner is doing. . . . Harold Kiel was caught without any stators in his hands and was his face red! . . . Esther Reiter was having sandwich trouble. It seems as though she had more of the ham salad on her blouse than between the slices of bread. . . . Glad to see Jerry Snyder back after a siege of the flu. . . . Hershel Case was seen uptown all dressed up. Didn't even know him. Whistle next time, Hershel. . . . Gertie Wheat was a little off schedule on her 10 o'clock snack. Finally she saw the stray banana slowly coming down the conveyor. . . . Therlene Frieburger was among those who attended the Notre Dame-Indiana game last Saturday. . . . Floetta Zartman visited in Michigan a week ago Saturday. . . . Helen Biddle has joined the "I gotta new car" club. It's a Dodge. . . . More people seem to be losing things off their cars. Mel Kiessling lost the tail pipe off his car. (Don't know why he should be so angry over that.) Marcille Thomas lost the fender skirt off her car. Violet Adams is different. Guess she will have to have new brakes put on the "Rocket." She was picked up for speeding in Bluffton. . . . Iley Souders had a bad ending for her third week of vacation. She took the cellar steps all in one hop. . . . We hear that Verna Bullerman has a way all her own for not getting a parking ticket. . . . What's this all about Joe Motter needing a body guard? . . . Edith Beaty must have set her clock back a couple of days ahead of time. Anyway last Thursday she was just one hour late. . . . Bob Rehrer doesn't take time to look at the clock. He just asks someone what is the time. He must have been busy. . . . Some of the others who enjoyed the trip to Chicago were Jenny Zimmerman, Floetta Zartman, Doris Ryan, Katy Salmon, Lorena Buuck, Phyllis Lupton and Helen Bradley. . . . Sorry to hear Dorothy Lee has taken a leave of absence. . . . It's a happy birthday to Mary Shumm, Violet Adams, Virgie Mayer, Edith Bohde, Marge Ponsot, Bob Rehrer and Ann Robinson. . . . Ann Robinson also celebrated her wedding anniversary this week. . . . Some of the girls had a potluck for Virgie Mayer. Fay Kitteridge baked the cake. They say the way to a man's heart is through the stomach. Watch those fancy cakes—they are really good. . . . Butch Vegalues might try to make us believe that he isn't so young. But he and his Packard with the new paint job of green showed up at the square dance last Saturday night.



To Hold Practice Session Industrial Basketball Team

The Industrial Basketball team will have practice sessions at the G-E Club gym from 8 to 10 p.m. Monday, Oct. 3, and Wednesday, Oct. 5.

Serves Company 30 Years

Glen Carney, Bldg. 4-3, recently rounded out 30 years with General Electric. On his anniversary a number of his co-workers met to congratulate him. Left to right in the picture are: Florian Korte, Rudy Zelt, William Wickliffe, Mr. Carney, Edward Glenwith, and Carl Hitzman.

With approaching cold weather, Ray Epperson has dug out his old high school sweater and has been wearing it to work. We can't figure out whether he got the sweater for playing basketball or football. Ray is noncommittal. . . . Herb Kallemeier, having trouble keeping track of his new car, has ordered some new seat covers. They are going to be scotch plaid covers with his initials embroidered in green thread. . . . Anyone having pictures of a late date, please contact Clarence Doctor as he is now gathering pictures of his friends to put in his scrap book. . . . Ted Brockmeyer has discontinued his sale of popcorn because he does not wish to be identified with a party of donkeys. . . . Paul Geiger is now planning next year's vacation. Paul was overheard telling one of the fellows in 19x72 group that he was having a motor transplanted in his car. . . . Henry Wichern is still doing business in the old stand—tobacco business that is. . . . Clyde Crabill is not going to believe anyone about squirrel hunting anymore. Clyde was confidentially told about a woods that was loaded with squirrel. The only catch was the woods was 40 miles from home. Clyde left at 3:30 and didn't return home until 12 o'clock. His full report was, "sighted one, missed same." . . . The line forms on the right, that is if you want to get your name down on the growing list of people to take a ride in Andy Degler's new Nash. Andy doesn't have his new car as yet, but he has placed the order for it. . . . Weldon Stucky is going to join the farmer's cooperative group in the south end of Bldg. 17-1. Weldon is going into the chicken raising business as soon as he can locate a suitable brooder house. We might turn him over to Frank Martin as Frank has had considerable experience raising chickens. . . . What is the secret way Ray Epperson has of knowing when John Quinn has been at his desk? He must be clairvoyant. . . . Ed Brosche lost some time last week in one of his return trips from Florida. He had taken Cliff Coombes with him on this trip and coming back through the Smokey Mountains, Cliff had to get out of the car and try his luck at fishing. The only thing that peeved Ed was that he hadn't though of fishing in the streams of the Smokey Mountains before. You can be sure that on all future trips to Florida, Ed will include a short period of fishing.

Partizan Chapter Holds Election

Margaret Tomson was elected president of the Partizan Chapter of Elex Club, at a meeting last week. Other new officers elected were: Selma Rodemeyer, vice president; Myrtle Bennett, secretary, and Helen Thiele, treasurer.

Roesener Dies

John C. Roesener, 62, died at the Lutheran Hospital Monday night at 10:40 p.m. shortly after a heart attack at his home, 1111 Stophlet St.

BOWLING ALLEYS
Are
OPEN
FRIDAY NIGHTS
At 8:30 p.m.
Until Further Notice

By Marie LaMons

You have often heard of people making mountains out of mole hills, but have you ever heard of people making an ash door look the size of a coal bin door? It seems the latter happened by Bob Van Horn at the tool grinder's party held recently at the home of Karl Soest. Wonder what kind of soft drinks Karl was serving. . . . After Ruth Schroeder's recent jaunt to the big dark woods of Wisconsin, don't you suppose she can enlighten all of us on the finer points of lumbering? . . . The "Eight-Ball" Clean-Up Campaign got off to a good start last week in the Receiving, Shipping and General Stores Division with the "Eight Ball" going to Ed O'Neill because of the condition of the Oil House. The rest of you better start cleaning house or you will be next in line for the "Eight-Ball." . . . Chris Reiz, that gay Lothario, is now receiving perfumed letters from a gal in Cincinnati. She must be blond, as blonds usually prefer blue. Shame on you, Chris, and at your age, too. . . . From all reports 1949 has been "Our Safest Year." With our record for the first nine months of this year as an inspiration, we should be able to coast through October, November and December and make the "Home Stretch" with no accidents. . . . We are glad to see Lloyd Platt back at work after having spent his third week's vacation in Baltimore, Maryland. . . . Most of you remember Betty Wilson, a former employee of Bldg. 6-1. Several years ago she married Sam Flannery, a former Bldg. 4-6 employee, and they are now making their home in Cincinnati, Ohio. Recently Sam won a $1,000 prize in The Post's Coney Island photo contest by submitting a picture of their three year old son, Jeff, eating a hot dog. Congratulations to both Betty and Sam.

All of you have heard of the story "The Lost Week-End," well Popeye Patterson can go one better. He loses a whole week. The other day he informed one of the girls that she had better dust off her hands and get ready to attend the safety meeting. She told him there was no meeting as the date was the 20th and the meeting was held on the 13th. Popeye looked bewildered and then took a good look at the calendar. . . . As all of you know Harold Hart is driving a brand new car. While downtown one day, one of his friends seeing the car asked him if he might by any chance be celebrating his tin wedding anniversary. Harold's wife, not being sold on the idea of a new car, was just a little owly about the whole thing, so to insure domestic tranquility he had to purchase her a new clothes dryer. . . . Ray "Cowpuncher" O'Neill has a brand new saddle horse which he will use to ride the range. It is one of those high powered Packards. The other evening the car was setting in front of his residence in readiness to take mama out for a spin. Ray came out of the house, walked real important like to the car, seated himself on board, and stepped on the starter. It failed to function, making it necessary to enlist the services of a mechanic. . . . Ralph Humbert has an unique method of solving the breakfast problem. It seems that time is short for him in the morning, making it necessary for him to forego breakfast at home. He brings a sack of corn flakes and a spoon. Then he purchased a container of milk from the candy wagon, dumped in the flakes, then proceeded to enjoy his morning repast.

What excitement! Last Friday we said farewell to our little bride-to-be Shirley Hughes who is tying the knot this week-end and Sarah Harris celebrated her birthday, with the most beautiful cake. Happy birthday, Sarah, and our very best wishes to Shirley and her brand new hubby. . . . This coming Monday marks the birthday of Katie Minehart. Here's wishing Katie a happy birthday just a wee bit ahead of schedule. . . . We had a very pleasant surprise visit from Harriet Weber last week. Harriet has been residing in California for the past two years, and dropped in to see everyone while she was home for a vacation. . . . The Railroad Fair in Chicago attracted three of our members to its gates last Saturday. The three Fort Wayners were Betty Millhouse, Lenore Hanely and Xersia Zinish (and her husband). . . . The beautiful domestic picture which was presented to Shirley Hughes, was created and drawn by none other than our talented little artist Beverly Springer. Gee, an artist in our midst, and a very good one too, may I say.

Don't Miss The G-E Club Square Dance Friday, Oct. 7

There is an old saying it's no use crying over spilt milk. According to a report, Paula Thieme had the sad misfortune of spilling two buckets of the nourishing vitamins. . . . Hez Cochran is vacationing this third week. See, Hez, you can't say nobody misses you when you're gone. . . . We extend our deepest sympathy to Carl Fisher and children upon the death of his wife. . . . John Meyers is the proud father of twins, a boy and a girl. He came to work the day they were born with no buttons on his shirt as a preventative in popping them off. . . . Woody Ogg, John and Ada Owens are proud gradparents of a daughter born this week to Mr. and Mrs. Max Ogg. Congratulations, folks! . . . Our gauge man Ralph Stanley had a birthday the 23rd. Anna Ivetich had hers on the 28th. Happy birthday, folks. . . . On the winding line Helen Byers celebrated her third wedding anniversary. Seeing unusual things for the week, Ina's tops the list. When you drive on the highway and see a nice spotted calf jump out of a car trunk on the center of the road you've seen everything. Everything worked out all right though as traffic missed the calf and it was again put in the trunk to continue the trip. . . . We wish a speedy recovery for Virginia Drake, of the second trick, who has been ill for several weeks. . . . Alton Andrews was on the sick list Friday of last week. . . . Emma Butler is back with us after her third week vacation. She reports a nice time. . . . Margaret Waltke and Evelyn Plasterer both celebrated their wedding anniversaries; Margaret Waltke, Tuesday and Evelyn Plasterer, Saturday, congratulations. . . . Daily greetings to Irene Frauhiger, Violet Steffen, Lucile Braun, Pauline Dixon, and Alice Merrit. . . . Ruth Eckrote was home ill for a week. . . . Olive Journey is the pretty girl you see behind those dark glasses in 7-51. . . . Jason Moser has extended a welcome to warm your shins over his new furnace. . . . May we take this opportunity to say hello to John Knott a former employee and foreman of Plant No. 1. John is up and around now and would enjoy a visit with you. . . . Betty Moran sure has her difficulties in getting home from bowling. After running out of gas about 11 p.m. she decided to hoof it to a farm house for help, but the farmer's dogs barked and scared Betty. So she went on her way and after a couple attempts they finally got gas to get home. . . . GeCode Club is sponsoring "Noodle Day." All those delicious noodles—what fun making them. Have you seen or bought one of the pretty pencils GeCode is selling? It writes red-green-and blue. Why not buy one? Just ask any GeCode Club girl to sell one to you. Also watch for our future Jello Sales. . . . Have you noticed Sobbie Lord hunting his way in daylight with a lantern? . . . What happened to the cricket that was in Ray Leitz and Paul Hancher's office? We haven't heard him lately. . . . In case you were wondering who the person was that was holding up traffic on highway 27 one Sunday afternoon it was none other than Russ Owens. . . . GeCode Club is selling Christmas cards and wrapping again this year. . . . We extend our sympathy to Ray Leitz on the death of his mother-in-law. Kindness was the theme at the GeCode Club Conference held Sept. 17 and 18 at Oliver Lake. "Kindness is to do and say the kindest things in the kindest way." If we all try and keep that theme in mind in all we say and do in the coming year the Club will have a very successful year. . . . The new face you see in Planning is Clark Macklin. Welcome to Decatur, Mac! Hope you like it and stay with us.

Decatur Bowling

G-E Fraternal: 200 scores—Macklin 248, Zelt 200, Laurent 202, Bultemeier 205. Monday Night League: 200 scores—Koos 213, Krueckeberg 216. G-E Women's Bowling League: High game Schafer 182, R. Fennig 166, E. Plasterer 173. High Series, Schafer 489. Team No. 2 High Series, 1908.

Ye Old Meter Girls Plan Next Meeting

The Ye Old Meter Girls will hold a meeting Wednesday, Oct. 19, at the Dehler-Hughes hall at 7:30 p.m. Tickets for the affair are 50 cents each. Attendance prizes will also be awarded.

Bertha Mattes, H-20342, is chairman of the evening. Assisting her are Bernadine Gocke, A-97645, and Chole Lee, A-70262. Reservations can be made by calling members of the committee.

Last week I said Louie Watt didn't catch any fish, but I made an error. Mrs. Watt informs me that he caught ONE fish, so for one fish I wish to print a retraction. . . . Next week is campaign week for the Community Chest, I hope you will all give Jerry Knight your cooperation in helping make it a success. . . . The story of the week is about Frank Phillips. Frank, being just a little large around the waist, became wedged between a couple of punch presses and with no little difficulty finally extracted himself and vowed he would go on a diet. It he could get Mable Miller to drive the car in the mornings he would trot along side for his morning roadwork—anything to keep out of those tight squeezes. . . . Dewey Erne evidently thought it was a short week. He dropped his clock card in the card box Tuesday. We don't understand you doing anything like that, Dewey. . . . Gurney Lindley was off Tuesday attending a funeral. . . . Alvin McCullough has been giving the boys a lift with the carboloy grinding in the crib. . . . Louie Watt said if I printed a retraction on the fish story, he would give me a good story, "Why he was off work Thursday morning."

It's common gossip around Standardizing that Harold Fanning isn't bowling just for the sport. It seems that some people think he's doing it just for those pretty shirts with the advertising on them. Is this true, Harold, or is it just professional jealousy? . . . We'll bet anyone that Forest Carr has the biggest and best 27x34 walk-in refrigerator in town. . . . Paul Dull and Bill Wetzel have been making fun of people buying used cars at a car auction sale on Calhoun St. Why make fun of them, boys, get in there and bid? . . . It seems that a couple of times lately Erv Huth has dashed out to the parking lot, not to find his trusty Kaiser waiting for him. After carefully mulling over the situation, he remembered that his wife had brought him to work and had taken the car herself. In the future, Erv, why don't you tie a string around your finger to remind you? . . . Here is something I've been meaning to mention for some time. I didn't think it had gotten to the point where I really had to until now. It's about cooperation. If I had time to go to each and every individual in our division, I'm sure I could find news. But naturally, I couldn't possibly devote that much time to it. I don't know, maybe no one even reads "Shorts and Snorts," but I sincerely hope they do. I would like to write a column that would be interesting to everyone, but without your help, that is impossible. So come on, fellow workers! How about some NEWS! And I'm sure some of you have ideas about what you like to read in a column. If you do, why not jot them down and send them to me in Bldg. 20-2? I'll appreciate any help I get. I guess you all know, I'm new at this game and those ideas will sure help.

Motor & Generator Static

No news but the old news—it rained out the M-G Engineering picnic at Dewart Lake. Everyone but Bonnie Geiger was notified by phone that the picnic was cancelled. Bonnie complained that she wasn't called and found out she gave the wrong phone numher. . . . Warren Brighty was dismayed and wanted to know who was going to help him eat the gallon of fruit jello. His wife got generous and made two batches of jello. . . . The Emlings and Browns were smart. They swapped beans for potato salad. . . . Ed Cwiklo and Nyra Ruckman will probably get sick of eating marshmallows. . . . Ruth Maher and Thelma Williams shared their cakes with neighbors and friends. . . . The Purmans, Bryans, and Leflers ate baked beans all week. . . . Ray Hamilton will save the olives for another picnic and Bob Gillum still has the dill pickles. . . . For all who still want to go on a picnic, Mac has consented to give the weatherman another chance next month. . . . Eileen Gebhard has left the drafting section. Eileen left the city a week ago Sunday and is on her way to California. She is now a traveling saleslady. So long, Eileen, good luck—why she barely gave us time to say goodby. . . . Ralph Obringer has been missing from the drafting room because of an appendix operation. . . . Robert Finton has completed his apprentice course and is now a full pledged member of our M-G drafting section.

Saturday the two great hunters, Hugh Neely and Charlie Gable, set out on a big squirrel expedition. It seems as though Mrs. Neely had made big plans for a squirrel dinner Sunday; and when Hughie ended up the day's hunt with only one scrawny red squirrel he knew he didn't dare go home or he would really be in the dog house. He tried buying a squirrel in a butcher shop in Marion but as the man had none to sell, Hugh ended up buying a four-pound beef roast. When he got home he had a hard time explaining how he could have been hunting from 4:30 a.m. to 8:30 p.m. and end up with only a beef roast. I guess beef is better than nothing. (P.S. Charlie said he was the only good hunter in the crowd, at least the ONE squirrel he got was full grown). . . . Poor Mr. Dennison was really a sick man the other day when someone in the parking lot side-swiped his new Packard and really messed it up. The thing he hated the most was that he could not show it off for two days. . . . We would like to say to Mrs. Gordon Smith (we understand she is a regular reader of the column) that we are sorry she had such a bad vacation, but we told Gordon it served him right when the rest of us had to stay here and work. . . . Alma (Butch) Witte made a trip to Chicago and she found it with no trouble. We thought sure she would end up in Gary, because when she tried to go to Gary, she ended up in Chicago. . . . By the way, have you turned in a suggestion lately, remember there are some additional awards being made from September to November so it will really be worth your while. . . . Congratulations, Perry O'Neill, on your $1,000 suggestion award.

Football Managers To Meet Monday

There will be a meeting of the Touch Football league's team managers Monday at 5:30 p.m. in the G-E Club. Team representatives from the Transformer, Test Engineers, Firemen, Tool Division, Messengers, Apprentice School, Works Lab, and Winter St., as well as anyone interested in entering a team in the league, should attend.

MAJOR'S OUTFIELD STRENGTH

Boh Baals

"Chick" Morkoetter

The G-E Club's Major softball team has completed a successful season with the help of Boh Baals, centerfield, and "Chick" Morkoetter, leftfield, who were two of the team's leading hitters.

Bowling Alleys Are Available Saturdays

Anyone interested in howling at 1 p.m. Saturday afternoons at the G-E Club alleys are requested to fill out the blank below, and send it to Charlie Wilt, G-E Club.

TRUSTY BATTERY FOR MAJORS

Bud Feldhiser

Harold Somers

Pitcher Bud Feldhiser, with a 10-won and 3-lost record, coupled with Catcher Harold Somers gave the G-E Club's Major softhall team a dependable hattery last season.

New Meeting Arranged

Our last meeting with UE negotiators was on July 13.

They left saying they would report back to the membership and then get in touch with us.

We had heard nothing from them until last Friday, September 23. A representative then phoned to ask for a meeting on October 4. We immediately wired back:

"Replying to your phoned request from Cleveland about a possible meeting on October 4, we continue our readiness to meet with you on a mutually acceptable date. Important part of company group so committed elsewhere as to be unavailable prior to return on Wednesday, October 12. As in the case last Spring, we will be glad to leave the final choice between the two dates to you. As we could assemble only a partial company representation for October 4, we hope that October 12 will prove mutually acceptable."

On Monday, September 26, the UE conference boards met in New York to consider a strike vote at Westinghouse and General Electric plants.

That afternoon a statement was issued by UE saying that the negotiating committees would meet with Westinghouse on October 4 and with General Electric not later than October 12.

The Union's statement emphasized that the negotiating committees had been urged "to make every effort" to bring negotiations to a "speedy, peaceful, and successful conclusion."

Any strike vote was to be put off until it was determined if the resumed negotiations with the two companies were proceeding satisfactorily.

So far as we are concerned, we will, at this next meeting — as at any other time — be bargaining in good faith toward what is best for all concerned.

We would be doing so regardless of whether or not any strike threat was being held over us.

For we believe in collective bargaining.

We believe in it as a two-way process.

We especially believe in it as a meeting ground where both parties can examine and consider in good faith what each is proposing for the attainment of the desired common good.

Community Chest Drive Nears Goal

The Community Chest drive at the Broadway, Taylor St. and Winter St. plants reached a total of over $39,000 yesterday, according to K. W. Michael, general chairman of the campaign. A goal of $45,000 has been set to be raised exclusive of the Company's contribution.

Nearly 400 solicitors have canvassed the local plants for the drive, which ends today. The Decatur plant will conduct its campaign later in the month.

The solicitation totaled $7,513.10 on the first day of the drive, then Tuesday's total was $17,770.18.

The report by divisions of Wednesday's accumulated totals was as follows:

FHP Motor Divisions	$10,840
Works Service, Coatrib. Div.	$5,316
Spec. Trans., Ballast Div.	$5,000
Motor, Generator Divisions	$2,488
Winter St.	$2,117

The executive board of Local 901 UE-CIO and officers of Friendship Lodge No. 70 unanimously endorsed the fund-raising campaign and urged all members to contribute.

COMPANY TO PRESENT NINE FAMILY NIGHT SHOWS IN G-E CLUB AUDITORIUM NEXT WEEK

Nine G-E Family Night programs will be presented here next week for all employees, their families and friends. The series will be held Wednesday through Saturday, Oct. 12-15, in the G-E Club auditorium.

The program will include a sound slide film titled "Our Family Album," which will tell the story of the growth of the Fort Wayne Works. This will be followed by a one-act play titled "Tremblin' in the Kremlin," a one-act comedy featuring a Broadway cast. The program will be concluded by a showing of the most recent G-E film, "By Their Works," which contains scenes taken at Fort

(Continued on Page 3)

Russian Commissar of Visual Propaganda (right), as portrayed by Joyce Randolph in "Tremblin' in the Kremlin," and Martin Noble as Stalin listen to a descriptive r port of life in America by Boris Pavloff, a Rassian spy portrayed by Alexis Rostov. The comedy, which points up the American way of life in contrast to Russia and the importance of electricity and of General Electric in America, will be given as a part of the G-E Family Night programs.

SUPERVISORS TO ATTEND CIVIC THEATER COMEDY

Wednesday night, Oct. 12, will be Ladies' Night for the Supervisors' Club. The members and their guests will see the Civic Theater production of "The Philadelphia Story," a comedy.

Jean Altevogt, a former G-E employee, will portray the stellar role of Tracy Lord. W. K. Boltz, Bldg. 4-6, is a member of the supporting cast.

Hubert Myers and M. N. Brayer, co-chairmen, are handling the arrangements for the supervisors' party.

Curtain time is 8:30 p.m. Tickets are being distributed by contact men.

MBA Group Considers Proposals To Increase Maximum Benefits

The General Committee of the MBA will meet Wednesday morning, Oct. 19, in Bldg. 8-2, to vote on proposed amendments that would greatly increase the maximum benefits it is possible to receive from the Mutual Benefit Association.

The proposed amendments are designed to provide members with the maximum benefits possible, consistent with sound financial operation.

In some cases, the proposed changes would more than double some of the benefits now offered. The raising of dues five cents a week would be required by the proposals to allow for a portion of the large increase in benefits.

The amendments were rewritten following a canvass vote by Fort Wayne MBA section chairmen and have received approval by the Corporate Affairs Department and the Law Department.

A copy of the proposals has been posted on all bulletin boards.

The question of reducing the dues for those off for lack of work will be considered at a later date as a separate amendment.

ELEX CLUB TO INSTALL NEW OFFICERS MONDAY

The new officers of Elex Club will be installed at the season's first meeting Monday, Oct. 10. Prior to the formal installation, dinner will be served from 4:45 to 6 p.m.

Steel Strike May Cripple Manufacturing Operations

The current steel strike is causing considerable concern in all areas of our local manufacturing operations.

According to H. L. Erlicher, G-E Vice President in Charge of Purchasing and Traffic, "A prolonged steel strike would cripple the Company's operations within a month and might stop manufacturing of some appliances sooner." According to the managers of the various manufacturing activities at Fort Wayne, Mr. Erlicher's statement applies to the local situation.

Not only may production be affected directly within the next several weeks by shortages in our own steel supplies, but also curtailment in the shipment of contributing parts received from other firms may very easily affect our operations at an earlier date in certain divisions.

Flow Of Suggestions Here Reaches Highest Peak In Fort Wayne History

Employee participation in the suggestion system is at its highest in the history of the Fort Wayne Works, it was announced today by A. C. Hartman, chairman of the Suggestion Committee.

The average number of suggestions per 1,000 employees during 1948 was 489, while during the first six months of this year the number jumped to an average on an annual rate of 504 per 1,000 employees.

With the "Suggest A Better Way" contest now in full swing, the average number of suggestions for the month of September has soared from about 100 to 155 per week since the contest started Sept. 1.

Despite this great influx of suggestions, the speed in handling

(Continued on Page 4)

A. C. Hartman, chairman, and Laareen Procise are shown, above, processing a stack of suggestions which have just been delivered to the suggestion office in Bldg. 8-2. Here suggestions are dated, typed, and sent to the proper divisions for study and investigation.

Matson Addresses Meeting Of Works Safety Committee

C. H. Matson, Works Manager, was the main speaker at a meeting of the General Works Safety Committee Wednesday morning in Bldg. 8-2.

Monday Is Deadline For Reservations To Elex Conference

The deadline for reservations for the Elex Fall Conference is Monday, Oct. 10. A down-payment must be paid at that time, with the balance due on or before Friday.

The conference will be held Saturday and Sunday, Oct. 14-15, at the Palmer House in Chicago.

Keep Those Ideas Flowing Into Your Suggestion Committee

Participate in the SUGGEST A BETTER WAY contest by sending in your suggestion today. The contest closes Nov. 15, 1949.

If you can think of an improved method of doing things, you may equal the $1,000 award won last week by Perry J. O'Neill at the Taylor St. plant for his idea to use steel retaining pins in unit bearing motors instead of wooden pins. Although this idea was submitted too early to qualify for the suggestion contest now in progress, it does offer an example of how strongly your Company wants you to think about your job, your surroundings on the job, the activity of the Company, and suggest whatever you are convinced or may have proven is a better way.

An adopted suggestion always means money for you. The Company's Suggestion System began in 1922 and since that time more than $2,500,000 has been awarded to employees for adopted ideas.

You are in the most favorable position of anyone to see how something relating to your job can be done even better. If you have an idea, don't be bashful about it. If you don't quite know how to word it, ask your supervisor. He will be only too glad to assist you in any way possible.

Once you have your idea down on paper, drop it in the nearest suggestion box or mail it to the Suggestion Office, Bldg. 8-2. Then this is how your suggestion is handled: The Suggestion Committee mails you an acknowledgment, and then sends your suggestion to those best qualified to judge its value. It is carefully studied to determine how the idea can be put into effect. A report itemizing the benefits is furnished the committee. The committee reviews your suggestion and, if adopted, determines suitable award. If for some reason your idea is not adopted, the committee will give you an explanation and urge you to try again. Successful suggestions bring cash awards to employees and the congratulations of their supervisors and fellow workers.

Fire Prevention Week Is Every Week For Plant Protection

The observance of Fire Prevention Week will take place from Oct. 9 to 15, but every week is "fire prevention week" at the Fort Wayne Works. For constant vigilance is the watchword of the Plant Protection section here, as every effort is exerted in keeping down disastrous industrial blazes. G-E firemen daily make the rounds of various equipment locations throughout the plants, checking, inspecting and otherwise keeping in tip-top condition the countless pieces of fire-fighting apparatus throughout the Works.

Fire extinguishers designed for specific types of fires, such as oil, flammable liquid, electrical and rubbish, are conveniently located and clearly indicated in all buildings. Employees, in order to be of greatest help in emergencies, are urged to familiarize themselves with the proper use of each type.

Plant Protection men here also maintain continuous inspection for potential fire-traps and hazards, and in this manner are able to eliminate the cause of a blaze before it has a chance to start.

Each year fires cost American industries almost $200 million in property alone, not to mention indirect losses affecting employment, buying power, credit ratings, contract cancellations and interruption of production. In 1948, an estimated 30,800 manufacturing plant fires were reported.

During the next 24 hours, the chances are that fire will take 30 lives—and destroy $2,000,000 worth of property. and that will happen during every ensuing day and night, if fire waste continues at the present rate.

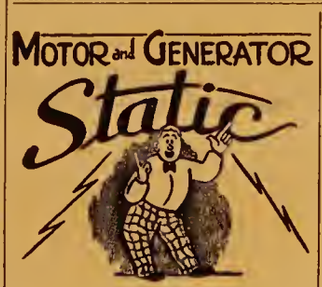
Fire Prevention Week has been an annual event since 1920, when President Woodrow Wilson issued the first Presidential proclamation authorizing it. It has only one purpose—to show us the simple precautions that will prevent most fires. To achieve that goal, thousands of experts contribute freely of their knowledge, time and energy. Nothing is left undone that might serve the cause. Practically every American, unless he be a hermit in the hills, has the chance to gain knowledge that may save his life, his home, his job.

KEEP 'EM COMING

Corns' Stalks

TAYLOR ST. SHIPPING

By Gloria Geesaman



Any resemblance to people in this column is purely coincidental but intentional. . . . Being this is our first time in the WORKS NEWS for quite a while all we are asking is to put up with us in the future, so here goes nothing. . . . Mighty tasty candy Gloria Beverforden passed around on her birthday. Of course, she wouldn't tell us her age since she's so old, (21 that is). . . . Pat Waterman one of these gals who's here today gone tomorrow is spending time with our division now. Bonnie Koop from Bldg. 6-2 also has joined our force. Really they don't know what they're in for, ahem. . . . Jerry Schlund, a 20 year man is taking it easy doing nothing on his third week of vacation. Oh for another week of vacation. . . . Wilmer Kruekeburg just loves candy, but—the other day when he reached in a can for peanut brittle, springs jumped out. You should have seen the look on his face! . . . Brooks Brickley is hoping for nice weather the next two weeks. He's intending to take a few small trips, including New York. There's no doubt he and the family will enjoy themselves. . . . Lately when we were expecting visitors, the office was really spruced up. Naturally we acquired new matrons to do the work. How about that, Jack and Al. No kidding they really did a good job. . . . It must be nice to ride home in a '49 Kaiser. Most of us wouldn't know, but some people do. Huh, Gladys. . . . Warning to anyone who doesn't know Doc Potter, never pull his tie. . . . Morris Petgen (Pigeon) has a time trying to keep the girls away since he's using that alluring "Old Spice." . . . Mary Mishler, husband too, are some of these lucky people who get tickets to a Notre Dame game. They saw N.D. and Indiana play, some fun, some game. . . . These girls and their sweaters, very nice too on Sally Ford. We're still waiting for the day Jean Carrol wears one. . . . Flash all the girls around 20. If you're interested in a cute guy, call Edith Robertson and ask about her son Kenny. He is now enrolled as a junior in Indiana, also an ex-coast guardsman. Say, Edith, where have you been hiding him?

We hear much talk about five percenters and free deep freezers, but things will surely come to a pretty pass when one big shot will start chiscling on the other. Last Thursday noon which happens to be very close to pay day, Al Swift had to pay 57 cents for a 36-cent lunch. Al was more than 36 cents hungry but due to pay day being so close he decided to eat less and have a little change left over, for which we give Al much credit. However, one of his big shot friends at the same table had different ideas. He had very little cash, but a very large appetite, what happened? One of these big shots changes his 57 cent check with Al's measly 36 cents. Al did not mind paying the extra 21 cents, but being embarrassed by being called back by the cashier for lack of enough cash is even more than Judas could stand. Among the following you may take your choice of the chief chiseler. Orville Doherty, Herb Thompson, Ray Kierspe, Forrest A. Gill, Truman Buckles. Fellows, this is one way of making the news, but Oh! Boy! what a way. . . . Last Friday after the inventory was taken of which we are all very happy, Porky Schoenefeld offered to take Tom Hutsel, Bob Baals and Bob Pickett home after Tom had already gotten out of the car Porky offered to buy them all a treat. Tom graciously begged to be excused for which he was awfully wise. For Porky took the two Bobs to a refreshment parlor and ordered the drinks. Porky then flashed one of those great big weekly pay checks which the proprietor could not cash. Who paid for the refreshments? Was it Bob B., or Bob P.? . . . If you hear a rumor treat it like a personal check. First find out if it's good before you pass it on.

This happened a few years ago, but we think that it is worth recalling. John Hensler had a brother-in-law who was a crack shot with a rifle and wasn't bashful about letting people know it. John decided to give him a lesson in marksmanship, so John bought some bird shot and some regular 22 shells and invited his brother-in-law to go with him to shoot sparrows in a barn. Naturally, John didn't let his brother-in-law know he had this bird-shot and his shooting percentage was perfect. We hope that the brother-in-law reads this. . . . Steward Bohrer's son, John, was married last Friday at Huntington and Steward was mighty happy when he came in to work on Monday morning. Someone said Steward tried to smoke a pipe and a cigarette at the same time—(probably just a rumor). . . . The boys in Bldg. 19-5 really got excited when they learned that Don Alcott was going to cut a muskmelon. However, it turned out to be the size of a baseball—how disappointing. . . . Seems that Dick Florent's son, Garry, had a birthday and along with it a nice big cake. Now we hear that Dick gave his son a long sales talk on the evils of overeating, especially cake. Hmmm-mm, Dick has been bringing cake into work everyday since. Happy birthday, Dick. . . . John Ebbert would like more information on how Roscoe Platt can raise chickens that lay eggs as cheap as 15 cents per dozen.

Welcome to October's bright blue weather. Now is the time to put up the storm windows and take down the screens, to get the winter fuel, to finish the fall cleaning, to take a trip to the lake for a wiener bake, to plant your tulips, to bake a fresh pumpkin pie, and, if necessary, buy that face for the Halloween Party. . . . Mr. and Mrs. Harry Brown have received a "bundle from heaven", a baby girl. The Browns now have two daughters. . . . The M-G Engineering girls recently honored Jean Fleckenstein at a luncheon. Because Jean quit last week to take up her duties as housewife, the girls presented her with a gift. . . . Maurine Vetter has returned to M-G to take Jean's place in the Service Bureau. . . . Lee Frizzell is now Mrs. Bill Gochenour. Best wishes, Lee. Everything happened at once to Lee. Shortly after being married, she was notified that she was to be laid off. Lee soon will be joining her husband in Kansas City. . . . This must be the year to buy a new car. Marv Baker has a new Chevrolet, Phil Potts has a new Pontiac, and Pete Stough has a new Ford. P.S. Tiny March has a new Dodge. . . . (We took this paper from Gerry because she won't write about herself, but we think recognition should be given Jean Fleckenstein, Gerry, and Ginny Mollet, whose birthdays were Sunday, Monday and Tuesday. They celebrated by going out to dinner Monday. Happy birthday, girls.)

THIRD WEEK VACATIONS—Paul Lange spent his vacation in southern Indiana last week. Paul admitted after his trip that northern Indiana lake district displayed more vivid colors of Mother Nature than he had seen down South. Mr. and Mrs. Stanley Tomkinson spent their vacation in the East visiting Stan's mother. They also visited Canada and Niagara Falls. Katie Gardt will spend a quiet week at home. Denton Manecke took one day of his vacation to FINISH painting his house. He got it all finished except three sides and part of the fourth. (Fast worker). Ernie Spaulding will enjoy his vacation listening and seeing the World Series on television. That lucky man. . . . B. B. S.—Dolores Kock is the new member of the B. B. S. (Baby Sitters Club). Congratulations. . . . JUMBLED PLANS—Larry Wightman and Joe Horan finally got to New York and back after a few days' confusion. It seems they just couldn't get together on their plans. The trip, originally planned for Monday, went into effect Thursday. Hope you both had a swell time. . . . SO LONG—Good luck to Pat Beebe, who left the Engineering File Room, last Friday and to Joan Walters, who is leaving today. Thelma Voirol is leaving to take up her duties as a housewife. . . . HOWDY—We welcome to the Engineering File Room Mary Leitch, Gwen Steinbarger and Pauline Badman. Maxine Lonergan is back from a month's leave of absence. We all hope she is feeling better now. . . . The D. C. Division welcomes Nat Galleroni, test engineer, who will replace Dick Jones. . . . SYMPATHY—We extend our deepest sympathy to Carl Vizithum, whose father-in-law died last week. . . . FOUR DAY WEEK—Carl Mann forgot we worked Fridays. Last Thursday as he rang out he threw his card in the box instead of putting it in the rack. Friday morning, after looking all around—it finally dawned on him what he did. . . . HURRY, HURRY, HURRY—If Bob Zieskies' wife doesn't hurry and arrive in Fort Wayne, we are going to lose Bob, as he is thinking of going back to North Dakota, because he is tired of being a bachelor. . . . ADVICE—This is advice for Don Reek. When you bid four clubs you should take more than four tricks, or one of those new rules, Don? APPLE EATING — The other morning Wade Tyler became hungry on the way to work, so reaching in the back seat he secured an apple from one of the baskets. Later on Helen Conrad says she will only pay for a full bushel of apples. . . . NO WIRE—Thursday afternoon Denton Manecke picked up his telephone after it had rung about four times and said hello. There was no one there. After looking at the receiver he noticed that there was no wire. Then he came wise that it was the skeleton receiver that Benny has lying on his desk. What a look he had on his face. . . . CAN OPENERS—Thursday afternoon Harold Smith was having trouble. He was trying to use a new can opener on a can of baby food. It seems that the can opener just wouldn't work. Baby food is a pretty light diet anyway. After Harold gave up Bob Wigent, Bruce Curley and Kenny French tried, all with the same results. Then Maurice Bennet came over. He worked on it for a little while and gave it up, too. It's a good thing some little fellow wasn't waiting to eat.

G-E ROCKET EXPERT TO ADDRESS MEETING OF SCIENTIFIC GROUP

G. K. Megerian

George K. Megerian, of the General Electric Company's Aeronautic and Ordnance Systems divisions, will address a meeting of the American Institute of Electrical Engineers at the G-E Squares club rooms, Thursday, Oct. 13. He will discuss "Rockets and High Altitude Research."

A native of Lynn, Mass., Mr. Megerian has been closely associated with the development of rockets and guided missiles since his graduation from Massachusetts Institute of Technology in 1937. Shortly after receiving his degree, he joined General Electric on its Test course. During the war period he was engaged in coordinating the flow of materials in the production of armament systems.

As Executive Secretary of the Upper Atmosphere Rocket Research Panel, a group composed of government technicians, college, and university personnel, and General Electric engineers, Megerian is closely in touch with the latest developments in rockets and guided missiles. At present, he is on special assignment with the advanced Development division of General Electric, working with guided missiles.

His talk will be concerned primarily with the use of captured V-2 German rockets for studies of the upper air in this country. Colored movies will be shown of V-2 launchings both in Germany and in this country at White Sands Proving Grounds, New Mexico.

Red Birds To Play Tonight At G-E Club Square Dance

Joe Taylor and his Indiana Red Birds will play for the square dance in the G-E Club auditorium tonight. This is the first in a series of dances to he sponsored by the G-E Club's entertainment committee for employees and their families. The dance will begin at 8:30 p.m. and will consist of both round and square dancing.

Efforts were made to hold the dances on Saturday nights to accommodate those on the second shift, but the committee has been unable to acquire a band that hasn't made prior commitments.

Taylor's Indiana Red Birds can be heard over Station WFTW every Saturday at 11 a.m. and they have made records for the Red Bird Company. Those shown in the picture, left to right, are: Front row—Connie Smith, Pat Cobat, and Bill Allen, Taylor St. Back row—Francis Geels, Joe Taylor, Bldg. 27; and Van Marchand, Ed Parker, Bldg. 24, the caller was not present when this picture was taken.

Helen Miller Wins Elex Ticket

Helen Miller, Taylor St. (right) gives the "okay" sign as she receives the lucky Elex ticket from her contact girl, Ann Johnson. By buying the membership card bearing the winning number chosen by I. H. Freeman, Supervisor of Personnel, Helen will be admitted free to all meetings throughout the year.

DuChemin Visits Fort Wayne Works

N. M. DuChemin, Assistant General Manager of the Apparatus Department, recently paid an extended visit to the Fort Wayne Works and branch plants for the purpose of viewing the manufacturing operations and discussing present and future plans with supervisory personnel. Mr. DuChemin, formerly Manager of the West Lynn Works, was appointed as Assistant General Manger of the Apparatus Manager of the Apparatus Department in May, 1949.

Reservations Are Opened For Elex Trip To Ice Show

Reservations are now being taken for the Elex trip to the Sonja Henie Ice Revue at Indianapolis Saturday, Dec. 3. A downpayment of $3 must be made on or before Friday, Oct. 28. The excursion price is $8.25 for Elex members and $9.25 for non-members. This cost includes the bus fare and tickets to the revue.

A bus will leave the Indiana Railroad bus terminal early Saturday morning and will return to Fort Wayne that night after the show.

Family Night

(Continued from Page 1)

Wayne and branch plants.

"Our Family Album" had its first preview yestorday. Members of the Family Night Committee, who served as official critics, report that Family Night audiences will enjoy many laughs at the expense of the early photos of local G-E activities.

The cast for the farce, "Tremblin' in the Kremlin," will arrive in Fort Wayne Tuesday morning, following two performances in Tiffin, O., on Monday. They are scheduled to appear at Decatur Tuesday afternoon and evening and will make their first Fort Wayne presentation Wednesday afternoon at 1:15 p.m.

Martin Noble, who played a major role in the Broadway production "You Can't Take It With You," will play a leading part in the comedy. Also in the cast are Alexis Rotov, New York musical comedy star, and Joyce Randolph, who this summer played a part in "Voice of the Turtle" in the Washington, D. C., Drama Festival.

The film, "By Their Works," is about General Electric people and their jobs. It features Decatur's Aeolian Choir.

Performances at Decatur will be held at 1, 7 and 9 p.m. Tuesday, Oct. 11, in the Junior-Senior high school auditorium, Jefferson and Third Sts.

The schedule of programs at Fort Wayne is as follows:

Wednesday, Oct. 12—1:15, 7 and 9 p.m.
Thursday, Oct. 13—1:15, 7 and 9 p.m.
Friday, Oct. 14—7 and 9 p.m.
Saturday, Oct. 15—8 p.m.

Free tickets for the shows were being distributed all week by foremen and supervisors. There is every indication that all performances will he well attended.

"Remember When" Group To Hold Dinner Meeting

The "Remember When" group will hold a meeting at the YWCA Wednesday, Oct. 19, at 6:30 p.m. The group is composed of women who worked for General Electric during the period between 1905 and 1916.

Tickets for the dinner meeting are $1.35 and can be obtained from Lois Miller, Bldg. 8-2, who is chairman of the meeting. Reservations must be made by Thursday, Oct. 13.

Thursday of last week was Joan France's birthday, but she decided to wait until Friday following inventory to celebrate. . . . Lelia Byall observed her birthday yesterday and received a large share of cards and handkerchiefs. . . . Congratulations to Johanna Alles who was elected a two year director in Elex. . . . We have received word that two of our former employees, Melba Hartman Morr and Berniece Gerber Bauman, have baby daughters. . . . Jake Harshman took his wife to the Purdue-Iowa football game and reports that Purdue outfumbled Iowa so they could lose. . . . Irene Pulfer was seen wearing a big red feather in her hair a-la Pocahontas. It might have been advance publicity for the Community Chest drive. . . . Harry Murphy has joined the Cost Estimating Section in place of Earl Hensel who has left for another division.

FHP Motors Sales Divisions Obtain Orders From Royal Company After 12 Years' Effort

For the past several years the Commercial division has spent considerable time and effort surveying the motor requirements of electric typewriter manufacturers. Through close cooperation between the Engineering and Sales divisions, a compact, light-weight, constant-speed motor that can be fitted into the complicated mechanisms and limited space of typewriters has been developed to meet the increasing demand for this type of motor.

Twelve years ago our sales organization began working with the Royal Typewriter Company, with the hope of eventually supplying motors for the electric typewriters they were developing. During this time, the customer tried many types of motors in his experimental units.

Ten years later this customer accepted our original recommendation that a constant-speed induction motor was the type of motor for electric typewriter applications, and several sample motors were submitted. During numerous meetings, our sales people were able to convince this customer that the new General Electric typewriter motor was by far superior to the competitive samples submitted.

After twelve years of untiring effort, an order was obtained from the Royal Typewriter Company for a large quantity of our new typewriter motor. To prove to this customer that we could take care of his motor requirements and give him the service he wanted, our Manufacturing divisions shipped a quantity of motors the same week the order was received and are now shipping motors at the weekly rate requested by the customer.

Here is an excellent example of how perseverance and close cooperation between the Commercial, Engineering, and Manufacturing divisions enabled the General Electric Company to gain another satisfied customer.

J. J. Horan, E. F. Rhodes, and R. W. Groot, of the Fractional Horsepower Motor Sales divisions, and G. D. Willits, of the Fractional Horsepower Motor Engineering divisions, are shown, above, reviewing details of the new typewriter motor with F. A. Fredrickson, of the New Haven, Conn., office.

Files Are Discussed In Lecture Presented To Forty Apprentices

A talk and demonstration on files and filing methods was presented Monday afternoon in Bldg. 8-2 for 40 apprentices and supervisors of tool rooms by Walter R. Buerckel, of the Nicholson File Company.

Mr. Buerckel is a member of the American Society of Tool Engineers and American Society for Metals. He has lectured before 435 technical societies, foremen and apprentice groups during the past two years.

His talk was illustrated by photographic slides and was followed by a demonstration of proper and improper file usage. The topics of his lecture included: how tooth construction affects filing efficiency and costs, bases for correction selection; selection, application and care of files; file steel, its analysis and heat treatment; how file teeth are "cut to specification"; special purpose files—design and use; the advantages of milled curved tooth files; principles of rotary power filing; Swiss pattern files and precision work; and the history of files through the ages.

Art Buchwald has so many red feathers, he looks like a Rhode Island Red rooster. . . . "Two Tickets to Georgia" is the theme song of Carl Campbell since he returned from Georgia where he spent a few days of his vacation. It is rumored that he made it there and back so fast, that he met himself half-way in between. Was Bill Wetzel right, Carl? . . . Wonder if the professional "Liar's Club" knows about Blink Voirol. The hunting he does couldn't be possible without his over-active imagination. . . . Did you know that Chet Schwartz is the "official" starter of the Bluffton Street Fair? Every year it's his job to turn on the lights. How official can you get? . . . It must be pretty dead on second shift. Carl "Daisy" Banks says that nothing ever happens. Come on now Daisy, lets you and Cliff Clauser look around a little and give us the dope. . . . Bless the man who sold Whitie Van Auken the pen with three colors of ink. . . . Harold Smith says that he isn't a bit lonesome since "Oscar" came. Oscar, a little turtle, has his own little Fulk Lake right on top of the file cabinets. . . . Why was Lois Ulrey snagging all the WORKS NEWS she could get her hooks on last week? Why the sudden interest, Lois? Could it have been a picture? . . . Wonder what happened to Oscar Beaty the other day when he disappeared from the golf course so fast. Could it be that you forgot to yell "FORE," Oscar? . . . And now for the scoop of the week: Our congratulations go to Rosie Thomas who came to work Monday wearing a beautiful diamond. Now, Rosie, since when do you get diamonds to wear on the left hand from big brother? By the way, the lucky guy is Frank Boyle. . . . Frank Edmund's classes in "How to get the Queen of Spades" in five easy lessons will start next week. Phone Frank early for reservations. . . . Don and Boodles in Bldg. 20-2 will run errands for any one between the hours of 12:00 and 1:00 cheap. . . . We hear Don Porter of the Power Plant tries several cars to see which one his key will fit when he leaves work on the third trick. Now that Don and his family are soon leaving on a trip to Iowa you fellows had better watch out. Don COULD get the wrong car. . . . Arthur Ream tells us his speed is so great that he runs the wheels right off his car. . . . Scotty is back from his eastern vacation trip. He kept Sammy Mastro well informed of the points of interest along the way. Arrangements were made for a "Welcome Home" gift for Scotty. . . . Russell Maxson says construction is progressing on his new garage. . . . Pete Carpenter and Joe Banks are back from vacations. . . . Birthday greetings this month go to Harry Oliver, Grover Walker and Walter Cook. . . . How many of you know Sam Henry of Bldg. 10 has a good telephone singing voice? Thank you, Sam, for the birthday wishes.

I hear that Lee Raver is spending quite a lot of time in airplanes these days. Anyway she is in the clouds since she became a grandmother! Her daughter presented her with a grandson, Jimmy, Jr. Congratulations, Lee! . . . Evelinc Best, who just returned to work, finally cleaned out one of her drawers the other day. Merle Keesler took a large box of the stuff home, now he won't have to buy any medicine for ten years. . . . We also welcome Opal Ewers, Cecil Foor, Zelda Garrison, Thelma Fenstermaker, Herbert Stack, Roxana Miller, Victoria Hyer, Arthur Keller, Floyd Null and Richard Geiger to Division 1. Hope you all stay a long time. . . . Martha Scherzinger certainly is popular! The photographers are constantly surrounding her desk! She will soon be seen in the Brief magazine for foremen and supervisors of the Apparatus Dept. "Life" magazine will probably be up here next! . . . Quite a few of the co-workers up here have colds and it is almost impossible to tell who's been out with whom. It must be that they attended the Bluffton Street Fair and caught cold. . . . Betty Kummer was there and from the picture she brought back she is ready to join the troop of dancers when they leave Bluffton. . . . Happy birthday greetings to Louie Clark. . . . Congratulations to Irmegard Gehle on having 30 years with the Company. She celebrated by going to the Railroad Fair with Elex. . . . Edith Schriener lost her hat while walking through Marshal Field. Luella Hockemeyer had bought a new hat so she wore it and Edith wore Luella's head scarf! What you should have done Edith is buy yourself a new one, too! . . . Bob Blee has to run for the bus every morning, and Ed Robbins, who gets on several blocks sooner, is always puttin' him on about running for the bus. Here is what Bob doesn't know, Ed has to run every morning to catch the bus, too! . . . Dillon Kable must be an outdoor man when he gets off the bus and walks home when he could stay on the bus and get off almost in front of his house. He even lets the bus go right on past so he can walk! . . . The change in Alva Foulk's disposition and waist line is due to the fact that he is so lucky and by being lucky he can afford to eat chicken every night. . . . Melba Flanders is leaving us to live in Ash Fork, Ariz., where she and her husband bought a combination restaurant and bus station. We will all miss you and if we ever take a trip West will be sure and stop to see you! Lots of luck in your new venture. . . . "Can You Top This" is what Walter Beaty and Herb Braun say to each other when they meet. Each tries to outdo the other on this story business. . . . We all wonder if "Strong-man" Wilbur Stocks had enough money to pay his "fine" last week. I thought one could buy a deck of cards for less than 69 cents! . . . We lost Frank Brindle last Saturday during inventory. A reward will be paid to anyone who tells us where he was! . . . Wonder if Elmer Koehlinger was walking in his sleep Saturday since he got in to work so early, or is it he likes this Saturday work? . . . Say, Harry Berry, did you enjoy the Fair Saturday? He went home early so he could go to the Fair or so he says but we think this Saturday work got him down! . . . Say, Waldmar Schmidt, how about a little run out to Millers, or have you some other place in mind?

Flow Of Suggestions Here Reaches Highest Peak In Fort Wayne History

(Continued from Page 1)

them also has been increased. The average age on all snggestions is now slightly over two weeks, a new low for the time required in handling them.

11 Receive Bonus Awards

The new list was released this week of all those who have already become eligible to receive a G-E monogramed cigarette lighter as a bonus award. The cigarette lighters are being presented to every employee who submits one or more suggestions between Sept. 1 and Nov. 15 on which the regular award is $10 or more.

The bonus awards were presented this week to:

Martha Newell, Bldg. 26-3; Arnold Ley, Bldg. 26-1; Raymond Crippen, Bldg. 26-5; J. Virgil McKeeman, Bldg. 26-5; Don E. Waldrop, Bldg. 26-5; Max Lydy, Bldg. 26-5; Frank F. Schultz, Bldg. 26-3; Eugene Scherer, Bldg. 26-3; Charles Strong, Bldg. 6-1; Betty McPherson, Bldg. 17-4, and J. Donald Ramsey, DeKalb plant.

Offer $500 In Merchandise

In addition to the regular award paid for accepted suggestions and the bonus award of a cigarette lighter, a total of $500 in merchandise certificates will be presented for the best suggestions contributed by employees of the Fort Wayne Works during the contest, Sept. 1 through Nov. 15.

A total of 10 certificates, each redeemable at the Employees' stores for $50 worth of merchandise at employee prices, will be presented.

Eligibility rules for this contest are the same as for the regular suggestion system.

Nov. 15 Is Deadline

All suggestions must be submitted no later than Nov. 15. Only those carrying the suggestion office's date stamp between Sept. 1 and Nov. 15, inclusive, will be eligible.

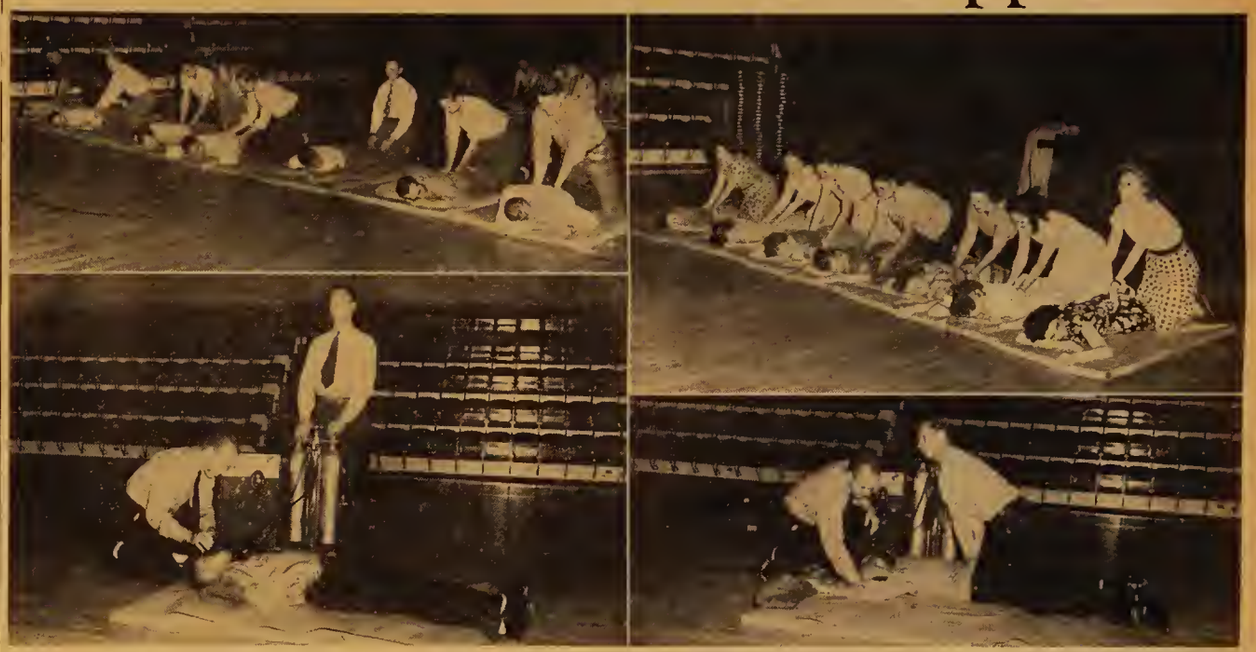
There is no limit to the number of suggestions that employees may turn in.

These suggestions may be:

1. to improve the quality of our products.
2. to propose suitable new products to manufacture.
3. to improve methods of manufacture.
4. to improve equipment, including tools, jigs, fixtures, etc.
5. to reduce the costs of production.
6. to eliminate conditions that are hazardous to health or safety.

Shown above is one of the G-E monogramed cigarette lighters which will be given to an employee who submits one or more suggestions between Sept. 1 and Nov. 15, on which the regular award is $10 or more.

"He that would live in peace and ease must not speak all he knows, nor judge all he sees." Franklin.



George Holthouse almost had heart failure when his team, the St. Louis Cardinals, dropped out of first place. . . . Jay Rippe is recuperating from having a wisdom tooth pulled recently. . . . Bob Rehrer is about ready to pass the hat around in order to stay out of the poor house. He says his two sons eat more before they go to bed than he does all day. . . . Harold Hohman has gone back to fishing again after painting the cottage. His luck has improved to a certain extent. He was able to keep seven out of about 30 bass over the week-end. . . . Ralph Walda has a new pet. He was seen on the bus last week with a huge plastic dog under his arm. He really is quite fond of that little nephew to carry a dog on a bus at rush hours. . . . The Safety Committee members had their picture taken as a group at their last meeting. In the session that followed, they were urged to keep on with the good safety record established so far this year. The motto selected is, "Think Safety, Talk Safety, Work Safely." Paul Traub is chairman of the committee.

Why is it 14x3B has two new fly swatters? Could it be to keep Ife Holmes' "Dome" free from the pests? . . . Johnny Wilson wants his fellow workers to know he will not accept charity even from Bill Curtis. . . . Mabel Fisher is following in Williadean Rathert's footsteps. She also answered her phone by saying "hello," when the Dinner-Winner-Man called. . . . We hear "Mr. President," Walt Niemeyer has now monopolized the Gutter-Ball. . . . Alice Roger entertained several of the girls for dinner last week and they went to the Bluffton Street Fair. Much to their surprise Carl Reeves was in the parade. . . . Now that Fritz Vogt'a car is two years old, the gang is wondering when they are going to have to stop removing their shoes when they get in the car. The fellows really think it has gone on long enough. . . . Walt Niemeyer must be getting more spending money. He bet five cents on a bowling game with Bill Curtis. . . . Herb Seslar and George Miller are spending a lot of time in the dispensary lately. It seems George spent all of two days there and then had to take a day off. . . . Waldo Martin vows next year he is going to fool the bluegills, he isn't going to try and catch them. They have made a monkey out of him long enough. . . . Why should anyone pay to see an auto race when all you have to do is follow Si Anspaugh and Vondy to work. . . . Kitchen finally got his "Chevy." . . . What foreman has also said it was much easier to use your head than your feet? And yet when he goes to write his report, in the office, he finds he has left his material at his desk. Better watch that, Pappy.

If you have a cold, don't talk about it—keep it to yourself.

City Firemen Give Demonstration Here Of Resuscitator-Inhalator Apparatus

A demonstration of resuscitator-inhalator apparatus in use was given recently by city firemen rescue units of No. 5 Engine House at the regular resuscitation practice session for employees in the Specialty Transformer and Ballast divisions at the G-E Club gym.

Teams composed of Capt. W. M. Cook, Edward Loraine, Carl Langas, Capt. C. J. Baals, R. A. Kiles, Lester Knipstein, and D. A. York took part in the demonstration. Experiences in which this equipment was used in cases of drowning, gas asphyxiation, heart trouble, and asthma were related. Capt. Cook pointed out that the time element was most important and that the respirator squad should be called without delay in incidenta when persona have hreathing difficulties.

Nearly 75 employees witnessed the demonatration and took part in the practice session of the Schaffer Prone Pressure method of artificial respiration. Included in the group were testers, engineers, and test laboratory operators of the Specialty Transformer and Ballast divisions. W. T. McDougall, Assistant Supervisor of the Inspection and Test division, led the class.

In the upper left photograph, a group of employees are shown taking part in the practice session of the Schaffer Prone Pressure method. They are: (l. to r.) Operators—Tom Freeman, Fred Leinker, Robert Taylor, John Kwinge, Charles Howlett, Donald Waldrop, and Edward Dullaghan. Patients—Doyle Johnson, Edward Murchland, Merle Johnson, William Henderson, Charles Bailey, Robert Crippen, and Arthur Rall. W. T. McDougall (kneeling, fourth from the left) gives aome pointers to one of the men.

Others in the practice aession, shown in the upper right photo, are: (l. to r.) Operatora—Cora Charleston, Lillian Jackson, Wilma Snyder, Celeste Farrell, Virginia Reed, Kathryn Bailey, and Mary Ambler. Patients—Hazel Dilworth, Janice Goff, Lucille Orr, Laureen Kraus, Blanche Kanning, Dorothy Bearman, and Dortha Beaseley.

Capt. Cook explains the method of artificial respiration when using a combination respirator-inhalator, as Carl Langas demonstrates its use on Edward Loraine, in the lower left picture.

In the lower right photo, Capt. Cook applies artificial respiration by the Schaffer Prone Pressure method, while apparatus is used as an inhalator to give pure oxygen to the patient.

For our continuous inventory of news we write out more news on bundles from heaven. . . . Paul Gross and the former Mildred Miller were blessed with a baby daughter. . . . Raymond Teeple and the former Leah Rash had a new arrival. Congratulations, fellow employees and future employees. . . . Oh yes, in Spencerville, Ohio, a baby daughter arrived to Mr. and Mrs. Don Boroff, the former G-E girl—Carolyn North. Hi, Pop and Mom, on your arrival. . . . When it comes to dressing poultry, see George Womack. He has a system of removing the unwanted stuffing in a few easy slashes—no mess—no fuss—nothing to it. . . . Our Willshire tester is sporting a new four-wheeled super job. A very nice color—birch gray. Ira Huber is a tall, dark, and handsome lad; now, girls, here is your chance. Wait a minute, I just heard that he is escorting around a lovely girl—too bad, you're out of luck. . . . Speaking of cars, Marcile Jones has been seen maneuvering about in an Oldsmobile. That's quite a car, Marcile. . . . There's a gal on winding who purchased a '48 car, claiming she couldn't drive but had several offers on instructors. Miss Kukelhan, how are your driving lessons by now? Just so you don't get a ticket or run into solid objects. . . . Belated greetings to Martha Mazelin, who tells us that we forgot to mention when she returned to work after a long illness. Here it is, Martha, better late than never, and we are glad to have you with us again. . . . Say, practicing Safety is good Life Inaurance. The premium—costs you little; Dividends—may save your life! Better start buying yours today who knows? . . . Oh, for some of that grape juice we hear Alice Gerber makes. . . . Dan Zeser was on the sick list this week. . . . Leonard Meyer is all smiles these days—a new Oldsmobile. . . . Daily greetings to Esther Harmon, Geneva Pickering, Esther Ehrman, Alvena Lindemann, and Dick Evans. . . . Ola Kistler proudly shows snap shots of her pretty twin nieces. . . . Alma Fruchte of Section 7-50 is the mother of the girl of 29 charms—Margaret Fruchte. . . . John Dale and Judy Gail are the names of the twins born to Mr. and Mrs. John D. Meyers. . . . John Owens reports his little granddaughter's name is Becky. . . . Lloyd Ahr forgot to turn the clock back, ao on Sunday morning took his family to church an hour too early. . . . Jason Moser didn't duck that one in time. . . . Buford Dull and friends enjoyed the week-end at Chicago taking in night life and the White Sox-St. Louis Brown's ball game. . . . Our sincere sympathy to Erna Weiland and Ray Bleeke upon the death of their father; and to Clarence Brunnegraff and family upon the death of their grandchild. . . . Here it is cold weather and Pauly Myers still has that old Pontiac that just won't start when the weather is a bit chilly and I suppose he'll expect Jake Eady to pull him all over the country trying to start it. Why don't you buy a new Ford, Pauly? . . . Vacation time and Herm Keller insisted that he would do the driving up to the lakes when he and the boys went. Do you know something must have happened, because Lorena decided that she was going to drive, too; we hear that Jake Eady did the driving in that yaller Hudson. Isn't it too bad you have a new Ford and you can't drive it, Herm. . . . Pete Schumm is a man of very few words and sometimes those are mighty words but the next time he talks to a man he will find out whether he is a preacher or not. It seems the good Reverend decided he should pray for Pete after Pete got through talking. . . . Clarence (Riggy) Geisler by this time is the proud possessor of a brand new Ford. Watch him strut his stuff. . . . Okeleah Stetler promised to give me some news but I guess she has her mind on going to Tennessee, so nothing there. . . . Doris Evans is still driving that old jalopy of a Chevy around the town. . . . Kate and Dick Steele haven't been eating the last week because they bought a new Buick. By now they should be over the excitement and back on schedule. . . . Mary Ann Laurent celebrated her 21st birthday, Sept. 30. There was a beautiful cake on her desk that morning and Mary Ann was very pleased. We're quite sure Mary is 21 legally. . . . In case you are wondering who the person is that is driving the '40 Studebaker it's none other than Julie Baker. Old faithful Chevy is no longer with us but Julie says it's not forgotten. . . . The guard with a new uniform is none other than Lawrence Beal.

Applications For G-I Insurance Dividends Are Made Available

All veterans who took out National Service Life Insurance before Jan. 1, 1948, and kept it in force three months or more, are eligible for the special G-I Insurance dividend.

Applications forms are available at the Veteran's Administration office, 220 E. Jefferson St.; at the Employment office, Bldg. 21, and at Hubert Myers' office, Taylor St.

Children are little people constantly bawled out for acting as their parents did at that age.

US SECOND SHIFTERS

By Earl Stauffer

It has come to the attention of this reporter that US SECOND SHIFTERS haven't been taking advantage of the opportunities offered by the G-E Club. The new officers as well as the outgoing leaders are sparing no efforts to plan events that can be enjoyed by the second shift as well as the first shift. . . . A very fine tribute by the Bldg. 4-5 gang was given to Rudy Becker, who is retiring after 19 years' service. Wednesday night, Sept. 28, which also happened to be his birthday, a large group celebrated with a potluck. A very gala occasion it was with formal presentations, practiced (?) speeches and many, many nice remarks. A birthday cake, a beautiful monogramed billfold and gift checks were given him by his coworkers and friends. Individual gifts were given too and in case he tires of his other activities he can always take up the organ grinding business. Last but not least he has the distinguished honor of being graduated from the College of Euchre with a diploma, signed, sealed and delivered. Working in various divisions around the plant he has acquired many friends. Nothing but the best can follow a man as well liked as Rudy and we all say, goodbye, good luck, we will all miss you. . . . More from Bldg. 4-5 where Madonna Enders has taken up traveling. From the wilds of Canada during vacation to the hills of West Virginia, over inventory. Take care, Madonna, that one leg isn't shorter when you get back. . . . We have been informed that a certain winder in Bldg. 4-5 has taken up reducing exercises but they tell me that it gets expensive. She could take it, but the furniture couldn't. . . . Put the following in "can you top this" category. Everett Hamilton, Bldg. 26-4, was displaying some of his Owl Golf League ability to a few of the boys the other day and really did it up big. He shot a hole in one. The only trouble was that the hole was his golf bag and the little white pellet didn't stop when it got to the bottom, it went right on through. His fellow workers have promised not to let the word get around and further promised to weld a new bottom on his golf bag that is indestructible. . . . Along the lines of golf it is getting bad when two of the Hot Shots have to invent a grandmother in Garrett to keep from playing golf with Warren Wickliffe. The wayward boys were Jim Sternberger and Oscar Bunch, Bldgs. 19-1 and 27. . . . John Shanahan, the Bldg. 17-1 perfumer, says that he has invented a new one.

Women's Division Holds Annual Reception

In the photo, above, are: (l. to r.) Mrs. Marvin A. Baker, president; Mrs. Frank Fleischer, member-at-large; Mrs. Robert Johnson, treasurer; Mrs. Kenneth Wheatley, program chairman; Mrs. Orval Doherty, secretary; Mrs. G. E. Hicks, telephone chairman; Mrs. Elwood M. Stanbery, nominating chairman; Mrs. Ronald F. Robinson, house chairman; Mrs. William Pringle, membership chairman, and Mrs. C. J. Herman, past president. Not present when this picture was taken were: Mrs. Lee Beard, vice president; Mrs. Robert Rowe, member-at-large; Mrs. Robert Hanna, contact chairman, and Mrs. Gilbert E. Jamieson, publicity chairman

The Women's Division of the G-E Squares Club held its annual reception Thursday, Sept. 22, at the Squares Club rooms.

The refreshment table was laid in a white cloth, centered by an arrangement of Autumn flowers and flanked on either side with three-tiered candelabra containing lighted white tapers. Mrs. Marvin A. Baker, president, and Mrs. C. J. Herman, past president, presided.

C. Lane Breidenstein, of the Fort Wayne Better Business Bureau, was the guest speaker. His subject was "How Not To Be Swindled."

Arrangements for the reception were handled by Mrs. J. J. Clarkson and Mrs. I. H. Freeman, cochairmen, assisted by the members of the Board of Directors.

The next event scheduled by the Women's Division is a potluck supper and bridge party for members and their husbands. It will be held Saturday, Oct. 15, at the Squares Club rooms, with Mrs. Carl H. Rinne and Mrs. J. B. Greer serving as co-chairmen.

MILLER SUCCEEDS EMMET AS ERIE WORKS MANAGER

H. L. R. Emmet, for the past 21 years Works Manager of the General Electric Company's Erie Works, retired Oct. 1 and is succeeded by Bertram Miller, Assistant Manager, it was announced recently.

18 City Firemen Are Conducted On Tour Of Fort Wayne Plants

Eighteen firemen from No. Five Engine House were conducted on their annual tour last week by G-E Fire Chief E. M. Hanauer. Taken Wednesday and Thursday to include both shifts of city firemen, the tours are made each year to familiarize the men with the Broadway and Taylor St. plants. Chief Hanauer pointed out the most hazardous spots, explained the alarm system, and showed them what parts of the buildings are controlled by sprinkler posts. In case a fire should break out at one of the plants, the city firemen are then prepared to find their way about the buildings without any difficulty.

In commemoration of Fire Prevention Week, a demonstration using an evacuator canvas will be presented by the city fire department Tuesday at 3:30 p.m. in front of Bldg. 19. An aerial ladder will be run up to the fifth floor of Bldg. 19 and firemen will slide down the canvas chute. In case of rain, the demonstration will be postponed until the next day.

In the picture at the left, above, are: (l. to r.) Capt. Clint Baals, Lester Knipstein, William Weick, Theodore A. Grimme, Dist. Chief Paul W. Horstmeyer, Dwight A. York, Assistant Chief Edward Mueller, Harold S. Goldsmith, Donald L. Sonnenberg, and G-E Fire Chief Ernie Hanauer.

A scene during the tour Thursday is shown at the right. In the photo are: (l. to r.) Ralph Ellenwood, Carl Langas, Walter G. Lindenberg, Harold J. Roemke, Assistant Chief Henry A. Banet, Roy E. Lemmel, Capt. William Cook, and Chief Hanauer.

4-1 Floorage

By Marie Lantz

Here 'tis October, the year's favorite month, whose harvests golden make beauty triumph; and so, we should avail ourselves of Autumn's out-of-doors, to bask in its beauty. . . . Effective this month all citizens must observe P. C. O. (pedestrian control ordinance) No. 2332, which concerns motorists as well as pedestrians. Simultaneously, our safety committeemen are conducting a safety drive—to further cooperation with P. C. O. No. 2332 and also to decrease our accident rate on the job. Those red badges our safety committeemen wear reveal that our Fort Wayne Works' present accident rate is 2.43 per cent per 1,000,000 man hours. At this rate, if L. T. A. (lost time accidents) were passed around evenly, each of us would have a L. T. A. ONCE in 207 years. You, too, can wear your safety badge, now and always. Your badge is more than a red piece of paper. Your badge is your body, your whole body, your limbs, eyes and ears, your senses! Use your head to save your self. One of the first P. C. O. offenders, when questioned, said she knew about the ordinance, but "just followed the crowd" crossing a down town street. This "crowd" she followed was comprised of out-of-town visitors—hence our offender promised to use her eyes and go with the green—not with the "crowd." One must do what's right to be left. . . . When Avery Spayde worked last Saturday he lunched at a Broadway eatery where he accidentally (?) forgot his hat. Despite his efforts to account for his missed hat mishap, fellow workers still believe he just wanted another coke (?) come 3:30 p.m. . . . We bid farewell to Alva Parker who returns to Bldg. 26-1, where he worked previously and to Ruth Nordyke, who returns to Bldg. 4-3. . . . We extend belated sympathy to Jane Gisemore, whose nephew, Philip Fulk, 7, was Bluffton's first polio casualty. Philip died Wednesday, Sept. 21. . . . Came last Friday and Inventory, which meant different work for some, a holiday for others. Carl Riedel found it an opportune time to visit the Railroad Fair at Chicago. . . . Ruth Nordyke, a Blufftonite, didn't have to go far—for a fair. . . . Those who worked inventory in the stockroom were treated to cigars passed by Ray Swartzel—just as a goodwill gesture.

P's and Q's of 17-1

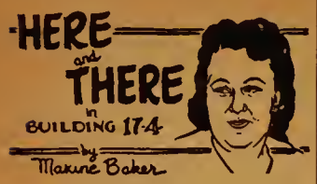
by Joe Kramer

The happiest city is the title well deserved by Fort Wayne, at least as is being shown by the returns from the Community Chest drive. The contributions are being given more freely and with a better "help thy neighbor" spirit than ever before. We would like to suggest that any stories pertaining to the Community Chest either for or against it should be investigated before a decision is made. . . . In keeping with the good neighbor policy being established this week, Clarence Doctor is planning a big farewell party for his next door neighbor. Doc is looking for suggestions that will enable him to insure a complete success for the party. Ray Rodenbeck has requested permission to furnish the fish for the party, as Ray and Doc are co-chairmen for the gala event. Doc is furnishing the apple cider. . . . We were glad to welcome Ralph (Cowboy) Beerman back to work. Cowboy is going to ride the range on the Brown and Sharpes during third operations. . . . With the return of college football, Ed Brosche is discontinuing his Florida tours. He has promised Weldon Stucky a midstripe seat at all Notre Dame football games. . . . It was a little confusing last Friday with the taking of inventory and the running of the machines. It is not known whether the fenced area around the Toggle press was to keep Herb Kellemeier closed up or was put there to keep Ted Brockmeyer out of his way. . . . While speaking of inventories, it is significant to note that George Mosshammer, the happy-go-lucky tool crib operator on the first trick, has been with the company 33 years and has just completed his 33rd inventory. . . . A special note to the men in the punch press section: Fred Reece, a former punch press operator, wants to tell everyone hello and says if you get a chance drop over and see him sometime. He would like to hear some of the tall tales that have been known to start spreading in the punch press section. . . . Cliff Coombes is starting in early getting prepared for ice fishing. Cliff went fishing a week ago with two pair of pants, two shirts, ear muffs, two pair of socks, heavy boots, and under all of that, he had on those long red you-know-whats. Cliff is hoping someone will invent a generator he can run off of his motor so he can wear an aviator's electrically heated suit. . . . Living in the country, Argend Denney has been telling everyone about the chores he has to perform before coming to work in the morning and also upon returning home in the evening. We wonder what kind of an excuse Argend will have to give to the people who saw his wife carrying a pail of milk up from the barn. Now, Argend, who really does all the chores? . . . George Mosshammer and Charlie Niblick were seen reaping the harvest of a hard summer's work. George and Charlie were gathering up their special variety of strawberry popcorn. We don't know for sure but we believe George still has a few pounds of popcorn for sale. Orders are being taken at the tool crib. . . . Clarence (farmer) Doctor was also among the fenced-in operators during inventory last Friday. We don't know what Doc was objecting to, whether it was because he couldn't get out of the area, or because he was supposed to stay in. . . . Ray Rodenbeck doesn't believe in using light switches. Ray believes the safest way to turn off the light is to unscrew the bulb. . . . Frank Martin has been blamed for a lot of things, but the latest was due to this column being missing from the WORKS NEWS three weeks ago. Ed Martin says the lack of the column was due to his brother Frank being on a vacation. . . . Danelda Dotterer is going to look first and speak afterwards. It seems Danelda was going to have a rolling operation performed by someone other than who had made the offer. . . . Realizing the benefit a person living in the city can get by spending a few hours in the country, Argend Denney is extending invitations to certain fellows in the office to come out on Saturday and Sunday to enjoy a restful day in the country. Of course, Argend doesn't mention the fact that he is now engaged in evacuating the basement under his house and it would be by sheer accident that he would have a pair of overalls for his visitors. In case you accept the invitation, don't say we didn't warn you ahead of time.

A music critic says good music is heavenly. The kind that comes from next door usually is unearthly.

Elex Club Journeys To Chicago's Railroad Fair

Two hundred Elex members and their friends boarded the Nickel Plate train for Chicago Saturday, Sept. 24, to see the Chicago Railroad Fair. The above layout shows some of the scenes taken on the way nd at the fair.



In the top row, first picture, are the girls boarding the train early Saturday morning. Next is Betty Puff shaking hands with Genial Joe, who surprised the girls by calling them by name (thanks to Irene Meyers behind the scenes). An old train for the Atcheson, Topeka and Santa Fe is pictured in the third photograph.

Second row: It's all aboard for the fair. Posing by one of the old locomotives are: Rachel Fisher, Virginia Stefan and Mabel Liggett.

Third row: Another group is getting on the bus in Chicago for the fair. A pretty scene was the reproduction of the Bok Singing Tower, in the Florida exhibit. Some of the girls got a "sailor's eye view" of Chicago on their boat ride around the harbor.

Fourth row: A number of the Elex-ites took time out to pose while looking at an exhibit in the Eastern Railroads display; Thelma Stone, Bldg. 18-1, and Betty Garber, Bldg. 4-6, are getting forty winks on the way home; while the picture at the right shows another group of Elex members enjoying one of the displays.

Fifth row: Elex members are shown viewing one of the displays; Alice Dahman, Bldg. 4-5, and Betty Puff, Bldg. 4-6, catch up on their rest back to Fort Wayne; and this museum piece was part of the Atcheson, Topeka and Santa Fe exhibit.

That was some downpour on Monday morning. Such a way to start a week. Everyone looked so wet and dis-spirited that Monday really was a blue one. . . . Those red feathers sure give their wearers a bright, gay look. Did you get your mark of distinction yet? Better hurry. . . . Welcome to Virginia Harris who replaced Betty McPherson. Hope you like us and decide to stay a while. . . . Good luck and best wishes to Bill Hurtt in his new job at Columbia City. Don't forget the gang. . . . For that "Man of Distinction" look, see Walter Konow and his new pipe. Nice combination. . . . By the way, have you had your taste satisfied yet with that wonderful Fall favorite—cider? Better hurry. Time is a fleeting. . . . Better take a look at the Elex Christmas cards Marian Leiter has; they may be just what you are looking for. . . . Several prominent names of our co-workers have made their way into the headlines of the vital statistics section of the morning newspaper. Only recently a new one was added and it wasn't Ray Solga this time. If you haven't heard by this time who it is, I don't think I should tell you, however our private sleuth found Carroll Elder in a local bakery trying to arrange to have a cake baked with a hack saw blade in it. Would that give you a clue? Carroll says he doesn't want Ray to hog all the limelight. "Good morning, Judge" or "Have a cigar, Judge," is getting to be a familiar greeting now-a-days. . . . Everyone was expressing their sympathy to Cy Seymour after Boston lost the final game to the Yanks. Cy still is using last year's alibi as to the size of the ball park at Boston and New York. More people can crowd into Yankee Stadium than can get into Fenway Park, so the old dollar sign still prevails and determines the winner. . . . Larry Reed is down on the Tigers until next year. They lost third place to the Indians. . . . Wanted At Once (Before squirrel season ends) One large cow bell to hang on Don Kruse's neck to keep him from being lost from 9 a.m. to 2 p.m. while recently chasing a barking squirrel through a large woods near Portland. He finally came trudging in after being directed back one mile by a local farmer. . . . If anyone sees a 1949 Chevy coming down the street, you better get out of the way; how about it, Les Dafforn? . . . We want to wish a happy birthday to Al Middaugh whose birthday was Oct. 4 and a belated greeting to Les Dafforn whose birthday was Sept. 21.

Second Shift Members Of Elex Arrange Tour

The second shift members of Elex Club will open the fall season with a tour through the local Coca-Cola plant. They are to meet at the plant, corner of Pontiac and Lillie streets, at 11 a.m. Thursday, Oct. 20.

Following the tour, the group will have a luncheon at the Ace Cafe. Special favors will be given at the meeting.

Tickets for the affair are $1 and can be obtained from contact girls. Reservations must be in no later than Friday, Oct. 14.

Celebrates 30th Anniversary

Isabelle R. Hausbach, Bldg. 26-2, celebrated her 30th anniversary of G-E service Sept. 25. She is seated (left) showing her 30-year certificate to Helen Brindle. Looking on are: (l. to r.) H. F. Briggeman and A. J. Lange, of the Specialty Transformer Purchasing division.

The Apprentices took top honors in the G-E Interdivision Softball League when they downed the Works Lab in a 2 to 1 thriller. Don Dimke pitched his best game of the season as he scattered three singles. The Apps though able to get only the same number of hits off Paul Beltz, took advantage of three walks and a hit to score their two runs in the first inning. The players are hanging up their spikes after a successful year in which the team had a record of 25 wins and nine losses. The teams leading hitters were John Leffers batting .360 and Warren Berkheiser with a .350. Marc Junk led the team in the RBI column with 27 and Kenny Zurbuch was the leading pitcher with a 14-5 record, Kenny also led in strikeouts with 98 for the season. Let's all congratulate Frank Woenker and our team on their championship. We thought all along that they were the best. . . . With sadness the Transformer Drafting section says goodby to Frede, but they think Motor and Generator is getting a good man. . . . Dick Wagner says as far as he is concerned the draftsmen can go without their checks, since they showed disapproval of last week's bearer. . . . A rumor is going around that since Brownie has a house that he is expecting some of his "buddies" to have a party in his honor—at his house. . . . If Brownie has no phone, at least he should be able to get some sleep without Frede or Schmidt calling to ask what time it is. . . . An embarrassing moment occurred to one of our instructors on a Sunday morning some few winters ago. He strolled into Sunday School, noticing that a fair attendance was in prospect. As he reached the coat rack and removed his top coat, he realized that he had failed to put on his suit coat over his vest. So there he stood wondering what to do. He solved the problem by removing the vest and attending services in his shirt-sleeves. That was one Sunday that everyone noticed that Dick was in church. . . . The fleet's in—Dick Gebert and Don Konow have returned from their week-end navy cruise safely. It is reported that both our sailors became very lake sick. That wasn't unusual because even the crew became ill after Prof. Gebert had taken over the wheel and went swaying over the course. It seems that in the Navy they believe in doing good deeds too. Dick pitched in and helped Don wash a few million dishes so they could go on shore leave together, but Don's whole evening was ruined he was so self conscious of his dishwater hands.

The sun comes up, and
The sun goes down.
I ask the boys for news
They turn me down
Life gets tedious doesn't it?
"Tex Miller"

Congratulations to Mr. and Mrs. Gilbert Burkhardt who are the proud parents of a baby boy. His name is James Lee. . . . Birthday greetings of the week go to Bob Crick and Charles Brown who is retired. Pat O'Brien helped him celebrate at Lake George fishing. . . . Bud Kissinger is now a member of the wrong side out club of Bldg. 4-5. He came to work recently wearing his shirt wrong side out. . . . Roy Woods (farmer or gardener) displayed his freak tomato formed like a chicken. . . . Mabel Beatty claims she was lucky for the first time. She won a wrist watch recently. . . . We hear from a very unreliable source that when Leonard Jenne stopped at the hospital to visit a friend, an interne mistook Leonard for a patient. . . . The co-workers express their sympathy in the death of Don Coolman's mother.

News from Bldg. 18-4: We are happy to report that Dorothy Long, who is a polio victim, is now on the mend and can receive visitors at the St. Joseph Hospital. She will be very glad to have visitors now as we know the days are long for her. . . . Carl Brandt and Fred Andrews had to take several days toll with the influenza (or what ever the 1949 version of the malady is). . . . We extend our deepest sympathy to Al Tharp in the death of his mother, Mrs. Amos Tharp. . . . Bldg. 18-3: Peter Kuttner returned Monday from a vacation, and James Craig spent part of his vacation in Chicago and the remainder—just relaxing. . . . The marriage of Vivian Eller was solemnized Sept. 24 at Marion, Ind. The reception was held at New Haven. . . . The Notre Dame game played in South Bend two weeks ago was attended by at least three G-E employees from this floor, Joe Wauro, Clara Theisman and Joann Springer. . . . Jerry Snowberger was ill a couple days last week. . . . Betty Carter will be married Sunday, Oct. 9. . . . Question—Was Robert "Archie" Archibold so engrossed in feeding the pigeons in front of the Court House recently, that he forgot to get on the G-E Special? . . . Bldg. 18-1: The Payroll girls braved the weather last Monday night and enjoyed a wiener bake—from all reports the party must have been a huge success. . . . Visitor from Florida: Janet Van Auken Leeper recently from West Palm Beach, Fla., visited Payroll friends last Wednesday. She was proudly displaying a picture of her young daughter. She is sweet too! . . . Jean Rose recently visited the Railroad Fair in Chicago.

Red Feather

To be sure the red feathers are small, but isn't it a satisfaction to see so many of them being worn throughout the plant? "Care Enough to Share"—To those of you who are not wearing the symbol, why not think it over? I am sure you will be pleased with the satisfaction it gives you—just knowing that you are helping someone else. A trip down to the Day Nursery will help you reach a decision if you are in doubt.

"Tremblin' In The Kremlin"

Next Wednesday through Saturday, there will be Family Night for the General Electric Employees—nine shows in all. In addition to "Tremblin' in the Kremlin" they will present—"Our Family Album" and "By Their Works." This is all a part of the Charlie Wilson Golden Anniversary program. Do not overlook the opportunity of (1) to see a well planned entertainment, (2) to join in the Wilson Anniversary festivities, and (3) to bring your family to the G-E Club. . . . My appreciation to Donald E. Rust for the following—

Every Day
Do more than exist, live
Do more than touch, feel
Do more than look, observe
Do more than read, absorb
Do more than listen, understand
Do more than think, ponder
Do more than talk, say something.

CLOSING DATE FOR NEXT ISSUE
Monday Noon, October 10, 1949

LOST AND FOUND

FOUND—Two keys in brown leather key case. Found in Bldg. 4-1.

FOUND—Pair blue cloth gloves. Found on west side of Broadway by Bldg. 19 gate.

FOR SALE

CUTE PUPPY—Part scottie, part terrier. H-90481.

HIGH CHAIR—Solid maple, $6. A-76304.

GIRLS' CLOTHING — 8-12 years; Boy Scout uniform. H-69081 or 4318 S. Wayne Ave.

BOY'S BROWN OVERCOAT—Size 14, good condition; also boy's tan sport coat, size 14, good condition. A-19442.

PAIR 1" STARETT MICROMETERS—Like new. Columbia City phone 260J.

FLOWERS — House plants, perennials, corsages, wedding, funeral, holiday pieces, graduate floral designer, free delivery. New Haven 7763 (no toll).

JONATHAN APPLES — $1 bu., bring own containers. 1125 Clara or A-87012.

1936 STUDEBAKER—With heater, original finish, very low mileage, clean. H-9398.

FOR RENT

SLEEPING ROOMS — Near Broadway plant. 2146 Fox Ave.

TRANSPORTATION

WANTS RIDERS—Dale Grigsby, from Columbia City. Works in Bldg. 26-2 from 8-5:15. Extension 753 or phone Columbia City 260J.

WANTS RIDE—From Waterloo, Pauline Badman. Works in Bldg. 4-6, from 8-5:15. Extension 408.

Partizans Announce Fall Harvest Party

The Partizan Chapter of Elex will hold a Fall Harvest party Tuesday, Oct. 18, at the G-E Club building. The program will begin at 1 p.m.

Nora Kern is chairman of the afternoon. Assisting her are Lola McCague, Louise Heine, and Lois Henry.

Tickets for the second annual chapter banquet will be on sale that day for $1.45. The dinner will be held at the YWCA Tuesday, Nov. 15.

The eyes of America are on New York this week-end as the New York Yankees and the Brooklyn Dodgers battle for the World Series. Not even the football games can take any of the color away from King Baseball until the last side is retired. . . . According to the latest safety badges, if we had 1,000,000 man hours without a lost-time accident and this was divided evenly, each of us would have a lost-time accident once in 207 years. If you could go that long after 207 years, you wouldn't care. . . . Are you using the proper tools for your job? If you are using tools that are worn and not doing a proper job, contact your foreman. He would rather write a new tool order than one for the dispensary. Let's make this a safe year. We are on the last lap. . . . Bob Walt has joined the Floorwalkers, Inc. since Karen Sue is issuing her calling cards from the Walt residence. We think Karen Sue is a very lucky girl who Bob and Marie has opened their hearts and home and taken her as their adopted daughter. I'm sure her new papa and mama will give her a wonderful home. Also congratulations on the blue bootied tax deduction of the Walter Hart home. The mama, Frances McCague, was a former co-worker. . . . FAMOUS SAYING: "Joe, what pretty blue eyes you have." . . . MYSTERY: Why does Hershel Case stargaze out the south window? . . . EXCITEMENT: All the excitement back in the lead section was due to the fact that Velma Seibt suddenly found herself 750 smackers richer than when she came to work. . . . Ocie Allen, Neoma Bodle and Delbert Thomas were last week visitors. . . . We thought Mary Wright was coming out with a new kind of corsage. It was just paper slips pinned to her dress for reminders. The string around the finger method must be on its way out. . . . It's a happy birthday to Lucille Allen and Gertie Beekner. . . . Walter Kryder changes his ties so often that he hasn't even time to remove the price tag. Bow ties are short, but last longer, Walter. . . . THE UNUSUAL HAPPENING: We hear of people hooking fish, and the fish eventually end in our tummies. Floetta Zartman is different. The fish hooked her, and she ended up in the emergency room of the hospital. . . . Rosella Farrell has joined the "I gotta new car" club. It's a Buick. Hedy Harrison was seen helping her enjoy it. . . JoAnn Kemery was lucky at bingo. If you are hungry for cake, maybe she will help you. . . . Ivah Grandstaff spent last week-end at Terre Haute visiting her daughter. . . . Bertha Bertsch had the wrong lunch the other day. She didn't discover it in time to keep Nettie Huhn from going out to buy another. . . . Lucille Allen must have had too much Chicago, because she had it in the neck last week. . . . Mary Shumm celebrated her wedding anniversary last Wednesday. . . . Several girls have heard from Lowella Koogle. She finally found an apartment and she also has a job at the RCA. We hope you like your new home and job. . . . Martha Rice thought she was seeing things. The sun shining on the crystal snaps of her purse was the whole cause of the smoke scare. . . . Margie Drake must have started morning exercises. She has a monopoly on the rubbing alcohol bottle these days. . . . Have you noticed that the girl who writes "Behind the Cracker Barrel" changed her name since her last column? Wish you lots of happiness, Marie. . . . Congratulations to our new Elex president. Let's all help to make Mary Leiter's year a good one.

One test of bigness is in doing little things in a big way.

Erxleben Enters Retirement

August J. Erxleben is shown, above, relaxing at his home on Sinclair St., after his retirement Sept. 1. He first started working for G-E in 1927 as a helper in Bldg. 4-1. He has worked in Bldgs. 4-4 and 6-4. When he left for retirement, Mr. Erxleben was employed in Bldg. 4-4.

Why everyone wants to pick on me I don't know, but last week I came back to my bench and found a box of shavings and a sketch with a note stating that was the way the job came out. I didn't think the bore being larger than the O. D. would make that much difference. One inch shouldn't make too much difference, or should it? Maybe someone was waiting for an opportunity to get even. . . . Ralph Solt made arrangements to take Glenn Miller home in his car and after getting to Glenn's home and stopping to let him out of the car realized he had left Glenn stranded at the shop. Glenn had to call his wife to come in and get him. Then the next morning Ralph forgot to stop and pick Glenn up on his way in, or rather Ralph failed to come in to work, leaving Glenn stranded again. . . . Walt Schelper celebrated another wedding anniversary last week. . . . Ray Bowers has been telling all the fellows about that new Nash he has purchased. What we want to know is when he is going to unveil it as he is still driving the same old car to work. . . . Dewey Erne was a bit peeved last week by not being able to have the whistle blow in order to save him and his partner Bill Johnson from being skunked, but that pleased Louie Watt and Ernie Brown. . . . Fred Vietmeyer had his name on the front pages of the Works News for considerably less than $160. Anyway, we hope the guilty culprits are caught. . . . Arnold Engle sawed a piece of steel in the big saw and then put the remaining piece of material back in the stock rack. Returning to the saw, he found his piece had vanished. After accusing all his co-workers and making various threats as to how he would get even he went back to the rack to saw another piece. Was his face red when he found the saw had failed to completely saw through the material and there was his piece of steel still on the bar. . . . Ozzie Nahrwold being one of the early birds to work, was quite conspicuous by not getting in at his usual time the other morning. But just as the whistle blew, in blew Ozzie who had a flat tire on his way in. . . . There was a cartoon of various types of fishermen on the bulletin board the other morning and someone had assigned some very appropriate names to some of the types including Louie Watt, Paul Boedeker, Bill Johnson and Hot Rod Deveny. Deveny had told Louie Watt last Friday he would eat all the heads raw of all the pike he could catch over the week-end. There was a sack with a pike head on Russell's bench Monday morning, but Russ backed out, claiming a foul, it not being the particular pike that Louie caught. . . . Birthday greetings this week to John Repine and to Dave Bartle who I missed in last week's column.

Inquiring Reporter:

IN YOUR OPINION, WHAT IS THE GREATEST CAUSE OF INDUSTRIAL ACCIDENTS?

DEWEY WICKLIFFE

Bldg. 19-2

"I think the largest percent of accidents are due to carelessness. They are not always the fault of the individual involved, but through the carelessness of someone else."

WILLIAM GRIM

Bldg. 17-1

"I think one of the greatest causes of industrial accidents is doing the job the wrong way, instead of taking a little more time and doing the job safely. Short cuts often lose more time than they save."

ROSIE THOMAS

Bldg. 20-2

"Thoughtlessness, lack of personalized safety instructions, and disregard of safety rules."

ALMA KURTZ

Taylor St.

"I think the greatest cause of industrial accidents is carelessness and disregarding safety rules."

WHEELER A. GOBLE

Bldg. 24

"I think the greatest cause of industrial accidents is carelessness—too much of a hurry to get the job done, faulty equipment, and not using safety devices."

100 G-E Golfers Compete In Blind Bogey Tournament

A field of 100 G-E golfers played Saturday, Sept. 17, in the Blind Bogey tournament at Brookwood golf course.

The first prize, a membership ticket for 1950 presented by the owner of Brookwood, was won by Harold Mosshammer of Taylor St. The medalist prize went to Willie Adams for his effort of 73. A prize of two golf lessons was awarded to John Lea, Bldg. 26-5, for high score of the day.

In the group whose scores ranged from 70-90, winners were: C. A. Anderberg, John Skevington, Al Reynolds, Roland Wickliffe, Lloyd Grider, Ray Hills, J. Wichman, Bob Hall, Walter Sunier, and G. Ludeman.

Winners in the 91-100 group included: Bob Dent, R. Smith, A. W. Lee, Bill Purman, Lloyd Garland, W. Miller, Don Dimke, Ray Rogers, Lew Davis, and Stan Marquardt.

In the remaining group for scores of 101 and over, prize winners were: Wolf, Taylor St.; Horstman, Bldg. 19-2; A. Black, Joe Rowan, Bernie English, E. E. Kester, Walt Pohler, C. H. Nicholson, F. J. Gnau, and Bob Knepple.

Merchandise certificates were mailed to the winners.

Prizes in the cash hogey were drawn by Bernie English, Emil Ponsot, Forest Carlson, and Jack Jennings.

The league championship playoff was also held Saturday.

Shown in the layout of pictures, above, are:

(1) Denton Manecke, manager of the G-E golf leagues, is shown (second from the right) with Bill Kaiser, Harold Braden, Bob Dent, and Bill Miller.

(2) John Skevington, Winter St., makes an attempt at getting out of the sand trap. John recorded one of the low individual scores, 82.

(3) Walter Lamboley fishes one out of the stream.

(4) Leon Lahrman approaches the green.

(5) Bill Kaiser and Harold Braden prove there's more than one way to get the ball in. From left to right are: Bill Kaiser, Bill Miller, Roland Wickliffe, Harold Braden, Bob Dent, Leon Lahrman, Don Dimke, and Lew Davis.

(6) Putting on the green are: (l. to r.) Bob Aldrich, John Winstel, Myron Cox, and Ray Horstman.

(7) Lew Davis brushes out a mental hazard obstructing the way to the cup for Bill Miller. The critical audience includes: (l. to r.) Harold Braden, Leon Lahrman, Roland Wickliffe, Don Dimke, and Bill Kaiser.

MEDICAL MEMOS.....

by Mary Heymann

October's bright weather has arrived in all its glory. The crisp, invigorating air helps to lighten our spirits and make our walk more brisk. Even before World Series history has been made, King Football ascends the throne to begin his reign. Mabel Wilson attended the Ohio State-Indiana football game at Columbus, Ohio, last Saturday. . . . Alta Bishop Mayle was called to Toledo last Thursday because of the illness of her brother-in-law, Howard Rittenhouse, age 35, a victim of polio, who has been placed in an iron lung. Mr. Rittenhouse is the father of four small children. . . . Mary Heymann attended the annual reunion of the class of '42, of the Methodist Hospital School of Nursing, held October 2, at Rushville, Ind. . . . "IT'S A BOY": Steven LaMar—and his mama is Maurine Snyder Nail; also Michael Terry, who arrived at the June Edsall home. Both mamas were former nurses of the Medical section. . . . Bertha Schrader has returned to work after a week's absence on account of flu. . . . Wedding bells will soon be ringing for Mildred McCollem, former clerk in the Dispensary at Taylor Street. Her new home will be in San Antonio, Texas, where her husband is in business. . . . Drs. Harry W. Garton and Harvey L. Murdock, attended the Indiana State Medical Association's annual convention held in Indianapolis last week. This year marked the 100th anniversary of the organization and we wish to offer our congratulations. . . . FOR SALE: 1941 2-door Chevrolet car, good tires, newly painted, but won't run without gas. See Mae Mulvane, Dispensary, Bldg. 21.

PENSIONER PARADE

Here comes the second section of the "Pensioners' Parade," and more is to follow during the weeks to come. Why don't all you retired gals and fellows jump on the band wagon and tell us what you're doing these leisure days. Remember this is your column. Send any items to the G-E WORKS NEWS, Bldg. 8-2. Or just give us a buzz on the phone, A-2441, Extension 441. . . . It's a happy birthday today to Edna Voirol. . . . In our first column, we didn't give Sherman Stilwell much credit for his marksmanship. The distance between the deer and him for hunting a la bow and arrow is 30 yards (instead of feet). . . . Tickets have been mailed to all pensioners for the Family Night next week. The slide film, "Our Family Album," should bring back memories to you concerning the plant way-back-when—before the elevation, the "Lights," Mr. McDonald, Jenny Electric, or our stand-by, Mr. Barnes.

Keghead REPORTS

We notice that the News-Sentinel has added a few more highlights to the column, "Spilling the Maples," which has helped the column. It is Keghead's belief that they made a big mistake when they omitted the 200 scores from the men's bowling reports. It's just like giving the baseball scores and not getting the box scores. Let's hope they go back to giving the 200 counts.

The Sunday edition of the Journal-Gazette, not to be outdone has come up with a very interesting column under the heading, "Kegler's Korner" (no, it's not by Keghead Kegler), which deals with intercsting bowling topics of the Fort Wayne area. Did you notice that the G-E tournament was listed as a major tournament?

All league secretaries are urged to turn in their league sanctions promptly at the club counter.

Please, bowlers, let's not see any more of this dropping of the hall on the runways, as was observed at the club recently. The Club has spent plenty getting the alleys in shape. Let's not ruin them by unneeded carelessness.

Open Alleys Saturday

The G-E Club alleys will be open for open bowling from 3 to 11 p.m. every Saturday starting Oct. 15. That same evening the Fort Wayne All-Star League will give an exhibition. The All-Stars will appear at the alleys every fourth week. A featured bowler of the All-Stars include G-E's own Eddie Kraft, 1949 state all-events champ (also G-E tournament all-events and singles champ). Others include Frank "Chick" Carr, Everett Scott Jr., Bob Ramsey and Porter Pace, to name a few. For an evening of bowling, come down and watch the hot shots and then take to the alleys yourself. You can't beat fnn at the old bowling alley.

Frank Mataya gave an exhibition at the club alleys last Tuesday evening between leaves. Vic Rump and Don Dimke took on the old pro in match games. Don lost 214 to 183, and Vic, running into split trouble, lost 192-150. Mr. Mataya had plenty of questions from the boys and the gab-fest was still going strong at 10:30.

G-E Masonic League

The Doric boys are out front in the league with a seven and two record. Just one game back come the Fellowcraft and Pillar teams. The Composite team holds high three game total and high single game, with scores of 2721 and 958.

Don Shultz acquired the league's first 600. Don rolled games of 161, 238, and 221 for a 620 total.

Two hundred scores for the past two weeks are: Art Hickman, 236; R. Crabil, 230; M. Martz, 226; Ed Crabil, 223 and 201; Marion Bailey and R. Dale, 215; B. Summers, 222; "Lucky" Garrett, 206; H. Briant, 204; E. Gilchrist, and N. Boerger, 203; D. Jones, 201, and C. Rastetter, 200.

Bob Kohlenberg got off of the 94 average he had the first week. He picked up 30 points this week.

Apparatus League

Not much to report here, but Blomker got 218, and Knepple, 212.

Apprentice League

Two hundred scores were kegled by: Don Dimke, 201, and Gotschall, 200.

Homer Carson claims he'll never clean his ball again. He just can't seem to keep it on the alley with it all shined up.

Interdivision League

The first week's scores ran pretty good, except for a few of the old pros such as "Dodo" Matthews, Walt Mertz and Hal Fanning, who seemed to have had a little trouble.

Andy Anderson, the league's new secretary, started right out with a 610 series on games of 222, 216 and 172. Herb Habig was just one pin back on counts of 231, 194 and 184.

Two hundred scores for the first week: Oscar Shelper, 213; Erv Haughk, 201; Leo Elward, 214; George Luedeman, 220; Les Shroyer, 204; Frank Iannelly, 232; Paul Billman, 224; Don Dimke; Art Seidel, 202, and Noah Kuntz, 237.

After the second week's bowling, the boys are wondering if Matthews isn't closing his eyes. He is running an all time low. (Bill Doehrman will be challenging him to a match game if he isn't careful.)

No 600 counts this week and very few 200 scores, as the pins seemed to havc gone on a "strike" (pun intended). Noah Kuntz led the pack of 200 scores with counts of 204 and 202; Hal Fanning, 219; Paul Billman, 202; Oscar Shelper, 200; R. Tobias, 200; Ty Cook and "Keghead" Shroyer, 203.

Our fireman of fame, Ernie Hanauer, has given up bowling. What a shame to run out of steam at such a tender age. Won't ma let you out any more, Ernie?

The Brouwer Tire and Battery team is having a rough time with team personnel this year. Walt Mertz, who led all G-E Club bowlers in average last year, was forced to quit the game. (Be looking for you back next year, Walt). Last week, Lowell Welker, another top-notch bowler was forced to go into retirement for a time by re-injuring his back. The old men of the team seem to just keep plugging along. Wonder where the fountain of youth is?

Office League

Last week Frankie Schlink blasted out the league's first 600 count, a 628 on games of 191, 215 and 222. Incidently those scores helped the Designers sweep three games as the rest of his team really hit the skids.

Two hundred counts were knocked out by Don Waldrop, 232; Don Pappert, 221; Ted Ross, 201; Erv Aumann, 212 and 201; Carl Hattendorf, 214, and Clarence Rump, 212.

This week Bob Kallmeyer came up with a big 636 count, on games of 221, 227 and 188. Bob Stout, of the Motor and Generator team, came through with two 200 counts, 203 and 201. Bob had been hollering that he just couldn't hit that double century mark.

Erv Aumann, with 200 and 225, and Wade Tyler, with a 228, rounded out the evening's 200 scores.

Standardizing is now leading the league with a 10 and two record.

Small Motor League

The alleys at the G-E Club were really sizzling in the Small Motor Bowling League Wednesday night. Flager had the big 600 series with a 191, 210, and 212 count for a total of 613 pins. Kammeyer came through with two big games, 204 and 200. Hinton got a 203 as did Lamboley. Whonsetler and Hoffman each had a 201. Aumann got 211, Worley and Billue had a big 209. At the end of the second week of bowling Team No. 5, Inspection, have really turned on the steam with five wins to only one game lost. Close on their heels comc Production, Office and Test Teams with a count of four games won and two lost. Anyone interested in learning how to throw a shadow ball is asked to contact Orval (Gutterball) Haver. Orval still insists that it was the shadow of the ball that knocked the No. 9 pin over in the 10th frame.

Decatur Bowling

G-E Fraternal League: Two hundred scores were rolled by H. Murphy, 247 and 203; G. Schultz, 206 and 201; C. McIntosh, 219; and P. Hoffman, 231. H. Murphy kegled the high series of 630.

Monday Night League: Cook rolled 223 and 215, and he also got a 585 series.

Women's League: F. Engle got 181 and Schafer bowled high games of 177 and 178. They also got the high series, Schafer rolling 522 and F. Engle, 449.

From what we hear, if the old and young could change places we'd all be happy.

Owl Basketball League Sets Practice Session

The second G-E Owl League basketball practice will be held Monday, Oct. 17, at 9 a.m. in tbe G-E Club gym. Players are requested to bring their own equipment.

Stanski Completes Season With Majors

Tony Stanski

Tony Stanski, former Central high school cage star, has just completed a successful season as short stop for the G-E Club's Major softhall team. In addition to his airtight fielding, Tony belted the hall at a sizzling .426 clip.

Apprentices Take League Championship

The Apprentice team won two straight games from the Works Lab in the softball playoffs to win the Interdivision League championship. Works Lab was the first-half champion team, and Apprentice won the second-half.

The first game was featured by Goeglein's home run, with two men on base in the seventh inning, to break up the ball game and give Apprentice a 5-4 win.

The second game was a tight pitcher's duel between Don Dimke, of Apprentice, and Paul Beltz, of Works Lab. Each gave up only three hits, with Dimke getting two of his team's three hits as Apprentice won, 2-1. Works Lab could get men on base, but couldn't score after their one run in the second inning. Apprentice got both their runs in the first inning. Rasor gave a brilliant performance in right field, making several difficult catches and five throws.

Apprentice also played independent ball under the sponsorship of Brouwer's Tire and Battery. They won a total of 25 games and lost nine for the season.

Box scores:

FIRST GAME

Apprentice	AB	R	H	Works Lab	AB	R	H
Goeglein,2	3	1	2	Warwick,c	4	0	1

Basketball Team Issues Last Call For New Players

The G-E Club industrial basketball team has scheduled practice sessions for Monday, Oct. 17, and Wednesday, Oct. 19, from 8 to 10 p.m. at the G-E Club gym. This is the last call for players, as tbe season will open early in November.

Fourteen candidates, three veterans and 11 rookies, reported for tbe first practice. On hand from last year's squad were Dick Bucher, Lew Goehring, and Dick Gettys. Jim Walley, former Purdue player, led the parade of newcomers. Ray O'Keefe, Skeets Lahrman, Gene Etter, Al Meyers, Bob Taylor, Bob Baals, Don Hower and Ed Trable were all outstanding players in the Interdivision league last year.

A flirtation is attention without intention.

When anyone in the office wants to be sure of the spelling of a word, they always go to Alma Witte and her big book. But we heard recently that she has started making up her own words. Alma, we bave enough trouble with the plain English language without you confusing us with new ones. By the way, Butch, Happy Birthday Oct. 12. . . . Now that the baseball World Series is in full swing, we have been having some heated arguments in the office. When Gordon Smith, George Bridges, Perry O'Neill and Hugh Neely get together it's just too bad. . . . Tomorrow tbe Supervisors and Foremen of Div. 17 are having tbeir annual picnic at Pokagon State Park. If they spend the day playing baseball, horseshoe and, etc., there are going to be a lot of sore muscles on Monday morning. Take it easy, boys. . . . Ed Scbotter's two granddaughters are visiting him from Tacoma, Wash., and he says the little Indians are really keeping grandpa busy.

Oswalt Scores Hole-In-One At Sales' Golf Tournament

A golf tournament was beld at the South Shore Country Club near tbe South Sbore Inn at Lake Wawasee Sunday afternoon, Sept. 25, as a part of the Sales Conference held by the Specialty Transformer and Ballast commercial organization.

During one of the rounds, W. F. Oswalt, Manager of Manufacturing for the Specialty Transformer and Ballast divisions, scored a hole-in-one on the fourteenth hole, which is 140 yards long with a par of three. Harold Briggeman, Bldg. 26-2; L. E. Gregory, Capacitor Engineer from the Fort Edwards plant; F. D. Reap, of the Pittsburgh office, and C. W. Kronmiller, Bldg. 26-2, witnessed the event.

Mr. Oswalt was presented with a half-dozen golf balls at the Sunday evening dinner for this golfing feat.

TOUCH FOOTBALL LEAGUE OPENS SEASON TUESDAY

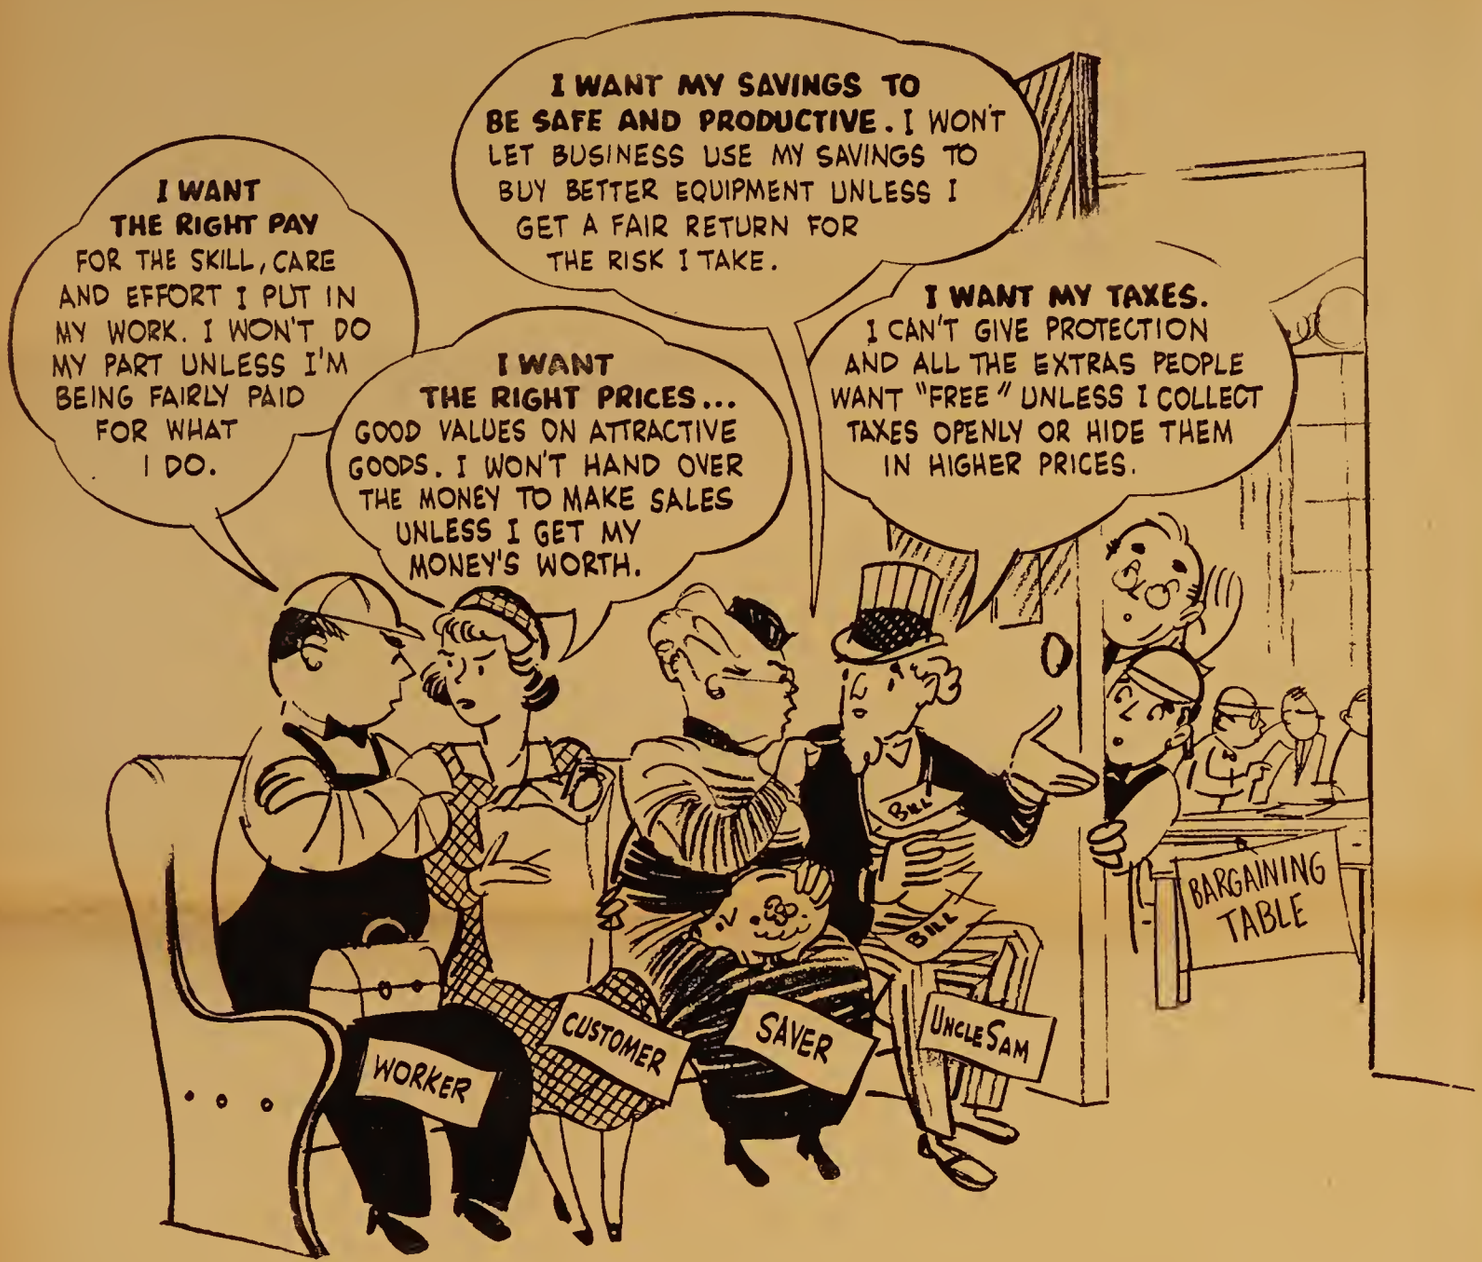
The Touch Football League will start the season Tuesday, Oct. 11, at 7 p.m. on fields one and two at McMillan Park.

The schedule is as follows:

Tuesday, Oct. 11

7 p. m.—Apprentice School vs. Test Engineers.

8:15 p.m.—Messengers vs. Firemen.
Works Lab. vs. Transformer.



Thursday, Oct. 13

7 p.m.—Apprentice School vs. Tool Division.
Test Engineers vs. Winter St.

8:15 p.m.—Messengers vs. Works Lab.
Firemen vs. Transformer.

Any players or teams wishing to participate in the league should see Dennis O'Connell, Bldg. 8-1, at the park.

Blessed are the deaf for they miss so much small talk.

The "Anxious Bench"

Management Officials and Union Officials inside at the bargaining table don't have just each other to suit. The real job is to satisfy "The Big Four" waiting anxiously outside. Each of that four has a part to play. But not one of them *can* play it—or will even *try*—unless he thinks he is going to get what's right from the others for what he does.

GENERAL ELECTRIC COMPANY

Community Chest Drive Exceeds Goal

Employees Contribute Over $46,000

Contributions from employees of the Broadway, Taylor St. and Winter St. plants exceeded the Community Chest goal of $45,000 last week by more than $1,092.

With returns still coming in, the total amount raised last week was $46,092.17, or 102.4 per cent of the goal.

The report by divisions of the accumulated totals is as follows:

FHP Motor Divisions	$19,371.44
Works Service, Contrib. Divs.	$12,850.24
Spec. Trans., Ballast Divs.	$6,844.99
Motor, Generator Divisions	$4,082.56
Winter St. Plant	$2,942.94

The percentages of the goal reached by each division, according to the quotas set were:

Works Service and Contributing divisions, 132.2 per cent; Specialty Transformer and Ballast divisions, 102.6 per cent; Fractional Horsepower Motor divisions, 98.3 per cent; Winter St. plant, 85 per cent; and Motor and Generator divisons, 75 per cent.

The following sections exceeded their goals:

Works Service, Contributing Divs.

Wire and Insulation Divs. 6 and 23, General Service Div. 48, General Tool, Accounting and Payroll, Production Service, Wage Rate, Administration, Personnel, G-E Club, Employees' Store, Broadway

(Continued on Page 4)

D. H. Hanson, R. L. Spitler Are Named To New Positions

D. H. Hanson

R. L. Spitler

Effective Tuesday, Nov. 1, Robert L. Spitler is appointed Superintendent of the Fractional Horsepower Motor Development Division 33, Bldgs. 17-4 and 2-3, to succeed D. H. Hanson, who is being transferred to the Schenectady Works.

Mr. Hanson studied electrical engineering in Europe and did design work in Norway before coming to General Electric. He first started working here in 1929 as a factory contact engineer in the FHP Motor division. Since that time he

(Continued on Page 3)

General Electric Resumes Negotiations With UE-CIO

General Electric resumed negotiations Wednesday, Oct. 12, with the United Electrical Workers-CIO after a lapse of 12 weeks.

The union negotiators came in with the statement that "the situation has not been standing still," but then spent the whole period of the brief meeting in repeating their original $500 package demand unchanged from what had been presented four months ago and then had been considered in detail.

The meeting adjourned after a brief statement by G. H. Pfeif, Manager of Union Relations for the General Electric Company, that the union's restated demands would again be carefully examined and that, at the next meeting, Wednesday, Oct. 19, he would give the union "a statement of the Company's position."

In closing the meeting at 10:50 a.m., Mr. Pfeif reminded the union negotiators that the work stoppage demonstrations that union officials had attempted to organize at some plants for 11 o'clock Wednesday morning, apparently in support of the bargaining commit-

(Continued on Page 4)

10 SUGGESTORS ARE GIVEN LIGHTERS AS BONUS AWARDS

The following 10 employees were presented G-E monogramed cigarette lighters this week as bonus awards for submitting suggestions on which the regular awards were $10 or more:

Amel Beck, Taylor St.; Arthur Gardt, Taylor St.; Homer Markley, Bldg. 20; Pete Helmer, Bldg. 20; James Turner, Tiffin; Ralph Begue, Taylor St.; Ben Fleek, Taylor St.; William Hunt, Decatur; Calvin Magley, Decatur, and Clarence Drake, Decatur.

SCHAPER STORE IS NAMED AS AUTHORIZED G-E DEALER

The Schaper Home Appliance store, 1622 Sherman St., has been appointed as an additional authorized G-E dealer with a full line of appliances, it was announced today.

As new 1950 models become available, the store will have the complete G-E line of home appliances for sale at employee prices.

This increases the number of outlets to serve employees in Fort Wayne and is particularly advantageous to employees residing in the northern section of the city.

As in the past, major appliances will continue to be available at an employees' discount at the two Schueler stores, 2126 Fairfield Ave. and 126 E. Wayne St., and Wolf and Dessauer appliance store, 133 E. Washington Blvd.

The Schaper and Schueler stores will have on sale the complete line of G-E major appliances at employee discount. Wolf and Dessauer handles the complete line, except for refrigerators.

Employees may purchase radios at a discount at the Schuler stores; Martin's Radio and Electrical shop, 1123 E. State Blvd.; Central Elec-

G-E Family Nights Are Presented

Boris Pavloff (center), a Russian spy portrayed by Alexis Rotov in "Tremblin' in the Kremlin," is forced to report to the Commissar of Visual Propaganda (Joyce Randolph) with his secret film in its pumpkin-vault in the comedy production which is being presented this week as a part of nine G-E Family Night programs for G-E employees, their families and friends, in the G-E Club auditorium. Two more performances are slated tonight at 7 and 9 p.m. and Saturday night at 8 p.m. The picture, above, was taken at one of the Decatur performances Tuesday.

G-E Club To Sponsor Fall Revue Nov. 5-6

The G-E Club will present its annual Fall Revue Saturday and Sunday, Nov. 5-6, it was announced today by Ralph Heminger, chairman of the entertainment committee.

Shows will be given at 7 p.m. and 9 p.m. Saturday, Nov. 5, and at 1 p.m., 3 p.m., and 5 p.m. Sunday, Nov. 6. Tickets will be available beginning Monday, Oct. 24, at the G-E Club candy-stand. Employees may get as many tickets as are called for on their membership card.

Taylor St. employees may obtain their tickets at the Personnel or Employment office.

"The Fall Revue promises to be an outstanding show," Mr. Heminger said, "as a variety of acts are being booked that will be enjoyed by both young and old. The booking agent for this show will again be June Darling, of Chicago, who has furnished us with a great number of fine shows over the past years."

The first act to be booked was Harold Gautier's poodles, in a 10-

(Continued on Page 4)

"Excess Baggage" is the title of the canine comedy act, which has been booked for the G-E Club's Fall Revue.

THE CHALLENGE

By J. Edgar Hoover
Director, Federal Bureau of Investigation

"... What doth the Lord require of thee, but to do justly, and to love mercy, and to walk humbly with thy God?"
MICAH 6:8

These three simple phrases set up an indestructible guide-post for human conduct. In clear and simple words they establish the essentials of decency. All are of the spirit—justice, mercy, humility.

The prophet's words are for the individual. "What," he says, "is required of **thee**," the individual? Their importance lies in the much-neglected fact that nations are but the sum total of all the people.

No nation grows in greatness save through the wisdom, the determination and the vision of individuals. Each victory of man over the tyranny of absolute authority in government is the triumph of leaders who know justice, are merciful and are humble before God.

Today the conflict between freedom for the individual and rigid authority for the state is in eruption throughout the world. Peoples who had struggled for generations to gain precious liberties are thrust back into the darkness of materialism and oppression. At every hand the way of the democracies is challenged by fresh aggressions upon the human spirit.

Sometimes these present problems seem beyond the power of any single man to cure. Yet if each follows the simple truths of the prophet, we can all influence the outcome. It is for us, who rejoice in the blessings of freedom, so to live our lives that, as a nation, we are an example to the world. We can then restore peace and dignity to mankind.

The BIBLE Holds The Promise Man Can Make This A Better World

"Whatsoever ye would that men should do to you, do ye even so to them." "For what is a man profited, if he shall gain the whole world and lose his own soul?"

Expressed in other words and presented in various forms, these two passages represent the underlying philosophy of righteous living and human happiness. Taken to heart and made a part of your life they stand as a bulwark against the gnawing of greed, the frenzy of intolerance and the corroding sin of selfishness.

The Bible contains many other searching truths and given many other directives to those seeking enlightenment for a life worth living. Lonely people, burdened people, despairing people search it for strength and courage. Anxious people seek light for judging these times of spiritual tempest and earthquake.

The nation is observing National Bible Week, Oct. 17 to 23, and it might well be made an occasion for refreshment of the spirit through reading the Holy Bible. Too many of us have let the Bible remain unopened too long and have thought there might be easier and more attractive ways of satisfying the soul. But in the moments of real resting there is no substitute for The Word.

It is apparent that the need for the teachings of the Holy Bible becomes greater and greater in these days of alien, godless ideologies—therefore, what greater need could there be than to set aside a specific time in which to observe and take heed of those teachings—at least one week out of 52 in the year.

The Need For Integrity

"Many years of soul-searching experiences have convinced me that one of the greatest needs of our country in the industrial and commercial ranks—likewise in the professional and in the ranks of government—is for more and more men and women of unquestioned integrity—that strict individual integrity which puts honor before all else in the relationships between workers and employers—between institutions and individuals—between doctors and patients—between bench and bar—between statesman and citizen."

—Charles E. Wilson, President

It's Your Federal Government

Our $500 Million Post Office Loss

By Rohert L. Johnson

Editor's Note: Following is the second in a series of articles describing the major findings of the "Citizens Committee for the Hoover Report." These articles are written by Robert L. Johnson, President of Temple University and Chairman of the committee. The committee is a voluntary, nonprofit, nonpartisan organization of leading citizens which has undertaken the task of informing the public of just what reorganization means and what the Hoover Commission recommendations, if enacted into law, will mean to each individual and to the nation.

If you feel concerned, as who does not in these days, over the vast increase in the cost of your government, and wonder about the reasons for it, you don't have to look beyond the U. S. Post Office for an object lesson in antiquated management, costly methods, and obsolete equipment.

As one of the world's biggest business enterprises with an overturn of $1.3 billions a year, it is the world's outstanding example of how business should not be conducted.

Naturally no private business could be so run that it showed an annual deficit. This year, the Post Office will go "in the red" for about half a billion dollars. This is one-sixth of the staggering sum of $3 billions which, according to the Report of the Hoover Commission, our government is wasting every year.

Nor could any private business survive if most of its key management men were changed periodically with changing political fortunes. And certainly no enterprise could succeed in this day of modern business equipment which adhered, as the Post Office does, to obsolete and crippling methods of work by hand in sorting, stamping, checking and otherwise keeping track of 37 billion pieces of mail each year.

113 Years With No Change

This condition of the Post Office is nothing new. It has been going on for a century or more. In fact there has been no basic change in its organizational structure since 1836.

The first recorded instance of anybody criticising the management and methods was in 1889 when John Wanamaker, the Philadelphia merchant, was made Postmaster General. After looking over his Department, Mr. Wanamaker went to President Benjamin Harrison with a revolutionary proposal. He told the President that he would contract to take over the Post Office as a private venture, put it under strict business rules of management, and show a profit to government as well as to himself.

This offer was not accepted but it is notable that 60 years after the bipartisan Hoover Commission, which was unanimously created by Congress to investigate government spending and waste, after a year's investigation of various departments, made a similar suggestion. It was that application of business principles to the Post Office would save hundreds of millions of dollars. It could save $140 millions at once, the Commission pointed out, by modernizing the organization, methods and equipment. An additional $114 millions could be saved by fixing new rates on certain items.

Good Joh Under Conditions

The Post Office employees are doing a good job under adverse conditions. They are operating a huge business.

Its revenues are $1.3 billions a year. It employs 500,000 people. It operates 42,000 branches and maintains 24,000 buildings. It has a fleet of 10,000 vehicles, of which the average age is 15½ years. It transports and delivers 37 billion pieces of mail each year and conducts 800 million other transactions in money orders, etc. And it runs a savings "bank" with 4 million depositors with total accounts of $3.4 billions.

That certainly looks like good business. But here is the other side of the picture:

The Post Office sells you, and delivers for one cent, a postal card which costs it two and one half cents to print and deliver. This loss in a year amounts to $45 millions. It carries 1.6 billion pieces of mail free. It pays huge subsidies to large users of mail and to airplane, steamship and other carriers. It has no control over its own accounting and cannot tell you what its financial condition is within eight months of date.

Moreover, because of its outmoded methods of work, and meager opportunities for advancement, it has a tremendous turnover of personnel. Its control is so centralized in Washington that its 42,000 postmasters have little to say about the conduct of their branches and none about their finances. Postmasters are politically appointed.

Remove From Politics

The Hoover Commission suggested drastic changes to improve these conditions. First, it would take the Department out of politics. It would have postmasters appointed from the service on merit, simplify the 900-page book of regulations which is their guide, do away with hidden subsidies, and adjust the rates to meet the expenses.

There are three bills now before Congress to effect these changes. They are next in order on the Congressional calendar. It is time for you, if you are anxious to see these improvements, to write to your Senators and Congressmen and urge tbeir support of these bills. It will mean money in your pocket.

The Citizens Committee for the Hoover Report, a nonpartisan, voluntary group nation-wide in scope, was organized to carry on an educational campaign following the expiration of the Hoover Commission on June 12. It was suggested by President Truman in order that the work of the Commission might be kept before the public during the progress of the Reorganization bills through Congress.

The directorate of the committee indicates its nonpartisan nature. On the board are leaders in agriculture, business, education, labor, and veterans and women's groups without regard to party or other affiliations.

RED FEATHER
Questions and Answers

Editor's Note: The following is the second in a series of questions and answers regarding the Community Chest. An attempt has been made here to answer the many questions which have arisen from time to time concerning the activities and operation of the Community Chest and its 20 Red Feather agencies. If you have a question you want answered, send it to the WORKS NEWS, Bldg. 8-2.

Do hoard members, campaign leaders and solicitors get a salary or a percentage of the collection?

No! Absolutely not. Only a small staff to administer the year round planning, collecting, disbursing, accounting, interpreting and coordinating of this half-million dollar corporation is paid. All others serve voluntarily without any compensation. In addition they make generous pledges to the campaign!

Will the Red Feather agencies solicit additional funds again this year?

No. They are pledged not to solicit for operating expenses. They may solicit for building or other capital improvements only with special permission of the Board of Directors. None will solicit this year.

Committee To Consider Increase In Maximum Benefits Of MBA Plan

The MBA General Committee will meet at 9 a.m. Wednesday, Oct. 19, in the large conference room of Bldg. 8-2 to vote on proposed amendments that would increase the maximum benefits it is possible to receive from the Mutual Benefit Association. A comparison in condensed form of the present and proposed amendments to the MBA plan as related to benefits is as follows:

Article		Present	Proposed
XI (4)	Maximum payable for employees plus dependents in any 12 consecutive months—does not include death benefit of $200.	$800	$1600
	Coverage A—Employees Disability		
XI (5A)	Disability Maximum in 12 months	$3.60 per day—five days per week—$252.	$3.60 per day—five days per week—$252.
XI (5B)	Hospital Benefits	$6 per day for 27 days. Maximum in 12 months.	$7.50 per day for first 27 days. $5 per day for next 100 days.
	Hospital Extras	Up to $20 for each period of hospitalization.	Up to $50 for each period of hospitalization. Also up to $15 for each out-patient visit to hospital up to maximum of $50.
	Maximum reimbursement for above	Maximum of $182 in 12 months.	Maximum of $802.50 in 12 months.
XI (5C)	Surgical Benefits	Up to $175 in any 12 months.	Up to $175 in any 12 months.
	Coverage B—Dependents Benefits		
XI (6A)	Hospital Benefits	$5 per day for 27 days. Maximum in 12 months.	$6 per day for 27 days. Maximum in 12 months.
	Hospital Extras	Up to $20 for each period of hospitalization	Up to $40 for each period of hospitalization.
	Maximum reimbursement for above	$155	$202
XI (6B)	Surgical Benefits	Up to $131.25. Maximum in 12 months.	Up to $131.25. Maximum in 12 months.
XI (6C)	Maternity Benefits	Up to $50 for hospital and hospital extras and up to $50 for surgery.	$100 for normal delivery. $150 for Caesarean. $150 for extra-uterine delivery. $75 for miscarriage. Up to $25 for miscarriage where no hospitalization is involved.
XII	Weekly Deductions	$.50	$.55
	Class A—Employees	$.50	$.55
	Class B—Dependents	$.50	$.55

Three Are Commended For Best Records In Safety Reports By General Foremen

W. L. Greiner, Broadway; G. J. Nicole, Taylor St., and R. W. Boyd, branch plant, were named this week as having the best records as foremen in their respective plants according to the safety inspection reports of all general foremen for the second quarter of this year, it was announced today by Herschel L. Smith, safety engineer.

The reports contain the standings of each foreman, whose safety activities were analyzed by the general foreman of each division at the Fort Wayne Works. Those rating highest in their division or plant are as follows:

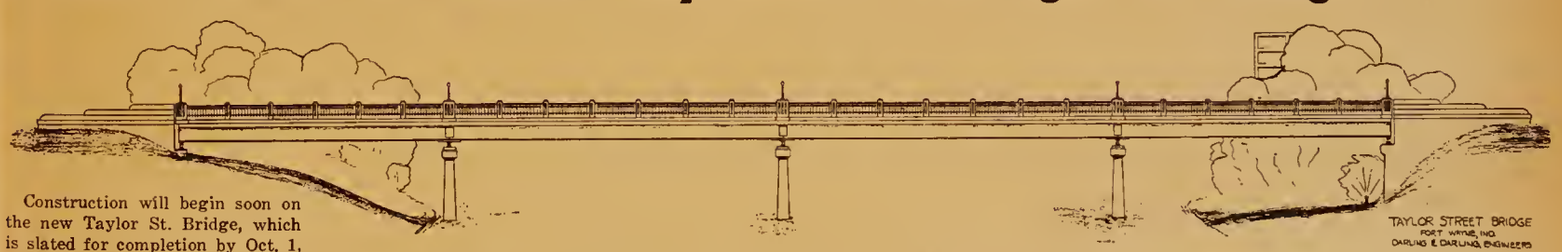
T. F. Bain, Div. 1; W. F. Walt, Divs. 19 and 20; W. L. Greiner, D. A. Bartle, Martin Kimble, and O. W. Rodenbeck, General Tool; P. G. Buell, Shipping and Receiving; J. C. Ruhl, W. K. Rohe, and V. A. Sheets, Wire Mill; E. J. Gebert, Insulation; L. T. Meyer and J. H. King, Decatur; R. J. Barnes, Apprentice; A. C. Braun and H. A. Misegades, Motor and Generator; R. W. Boyd, DeKalb; E. E. Kimmel, Div. 13; C. D. Shidler, Tiffin; T. M. Coxon and R. G. Oakley, Danville; R. D. Grove, Div. 94; W. F. Kryder, Div. 16; R. W. Keller, Theodore Budecki, C. E. Helms, and E. E. Sloan, Div. 17; L. H. Arnold, Div. 14; C. E. Elder, Div. 33; E. J. Schurenberg, Specialty Transformer; M. M. Macke, General Service; R. E. Morris, Div. 15; H. A. Hart, FHP Motor Testing, and T. W. Mullen, Div. 91.

New Positions

(Continued from Page 1)

has done cost reduction work, was a section engineer, a specialist on insulation, and did winding and process development work. In 1942, Mr. Hanson became the Assistant Superintendent of the FHP Development division. Four years later he was promoted to Superintendent.

Mr. Hanson is very active in engineering, civic, and school activities in Fort Wayne and Washington Township. He is past president of the Indiana Engineers' Council, Fort Wayne Engineers' Club and Squares Club. He is chairman of Boy Scout Troup 46 committee, and a registered professional engineer.



He is married and has two daughters. The Hansons reside on the Butler Road. His mother and sister reside in Schenectady.

An Apprentice School graduate, Mr. Spitler completed the machinist-toolmaker course in 1937. He then was assigned to the Tool division and later did tool designing in Bldgs. 4-3 and 4-4. In 1941 he was appointed Supervisor of Impeller Planning, Supercharger Plant at Taylor St. Since 1946 he has been Supervisor of Methods and Equipment Planning at the Tiffin plant.

Meeting Of Advanced Manufacturing Training Program To Be Held Here

Members of the Advanced Manufacturing Training Program will hold a meeting here Tuesday, Wednesday and Thursday, Oct. 18-20, and will tour various sections of the Fort Wayne plants.

Construction Of New Taylor St. Bridge To Begin Soon

Construction will begin soon on the new Taylor St. Bridge, which is slated for completion by Oct. 1, 1950. The Allen County Commissioners will advertise on Oct. 20 for construction bids for the bridge, which will improve conditions for G-E employees traveling to the Taylor St. plant.

As presented by Darling & Darling, engineering firm, the plans call for locating the bridge north of the present structure, which will permit use of the old bridge until the new structure is completed, as well as eliminate the present jog in Taylor St. at the bridge.

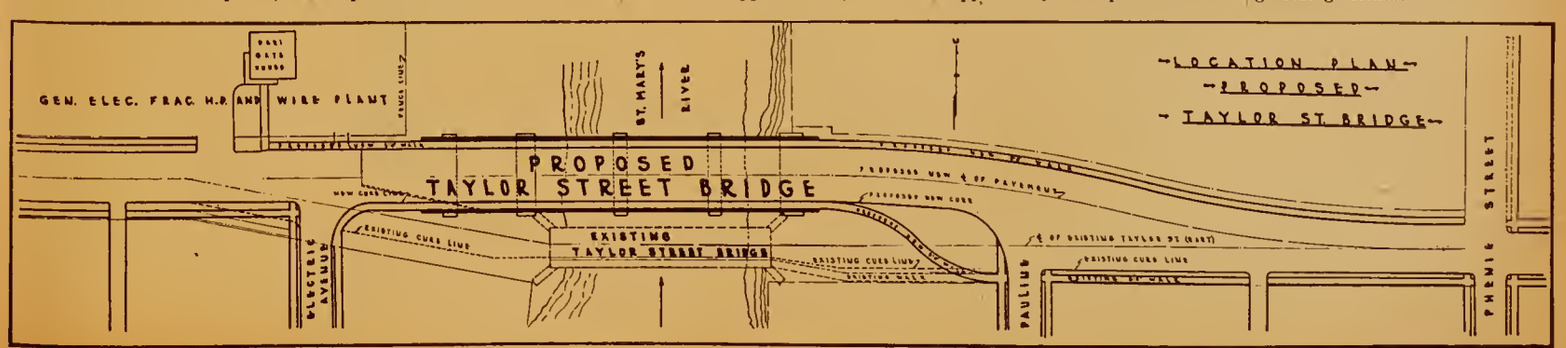
The engineers said three factors have been stressed in their plans for the bridge. They are:

Straightening out Taylor St. to eliminate the present jog in the street. Under the plans, the new bridge will match the west side of the present Taylor St.

Making a wider bridge. They compared the 40-foot width of the new roadway with the 25-foot width of the present bridge.

Removing the constrictions from the present river bed which is affecting the flow of the stream. They said this would be accomplished by the longer width of spans.

The center line of the new bridge, which is to be a four-span, continuous steel beam structure, will be located approximately 50 feet north of the center line of the present bridge.



The new bridge is to be 260 feet in length, with 30-foot approaches at either end. The 260-foot length will include two 72-foot spans and two 58-foot spans.

The 40-foot roadway of the bridge will be of seven-inch reinforced concrete slab pavement on 33-inch, wide-flanged steel I-beams, supported by three piers.

Plans call for five ornamental lights on each side of the structure and five-foot sidewalks on each side.

The engineers said the bridge would present a low, thin streamlined appearance, featuring concrete posts with ornamental steel panels between the posts.

The $240,000 span will be of the latest design known to bridge engineering science.

G-E Club To Present Fall Revue Nov. 5-6

(Continued from Page 1)

minute playlet titled "Excess Baggage." This is an outstanding and unique dog act consisting of five smart canines.

The second act acquired is the Machino Troupe, the world's foremost whirling acrobats. This group has been imported from Sweden for the third time since the war and from all reports is a sensational act. The troupe presents a spectacular routine of whirling acrobatics, tumbling, pyramid building, and other tricks which hold the audience breathless. They have been a featured act with Ringling Bros., Barnum and Bailey Circus.

Negotiations for booking several other acts are continuing and will be announced later.

The Machino Troupe, above, will appear in the G-E Club's Fall Revue at performances Saturday evening and Sunday afternoon, Nov. 5-6.

Tricks In Transformer

—FROM DIVISION 91—

Our friend and reporter, Johnny McMaken, who has been a patient at the St. Joseph hospital several weeks, is reported to have made a marked improvement and is allowed visitors. We are all hoping for a speedy recovery, Johnny, so keep up the old fight. After all, you've got to get this news out; I am just a pinch hitter. . . . It's just a rumor, but we understand Doyle Miller will not be taking in the Decatur Fair this year. Maybe Mrs. Miller has something to say about this. . . . Russell Moore, the man who catches those big lake trout from Lake Superior, brought in one of his artificial baits for the boys to see. But, John Laymon got the impression that the bait was the scales for weighing since it had an oversize hook on it. . . . George Horner, the man who does all the jobs regardless how dangerous, how ticklish, how tough or if it might be sometbing no one else likes to do, seems to be having a small amount of trouble with his lead pad work. . . . Bob Mennewisch and Gerald Crum are planning a water pistol duel in the near future. No definite date has been set for the event. . . . You all know Fred Thieme returned from his third week of vacation. The unusual thing about it was tbat he stretched it into three weeks of fishing—one week before and one week after. . . . Eddie Dauscher is collecting quarters on the side. If these ball games had continued any longer, Paul Noffze would have had all our quarters. He had been hitting above the average. . . . We have a new honey man in our group. It's Harold Franz. I am warning you that if you buy any of those apples from him don't try to eat them. Hard isn't exactly the word for them. . . . It's funny what people will do for sparetime work. Bob Mennewisch just established a business of cracking nuts. Don't let this end up like the barber did. (Check Marion Diehm.) . . . Our congratulations to Arnold Ley for being the first in our division to win a new cigarette lighter in tbe suggestion contest. . . . Sam Rhoads does like pets, but we begin to think the pets don't like Sam. Gerald Crum recently gave him a young coon. After it spent one night under tbe bath tub, Mrs. Rhoads suggested a better place, a corn crib, but it found its way out.

Halloween Square Dance Is Planned By G-E Club

A Halloween Square Dance is being planned by the G-E Club's entertainment committee, it was announced today.

The dance will be held from 9 to 12 o'clock Friday night, Oct. 28, in the G-E Club auditorium, and will be free of charge to all G-E employees, their families and friends.

Two attendance prizes and awards for the most unusual and funniest costumes will be presented. Music will be presented by Joe Taylor's Red Bird band.

The majority of folks go to a lot of trouble they should avoid.

AMERICAN WELDING SOCIETY TO HEAR TALK BY GILLETTE

R. T. Gillette will addrcss the Anthony Wayne Section of the American Welding Society at 8 o'clock tonight at the Chamber of Commerce. His topic will be "Resistance Welding."

His talk will follow a buffet dinner at 6:30 p.m. and entertainment by the Reddy Kilowatt Barber Shop quartet.

Mr. Gillette has been a member of the Schenectady Works Laboratory since 1902. He was instrumental in the development of electric furnace brazing at G-E. The Coffin Award was given him for his work on welding dissimilar metals with the use of Elkonite electrodes.

Elex President Announces New Committees For Year

Mary Leiter, new president of the Elex Club, announced today the following appointments to committees for 1949-50:

Mildred Clark, Winter St., will keep the president's scrapbook, while Margaret Taylor, Bldg. 4-6, will take care of the club's book. Loraine VonBehren, Bldg. 26-3, has been named poster chairman for the year.

The serving committee will be headed by Eva Tucker, Bldg. 16-1. Assisting her are: Loretta Bloom, Bldg. 26-5; Helen Bilskie, Bldg. 8-2; Hilda Walda, Bldg. 4-2; Veora Habig, Bldg. 8-2; Helen Miller, Partizan Chapter; Cora Polhamus, Bldg. 8-2; Ann Johnson, Taylor St.; Jo Alles, Bldg. 4-2; Rosamund Schooley, Tayolr St.; Olka Johnston, Taylor St.; Lenore Nohlechek, Taylor St.; Mable Miller, Taylor St.; and Helen Engle, Bldg. 4-3.

Lois Drewett, Taylor St., was appointed chairman of the committee to assemble the "Echo." Committee members are: Charlotte Stanford, Taylor St.; June Getty, Taylor St.; Wilma Williams, Taylor St.; Mary Wyss, Winter St., and Lucinda Pettit, Bldg. 4-5.

The Christmas card chairman is Helen Bilskie, Bldg. 8-2. Betty Puff, Bldg. 4-6, will continue as "Echo" editor and staff artist. The editorial staff consists of: Bess Brown, Bldg. 28-2; Ireta Huffman, Winter St.; Helen Wyss, Winter St.; Mary Ramey, Winter St., and Lois Drewett, Taylor St.

The Trotty-Veck chairman is Helen White, Bldg. 4-3, and the song leader is Deloris Patterson, Bldg. 18-4.

The conference committee is made up of: Mary Wyss, Winter St.; Lucinda Pettit, Bldg. 4-5, and Mildred Clark, Winter St.

Thelma Stone, Bldg. 18-1, has been named as contact chairman. Mary Vorndran and Mary Wyss, both of Winter St., are hostesses for the year. In charge of the memorial books this year will be Alice Fuchshuber, Bldg. 16-1.

Mamie Allen, Bldg. 4-2, will act as chairman of the utility committee. Her committee members are: Mary Sitko, Bldg. 4-5; Susie Jones, Winter St.; Ireta Huffman, Winter St.; Joan Vorndran, Winter St.; Justine Luyben, Winter St., and Dorothy Fuhs, Winter St.

The dance committee consists of: Eva Fisher, Taylor St., chairman; Suc Thompson, Winter St., and Marian Leiter, Bldg. 17-4. Betty Puff, Bldg. 4-6, will be the new card-party chairman with Alice Dahman, Bldg. 4-5, and Helen Brindle, Bldg. 26-2, assisting her. The Christmas boxes this year will be handled by Elsie Fabian, Taylor St.

The coffce serving committee consists of:

June Martin, Bldg. 4-4; Olive Lewis, Taylor St.; Zella Sheehan, Taylor St., and Alice Rodgers, Taylor St. Lois Miller, Bldg. 8-2, will be in charge of the reservations at the door.

Mary Leiter has also announced that the executive board meetings will be held the second Wednesday of each month.

Community Chest

(Continued from Page 1)

Cafeteria, Taylor St. Cafeteria, Dispensary, Works Lab, Technical Service, Apprentice School, and Service Engineering.

FHP Motor Divisions

Management, Commercial, Manufacturing General, Inspection and Test, Accounting and Payroll, Developmental, Taylor St. Shipping, and Engineering and Drafting.

Specialty Transformer and Ballast Divisions

Div. 39, Div. 81, Engineering and Drafting, and Financial.

A contribution of $12,000 from the General Electric Company also was given this week to the Comunity Chest by C. H. Matson, Works Manager. This made a total of $58,092.17, or 12.8 per cent of the goal for the entire county, to meet the needs of the 20 Red Feather agencies.

Schaper Store

(Continued from Page 1)

tric Company, 120 W. Jefferson St., and the A and Y Home Appliance Company, 2707 S. Calhoun St.

All minor appliances, clocks, table model radios, electric blankets, vacuum cleaners, wiring devices, motors, exposure meters, photoflash bulbs, radio tubes, and lighting fixtures are available at the Employees' stores.

There's plenty of room at the top . . . because someone always goes to sleep, and falls off.

Elex Officers Are Installed At Special Ceremonies

The newly-elected officers of Elex were installed Monday, Oct. 10, at the G-E Club. Irene Meyers, Elex advisor, conducted the impressive candlelight ceremonies. The above picture was taken during the installation. Left to right are: (retiring officers) Charlotte Stanford, Elizabeth Wert, Nellie Wendt, Helen Wagner, Helen Wyss, Martha Keokuk, Rachel Fisher, Mildred Clark, Irene Meyers, advisor; and (new officers) Bea Lantz, Alice Dahman, Geraldine Schmidt, Jean Smith, Mabel Miller, Lois Drewett, Jo Alles, Betty Garber, Helen Engle, and Mary Leiter. In the circled insert, Charlotte Stanford is pinning the president's pin on Mary Leiter, incoming president.

Negotiations

(Continued from Page 1)

tee, were in violation of the union's contract with the Company and hardly a basis for good relations.

Mr. Dermody, the principal UE spokesman, attempted to imply that the demonstrations were spontaneous rather than organized by the union, but he agreed with Mr. Pfeif that they had no intimidating effect upon the Company.

Five Complete Draftsmen's Course At Apprentice School

W. E. Berkheiser

Warren E. Berkheiser graduated from the Apprentice School Sept. 23. A graduate of New Haven high school in 1940, he joined G-E in 1941 and worked as a transformer repairman until January, 1943. At that time he entered the armed services. He was assigned to the field and pack artillery in the 71st Division, serving two years in the United States and a year overseas in France, Germany and Austria. He received his discharge in January, 1946. Mr. Berkheiser entered the Apprentice School in March of that year as a draftsman apprentice. He is married and has two children. He resides at 1007 Bell Ave., New Haven.

Sorry we were unable to find time to compile a column for last week. Cora Polhamus was quite disappointed because she said that since she is out of the office so much she is unable to keep up on the activities of her co-workers. Glad somebody missed us anyhow. We are indebted to Ceal Romary for writing the previous week's column. . . . Our thanks is also extended to Audrey Thomas for the lovely flowers which we find on our desks several times a week. They certainly brighten our corner. . . . Herschel Smith and Loyd Bodenhamer ate lunch at the Chamber of Commerce. When Herschel left a little early he walked off with Loyd's hat. Oh well, don't suppose his own would fit anyway since he was the dinner guest of the Governor recently. . . . Lois Miller caused several people to raise their eyebrows and perk up their ears when she tried to find a calendar which would give the date when there would be a moonlight night. In case you haven't heard, the personnel gals attended a wiener bake at the home of Iris Knapp, a former co-worker. We were afraid for a while that Lois should have consulted the weatherman, but everything turned out lovely. The group was pleasantly surprised when we arrived at Iris' home to find that Lorine Peters, another former co-worker, was there to greet us with her husband and year-old son, Stanley. The girls took turns holding the Knapp's little offspring who won the hearts of all. After enjoying the wiener roast, we made pecan ice cream. We learned that Irene Sprunger eats like a bird—a peck at a time. Ceal Romary, as usual, kept us all laughing with her witty stories and remarks. Has she told you the one about the gambler? If not, you are missing the laugh of a lifetime. At a late hour we started for home after resolving that we should do this more often. . . . Ruth Shull says "thanks" for putting our division over the top in our Community Chest Drive. . . . Mary Fening, Rosemary Miller and Florence Shultz from Decatur GeCode Club were the guest of Irene Meyers one afternoon last week. . . . Our sincerest sympathy to Don Campbell on the death of his grandmother. . . . Ken Michael went by our office on the double in an effort to catch a Taylor St. service car. When he returned his face was still red. Ken said he is getting too old for such speed. . . . Bill Allen and the Mrs. attended the Bears-Cardinal football game in Chicago Sunday and had a grand time. . . . Irene Meyers headed the group of Elex and Partizan officers who met at Valparaiso recently with officers from Decatur, Danville and DeKalb clubs to lay the ground work for the coming Convention to be held at the Palmer House in Chicago Oct. 15 and 16. . . . Ruth Shull and yours truly were among the many who cheered for Elmer DeBolt's daughter at the Bluffton Street Fair beauty pageant. Although their choice did not win, Ruth at least succeeded in winning a basket of groceries and the gals had a good time. . . . Did you hear bells ringing one afternoon last week? We had quite a time locating the cause. It was none other than a fancy old fashioned "belling" the co-workers gave to the new bride, Marie Kettering LaMons. . . . Orchids to Irene Ofenloch of the Employment Office who celebrated her 42nd anniversary with the G-E last week. . . . Laureen Procise was surprised when her son returned from school with this question, "Mama, I thought you said I was going to Adams School?" Laureen replied "Yes, sonny you are." He quickly remarked "Oh no, I'm not, I'm going to kindergarten."

Every man is rich or poor according to the proportion between his desires and his enjoyments.

R. M. Birkenbeul

Robert M. Birkenbeul was first employed by G-E in January, 1942, following his graduation from South Side high school. In 1943 he enlisted in the Army Air Corps and served as an airplane mechanic. He was discharged in February, 1946. Mr. Birkenbeul then enrolled in the Apprentice School as a drafting apprentice, graduating Sept. 16. He is married and has one child. The Birkenbeuls live at 1221 Fairfield.

R. D. Finton

Robert D. Finton finished his drafting apprenticeship Sept. 16. A 1940 graduate of Central high school, he began his G-E career in 1942 working at the Supercharger in tool drafting until he entered the armed services. He served over three years with the Panama Coast Artillery Command Headquarters and in the Southwest Pacific in the Combat Engineers Field Intelligence Corps. He was discharged in December, 1945, and entered the Apprentice School the following March. Mr. Finton is married and has one child. He lives at Roanoke, Ind.

Ruth Reed is on her third week's vacation and is spending some of it in Indianapolis at the Rebecca Lodge State Assembly. . . . Esther Walborn is on her vacation too. . . . Delphos Winters (he works in the paint booth on four) was on his vacation last week and didn't do anything too exciting. He informs me that he has another grandchild, a girl this time. . . . Anna Ruth Clements went to Racine, Wis., last week-end and had a wonderful trip though it was so warm. . . . Hazel Stauffer has taken up a new job, that of dressing dolls regardless of what the doll looks like. It may even have an apple for a head! . . . We welcome Delores Hartman, Luella Hockmeyer and Maudie Nordyke to 1x29 and Wilma (Krebs) Pfierman and Janis Egolf back. Marie DeVoe is back in 1x50. Ralph Waikel and Alva Hagy are new ones in 1x42. Glad you are all here and hope that you stay a long time! . . . Birthday congratulations to Bonnie Birely and Lem Clouse and belated greetings to Bonnie Wolf and Art Knoll. . . . To date Orville Coleman is a day late in returning from his vacation. Probably got too much rest last week and couldn't make it in to work today! . . . Louie Sauer is not grinding valves anymore, his new job is that of garbage collector! . . . Lorenz Korte drives a horse and buggy till he is a mile and a half from the shop and then drives his car. His car won't make it all the way so he has to rely on the good old horse! . . . Here is another story on Alva Foulks—he was bemoaning the fact that he had to get out the storm windows and wash them before he put them up when Evelyn said, "What storm windows?" She said they didn't have any and he said they did. He even went so far as to bet her two

L. D. Lahrman

Following his graduation from South Side high school, Leon D. Lahrman entered the Company's Specialist Training School in 1942 and was assigned to Bldg. 4-2. On March 12, 1943, he entered the Army and received training in the Engineers' Corps. He was sent overseas in September, 1943, serving in England, France, Belgium and Germany. He was discharged in December, 1945, and enrolled in the Apprentice School the next March. Mr. Lahrman resides at 3939 Buell Dr.

bucks that they did have some. His daughter said they had some and his son said they didn't have any. —so Alva checked and no storm windows! The funny thing about this is that they had the same argument last year! . . . Freda Farley is back again. Sure hope she keeps well for a long time now. Alma Doctor is feeling better and working again. . . . Merle Keesler is sporting a new Mercury these days. He is certainly putting the miles on it. That is one way of getting your money's worth, Merle. . . . Congratulations to Mrs. Thomas Krouse, formerly Eleanore Kohrman. We certainly hate to have you leave us but we know you will be very happy and wish you all the luck in the world.

110 Delegates To Represent Girls' Clubs From 7 Plants At Conference In Chicago

Delegates from Cleveland, Tiffin, Syracuse, N.Y.; DeKalb, Danville, Decatur girls' clubs, and Fort Wayne's Elex Club and Partizan Chapter will meet this week-end for an Interclub Conference in Chicago.

One hundred and ten delegates are expected to attend the convention, which will be held at the Palmer House.

The theme for the week-end is "Hand of Friendship," and a Friendship Dinner will be held in the Crystal Room tomorrow evening. The motto for the Sunday luncheon will be "Links of Tomorrow." The convention will be closed with the traditional candlelight service.

Buses will leave the Indiana Railroad Bus station at 7:30 a.m. Saturday, arriving in Chicago about 12 noon. The returning buses will leave Chicago between 3 and 3:30 p.m. Sunday.

F. C. Woenker

Frank C. Woenker came to General Electric in 1940 after his graduation from Central Catholic high school. He worked in the FHP Motor and Transformer divisions until Jan., 1943, when he entered the Army. Serving three years with overseas duties in the Rhineland and Central Europe, he was discharged in February, 1946. He entered the Apprentice School the following month and graduated Sept. 23, 1949. He is married and lives at 2815 Pittsburgh St.

Bill Altekruse celebrated his 32nd anniversary with the Company recently. Wonder why he didn't pass his cake around instead of just letting a select few in on it. . . . Louie Hopper tells us of his pleasant southern trip and of his visit with one of our former men in the Power Plant, Mike Brown. Mike, after serving in the Armed Forces, is now living very comfortably on a southern farm. He would like hearing from his former fellow workers. His address is Biloxi, Miss., R.R.D. No. 1, Box 82B. . . . Thought some of you would be interested to know that Edna Gage, formerly Edna Fritcha, was blessed with a 7 lb. 5 oz. baby girl, Nicole Diane. . . . We'd also like to congratulate Mr. and Mrs. Johnny Nail on the arrival of a baby boy named Steven. I'll bet Johnny's hat size has increased too. . . . The Community Chest Campaign showed fine results, thanks to Big Chief Red Feather Pierson.

Working Man?

Does anybody recognize Farmer Kreigh of Bldg. 20? That's Ray, with a lady's straw hat on, getting a workout at his farm. We think that bow under your chin is mighty becoming, Ray.

Five G-E Inventors Are Granted Patents

F. W. Merrill

A patent has been granted to F. W. Merrill on his invention of an improvement on the center-contact regulator for speed-regulated motors.

Mr. Merrill is a consulting engineer in the Fractional Horsepower Motor Engineering divisions, where he has been employed since 1922. His invention consists of a novel shaping of the regulator contacts to produce a rapid, forced vibration of the contacts. This serves to break up undesirable, slow speed oscillations of the regulator parts, which are the cause of serious current surges in the motor. The result then is increased heating and short brush life.

This is Mr. Merrill's twenty-second patent. United States Patent examiners ruled that the idea was different in 12 respects from anything similar ever previously patented or known. Mr. Merrill filed the patent application Jan. 3, 1947.

C. A. Thomas

The United States Patent Office has granted a patent to Charles A. Thomas on his invention of an improvement in the design of a Unicoil type of motor.

Mr. Thomas is a group leader in the Fractional Horsepower Motor Development Engineering division. He has been employed by the General Electric Company since 1935.

His invention permits the coil to be wound outside the motor and placed on the pole later without any unnecessary increase in the coil length. This is accomplished by employing an unsymmetrical depth in the design of the stator yoke.

The new design results in a considerable increase in the output of the motor for a given amount of material used.

This is the seventh patent which has been granted to Mr. Thomas.

P. S. Potts

Phil S. Potts has been granted a patent covering improvements in dynamoelectric machines. This patent covers an improved method of removing the cooling water from eddy current dynamometers. These dynamometers are used for testing various types of engines such as the common automotive engine which drives our present passenger cars. The dynamometer serves to load the engine and measure this load. The power delivered by the engine is converted into heat and this heat is carried away by cooling water.

The efficient removal of this cooling water has presented a problem; Mr. Potts has made improvements in this system which provide more efficient removal of cooling water from the machine.

Mr. Potts was graduated from Texas A and M in 1941. He came with the General Electric Company in July, 1941, and with the Motor and Generator division in 1942. Since 1942, he has been with this division as Mechanical Engineer and Design Engineer in the Dynamometer section.

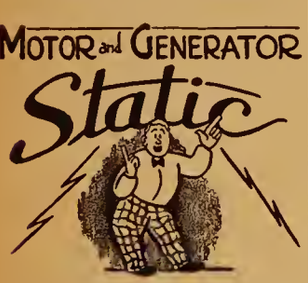
P. A. Berghorn

A patent has been granted to Paul A. Berghorn on his invention of an improved end-shield for fractional horsepower motors.

Mr. Berghorn is a group leader in the Fractional Horsepower Motor Development Engineering division. His invention consists of a novel interrupted rabbet on a die-cast end shield which eliminates most of the machining formerly required on cast-iron end shields. It is particularly advantageous on high-production items such as washing machine motors.

This is Mr. Berghorn's first patent. He was credited with 13 original ideas in connection with his invention, which he had filed application for on April 27, 1948.

Mr. Berghorn has been employed by the General Electric Company since 1925. An apprentice graduate, Mr. Berghorn is a past-president of the Apprentice Alumni. He has been employed in the FHP Motor divisions in various capacities since 1928.



H. M. Stephenson

A patent has been granted to Hugh M. Stephenson on his invention, combination ball-bearing and speed reduction device for small motors.

Mr. Stephenson is a group leader in the Fractional Horsepower Motor Development Engineering division, and has been employed by General Electric since 1916.

His invention consists of a combination of a ball-type speed reduction mechanism, which serves as a thrust and radial bearing at the other end of the rotor. The thrust bearing maintains proper pressure on the balls of the speed-reducer, and can be adjusted to allow slipping at a predetermined overload. The device is particularly designed for application to speech recording and reproducing apparatus.

This is the twenty-seventh patent which has been granted to Mr. Stephenson.

"The Motor and Generator Safety Raiser"

This paragraph is intended to help reduce accidents and improve our position as a division in the Safety Movement.

Off The Job Accidents: When using a hammer at home, you may prevent personal injury by using one of the following suggestions.

1. Hold the hammer with both hands.
2. Let your wife hold the nails.
3. Don't use nails, use screws or wire.
4. Hire a carpenter and get the job done right.
5. Take plenty of time, your time isn't worth much anyhow. Be Cautious—Play Safe.

SCIENCE: Pappy Archbold is clever at figuring out weird labor saving devices and methods. His latest brain child is the vacuum flea and loose hair remover. It seems the Archbolds have a cat which requires continual grooming to remove loose hair and fleas. This grooming process can develop into quite a task if the cat gets the idea he does not want to be groomed. It remained for Mr. Archbold to bump his head against the wall and come up with the idea of using a hand vacuum cleaner to de-flea pussy. This method was tried and proved successful, the cat actually seemed to like the treatment. One day Mr. Archbold was downstairs taking a load off his feet while Mrs. Archbold was upstairs vacuuming the cat. Suddenly, there came a rending crash, followed by a loud feline yowl and the cat tore down the stairs as if pursued by demons. Investigation disclosed that a fan blade in the sweeper came loose and the resulting clatter scared kitty out of six of its nine lives. Mr. Archbold reports that since that day, if a vacuum cleaner is operated anywhere in the house kitty does not walk but runs to the nearest exit. Science is wonderful. . . . Now that the World Series is over, we can concentrate on football. Since it is too warm to think about football, we will go back to people in Bldg. 31-2. Good news is here. Some of the people who have been laid off have been called back. Paul Shive was transferred back to the Tool Division. Dresden Tiffany came back to take Paul's place. . . . We also have a new apprentice in the drafting room by the name of Richard M. Frede. . . . Our new file girl in the drafting room is none other than Gwen Steinbarger from Bldg. 4-6. . . . The M-G Engineering group finally came through successfully on the potluck, wiener bake at Dewart Lake. Last Saturday was a beautiful day for 50 people to gather at McDougal's cottage. After consuming much food, the group entertained themselves with badminton, card games, horseshoes, boating and swimming. Yes, we said swimming. The polar bear swimmers included Mrs. Charles Brown, Laurel Ann March, Lynn and Lou Ann McDougal, Stevie Emling, and Ty Scheurman. . . . Our sympathy to Minerva Russell, whose hushand recently died.

Something to shoot at: No, not Dewey Erne, or his picture, but at his safety record. Dewey has worked here for 33 years and has never had a lost time accident. He, being an arbor man, works on winding machines. His job has numerous hazards too, and to top this he came through last week with a $110 suggestion. . . . Anyone wishing to buy a stub nose Buick see Jess Batchelder. He was one of those fellows caught in the traffic jam one morning last week. . . . This bumperitis in the parking lot seems to be getting contagious. Harold Whonsetler was a victim as well as Phillip (Tiny) Shoppman. . . .Bob Repine had a bit of trouble getting a left hand die started on a right hand screw last week even with the help of Jack Pollock and Ernie Brown he couldn't make it. . . . Paul Mischo has replaced Gene Werling who has returned to the Apprentice School. It will he a big help to me if you can keep up Gene's reputation. He had a habit of getting in the column pretty regularly. . . . A brand new membership certificate has been awarded to John Bastian who joined the Sawbreakers Club last Saturday. The only bad feature of getting in on Saturday, only about half the fellows were here to give their advice. . . . Cris Delagrange and Art Kraft gave Ray Bowers and Paul Armstrong a whitewashing last week and then were handed the same treatment in turn by the same pair. . . . When Bill Herring bought his new car he had considerable trouble finding it in the parking lot. Now it seems that Ward Stalcy is having the same trouble since he has that brand new car. Why not park next to a certain light post, Ward, that might make the job easier. . . . Jerry Knight did a good job of canvasing the group for Community Chest, but fell somewhat short on hitting our quota. . . . Have you read the proposed changes in the benefits of the MBA. If not, be sure and do so.

YE OLD METER GIRLS TO HOLD FALL PARTY

The annual fall party for Ye Old Meter Girls will be held Wednesday, Oct. 19, at the Dehler-Hughes hall. The meeting will begin at 7:30 p.m.

Tickets are 50 cents and can be obtained from members of the committee. Bertha Mattes, H-20342, is chairman. Assisting her are Bernadine Gocke, A-97645, Chloe Lee, A-70262.

Dorothy Mills is afraid of having her car stolen. She goes around and checks all of the doors to see that they are locked but she still makes it easy for the would-be thieves by leaving a glass rolled down. . . . If you hear some one call, "Hey, Dollface," just look around and you will see Herb Koch nearby. That is his new nickname. . . . Audrey Hickernell is taking her vacation this week and is going on a trip to Washington, D.C. What a beautiful trip that will be through the mountains with all of their beautiful coloring now, and the weather not too hot. Smart gal, Audrey. . . . If you see Bill Straub skipping rope or doing anything unusual it is because the cider that he bought a couple of weeks ago has passed the spicy age. . . . Dorothy Askren tells us that her mother is home from the hospital and doing very well. . . . The old flu bug has been active in the office. He started on Vern Castle, but after looking at his head, decided he wouldn't be a very good victim anyway. He, the flu bug, sure did work on some of the rest of us including Mel Kiessling's family, Harold Boles, Paul Clendenen and yours truly.

Men are not good or bad; they are good and bad.

ARITHMETIC: This past week has been very bad, for example Flawrence Lemper (yes, it's a boy) subtracted 12 thousand from 181 thousand and came up with a measley 68 thousand. Why worry? Lemper-Schlemper-Hemper, what's a 100 thousand more or less. If it would have been deep freezers it would have meant nothing at all. When Wimpy (Flawrence) was asked where he went to school he replied he didn't. But that yours truly had taught him how to add and subtract but not how to cover up mistakes. That's our secret, Wimpy. . . . SUPERSALESMAN: Claude Johnson went to purchase some cement blocks to build a garage. After quite a struggle something like Wimpy had Claude decided to buy 8 inch blocks at 16 cents apiece. Now the big mouth salesman steps in and tells Claude that he can let him have six inch blocks for only 15 cents apiece. So very quiet like our Claude snaps up what seemed to be a rare bargain, but which resulted in Claude having to buy 1146 six inch blocks at $171.90. He could have bought the eight inch blocks, which he only needed 860, for $137.50. Here's the pay off, he now claims the only reason he bought the smaller blocks was that Vaughn Sheets and Clarence Coulter who were going to help lay the blocks could not lift or handle eight inchers. We honestly believe that if we had a champion liars' club the champ's name would change almost daily. . . . WRESTLING: Jake Arnold went to see a wrestling match for the first time a week ago last Wednesday. Now he is asking everyone he sees if they think it's the real McCoy or just a put on show. Have you had any luck yet as to the answer, Jake? We might also add that the only reason Jake went was that someone gave him a pass. But for what, Jake? Don't answer that, we know. . . . FOREMAN: We thought Nolan Riley was a foreman in the Wire Division, but now we are not so sure. He was seen directing traffic at Calhoun and Washington streets last week one day. Were you working out a traffic ticket or something, Nolan? . . . FISH: No need to worry about fresh fish now, Bill Skinner has moved to Blue Lake. He'll take your order in the afternoon and deliver the fish the next morning, some racket. . . . WELCOME: Henry Reidenbach to the Wire and Insulation Division, we hope you will like us. Henry was transferred from the Regional Parts Warehouse. . . . SECRET: We'll let you in on a secret. Priscilla Thrasher was given those beautiful roses by our fellow G-E employees of our Peterborough, Ontario, Plant in appreciation for the way Pat took care of their accomodations, etc., upon their recent visit with us. That's a very nice compliment, Pat. . . . CORN: Our city farmer Charley Brubaker brought in a sample of his (Hi-Bird) corn we call it. You know what? It actually measures three inches long and one inch wide no foolin' not all corn at that partly cob. For further information, Leo Elward is resident agent. . . . SOCIAL SECURITY: If you have not as yet checked your social security number and your home address on your pay voucher, do it now, if any changes notify your foreman at once.

Lament of the Week by Al Swift

I think that I shall never see,
The 21 cents you took from me,
21 cents that I could have spent,
For various forms of merriment,
21 cents I lost to you so gladly(?)
21 cents which I now need so badly,
For whose return I had great hope,
Just like an optimistic dope,
For 21 cents lost to folks like thee,
Are not returned to fools like me.

Thanks to Bill Rohe for the above.

Wouldn't it be wonderful if we could have many weeks as lovely as last week-end was? Those golden days with gently falling leaves and bright blue skies are never to be forgotten adventures in pleasant living. Let's hope they last a while longer. . . . Congratulations to Howard Brooks, who yesterday celebrated his 30th Anniversary with the Company. Best wishes and many more years of pleasant association with all the G-E folks. . . . You may have heard rumors about our annual Christmas party. If you heard there is to be one—you're right. Everyone is getting "all hepped up" about our Christmas party. Details later. . . . Gerald Briggs brought a toaster in for repair. He declared it just wouldn't work. Imagine his surprise when he discovered you have to plug it in to make it work. . . . Carl Hattendorf lived a life of leisure this week on vacation. Such luck. . . . Bob Dorsey just finished a trying week of work. All the old married men, namely Drage, Shellenbarger, Devoe and Kruse have been generous with their advice to Robert. Saturday, Oct. 15, Robert says "I do," to that certain lady from Paulding, Ohio. We all join in wishing Bob and his wife a lot of happiness. . . . Tony Miller, Frank Magers and Don Thomas have been rather quiet since their fishing trip to Northern Michigan. Must not of been biting very good. Frank Magers missed some opportunities to catch some bass while he was there. He was so tired when he got back home he went right to bed and almost forgot to come into work Monday. However, his wife got him up in time to have coffee and doughnuts before coming to work. . . . Ray Solga says that if he gets any heavier he will trade in his four inch belt as a down payment on a girdle. . . . John James and Colette Buck are back from their third week's vacation. . . . Elfrieda Wolf says that four floors up is just too much for her all at one time so she takes a little rest on third now. . . . Ruth Theurer says no "banged up" fenders. lately. Good for Ruth. . . . Elizabeth Reed is really coming up in the world lately. The transit company is going to run a special mornings just for her. . . . Mr. Klomp has a lawn roller with a special serial number. It's a hot job, so he says. . . . Anyone knowing a way to cure color blindness or wrong-way-itis, please contact Frank Magers. It seems he doesn't know the difference between a black Chevy and a green Buick. He also thinks he should walk north to get from G-E to Taylor St. . . . Orland Surface had quite a time one day last week. First he cut one hand on an end mill, then the other. After getting first aid he proceeded to jam the table on his machine. All in all a bad time was had by all. Instead of calling him "Bear Paw" we've decided to call him "Sore Paw." . . . Did any of you see the look in Ed Klomp's eye as he stood outside the "girl show" at Bluffton's street fair. It may not be all the "barker" claims, Ed. . . . Friendship, wonderful friendship. Al Middaugh, Les Dafforn's friend, invited Les and his family for a rabbit supper. Al then proceeded to tell that the rabbit was not rabbit but alley cat. Some friend? . . . Ray Debolt is looking for a friend too. Seems he hasn't any in Bldg. 17-4. If the boys aren't picking on him one way, they're picking on him another. Ask him about the bath they gave him. . . . Tony Miller and Frank Magers are real close friends. If you don't think so, ask Tony or Frank about their fishing trip to Michigan.

Success is hanging on after everybody else lets go.

For the last several weeks numerous people have inquired as to what has happened to our column. These inquiries makes one feel that maybe the column does serve some purpose. But remember, folks, we just completed inventory. Between trying to do something on inventory, pushing rush jobs and handling our regular work we have been fairly busy. . . . Speaking of inventory, we would like to express our appreciation to all who had a part in this job. This year some people worked on inventory who have had no previous experience. Everyone did a fine job. . . . We have several more new people on our floor. We haven't had time to check on their names. Sam Bireley is back after having spent considerable time in Bldg. 26-3, and Eddie Alter from Bldg. 26-4 are working with our stock group. To all the new people we extend a hearty welcome and we hope you will enjoy working with us. . . . The following news items were handed to us during the past several weeks. They are old but we feel they should be published. . . . Lela White wishes to thank her friends and co-workers for their kind expressions of sympathy in the death of her husband, Edwin White. . . . It has been suggested to Joneal Gunkel that she make sure she has the correct side of the coil up before she attempts to pull the tap. . . . Kate Summers of Ossian had some poison ivy on her face, yet she insists she hadn't been near the stuff. . . . The second trick operators are starting a housecleaning campaign. They are asking the first shift workers to help them keep our floor clean. It has been suggested, as a first step, that everyone be sure to place all garbage in the cans which are provided for this purpose. We believe this is a worthy project and encourage everyone to lend a helping hand. . . . Some people are blessed with the ability to get into jams. It seems that the Elex Club members went to Chicago a short time back. Some of the girls went shopping. It is reported that a certain person had a red face when she discovered the material she was examining was not on a model but on another shopper. Could this person's name have been "Gerdom"? . . . Recently Al Miller had some repair work done on his car. He had to be at the Nash Garage on Fourth St. by 3:55 p.m. to get the car. Al asked Dick Pierce if he would drop him off at the garage, and Dick agreed to do this. Now, Dick drives a Model "A" Ford. Howdy Shipman is the designated co-pilot. On the way to the garage Dick took all corners on two wheels. Dick told Al he could have taken them a little faster if the tires were a little softer. Apparently the tires were too hard as one blew out. Dick, having received his mechanical training in the Air Corps, had things well planned for just such an emergency. Al was instructed to remove the spare wheel, Dick jacked up the car, and co-pilot Howdy removed the wheel lugs. Then the process was reversed, and they were on their way, arriving at the Nash garage at exactly 3:50 p.m. All this again demonstrates the caliber of training put out by the Air Corps during the war. . . . Mr. and Mrs. Paul Peterson just returned from spending several days vacation in the Smokey Mountains. . . . The golf league is over for this year. Four of our 12 members won prizes in the G-E Blind Bogey Tournament. We hope to continue this league next year.

Two Men From Motor-Generator Retire

Frank Ormiston, Bldg. 19-2, and Arthur Swain, Bldg. 19-3, retired Oct. 1 after working for General Electric seven and 33 years, respectively. Mr. Ormiston is pictured, in the left photograph, and Mr. Swain, right, with R. M. Hartigan, Motor-Generator Manufacturing Manager, who presented them gifts from their G-E friends.

Now—I know the answer to "What is so Rare as a Day in June?"—It was last week-end in Indiana! . . . Pokagon Park was a riot of color—from the stately oak trees in their autumn trim, the beautiful green of the evergreens to the brilliant red of the sumac, all of this with a man swimming in Lake James. It is hard to believe—but isn't it wonderful? We get too engrossed in the ways of the world—we forget to take time out to be thankful for the things before us. . . . A. S. Johnson and family were in Kentucky over the week-end and he reports that southern Indiana and, of course, the blue grass state were beautiful. . . . **Philadelphia Story:** The members of the Supervisors' Club, their families and friends enjoyed the Civic Theatre presentation of "The Philadelphia Story" Wednesday night. It was a very interesting story and the crowd a record one. . . . **Family Night:** This week—the presentations of the Family Night entertainment at the G-E Club have proven to be very interesting and have attracted many of our employees, their families and friends. Expect to see the show tonight at nine—so I can not give you any first hand information. By the way—there are still tickets available for the nine o'clock show tonight. . . . We have noticed much silence, in many sections, on the baseball game of last Sunday. Also have witnessed the payment of a few bets. Saw the game on television, my first one, by the way, and it was nice to see. . . . **Bldg. 18-4:** Gloria Koeble is still on the sick list, a victim of the influenza for the past four weeks. . . . Delores Patterson acted as leader of the singing for the Elex Club meeting last Monday night. She will also appear as a soloist at the Inter-Club Conference in Chicago this week-end. We are very proud of her. . . . **Confusing:** Edna Welch says that Monday mornings are very bad for her. First she missed her "Special," then tried to find her card in the rack in Bldg. 18-3. Finally the elevator operator took pity on her and showed her the way out of this maze and she finally reported for work in Bldg. 18-4 where she belongs. . . . Dorothy Long is reported to be improving at the St. Joseph Hospital. She tells the G-E girls about the attention given her by the Firemen and that she, as most polio victims, has a big appetite. She expressed her appreciation of the nice cards and letters she has been receiving. Let's keep it up for her! . . . **Bldg. 18-3:** Today we regret that we must say our farewells to Gloria Erhart and Clara Theismann. . . . Our welcome to William Anderson who is being transferred from Regional Warehouse to the Specialty Transformer Accounting. . . . Wilma Wine, Art Stuart and Jerry Snowberger have joined the "I've had the Flu Club." . . . Belated birthday greetings to Irene Draper, the group enjoyed the "turtles" (not the baby beast of Busco either). . . . I am told that Norman Singleton and Emily Guth are profitable baseball fans! . . . **Bldg. 18-2:** They say—no news is good news so they must all be good! . . . **Bldg. 18-1:** We extend our welcome to J. R. Clark, a new assignee to the Test Engineering course. At present he is working in the General Superintendent's office. . . . Phyllis Tanner is ill with the influenza. . . . Robert Meyer and family witnessed the Indiana-T.C.U. Game at Bloomington Saturday. . . . Gladys Forst and Opal Burns were spectators at the Midget Races Sunday. . . . I would say that what this country needs is not a good five cent cigar, BUT a good five cent Nickel.

Braun Rounds Out 30 Years At G-E

Andrew J. Braun, FHP Div. 13 at Taylor St., recently rounded out 30 years' service with General Electric. Several of his friends extended their congratulations on his long service. Left to right in the photograph are: Ora Goff, M. J. Pugh, Sid Hanson, W. H. Sunier, Clarence Kopp, Art Duries, Mr. Braun, H. E. Koehlinger, FHP Div. 13 Supt., and Carl Snyder.

One of those unforeseen things happened when only about about a half of our column appeared in the NEWS. It is one of those things that cannot be helped, and it is hoped that all of US SECOND SHIFTERS will go along and continue to submit items to make this a column read by the people on the second shift. . . . Farmer Ray Duff, Bldg. 26-4 tester, is really having his troubles. He ran over his son's pup, and his wife put him in the dog house to take care of it. Now he is expecting some new arrivals out in the hog barn. He is now wondering if his better half will let him back into the house after his chores are all done. . . . From Bldg. 17-2 we learn that Henry Dietchel has decided to buy a cigarette lighter. It will be less bother for him. . . Virgil Fogel has moved into his new house which he completed all on his own. Just another way to prove what can be done when the mind is set to the task. . . . We extend sympathy to Julian Eme on the death of his brother. . . . We have word that Mabel Buker is in the Lutheran Hospital. Mabel was until recently a second shifter in Bldg. 17-2. . . . The average person in Bldg. 17-1 doesn't think that it has been cold enough for fur bennies, but there are two fellows who will differ with you on that. They are Kurt Hartz and Walt Bauermeister who have started collecting hides. . . . Wanted—A sponsor for ladies' Monday afternoon bowling team. They all are reading Billy Sixty's newspaper column faithfully, so undoubtedly the team will soon be in first place—or will they! . . . Did you notice a new face in Bldg. 8-1 dispensary last Friday night? Berneta Welbaum from Winter St. was an Owl for the evening. . . . Could it be that new blouses are coming in? Let's not try to design them at work. You might cut out wrong piece, eh Faye, Bldg. 4-5. . . . We have decided that our Red Feather solicitor in Bldg. 4-5 missed his calling. He should have been a salesman, but after all was said and done he forgot to sign his own card. . . . Anyone wanting any saws sharpened should see Art Kurtz and son. . . . It is an odd twist of fate when a man gets a helping hand and then refuses to thank the helper. Let's get Gale Johnson, of the maintenance to tell us about the buttons and safety pins. . . . Naturally Dick Gidley had a hand in the buttons, etc., but he is at his best when he apes John Nesbitt, the famous story teller. . . . We extend our congratulations to the new first vice-president of the Elex, our own Owl, Bea Lantz. From now on everybody in Bldg. 17-2 will call her V. P. for short. . . . Al Fry is trying his best to sport a new mustache (cookie duster to you, Bud) but on him it doesn't look good. . . . Good old Freddie Fenner showed the effects of stumbling over a finger the other day. . . . Helene Evanoff joined the Bldg. 17-2 gang as an inspector. . . . Nothing ever happens in Bldg. 4-3. They just work I guess. . . . Bldg. 4-2 welcomes Bernadine McCune from Bldg. 4-5. Now Vergie Stephen and Alice Klingle can get along without the walkie talkie they were going to ask Al Kissinger to install. . . . By the way, Al has given up all hope for this season. He even feels satisfied with crawdads. . . . Paul Boyer played early bird at 3 a.m. up at Wawasee. Results: no hits, no runs, NO FISH. . . . Paul Habecker, Paul Habecker, Paul Habecker. How is that, Paul? . . . "Roy Rogers" Schlie and "Tonto" Johnloz, Bldg. 17-4, had better not let their sons know that they also go for the "kid" heroes or else there is bound to be trouble on the border. . . . Eileen Foor, Bldg. 17-3, wants to let Harry Crause know that she already belongs to the "98" Club for the year. . . . Barbara Wilson, Bldg. 17-2 Elex contact girl, reminds us that the Christmas cards are soon going to be available along with the cook books (there's a good deal), pencils and stationery.

According to the latest news, Howard Rittenhouse, brother-in-law of Alta Bishop Mayle, is still confined to Toledo Hospital with polio and is completely paralyzed. His condition remains critical. We are hoping for more favorable news. . . . Dr. Harvey L. Murdock is spending this week on a hunting expedition in North Dakota. We hope to see lots of pictures of the big game and of his trip later. . . . Mary Heymann and her mother, Mrs. Etta Heymann of Convoy, Ohio, recently enjoyed the beautiful scenery of Brown County. . . . Mabel Wilson and Minnie Fryback and their respective parties attended the Barber Shop Quartet Contestant Entertainment at Goshen, Ind., on Sunday. . . . Bertha Schrader and family spent Sunday at Pokagon Park.

In Song and Story

I am a nurse, a superwoman.
My job allows of nothing human.
Divinely we are called to render
Such services as will engender
Romantic notions. Both song and story
Depict us kindly, amatory.
The movies too will add their share;
Good looking docs are never rare.
Unknown are smudges, baggy pants,
Nor is there lack of elegance.
The nurses, spotless and unruffled
With great perspective, voices muffled,
Know how to handle situations
At dire and difficult occasions,
And with astonishing precision
Help patients, just by intuition.
The lame man walks, the dumb will speak,

The fretful child grows calm and sweet.
Not ice bags soothe the fevered cranium
But hands—as fragrant as geranium.
We often wonder, I and you,
Have they no actual work to do?
Are they not rushed? Not ever harried?
Do always all of them get married?
No doubt, it does us good at times
To see into director's minds.
But if a'nursing thou wouldst go
Know that the life is never so.
Nursing (don't let me make you frantic)
Is wonderful, but not romantic.

By: Ingeborg Henningsen

When a man is on his knees proposing to a girl, he might as well say his prayers at the same time.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ad will not be accepted unless accompanied by the name, pay number, and division of the employee. No works building or telephone number may appear in ad, only the home telephone number or address.

No ad will be received over the telephone. Send all ads to WORKS NEWS office, Bldg. 8-2.

"Lost" and "Found" articles must be cleared through the Plant Protection office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

CLOSING DATE FOR NEXT ISSUE
Monday Noon, October 17, 1949

LOST AND FOUND

LOST—One key in brown leather case with name Maxton Chevrolet, Angola, on it. Lost between Jones St. parking lot and Bldg. 19-2.

FOUND—A bar pin with various colored sets. Found on west side of Broadway.

FOR SALE

LADIES' BROWN PREMIER BEAVERETTE FUR COAT—Size 15-18, in A-1 condition. $35 if taken at once. H-37924.

WANTED

WASHING AND IRONING—E-37591.

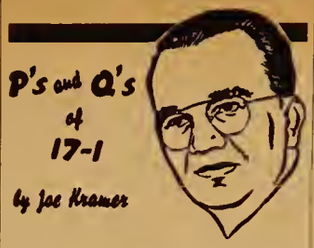
MEN'S BOWLING SHOES—Size 8½ or 9. H-58811.

TRANSPORTATION

WANTS RIDE—Agnes Neideffer, from Harlan on second shift. Works 3:18-11:48 in Div. 17 at Taylor St. Extension 425.

THANK YOU

RAY SOUGHAN—Wishes to thank everyone in the Specialty Transformer and Ballasts divisions for their generous help and contributions during the Community Chest Drive.



I guess everything is under control right now including Glenn Hurless who has stood on his head for several evenings trying to perform for his baby boy. I hear he is pretty good at it too. . . . Okeleadh Stetler got herself a southern B. F. while she was in the state of Tennessee seeing the Grand Old Opera. How are you all? She says she is ready to go back anytime. . . . Merrill Weaver, the label slapper, got himself a baby girl last week. Yep, and do you know he is recovering very nicely at this time. Oh yes, the mother is also doing fine. Congrats, Mr. Weaver! . . . Dorothy Ketrow, the winding lassie, really and truly likes her work, so well, she believes in doing it right even if she has to do it twice. . . . Pete (Vernon) Fairchild has a hankering for pinochle, and was he in a hot game last week? Let him tell you about it. . . . The Geneva Whirlwind, Al Windmiller, is still around too. In fact, his smiling face can be seen on the Assembly Line anytime after 3:30. . . . Riggy Geisler now has his new Ford and will take you a ride anytime you desire. It's that big blue job you see around. . . . Speaking of hickory nuts, and if you would care for some, there is a place near Geneva that has over a thousand bushels in one woods. Merrill Weaver says that these nuts can be found on his farm. Now I am not one to assume, but I believe the "ole" boy has outdone himself a little, but he said everybody would be welcome to a bushel or two if they care for some. . . . A number of birthdays are being celebrated within the last few days on the first trick. Among them we have Pat Girod who passed out delicious glazed doughnuts, Ruth McCristy from Ohio, Leona "Red" Tinner, who has, by the way, her fiance from Kansas here to celebrate her birthday. Iola also had a birtbday and bas been sick in bed for the past few days with a bad cold. We hope she gets back very soon. . . . This week vacationers are really having a good time. On the list we have Ed Dietsch, Bob Miller, Herman Keller, George Buckley, Jake Eady, and Walter Lister. Oh yes, Solman Lord is also vacationing with Herman and J. K. Eady. Charles Langston is having his vacation this week. He's planning a southern tour of the state and a stop over at Bloomington where his daughter, Alice, is studying music and he plans to bring her home for the week-end. . . . Last week we overlooked mentioning Leonard Meyer's new Oldsmobile. Did you keep your bike or have you traded it on the car? . . . Featured acts are at the street fair but when Bonnie Foor claims she fell over sand bag weights we have doubts as to whether she was thrown out or sneaking under the side show tent. . . . Chloe the dark haired winder with the '49 Plymouth sure gave a Nash a boost on the way out of the parking lot. Forest suggests you get an older model car to do your test pushing, Chloe. . . . This week's Safety Motto—Reckless operators never collect Old-Age Pensions. . . . Dr. Richard Goldner of Ypsilanti, Michigan, is spending a week here with his parents, Mr. and Mrs. Dallas Goldner. Dr. Goldner is a resident physician at Ypsilanti State Hospital. . . . We have proof Charlotte Gepbart has a morbid curiosity. Her appetite wasn't spoiled but we don't know if the cream puffs were edible after she sat on them. . . . Olive Journey enjoyed the Bluffton Fair so she says. . . . Oct. 3 anyone who was an early bird could see the beautiful rainbow in the western sky. . . . Albert Berry returned from a three weeks' vacation. He reports going places and doing things he never did before. . . . Art Miller is playing nursemaid to his two sons while his wife is taking care of their daughter, who recently underwent an operation. . . . Kate Burkhart had her tonsils removed Oct. 1 at the local hospital. Speedy recovery, Kate. . . . Eddie Gase and family spent the week-end at Findley, Ohio. . . . Clyde Gould can very readily be proud of his son as a gardener. . . . Anyone wishing their garden spaded see Art Denig. He's an old hand at it. . . . We extend sympathy to Emery Hawkins upon the death of his father. . . . Daily greetings to Pat Abbott, Nina Brown, Ruth Knittle, and Emma Lou Kuklehan. . . . Dianne Linn, daughter of Laurence Linn, was winner of Decatur Community Slogan award—a $25 bond. Dianne in turn donated this bond to the drive now in progress.

Corn S'talks

TAYLOR ST. SHIPPING

By Gloria Geesaman

Any resemblance to people in this column is purely coincidental, but intentional. . . . Our motto—is to be prepared for anything. . . . This is so you won't be surprised. This Indian summer is too wonderful to last. It'll probably snow next week. . . . These little old '37 chevies, especially the one that has a wolf whistle, really gets results. Maybe that's why Joe Franklin and Paul Howard are always seen going around the corner on two wheels. Nice whistle you have there, Joe. . . . Delores Connin and Kathie Richter looked beat for a few days. They worked overtime during the week. Maybe we should suggest that cots are furnisbed so they can relax while they work. . . . Mary Caruso has a little dog. His name is Jack. He follows her to work, and all she does is send him back. . . . This place is liable to do anything to anyone. Fred Wheeler knows! Thought he would be smart and not tell anyone when his birthday was, till it was all over, but he found two cakes (special 'cause he rates with the girls around here) and presents on his desk. By the way, he is only two. . . . Some people have unusual hobbies. But Al Kruse has a humdinger! He collects pictures of pretty girls (ones that you see on calendars). Asking him what his wife says or thinks, he replied, "She says nothing. She just knows me." Isn't it nice to have a wife so understanding, Al? . . . The girls in the office put on a big feedbag one noon. It was so nice that we decided that why don't we do this more often. Hate to admit it, but we have some mighty good cooks in this office. . . . Mr. Blackburn ate his lunch, then came back to the office to eat the leftovers from the potluck (beans and potato salad). The cooks were Helen Reisser and Gladys Cleland. Of course Blackburn said they were mighty tasty. He had to—the girls were standing over him with a club. . . . Bernadette Collis' favorite saying is, "Well, I'll be a Murpby." What we want to know is, who is Murphy? . . . Almost forgot to tell you the Yankees won the series. As if you all didn't know. . . . And Al Kruse is riding around in style. He has a new Studebaker.

Those third week vacations are really coming in handy with the fellows in Bldg. 17-1. Argend Denney is taking his third week vacation spending his time making necessary repairs and winterizing the house. This includes putting in a new heating system. . . . Jerry Humbarger isn't adding to on his vacation but is spending the time removing the barn on the back part of the lot. . . . Ray Epperson, the genial dispatcher in 19x71 and 72 group, has enjoyed the past week fishing at Holton Lake. There is some doubt as to whether Ray will catch many fish as it wasn't possible for him to take his fish guide Ed Arthur along with him this time. . . . The new subscriber to the Hand Machine magazine, Blue Chips, is Bill Grimm. . . . We wonder why Ed Martin didn't go out in the boat when he was at the lake last Sunday. Could it have been Ed was afraid of getting sunburned? . . . Due to the scarcity of iron, Andy Degler is trying to invent a means of removing the iron from the water in his area. Andy says he is sure he can make 100 nails out of the iron found in a glass of water from his well. Any suggestions will be appreciated. . . . Very reluctantly, we bid farewell to Weldon Stucky who has left us to go to Taylor Street to work on a grinder. . . . With Weldon leaving, Ed Brosche is going to miss bis good morning newspaper. If anyone wants to help Ed out by bringing in a paper for him to read in the morning, Ed will return the favor by giving them his superdeluxe travel tour to Florida, or if requested, Ed will take the donor on the highlights of the Notre Dame football game. . . . With the recent spring-like weather, Ted Brockmeyer has started making plans for next spring. Ted is spending a lot of his spare time beautifying the surrounding area of his home planting various bulbs and flowers for the coming spring show. . . . The "fever" seems to be catching in 19x72 group. Paul (Doc) Gieger has all the details as to the cause and cure. Ed Brosche was the latest victim. . . . Henry Wichern is now keeping Ralph (Cowboy) Beerman in tobacco. Heinnie says he can be sure of having an empty tobacco pouch when he comes to work after Beerman has been roaming the ranges on the third trick. . . . Vic Hall was seen getting first hand information from Ed Brosche for his proposed trip to Florida. It is being rumored that driving lessons have been offered to Vic prior to his departure. We don't know, as yet, who is going to give Vic his lessons. . . . The New York Yankees really paid off to Argend Denney. Argend won baseball pools last Saturday and Sunday. We hope no one tells Mrs. Denney about this as Argend would like to keep it a secret. . . . For a while the Braden name was in the limelight only during the baseball season, but now Harold Braden has stepped out and has been named coach of the Indiana Technical College basketball team for the coming season. We can predict great things for the Indiana Tech team as the "racehorse" will really work to have a winning team. Our congratulations to coach Braden. . . . We extend our sympathy to Al Decker in the death of his mother-in-law.

Inquiring Reporter:

WHAT NEW ACTIVITY WOULD YOU LIKE TO SEE THE G-E CLUB SPONSOR?

HENRY H. PLIETT

Bldg. 17-3

"I would like to have the G-E Club sponsor a barber shop quartet, as that type of entertainment has become very popular among the young and old alike."

EUGENE M. WEAVER

Taylor St.

"I would like to see them have one night each week for teen-agers' entertainment, such as dancing or parties, so they will have a place to go."

VAL SITCLER

Bldg. 26-4

"I would like to have the G-E Club sponsor an amateur program or contest. The contestants to be eligible must be employed by the General Electric. The winner of the contest could then be a guest star on a General Electric radio program."

NORMAN STOLLER

Bldg. 19-1

"Frequent, conducted, week-end tours and excursions, open to employees and their families at the lowest cost possible to points of historic, economic or scenic interest throughout the midwest."

MARY BROWNFIELD

Bldg. 18-1

"I believe it would be very profitable for the G-E Club to sponsor a mixed chorus. The members of such a chorus would not be the only ones who would derive much pleasure from it. A good chorus could present various programs for G-E employees and might also be a means of entertainment for many of our organizations."

RETURNEE—Glen Seabold is back working in the Developmental Division for C. J. Herman. What is that saying about "Bad pennies always return"? . . . CLEAN UP WEEK?—Lydia Wilkening did her fall housecleaning early due to an accident with the furnace. . . . WONDERING—We in the Developing Div. would like to know when and how long ago C. J. Herman learned to write his reports in Chinese. . . . OPPORTUNE TIME—We are glad to have Betty Puff back to work after four days of the flu. At least she could hear the World Series. . . . DOUBLE HEARING?—Ralph Kaeck was seen talking over two telephones at once. How do you do it, Ralph? . . . SLEEPY?—Weir Anderson, AC Division, lost all his sleep. Last Friday night due to his cousin's boy getting lost. Can you tell by this if you are getting old or not? . . . TOURING—Johnny Nute is traveling over the southern part of Indiana this week. He is planning on taking a few pictures. Betty and Frank Ross were visitors of Brown County over last week-end. Beautiful, isn't it! . . . GLAD TIDINGS—Congratulations to Joe Jamison in Sales, who welcomed a new bundle of joy named Judy Margaret Oct. 5 . . . MISS YOU—We in Commercial Div. shall miss Marylis Redding who left us last Friday. The girls in Sales Division had a luncheon for Marylis last Thursday and presented her with a lovely gift. In her place we want to welcome Ellen Harkless to the Commercial Division. Hugh Folsom leaves today for Commercial Div. at Taylor St. The AC Div. will sure miss his beaming face. . . . WELCOME—We are glad to see Al Reynolds in AC Div., who is the new test engineer. We also wish to welcome Lowell Ray the new Division engineer. . . . SORE JAW—Billie Mae Frain, who recently arrived in the Engineering File Room, was off for a while with a sore tooth. We really feel for you, Billie. Joe Hiles, AC Division, also has teeth trouble. He has wisdom teeth coming in where there is no room. . . . FOOT BALL ENTHUSIAST—Lois Tritch, Payroll Division, enjoyed herself at the Indiana - Texas Christian football game last Saturday. . . . TELEVISION—While home in Toledo last week-end, Isabel Bartholomew saw the World Series in television. . . . GLADNESS AND GREAT JOY—Now we know the reason why Thelma Barbeau has been so-o-o-o- happy the past several weeks. Last Monday morning when Thelma came in to work, she was wearing a beautiful diamond on her third finger, left hand. . . . HAPPY BIRTHDAY — Congratulations to Mildred Schroeder and Bertha McCague. . . . EARS RINGING? Does Ned Hackney always hear bells like he did on the elevator last Monday? . . . GOLF—Not only does Jack Jennings swing at a golf ball and leaves it sit where it was, but he also hits the ball so that it comes back to him. (The ball bit a tree.) . . . BASEBALL—Johnny Reuille was lucky enough to win in the baseball pools not once but twice. It's a good start on that G-E washing machine, Johnny. . . . BIGGER AND BIGGER — Everett Letsinger is still growing bigger and better apples. We hope he doesn't have any office worms to get them. . . . GADGET — That gas saving record Carlson reports has been thrown away. Recently he found he had a leak in his gas tank. Tough, Forry. . . . TWO OF A KIND—Delores Giltz and her husband both won on a baseball pool in which they both had the same inning, in the same game. . . . WHAT HAPPENED, GLEN? It is rumored and it is a fact that Glen Stapleton has bought a 1947 DeSoto. What happened, Glen; we thought you were a Hudson enthusiast? . . . MONEY MAKER—It seems as if Johnny Leffers made money off of Shorty Poyser on the baseball games. John bought Shorty's ticket on the game for a certain amount and then sold it back for a "little" profit. Is this true, Shorty? . . . TRAVELS — Tabulating Section has taken advantage of the pretty fall weather to do some traveling. Leonard Krumbigel had his third week of vacation last week and visited scenic Brown County. Mary Olson was in Terre Haute this week-end to attend the Beta Sigma Phi Convention. Ella Cox had a "Happy Birthday" Oct. 11. We wish her many more. . . . DIRECT QUESTION—To Garland Roby: Did you know that the rush job you did this week was on a fake requisition? You should have, everyone else did.

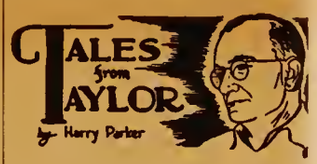
Apprentice School Squad Wins League's Championship Title

The Apprentice School ended a successful season by taking the Interdivision League softball championship. To attain this title they defeated the Works Lab, the first-half winners. The Apprentices also played under the sponsorship of Brouwer's Tire and Battery, winning 25 games and losing nine. The team members are: (standing, l. to r.) Merle Aughinbaugh, Emmett Rasor, Don Dimkee, Marc Junk, Walter Wolf, Apprentice School Supervisor; Bob Taylor, Bob Birkenbeul, Kenny Zurbuch, Leon Lahrman, and Frank Woenker, manager. Kneeling are: (l. to r.) Warren Berkheiser, Willard Butcher, John Leffers, and Milton Geoglein.

Partizan Chapter To Meet Tuesday

The Partizan Chapter of Elex will meet Tuesday, Oct. 18, at the G-E Club building at 1 p.m. The theme of the meeting will be on the order of a Fall Harvest.

Nora Kern is chairman of the party. Her committee members are Lola McCague, Louise Heine, and Lois Henry.



Tickets for the annual banquet will be on sale for $1.45. The dinner will be at the YWCA Tuesday, Nov. 15.

The World Series is over and the time for fall tax payments is here. Then our thoughts can turn to Thanksgiving. Personally, I'd be thankful for a winter full of the weather of last week-end. . . . Caroline Becker took advantage of the weather by spending the week-end at the lake. . . . If you notice that Delores Wonderly is walking around and her feet not touching the floor, take a look at the third finger, left hand. You'd be up in the clouds too. However, someone should give Delores a second hand euchre deck so that she can do a little practicing. . . . Heard on the elevator before 7 a.m.: "Good morning, how's your arthritis today?" One would think we were getting old in Bldg. 17-3. . . . Pauline Kirchner is keeping the Decatur Fair open this week. . . . Ross Domer thought Eunice Zehr was drinking rusty water. It really was the autumn drink, cider. . . . Ah, Sweet Mystery Of Life: Has Bob Mosshammer found out where the cake was from that was at his place?—Why Harold Kiel was wearing dark glasses last week?—Why anyone would wear a "do not inventory" sign a week after inventory was taken? Bill Martin did. . . . Have you heard Jess Habn sing, "All I Want For Christmas Is My Front Tooth"? . . . Why Erv Lange was seen carrying a doll? (Small girl variety). . . . Why Lucille Miller looked for her clock card after coming back from a fire drill. . . . Why Betty Pressler's light bulb was staying brighter longer the last few days? . . . The way Pauline Kirchner can blow into work on Monday morning with a bang is quite fetching. . . . Hershal Case copied the style Tuesday. Must've washed his hair the night before. . . . Have you seen Harold Bowker imitating "Frankenstein" for the girls on line four, giving them his fierce look? Harold, no doubt saw the act done by Junior. . . . Did you ever hear of taking a cat to a show? Frances Eckrote wanted a ticket for her husband's cat. . . . It's a happy birthday to Jennie Zimmerman, Isabelle Blackburn, Verna Kohart, Dorothy Johnson and Mary Wright. The girls on 534 line had a surprise potluck for Mary. . . . Daisy Richard, Mabel Buker, Pauline Gnau and Margaret Monnot are on our sick list this week. Hope you are all back when this goes to press. . . . The girls thought it was snowing one day last week. It was just Mildred's glasses playing tricks on her. . . . Mabel Schaaf is off to far away places this week. She is visiting in Oklahoma. . . . Helen Kaminski went to Chicago last week-end to attend a wedding. . . . Frances Wilkie is enjoying her third week of vacation. . . . JoAnn Kemery had quite a family increase at her home—22 young porkers. Imagine all those little pork chops on the hoof. . . . Peggy Bahde, Ocie Allen and Minnie Ley are back in the groove. Also hello to Ruth Stout and Harold Frazier. . . . Sorry to have Ben Farrington leave, but glad he could return to his former job. . . . Edith Paxson is grandma. . . . Anne Gibson almost had a trip to Cafeteria Court. She was going to cross the street against a signal light with two cops watching her. . . . Ellen Dittlinger surprised the girls with her baby picture. Mighty cute baby way back when. . . . Charlie Francies has been busy painting his new home. Housewarming coming up? . . . Lyle Byerly paid us a visit last week. . . . Our sympathy to Edith Paxson on the death of her mother.

Congratulations to Cleo Toy Haymonds, who is the grandmother of a grandson. . . . The girls in Bldg. 4-5 will be glad to know Melba Hartman is a proud mother of a daughter. She used to work on the washing machine line. . . . Birthday greetings of the week go to Edna Stanton, Viola Vannata and Edna Fletcher. . . . We wonder if Dorothy Jensen doesn't have any water at home. She carries her thermos bottle home full now and then. . . . Iris Summers is going out to Taylor St. to work. We wish her the best of luck on her new job. . . . We wonder what happened to Whitey Moring after inventory. He had a swollen face for a few days. Whitey, it is very unusual for anyone to get their third set of molars. . . . Velva Smith was spending her third week's vacation last week doing her fall cleaning. However, she had a fairly nice week. . . . Mr. and Mrs. Louis Hickernell are spending their third week's vacation in Washington. . . . Who was the girl who walked down to the bus in her fancy white satin slippers and also was late for work? It was Marcella Schwartz. . . . We wonder why Bob Morris is wearing a bright red stripe across his clothes. Could it be he is leaving us to be a painter or accidentally spilled the paint? Did everyone know the boys of the packing section are feeding a group of pigeons every morning. Charles Dingman puts about a pound of feed out to them. The fellows claim they cannot work unless the birds are taken care of.

Admiral Brandenberger has had his flagship in drydock for the last month undergoing extensive repairs and painting. He wants it to be in good shape for the final Big Long Lake regatta to be held the last Sunday in this month. By the way, he has had a more powerful motor installed. With the noise of this new motor plus his loud whooping, no doubt, this performance will be outstanding. So get your ear plugs, folks. . . . Phillip "Tiny" Schoppman, eager to demonstrate his skill in dodging other cars in the parking lot, was doing real well until another car loomed up in front of him. Being unable to stop suddenly Tiny swerved his jalopy, hooked bumpers and scratched off a little paint. The damage was slight. Someone said that he only had brakes on one wheel. . . . Sometime during the past week-end Ed Moodie was assisting his son-in-law hang paper. From all reports they had a hectic time such as running their fingers through the pasted paper and tearing same. Nevertheless they finally got the room done, but the crowning exasperation came when they arose the following morning only to find all of the paper lying on the floor. . . . Clarence Stove who has been vacationing the past week reports a very busy time. He spent most of the week rehabilitating a dilapidated barn on a farm near Willshire, Ohio. He told us that he painted the outside of said barn while it was raining, which he said would be all right as this would give it the appearance of being stippled.

This Saturday's the day. The Club alleys will be open for open bowling and as an added attraction the All-Star League will take to the alleys for an exhibition. Hope to see plenty of you keglers around Saturday evening.

Thanks to Frank Quinn for the use of his old WORKS NEWS. Back in December, 1934, the Winter St. Bowling club, composed of Ed Kramer, Herb Adamske, George Jackson, Fred Zurcher, and Milt Bryan, issued an unqualified challenge to any Broadway team. The prize was to be a keg of beer. The offer was snapped up by a quintet of Broadway bowlers consisting of Bill Doehrman, Bill Buuck, Frank Matthews, Eddie Kammeyer, and Maurice Cox.

Here are the results of the bowling, although the results of the keg are unknown.

WINTER ST.

Kramer	223	236	295	663
Adamske	171	214	292	587
Bryan	223	183	227	633
Zurcher	291	246	181	627
Jackson	172	200	181	563
Totals	999	1977	996	3963

BROADWAY

Doehrman	233	248	N185	666
Buuck	189	197	227	612
Matthews	171	198	299	569
Kammeyer	227	224	291	652
Cox	219	268	225	703
Totals	1930	1135	1937	3202

Out of the 10 bowlers, only Frank Matthews is still bowling at the Club in league competition.

The General Service team held the high team average of those days at the Club. The team was composed of Bill Doehrman, 202 avg.; Bill Buuck, 197; Ted Schlup, 193; C. Mugg, 163, and R. Kaiser, 162.

Did you know that back in those days Ray Lindemuth was carrying a 182 average. Ah, what fond memories.

Office League

The Standardizing team is leading the league with a 12 and three record. Just two games back come the Designers, who were really hot Monday evening. Dick Hanson (Master of the Back Up) paced the boys to a league-high 2994 total and 1067 single game with a 614 total on games of 217, 192 and 205. Frank Shlink and Paul Perry hipped in with games of 229 and 227, respectively.

Two hundred scores were kegled by: Bob Blomker, 217; Clarence Rump, 210; Don Pappert, 209; Erv Aumann, 205, and Ife Holmes, 201.

We were reminded to mention a 602 count rolled by Don Waldrop, which included a rousing 266 single game, which is just about high for the leagues this year.

NOTE: We forgot to mention Bob Johnson's 200 score in last week's column.

Apparatus League

Team No. 10 is leading the league with a nine and three record. Team No. 2 and 4 are just one game back, to keep the league all tightened up.

Two hundred scores were accumulated by Jimmie James, 214; Fred Schafenacker, 206; Bob Stute, 204; Vic Rump, 204; Oscar Hugc, 203; Harold "Lucky" Garrett, 202; Andy Anderson, 202, and Walt "Brink 'Em Back" Beaty, 201.

Apprentice League

Compasses are out in front with an 8-4 record, and back in sixth and last place come the Triangles with a five and seven talley.

Don Dimke, after his lesson from Frank Mataya last Tuesday evening banged the pins for two 203 counts. Marcus Junk came up with the only 200 count of the evening.

Masonic League

The Fellowcraft team is leading the league with eight wins and four losses.

Two hundred scores were rolled by Dale, 225; Larson, 211; Art Crayton, 206; Frank Quinn, 205; B. Somers, 200, and R. Crabill, 200.

Transformer League

The "M" and Watts are sharing top honors with three wins and no losses. Rogers rolled the only 200 game of the evening, with his 211 game.

Decatur Bowling Leagues

MONDAY NIGHT LEAGUE: Flanges is heading the list with a six and three record. The office is only one game behind for second place. Cook scored 206 for the only 200 game of the evening.

FRATERNAL LEAGUE: The Teeple Truck Line team is leading the parade with eight wins and four losses. Elks, Preble AC, and K. of C. are tied for second place by breaking even on the 12 games. Tied for third and last place are Moose No. 7 and the G-E Club with five wins and seven defeats.

Teeple Truck Line rolled new high series of 2941 and the new high single game of 1053.

Six hundred series were kegled by G. Schultz, 631; Bob Lord, 626; and G. Baumgartner, 610.

The following rolled 200 games: Baumgartner, 210 and 201; Leonard, 205; Lord, 209 and 225; G. Schultz, 236 and 217; McIntosh, 209 and 221; Laurent, 241, and H. Murphy, 235.

BASKETBALL TEAM PLANS TWO PRACTICE SESSIONS

The Industrial basketball team prospects will head into a rugged conditioning program next week. Practice sessions will be held at the G-E Club gym from 8 to 10 p.m. Monday, Oct. 17, and Thursday, Oct. 20.

Manager Bill Schible will select his squad after these sessions. The game will be played Monday, Oct. 31, against the Indiana Tech five, who are coached by former G-E Major's coach and player Harold Braden.

The Industrial team had a record of 29 wins and 16 losses last year.

G-E Rod, Gun Club Wins County Trophy

The G-E Rod and Gun Club rifle team won the Major John Miller, Allen County .30 caliber Team trophy. G-E Team No. 1 shot a total of 533, and Team No. 2, 501. Their opponents, Fort Wayne Rifle and Pistol Club, tallied scores of 501 and 310.

The G-E club is now getting into full swing for the indoor season at the South Side High School range. Twenty-two caliber class shooting will be held every Tuesday from 7 to 11 p.m. Anyone interested in shooting in this class of rifle or pistol is invited to attend these matches at South Side High School.

The following are the scores for the trophy:

G-E TEAM ONE		G-E TEAM TWO	
L. Bland	119	P. Sowers	196
K. Hart	108	L. Allmandinger	104
O. Emerick	106	V. Allmandinger	191
E. Allmandinger	196	R. Allmandinger	96
F. Reed	103	H. Allmandinger	96
Total	633	Total	591

F.W. RIFLE CLUB TEAM ONE		F.W. RIFLE CLUB TEAM TWO	
K. Griffin	196	A. Pentz	197
W. Vanderford	191	G. Nix	192
R. Miller	99	S. Bowlin	191
Meckler	98		
Rowland	97		
Total	591	Total	310

Owl Basketball Team To Practice Monday

There will be an Owl Basketball practice Monday, Oct. 17, at 9 a.m. The session will be held at the G-E Club gym. Players are asked to bring their own equipment.

G-E Club To Hold Open Bowling, All-Star Exhibitions Saturdays

There will be open bowling at the G-E Club from 3 p.m. until 11 p.m. this Saturday and every Saturday thereafter.

Featured tomorrow night will be an exhibition by the Fort Wayne All-Star League, and they will appear every fourth week at the Club alleys.

One of the top bowlers in the league is G-E's own Eddie Kraft, 1949 state all-events, and G-E tournament all-events and singles champion. Others include Frank Carr, Everett Scott, Jr., Bob Ramsey and Porter Pace.

The following is some data on the various league members:

ALL STAR LEAGUE

Standing	W	L	T.Pins	Ave.	HSG	H1G	Stks.	Spra.	Splts.	Ers.
Helmsing's, E. Kraft	19	5	3952	293	1078	238	72	78	6	6

b2 (Note) Kraft won tie game from Muesing.
Schedule for Oct. 15, 7 p.m. G-E Club.
1-2 E. Kraft-E. Lester; 3-4 C. Huffman-H. Patterson; 5-6 H. Muesing-E. Scott; 7-8 R. Vaugn-R. Ramsey; 9-19 F. Carr-D. Stump; 11-12 R. Sawyer-P. Pace.

INTERDIVISION VOLLEYBALL LEAGUE TO OPEN SEASON NEXT WEDNESDAY NIGHT

The Interdivision Volleyball League season will open Wednesday, Oct. 19, at the G-E Club gym. Playing time will be from 6 p.m. to 10 p.m. every Wednesday.

Any team or person interested in playing volleyball this year can get further information by calling Hubert Meyers, Taylor St. Extension 487.

Team captains and their extension numbers are: Winter St., Bill Burtzner, 225; Taylor St., George Cowan, 355; Apprentice Draftsmen, Jack Kirlin, Bldg. 4-6, 2148; Apprentice Machinists, Dick Wagner, Bldg. 12-2, 739; Main Office, Ray Soughan, Bldg. 26-2, 695; General Tool, Jack Schemeborn, Bldg. 19-4, 557; Small Motor, Harvey Von-Guten, Bldg. 4-6, 2890, and Squares, Hugh Folsom, Bldg. 4-6, 379.

TOUCH FOOTBALL LEAGUE SCHEDULE IS ANNOUNCED

The Touch Football League is now in its second week of play. The games to be played Tuesday, Oct. 11, were rained out.

The following schedule will be played next week:

Tuesday, Oct. 18

7 p.m.—Test Engineers vs. Messengers

Firemen vs. Works Lab

8:15 p.m.—Transformer vs. Tool Division

Apprentice School vs. Winter St.

Thursday, Oct. 20

7 p. m.—Apprentice School vs. Messengers

Test Engineers vs. Firemen

8:15 p.m.—Works Lab vs. Tool Division

Transformer vs. Winter St.

Elex Shifts Schedule Coca-Cola Plant Tours

The first shift girls of Elex will have a Coca-Cola party Monday, Oct. 24, at 8 p.m. The main feature of the evening will be a tour through the Coca-Cola plant, corner of Pontiac and Lillie Sts.

Following the tour, a buffet lunch will be served through the courtesy of the Coca-Cola company. Special favors will also be given. A reservation fee of 25 cents will be charged.

The second shift girls will tour the plant Thursday, Oct. 20, as their season's opener. Members are to meet at the Coca-Cola plant at 11 a.m. A luncheon will be served at the Ace Cafe following the tour.

Reservations must be made sometime today. Tickets for the meeting are $1 each.

PENSIONER PARADE

It will be "ship ahoy" for Simon Bugo the first of next month. He will sail from San Francisco Nov. 1 for his homeland, the Philippine Islands to visit his family. This will be his first trip home since before the war. Simon plans to stay at the Islands six months, but if he can get an extension to his visit he would like to remain there a year. One of the first things he hopes to do is visit the old swimming hole to see if it is still there after all these years. Here's wishing him a bon voyage. . . . Helen Engle, Bldg. 4-3, talked with Bertha Piper recently. Bertha says that the thing she enjoys most about being retired is the 40 winks she gets after seeing John off to work. . . . Jack Singleton was in to see his friends in FHP Div. 1 last week. It was good to see you, Jack, drop in more often. . . . Lillie Benz is coming back from California.

MAJOR'S UTILITY STRENGTH

Dick Bueker

Don Ewing

Dick Bueker, reserve outfielder, and Don Ewing, dependable infield replacement, gave the G-E Club's Major softhall squad that much-needed reserve power this past season.

The consistent losing of the New Haven football team has taken all the enjoyment from Paul Kennerk's new private box overlooking the field. After every game he crabs to Kenny Guisinger, whose boy in on the team, but Kenny always has an iron-clad alibi. . . . Ben Bennett has been generous in passing out slightly used half tickets for the New Haven movie house, but to-date no one has tried to gain admission with them. . . . When Irma Miller discovered a loose heel on her shoe, she did a repair job as efficiently as a professional cobbler—just another in her long string of accomplishments. . . . The weatherman's lack of co-operation with vacationists last week put a definite hamper on Martin Brown and Gayle Stripe. Brownie was planning to cut corn with Gayle's assistance after he had finished his painting. The paint is still in the can; the corn in the field; but if this present bit of belated summer keeps up they may both finish their tasks. . . . As last Thursday drew to a close True Sheets smugly assumed his birthday was to pass unnoticed, but not so, for just as the quitting buzzer sounded, a couple of choruses of Happy Birthday by the group saluted him. . . . Jake Harshman and Fred Bailey are vacationing this week. Not taking us into their confidence as to how they will spend the time, we can assume that Freddie is probably tucking his rosebushes into their winter snuggies and Jake is more than likely changing oil in his newly patented wheelbarrow and hose. . . . Bill Shuler and Charlie Curtis escorted their spouses to Chicago over the week-end to see "Kiss Me Kate" and visit some of the interesting spots of the big city. Outside of the fact that Charlie struck up an acquaintance with his usual redhead, the week-end was uneventful. . . . Lola Whitacre livened up an otherwise dull Monday morning by arriving with a pair of non-matching shoes. Even she was blissfully unaware of it until mid-morning after the news became public.

"Abe" Mertens

Willis Mertens, Bldg. 4-2, might be considered a 20th century Abe Lincoln. He recently completed his home, above, on South Dale after a year and a half of construction. Willis built the five-room Oregon log house entirely by himself.

M. B. A. SICK LIST

Clara Hoeh, Mattie Brunner, Irene Snyder, Mildred Geerken, Basil Squires, Lois Emmert, Elmer Fuhrman, Chester Pens, Martin P. Vogel, M. Marie Welch, Harry Kessler, Helen Babb, Pauline Gnau, William Meek, Rachel Mounsey, Luella Knoche, and Constance Hille.

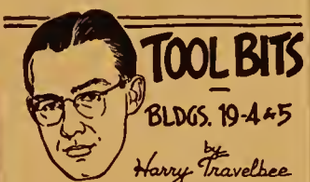
Returned to Work

Lloyd Forsythe, James Laisure, Betty Gates, Paul Johnson, Katherine Biltz, Gladys Bracht, Patty Rogers, Bobby Black, Joe Adam, Lloyd Forsythe, Inez Green, Delbert Meyers, and Maxine Lonergan.

$150 Award Is Presented For New Idea

Miriam Valentine, Bldg. 17-1, recently received $150 for a suggested change in the purchase of certain parts for FHP Div. 19. She is shown receiving her award check from Virgil Hartman. Attending the presentation are: (l. to r.) Barbara Yingling, Iona Foster, Mr. Hartman, Miss Valentine, Betty Sue Morris, W. H. Franke, FHP Divisions 19 and 20 Supt., and Voyce Brumbaugh.

First of all we extend our sincere wishes for a speedy recovery to Marie Welch, who is recovering from an operation. We hope to see you in the pink of condition and back with us soon, Marie. Also we'd like to wish Marie a very happy birthday, belated of course, but none the less sincere. . . . Charlotte Daun and Helen Elbert also celebrated birthdays on the 4th and 5th respectively. Happy birthday to you two gals. Here's a birthday wish that isn't belated for C. L. Saurbaugh whose birthday is tomorow. . . . I suppose that there is hardly a one among you readers who hasn't heard the familiar old saying "Experience is the best teacher." For the benefit of you girls or fellows, as the case may be, and always trying to do a good deed your Ed herewith conveys the harrowing experience Rae Smith encountered with some limp old carrots. No doubt, you have all seen radishes and carrots that are as limp as an old dishrag, well such was the product facing Rae. Seeing these limp old carrots, and being a very thrifty young lady, Rae decided to revive them if she could. First a glass, then the carrots into the glass, then fill the glass with water, there the job was all done. Several hours later Rae decided to give the carrots a look see since she was sure that by now they would be all perked up. Would you look at those carrots, swelled up so tight in that glass that no amount of prying or shaking would budge them. Sometime later and with tiny bits of carrot spread haphazardly over the whole room Rae finally gave up. I'll bet a cookie that from now on Rae will put her vegetables in a nice big pan to let them do their swelling. . . . Lucky C. "Buck" Buchanan is back this week after spending his third week's vacation in Michigan. . . . Ray Quinn is looking for a good dog. Anyone having any information about such a dog please notify Ray. . . . With the Works Service division's new clean up committee checking around for any unclean spot everyone is trying to keep out from behind the eightball by keeping everything spic and span. However this week Regional Warehouse has the eightball.



Doctor Riddance

If "an apple a day keeps the doctor away," Harvey F. Adair, Bldg. 6-3, should have no worries for two days with the double apple he found in his orchard. Although the apple has two cores, it has one stem and is joined "Siamese-twin" fashion on the sides.

Freeman To Address Dinner Meeting Of Decimal Minute Men

I. H. Freeman, Supervisor of Personnel, will address a dinner meeting of the Decimal Minute Men Monday, Oct. 17, at the Chamber of Commerce. His topic will be "Putting Power to the Wheel."

The fellows of Walter Greiner's section went out to Bob Truelove's farm last Friday evening and cut a bee tree. According to reports, only Woody Hursh and Marion More got stung. Elmer Sauerwein, protected by his son's bootball helmet, a mosquito net and a pair of hip boots, retrieved the honey. Don Alcott and Walter Greiner took credit for felling the tree, and Bernie Byanski did a lion's share by building Bob and Mabel Truelove a new driveway across a newly seeded lawn. . . . Art Dicke and Henry Frey must have been acting as sentrys from their posts 50 yards from the tree. Glen Ramsey bought his honey at his neighborhood store. Claims he had two flat tires near Huntertown and had to turn back. . . . Russell Jones thought Bill Jeffries wasn't very sociable by not getting out of his car, but Bill thought Russell's dog overdid his friendly act when he floored Bill on the last trip to the Jones' ranchero. Bill retired recently. We hope he doesn't have anymore fall outs with the Jones' dog. The fellows all wish you the best, Bill. . . . Every once in a while, we run across a fellow who has a rare collection of stamps, insects, or stones and we just have to stop to admire one who has patience enough to gather a collection of any interesting items. Speaking of collections, we feel that we should mention one of the boys in Bldg. 19-5 who has an unusual collection of tickets. He was displaying them last week, but for some undisclosed reason, he wasn't just too proud of them. Maybe you can guess why. When we tell you that the tickets are small and pink and they were placed on his car and he has four of them. Now this fellow works on the shaper in Bldg. 19-5 and he just bought himself a new pair of glasses which might help to keep him from getting anymore of those nice pink tickets. . . . Scott Click and his family left Friday evening, Oct. 7, on the Trail Blazer for New York City where they will be staying at the Knickerbocker Hotel. They plan to see all the interesting sights in the big city while they are vacationing there. . . . One of the boys in the mill section drew two numbers on the baseball pool, but was dissatisfied, so he traded one of his number sevens (he drew two sevens) for another number (number nine), to find later that the seven he traded was a winner. Better stick to your first choice next time, Clem. . . . Paul Schoeff is going to find the fish now and there won't be any stalled outboard motor to slow him down because he feels that he really has the outboard motor situation under control now. Don't look now, fellows, but it's a brand new 1950 five-horse Johnson. . . . Today is Ed Steward's birthday. The whole gang from Bldgs. 19-4 and 19-5 wish you a mighty happy birthday, Ed.

Children are small people not allowed to act as their parents did at that age.

The Norb Gicks have an increase in the family—a cute little puppy. . . . Paul Gressley went to the Brookfield Zoo last week-end. He said monkeys are the craziest people. . . . Emma Lytal is thinking about going back to Wisconsin for one of those king size steaks. . . . Hazel Dilworth was admiring her picture in the paper last week. . . . Leatha Hey went to Milwaukee last week-end. She brought back some beautiful pictures. They weren't all scenery pictures either. . . . You can never tell where Hilda Vance is roaming around at. She was seen on the streets of Buffalo, N. Y., last week-end. . . . Emil Schurenberg just came back from his vacation. . . . Anyone wanting to know how to beat the new city ordinance in jaywalking, see Ralph Braden. . . . The boys said Paul Peterson would have to bring smoke back in a can to make them believe he was any farther away than New Haven on his vacation. . . . Anyone wishing information on how to get out of working inventory, see Mel France. . . . Warning: If you are buying any wood from Lee Gamble, be sure he leaves before you go into the house, or he will take half of it back with him. . . . Bill Fowler entertained friends at Peabody, Ind., last Wednesday night. . . . We hear Tom Hildebrand is recuperating from his recent operation. He is now allowed visitors. . . . Anyone wishing to purchase cosmetics, see Lee Gamble. . . . Norb Sordelet wonders why his name never appears in this paper. . . . By the grapevine we hear Ray Horstman is going to raise pet rats on his newly acquired ranch. . . . Mabel Odell transferred to third floor. . . . Dick Gollar has served an eviction notice to Herman Conrad for not turning off his lights at 9 p.m. . . . There was a terrific explosion on the east end of the floor. We found out that the camera flew up when Frank Schlotter had his picture taken for 35 years' service with the Company. Anyway, congratulations, Frankie. . . . Otto Braun took last week off so he could chauffeur Paul Peterson around on his vacation. (P.S. He borrowed Joe Troendly's new Packard.) . . . Congratulations to Eva Hickman who is wearing a beautiful sparkler these days. . . . Lloyd McNamara should have a little helper to carry his bifocals around for him when he stops to talk to people. . . . Theresa Lindenberg is looking for an accomplished seamstress to help her make that rag doll. . . . The local red hot Nosemeyer was made leading operator in the lead section. . . . Don Bahde came to work one day half asleep and then found out he had put on two different stockings. . . . Mary Ann Miller went to Chicago last week-end and saw the world series games over television. . . . Congratulations to Sally (Bryan) Doty who was married Sept. 16.

Zuercher Dies

William A. Zuercher, 49, of 317 Edgewood Dr., died Friday, Oct. 7, at 6:55 a.m. while working at the Taylor St. plant. He had worked for the Company 24 years. At the time of his death, he was a cylindrical grinder in FHP Div. 13.

He was a member of the Trinity English Lutheran Church.

Dr. Paul H. Krauss conducted services at 2:30 p.m. Monday at the Klaehn Funeral Home. Burial was in Lindenwood Cemetary.

FORT WAYNE WORKS
G-E NEWS
Volume 32 FORT WAYNE, INDIANA, FRIDAY, OCTOBER 21, 1949 No. 42

G-E Contributions To Community Chest Top Last Year's Average

Community Chest contributions from employees of the Broadway, Taylor St. and Winter St. plants soared to 103% of the quota set for 1949 and rolled up an increase of 12.1 per cent participation over last year, it was reported today by K. W. Michael, campaign chairman.

The average individual contribution per total employees was 18.3 per cent over last year.

The quota for the Fort Wayne plants this year was $45,000. A

(Continued on Page 3)

MBA Benefits Are Increased

130 Employees Receive Awards For Suggestions

One-hundred and thirty employees received a total of $1,970 in suggestion awards during the last four weeks, it was announced today.

Dorothy Johnson, FHP Motor Div. 16, headed the list with a $225 award. Her suggestion concerned crimping leads.

For his idea to install partitions in degreasers, P. A. Schoppman, FHP Motor Div. 13, received $150. Dewey A. Erne, also of Div. 13, was awarded $110 for his suggestion pertaining to winding machine pulleys. An additional award of $110 went to John L. Laymon, Sr., Specialty Transformer Div. 91, for his suggestion to change the die gauges.

Raymond Milliron, Tiffin Plant, received an $80 award for his idea to repunch sections. Fifty dollars went to John Driver, FHP Div. 13, for his suggestion of substituting

(Continued on Page 3)

Dorothy Johnson, FHP Div. 16, received $225 for her suggestion to change the method of crimping terminals to leads. The picture, above, was taken when Mrs. Johnson was presented her check. Left to right are: H. E. Boles, Supt.; V. R. Castle, General Foreman; Jack Dobson, Foreman; Mrs. Johnson, and H. A. Schultz, Suggestion Secretary.

Section Chairmen Vote Adoption Of Amendments Effective Nov. 7

The General Committee of the MBA, composed of section chairmen, adopted the proposed amendments to the constitution and by-laws of the Mutual Benefit Association at a meeting Wednesday morning.

The new benefits, which will become effective Monday, Nov. 7, are:

Article		New Plan
XI (4)	Maximum payable for employees plus dependents in any 12 consecutive months—does not include death benefit of $200.	$1600

Halloween Square Dance Is Planned For Oct. 28

All G-E employees, their families and friends have been invited to attend the G-E Club's Halloween Square Dance Friday night, Oct. 28.

The dance will be held from 9 to 12 o'clock in the G-E Club auditorium, and will be free of charge.

Two attendance prizes and awards for the most unusual and funniest costumes will be presented.

Music will be furnished by Joe Taylor's Red Bird band.

G-E Earnings Drop In Third Quarter

Reflecting in part the price revisions undertaken to stimulate business as well as the fluctuations in production schedule because of erratic demand, net earnings available for dividends of General Electric Company's consolidated operations in the first nine months of this year were $67,612, 879 or 19 per cent less than the $83,893,459 earned in the corresponding period last year, even though the net sales billed were 5 per cent more than in the same period last year. The Company's net sales billed during the first nine months this year totaled $1,190,372,404 as against $1,137,935,052 billed in the same period last year.

The earnings were equivalent to 5.7 cents on each dollar of sales this year as compared with 7.4

Foremen's Association To Hold Ladies' Night

The Foremen's Association will hold its annual ladies' night in the G-E Club auditorium Wednesday, Nov. 9, Everett Lindeman, president, announced today.

ELSA MAXWELL TO SPEAK AT ELEX DINNER NOV. 7

Elsa Maxwell, noted entertainer, will be featured at the next Elex meeting for first shift members.

Elsa Maxwell

The program will be held Monday, Nov. 7, at the G-E Club auditorium. Dinner will be served from 4:45 to 6 p.m.

Tickets for members are $1, and the price includes the dinner. Nonmembers may attend the program at 6 p.m. by paying the $1 admission. Reservations must be made with contact girls on or before Thursday, Nov. 3.

111 Delegates Attend First Inter-Club Conference

The first Inter-Club conference of G-E women's organizations was held Saturday and Sunday at the Palmer House in Chicago. One hundred and eleven delegates attended the two-day convention, representing clubs in Illinois, Indiana and Ohio.

The Saturday afternoon session opened with a welcome by Irene Meyers, Elex advisor. She stressed the theme and slogan of the conference, "Hand of Friendship" and "Forward Thinking." The two mottos were linked together throughout the week-end.

Mary Leiter, Elex president, then presided over the first business meeting. At this session, reports from the five clubs were given concerning their various service, social, trips, and finance projects.

(Continued on Page 4)

The 111 delegates paused before the Saturday evening dinner at the Inter-Club Conference to pose for their official picture.

Our Country Pays Tribute Monday To The United Nations And Peace

United Nations Day will be celebrated throughout the United States on October 24 this year, marking the day on which the charter came into force four years ago for this organization dedicated to world-wide and universal peace.

Sparked by a Presidential proclamation, United Nations Day will see hundreds of thousands of Americans paying tribute both to the achievements already accomplished by the UN and to the laudable ones still on the roster.

The General Assembly of the United Nations just recently went back into session. Each time the Assembly meets there are many, both in the thick of it and on the side-lines, who hope that the new gathering may be the one which will find the magic formula to assure all the world of a secure peace. The new president of the Assembly, Carlos P. Romulo of the Philippines, gave voice to this hope in his first remarks to the body. He pointed out that the Assembly last met in Paris under a heavy threat of a new war, and that now this threat has largely dissolved. This session, he hoped, might earn the title "peace assembly."

Probably there will be no one session which can win that title, at least not until long afterward when the full results of each session's work can be appraised. Great wars develop slowly. Looking back over them in after years, historians my place a finger on any of several events and say that here war really began, or here it could have been prevented, or here it became inevitable. No one can be sure which was really the key event. A secure and lasting peace will develop slowly, too, and probably no one will ever be able to say that one particular event accomplished it. If that peace is obtained through the United Nations, it might be said that the creation of the United Nations, in the midst of war, was the birth of peace.

But that was only the beginning, and it is only the beginning which has yet been made. As individuals and as a nation we must have faith in the slow growth of a great organization, perhaps of a great peace. It needs the support and help of our strength and energy, and of our earnest interest—the interest of the people of America.

What Is The Greatest Standing Offer Ever Made?

The greatest standing offer ever made has been in effect since the days of the colonists.

It is this—reward for extra effort.

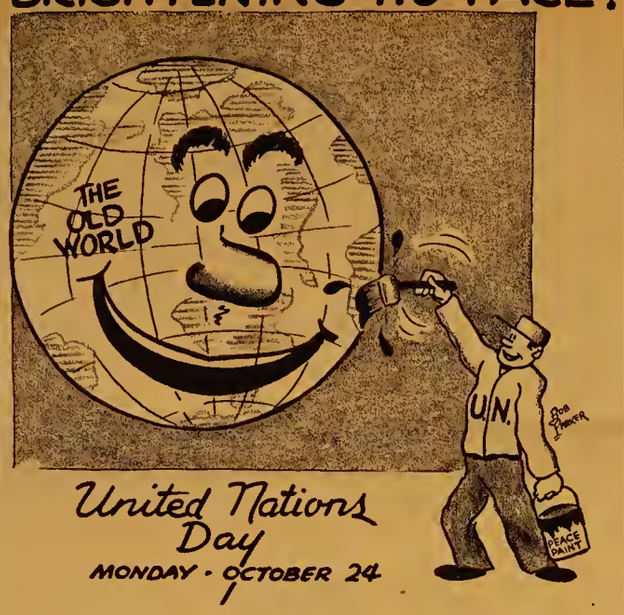
It is a basic fact of human nature that people will work amazingly hard if they get something extra for doing it.

Through the years it has stimulated Americans to invent new and better machines—to invest in new enterprises . . . to create the world's greatest industrial plant . . . to compete in free markets.

By increased use of machine power on our mass production lines, we have been able to lower costs—to produce more for every hour we work than any other people on earth.

Our productive efficiency has resulted in constantly higher wages and shorter hours. Our labor has the right to choose jobs, to organize and bargain collectively.

No wonder that the United States, with only seven per cent of the world's population, produces as much material wealth as all other nations combined. No wonder so many other countries are looking to us today for help and guidance.



Our American system has its faults. We all know that. We still have sharp ups and downs of prices and jobs. We'll have to change that—and we will.

Business and Human Relations

"This is still a restless, ever-changing society, forever clamoring for the things that will make it better—to improve the conditions of home, office, school, and factory, and to speed the transportation of men and goods. To this healthy material progress and attitude, we must now bring a new understanding of human relations—a correlation of conflicting and diverse factors—a higher co-operation. Business has been a great civilizer; it can be a better one."

—Charles E. Wilson, President

BRIGHTENING ITS FACE!

It's Your Federal Government

A Career In Government

By Robert L. Johnson

Editor's Note: Following is the third in a series of articles describing the major findings of the "Citizens Committee for the Hoover Report". These articles are written by Robert L. Johnson, President of Temple University and Chairman of the committee. This committee is a voluntary, nonprofit, nonpartisan organization of leading citizens which has undertaken the task of informing the public of just what reorganiztion means and what the Hoover Commission recommendations, if enacted into law, will mean to each individual and to the nation.

As the largest employer of civilian workers on this continent, the United States Government, it must be admitted, has a lot to learn about personnel relations and procurement.

Its total civilian payroll lists over two million employees, who draw combined annual salaries of more than $5.6 billions. And yet these employees, although protected by Civil Service regulations and other safeguards, voluntarily quit their jobs at a rate of about 500,000 a year.

Obviously there is something wrong with a concern from which every fourth worker resigns. In the years 1945-48, inclusive, the government lost 3.9 million workers and hired 2.8 million, making a total of 6.7 million personnel movements in three years.

Turnover Is Expensive

This turnover has been very expensive and wasteful. The cost of processing and training replacements reaches astronomical figures. Members of the Hoover Commission task force pointed out that a saving of only 10 percent of the government's payroll costs of $6.5 billion would mean an annual saving of $600 million.

The Commission made the interesting discovery that discharges for cause from the federal employment are very rare. The task force studied this question closely. It concluded that the same percentage of government employees were prone to inefficiency, carelessness and disinterest in their jobs as in any other organization. Yet such employees are kept on, the task force found, because of the time and trouble entailed in discharging them.

It developed that it takes an average of seven months of red tape, hearings, appeals and paperwork to discharge an incompetent employee. One case was found in which a "stenographer", who was unable to take and transcribe dictation, was finally induced to resign after 21 months. No less than 45 specific charges of carelessness, incompetence, inefficiency, insubordination, — and worse — were proved against this one employee.

The report also studied the question of "empire building." This means the practice of some bureau chiefs in deliberately "building up" their own jobs and salaries by hiring unnecessary employees to do unnecessary work.

Commission Outlines Plan

The mission of the bipartisan Hoover Commission was to delve into this and some 24 other major problems of government and to make recommendations for economy and efficiency. The Commission, in a 19-volume report to Congress found ways in which, I personally believe, at least $4 billions a year can be saved without curtailing government services. President Harry Truman and former President Herbert Hoover are jointly urging Congress to pass the laws that will make these savings possible.

In the field of personnel management the Commission suggested:

That each government agency set up its own recruiting service. At present, all recruiting is handled by the Civil Service Commission.

That the heads of agencies interest themselves in obtaining career employees of high calibre and in their advancement.

That salary ceilings be raised for career employees.

That greater efforts be made to place qualified veterans in civil employment.

When the Civil Service Commission was created in 1883 it had control of only 10 percent of all applicants for federal employment. There were then about 100,000 federal civil employees. In the interest of fairness, the Commission applied the merit system and obtained workers through competitive examination. At that time this system was satisfactory.

But when the federal payroll expanded into the millions, and about 1,500 different skills were required by government, the system became inadequate. But it has not been changed. Today there are sometimes 250,000 applicants for a single nation-wide examination.

A man with outstanding abilities needed by government cannot, as in private employment, go to the head of the appropriate agency and apply for a job. He must wait for the announcement of an examination in his line. If he passes, he may get a job. Even if he does, the time required from the first application to his actual appointment may be as long as nine months. Most of this is carried on by correspondence in a vast haze of paperwork and form-filling. The Hoover Commission discovered that more than 40 percent of all eligible candidates got tired of waiting and dropped the idea during this waiting period. The Commission's suggestion for agency recruitment will overcome this condition.

Two Groups Polled

The task force received some revealing opinions of the government as an employer from two interested groups. A poll of former government employees resulted in 300 replies which were almost identical. They all said that their reasons for leaving the service were (a) the low rate of pay and, (b) slow advancement in the service.

Similar reasons were given by 3,448 seniors in 92 colleges for not wanting to work for the government. Only one in four expressed any desire for federal employment.

The scales of pay, the Commission reported, vary among different agencies, where five different pay policies are in force, and even within the same agency and the system is topheavy with personnel workers. The government employs 23,430 personnel workers at a combined annual salary of $76 million. This is one worker for every 76 persons on the payroll and, in some instances, one for every 38 employees.

The Citizens Committee for the Hoover Report, a strictly non-partison, nation-wide group, is now disseminating information about the Hoover Report and its possibilities. I hope you will be interested because you, and all the rest of us, must pay, in increased taxes, for government waste and inefficiency.

Employees Are Requested To Check Insurance, MBA For Correct Beneficiaries

All employees are requested to check their additional insurance and free insurance policies, as well as their MBA, for correct beneficiaries.

130 Receive Awards For Suggestions

Charles Druce, Bldg. 26-1, earned $40 for his recent idea to install a small sand-blast barrel in Bldg. 26-1. This suggestion eliminates the necessity of taking parts to Bldg. 26-B for sand blasting. Walter Wolf (left) and Mr. Druce are shown, above, looking over the application of the suggestion.

(Continued from Page 1)

V belts for chain drives on the P and J lathes.

Clarence Seslar, FHP Div. 14, received $45 for his suggestion pertaining to the conveyor in the shaft section. For his idea to install a sand blast barrel in Specialty Transformer Div. 91, Charles Druce received $40.

A Decatur employee, John Loshe, was awarded $30 for his suggestion for plate-capacitor covers. Joseph T. Troendly, Specialty Transformer Div. 94, and Erich J. Gewehn, of the Motor and Generator division, each received $25 awards.

Cigarette lighter winners for the week ending Sept. 17 were:

Motor and Generator Div.: Arnett Clauser, Richard Grote, George Fields, and A. R. Keller; FHP Div. 33: Roger Crabill and George Miller; Specialty Transformer Div. 94: Ned Greulach and Murry Sherman, and Tiffin, O., plant: Ralph Grunder and Hiram Hippler.

Those receiving awards ranging from $5 to $20 are listed below:

FHP Motor Div. 13: Maurice E. Jacobs, John L. Bailey, Freda B. Bunnell, Hobert Winebrenner, Mable M. Miller, John T. Repine, Lindsay E. Eastes, Donald Long, Jacob Allstetter, and Richard Pemberton.

FHP Motor Div. 14: Alverna L. Crowell, Donald W. Sterling, Martha J. Lee, Robert M. Turschman, Clarence W. Rothgeb, Esther E. Watson, Glenn F. McNamara, and R. F. Sealover.

FHP Motor Div. 15: Walter Amacher, Gerald Meeks (two awards), Edwin C. Rodenbeck, John A. Craig, Rudolph A. Becker, Richard Evans, Henry E. Vance, Harold J. Cunningham, Dallas R. Emberlin, Eugene F. Berg, Herman C. Macke, Neil Anderson, and Milton E. Roller (two awards).

FHP Motor Div. 16: George Eshelman (two awards), A. D. Feighner, Charles Hayden, Irene M. Bristol, Cliff Dowden, Albert R. Wickliffe, Juanita V. Likens, Velma M. Seibt, H. K. Beam, William G. Martin, and Dorothy F. Askren.

FHP Motor Div. 17: Homer H. Huser, Norman Wolf, Norman A. Hughes, Ralph J. Begue, Carl Kuzeff, John W. McKee, Joseph Eifrid, and Robert D. Rodgers.

FHP Motor Div. 19: Lloyd Foulkes.

FHP Div. 33: Philipp H. Kraft, Roger R. Crabill (two awards), Robert L. Todd, Betty J. McPherson, and Earl D. Stauffer.

Decatur: Richard Mailand.

Tiffin: James Turner, Virgil R. Spitzer, Clive Lupton, Addie F. Wenner, and Donald Welty.

DeKalb: J. Donald Ramsey (three awards), Ivan E. Prall, Vincent Hayes, and Walter Gibson (two awards).

Specialty Transformer Div. 91: Donald C. Ford (three awards), Mearvin E. Ruhl, Martha Newell (two awards) Arnold B. Ley, Avenel Stanton, Fred Wellensiek, and Paul Noffze.

Clarence Sealar, FHP Motor Div. 14, was awarded $45 for his suggestion concerning changes in the conveyor, making it possible to eliminate placing shafts into stock. He is shown at the right, above, being congratulated by William Skevington, General Foreman.

Specialty Transformer Div. 94: Eugene A. Scherer, Virginia Reed, Max W. Lydy (two awards), Phil A. Roberson, Frank F. Schultz, Jr., Walter Mertz (two awards), Bronson E. Miser, Levi C. Carpenter, Mary B. Reed, Zella M. Clutz, J. Virgil McKeeman, Charles Wrisk, Elma E. Berger, Arthur F. Pequignot, Olen I. Lehman (two awards), Fredrick Leinker, Earnest Pfeiffer, Edward M. Dullaghan, Robert L. Richardson, Harry M. Rollins, Gertrude Kummerant (two awards), James P. Locker, and Donald E. Waldrop.

Motor and Generator Division: Lester Patton, William C. Klepper, Raymond D. Stout, and Arnett Crittenden Clouse.

Wire and Insulation Division: Amel D. Beck, Robert G. McCollister, Arthur G. Gardt, Earl E. Glass, Virgil S. Nash, and Louis A. Dasher.

General Service Division: John Madden, Clifton J. Mugg, Dorsey Wendell, Homer A. Markley, and Raymond Bailey.

Distribution Division: Charles Strong, Arthur E. Thompson, Grover M. Wheeler, Ruth E. Moodie, Gladys E. Sorenson, Herman Ebel, Faye Alexander, and Granville Heck.

Waldschmidt Reviews G-E Hospitalization Plan For Pensioners

Provisions of the G-E Pensioners' Hospitalization Plan, which became effective Sept. 15, 1948, were reviewed in a statement issued today by George Waldschmidt, of the Personnel division, as a reminder to all pensioners.

The plan, which was first announced just a year ago this week, allows $5 a day for hospitalization, plus $25 for special services given by a hospital. Pioneering in a new field of hospitalization insurance, the experimental plan provides hospitalization benefits for pensioners at no cost to the pensioners.

Pensioners Given Booklets

Provisions of the plan were mailed to all eligible pensioners last year.

"Many have mislaid the booklets and have forgotten about the benefits from the plan," Mr. Waldschmidt explained. He urged that pensioners keep the booklet in a safe place for future reference.

Funds for payments of benefits under the plan are held in trust covering retired employees having at least 10 years of continuous service at the time of their retirement. It is hoped that the experience gained from the plan will enable the continuance of similar protection through Mutual Benefit Associations and insurance plans.

Provides Hospitalization

The plan provides that the $5 allowance will be toward the room charge for each day that an eligible pensioner is confined as a bed patient in a legally constituted hospital. The $25 for special hospital services is applicable to each separate admission to a hospital, even though the pensioner may not be a bed patient.

Under the plan, total maximum benefits are limited to $250 for any one pensioner during his lifetime. Benefits are not obtainable where hospitalization is available free of charge, or for any accident or sickness entitling the pensioner to benefits under any Workmens' Compensation Law, Occupational Disease Law, or similar statutes. Benefits cannot be used for payment of charges made by doctors, surgeons, or nurses, or other charges not made by the hospital.

Benefits are payable directly to the hospital rendering the services, to the claimant, or to any person the Pension Board may determine is best fitted to receive or administer the benefits to such pensioner. Payments are made on a reimbursement basis for charges actually billed by the hospital.

G-E Contributions

(Continued from Page 1)

total of $46,581 was contributed by employees at the three plants. A contribution from the Company of $12,000 sent the total contribution for the 20 Red Feather agencies to $58,581.

"I would like to thank all the solicitors and contributors for doing such a fine job in putting us over our goal," Mr. Michael stated.

Schoppman Receives $150 For New Idea

Paul A. Schoppman, FHP Div. 13, received $150 for his idea to put a partition in degreasers to save cleaning fluid. In the picture taken when he was awarded his check are: (l. to r.) George App, Mr. Schoppman, George Reker, and Frank Calkins.

Michigan Visitor: On one of our recent sunny days, Veda Orff went to Michigan to spend a few days with her brother and sister-in-law. It was good news for all when we heard she was able to make this trip. . . . **Back to Work:** Alta Mayle is back on duty. Her brother-in-law is improving slowly from a polio attack. . . . **Fancy Vegetable Grower:** Wonder if all of the vegetables in Mae Mulvane's garden grow in odd shapes. Could it be Ossian's soil? . . . **Opening Session:** The first meeting of the N.E. District Industrial Nurses Association was held last week. Berneta Welbaum, Lyle Rupert, and Olive Walters attended the meeting. . . . **Fair Time:** Many faces from the Medical section were seen on the midway at the Decatur Fair last week. . . . Lyle Rupert attended the organ recital at Hartford City last Sunday.

111 Delegates Attend Inter-Club Conference

(Continued from Page 1)

Forward thinking and friendship was again stressed at the Saturday evening banquet. Norma Grimes, President of Danville's DanGee, was toastmistress, and the DeKalb club was in charge of the decorations.

C. H. Matson, Works Manager; I. H. Freeman, Supervisor of Personnel, and Stuart Monroe, Supervisor of Personnel at DeKalb, each gave inspiring talks on the themes. Following the speeches, a song-fest was held, with each club contributing their club songs. Mary Smith, President of Gen-E-Deks at DeKalb, then sold tickets on a necklace to be given at the Sunday dinner, which Mary Leiter, of Fort Wayne, won.

After an impressive devotional period led by Irene Meyers, the Decatur GeCode president, Mary Fenig, presided over the morning session. At this meeting, the possibility of future Inter-Club conferences was discussed. Gay Kohlenberg, of Tiffin, and Louise Barthold, Cleveland, expressed the desire of continuing these conferences.

During the morning session, Miss Meyers outlined the advantages of such a conference. To illustrate her talk she had four rings to link together to make a strong chain. These links were titled Production, Character, Spiritual and Americanism.

Kathryn Cullen, Partizan President, presided over the Sunday luncheon in the Crystal Room. The Partizan chapter and Decatur had charge of the decorations, which carried out the theme of the meal, "Links of Tomorrow." Miss Fenig then continued the meeting with a discussion of future projects. Two plans decided upon were a blood bank service and special recognition of the various clubs' members retiring.

The conference was closed by an inspirational candlelight service. As the delegates entered the convention room, they lighted candles from those of the presidents and formed two complete circles of light. Miss Meyers then conducted the impressive ceremony which closed with the hymn, "God Be With You."

During the Sunday dinner, the Partizan chapter presented a song about the Inter-Club conferences. The following song was then adopted as the conference song:

INTER-CLUB SONG

(Tune of Clementine)

Forward thinking, building friendship,
We're united in the main,
If we work and play together
It will form a mighty chain.
Inter-club, inter-club
Linked together in our aim
Keep your eyes on the horizon
And we're sure to win the game.

Some men spend so much time trying to make a living that they forget to make a living.

Presidents of the G-E women's organizations at the Inter-Club Conference in Chicago last week are shown, above, with I. H. Freeman, Supervisor of Personnel. Standing: (l. to r.) Kathryn Cullen, Elex Partizan Chapter of Fort Wayne; Mr. Freeman, and Mary Smith, Gen-E-Dek of DeKalb, Ill. Seated: (l. to r.) Mary Leiter, Elex; Norma Grimes, DanGee of Danville, Ill., and Mary Fenig, GeCode of Decatur, Ind.

We have finally discovered who is the bravest man in the shipping section and it's none other than Bob Gebert. Bob, single handed, defended all the gals in the traffic section from a very furious mouse. We bow from the waist to such gallantry. . . . From all reports the Elex girls who attended the conference in Chicago last week-end, namely Eva Westrick and Betty Millhouse, had a marvelous time. . . . Last week was vacation week for Sarah Harris and can you imagine anyone on vacation getting up at 5:30 (yes, there is such a time) to help deliver papers. Will wonders never cease. . . . This past week found Herb Grueb enjoying his third week's vacation. Those people who are enjoying their third week's vacation this month are certainly receiving Mother Nature's nod of approval for I've never seen lovelier weather. . . . Happy Birthday to Ludella Conrad, who celebrated that pleasant day last Wednesday. Also may we be the first to wish the very happiest of birthdays to Emma Meyers on next Tuesday, and to Mary Ann Obrien next Thursday.

Elex Plans Style Show

Elex Club will hold a card party and style show featuring fall suits and furs at 8 p.m. Wednesday, Nov. 2, in the G-E Club auditorium. Tickets are 50 cents.

Table and attendance prizes will be given during the evening. A suit will be given as an attendance prize. Later in the evening, refreshments will be served.

Betty Puff, Bldg. 4-6, is in charge of the arrangements. Helen Brindle, Bldg. 26-2, and Alice Dahman, Bldg. 4-5, are assisting her.

Definition of a baby sitter: "One who accepts hush money."

Worry is like a rocking chair, it will give you something to do, but won't get you anywhere.

MBA Benefits Are Increased

(Continued from Page 1)

	Coverage A—Employees Disability	
XI (5A)	Disability Maximum in 12 months	$3.60 per day—five days per week—$252.
XI (5B)	Hospital Benefits	$7.50 per day for first 27 days. $5 per day for next 100 days.
	Hospital Extras	Up to $50 for each period of hospitalization. Also up to $15 for each out-patient visit to hospital up to maximum of $50.
	Maximum reimbursement for above	Maximum of $802.50 in 12 months.
XI (5C)	Surgical Benefits	Up to $175 in any 12 months.
	Coverage B—Dependents Benefits	
XI (6A)	Hospital Benefits	$6 per day for 27 days. Maximum in 12 months.
	Hospital Extras	Up to $40 for each period of hospitalization.
	Maximum reimbursement for above	$202
XI (6B)	Surgical Benefits	Up to $131.25. Maximum in 12 months.
XI (6C)	Maternity Benefits	$100 for normal delivery. $150 for Caesarean. $150 for extra-uterine delivery. $75 for miscarriage. Up to $25 for miscarriage where no hospitalization is involved.
XII	Weekly Deductions	$.55
	Class A—Employees	$.55
	Class B—Dependents	$.55

Another Act Is Added To Program Of G-E Club's Annual Fall Revue

"Pansy, the Horse" has been booked for the G-E Club's annual Fall Revue Saturday and Sunday, Nov. 5-6, it was announced today.

This brings the number of acts to three. More are being planned pending negotiations.

The revue is free to all employees and their families.

Andy Mayo's "Pansy, the Horse" is fast becoming an American institution. Other than appearing at leading theaters and clubs throughout the country, Pansy has also been featured in several motion pictures.

The first two-men-in-a-horse act wasn't a horse at all, but a donkey. Andy Mayo's great uncle in Italy, a sculptor and mask-maker, created a comical-looking donkey to entertain the village children when their pet animal died. It wasn't long until neighboring towns heard of this funny donkey and soon it joined traveling plays, musicals and vaudeville, gradually becoming famous throughout the European continent. This was about 55 years ago.

When Andy Mayo decided he would follow in his uncle's footsteps he set about to perfect the motions of the horse. The only way to gain this knowledge, he decided, was from the horse itself. So, night after night, he would trail along after milk wagons, making notes of every movement the horse made. Finally he was ready to present Pansy. The continued success of this offering has proven his painstaking study to be worth-while.

The revue will be given at 7 p.m. and 9 p.m. Saturday, Nov. 5, and at 1 p.m., 3 p.m., and 5 p.m. Sunday, Nov. 6. The free tickets will be available beginning Monday at the G-E Club candy-stand. Employees may get as many tickets as are allotted on their membership cards.

Taylor St. employees may obtain their tickets at the Personnel or Employment office.

Pansy and her girl-friend, above, are one of the featured acts to be presented at the free Fall Revue Saturday evening and Sunday afternoon, Nov. 5-6, in the G-E Club auditorium.

Advanced Manufacturing Program Holds Meeting Here

Robert Wylie, General Superintendent, at the left above, is showing members of the Advanced Manufacturing Program a model of the Fort Wayne Works. Twelve members of the program were here for the three-day session this week.

The Fort Wayne Works was host this week to members of the Company's Advanced Manufacturing Program. The men were here for a three-day meeting of tours and talks on manufacturing.

The meeting was opened Tuesday by Robert Wylie, General Superintendent, who gave a description of the history of the Fort Wayne Works and pointed out the salient features on a model of the Works.

The group then heard talks on sales by R. C. Hanna, Assistant Manager of Sales for the FHP Motor divisions, and on design by J. J. Clarkson, Manager of FHP Motor Engineering. The direct order routine was then discussed by A. J. Rose, Production Manager of the FHP Motor divisions. I. H. Freeman, Supervisor of Personnel, was the luncheon speaker.

In the afternoon, the men viewed and discussed the FHP Motor material handling system with T. L. Staley, Supervisor of Planning. They also heard a talk on IBM tabulation methods and uses by N. J. Singleton and L. F. Krumbigel.

The remainder of the afternoon was spent discussing material purchase controls with W. R. David, Assistant to the Supervisor of Inventory Control and F. E. West, Assistant to the Purchasing Agent, for the Large Motor and Generator division.

Vetter Addresses Group

In the evening, a dinner was held at the Hotel Van Orman at which Mr. Freeman introduced W. C. Vetter, chairman of the Board of Works for the city of Fort Wayne, who talked to the group on the problems of management in a community.

A. V. Feigenbaum, Supervisor of Manufacturing Training for the Apparatus Department, conducted the entire session of training activity Wednesday. C. H. Matson, Works Manager, was the guest speaker at the luncheon.

Wednesday evening the group attended a second dinner at the Hotel Van Orman. M. E. Lord, Manager of the FHP Motor divisions, was the speaker.

Men Visit Wire Mill

The group spent Thursday morning viewing and discussing the application of the matching conveyor and the operation of branch plants with L. D. Hodell, Manager of Manufacturing for the FHP Motor divisions. The men also viewed the Wire Mill with H. E. Hire, Superintendent of the Wire and Insulation division.

In the afternoon, the group toured the General Tool division with C. A. Brenner, Superintendent.

The trainees then observed some special applications of carboloy with F. M. Metrailer, Supervisor of Methods, Planning and Wage Rate in the Large Motor and Generator division.

Horstman Conducts Tour

The men then toured the Specialty Transformer and Ballast divisions with E. J. Horstman, Supervisor of Procedures, and discussed the production control system used on small lot manufacture.

The members of the Advanced Manufacturing Program, which is a part of the Company's Manufacturing Leadership Program, are assigned to the various works for a period of approximately six months and periodically gather for meetings at one of the works. To date, meetings have been held at about three month intervals at Schenectady, Philadelphia, Lynn, and Fort Wayne.

During the meetings, two days are usually spent viewing and discussing the various manufacturing facilities at the works and one day is spent on manufacturing training activity. The Company's Manufacturing Leadership Program is coordinated by A. V. Feigenbaum.

Three Assigned Here

Three men on the program are assigned to the Fort Wayne Works at present. They are: J. W. Bergman, Decatur; J. R. Hunneman, Taylor St., and R. G. Saunders, Large Motor and Generator division.

Members of the Advanced Manufacturing Program, and the works where they are assigned at present, are:

Warren H. Fischer, Thomas B. Greenman, Robert E. Sessions, and Spaulding Schultz, Schenectady; J. Richard Hunneman and Richard G. Saunders, Fort Wayne; John W. Bergman, Decatur; Calvin R. Depew and Leonard G. Rauch, Philadelphia; Sanford H. Barber, Lynn River; DeWitt C. Brown, Pittsfield; Charles M. Schaninger, Fort Edward, and John G. Sorauf, Pittsfield.

Apprentice BROADCAST

by MILDRED ELLIS

I want to apologize to Mr. and Mrs. Frank Woenker for not mentioning their four year old son Bobbie in his dad's graduation notice last Friday. . . . Another apology goes to Lew Davis who was not present when the Softball Championship team's picture was taken. I'm sorry it wasn't mentioned that he played on the championship team. . . . Men still die with their boots on—but usually with one foot on the accelerator. . . . We extend our congratulations to Ruth Talbert and Homer Carson, and also to Elaine Farr and John Marks on their engagements. . . . Dick Gebert making conversation to his small daughter (who has just started to kindergarten) asked her what she wanted to be when she grew up. With no hesitation she answered, "a nurse." There was a long pause, then Kaylene asked, "Daddy, what do you want to be when you grow up?" . . . For the latest gadgets to "fix" chapeaux see Schmidt. He has a hat that can't be put on, because it bounces into the air. . . . We hear that Konow got one of those pretty little pink tickets for speeding. . . . I'm afraid none of us have been showing the respect due to the actor in our midst. "Star" Barnes and his supporting cast did a very good job in "Tremblin' in the Kremlin." . . . "Pretty Daddy" Hoffman is very proud of his son Tommy who won second in the one to two year old group of the Baby Flame contest. . . . Last Saturday Gene Werling came so close to being hit while crossing to the Purdue stadium he still shudders. Tuesday night he got so excited because his team was being defeated in bowling that when he went to sit down he missed the chair completely. Wednesday morning Gene and a fellow motorist stopped with just inches to spare, otherwise he would have been hit broadside—Thursday when he backed up in the parking lot he hit another car. Other than that he had an uneventful week. . . . Today Milton Goeglein will pass through our portals as a graduate draftsman apprentice. Lots of luck Milt. . . . In a conservation paper it stated that a study is being made to determine whether or not outboard motors affect the fishing adversely. Perhap the study will do more harm than good—as it may eliminate some of our apprentices' best excuse for a fishless fishing trip. . . . We are sorry to hear that Paul Wuttke had an accident in Ohio Sunday night. We hear that he has a broken arm and bruises but we don't know the full extent of his injuries. We hope Paul will be able to be with us soon.

Tricks In Transformer

—FROM DIVISION 91—

By Bob Bunyan

The entire division wishes to express their deepest and sincere sympathy to the family of John McMaken, who died last Friday. We are all going to miss him. . . . Don Edgar has been putting Red Marshall and Nick Penick on about being able to get away from their wives to go fishing with him. Now the shoe is on the other foot, Penick waits and waits and lo and behold Don Edgar didn't show up. Mrs. Edgar had him hanging wall paper, or so the story goes. . . . We hear that Charlie Kaiser has a new home at Crooked Lake. When are you going to have the house warming, Charlie . . . Congratulations are in store for Arthur Garner, who returned to work after his auto accident. Bud says that he is going to get a bike—one without a motor for sure. . . . Gerald Aspy is having a hard time at work this week. Couldn't be that Wheeler Goble isn't here to help him, or could it? . . . The office drew quite a lot of attention the other day. Someone said Mary and Lowella were learning some new dance, but later information revealed a little mouse in a desk drawer had caused all the excitement and high stepping. . . . Fred Thieme just isn't doing as good as usual at his fishing. Fred says that the river has gone down and someone else beat him to his spot. . . . Eddie Dauscher is just about convinced to collect a dollar debt, but he will have to carry change for a $20 bill. It would help Harrold Franz too. He then wouldn't have to keep loaning Paul Noffze those dollar bills. . . . The office force of Div. 91 held a wiener bake at Franke Park last Friday. There was a good attendance, and all I can learn about the affair was that cider was the refreshing drink. Of course, Sam Macy could give you more details of the party held at his home later that evening. . . . Adam Ragan started Monday morning out with a fresh start. He came in with a fresh perfumed haircut. . . . We noticed Russell Aker's bowling average has dropped since he has a sore arm. . . . No one understood why Paul Conrad looked so tired out Monday morning, but it's very understandable now. He worked Saturday and Sunday.

Tales from Taylor

by Harry Parker

Ed Moodie, our expert kibitzer, was seen the other evening doing a little sidewalk kibitzing. He was standing outside of a downtown cigar store watching the card games through the window. We are wondering if some of the players might have become ruffled at some of his suggestions and requested him to do his onlooking from the outside. . . . In order to get to work last Saturday a.m. Sid Hanson had to drive his own car, which by the way is a brand new bright red job. And we mean it is really red, rivaling that of a fire chief's private car. We have never seen a car with so bright a finish and Sid is mighty proud of it. On the way to the plant his passengers tell us that he turned the radio on so loud that one was unable to hear the many rattles and squeaks that have developed in his pride and joy. . . . During the World Series someone told Ward Grim, Denver Carpenter and "Red Snapper" Renz that they should take a trip out to the gatehouse and take a few glimpses of the game on television. Whereupon all three of them hastened out to see what was cooking. Not seeing such a device, Renz even asked one of the guards where the television set was located. . . . Last Wednesday Chet Price celebrated his 30th birthday (so he says). The girls of the switch section pleasantly surprised him by presenting him with a birthday cake with one candle on it. Using a small electric oven they whipped him up a roaster full of baked hash, which is his favorite dish. Then they all helped Chet consume it.

TOOL BITS

BLDGS. 19-4&5

by Harry Travelbee

Things seem mighty quiet on the Bldg. 19-5 news front. It seems that news is about as hard to get as a Russian peace settlement. . . . We all wondered why Karl Smith was out trying to locate a gold detector, but we have the story now. Karl is spending his vacation in Denver, Colo., and since the US Mine is located there, he plans to locate some of that surplus gold. Have a good time, Karl, but stay within the law. . . . Our congratulations to Mr. and Mrs. Russell Sage on the new addition to their family—a girl, born Oct. 14. . . . John Ebert was approached a few days ago to trade his eggs for some goat's milk. Better investigate further, 'cause if it's mountain goat's milk, you can learn to yodel by drinking it. We'll be listening for you on the radio, John. . . . We have been told that Dick Florent has been having a tough time telling a queen from a king in the big card game just east of the tool crib at noon. Dick says anybody can make a little mistake. Right you are, Dick, 'cause last week we wished you happy birthday in the WORKS NEWS and it was your son's. Please accept this correction.

Trouble is usually produced by those who turn out nothing else.

Things are getting better all the time. Several new girls came in last week on the swing shift which includes Jane Harding, Margaret Amsbaugh, and Clisty Rich. Miss Rich is also a future sister-in-law of Margaret Fruchte. Then you will recognize the Mrs. Amsbaugh for she is the gal with the strawberry blonde hair. Welcome, gals, and make yourself at home. . . . Well, if that doesn't take the cake. Did you know Bert Strickler, ex G-E gal, has a big baby boy? That's right and I believe they said it weighed 11 pounds. I congratulate Bert and she has all the best wishes of the entire second shift. . . . It's a shame, Doris Evans, Charlene to you, had some misfortune last week. Someone slashed her tire on her car while it was parked in the parking lot. We're sorry and hope it doesn't happen again. . . . Have you noticed Al Windmiller, the Geneva Whirlwind lately? Married life must certainly agree with him. . . . Lloyd Kreischer, fisherman, sportsman, and man about town, has purchased a nice new Chevy. . . . Has anybody seen cord-set Fisher lately? Since he traded that old Plymouth I guess he hasn't time to stop. Come on, Smoky, pay us a visit. . . . Do some of you people want a skating party? Several have inquired and I thought I would ask and perhaps we could have one some Friday night after work. What say you gals and guys? . . . Mickey McDougal will have to take to carrying a spare suit when he goes to parties like you do a spare tire. It seems as though he had a little accident. . . . Girl of the Week Club—Charlotte McDaniels gets the orchid for being the only gal this week who can blush without rouge! . . . Yep, Clarence (Baldy) Hoblet, Ex-G-E punch press operator, is still kicking in the traces over at Willshire. Baldy is retired. Hi, Baldy! . . . FOR SALE: One Chevy Tudor, model 36, heater and radio — $125.00 — Charlie Debolt, Plant Two. . . . We are glad to see Paul Hancher back after a few days illness. . . . In case you happen to see a new four door Studebaker around the plant the owner is Wanda Bailey. Drive it to work, Wanda, and let's see the job. . . . Ray Leitz says it's pretty bad when you can't even trust your best friend. It seems Dort Schnepf was trying to drive his car away from work when her own car was about two cars down from Ray's. Better put a special mark on your car, Dort. . . . One noon during a euchre session around Roger Schuster's desk the phone rang. Herb Foos was watching the game, so he answered the phone. Herb's end of the conversation went like this: "Hello"—pause—"He isn't here"—hang up. Someone asked Herb who they wanted and he replied nonchalantly, "Me!" . . . What do you know Pat Girod has gone western —after 21 years she rides again. She and her husband purchased a retired race horse for their daughter, Marlyn. Pat rode it first to break it in as it was too frisky for the little girl to ride. . . . Pop corn. peanuts, candy—what's this now? It's none other than Dowell Singer selling cotton candy at the Street Fair. He looked like an old hand with the dope. . . . Pud Miller of the candy cage in Plant I is celebrating his third week of vacation. . . . Oscar Teeple has been gazing at the free acts at the fair during his third week. . . . Now Revia Stauffer and Evelyn Thurston can save their pennies. While at the Fair they were lucky winners on a piggy bank a piece. . . . The Kentucky Derby is over, Jerry Ross, so it's no use in planning an entry this year. We'll be rooting for you in next year's race, so be sure you get that trot and pace polished up. . . . What causes Dick Meyers to slow down so after three o'clock? Could it be that homecooked meal mama is preparing? . . . Louisville, Ky., was where Fred Busse's third week of vacation was spent with his son who is in radio-television school. We hope your son makes a successful career in this study, Fred. . . . Did you see that gray streak? It was Esther Ehrman in her gray Ford. . . . It sure is the thing around here now—new cars everywhere. Now it is Doris Paxson with a Studebaker and Martha Mazelin with a Ford. . . . Has anyone heard how Jake Keller is spending his third week vacation? Anyway he'll probably have a good time. . . . **Safety Is Like a Mirror**—you get out of it—only what you put into it. Does yours reflect safety? If not—a little polish in the right places might help. . . . With baseball season over, the football fans now have the front seat. . . . Patrick Eugene is the name of John Loshe's grandson. Congratulations, grandpa. . . . Happy birthday to Alma Fruchte and thanks for the treat. . . . Flossie Hower, Ransome Barkley, Charles Langston, and Charles Keller are enjoying their third week's vacation. . . . Santa Claus came early in the name of William Kohls. His treat of pears was delicious. . . . Peter Koenig and family spent the week-end at Delphos. . . . Cheerie greetings to Georgiana Myers, Hermenia High, Martha Mazelin, Theresa Weaver, and Margaret Trisel. . . . Have you heard the latest? Leonard Meyer worked one whole hour the other evening getting his new Oldsmobile off the cistern. Just because Henry Krueckeberg takes his new Pontiac out and has a wreck, Leonard doesn't have to get his new car wedged over the cistern. The secret —he forgot to lock the car and his son decided to back it out of the garage. . . . GeCode is out with such a lovely cream sachet in three different scents. What a nice Christmas gift. Here is your chance to remember the little wife at Christmas time. The early bird remember? . . . Lucile Braun will wed Edward Gelzleichter of Yoder Nov. 5. . . . We've heard stories about mother's scheming to get daughters a prize husband, but now comes a new twist. Fred Busse mixed up and baked a big angel food cake, decorated it into a sparkling castle mounted candles, labeled it "Happy Birthday," and presented it to his son's girl friend's mother. Fred's wife reports he even washed the mixing bowls. . . . Cal Magley, Bill Hunt, and Clarence Drake celebrated fire prevention week by resolving to discontinue the use of matches. The resolution was absolutely painless because each one had received a deluxe monogramed windproof lighter as a bonus to their suggestion award checks. (Ed. Note: A little effort now to get that idea on paper may get the little lady a mink coat for Christmas or a new toaster for the table or a radio for the daughter's room.)

Many a husband has wondered why his wife complains she has nothing to wear and needs five closets to keep it in.

Squares Women's Division Entertains 75 Couples At Dinner, Bridge Party

The Women's Division of the G-E Squares Club entertained their members and husbands at a potluck dinner and bridge party in the Squares club rooms Saturday, Oct. 15. Seventy-five couples attended.

A special event of the evening was a raffle, which was won by Mrs. William Oswalt.

Bridge prizes were awarded to Mrs. George Hoopingardner, Mrs. Frank Fleischer, Mrs. A. L. Johnson, R. H. Johnson, Ray White, and Marvin Baker.

Mrs. Carl Rinne and Mrs. J. B. Greer served as co-chairmen of the event. Their committee included Mrs. Richard Hartigan, Mrs. William Oswalt, Mrs. Kenneth K. Cooper, Mrs. C. R. Atkinson, Mrs. Donald Riek, Mrs. Maurice Felger, Mrs. Forrest Gibson, and Mrs. Richard Gallmeier.

7,000 Attend Performances Of G-E

Approximately 7,000 G-E employees, members of their families and friends attended the nine Family Night programs staged in the G-E Club auditorium last week. The programs featured the showing of part of the recent G-E film, "By Their Works"; a sound slide film titled "Our Family Album," and "Tremblin' in the Kremlin," a one-act comedy featuring a Broadway cast.

The premiere performance was presented Tuesday in Decatur. Then nine shows were given during the same week at Fort Wayne.

John E. Estabrook, Assistant to the Works Manager and chairman of the Family Night Committee, acted as master of ceremonies at all the performances. He is shown in the layout, above, as he related the history of the Fort Wayne Works in going through "Our Family Album," during the slide film of old pictures from the past.

D. L. Crossman, a representative from the motion pictures section of the District and Distribution division for the Apparatus Department, operated the movie projector during the show. J. B. McLindon was in charge of arrangements for the comedy "Tremblin' in the Kremlin" and acted as technician. Mr. McLindon is a member of the Apparatus Department's Employee and Community Relations division and is in the program development section.

We Report an Offer*

WHEN NEGOTIATIONS began again this week between General Electric and the UE, we explained to the union how unrealistic we felt it was to persist in the $500 package demand which had been repeated unchanged at the resumption of negotiations a week ago.

We explained why we believed that no wage increase or hours-of-work decrease was in order.

But we indicated this week, as we did last week, that there have been significant developments around us in the past month. And we urged the union negotiators to take a more realistic view, in the light of these recent developments, of what should or could be done.

We told the union negotiators that we believe our employees are noting the trend of the times. Benefit programs — of the type we have had in various forms for about 40 years — are now being actively sought throughout industry. Meanwhile, we have been improving our own program in anticipation of just such a broad active interest as we now see.

We impressed on the union negotiators that we believed our employees would like their various unions which deal with us to inquire about these benefits — which we have instituted voluntarily in the past — together with any possible further improvements which, in their opinion, we should make.

We told the union that regardless of our being under no contractual or moral obligation to do so, we were willing to explore the general pension and benefit field. And we urged the union to state its own views as to what changes it would like to have made.

The union indicated it had no additional specific proposals other than those advanced in the past.

Accordingly, the meeting was adjourned and we prepared for submission the next day the following combined program of *old* and *new* benefits — to be offered for the period up to December 31, 1950, and beginning promptly upon acceptance by the union.

GROUP INSURANCE— Life, Accident, Sickness

Group Life Insurance to be available to employees after 3 months of service approximating *one and one-half times straight-time annual earnings* — with $2,000 as the minimum amount of life insurance and with the average amounting to about $4,500. (Most group life policies elsewhere provide insurance equal to only about *one* year's earnings or less).

Plus Accidental Death Benefit of $2,000. Thus, death from an accident on or off-the-job would give the family of such an employee at least $4,000 and the average payment will be about $6,500.

Weekly Sickness and Accident Insurance amounting to approximately 50% of straight-time average earnings up to $30 a week for 26 weeks will be paid (tax free) for off-the-job accident or illness, after the first week of disability. In event of hospitalization during that week, benefits commence immediately.

Waiver of Contributians. No disabled employee eligible to receive sickness benefits will be required to contribute to the Group Life, Accidental Death and Sickness Insurance Plan.

Paid-up Life Insurance to be Pravided for All Pensioners (over 65 for men and 60 for women) equal to 1/3 the average amount of life insurance on their lives under the plan during the preceding 10 years.

Cast. The insured employee's share in this whole insurance program is measured by the amount of life insurance he carries in excess of the first $1,500; the amount is 60¢ per month for each $1,000 of such excess. When he is within 10 years of normal retirement date he begins paying an additional 60¢ per month for each $1,000 above the first $1,500. This additional contribution is to be returned if the employee quits and does not want to retain his paid-up insurance. At retirement date all payments stop and his life insurance is paid up. For example, an employee having $2,000 of group life insurance will pay only 30¢ a month to age 55 (50 for women) but after that an additional 30¢ per month (total 60¢) for the next 10 years.

PENSIONS

Pensions for Life. After one year of service, employees can join the General Electric Pension Plan which provides pensions for life at age 65 for men and age 60 for women. The retirement age for those in the Pension Plan, as in the case of other employees, is regularly 65 for men and 60 for women. Under certain circumstances early retirement is provided.

Members retiring at normal retirement ages get payments-for-life amounting to 40% each year of the total payments they have made to the plan during the entire period of their membership in it. The average member so retiring would receive in total pension payments more than 6 *times* what he or she paid in as his or her share.

Guaranteed Minimum Return. A participating employee, should he die after 60 (55 for women), to be guaranteed a total of five years' payments of the monthly pension provided in the plan to go to his beneficiary. An employee retiring at age 65 (60 for women) is guaranteed at least two times his own contributions, even if he should die within 5 years after retirement.

Benefits Nat Reduced by Social Security. For the next year at least it is proposed that the pensions will be in addition to social security payments. Also no subsequent changes can, in any material degree, adversely affect the pension to be received as a result of any member's payments into the fund prior to the date of such change.

Survivorship Option: Disability Pension. A member can arrange to have his pension continued to his wife after his death by electing a somewhat smaller payment rate. A member who becomes totally and permanently disabled after only 15 years participation in the plan is eligible to receive a disability pension.

(OVER)

Benefits on Leaving the Compony. A member who is 50 years old and has been in the plan for 20 years can, on leaving his job, draw out his own payments (with interest) or leave them in the plan and elect to receive at normal or optional retirement date the annuity-for-life provided for during the period of his service. Also any member not meeting these age and service requirements who leaves the Company for any reason receives back his own payments with interest.

Past Service Benefits. We believe in pensions and have had a plan in effect here for 37 years. It was substantially liberalized three years ago. The Company is making large payments into the Pension Trust to provide the past service benefits accrued to employees before 1946.

The liberalized plan calls for members putting into the fund as their share only 2% of the first $3,000 of annual earnings and 5% of the balance. All employees whether hourly, or executives, or officers, are on the same basis. The Company pays the rest of the cost, which, for the average employee who retires under the plan, is estimated to be twice what the employee will have put in. The cost of funding the service prior to 1946 is paid for entirely by the Company.

Increosed Social Security Anticipoted. We are willing to anticipate an early increase in the social security benefits prescribed by law, so in the meantime, for employees retiring with ten or more years continuous service prior to retirement, we are offering an additional $15 a month up to the point where the pensions plus such additional payments from us total $100 a month.

HEALTH INSURANCE PLANS

Present Mutual Benefit Association and Health Insurance Plans provide all or some of the following benefits for members and their dependents as worked out locally, but under this proposal when made effective they can be made available at lesser overall cost to members.

Employee Poyments for Weekly Cosh Benefits during absence for illness or accident by local groups can be reduced or can be used to buy additional desired benefits, because of the weekly cash benefit payments provided in the new group insurance program described above.

Hospitol Doily Benefits are provided for in cash for each day a member (or in some cases his dependent) spends in the hospital.

Hospitol Speciol Service Benefits. Most plans provide for payments towards extra charges for special services while in the hospital.

Surgical Benefits are provided in most plans as an aid towards cost of operations.

Moternity Benefits are provided by most plans to help with cost of hospital and doctor's bills.

Death Benefits are continued by some plans, but many local groups may no longer consider them necessary in view of new group life and accident programs described above.

Employee Savings and STOCK BONUS PLAN

Employees are given additional security and the opportunity to accumulate some extra personal capital through a gift by the Company of 15% of the value of U. S. Savings Bonds purchased and held five years.

IMPROVED VACATION PLAN

Hereafter in the event of layoffs, discharge or quit, the employee will be paid vacation pay based pro rata on earnings since his last vacation period. Also the new provisions will in many cases result in somewhat increased payments to employees.

COST

The foregoing program gives even greater benefits than those previously enjoyed by our employees. The *cost to the employees has again been reduced,* the *benefits have been increased,* and the company is standing the balance.

This is not an offer in cents-per-hour. It is an offer by the Company to underwrite certain old and new benefits by paying the balance of the costs over and beyond the nominal, and now lesser, amounts paid by the employees.

The Company put $31 million into the Pension Trust last year. There will be in the Trust Fund well over $200 million on January 1, 1950. It is presently estimated that more than $85 million additional will be needed to properly fund the past service of our employees — this in addition to making proper current payments into the Trust — all to the end of keeping the fund actuarially sound.

In addition to assuming roughly two-thirds of the subsequent operating cost of the proposed Group Life, Accident and Sickness Insurance program, and reducing employees' own present payments for their share (which in effect *increase* their net take-home pay) there is a $19 million transition expense that must be met because of the new paid-up life insurance feature. Of this amount about half will be paid from contributions already collected — under the present additional life insurance plan — which have been held in a reserve for just such a purpose.

We do not yet know what are our exact expenses in connection with the new improvement in the pension program effected three years ago. We will not know the cost of the proposed pension and insurance program until we have had experience with it.

Meanwhile, we estimate that the cost will be generally less than one-third to the employees and more than two-thirds to the Company — with the Company's resulting current cost far above the total 10¢ being widely discussed now as a benchmark.

* This is a condensation which intends only to give highlights and general statements. For accurate understanding of all the details, we will be glad to supply the full 18 page text of the offer to anyone requesting it.

GENERAL ELECTRIC

ERP-42 (10-49)

The reason Rege (Bones) Eggeman was in such a lather the other day was that as she was taking a shower and was all sudsed up, it turned ten o'clock and the Landlord shut the water off. . . . George Prince was seen going out the wrong way at the cafeteria the other day. George, were you really trying to see the cook or were you trying to get out of paying your check. Must be a good looking cook or something. . . . Congratulations to Marie Martz whose birthday is the same day Columbus discovered America! We also send birthday greetings to Ethel Yunker, Stella Mailand, Ardola Johnson and Lucille Schriener. Hazel Martz has a new date pudding recipe. She wanted everyone else to try it too so she wrote it on a tag and sent it on down the line on a board of work. I would rather eat some of it instead of just reading the recipe, Hazel. How about a sample? . . . Ed Glenwith is really rushing the season, he has been passing out Halloween candy. . . . Ed Boedeker had his feelings hurt when we erroneously stated that he paid $8 for that new paint brush when he really paid $8.50! So sorry, Ed, we promise never to do it again! . . . Here is something we never knew before—that the candy woman carried cheese on her candywagon! I have been reliably informed that Elmer Sible bought some to bait the rat-trap that he received for a gift! . . . Wonder if Bill Wickliffe's wife will like the clock he won last week. Too bad she doesn't have an anniversary coming up then he could save some money on a gift! . . . George Crickmore has been back in Div. 1 for several weeks. Glad you are back and so sorry we forgot to mention it before. Also to Division 1 we want to welcome Irene Kreger, Neva Scott, Velma Hetrick, Vergie Stephen, Millicent McHenry, Kathryn Gilbert, Treace Trout, Robert Black and Bernice Johnston. Hope you all stay a long time! . . . Anna Ruth Clements is on her vacation this week, and is taking a trip through the Smoky Mountains. . . . Bill Crane left them up in Bldg. 4-4 and they all send him their blessings! . . . Art Knoll entertained last Thursday with a formal party—he even went so far as to have place cards. Some of the names he had on them sure were a riot! . . . Fred Castor hasn't much to report about his vacation last week. Evidently he had a quiet vacation at home! . . . Babe Donohue better not make anymore trips to Cincinnati over the week-end! Last Monday was almost more than she could take. Babe, you can't have your cake and eat it too! . . . I hear Harry Berry may soon have his name legally changed to Harriet. O.K., Harry, we are not letting you ring out at 3:25 either. . . . C. Nahrwold has been put in class 1 in bowling now; 117 doesn't look too good but you just keep on trying! . . . We hear that Wendell Heckley might give up bowling. Please don't give up, Wendell, 117 isn't too hard to beat. . . . Pondo has taken up bowling. From all reports he is as good at bowling as he is at singing. Don't forget to see Pondo bowl at the G-E Culb! . . . We all thought someone was getting murdered the other day when Clarabelle Sapp let out that horrible scream. It brought everyone to life again for a few minutes. . . . Dick Bucher put on a good act the other day. We thought he was either stepping on burning coals or was practicing yogi dancing. He just dropped a field-core on his foot was all. . . . Everyone in the section is smelling good. Helen White was selling sachet for the Elex and we all tried some. . . . If I haven't seen you about the Elex Christmas cards and wrappings you come and see me. I have the samples to show you.

Spencer Addresses Meeting Of Ft. Wayne Engineers' Club

"Engineering and Management Relationship" was the topic of a talk given last night by J. A. Spencer at a meeting of the Fort Wayne Engineers' Club. Mr. Spencer is Assistant to the Manager, Employee Relations, for the Employee and Community Relations divisions of the Apparatus Department.

Family Night Programs Last Week

The cast from Broadway included Joyce Randolph, as the Russian Commissar of Visual Education; Alexis Rostov, as a Russian spy, and Martin Noble portrayed the role of Joseph Stalin.

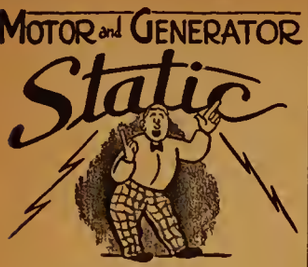
Robert Barnes, foreman in Bldg. 12-2, was shot and dropped on the floor nine times in his role as one of the Russian soldiers. Other G-E men, who alternated in the role of another soldier, were Cary Creamer, Ross Strodel, Hubert Myers, P. A. Vance, Robert Blomker, and E. M. Hanauer. Joe Zasa led the audience in group singing.

In the upper left corner is a photo showing a scene during the comedy, which points up the American way of life in contrast to Russia and the importance of electricity and of G-E in America.

Members of the Supervisors' and Foremen's clubs were ushers for the show. They included J. C. Duryee, Carl Reynolds, S. A. Macy, Henry Gollmer, J. V. Johnson, Paul Ohnesorge, G. L. Smith, Herman Korte, A. C. Jenne, A. C. Hensick, G. H. Smith, R. C. Mennewisch, Marvin Hamilton, W. L. O'Brien, William Charleston, J. L. Wyss, T. W. Mullens, Paul Clendenen, Clarence Nussel, and R. W. Esterline.

Mr. and Mrs. E. A. Barnes are shown, in the upper-right corner, enjoying one of the performances. Mr. Barnes was General Superintendent of the Fort Wayne Works before his retirement 18 years ago.

The Community Chest drive is over and G-E went over the top. Bully for us. Community help today makes a better community for tomorrow. . . . Did you attend the G-E family performance? From all reports everyone had a fine time. The community singing was especially enjoyed, so start limbering up your larnyx to be ready for the next one we have. . . . Our "We wish you happiness" mat is out for Fern Monroe and Richard Wagner who say "I do" tomorrow. . . . Hershel Case must have a case of squeaking shoes. He was seen oiling them the other day. . . . Congratulations to the Harold Kiels on their 21st wedding anniversary. We'll be around in four years and help you dance a jig for the 25th. . . . It certainly gets early in the morning. John Magley was seen salting his pancakes. Most people use maple syrup. . . . We're glad to see George Earl back after being ill. . . . It's a happy birthday to Minnie Barr. Also belated birthday greetings to Tillie Schultz. . . . The umbrellas going down the conveyor on line 536 had better be saved for Christmas. You might need them, it can rain instead of snow, you know. . . . Beulah Huff enjoyed last week-end in Brown County. It was really a wonderful week-end to do just that. . . . Nellie Bellamy is a lucky third week vacationer next week. . . . That was quite a snazzy belt Ed Martin was wearing last week. . . . Bertha Sbelly and Lola McCague visited us last week. . . . Margaret Hayden and Esther Miller are back in the groove again. Also a "hello" to Marie Hayes. . . . Edith Beaty's thoughts were air-minded last Friday. Her son was flying home from Panama City to pay his Mom a visit. . . . Hershel Case has quite a time with cigars. He only needs a couple packages of matches to keep one going. . . . The smile Edith Bohde was wearing is because she is grandma. . . . Congratulations on the pink bootied tax deduction at the Bob Mosshammers. Also the baby girl at the Howard Pruetts. The mamma, Senora Schultz, was a former co-worker. . . . Hedy Harrison was among the Elex girls who went to Chicago. . . . Halloween is drawing near and Phyllis Lupton was sure someone was playing a prank.



McMaken Dies

John D. McMaken, 28, of 2222 S. Hanna St., died Friday at 3:45 a.m. at St. Joseph's Hospital after being a patient there six weeks.

He was employed by General Electric in 1941 as an iron handler in Bldg. 26-1. He enlisted in the Marine Corps in 1942 and was discharged in 1945. At the time of his death he was working in Bldg. 26-1 annealing punchings. He was a division editor for the WORKS NEWS, and a member of the Volunteer Fire Department.

Survivors include his wife, Bernelle; a son, Danny Jo; his parents, Mr. and Mrs. John G. McMaken, and a sister, Mrs. Margaret Willibey.

Funeral services were held Monday morning at the Mungovan and Sons Mortuary and at St. Peter's Catholic Church, the V. Rev. Msgr. John Bapst officiating. Burial was in the Catholic Cemetery.

Thought for the Week: "Lots of men who wouldn't steal a dime from you think nothing of stealing $10 worth of your time."—Luke McLuke

ODDS AND ENDS: Traffic was conjested even in ancient Rome. According to the National Safety Council, Julius Caesar was considerably more than a military genius. He was one of the first to employ one-way streets and no parking signs. His regulations undonbtedly worked a hardship on those Irish slaves he must have brought down to Rome to be his traffic cops. Imagine the difficulty of getting mad in Latin at a Roman in a speeding chariot. "Sine Qua Non, Slow down will ya." Hudson News Letter. . . . Pedestrian: A fellow in all walks of life. . . . SAD DAY: Pearl Mosier's Scotch ancestors would probably roll over in their graves if they knew of the costly error she made. Pearl was a member of a group that visited Clifty Falls over the week-end. After the group left Cincinnati they decided to stop at a roadside inn for dinner. When the waitress came for the orders, all the party except Pearl ordered chicken. Pearl did a little fast thinking, "chicken costs more than steak in Fort Wayne. You get more steak for your money and there is less waste." So Pearl ordered steak. When the meal was finished and the checks came, chicken cost $2.50 per helping but the steak was $4.42. As we said before, if Pearl's ancestors knew it, it would be a sad day in the highlands. . . . ALL THE TIME. Ed Foley, who considers himself the Burbank of Bldg. 31-1, has completed his years' agricultural activities. This last act was harvesting the tomatoes off vines located along the west wall of Bldg. 31. We might remark in passing that our janitor Al Scherer planted, watered and cultivated the plants while Mr. Foley's activity was restricted to harvesting the results of Mr. Scherer's labor. We are not positive whether Ed Foley was color blind at the time or just afraid that someone else might get the fruit, but he picked the tomatoes while they were green. He wrapped each tomato in a piece of paper and placed them on his desk to ripen. a few hours later he unwrapped one and his jaw dropped. It was ripe red. Turning to a co-worker he exclaimed. "look at this, two hours ago, green now ripe. I've made the discovery of the century. My fame and fortune are established." His friend examined the tomato then laughed. "Ed," he sez, "your discovery isn't so hot, that tomato has been painted with red nail polish." When Ed recovered his composure he remarked, "Gosh, they didn't fool me, I knew it all the time."

Safety Raiser

One of the boys asked us why this paragraph was titled "Safety Raiser" instead of "Safety Razer." We came back with a quick answer since we had already peeked in the dictionary.

Our purpose is to raze our accident hazards, poor housekeeping, etc. Raze—To level to the ground; blot out; efface; but we also wish to raise our Safety record, housekeeping, etc. Raise—To cause to rise; lift up; elevate.

Anyone got any better reasons, send them in.

Firemen Are Evacuated From Bldg. 19 During Drill For Fire Prevention Week

City and G-E firemen are shown, above and at the right, evacuating men from Bldg. 19 last week during a mock fire drill arranged as a feature of Fire Prevention Week. The evacuator, a canvas chute, is used with the department's modern aerial truck to safely move persons from burning structures where exits have been cut off. Within a few minutes, the men glided down to the ground from a fourth-story window.

The mock fire drill was supervised by Fire Chief Edward L. Uebelhoer, Assistant Chief Henry A. Banet, and G-E Fire Chief E. M. Hanauer.

The department's modern aerial truck, Chief Uebelhoer said, would prove of untold value in the event of a major building or hospital fire in the city.

Good-bye is always a difficult word for me—it really should not be—for when one analyzes the word, making "good" and "bye," one should feel that the going is good. Always there are two sides to such a statement—for, what is good for one is a loss to someone else. So our good-bye this week is said to our friend Mary Occleston, who is leaving today for a vacation period before her retirement on Nov. 1. It is difficult to imagine Mr. Matson's office without the efficient secretarial knowledge supplied by Mary, and we are sure she will be missed. It is Good that Mary will now have time for many things she wants to do, for her time has been well taken with her duties at the office and in conducting the many chores in connection with running her home. 'Twas on March 28, 1917, that Mary came to work here. Her first assignment was in Bldg. 18-3 for Henry Herrman, then head of the Thermostatic Metal Department. Did you know—in connection with Mr. Herrman's office in Bldg. 18 there was a small shop building, since torn down, located approximately between Bldgs. 8 and 9? It was here that they brazed two metals together to make a thermostatic control. When the business was sold on March 1, 1920, Mary became secretary to E. A. Barnes, General Superintendent, with offices in Bldg. 18-1. Mr. Barnes retired in 1931, and Mary worked for some time for F. G. Duryee, now retired, R. J. Hoffman and Paul Grimme. In August of 1932 she was selected as secretary to C. H. Matson and has served in this capacity since that time. To cover a span of over 32 years in a few short paragraphs is impossible. One has a rush of thoughts about the progress that has been made in General Electric Co. in that length of time. The knowledge that in her first year Bldgs. 19, 22, 27 and 28 were all erected. Mary's plans for the future are first to visit Chicago for a short time—then rest up for a while. Looking forward to a dream trip to California next Summer. Thursday, Mr. Matson entertained the girls in Bldg. 18-2, with a luncheon in her honor. This afternoon a reception is being held in Bldg. 18-2 conference room where Mary's friends may call to wish her well. She will be presented a gift from her coworkers to help make her retirement more enjoyable. . . . Our sympathy is extended to Harriett Dewart in the death of her mother. . . . We are happy to report that Mrs. Ralph Clark is convalescing nicely at her home following surgery at the Lutheran Hospital. . . . Chester Kowalski and family spent the week-end in Toledo. . . . The voice greeting you from the Information Desk this week is Betty Jean Rose —"pinch hitting" for Hilda Mueller who is enjoying a vacation. . . . R. J. Hoffman of Bldg. 16-3 is on vacation and Edna Neiber of Bldg. 16-3 is spending the week in Bldg. 18-1 in the General Superintendent Office. . . . J. V. Johnson of Bldg. 18-2 is also vacationing this week. . . . The Family Night show was very enjoyable. I liked Our Family Album—there is a wealth of historical data accumulated that will be even more valuable as the years roll by. J. E. Estabrook is to be congratulated upon his presentation of the material. We liked it! The "Tremblin' in the Kremlin" carried a huge message. Of course, Joe was in his usual good music form. . . . It is nice to learn that Veda Orff is improving at her home. . . . In fact, the beautiful Indian Summer makes one very happy to be alive.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ad will not be accepted unless accompanied by the name, pay number, and division of the employee. No works building or telephone number may appear in ad, only the home telephone number or address.

No ad will be received over the telephone. Send all ads to WORKS NEWS office, Bldg. 8-2.

"Lost" and "Found" articles must be cleared through the Plant Protection office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

CLOSING DATE FOR NEXT ISSUE
Monday Noon, October 24, 1949

LOST AND FOUND

FOUND—One pair ladies' pink plastic shell rimmed glasses in a brown case. Found in No. 8 locker room at Taylor St. plant. Call Employment Office, Taylor St., Extension 8-488 to obtain them.

FOR SALE

BICYCLES—One man's and one girl's, good condition. Make an offer. H-46684.

DRAPES—New pair, chartruse with Chinese pattern, extra wide for picture window; child's Kenwood coat set size 2. H-40021.

CAS STOVE—Side oven; fireplace fixtures, complete set; four pair floral drapes. E-40265.

8 x 10 BUILDING—Two years old, would make excellent milk house. A-55741.

CIRL'S THREE PIECE SNOWSUIT—Size 1-2, in good condition $4.50. A-26725.

BEAUTIFUL BROWN BEAVER JACKET—Black caracul fur coat, 36" length, both size 14 and like new. H-01322.

DINING ROOM SUITE—Eight pieces, walnut. H-4143.

SCANDALLI ACCORDION—Like new, 120 bass, four shifts. H-48921.

HOT WATER HEATERS—52 gal. electric, and coal burning; Solid walnut dining room suite, eight-piece. H-76443.

TWO LIONEL ELECTRIC TRAINS—With accessories A-1 condition. 1050 Forest Ave. or E-2313.

COMPLETE WINDOW — Including frame, sash, sills, weights and inside and outside casing, perfect condition. E-38782.

THREE "P" COATS—Sizes 14, 18 and 20, good condition. A-3724 or 2509 N. Anthony Blvd.

CIRL SCOUT UNIFORM—Size 14; white nurse or waltress uniforms, size 34-36, almost new; Boys' sport suit, size 16-18, $5. A-16964 or 715 Third St.

DELUXE BABY BUCCY—H-59422.

HOLLYWOOD TWIN BED—Sleeprite, like new. H-8653.

EIGHT PIECE WALNUT DINING ROOM SUITE—Good condition. A-77695 or 2127 N. Clinton.

LADIES BOWLING BALL—And bag, good condition, H-35043.

BABY SCALES—$3; Schick electric shaver, $10; automatic toaster, $5. H-8851.

BABY BED—Metal, clean mattress, $5. A-50561.

1937 FORD—Radio heater, new tires. H-28225.

1934 BUICK—$50. H-02338.

LIVING ROOM SUITE—H-20481.

FOR RENT

ROOM—Large front room, upstairs, gentleman preferred, one block from bus line. H-8768.

SLEEPING ROOMS—Single or double, private entrance, twin beds, hot water, shower, home privileges. 1037 Swinney.

ROOM—Large attractive, near G-E, gentleman preferred. 823 W. Dewald.

FIVE ROOM FURNISHED HOME AT LAKE—Driving distance to Fort Wayne. H-59122, after 3:30 p.m.

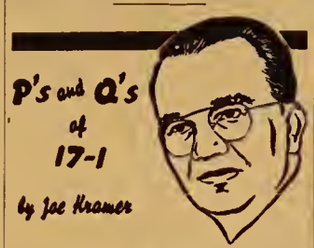
WANTED

SMALL ORCHESTRA AND CALLER—To play for barn dances Saturday nights. E-37854.

WIRE LAWN FENCE—42", approximately 30 ft.; also evergreen shrubbery. A-75442.

TRANSPORTATION

WANTS RIDE—Two men from Blue lake, Work at Broadway from 3:30 to 11:48. Earl Nicolet, extension 2357.



WANTS RIDE—From Kendallville to Taylor St. May Sucher works from 6:48 to 3:18. Contact Mr. Arnold Div. 14, Taylor St. extension 375 or phone 836J, Kendallville.

A MESS: Is a lot of many kinds of things all mixed through each other, for instance for a small mess take a look at the top of Herb Thompson's desk. For a medium size mess look at Wimpy Lemper's or Vaughn Sheets' desk top and drawers. Now for a large and awful mess take a look at Orville Doherty's desk top, drawers and everything that's hanging in and out of them. We don't believe anyone could come within gunshot of what the junk dealer would give for this pile of junk. No doubt, it would be plenty. . . . PEANUTS: Amel Beck is trying to raise them. Most likely to sell, so he can pay for that brand new red Ford he is driving. Be sure they are peanuts, Amel, and not small dried up peas. . . . MY SON RICHARD: Lawrence Walters has the son of the week. He doesn't need all that old fashioned fishing equipment any more. Naw, he just anchors onto the weeds and pulls out five pound bass with his little bare hands. For that one Lawrence takes the champ's crown for the week. . . . POLE: How do you rate the pole position in the parking lot Earl Glass? Is it because you get up before breakfast? . . . WELCOME: Vera Flesher to the Wire Division. Hope you will like us, Vera. . . . CONGRATULATIONS: All employees of the Wire and Insulation Division for going way over the top in your contributions to the Community Chest. You'll find out you will never miss it, but that it will do a lot of good helping those less fortunate than ourselves. Remember always have faith, hope and be charitable and that heart of yours will feel and run much smoother. . . . LOVE NEST: Sewer or no sewer that little love nest Truman Buckles is building is getting to look cuter day by day. . . . BIRTHDAY GREETINGS: Belated, that is, to Herb Thompson who had another birthday Oct. 10. . . . CAKE: Esther Shannon we had some of that fine cake and it was really swell, but please take the shells off the peanuts next time. We were up most of the night trying to digest them. Those shells are all right for monkeys but not for Oh, Oh, so long be seein' you. . . . BARREL: Wimpy Lemper, we have heard through the grapevine that one day(that is before you came to the Wire Division) you were reaching in a barrel to get some castings and you fell in. How about that? Were you dizzy or just top heavy? . . . NAG: We are told that the one thing which induced Steve Bobay to buy that nag he now owns is that it had a saddle already built in. . . . DEEPEST SYMPATHY: To the family of John McMaken, whose funeral was held last Monday morning in St. Peter's Catholic Church. Johnny was a Division Editor in the Transformer division and a very fine friend of ours. May God grant him Eternal Peace and Happiness. . . . QUIET SNORER: Must be Melvin Bill after arriving home one afternoon and not finding his better half there, Melvin decided to get forty winks. When the hour came for our Melvin to partake of some food his wife called here and there and everywhere. Finally she called one of his co-workers who suggested she look in on his bed. This she did, and what do you know, there she found her little Melvin sleeping as peaceful as a kitten. This is what we call a model husband. . . . YOU: Yes, you, when are you going to give out with some NEWS? Oh, Yes, well we will be looking forward to it.

Insulation, Bldg. 12-3

Ever hear of anybody taking a shower wearing a raincoat? Francis Isenbarger can give you all the details in this matter. . . . Dorothy Baumgartner pulled the fast one of the year last week, and really had a lot of people fooled—especially one Bill Hattendorf. For the benefit of those still stumbling in the dark, we would just like to say simply that Dot doesn't believe in long engagements—(especially if they're the real thing, eh Dorothy?) . . . Happy birthday to Bill Glenn, Oct. 19. Just think! Now both he and Jack Benny are 39. (We figure that it must be the faithful intake of those pink pills that keeps Bill so young.) . . . Agnes Ryan went to Canada on her vacation. She says everything was wonderful, except that she was disappointed with Lake Louise. Agnes says it was just another puddle of water to her.

Those new sweaters Bldg. 17-1's championship golf team are now wearing have come in handy on these chilly mornings. We just hope that Charlie Lauer and Bob Dent don't get their sweaters mixed up. We don't believe Charlie's sweater would quite fit Bob. . . . We wish Virgil Hartman would take another trip to Pennsylvania and bring back some more colored pictures. . . . George Mosshammer has at last found a good use for a shuffle board in the places that serve liquid refreshments. George says, "They really come in handy guiding you back to your table." . . . It sure must be nice to return from a vacation and get winnings of two baseball pools. The lucky person in Bldg. 17-1 was Argend Denney. After a little prompting, Denney bought a box of candy to pass around in the office. . . . Don't forget to get your tickets for the Firemen's raffle from any of the volunteer firemen throughout the Works. . . . Frank Martin must have been looking for a spring from which to get water for his coffee the other morning. Frank was seen looking down the aisle with a pair of binoculars. . . . Johnny Junk didn't bring his thermos bottle full of coffee last Monday morning. John said that one of his boys had the cork and went fishing over the week-end but forgot to bring the cork back with him. . . . Andy Degler believes in the old saying, "An apple keeps the doctor away." Andy has been eating two apples a day, but Doc keeps hanging around. . . . Singing seems to be busting out all over in Bldg. 17-1, especially the yodeling type. E. P. Tickel is giving free yodeling lessons to anyone desiring them. . . . If the Metropolitan is looking for a soprano who can hit high "C," Elizabeth Love can fill the part, but she must have some outside help. . . . We don't know if there was anything else in Chicago other than the ice show, but Barbara Yingling spent the last week-end there. She said the ice show was very nice. . . . Frank Martin brings back a report from Clear Lake that fishing is very good. Frank reports a catch of a 14 pound, 6 inch catfish. Now we are trying to figure out if maybe it wasn't a 14 foot, 6 ounce catfish.

FLASH—The first O'Neill twin has a tooth. Last week Sharon surprised the family by flashing a tooth at them. Perry is sure that Karen will be following along very soon, but it has him worried already how he is going to afford steak for both of them when they get a full set. Don't start staying awake nights worrying yet, Perry, that will be quite a while yet. . . . Alma Witte made a trip to Cleveland last week-end and she said they had a wonderful time and the weather was just perfect. . . . Why is it when the fellows in the office get together and play a little poker no one wins anything and everyone loses? What happens to the money? . . . Have you noticed the clicking of knitting needles at lunch time? Several girls in the office have the bug and they are really going all out. Ann Smith is the instructor and helps everyone out when they get stuck or drop a stitch. Peg Turschman has been working only a week on a pair of mittens and she has nearly two rows done. You had better hurry, Peg, or your niece will be grown up before you get one mitten finished. Norma Bastian and Marg Stodgell are both making sweaters and they are very proud of their work. . . . Welcome back to Charlie Briggs who has come back home to the Planning Section. . . . We are all wondering how Kenny Sheehan is making out on his hunting trip in Canada this week. We can hardly wait until Monday to hear all the wide tales he is sure to have.

This is the story of a freak with mule ears and an extra pair of eyes in the back of her head. She is the person you run up to and say, "what happened to our column this week?" In short she or he is your division editor. I think that most of you do not know that most of the paper's editors write their columns on their own time and are only too happy to do so. The least that all of you can do is to give them something to write about. Also, I think that most of you have the wrong idea of what kind of subjects make an interesting column. It isn't just things that happen around the plant, it is also interesting happenings in the families of employees. We of the G-E are homey people. We like our homes and families and are also interested in the things that happen in the families of our co-workers. Such as whose wife had a baby, whose little girl did something unusually cute, or whose husband went fishing and did or did not get any fish. After all, most of us take our paper home for our families to read. So they, too, should be mentioned in it occasionally. I am not complaining, only suggesting that you ask yourself if you have contributed to the column this week before you ask the editor why there wasn't any. This is OUR paper, not just the editors. The only way we can get rid of our big ears and extra eyes is for all of you to help us more. You dish it out, we'll write it. . . . If you are not sure what the word interesting means, consult your dictionary. It explains it very thoroughly.

Inquiring Reporter:

WHAT DO YOU THINK OF THE DECISION BY LOCAL BANKS TO GO ON A FIVE-DAY WEEK?

MARGARET NORMAN
Bldg. 31-2

"I think it is an excellent idea inasmuch as we will be able to do our banking after work, thus avoiding the noon-hour rush. It also gives the bank employees the five-day week which we have enjoyed for so long."

EDNA WOLFE
Taylor St.

"I think it is a nice thing for the bank employees to have a five-day week the same as factory employees. It is more convenient to bank after work, than to take Saturday for banking."

JOHN A. C. LEA
Bldg. 26-5

"As a factory worker, the new five-day bank week rates an okay from me. With the bank being open later on Friday, it won't be necessary for the factory worker to have to make a special trip to do his banking. This will save some much-needed time on Saturday."

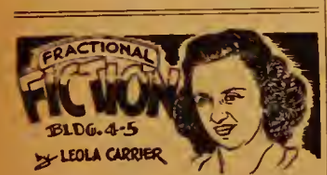
ALMA DOCTOR
Bldg. 4-3

"I think it is a very good idea. It gives everyone an opportunity to do their banking, and gives the bank employees a longer week-end."

WILSON GARMAN
Bldg. 19-4

"I think the new banking week is a good thing. It gives the employee a chance to start his week-end activities along with a majority of his fellow men—whether it be a fishing trip, a football game, or just working around his home."

Becker Receives Retirement Gift



Rudolph Becker, Bldg. 4-5, left recently for retirement after 20 years' service with G-E. On his last day, his friends in FHP Div. 15 gave him a send-off by presenting him a going-away gift. Mr. Becker is seated in the foreground of the picture opening his presents. Watching him are: (l. to r.) Boyce Lambert, Gilbert Auth, Robert Shoemaker, Berle Beaman, E. F. Sonday, Madonna Endres, James Battrick, L. M. Chesterman, H. G. Siebold, H. C. Macke, and P. K. Hapner.

Us Second Shifters

by Earl Stauffer

Each week starting now Us Second Shifters will feature a different floor or division making known what kind of work is done and who it is that does the work. In this way we will acquaint you all with the different sections of the G-E family. . . . This week we are featuring Bldg. 17-4, Division 33, Developmental Test and Model Shop, where the difficult job is everyday routine and the impossible takes a few days. It also is where the engineering dreams become a reality. . . . First of all we extend our best wishes to D. H. Hanson who is leaving for a new position in Schenectady. His keen interest in this division has gone a long way in its success and also its enviable "no lost time" accident record. . . . The Owl Foreman is Harold Knepp, who lives in a home that he had a hand in building on beautiful Cedar Shores north of the city. His daughter Deborrah is the apple of his eye. He likes to tinker with his car. . . . Our radio Ham is George W9AQO Fann who has contacted other radio bugs from North Carolina to the State of Washington. He also likes to dabble with photography. . . . Fred Howbridge has a sideline of beekeeping and does quite well with it. At the present time he has available the hottest fish bait on the market, none other than wax worms. Fred is plenty clever as a cabinet maker and has the workshop tools for the purpose. . . . Dale Lauer has been lamenting the nice weather because he is waiting for the ice fishing season. He makes his own equipment. . . . For two years Ed Jenkins has been painting his home and he will finish the job if the weather holds out. . . . Ford, Kenny not Henry, has a Ford but he doesn't brag about it. It does, however, take him to and from Hamilton Lake but he seldom comes back with any fish. . . . In the same boat is Sandy "Pop" Bennett who will tell you that he doesn't rely on the cane but the eggnogs to keep him in trim for those exhausting fishing trips. . . . A real raccoon hunter is Bill Johnloz, mayor of Murray. We hope that he can find some of those Ring Neck that he helped put out for the conservation club down at Bluffton. . . . Morrie Snyder can sit on his front porch and watch the traffic go by now that his new home is completed. Except for the plastering and plumbing Morrie did the whole works. . . . Another home builder is our Paul Schlie who is putting up a ranch style home on Route 37. He still has some to do but it's going to be a swell place when he is finished. . . . Blackie Blackburn finds time to train his bird dog along with completing his new home north of the city. . . . Carl Freygang, who always has a helping hand for anyone stumped with a difficult problem, likes to dabble with electricity on the side. . . . Jim Young finds that two boys take up the extra time he formerly used soaring through the air while the Myers airport was a neighbor of his on the Paulding road. . . . Besides woodworking Louis Becker is a shutter fan. . . . Mark Gotsch goes in for hunting, fishing, and boating besides being one of these unusual boys that can make workshop tools sing. . . . Bob Todd doesn't have any hobbies but he does find time to work in his workshop. . . . Charlie Hunt, a past president of the local Archery Club, is our sports inventive genius. You ask him a way to fish or hunt and he will tell you about a new wrinkle that he has made. . . . Cliff Imbody also a past president of the bow and arrow club thinks that if he had the time the twang of the bow would take up all of his spare moments. . . . In the next month or so Charlie Crain hopes to move into his new home built by his own hands. . . . Chuck Stone spends his extra time building character in the future generation. He is Scout Troop No. 6 leader. . . . Big Joe Dibert is quite a squirrel hunter. As a matter of fact he says he hunts anything in season. . . . One of the most unusual hobbiests is Henry Koch. He has rosy backs, moons, sword tails and many other tropical fish. . . . Glen Castle who just recently joined us from Winter St. has a house trailer that takes him to his favorite sport, fishing. . . . Jesse Ebersole is one of those die hard fishermen who can sit out all day, get skunked and enjoy it. He catches his share too. . . . Clarence Koepke will soon tell you all of the angles of the finer arts of shuffleboard since he just recently set up a court in his basement. . . . Joe Quinlan and Charlie Stuckey of the swing shift are a couple of boys who yearly go north with a bow and arrow to fetch home a deer. But this year they saw a plenty of deer but didn't get any good shots. . . . Harold Dimke almost spent the whole summer trying to get a power mower to work. What did you do, Harold, give up and buy a new one? That covers everyone on the Owl shift in Bldg. 17-4 except this scribe whose exploits are well known by all of those people who come in contact with him. . . . A few notes from other floors. . . . A Bldg. 4-5 scoop. Pete "Herman the Great" Macke recently was cited for his bravery when he captured a six inch rubber lizard singlehanded. High up in the shelf it was submerged in a box of wedges. Little do we know what his next exploit will be. He may go on a conquest of the Busco Turtle. . . . In Bldg. 17-1 we have all makes of cars and also many arguments, so what happens — John Shanahan buys a Kaiser. . . . Dolores Gladback, Bldg. 4-5, would welcome any new ideas to get a certain brown haired lad out under the moon. . . . Barbara Wilson, Bldg. 17-2, tells us that the Christmas cards and wrapping paper are priced at $1. . . . Next week we hope to feature the Hermetics, Bldgs. 17-2 and 17-3.

Those of you who were at the Decatur street fair last week will know that that look in Herman Lankenau's eye is the result of too much "carnival barking." . . . Lucinda Pettit, Dorothy Jensen and Alice Dahman attended the Elex conference in Chicago. . . . Mary "Touchdown" Sitko seems to be following in the footsteps of her brother "Red." She claims that those neck bruises she brought to work last week were the results of an "off side" end run. . . . We are glad to see Basil Squires back with us. He has been on the sick list. . . . Mark Brindle is beating the seamstress' time by doing his own mending. He is starting a new fad by using white thread on his black trousers. . . . It's reported that Forest Bunner is recovering nicely from his operation. His co-workers wish him a speedy recovery and hope he will be back soon.

Here's Proof

The proof that we have at least one fisherman on our floor is shown in this photo of Bill Geist and his oldest son, Sam. The fish were all big enough to keep and were caught at Cedar Shores, within 15 miles from the city.

"He who cannot forgive others breaks the bridge over which he must pass himself, for we all need to be forgiven."
—Lord Herbert

Everyone seems to be enjoying this wonderful Indian summer. Your reporter couldn't resist the urge to take a long drive since I stayed home during vacation. I loaded the old Plymouth with luggage and three other gals and drove down through Pennsylvania, Virginia and to Washington, D.C On the return trip we stopped and brought back 20 pounds of that wonderful Ohio Swiss cheese. There are certainly a lot of "cheese hounds" in Bldg. 17-2. . . . Congratulations to Archie Evans and his wife Margaret on the arrival of a baby boy. His name is Ronald Lee and he weighed 9 lbs. 10 oz. at birth. . . . We extend our sympathy to the family of one of our WORKS NEWS reporters, Johnny McMaken, who died last Friday morning. . . . Ruth Hines' father is in the hospital for observation. We wish him a speedy recovery. . . . Al Wickliffe just doesn't like pumpkin pie but he isn't very careful about where he throws it. We think Jerry Wert could find a better place than where it landed. . . . George Skinnell is the proud owner of a new Oldsmobile. . . . Bill Straub spent his third week of vacation in Indianapolis. . . . Mel Kiessling's little boy took a nickel out of his Dad's pocket for the Community Chest and the teacher gave him a red feather. After due consideration, Mel, Jr., returned the feather to the teacher and in turn asked for his donation. He came home and gave the nickel back to his dad. He then told Mel that he didn't need a feather and besides five cents was too much for it anyway. What fun the kindergarten teachers must have along with their very interesting work. . . . Clara Fulmer retired officially Oct. 1. We hope that her health will continue to improve and she will enjoy many years of her pension.

Behind the Cracker Barrel in General Stores

Melba Kelly will soon say goodbye to her many friends in this section. These friends would like to take this opportunity to wish her the best of luck and that she will take time to drop around and see us all now and again. . . . The welcome mat is out to Hilda Krause, who comes to our section from the Shipping Division, to Carl Tuerschman coming from Bldg. 18-4 and to Dick Jones of the Engineering Section. We wish you all the best of luck on your new jobs. . . . It seems the Canasta bug has really bitten Kenny Redding. When he comes to work kinda "droopy-eyed" his only explanation is, "We played Canasta last night." . . . Don't forget, fellows and gals, that the Elex Club is selling Christmas cards and gift wrappings and your patronage will be appreciated again this year. . . . The good housekeeping campaign is really on its way with the "Eight-Ball" going to Fred Guebhart of the Regional Parts Warehouse for the poor housekeeping in the office. Better luck next time, Fred. . . . We are glad to see Marie Allegier back at the G-E. Marie formerly worked for Tom Dent in Bldg. 6-1 but has now joined forces with Al Hartman and Laureen Procise in Bldg. 8-2. . . . We hope that by the time you read this that Dick Robertson's son is home from the hospital and that his injury was not too serious. . . . Frank Parker is back to work after his third week's vacation. He says he didn't do much but fish, paint and "baby" a sore finger. . . . We wish a speedy recovery to Clarence Rosselot who has been ill at his home for the past three weeks. . . . A familiar face belonging to Jim Laisure is back in our midst. Jim recently returned to work after being on the sick list the past four months. . . . "People are very openminded about new things—so long as they're exactly like the old ones." Charles F. Kettering.

Last week Harry Combes was using the vibrator pencil to make some work when there was quite a noise by a hammer contacting the back of the bench he was working on. Harry dropped the vibrator like a hot potato and sat back like he had been shot before he realized what had happened. . . . Ozzie Nahrwold vows he will leave softball for the youngsters and act his own age after limping and dragging about the place for a week following the game he played with the supervisors of Div. 17. . . . John Driver again hit the suggestion system for another $50. Nice going, John. . . . Several of the fellows almost choked during lunch last week when Joe Mattis again started to extol the virtues of his friend Bill Johnson. Joe said, "You fellows don't appreciate a good man, I'll have to see his boss." And he did. Bill should have a fine rating on his control card if they put everything on it that Joe said. . . . We think John Bastian must have had burned toast for breakfast last Friday. When questioned, John said he didn't have toast for breakfast that morning. . . . We hope Dewey Erne enjoys his extra week of vacation he is taking this week.

The Brouwer Tire and Battery team, of the Interdivision League, shot the high three game series of the year at the Club alleys. A 2841 count on games of 967, 985 and 889 was reported.

Rolling against the Hire's Parts team, which had 2719, they were only able to win two games. Big counts in the match was a 604 by Les Shroyer on games of 167, 215, and 222, and Frank Iannelly, 203 and 205; Don Dimke with a 569 on 205 and 214; Whitey Ponsot, 204; Vic Rump, 590 with 233 and 200; George Luedeman, 209, and Frank Matthews, 222.

Six hundred and 200 counts weren't confined to this one match, as Foerster had 608 on games of 183, 236 and 189; Kenny Bainbridge rolled 606 with games of 198, 206 and 202, and Berning Sr., had a 612 on games of 236, 192 and 184. Other 200 scores were garnered by Erv Haugk, 222 and 205; Dickey, 203; Frank Gitter, 201; Frank Kopp, 210; Ivan Parrish, 200 and 202; Putman, 224; Bob Dressel, 212; Walt Siedel, 209, and Carl Miller, 223.

The previous week Clarence Rump had the only 600, a 621 with games of 222, 204 and 195. The 200 scores were rolled by Frank Gitter, 234; Frank Iannelly, 215; Don Dimke, 223; R. Wiek, 217; Noah Kuntz, 210, Whitey Ponsot, 225 and 201; Wayne Wiemer, 214; Leo Allmandinger, 206; Erv France, 200; R. Zelt, 218; Putman, 201, and Bob Dressel, 204.

Apprentice League

Compasses are out in front by two games. Two hundred scores were kegled by Chasey, 221, and Harold Fremion, 202.

Masonic League

Plumbs and Fellowcraft are leading the league with a 10-win and five-loss record.

Two hundred scores were made by B. Somers, 245; Manor, 207; Hughes, 204; Harold Garrett, 203, and Meyer, 222.

Apparatus League

The boys loosened a little this week as Team No. 4 led by A. Thompson's big 255 rolled high single game of 1086.

Other 200 counts were rolled by Bienz, 207; Bressler, 221 and 209; Burton, 201; Andy Anderson, 203 and 205; Dunten, 206 and 201; Bob Stute, 200; Arnold White, 209, and W. Spahr, 204.

Team No. 10 and 2 are tied for first with 10 victories each.

Office League

The Designers followed up their high single and high three-game totals of the week before with a new league low, a 735 with a handicap of 57 pins.

Clem's, the former Blueprint team, shot the high score of the week with a 1041 being paced by Dick Getty's 239.

There were plenty of 200 counts: Bob Knepple, 222; Frank Schlink, 214; Bill Piercy, 214; Claude Holmes 208; Walter Nitz, 207; Clarence Rump, 205; Wendel Miller, 203 and 202; Wade Tyler, 202, and John Root, Carl Hattendorf and Bob Blomker, all a neat 201.

Here's one we missed last week, "Brownie" Brown, a 234. We found out that he reads the column regularly, especially if he shot a 200 or a 600.

Friday Night Girls

Bess Potts was really in the groove, as she shot a new high for the season, a 580 series on games of 158, 202 and 220. Virginia Bowman, got a neat 530 and games of 183, 176 and 171.

Other high scores: Liz Shearer, 199; Ginny Mollet, 190; Kaufman, 189 and 174; Huber, 181, Werkman, 180; Koontz, 170 and 176, and Malizzo, 170.

Transformer Division League

Watts are out in front with five wins and one loss. Two hundred games were rolled by: Miller, 248; Hoopingarner, 230; Hamilton, 215, and J. Hurst, 200.

Bowling and Stuff

There was a big turnout last Saturday evening for the opening of the alleys and the bowling exhibition. Our own G-E star, Eddie Kraft, failed to show up (sick). His sub, Earl Beard, proceeded to win five games for Ed and take over first place with 15 wins and five losses. The boys averaged 183.51 at the G-E alleys.

Berquist Dies

Frank O. Berquist, 50, of Lafayette, Ind., died recently at the Central State Hospital in Indianapolis, where he was employed. Prior to working at the hospital, he was employed by General Electric from 1920 until 1931.

Squares Club To Hold Dance At Lunz's Barn

The G-E Squares Club will hold a square dance Friday night, Oct. 28, at Lunz's Barn, off the Sand Point road.

The dance will start at 9 p.m.

Refreshments will include, cider, doughnuts, coffee, and sandwiches.

Tickets may be obtained from contact men for $1.20 per couple.

G-E Touch Football Season Is Underway

The Apprentice School's touch football team defeated the Tool Division in a game, 14-6, Thursday, Oct. 13. The Test Engineers downed Winter St., 9-0, while the Messengers won a forfeit from the Works Lab. Transformer went down before the Firemen, 35-9.

In games played Tuesday, Test Engineers blanked out the Messengers, 19-0. Works Lab was the Firemen's victim, losing 18-0. Tool Division defeated Transformer, 14-12, and Apprentice School beat Winter St., 21-6.

The following games will be played next week:

Tuesday, Oct. 25

7 p.m.—Apprentice School vs. Firemen

Messengers vs. Transformer

8:15 p.m.—Test Engineers vs. Tool Division

Thursday, Oct. 27

7 p.m.—Messengers vs. Firemen

Apprentice School vs. Test Engineers

8:15 p.m.—Apprentice School vs. Transformer

Tool Division vs. Transformer

LEAGUE STANDINGS

	W.	L.
Firemen	2	0
Test Engineers	2	0
Apprentice School	2	0
Transformer	1	0
Messengers	1	1
Works Lab	0	2
Tool Division	0	2
Winter St.	0	2

Fall harvest with all the fruits, vegetables and flowers really means something to Blanche Allen. She thought the horn of plenty had been upset on her desk. There were apples, carrots and flowers. Now all she wants to know is, who was so generous? Anyway, she says thanks. . . . The leaf raking business has really been keeping Dick Scidel and Ed Schneider busy. So far the battle is still raging and no one has won. We heard Ed's new leaf rake got mixed up with the fire and got a little scorched. Looks like the leaves will win yet. Cheer up, boys—the snow will soon cover all those leaves and no one will be wiser. . . . Did you take a real good look at those bright ties of Larry Rickert's? They really help brighten the corner where he is. . . . Baseball is dying a mighty slow death, and at the rate the gang is going it won't even be buried before spring training begins. . . . Jackie Bowers started a new hair fad with her light spot in front, only now she is waiting for it to grow out. . . . We've only now discovered how careless Ray Debolt is. First he dropped a box of small parts on the floor; then he gawked out the window at the firemen practicing till after the whistle blew. How lonesome did you get, Ray? . . . Les Dafforn won a deep freeze. His big problem now, how to raise cattle that will fit into an eight foot freezer! . . . Carl Mathias got a bargain. He got a drill press for only seven dollars. He learned too late that it was so worn out it was no longer useable and had been run over by a tractor! Some fellows have all the luck. . . . After Maurice Crow looked high and low for Ray Debolt one day, he remembered he had sent Ray to work on another machine! . . . George Miller still has heating worries. He wants to put in a furnace but can't figure any way of getting one into his basement. Why not jack up the house and slip it under, George? . . . Frank Surface still is awaiting the birth of a litter of rabbits at his house. Could it be you have a papa rabbit, Frank? . . . Someone ought to tell Bill Schultz not to stand in front of a car. He almost got run over in the parking lot the other night. . . . The Bldg. 17-4 bowling team is now leading the league. Boy, are those guys lucky! Or is it just another case of good hearted pin setters. . . . John Howard has been elected our 1949 Christmas party chairman. Let's everyone give him our support and make this the biggest, best party yet. . . . Tony Miller recently ordered a "big, free catalog." No inside plumbing, Tony? . . . What become of the mustache Jimmy James was nursing. It seems as though he cut it off just about the time you could see it, without taking a second look. Must of been afraid he would get some publicity in the WORKS NEWS if he let it grow. So he played safe and cut it off. As Confuscious say, "Hair today, gone tomorrow," and I do mean hair. . . . Bob Dorsey left us to start a new test assignment in Schenectady and also to start his married life. The boys from the Test Section gave Bob a waffle iron for a wedding present and was he happily surprised. . . . Don Thomas got up early Saturday morning and drove 30 miles to the lake to go fishing, bailed out the boat and went back to the car for his fishing tackle. Was his face red when he discovered he had left it at home. That's what happens when your fever gets too high. . . . HEARTIEST CONGRATULATIONS from all our people to Mr. Hanson on his new assignment. All our best wishes for your continued success.

Decatur Team Wins City Golf Championship For Third Year

For the third consecutive year, Decatur's factory golf team won the City Golf League's championship title. Members of the team are: (l. to r.) John Baumann, Bob Lord, Clarence Morgan, Sephus Jackson, and William Morgan.

Basketball Team To Hold Pre-Game Practice Sessions

The Industrial basketball team has cut their squad to playing strength and will hold practice sessions Monday, Oct. 24, and Thursday, Oct. 27, from 8 to 10 p.m. at the G-E Club gym.

Their opening game will be held Monday, Oct. 31, against the Indiana Tech team.

Manager Bill Scbible will work on team plays and defense next week. The effects of the rugged conditioning are showing some good results. Dick Bucber and Jim Walley look as if they have been playing basketball all summer. Dick Gettys and Lew Goehring are getting in condition fast and with two more practice sessions the team will be ready for the first game with the Tech boys.

ELEX TO TOUR COCA-COLA CO. MONDAY NIGHT

The Elex Club's Coca-Cola party will be held Monday, Oct. 24, at the local plant, corner of Pontiac and Lillie Sts. The group will meet at 8 p.m. for a conducted tour through the plant.

Following tbe tour, a buffet lunch will be served by the bottling company's management. Members and their guests can make reservations by paying a 25-cent fee to their contact girls.

Elex Opens Ticket Sale For Thanksgiving Dance

The third annual, semiformal, Thanksgiving dance will be held by the Elex Club Wednesday, Nov. 23, at the Prom Terrace ballroom.

Bill Miller and his orchestra will play for dancing from 9:15 p.m. until 12:30 a.m. Jean Kelly will be the featured vocalist with the band.

Tickets for the dance, which is open to the public, are $1.20, tax included. They can be obtained from either committee members or contact girls.

Eva Fisher, Taylor St., is chairman of the dance. Vice-chairmen are Sue Thompson, Winter St., and Marian Leiter, Bldg. 17-4. Assisting them are: Maxine Daniel, Taylor St.; Janice Mueller, Taylor St.; Donna Bauermeister, Bldg. 4-6; Justine Luyben, Winter St. and Mary Leiter, Winter St.

Decatur Plant Has Exhibit On Display At Street Fair

One of the featured exhibits at the annual Decatur Street Fair was the display by the Decatur plant. The color movie "Running Water on the Farm" was presented continuously throughout the week. Hilda Staley and Erna Weiland, above, were attendants at the booth during the fair.

G-E Earnings

(Continued from page 1)

cents last year. This was equal to $2.34 on each share of common stock this year as compared with $2.91 last year.

In the third quarter the differences over the experience last year were even more striking. Again, sales volume was greater, some of this coming out of the backlog of orders placed earlier, but much of it due to the lower prices put in effect earlier to stimulate buying. Sales in the third quarter amounted to $388,615, 888 or 6 per cent more than the corresponding quarter of 1948. The degree to which General Electric was willing to take the risk to get such volume is indicated by the drop in earnings for the three-month period to $21,060,037, 28 per cent less than in the same three months of 1948.

Throughout the third quarter of 1949, the backlog of sales orders was being used up, but nevertheless, employment was coming back in many lines before this healthy and desired trend was arrested by a coal or steel strike. It is greatly to be hoped that the steps General Electric has been taking to assure continued high volume production with the highest employment possible under the circumstances will continue to have the chance to be effective. Certainly, it can be promised that the Company will be trying to keep on getting production back up, whatever the circumstances.

Despite the lowered earnings, the usual dividend of 50 cents a share of General Electric common stock will be paid October 25 for the third quarter of 1949, making a total of $1.50 a share the first nine months of this year. This will be the 209th dividend on the Company's common stock, and will be distributed to about 251 thousand stock holders.

	3 months ended Sept. 30, 1949	9 month ended Sept. 30 1949	1948
Net sales billed	$388,615,888	$1,190,372,404	$1,137,935,052
Costs, expenses, and other charges	357,401,901	1,082,577,108	1,003,858,939
Income from sales	$ 31,213,987	$ 107,795,296	$ 134,076,113

Net income applicable to General Electric Company common stock	$ 21,060,037	$ 67,612,879	$ 83,893,459
Earning per share on 28,845,927 shares issued	$0.73	$2.34	$2.91

*Includes dividend, from prior years' earnings, of $6,525,310 received in September, 1948 in connection with the liquidation of G-E Employees Securities Corporation.

HAPPY BIRTHDAY — Happy birthday to Herb Behm, Oct. 10; John Chipco, Oct. 19, and John Nute, Oct. 23. . . . GOOD LUCK—The girls in the Engineering File Room had a party last Tuesday noon at the Works Restaurant in honor of both Jo Ann Ansberry, who is leaving the Company, and Bernice Fisher, who is getting married Saturday, Oct. 22, at 9:00 a.m. . . . NO PAPER—Won't somebody please take pity on Norm Oetting and see that he gets to see the Journal-Gazette in the morning. Since Thelma Voiral left it is hard for him to get one. . . . SYMPATHY—We extend our deepest sympathy to Al Ulmer on the death of his brother. . . . TRAVELS—Betty Puff and Donna Bauermeister went to Chicago to attend the Elex Convention. Jerry Duryee traveled to Southern Indiana. Rita Streck and her husband attended the International Dairy Exposition at Indianapolis. . . . Many miles were added to the speedometer of Joan Traxler's car this last week-end. She and her husband, Paul, traveled through Southern Indiana, Louisville, and Cincinnati. They visited Clifty Falls State Park and enjoyed other scenic points of interest. . . . VACATIONS—Al Ulmer is back from his third week's vacation. He went to Phoenix, Ariz. While he was there, he saw Miss America. Was that the reason for going, Al? . . . NEWS—The Developmental Division received a letter from Joan (Poos) Dreyer, a former employee who is now living in Louisville, Ky. She says Kentucky is a very nice place. . . . BY BY—Today is Max Hower's last day. He is leaving the Company to accept a position in the Diesel Div. of General Motors. We wish you a lot of luck in this and also in your other new adventure coming up. . . . DING DONG TIME—Some of the gals and guys of Bldg. 4-6 had a wienie bake last Saturday under the very beautiful stars. Almost all were present and accounted for. It was held at Foster Park in the third pavillion, which was difficult to find because no one knew for sure where it was.

C. W. MacKay got to be a grandfather Oct. 6 in Dayton, Ohio. He thinks the grandson will grow up to be an engineer too, because he is already using Charlie's thumb for a slide rule. . . . We also have another new grandfather among us. Mart Macke is quite proud of his little granddaughter. . . . Welcome back to work, Herman Bertsch. We really missed you during your long absence. . . . If Harry Rohrbaugh had returned from Norfolk, Va., with a crew cut we'd have thought he enlisted in the Navy while there. When approached about this, all Harry answered was that it was purely a vacation trip to visit his daughter and son-in-law stationed there. . . . What's this about Albert English being seen in Lawton Park one Monday afternoon trying to outdo Mahatma Ghandi? Or were you waiting for someone, Albert? . . . Everyone seems to be getting excited about "Oscar, the Busco Beast," again.

Corn S'talks

TAYLOR ST. SHIPPING

By Gloria Geesaman

Last week we had surprises. This week we have a mystery. . . . More interesting, huh? Telephone calls and candy bars are left at a certain desk. And our Romeo is going around asking if anyone is trying to pull his leg. He just has a secret admirer. Since it's still a mystery we will not tell who the Romeo is. So tune in next week, same time, same station to find out if anything new has developed. . . . Some husbands would rather listen to "Jack Armstrong" than to his beloved wife. Guess Ruth Sutorius will just have to get out the rolling pin and beat bumps on Dick's head so he'll mind his manners. Just advice, Ruth. We all have the same trouble with our husbands. . . . Doris Dimke was showing me her little branches, from the two big trees. The results was two cute kids (children that is). Just wanted you all to know she's a mighty proud mamma. She has the right to be too. . . . Grace Taylor is our "Trouble Shooter" around here. If there's anything you want to know, just ask Grace! . . . Is Alice Uffeleman's face red. Her chair is broken so much that she's ashamed to call the repair man to fix it. Standing more than sitting, maybe you should get a new chair or not be so rough, Alice. . . . Barbara Rebb's boy friend has a real cute name for her. Why don't you all ask her what it is? . . . Talking about boy friends, Pat Waterman, after a telephone call, looks like she is floating on air. Only trouble is, we can't find out who he is, darn. . . . You heard of people cating "pickled pigs feet." Naomi Snyder eats chicken feet. Maybe she likes to develop her teeth. . . . Russ Carpenter teaches his small son things to say, then blames it on his oldest boy. The saying goes, "Like father, like son," Russ. What we want to know is, what is a Jigaboo? . . . When you go out to our Complete File, you will find Nancy Woodhull completely snowed under. It's a good thing that Helen Tartlon helps dig her out once in a while, or we would never be able to find Nancy at all. . . . When Clarence Schaefer goes out to lunch with the truck drivers, he always comes back with some kind of a picture. Only thing is that he won't show it to anyone, tch, tch, Clarence. . . . The rest of you people whose name that hasn't appeared in this column, well your time is coming. I just haven't dug up enough dirt on you. . . . This reporting of the news from our division has really got Gloria, our reporter. She is now talking through holes in the wall.

The report in last week's column concerning the redhead and Charlie Curtis was in error. Instead it was Casanova Shuler who was having a tete-a-tete with the gal. . . . No alibis from Kenny Guisinger were necessary for last week's game. New Haven beat Payne with a score of 31 to 7 at the "Dad's Night" celebration. The buttons are still popping off his vest. . . . Mondays seem to be bad for lots of people. As for instance, last Monday when the quitting buzzer sounded Bessie Potts innocently inquired if it was time for lunch or time to go home! It must be wonderful to have all that vitality. . . . We have word that Luella Knoche has returned home from the hospital and is improving. . . . Group 15-50 and 51 received a card from Bryan Brown who is ill at his home in Monroeville. . . . Vier Johnston and his missus are driving south on their vacation this week. If the new Ford performs as it should and time permits they expect to go as far as Florida. . . . Carl Stadelman is having mice trouble in his new house. The hungry "varmints" would like to share it with him but Carl is distributing traps all over the place. Here's hoping he doesn't go walking about in his bare feet and catch the wrong animal. . . . Mary Rupp spent her vacation last week in the Smoky Mountains where she had an enjoyable time.

FORT WAYNE WORKS
NEWS

CHARLES E. WILSON Anniversary 50 years with GENERAL ELECTRIC

Volume 32 | FORT WAYNE, INDIANA, FRIDAY, OCTOBER 28, 1949 | No. 43

G-E Club To Present Square Dance Tonight To Observe Halloween

A Halloween Square Dance for all G-E employees, their families and friends will be held tonight in the G-E Club auditorium.

Sponsored by the G-E Club's entertainment committee, the dance will start at 9 p.m. and is free of charge.

Two attendance prizes and awards for the most unusual and funniest costumes will be awarded during the intermission. Music will be presented by Joe Taylor's Red Bird band.

Instruction in square and round dancing will be given for all those desiring it.

Reservations Are Taken For Trip To Ice Show

Reservations for the Elex trip to see the Sonja Henie Ice Show at Indianapolis, Saturday, Dec. 3, must be made immediately. A charge of $3 should be paid when the reservation is made.

Vernon Sheldon To Address Foremen's Dinner Nov. 9

Vernon C. Sheldon will address the Foremen's Association at its annual ladies' night and dinner in the G-E Club auditorium Wednesday, Nov. 9.

Mr. Sheldon has been recognized as an able and entertaining speaker for many years.

He spent nine years in Lyceum and Chautauqua work and has been on the staff of the Indiana University Extension as a lecturer on public speaking.

V. C. Sheldon

For the past 10 years he has been in the real estate business and is a member of the Fort Wayne Board of Realtors, Educational Committee of the National Real Estate Association, and counselor for the Fort Wayne Forum Club.

His topic will be "A New Formula."

Dinner music will be presented by Buddy Nolan, organist from Huntington.

Tickets for the dinner meeting may be obtained from contact men starting Monday.

Elex Card Party To Feature Style Show Wednesday Night

The Elex Club will have a card party in the G-E Club auditorium at 8 p.m. Wednesday, Nov. 2. Tickets for the evening are 50 cents.

Featured during the party will be a style show presenting fall suits and fur fashions. Table and attendance prizes will be given, with a suit to be presented as an attendance prize. Refreshments will be served.

Those attending the party are to form their own tables and can play any card games. Members are requested to bring their own cards.

Betty Puff, Bldg. 4-6, is chairman of the card party. Helen Brindle, Bldg. 26-2, and Alice Dahman, Bldg. 4-5, are her committee members.

STOCKHOLDERS TOTAL 251,064

The General Electric Company had a total of 251,064 stockholders as of Sept. 23, the record date for dividends payable Oct. 25, according to W. W. Trench, Secretary of the Company.

The new total is an increase of 1,725 over the 249,339 stockholders recorded as of Dec. 17, 1948, and 2,214 more than the number recorded Sept. 24, 1948, Mr. Trench said.

Eighty-seven per cent of the stockholders are individuals, the Company Secretary reported. Brokers, banks, bank nominees and other business enterprises total less than two per cent of all stockholders, while "trustees, guardians, and other fiduciaries" account for 10.7 per cent of the number. Various educational and charitable institutions owning G-E stock total approximately six-tenths of one per cent of the stockholders and hold more than 410,000 shares.

16 SUGGESTORS ARE GIVEN LIGHTERS AS BONUS AWARDS

The following 16 employees were presented G-E monogramed cigarette lighters this week as bonus awards for submitting suggestions on which the regular awards were $10 or more:

Fred Schamerloh, R. L. Mills, Clarence Morgon, Jay Rippe, Lowell Welker, John Inches, Lucille Neville, Olen Lehman, Dorthea Kaylor, L. W. Johnke, Stephen Sallot, Jr., Raymond Schuckel, A. J. Delagrange, Simon Kuapp, Erma Cummings, and John Schreiber.

Negotiations Are Recessed Until Nov. 2

As in the other recent session, discussions between the General Electric Company and the United Electrical Workers-CIO Wednesday, Oct. 26, continued to be centered in the exploration by the union of the important features of the offer made by the Company last week.

At the close of the session, the negotiations were recessed until Wednesday, Nov. 2.

Apprentice Alumni To Hold Stag Party

The G-E Apprentice Alumni Association will hold its Fall Stag party Tuesday night, Nov. 1, at Kreis Stolzenau hall, 111 E. Brackenridge St.

Refreshments and card games are being planned. Tickets may be obtained from contact men for $1.

This will be the final social affair for the association before its banquet and election of officers in December.

G-E Squares To Hold Barn Dance Tonight

A barn dance for members of the G-E Squares Club will be held tonight at 9 p.m. in Lunz's Barn, off the Sand Point road.

Don Motter, Bldg. 28-2, is chairman of the event.

Tickets may be obtained from contact men for $1.20 per couple.

Congratulations

To All General Electric Employees:

All of you who participated either as solicitors or contributors in the Community Chest Campaign, conducted in the various Fort Wayne General Electric plants, can be proud of the success of your efforts. A total of $46,750, or 104% of our $45,000 goal, was raised. This is the first time since the end of the war that we have exceeded our goal.

An analysis of the results indicates that 78.9% of us contributed to the work of the Community Chest and its 20 Red Feather agencies and the USO, which is an increase of 12.1% over last year; the average giving per employee was 18.3% higher than in 1948.

In a published statement concerning the progress of the Community Chest Campaign, Herb Weil, General Chairman, referred to our giving as "one of the most splendid examples of cooperation in the present campaign."

Our employee gift of $46,750 supplemented by the Company gift of $12,000 brings our total participation to $58,750 or 12.9% of the Community Chest goal of $453,000, which must be raised if the social welfare and character building agencies of the Chest are to continue to offer their worthwhile services.

My sincere personal congratulations to all who participated in this fine, successful effort. May you wear your Red Feathers of neighborliness proudly.

C. A. Matson
Works Manager

Emcee, Magic Show Are Announced For G-E Club's Revue Nov. 5-6

DICK WARE

Dick Ware will act as emcee for the G-E Club's annual Fall Revue Saturday and Sunday, Nov. 5-6, it was announced today.

Free tickets to the revue are available to all employees at the G-E Club candy-stand and at the Taylor St. personnel or employment office.

Dick Ware has been featured in several New York shows, in motion pictures, and has played vaudeville theaters from coast to coast.

The G-E Club's entertainment committee also announced today the return engagement of the Jack

HERITAGE OF CONFIDENCE

At this very moment, General Electric equipment is generating power in the mountains of Chile, hoisting ore in the mines in Africa, propelling ships across the Pacific, hauling trains in South America. It is cutting lumber in Oregon; irrigating the dry lands of California; freezing fish in Florida; washing dishes in a New England home. It is X-raying the diseased bones of an invalid; and lighting a hospital operating table.

Our turbines, motors, refrigerators, radios, oil burners, lamps, plastic, and wiring supplies are well known in the four corners of the world. Through the medium of reliable products we have struck a common tongue so that the words "General Electric" are understood everywhere.

It may seem superfluous to say the Monogram, backed by research, engineering and modern manufacturing techniques, has brought countless benefits into the lives of hundreds of millions of people all over the world, but it is true.

The story behind the Monogram and its benefits to people everywhere is the story of American industrial creativeness, courage and cooperation. It is the story of creative men, some being individual geniuses who toiled alone. But by far, the majority have worked in cooperative teams. It is the story of a reliability and unquestioned quality which General Electric employees everywhere build into the products they make for a waiting world.

It is little wonder that General Electric can pridefully include in its advertisements the phrase:

"You can put your confidence in General Electric."

Confidence in a product is a sure sign of successful production. And successful production means a continuing successful acceptance of our product by the consuming public which recognizes the Monogram as a symbol of quality and a pledge of reliability.

That there is public confidence in General Electric is due in great measure to the pride which General Electric employees everywhere build into their jobs and into the products they make; it is due also to the "word-of-mouth advertising" through which our employees express their pride in the products they help to make and through their team efforts which result in giving the nation and the world the best we have to offer.

Each single employee in our plant and, in fact, in the entire General Electric family, shares in the trust we hold for peoples everywhere—a trust exemplified in the production of quality products at retail prices set as low as it is intelligently possible to make them.

The next time you look at the General Electric Monogram, remember that through your employment, you, too, have:

"Put Your Confidence in General Electric."

—Hanford WORKS NEWS

COMPETITION

Competition is harsh, sometimes cruel, but it works. It gets results. It compels improvements in methods that multiply the efforts of a man a hundred and a thousand times.

A high school graduate can outline more utopian ideals in an hour than the world can achieve in his lifetime. Only after the young man has had his face rubbed against the grindstone can he be taken seriously.

Of course, the highest type of man is one who, in full knowledge of what is, keeps his mind and vision open to what ought to be, and supplies impetus to push the world in the right direction.

These men are rare. They are the leaven that has caused mankind to rise slowly but surely to the stature of freemen.

—DeKalb PLANT NEWS

A More Abundant Life

"Here let it be enough to say that we have the advantage of a growing general knowledge that no government and no politician can make a more abundant life. They are not instruments of production. And today, more than ever before, people know that the creation of new things for a better life is largely in the hands of business leaders. This implies duty and responsibility more than it means power or authority."

—Charles E. Wilson, President

- CHEER UP PAL, WE ASKED FOR IT!

It's Your Federal Government

Confused Federal Finances

By Robert L. Johnson

Editor's Note: Following is the fourth in a series of articles describing the major findings of the "Citizens Committee for the Hoover Report." These articles are written by Robert L. Johnson, President of Temple University and Chairman of the committee. This committee is a voluntary, nonprofit, nonpartisan organization of leading citizens which has undertaken the task of informing the public of just what reorganization means and what the Hoover Commission recommendations, if enacted into law, will mean to each individual and to the nation.

With your own money worries and problems of making your own budget balance, you have probably given little thought to the colossal financial structure of the government.

You very likely take it for granted that the richest government in the world, spending this year more than $42 billions, must be operated with super-perfect accounting routines, controlled by financial wizards. You may suppose that accountability for the last penny is clear, and that a financial statement of the condition of the country is immediately available for examination and check.

But this is not what the bipartisan Hoover Commission found after a thorough survey of the government's operations in the fiscal field. You as a stockholder in the corporation, must want to know what the Hoover Commission found. The Commission wrote:

> "The time has come when the budgeting and accounting system of the federal government must be modernized. Some of its fiscal concepts came down from Alexander Hamilton. They were archaic when the total expenditures of the government were $4 billions per annum. Now, with a government which spends over $40 billions per annum, they are totally inadequate."

The existing system, the Commission decided, is confusing both to Congress and the public. It therefore recommended an entirely new structure, designed to tell Congress and the public these things:

On Budgeting: What is the money wanted for?

On Accounting: What does the taxpayer get for it?

The 1949-50 budget, the Commission found, does not give an understandable plan for Government expenditure. Its 1625 pages, of 1,500,000 words are badly organized. For example, it carefully itemizes a request for $114.53 for a minor expenditure in the Bureau of Indian Affairs and then calmly dismisses a request for $1 Billion—that's right, one billion dollars!—for the Veterans Administration with the single entry: "Salaries and Expenses."

In Government accounting the Commission revealed that literally tons of vouchers arrive by freight car loads in Washington for auditing by the General Accounting office. Storage costs for this mass are tremendous. The Commission recommended that this checkup be made by the departments concerned in the field. Moreover, it said a simple "spot check" would do the job without examining every one of the millions of vouchers.

Up To Congress

The mission of the bipartisan Hoover Commission was to delve into this and some 24 other problems of government and make recommendations for economy and efficiency. The commission, in a 19-volume report to Congress found ways in which, I personally believe, at least $4 billions a year can be saved without curtailing government services. President Truman and former President Hoover are jointly urging Congress to pass the laws that will make these savings possible.

You may be surprised to learn that, under the system in use, there is no formal accounting plan for the government as a whole, and no place where an overall picture of government finances can be found. In this connection, the Report points out that there is no person charged with the duty of preparing such a plan nor anyone with the authority to install one.

To the average man this will seem backward and confusing. But more of the same sort is to come. Some of the agencies, the Post Office, for instance, do not keep their own accounts and the Postmaster General himself could not tell you, within eight months of a given date, the financial standing of his department.

Demanding Of Others

But while lax in its own accounting, the government is very demanding in its regulation of private enterprise. Not only does it require full disclosures of financial transactions but often dictates to these enterprises how they shall keep their books.

There has developed, in this department a situation in which a Comptroller General has been forced into a Jekyll and Hyde position. When the Bureau of the Budget was moved from the Treasury to the Office of the President, the chief of this bureau began taking part in making decisions of the Executive Branch which he later had to review as auditor. He is in a dual role. He is, in fact, his own auditor.

The solution of this, the Commission suggested, was the creation of a new official, to be known as the Accountant General, who would serve the President as an accountant serves the head of a private company. This would leave the Comptroller General free to do auditing, and nothing else.

Revamp Treasury Dept.

A general reorganization of the Treasury Department was recommended by the Commission, to relieve it of encumbering agencies which it has collected during the years which have little or nothing to do with finance. These, the Report suggested, should be transferred to more appropriate departments.

The non-fiscal agencies now in the Treasury include: the Coast Guard, Bureau of Supply, Board of Transportation, Narcotics Bureau, U. S. Secret Service, Bureau of Printing and Engraving.

The Bureau of the Budget came in for some criticism by the Commission. This bureau was organized 27 years ago to modernize budget processes and produce an understandable budgetary document. So far, the Commission says, it has not done so. It has, on the contrary, assumed functions for which it was not created, expanded its staff into the largest staff agency in the government, and has concerned itself with formation of administrative policy and management. For this reason, according to the Report, it has not always had the confidence of Congress.

SCIENCE QUESTION BOX

by SCIENTISTS OF THE G.E. RESEARCH LABORATORY

Q. Is there a planet, or some other astronomical object, called Miranda?

A. This name has been assigned by Dr. Gerard P. Kuiper, of the Yerkes Observatory, to a new satellite of the planet Uranus which he discovered in February, 1948. The four satellites that had been known previously are named Ariel, Umbriel, Titania and Oberon. Oberon and Titania are the king and queen of the fairies in Shakespeare's "Midsummer Night's Dream," while Ariel and Umbriel are mentioned in Pope's "Rape of the Lock." Ariel also occurs in Shakespeare's "Tempest," where he is an airy sprite who can change shape at will to serve Prospero, his master. Miranda, according to Prospero, in the same play, is "a little cherub that did preserve me."

BEAST OF BUSCO: It looked like that a week ago Wednesday night when the wrestlers threw Virgil Howell, the referee, out of the ring. Those who were at the wrestling match say that you would not have known it was Virgil. You might have thought it wss "Oscar" coming out of Fulks Lake. The size was sure there. We'll say that much. . . . LONG TIME: Before you will have enough stone for that driveway, Emmett Razor, by just hauling them home from the parking lot in your hub caps. Who did the loading? Was it the same L. M. who tried to teach you how to bring in those carp? They tell us, Pappy, you were so excited that it was pitiful. Don't feel too badly about it; Lou Maier's not so hot either. He had to take you way up in Michigan just to catch carp. He's been telling us right along they were bluegills. We thought something was wrong. We never saw any of them thar gills. . . . LIGHTERS: Amel Beck and Art Gardt received lighters along with their suggestion awards. Neither one of them smoke, so what will happen. Somebody will no doubt get a lighter for Christmas. . . . CHICKENS: Alva Johnholz has been selling them with the understanding they were corn-fed. Hobard Friend bought one and all he found in its craw was broken-up glass. No doubt this chicken was so hungry that it ate glass in hopes it would cut its 'ittle neck. . . . BACK AGAIN: Is Wimpy Lemper, he bought a calf and took her home in a trailer. Arriving home after dark, he had his wife hold the flashlight while he tried to pull the calf with just a rope around her neck out of the trailer. About the time the calf hit the ground, Wimpy's dog bit it in the hind leg. Off she was with Wimpy trying desperately to hang on, but when the calf went for a large mud puddle Wimpy left go. For this neat little trick, the calf got two days of real freedom. It took that long for our Boy Scout to catch up with her. . . . THINGS WE FORGET: Like the work our coworkers do. They were elected by you because you felt they would do a good job. We then proceed to forget about them until we, as individuals, are in need. Then he or she is the first person we think about. We are talking about our Division MBA secretaries. Our secretary is Art Gardt. Art does one swell job. Let's all give him a big hand and mention it to him sometime how much we appreciate his work. . . . WEDDING PRESENT: Leo Elward says, "Thanks, fellows, for our wedding present." . . . DOGHOUSE: Howard Smith and Dillo Patten told their wives they were going to the Decatur Fair. All went well until the next day, then Mrs. Smith read in the papers that the fair had not started yet. We don't know how Dillo came out, but our little Howard was in the doghouse for over a week. Where were you guys? We would like to know, too. . . . SHAVING SOAP: We must say that Bill Rohe is really a salesman. We believe he could sell shaving soap to Mustache Joe. . . . HALLOWEEN: Please have a good time, but in a decent way. Don't damage people's property. There is no fun or sense to it. Wear a mask if you must, but don't do anything you wouldn't do if you were wearing your real face. . . : TICKETS: Don't forget to get your tickets for the G-E Club Fall Revue, which will be held Nov. 5 and 6 in the Club's gym. It's always been a fine show, don't you agree?

Insulation News

It seems that Red Noyes waited a bit too long for his vacation. Old Jack Frost had the same week in mind. It looks like fine weather for ice fishing though, Red. . . . Notice to all your racing fans! Bill Lipp now sells piping hot coffee to the Sunday afternoon fans. He'll even deliver it personally—for a small fee, of course. Earl Gebert will no doubt be your first customer, Bill since he has become a racing enthusiast. . . . Has anybody else noticed how much better Russell Flaugh whistles since those teeth were pulled? . . . Belated happy birthday to Bill Hattendorf, Oct. 21. After that delicious divinity fudge, we all wish that Bill had a birthday every day.

Schnieders Completes 40th Year

C. M. Schnieders, Supervisor of FHP Budgets, recently celebrated his 40th anniversary at General Electric. A number of his associstes in the Fractional Horsepower Motor divisions honored him at a luncheon. Left to right are: C. B. Smith, Supervisor of Procedures; L. I. Asher, Divisions Accountant; A. W. Bartling, Manager of Sales; Mr. Schnieders; L. D. Hodell, Manager of Manufacturing; M. E. Lord, Manager of FHP Motor divisions; B. R. McClure, Staff Assistant; W. H. Sunier, Supervisor of Inspection and Test; and J. J. Clarkson, Manager of Engineering.

Elex Club Plans Second Tour Of Coca-Cola Plant

The Elex Club's second Coca-Cola party will be held Monday, Nov. 14, at the local bottling plant. The tour will begin at 8 p.m., followed by a buffet served by the Coca-Cola management.

Approximately 700 members and guests of the Elex Club visited the plant Monday night. Doyle Anderson, owner and manager of the local firm, served as host for the party and tour of the plant. The evening closed with the serving of a buffet lunch.

Because the Oct. 24 group was so large, only a portion of the members were able to attend that party. This tour will be for those unable to go to the other party.

Pensioner Parade

One nice thing about being retired is that you can have all the time you want to travel instead of crowding all your travels into two short weeks. L. C. Yapp is one who is taking advantage of this opportunity. His friends back home have received cards from Grand Rapids, Seattle, Portland, Eureka, San Francisco, Sacramento, Los Angeles, Grand Canyon, and Holbrock. . . . Bill Koenig was in recently to visit old friends at Taylor St. Come in again, Bill, we're always glad to see you and other retired folks. . . . When you're up in Waterloo sometime, drop in at Irene's restaurant to see Ollie McBride. She is working as a waitress there. . . . It's good to hear that Fred A. Thompson is now out of bed after recovering from illness. . . . Some more of our pensioners are on the highways. Mr. and Mrs. W. N. (Billy) Wehrs and Mr. and Mrs. Homer Hartman left recently for a visit at Clifty Falls, near Madison. . . . Fred Nute is recovering from a serious illness and is confined to his home in Bluffton. We hope you will soon be up and around again, Fred.

Prize Pike

Charles Strodel, retired foreman from Motor-Generator, caught this pike at Jimmerson Lake. It was caught on a 9½ ft., hamboo fly rod with a 28 lb. line, 6 pound gut leader and a No. 10 white miller, bluegill fly. The fish weighed 23 pounds, was 43 inches long, and 18 inches around the neck.

After the pike was landed it was tied on the boat with a piece of anchor rope. Charlie said it pounded the boat bottom hard, but luckily he had a steel boat which was given him by his coworkers when he went on retirement. Charlie lives at Jimmerson lake the year around and does a lot of fly fishing, but this tops all he has caught. By the way, he found a 10-inch bluegill inside the pike.

Elex, GeCode Officers Hold Meetings To Plan Activities For Coming Year

Following their election to office recently, the new officers of the Elex Club and GeCode Club held their first meetings to plsn the activities for the coming year.

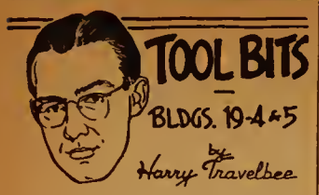
The Elex officers are at the left. Seated: (l. to r.) Jean Smith, treasurer; Alice Dahman, second vice president; Bea Lantz, first vice president; snd Geraldine Schmidt, secretary. Standing: (l. to r.) Msbel Miller, director; Betty Gsrber, trustee; Lois Drewett, director; Mary Leiter, president; Helen Engle, trustee; and Jo Alles, director. Chsrlotte Stanford, past president, will serve as director and Alta Bishop Mayle will complete her second year as director.

The GeCode of Decatur officers are shown at the right. Seated: (l. to r.) Norma Bower, vice president; Dorothy Schumm, secretary; Mary Fennig, president, snd Florence Schultz, treasurer. Standing: (l. to r.) sre Betty Smith, director; Rosemsry Miller, director, and Dorothy Schnepf, director.

The GeCode members are at present conducting a sale of sachets. They expect to launch their annual Christmas card and gift wrapping sale on Nov. 10.

Meeting Planned Tuesday For Basketball Managers

A meeting of the Interdivision basketball team managers will be held in the G-E Club lounge Tuesday, Nov. 1, at 5:30 p.m. Any division desiring to enter a team in this league should send a representative to attend this meeting.



Emcee, Magic Show

(Continued from page 1)

Gwynne Magic Show.

Gywnne recently went part way around the world for the USO, and came back with a completely new bagful of tricks.

The revue will be given at 7 p.m. and 9 p.m. Saturday, Nov. 5, and at 1 p.m., 3 p.m., and 5 p.m. Sunday, Nov. 6. Employees may get as many tickets as are specified on their membership cards.

Herb Thiele thinks football is a wonderful game, especially since last Saturday when Indiana turned on the heat against a favored Pitt team, to the tune of 48-14. . . . Jerry Widner and the Mrs. attended the Purdue-Illinois game, but came home feeling a bit on the blue side. Purdue was defeated and things aren't looking much brighter, as the Boilermakers meet Minnesota and Michigan the next two Saturdays. Maybe they can play Indiana. . . . We welcome two boys back to Bldg. 19-5 Tool Room. Del Stickler on lathe and Art Wolfe on vertical mill. Mighty glad to have you with us again, fellows. . . . We wonder why John Roemer had the biggest smile of any of the boys in the lathe section last Friday afternoon. . . . Had the boys in the lathe section, that worked overtime last Friday night, known it ahead of time; none of them would have had to bring any lunch. Reason: Chet Stone unveiled one of the largest pumpkin pies that we have ever seen. Not only was it big around, but it was really packed full of good old-fashioned pumpkin filling. It was a strong inch-and-one-half thick by actual measurements, to say nothing of the fine flavor. Thanks a lot, Chet, (and Mrs. Stoner, too) for that swell treat. . . . Mr. and Mrs. Ray Mutton finally had to take a look for the Beast of Busco last Sunday. As far as Ray is concerned, however, he could have stayed home, because said turtle just would not cooperate and show himself. Better luck next time, Ray. . . . Mike Rauner really likes those swell-smelling cigars, but does Gene Dennie like them? Well, we will let you guess. When Mike finally threw away the last bit (½ inch) of that cigar that he had been holding onto for so long, a big smile and look of relief came over Gene's face. . . . Steward says you find the darnest things under these tool cabinets, but most of the time it's the floor—after sweeping, that is. . . . Bill Jones (shaper man) finds that raising a family and getting an education at the same time presents a few complications. The other night, Bill was getting ready to do his homework (trig, or something), but decided to give that new baby her bottle first. She was a bit sleepy. So it took longer than Bill had figured. Finally she was finished and went to sleep. Back to the studies—but maybe I'd better check on the next feeding—sure enough, Bill had to go to the store for supplies for the baby's formula. Back to the homework, but wait—a knock at the door—you guessed it—company for the evening. Bill thinks he has more troubles than Mr. Orbit in the funnies. Don't give up the ship, Bill. . . . Walter Schust got a little confused on the west-end elevator Monday morning, as Ed Kayser and John Hensler stood across from him and acted as if they were talking about him (Walter). His face flushed a little (someone said you could have lit a cigarette on Walter's face) and as the elevator stopped at fourth floor, Walter just walked right off. He said he needed the exercise of walking to the fifth floor. . . . Just call us the Harmonica Boys, says Bill Jones and Emmett Rasor, they play in the stairway at noon with John Hensler as coach and accompanied on the bass fiddle. Something like the famous Mills Bros. Harold Huffman came into work last Monday with a gash across his forehead. He was moving some dirt from his backyard. His three-year-old son, Butch, was helping him. As he was stooping over to brush up the last of the dirt, Butch gave a swing with a full-sized shovel and hit Harold. Haven't you heard of the Child Labor Law? . . . Karl Smith came home safe and sound from his planned trip of nine western states. They had a fine trip and arrived home safely—no samples from the U.S. Mint at Denver.

In all auto driving classes pupils flunk until they learn how to pass properly.

Honored At Retirement Party

Mary J. Occleston, Bldg. 18-2, was honored last Friday at a party to commemorate her retirement after 32 years' service. She began her General Electric career in 1917 and at the time of her retirement was C. H. Matson's secretary. In the picture are: (front row, l. to r.) Vivian Bond, Emily Guth, Miss Occleston, Irma Tibbet, Helen Gellert, Edna Nieber, Mary Cooper and Mildred Whitmer; (back row, l. to r.) Doris Lehman, Hazel McDougall, Marilyn Mattes, Minnie Fryback, Lucille Currie, Irene Ofenloch, Helen Rider, and Jane Bradtmiller.

Information Clinic

QUESTION

Is it true that the Company is about to discontinue the manufacture of coffee makers?

ANSWER

"The General Electric Company is going to continue in the coffee making device business," according to C. K. Rieger, Manager of the Heating Device and Fan divisions, Appliance and Merchandise Department.

Mr. Rieger adds, "It is true that manufacture of the present design of glass coffee maker has been discontinued, since there is a sufficient quantity in stock to last for several months."

QUESTION

Is it true that the Company has sold its radio business?

ANSWER

According to I. J. Kaar, Manager of the Receiver division for the Electronics Department, "The Company has not sold its radio business and, as far as I know, has no intention of so doing. Actually the Company, in effect, sold out to RCA in 1930, but re-entered the business in 1935, and we have been engaged in the business ever since."

QUESTION

I would like to know if it is permissible to bring one's wife or husband to the Employees' store. Is there any special procedure to follow?

ANSWER

Yes, it is possible for an employee to bring the wife or husband for the purpose of making purchases at the Employees' stores. The following procedure should be followed:

At any time other than during the employee's regular working schedule, the employee should meet the wife or husband at the reception desk and be given an identification tag by the receptionist.

This week Roy Bracht, the Indispensable, is on vacation; which brings to a standstill all activity in the enclosure managed by him. It's to be hoped we will be able to carry on without having to call him in and that he will enjoy the much-needed rest. . . . Perhaps Johnnie Craig needs stronger lens in his glasses. He doesn't seem to be able to see bright red with those. . . . Hilda Walda spent the week-end visiting her sister in Toledo. . . . It takes a better excuse for being late to work on Monday morning than an empty gas tank, but Fred Bailey still insists that's the reason. . . . Ed Glusenkamp has been sporting a new pipe, which he thinks makes him look like Sherlock Holmes. Perhaps it brings inspiration when searching for lost material.

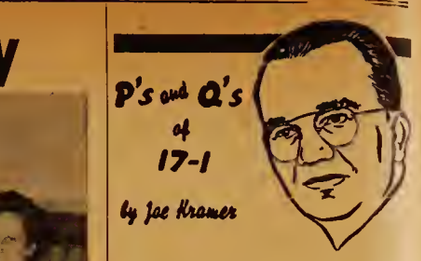
.....

.....

.....



.....

Signed.....

Location.....

Instead of the well-known saying "Where, oh, where can my little dog be," the words "Where are you going" have taken the spotlight in Division 19. More of this as time goes on. . . . Jim Carey, former employee of Group 19 x 72, paid a surprise visit the other morning to borrow a quill. Jim promised to return it as soon as he was finished. . . . Clyde Crabill is going to spend his third week of vacation in the North hunting deer. Clyde has taken the first step and sent for a bottle of "buck-lure." L. Decker visited Michigan last week and returned with some additional hints and helpful items for Clyde to take along on his trip. Decker brought his back in a little box. Clyde may be a little reluctant to show you what he has to guarantee his success while hunting, but with a little coaxing he will show you what is in the little black box. . . . Congratuations go to George Mosshammer who celebrated his 38th birthday last Monday. . . . The Elex tour of the Coca-Cola plant was quite a success. According to the reports from Ruby McBride and Elizabeth Love, the sandwiches were really something to look at and the coke was just right for sampling. . . . Ray Epperson is looking for some rye seed for his garden. Ray is mainly interested in the dwarf variety due to the trouble he experienced last year with his giant variety. As you remember, a number of occasions Ray had to conduct searching parties through his rye field to locate neighborhood children who had gotten lost. . . . Ralph Beerman was also a visitor to Bldg. 17-1 last week. . . . Ralph Pettit is now giving voice lessons on a different scale. His teaching technique is different from the usual voice instructor in that Ralph uses fright to attain his objective. He will gladly demonstrate. . . . Jack Cochran took another trip to the southern part of the state to visit Washington in search of some southern sand grown watermelons. We don't know what kind of luck Jack had, but bet he saw some beautiful scenery on the trip. . . . Ernie Riley has not decided whether he will make his intended trip to California this summer or not. He would like any folders or pictures you might have to interest him in taking the trip. . . . A new member of the Elex Club who joined so he could make the trip through the Coca-Cola plant was Frank Martin. Frank said it was worth the initiation to be able to eat some of those good ham sandwiches.

The Snake Pit

Ray Smith, Repair and Return section in Bldg. 4-4, is pictured showing a bottle of what is believed to be blue racer eggs to Perry Jeffries. Mr. Smith discovered the eggs this summer on his farm near Yoder.

This story comes to us belatedly, yet it is on time. Helen Burnam was seen at her bus stop one hour early Monday, following our return to standard time. Failing to find familiar faces, Helen then faced the dawn, double-ways, that is. The day was somewhat in the dark and so was Helen. . . . Radiant in its beauty, our last rose of summer didn't have a chance even to fade away. We left it overnight, and returned the next morning to find only a stem and leaves. It looked as if our night howlers were hungry. . . . Avery Spayde wonders why his name appears here so often. It's logical to say that one can always use a good spade to dig up dirt. One recent afternoon, Avery was the recipient of a rush job (supposedly) from Bldg. 19-5. When unboxed, it proved to be his missing hat, or a reasonable facsimile thereof. This hat differed somewhat from the original one; it was feather adorned. Had there been one feather less, we could have said Avery's hat came back "full of four feathers." . . . October's bright blue weather brings out the wedding belles. One such was Paul LeCoque's sister, Pauline, who was united in marriage to Joseph Radu Saturday, Oct. 15. . . . Howard Koehl's five-year-old son, David, has fully recovered from injuries received in a fall from a playground chute. His arm was broken in two places from the mishap. . . . After a two-weeks' absence, Clarence Rosselot returned to work. Clarence gave his knee a double twist. That is to say, he injured his knee cap—the same one, same place, on two different occasions. . . . We also welcome back Ed Hines, who devoted his vacation to "taking life easy." . . . Since the weather is starting to chill, fishermen are looking forward to winter and ice fishing, or else reminiscing over last year's ice-capades. Among the latter, we find "Big Bass" Berdleman, who reports the catch of a 13-pound pike in Michigan last winter. According to Roy, he "took it easy" performing this feat—and so did the fish. The first line he used caught the fish, but was too thin to pull it in. While Roy fixed a heavier casting line, the pike lay at the lake's depth until his line was cast. Roy claims it was the same fish—that he could see it through the ice while he changed lines. Perhaps the pike bit on that one—but, do you?

Mike Brayer should either have rubber fenders or rubber doors on his garage so he doesn't completely ruin his new car. We hear he has the chrome knocked off on the one side already. . . . Just who hanged the squirrel tail on Bill Weber? . . . Al Cupp has been knocking our eyes out with the shirt and ties he has been wearing. Any day now we are expecting to see him riding to work on a horse. . . . Congratulations to Mr. and Mrs. Robert Till. Bob was all smiles when he came to work and announced his wife had presented him with twin girls. . . . "Grandpa" Holloway has been displaying pictures of his little granddaughter, and no wonder, she certainly is a "cutie." . . . Happy birthday to Irene Anderson, Cecilia Sidner, Olive Lewis, Alvera Crowell, Stella Strong, Fred Heinkel, Howard Poorman, Louis Hinen, Arthur Torbeck, and Wilbur Poehler. . . . Walt Niemeyer will wager anyone that the Big Z's will win the N.B.A. now that they have a "Wager". . . . Last week any man could have had the first and last word with Kathryn Irwin since she "just wasn't talking." The reason we don't know, except she was singing "All I Want For Christmas is a New Front Tooth." . . . Fritz Vogt is so good to his wife. He went shopping the other day for a new chamois skin for washing the car. There isn't anything Fritz won't buy for his wife to make her work more enjoyable. . . . Johnny Wilson insists Fritz is becoming more bashful daily. He now gives his apples to John so he can in turn give them to Dale Irwin. . . . The gang sure hates to see the student engineer, Jack Trott, leave as he kept them so well informed of that "Great Tulane Football Team." What Jack can't understand is why all the "Yankees" are pulling for Tulane. . . . We would like to know more about this "pick and win" deal Oyer has on? Seems the tables turned last week. . . . We hear Mrs. Ross has put the lawn mower away for the winter after giving Harry his final hair cut. . . . "Doc" Frick is still trying to figure how to pack an inverted mounted motor. His only solution is to cut a hole in the bottom. . . . Bertha Witte entertained the Birthday Club at her farm, and Ann Johnson finally got to drive a tractor. However, it was pretty rough on Clara, Madge, and Esther, who were riding in the trailer behind. When Ina, Nora, Edna, Marceil, and Rosamond finally got the fire started for the wiener bake, poor Bertha was worried she wouldn't have a tree left on the place. . . . After all these years why has Lottie suddenly willed her ruler she used to measure leads to Paul K.? . . . Mable Staley had a wonderful birthday and her old side-kick Effie Wyatt was her special guest. . . . More news about Mike Brayer's Buick. His son "Mickey" says it has a real-for-sure spotlight, and it is the "neatest" thing on the car. . . . The way "Vondy" was preparing for that certain wedding, we wonder if he isn't getting married. . . . Anyone wanting some pike bobbers see Earl Greenlee. Some of the fellows have had their orders in for a year, now. So be sure and place your orders early.

Retires After 32 Years' Service

Quincy R. Winans, Bldg. 6-1, is shown in the foreground being congratulated by his foreman, Ed David. Mr. Winans retired last week after 32 years of service with General Electric. Standing around him in the picture are many of his friends who gave him a send-off.

L. L. Ray Is Named Section Engineer

L. L. Ray

L. L. Ray has been appointed Section Engineer, FHP AC Motor Engineering division.

Mr. Ray received his BS degree in electrical engineering from Rose Polytechnical Institute in 1931. He was first employed by General Electric as a test engineer in Schenectady. After leaving the Company, he returned in 1936 as a design engineer in the FHP Motor Engineering division. Ten years later he transferred to the River Works in the Motor Engineering division. Mr. Ray returned to Fort Wayne this month.

He is a member of the Tau Beta Pi, national honorary engineering fraternity; the AIEE, and NSPE. He is married and resides at 1834 Clover Lane.

Dewey Erne, on his first day back from vacation and in his first game at noon, ran into one of those games that gets his name in the first line of the column. So I wish, also, to state that last week, I forgot to mention that Lyle Claphan and myself ran into one of those games. (The guy looking over my shoulder with the gun in my back says, "Oh yeah! you forgot.") And this was the first skunk Lyle won since we started playing, too. . . . SOCIETY: Mr. and Mrs. George W. Marks, 1421 Huestis Avenue, announce the engagement of their son, John A. Marks, to Della Elaine Farr, daughter of Mr. and Mrs. Homer Farr of Ossian. . . . John Leiendecker, Jr., is improving satisfactorily from his polio attack. Thanks to the exerciser made up for him by Cal Langhor and Ray Ankenbruck, he is able to get the exercise he needs. . . . Jack Pollock is taking his additional week's vacation and hopes to visit Brown County and other places of interest in the good old Hoosier state. . . . Ward Staley, Sr., attended the Zollner basketball game Sunday evening, but left near the end of the regular game. On his arrival home he learned that he had left too soon, missing the two overtime periods. . . . Howard McMaken has been so busy with his lodge work and remodeling his home that he hasn't had much time to get his name in the column. . . . Fred Bishop was off ill several days last week, but is back on the job again this week. . . . With the announcement of John Mark's engagement, this leaves Clarence Stolte as the only ELIGIBLE BACHELOR in the group. Clarence also celebrated another birthday this week, too. . . . From the comments heard, everyone seems to be well satisfied with the newly adopted changes of the M. B. A.

Corn S'talks

TAYLOR ST. SHIPPING

By Gloria Geesaman

Greetings and salutations, everyone. This weather certainly is changeable. First it's hot, then it's cold. Oh, well, it still makes you feel good and energetic; but some people just can't take it. . . . Mary Nelson groaned "I'll never play ball again," while limping down the ball. It seems she overdid it and is not accustomed to such strenuous work. Mary, the only solution to that is to play ball every day. That way you'll be in shape for the week-ends you have. . . . Ah, football is pretty well through the season as well, and we have some players that are really good. They're only carried off the field when the game is over. Isn't that right, Jack Angel and Al Meyer? . . . Talking about football. We have some rooters for Purdue. Hillis Cobly and hubby went to the Purdue-Illinois game. Guess their rooting didn't do any good, or maybe they didn't yell loud enough. Anyhow, Purdue lost. . . . Some people really have class. For instance, Sally Ford has a new 1949 Ford convertible. It must be nice to have one of those wagons. . . . We have a real casanova—Jack Angel has so many girls that he doesn't know what to do. The other night he had callers and he wasn't home. So the next day he racked his little brain trying to figure out which one did him the honor. . . . We also have a crooner in our little cage. Bob Walters is always singing to himself. . . . Brooks Brickley survived his two weeks of vacation. He looks good, too. Maybe that's what he needed. . . . Gladys Cleland just got back, too. She didn't go anyplace except to the dentist. That's not my idea of a vacation. . . . Isn't Halloween a wonderful time of the year? Everyone can go to parties. Delores Connin went to a masquerade the other night and the skeleton grabbed her and kissed her. Later she found out that it was her own husband. Too bad, Delores, better luck next time. Hope everyone gets to attend a Halloween party like that. Just go as you are and you should win first prize.

At this time we wish to express our sincere thanks and appreciation to LaMar Alwine. This kindly electrician came to the rescue of Mae Mulvane, who was wandering around helplessly at Taylor Street one Saturday, trying desperately to find the dispensary. Plans are being made to supply her with compass, road-map, blue print and a guide before she has another such experience. . . . Berneta Welbaum spent a week-end in Indianapolis and also Brown County. Indiana can be justly proud of its beautiful, well-maintained state parks. . . . Vacation time again. Dr. H. W. Garton is enjoying his third week of vacation. . . . The Eve of All Hallows, or the Eve of the Festival of All Saints, falls on Oct. 31 and is known as Halloween. It originated back in the Middle Ages, in the days when belief in witches, goblins, evil spirits, and other mischief-making beings were much more common than today. By some strange coincidence these evil beings were supposed to run riot before All Saints Day. So be on the lookout for witches, spooks, etc.—or "The Goblin's 'll get you if you don't watch out! ! !"

I hope everyone read Belle Buchan's "2-2 Tales" last week. It really was the way a reporter has it. . . . Our "We wish you happiness" mat is out for Mary Jane Lochner, who was married last Saturday. . . . Isabelle Blackburn knows that people are honest. She lost her purse, and it was returned with all of its contents still there. . . . WARNING: If you see Harold Kiel coming your way, you'd better side step. He is sure to pin you down and tell you all about his operation. . . . How dee-doo-dee to Geneva Moody, Mae Jones, Freida Buuck, Callie Brooks, Betty Collier, Helmer Drayer, Ethel Shifflett, John Norris, Melvin Trout, Gwendoline Chinn, Clara Dixon, Phyllis Doswell, and Ann Lehman. If we have missed anyone, "Hello" to you, too. . . . Frank Shidler and Joe Meehan are third-week-vacationers this week. Rose Dowling was vacationing last week. . . . Glad to hear that Wilma Burkholder, Margaret Monnot, and Daisy Richard have returned to work. But sorry that Irene Blank and Erma Landes are on the sick list this week. . . . Wouldn't be a bit surprised to see Lorena Buuck leading "Elsie, the cow" into work some morning. Then our wire boy will really have fresh milk. . . . Alice Loftus left us last Friday to take up a full time housekeeping job. Sorry to see you go, Alice. . . . Verda Deal is looking forward to a second generation of pink-bootied tax deductions. Don't start walking the floor yet, Verda. . . . Ray Johnson has been out among them. He says he met Jo Stafford, and she isn't a bit high hat. She's just as common as an old shoe. . . . Bill Ort, on line two, has been entertaining his co-workers with songs from opera (Grand Ole Opery). They really think he should sing on the radio, so they could flip the switch. But for television, he'd really take the show; especially when they would see him cross one eye, push out his upper china clippers, and sing, "Honey, Won't You Haul Off and Love Me One More Time." . . . It's a happy birthday to Frank Shidler the day of Halloween. . . . If you noticed that Lewis Hoffman was slightly crippled, it was because he has been feeding Sonny too many vitamins. He lost the wrestling bout. . . . Elizabeth Wert, Eddie Bohde, Jenny Zimmerman, and Isabelle Blackburn were among the Elex girls to go to Chicago. A good time was had by all, even if they did have a flat tire on the way. . . . Hedy Harrison's mind must have been far away. She went after a card and returned with a stator. May be the forthcoming Sonja Henie revue. . . . Lena Schaper is sad over losing a front tooth. All of the orders for them, Santa is going to be busy. . . . Congratulations to Dorothy Johnson on her nice suggestion award. . . . Joe Jensen is going to have to brush up on his pinochle game. He admits he is getting rusty. . . . Our sincerest sympathy to Iley Souder on the death of her son-in-law. Also, Leona Hollis on the death of her cousin.

Four little words too often lead a person to tell you all his troubles —"How do you feel?"

Schlotter Completes 35th Year

Frank C. Schlotter, Bldg. 26-4, completed his 35th year with General Electric Monday, Oct. 10. At the congratulatory ceremony, were: (l. to r.) W. H. Crouse, Al Hellwig, Ralph Smith, Joe Troendly, Mel France, Mr. Schlotter, Otto Braun, Art Gallogly, and Paul Peterson.

LATE VACATIONS — Jerry Duryee is on vacation this week and is traveling in a brand new Ford. Cecil Harrod spent his vacation last week in New York. While going through the Holland Tunnel, Harrod stopped for a red light. The car behind him didn't. Result: slight damage to Harrod's car, but a new grill and fixed-up fenders on the other car. . . . IT SURE IS HOT!—It has been said that the Walt Lamboley's were quite warm the other night. It was so warm that Walt got up and opened all the windows, but that still didn't do any good. (Why? Because Walt forgot the storm windows were still on.) Did you feel a little silly, Walt? . . . SUCH AN AROMA—Did anyone notice a stinking smell in the A. C. division the other day? If you didn't, you must have had a cold in your nose. Someone cut up a rubber eraser and mixed it with Norm Oetting's tobacco in his pipe. He smoked it, too. What we can't understand is why he didn't get sick. Have you had that mixture before, Norm? . . . TWO OF A KIND—Not so many weeks ago Ralph Kaeck was caught using two telephones at once. Now we noticed Dent Manecke doing it. Business must really be picking up. . . . DREAMS—Weir Anderson sure has odd dreams. The other night he dreamed he had shined his shoes, but he woke up and found them just as dirty as he had left them. Why don't you try making a million dollars or something easier? . . . TRAVELING—Maurice Bennett is on a two-weeks' vacation in Arizona and surrounding territories. . . . MILK DRINKER—Why is it that Harold Sherbondy drinks a glass of milk before going to bed every night? Some say it's because he is working too hard! ! ! . . . OVER-CONFIDENCE? — Carl Vizithum wanted Dorothy Brubaker to give him the money in check-pool before the checks were received, as he was sure he would win. Dorothy wouldn't do it though, because (as Carl found out) she was confident, too. Dorothy won the check pool. Tough luck, Carl, maybe you weren't confident enough. . . . HUNTSMAN FIRST CLASS—Al Volz, who enjoys a merry trek through a woody clump in search of red squirrels, (incidentally, he has yet to bag one) declares that mama pigs, when aroused by the sight of his red hair and his V gun totin', can climb trees. Now, Al, you don't actually believe the girls in your office know nothing of nature, human or otherwise, do you? This same gentleman has also made the discovery that fence posts have the same effect on one's anatomy as a bee. They sting. . . . STUMPED FOR A HEADING FOR THIS—Delores Kock receives the Oscar for her excellent performance in "Two Cigars in a Washing Machine." Silly title, but ask Delores. She will tell you it not only is silly but it leaves one with such a stupid, washed-out feeling. . . . MODEL—Why is it Johnny Leffers of the D.C. division, was the last one on the Apprentice Team to model his sweater? Was it because he didn't earn it, or did someone beat him to it? . . . VOLLEYBALL—the sport of volleyball started last Wednesday with Berkheiser getting his clothes ready Tuesday. He got his gym bag out, put his dress socks, sweat socks, towel, soap, shoes and T-shirt in and brought it to work Wednesday morning. When he checked his things, to his dismay, he had forgotten his trunks. They were sent by his wife via the New Haven bus. He picked them up at the bus station. . . . BAD EYES—After all these years, Glen Stapelton needs a pair of glasses. The other day Billie Frain walked into the D. C. division to talk to Helen Conrad. Stapelton saw her and came over and tapped her on the shoulder. Was his face red when she turned around and it wasn't Mary Smoak. . . . FIRE FIGHTER —Nate Horton was at the Tulane vs. Notre Dame football game. As he was enjoying the game, he struck a match to light his cigarette. The head of the match jumped into some girl's hair. Her hair started to burn, but Nate quickly smothered it out. Nice going, Nate. . . . BIRTHDAYS—Happy Birthday to Marilyn Franke and Thelma Barbcau of the Payroll division. Congratulations also go to O. Vaught of the D. C. division, L. Z. Gossman and E. Sherbondy, of the A. C. division. . . . HOME ON THE RANGE—W. R. Goss arrived a few minutes late the other morning because one of his boys left the gate open. Even cows will roam if given the opportunity.

Second Shift Members Of Elex To Hold Paper Party Nov. 16

The second shift members of Elex will meet at the YWCA Wednesday, Nov. 16. Luncheon will be served at 12 noon. A paper party will be the featured event of the meeting. Izora Roop will present the program.

Reservations may be made with contact girls by paying $1 on or before Friday, Nov. 11.

Christmas must be coming! The punchboards are circulating to raise funds for the Christmas office party. So far, the lucky winners are Earl Anderson, who won a turkey (with or without feathers) and yours truly won a midget camera. Gloria Wiebke did a wonderful job selling chances, but she says, "It ain't easy!" . . . We miss John Lare and Walt Muehlenbruck, who have been transferred downstairs. Walt has limited his conversation to "yes" and "no." Too bad about that loudspeaker, Walt. . . . You've probably all heard about people getting the wrong package in the morning and at lunch-time finding garbage instead of lunch. Well, last week, Stella Trumbower brought a bag of bones that were meant for her dog. Were any hounds trailing you, Stella? . . . We wonder how Tez Trump gets his work done minus glasses, when he can't read a cartoon without them. Or were you working, Tez? . . . How are you and your new set of ivories getting along, "Boodles" Bendel? . . . We hope Erv Huth remembers he isn't as young as he once was, if he ever gets the urge to play football with his son again. . . . The other day Rosie Thomas dashed out to have her birthday lunch with her fiance. Trying to keep it on the quiet, Rosie glowed like a neon sign when she saw the gang watching. . . . What really takes the cake is Gerry Didier eating a half a pumpkin pie in a one minute sitting. . . . Charlie Hartman is very proud of his coon dogs (or, I should say was). The other night on the way home he saw a dead coon on the road and decided to take it along to test them. He was unmindful of the sweet aroma it would leave in the car. Upon arriving home, "Sly" Charlie started down the field dragging the coon behind him. The sad part about it is that the dogs practically ignored him; but not his mare, which had picked up the scent and was close at Charlie's heels. We wouldn't be a bit surprised to see Charlie with his gun in his hand, mounting the mare to go coon hunting. . . . "Skinny" McGary sprained his ankle rather badly the other day while out hunting. We wouldn't have thought so much about it if someone had spiked him during a ball game, but this way he doesn't even have a good story. We know it's painful, "Skinny," hope to see you back to work soon.

GENERAL ELECTRIC NEWS SUPPLEMENT

Candid Camera

VOLUME 14 OCTOBER 28, 1949 No. 10

Voltmen Score Again . . . .C. H. Matsan, Fart Wayne Warks Manager, cangratulates plant baseball team an winning third cansecutive Natianal Semi-pra Baseball Champianship. Belaw left ta right: team members Scatt Carey and Dee Hamiltan, Mr. Matsan, Charles Babilya, Team Manager Jahn Braden, Charles Shipman, Danald Harmann, Mayar Branning af Fart Wayne, and Bill Ricks. (Abave) Bill Ebranyi, Valtman first baseman, gets traphy after being named leading infielder.

Off the Cob . . . Caral and Barbara, daughters af Francis Phelan af the Tauntan Plant, make light wark af the carn during recent clambake spansared by the Tauntan Athletic Assaciatian.

Bell Ringer . . . Jaseph Bilecki af the Erie Warks, received a check far $1170. Bilecki wan the award far a time and maney saving suggestian in the pracessing af sheet steel far use in refrigeratar cabinets. He is shawn here at his jab.

Tee-Man . . . Ed Byrd af the Switchgear Divisians, Philadelphia, was winner af the featured handicap af the day at recent G-E Cambinatian Galf Taurnament. Jae Hannifin af the Philadelphia Office willingly makes like a tee while Ed demanstrates a very unusual waad shat.

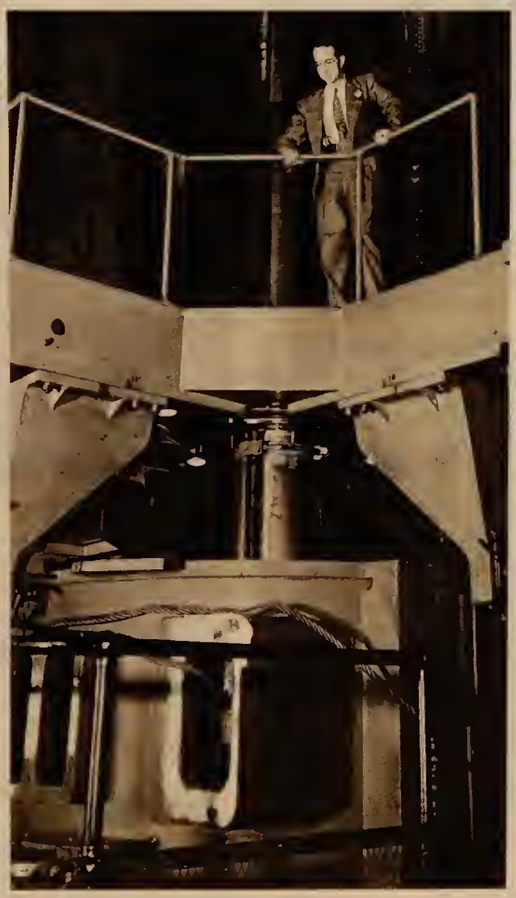
Company trai

GENERAL ELECTRIC'S philasaphy af "putting the human consideratians first" expresses itself in many ways. One af these is the training program far emplayees which the Campany has sponsared far mare than half a century. Over the years many thausands of emplayees have been helped ta better jobs and fuller lives as a result af this training.

All af us here at General Electric receive such training, perhaps withaut realizing it. As we became mare praficient in the jabs that we are daing, aided by aur supervisars and many specialists, we are preparing aurselves for the next step upward in the Campany. In addition, G.E. taday is canducting mare than sixty caurses in specialized fields far almast 30,000 emplayees wha are qualified and need such training.

These pragrams benefit the Campany by praviding trained peaple — but the greatest benefit lies in the help which they give emplayees in advancing their careers in the Campany.

Shawn an these pages are a few, typical af thausands af G-E emplayees, wha are taday reaping the benefits af this pragram.



For 53 years the Apprentice Course has trained young men for highly skilled positions in the shops. Here Elbert J. Weller, of Schenectady, gets a new Apprentice Course under way.

A graduate of the Engineering Test Course in 1929, Dr. M. A. Edwards is today Assistant Engineer of the General Engineering Laboratary. He has three Coffin Awards and 76 patents.

John P. Keller, of Schenectady, graduated fram the Apprentice Caurse in 1933, fallawed by the Test, Foreman's Training, and Better Business Management Caurses. Today he is superintendent of the Turbine Division, successful at his work.

An Apprentice Course graduate 28 years ago, Michael Brogan is today a toalmaker in Schenectady's Turbine Division. Here he sees his daughter Shirley off for Cortland College.

M. J. Flynn, traveling auditor, boards a train far a 3-month trip to audit A. and M. plants on the West Coast. He entered this specialized field by taking a Business Training Course.

ning programs put human considerations first

Special training in Safety enables foreman Frank Knowles at Nela Park to give proper protection to his people on the job. John Craven, left, and Frank Horvath, right, are here shown getting the benefit of this training in his instruction.

Courses in Better Business Management, Jobs Method Training, and other subjects have helped Arthur R. Werther, inspection foreman in Plastic Division at Pittsfield, to "put the human considerations first" in his contacts with his people. Posed with him in this set-up picture is Mary Di Mashe, inspector.

Al Levin, graduate of the S. A. I. and Supervisory Training Courses, is now Supervisor in Automatic Heating Division at Bloomfield. Here he relaxes with his family; will soon move into their new home which is now nearing completion.

Max Culpepper, Radio and Television Sales Manager for the G-E Supply Corporatian, shoves off for a sail with his two sons. Max's progress in the Company was aided by training he received in the Sales Analysis Institute Course taken in 1936.

On-the-job training during his 12 years of Company service has enabled Donald H. O'Brien to rise to the position of production clerk in Refrigerator Cabinet Division at Erie. Here he is studying one of the production scheduling charts.

From time to time, to meet specialized demands, new courses are offered. Here at Bridgeport A. and M., a group of students are shown taking the new Manufacturing Training Course.

Candid Camera

Making Hey . . . G-E girls of the Coshocton Plant go for a hay ride during the traditional Labor Day parade held at Coshocton, Ohio. Marian Matchette makes a cute tractor driver.

International Session . . . Philadelphia's Switchgear Division was recent host to a visiting delegation of French engineers, employers and workers.. V. L. Cox, manager of engineering, speaks while two translators interpret talk to the delegation members.

Record Crowd . . . More than 4500 25-year employees turned out recently for the Schenectady G-E Quarter Century Club outing, believed to be the largest gathering of its kind ever held by any company. These guests of the Company viewed harness races, vaudeville acts, ond trick riding acts. Here the crowd is heading for big tent at right where buffet supper was served.

Hi-Ho Silver . . . Lee Ehmsen, pretty equestrienne who has won many prizes for barebock and bronco riding, is shown here riding the palomino on which she captured first prize in recent rodeo parade. On the job she is a laboratory assistant at the Hanford Works, Richland, Washington.

For Distinguished Service . . . G-E's Donville, Ill. Plant received a special citation from the local American Legion for "unselfish distinguished service and loyal cooperation with the American Legion in the promotion of a program for the betterment of the community, state and nation." Left to right are: Robert Jackson, Plant Manager E. F. Paul, Personnel Supervisor E. R. Woods, and R. J. Fitzgerold, who presented the oward on behalf of the Legion Post.

That's over now, I mean the street fair, and am I glad. When you pilot a couple of kids around a couple of hours you really been someplace. Of course, Nancy Tinkham was observed on the midway and she looked like she was ready to set up housekeeping with the things she had won playing bingo and other devices. . . . Auction Sale!! Not being able to dispose of my hickory nuts, I shall at the earliest convenience sell them to the highest bidder. Sale to commence at 3:30 any afternoon. Luncheon will be served by the winders on the grounds. Auctioneer—Ralph Gable, a former graduate of the Reppert School. Ray Teeple will clerk the sale. Not responsible for accidents as the hickory nuts and squirrels are very abundant. Terms—Cash! Please bring your own containers. Owner —Merrill Weaver, the adonis of Geneva. . . . Several employees took advantage of the swell weather last week-end and did a little motoring. Ira and Fern enjoyed the scenic grandeur of that wonderful country of Brown County. Carroll Geisler and his family with their brother-in-law Fred Jewell, the barber, and wife, also went to the Brown County area. Riggy Geisler and his wife did a stint to Michigan with his bright shiny new blue Ford. Gosh, I sure wish I had a new Ford. . . . Noticed at the street fair, Maggie Fruchte, the atomic blonde with the 29 charms, and was she dressed! She looked like something some Paris designer dreamed about. . . . Daffodils this week to Norma Poorman. Always ready with a smile for everyone. Nice going, Norma. . . . Do you know Cloyd Dellinger has at last decided that his house should be shingled? Yep and he started last week. We believe he will be finished by the last of November, if? . . . Yes, it is true, Charlene Evans will dispose of that Chevy and get her a good car and a little newer. It is a Ford five passenger coupe. Now she will be able to pass everything but a ten cent store. . . . Ethel Schlickman picks the most unusual pets and likes to have the rest of the girls to enjoy them, too. Lizards are the latest monstrosity and some of the weaker hearted ladies found that out. My what laughs. What next, Ethel? . . . Spike Cramer's middle name is "what ho." At least he is always yelling it. . . . Now is the time to do your Christmas shopping and be sure and look in the Employees' store before going elsewhere. I don't care what you get me, but for heavens sakes no ties or socks, thank you. . . . Mel Baumgartner, the adonis of the Winding Line, very nearly forgot he has birthdays, but he finally remembered it in time to treat the girls. Yes, his birthday was Oct. 18 and he thought of it the 19th. Congrats, Mel, and good luck! . . . Clisty Rich, the tender hearted rose who works for McDougal on the winding line, is now taking driving lessons all by herself. We hear she has been tying up traffic in some places with that Hudson. Now, Clisty, why don't you let Herb or Maggie teach you? . . . Roy Case of Willshire has started back to work in Plant 1. Welcome, Roy. . . . The crate Al Windmiller drives would give you the impression that an undertaker was coming your way. How does he manage to turn around in Geneva with it? . . . A. F. Passwater, assistant to Mr. Buffenbarger, is still on the sick list. Hurry up Ott, let's see you back on the job. . . . Bowling every Thursday night at G-E alleys for women. We have so much fun, why not come out and join us. A little rooting support would help, too. . . .Have you seen Ada Owens mending Leonard Meyer's trousers? . . . Daily greetings to Jerry Kohne, Junior Huffman, and Chloe Harkless. . . . Jason Moser and family spent the week-end at Kalamazoo, Mich. . . . How Zula Holloway rates a bouquet of mums. . . . Things we wonder, how Miriam Moore acquired the name "Nellie". . . . "Paper Spooks" was the theme of the October GeCode Club party carried out in Halloween style at the Legion home for the first shift girls. Garden flowers also helped to carry out the decorations. A paper demonstration by Izora Roop followed the lovely dinner with prizes awarded to Florence Schultz and Lorena Keller. Virginia Harvey was awarded the door prize. A short description of our conference trip to Chicago was related by Mary Fennig, president. A talk also by Bob Anderson on the Community Project was given. Hilda Staley was chairman, assisted by Emma Goldner, Alma Fruchte, Marie Coffelt, Mary Miller, Ardella Heare, Mary Jane Gage, Florence O'Shaughnessey, Ada Owens, Harriet Pollock, and Mary Fennig. . . . Saturday morning, Oct. 15, 11 girls and two delegates left Decatur to meet several Elex girls of the Fort Wayne Works, to journey on to the Palmer House at Chicago, for the Fall Conference. There we met the DeKalb girls, also the delegates from Tiffin, Cleveland, and Danville, Illinois. The theme of the conference, "The Hand of Friendship," with "Forward Thinking" as our slogan consisted of sessions in the morning and afternoon with social activities, our evening entertainment, then some free time to spend as you wished. "Forward Thinking" tending to nationalize our local Clubs all to be linked as one, the West, East, North and South with each local as an Inter-Club. The girls attending the Conference from Decatur were Mary Fennig, Rosemary Miller, Dorothy Schumm, Mary Ann Laurent, Barbara Roop, Ethel Schlickman, Norma Bower, Tye Frye, Verena Meyer, Eloise Noll, Genevieve August, Harriet Pollock, and Florence Schultz. . . . That big black Buick job you see going down the street belongs to George Myers in the lab. The first day he drove it to work he didn't know whether it was safe to park it in the parking lot or whether to put it in a field. . . . L. V. Baker also belongs to the "New Car Club." . . . Take note one and all—the GeCode has jello to sell and also has their new stock of Christmas cards, Christmas wrappings, everyday wrappings, all birthday cards, all get well cards, and all occasion cards. See Mary Fennig or Norma Bower. . . . Remember our safety motto this time—"Unnecessary horseplay at work might be completed six feet under the ground." Be Careful—The Life You Save May Be Your Own. . . . In the lead section we see Mildred (Helm) Young back on the job after quite an absence. . . . Oink! Oink! Folks, you ought to see Al Schneider hurry home at quitting time. He claims he can't wait to go home to Beulah. She happens to be his prize porker. How about a slice of ham after the slaughter? . . . This is really serious—how can one man come late to work twice in one week. Stanley, you're not the only one, "Speck" Hebble and Jack Teeple are runners-up. . . . Birthday greetings to Helen Wellman. Your flowers were very pretty, Helen. If we don't mention your birthday, folks, it isn't because we intend doing such a thing, but because you keep it such a secret that we can't find out when you do celebrate your birthday. . . . Why did Ezra Brandyberry quit taking the WORKS NEWS home? Could it be because he is always getting into things and the reporter hears about it, huh? . . . What became of our so called shy-bashful boy, Forrest Roop? We haven't heard about him recently. . . . What made Margaret Waltke blush so the other day? What is so terrible about asking someone to sharpen a pencil for you?

Idea Brings $50 Award

John Driver, FHP Div. 13, was awarded $50 for his recent suggestion to replace chain drives on P and J lathes with V-belts. This change decreases the carrying of spare parts. In the picture, Mr. Driver (right) is discussing his suggestion with Ewald Steinsmuehlen.

Elsa Maxwell To Be Elex Club Dinner Speaker

Elsa Maxwell will present a talk at the next Elex meeting for the first shift members. The program will be held Monday, Nov. 7, in the G-E Club Auditorium. Dinner will be served from 4:45 to 6 p.m.

Miss Maxwell's syndicated column "Party Line" is published in many newspapers.

Reservations must be made with contact girls on or before Thursday, Nov. 3. Admission for members is $1, and includes the meal. Non-members may attend the program at 6 p.m. by paying $1 admission.

Since it's always nicest to start with the very best news first we shall start right off with a sincere get well wish for Frank Goetz' wife who is now recovering from an operation. It's very nice to hear that she's getting much better. . . . Also we were very glad to see Marie Welch back after her recent operation. . . . We are going to enlarge our radius of news coverage, you might say, for the Distribution Division kiddies and we shall now do our best to cover all the divisions within the Distribution division. With the help of several new reporters in the various sections your editor hopes to make this a column of interest to every section in our division. The new section reporters are Gladys Sorensen, Regional Wholesale Office; Carl Click, Mailing; Delores Widner, Telegraph; Tom Fox, Regional Wholesale and Corrugated Box Stock, Bldg. 6-4; Anthony Koorsen, Bldg. 6-3; Elmer Griswold, Bldg. 6-1; Bill Miller, Receiving, Bldg. 6-1, and Jack Heiniger, Receiving, Oil House and Internal Transportation. I'm sure with the help of these able reporters and also from you readers we can cover our Division very well. . . . A very happy birtbday to Helene Schlund, who celebrated with the help of her fellow telegraphers last Wednesday.

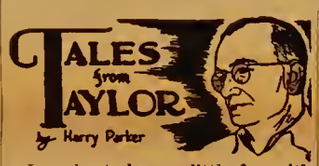
Don't Get Behind the 8-Ball!—

KEEP THAT BENCH CLEAN!

Franke Celebrates 30th Anniversary

Lester Franke, Bldg. 4-3, recently celebrated his 30th anniversary of service with General Electric. Several of his co-workers joined in to give him their best wishes on his anniversary. In the pictures are: (l. to r.) Harry Bennett, James F. Sarasin, O. J. Mettler, FHP Div. 1 Supt.; Mr. Franke, Art Bobay, and George Prince.

Winter really paid us an early visit Monday. A real invitation to "long woolies." . . . We actually saw Steve Kelker speechless. He had been asking for a pie so long. Then when the pie got here, Steve didn't. The tbought of losing out on that pie was too much for bim. . . . Bill Schultz has a new way of getting help. We hear he bribed his granddaughter to help bim spread cinders in his drive. Such a way to get your work done, Bill. . . . William Fett was baving gnats in his work last week. No matter how hard be tried he couldn't get rid of tbem. Wonder why? . . . Harold Moore was surprised when he found a fur piece in his car, but be was more surprised wben it jumped at bis touch and bounded out of tbe car. Harold had put some food in the car and the dog had found it. Moral of tbe story—better eat the food next time, Harold, it's safer that way. . . . Congratulations to a proud papa from the gang on the arrival of Vicki Lou Lydy. Best wishes from all of us to all of you. Vicki Lou, in her first public interview stated, "I am surprised and delighted to find so many new friends. One fellow keeps hanging around that is called Buck. I can't figure where he fits in, but he keeps hinting for a loan. He must know that I have a Savings Bond." . . . A series of farewell parties were held this week for Mr. Hanson, who is leaving us Monday. The foremen and supervisors held a party at Ed Klomp's home Tuesday evening. The girls joined in a potluck Wednesday noon and the men of Division 33 and Engineering held a stag for Mr. Hanson Thursday evening at the Squares hall. Mr. Hanson was presented with several remembeRances at tbese gatherings. We bope he will take many happy memories to bis new home in the East; with our best wishes for his continued success. We hope he will think often of the gang and drop us a line occasionally. . . . Cora Jane Conrad "was" champion bowler; last year, that is. Get hep, Cora. . . . Something seems to be bothering Rutb Troyer. She can never remember to pick up her billfold while she is shopping. Last report was that she is over-working the City Police Dept. . . . Jean Forst says, "There is nothing like falling down twice before coming to work in the morning." . . . Even though the hunting season doesn't open for three weeks yet, Norb Lose has all the symptoms of rabbit fever. It seems he visions a rabbit running and he shoots two or three times at it and then whistles for his dog. . . . Poem by Walter Beeth:



Mary had two little calves
They were neither slim nor fat
And everywhere that Mary went
Her calves were whistled at.

Monday morning was certainly cool. We all rushed into the air conditioned room to get warm. Sounds silly, doesn't it? They say that Eskimos buy refrigerators to keep their food from freezing, so we're not the only balmy people in this world. . . . Cora Jane Conrad stopped at the former Meyer and Kelley Field, wanting an airplane ride. Imagine J. C.'s surprise, no planes. What happened, sbe says. Well, Cora, when you were down South (south of Indianapolis) they moved to Baer Field. We'll give you time, you'll catch up with us sooner or later.

Completes 30 Years With Company

Irmagard E. Gehle, Bldg. 4-3, recently chalked up 30 years' service with General Electric. At that time, a number of her friends in FHP Div. 1 extended their congratulations. She is shown (center) reading the congratulatory letter she received on her anniversary. Looking on are: Esther Pape (left) and Dorothy Rebber. Standing in the back row are: O. J. Mettler, Div. Supt.; Florian Korte and Fred Castor.

In order to have a little fun with Buck Kline several of the boys engaged in a phony argument which became more heated as they went along. Buck fell for it by interceding, acting in the role of peacemaker, but this brought forth resentment from the participants who informed him that he had better keep out of it or else. Speaking up, he quickly said, "You would not hit an old man like me would you?" Whereupon everyone had a good laugh. . . . Newton Poland has a new dog and a very special kind of pooch, it is also very rare. This dog is known as a corn borer hound. It daily makes the rounds of Newt's cornfield selecting only those stalks wbich have the worms in. Biting them off at the base he places tbem in a neat pile. Then all Newt has to do when he arrives home is to throw on a little kerosene, touching a match to it, thereby destroying these pests. He said that he did not know whether this dog would be any good at capturing hellgrammites, but nevertheless he is going to take him down along the creek one of these days and try him out. . . . Hershel Foreman is becoming very interested in culinary art and is going in heavy for pastries. He has been having some success, coming up with some very excellent white cakes. He has no recipe for devil's food cake and is anxious to obtain one. If any of you have a good one please pass it on to Herschel. Some of the boys brought him in some good ones last week, so he is going to spend the week-end trying them out. . . . After watching Notre Dame defeat Tulane at South Bend by a large score and coming to the conclusion that the gate receipts must be tremendous as the crowd was large, Virginia Busching thought this was an easy way to make a fortune quick. She has decided to increase her savings to the $10,000 mark, but how to do this leaves her in a tizzy. Anyone knowing of a safe and sound get-rich quick scheme, please pass it on to Virginia as we know she will appreciate it.

Brunner Is Named Assistant To Supervisor Of Production

L. N. Brunner

Louis N. Brunner has been appointed Assistant to the Supervisor of Production in the General Service division.

A June graduate of the Apprentice School, Mr. Brunner entered the school as a machinist-toolmaker apprentice in 1942. The next year he enlisted in the Army and was released from active duty three years later as a first lieutenant. He then re-entered the Apprentice school to complete the course. Since his graduation he has been on special assignment in the General Tool division.

Mr. Brunner is married and lives at 4409 S. Park drive.

Tricks In Transformer

—FROM DIVISION 91—

By Bob Bunyan

The old barber shop has been reopened. Arlo Amick is head man now. If he keeps regular hours, perhaps he can stay in business longer. . . . Paul Noffze celebrated his twenty-first wedding anniversary this past week. All the boys were given the usual candy treat. Congratulations to you both. . . . John Laymon, Sr., found himself in a spot this fall, but has worked out his little problem satisfactorily. It seems Mrs. Laymon had refused to build the fire, split kindling, and carry the coal. John found the answer by buying an oil burner, which he installed himself. . . . Someone should suggest return-springs for Jim Stauffer's desk drawers, so Mary and Lowella won't be stumbling over them. . . . As much as George Honer enjoys watching fire drills, he should have been a fireman. I think they're interesting, too, George. . . . Al Bierman can give some good tips on safety. Let him tell you some. . . . Freeman Rohlfing was seen fishing this week in a new place, and he caught one, too. The location — "a compound tank". . . . Fred Wellinsick and Bob Miller claim their Ingersol watches are the most accurate. They check with each whistle and re-set with each whistle. . . . Bob Mercer is down in the dumps. Couldn't be because his heart throb moved to Michigan, or could it? . . . Who could tell that our modest, genial Ed Parker would be able to make your blood run faster, put that skip in your step, make those slick chicks groovie. Don't think so, huh? Well, ask some of the boys about Ed and his Saturday night doings. Where? At the Busco Legion Hall. . . . Charlie Gordon takes his third week of vacation, then has to take an extra day to rest up. Must have been a dandy week, huh?

CLOSING DATE FOR NEXT ISSUE
Monday Noon, October 31, 1949

LOST AND FOUND

LOST—Pair gold rimmed glasses. Lost in washroom Bldg. 17-8.

FOUND—Part of a large gold pin, no back, with rhinestone sets with blue set in center. Found In Bldg. 16 yard.

WANTED

CHILD'S SNOWSUIT—Size one year; watch cleaning machine, A46172.

TRANSPORTATION

WANTS RIDE—Edmund Crover, from Waynedale. Works In Bldg. 4-B from 7-3:30. Call Carl Steinbacker, Extension 495 or H-58112.

WANTS RIDE — Jack Heiniger, from Blue Lake. Works at Taylor St. 8-4:30. Taylor St. extension 445.

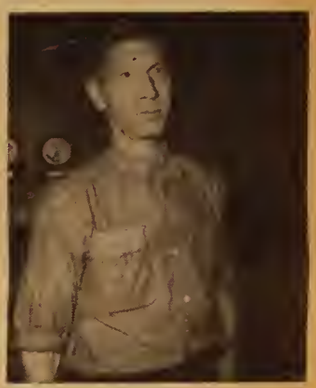
This week we have the low down of Bldgs. 17-2 and 17-3, better known as the Hermetic Division. If you can imagine a section growing from 12 (yes, an even dozen) units per week to a peak of 39,000 units per week, then you have the picture of Hermetics. Through this division have gone the rotors and stators of a great many of the refrigerators in use by the American public today. . . . A perennial owl is Fred Fenner, the second shift general foreman, who has grown as the division has grown. He started in Hermetics in its infancy and watched it grow to the giant it is today. Fred is quite a fisherman, but he goes to New York State to do his fishing. At the present time, he is building a new home. . . . Of the Bldg. 17-2 fold is the foreman, George Skinell, a 20-year man, who keeps the section running smoothly under his guidance. That new Olds is his hobby. . . . The first vice president of Elex is Bea Lantz who is an ardent bowler and who loves to travel. . . . Another prominent Elex member and contact girl is Barbara Wilson. She is quite a bowler. . . . Stan Wisnewski in the Punch Press Section is a fastball and basketball fan. . . . In the same category is Don LaGontaine. . . . Joe Hawk, who just recently became the proud papa of twins, tells us that they have their days and nights mixed up. They cry all night and sleep all day. They are worth it all though, he says. . . . Gardening is the mainstay for Herman Mielke, but he still finds time to fix up his home. . . . John Anderson can repair any furnace and dabbles around as a plumber. . . . Lloyd Oberholtzer likes to fish and hunt, but hates household chores like washing and drying dishes. . . . Helene Evanoff likes to dance and travel around the country. . . . Building his own home with the help of his better half is the hobby of Virgil Fogle. Football and basketball are his favorite sports. . . . Harold Lyons, who came up from Bldg. 4-1 has a hobby of singing. He shed crocodile tears when his favorite "Dem Brooklyn Bums" lost to New York in the World Series. . . . Upstairs in Bldg. 17-3, our favorite informer is Eileen Foor who has been an Owl for so long that they would have to draft her to get her to change shifts. She has one of those dispositions which makes friends wherever she goes. She is quite an archer and bowler. . . . Bldg. 17-3 welcomes Florence Converset and Nona White. Florence worked with us before. Nona was a first tricker who has joined the Owls. . . . Augusta "Hoopy" Hoopingardner is one whom we just couldn't do without on the second shift. She is also a patient, loving nurse for her husband who is ill. . . . Ura Mae Tinder spends her free time raising beautiful flowers. . . . If you want to learn about Canasta, see the expert, Aleda McWhirter. . . . Betty Yarger, who winds stators, serves in the private dining rooms. When she has any spare time, knits and sews beautifully. Still, she always has a helping hand when needed. . . . Virginia "Ginnie" Franzdorf is a good friend and swell gal. . . . Dale Stalter likes to fish. His wife fishes, too. . . . Wilbur Eytcheson hunts and runs racing dogs in field trials. . . . William Miller plays for square dances. He makes good cider, too. . . . Francis Girardot, the great fisherman — nothing smaller than the limit size. . . . Loyd Siebern, another fisherman, has an eight-year-old son who is the "apple" of papa's eye. . . . Martin Laughlin sells household products to housewives. . . . Joseph Griffin likes to hunt and fish, but building a home prevents this at present. . . . Louis Wyss' time is taken up in repairing his home. . . . Harold Dominique likes to smoke big, fat cigars. . . . Vernon Wyatt collects old coins. . . . M. R. Cook is an amateur color photography fan. . . . NOTES FROM HERE AND THERE: Owl Basketball practice will be held Tuesday, Nov. 1, at 9 a.m. The session will be held in the G-E Club Gym. . . . Elmer "two for dat" Mourning and Walt Esterline, Bldg. 17-1, have joined "Hides Incorporated." . . . "Bowl of Soup" John Miles, Bldg. 17-1, says someone is missing the boat! "No comics in the WORKS NEWS!" . . . Next week, we will read the pedigree of Al Kissinger's gang, Bldgs. 4-1, 4-2, and 4-5. If you like this, let me know.

Fist Full of Fish

The lad, above, holding the nice pike is Jerry Fleck. He caught it at Green Lake.

Congratulations go to Eva Hoover for her belated birthday. . . . We wish to welcome Dessie George and Harold Rosenberry to first trick. . . . Harold Blauvelt spent his third week of vacation at Spider Lake last week. . . . Georgia Treavy has taken up a new hobby of making artificial flowers now. . . . We wonder what Erma Manar did last week that she lost her voice. The packers claimed it was nice and quiet since it happened. . . . Everybody was wondering whether Dale Fredericks was going to perform an operation or going to do some butchering, by the looks of a new, long, white apron. . . . Charles Faulstick celebrated his wife's birthday by purchasing a new outfit of clothes for himself.

Accidents don't just happen: They are caused.



Last Friday, Mary Occleston's last day, we believe was a pleasant one for her. Many of her friends called during the afternoon to wish her well. Light refreshments were served, pictures were taken, and she was presented a gift from her friends. I am sure that Mary is very familiar with the following Edgar Guest poem, so to her we say:

Worry not! The care you dread
May vanish ere the hour be sped.
Let not your present song be stilled
Nor blend one sigh with laughter's ring.
Because your heart with fear is filled
Of some mischance the dawn may bring.
Be peaceful! When your skies are fair
Fret not about tomorrow's care
Seek not to pry with anxious eyes
Into the griefs that may await
Hope for the good and keep your sighs,
Till trouble rattles at your gate.
Today is yours. If calm it be
Spoil not its gladness needlessly.
Have faith that what is best will stay.
If doubt you must, doubt evil first;
Believe that good will come your way
And cease believing in the worst.

Did anyone hear Phil Amrick's radio program Saturday morning? Phil is from Bldg. 18-3. . . . Sophia Jesse, Bldg. 18-3, with her sister and brother-in-law, recently visited Brown County. . . . Miss Helen Bluhm and Carl Miller, both of the Accounting Div. in Bldg. 18-1, are enjoying vacations this week. . . . Mr. and Mrs. Paul Kissinger, Bldg. 18-3, returned from a tour of the southeastern states. Someplace in the Virginias they came across a fox hunt. The participants were all dressed in their red coats and the dogs were noisily waiting the start of the hunt. It must have been very colorful and exciting, for the Kissingers went back two hours later to see the kill. Sure enough the hunters had returned with their fox and were being served tea. Jolly, wasn't it? . . . Rex, Bldg. 18-5, and Maxine, Bldg. 18-3, Mericle returned Monday from a vacation of just resting. . . . Last Saturday, the Purdue-Illinois game attracted many to Lafayette. Among them were Mr. and Mrs. Fred Janel, the latter of Bldg. 18-1, and Florence Badger, of Bldg. 18-5. Florence reports that Nickie Hill's new son, Terrie Lee, is doing nicely. . . . H. S. Shields, Bldg. 18-4, is reported to have had the Monday morning blues. It seems that the high winds have blown everything into his yard. It is such hard work to keep it clean. . . . It seems that Mary Slater, Bldg. 18-4, has window panes. Her dog could not get through the door. So it did the next best thing and went right out through the window. . . . Dorothy Hill, Bldg. 18-5, is still a patient at St. Joseph Hospital. It is reported that she is on the mend, but will be in the hospital for some time. Let's send a card today. . . . Last week the Bldg. 18-1 Payroll girls had a chili supper with Phyllis Tanner at her home. . . . The welcome mat is out to Marlus Redding who has been transferred to Bldg. 18-5 from Bldg. 4-6. . . . Ruth Givens and Pat Olinger visited Purdue last week-end to see Purdue beat Illinois, but something happened! Illinois beat Purdue instead. . . . NO COMMENT about the Bldg. 18-5 Bowling Team. Except that we wonder if anyone has a good book on "How to Bowl a Good Game"? So far Eloise (Strike) Kartholl and Ginny (Spare) Bradtmiller are the stars. . . . Food For Thought: Henry Ford once said, "The best pay that I ever got was experience, which I still think is the most valuable thing in the world. It is the one thing no one can take away from me."

Inquiring Reporter:

WHAT DO YOU THINK COULD BE DONE TO FURTHER THE WEARING OF SAFETY SHOES AT G-E?

CLARENCE A. KOPP

Taylor St.

"Everybody likes a comfortable shoe. If all employees could be assured of a good fit that was really comfortable, I believe more safety shoes would be worn."

JOHN WESTERHAUSEN

Bldg. 17-2

"I believe more people would consider buying safety shoes if the price of the shoes was presented to the people through the facilities of the WORKS NEWS or the bulletin boards. I also believe it would be practical to explain the consideration a person receives if he is sold an unsatisfactory pair of shoes."

MARTHA MUSSELMAN

Bldg. 19-2

"In order to further the wearing of safety shoes at the G-E, we should be given more safety education to make everyone conscious of the fact that a large percentage of accidents in the factory are foot accidents. We also need to be reminded frequently that safety shoes are sold at the employees' store, so that when we need shoes for work we will remember to buy them there."

DORIS A. HILL

Bldg. 26-3

"I think wearing of safety shoes are just the right thing for everybody to do. But there are so many people who cannot afford to buy them. If the price could be brought down or have different priced safety shoes, I think everybody would be willing to buy them for their own protection."

LEE DOVE

Bldg. 10-1

"I think the WORKS NEWS and the bulletin boards are about the best way to sell safety shoes. One good way is to display more actual cases in pictures in the WORKS NEWS."

Motor and Generator Static

ODDS AND ENDS: Listen to your conscience and you won't need a lawyer. . . . A carpenter is the only man who should have a chip on his shoulder. . . . A family of five needs about 3,000 pounds of vegetables and fruits annually. . . . It is often difficult to see more than 100 yards in the Arctic, but an ordinary conversation can be heard two miles away. Hudson News Letter. . . . Bldg. 31-1's golden voice Dick Hobson managed to fall from his chair Friday, and also ripped a fender. . . . Big John is keeping an eagle eye on his friend Sam Baumgartner these days. Sam is very sharp—in business deals. . . . George Montgomery Murray, Bldg. 31-1, states that while on a trip last week he was mistaken for a member of the U.S. Senate. . . . Laurel Mary Land, take note, news is scarce.

Safety Raiser—How to Work Safely and Save Money

A cheap, common ordinary glass eye will cost you about $75. An Implant Glass Eye, one that is fitted to the eye muscles so you can move it the same as the other eye, will cost up to $250 or somewhere thereabouts. You can get goggles in the Tool Crib or you can get an order for prescription ground Safety Glasses or prescription ground goggles from your foreman Free. Glass eyes wear out and Safety Glasses and Goggles must be replaced periodically. Each time this happens you again save $75 to $250. Oh yes, we about forgot, with Safety Glasses or Goggles you can also See.

Ramblings in Bldg. 31-2

Motor-Generator has a new engineer in the D-C division. He is Douglas Johnson, a graduate of the University of Minnesota. Doug has just finished his training on testing machines. . . . Ruth Maher, who has been filing for the engineers, is now back again in the drafting room at her board. To take Ruth's place, we have Bea Collar, who has been transferred from Bldg. 31-1. . . . Thelma Clements recently spent a week in the Smokies. . . . Have you missed Jack Scott, our mail boy? He is at home recovering from a recent appendicitis operation. . . . Venus Fann has been transferred to the Data Bureau, where she will have a position as Commercial artist. . . . We hear that Harry Rife finally dusted off his file cabinet. 'Tis said that enough dirt had been collected to grow vegetables. . . . Congratulations to Mr. and Mrs. James Meeks. They are the parents of a new baby girl.

Brooks Celebrates 30th Anniversary

Howard Brooks, Supervisor of FHP Motor Development Div. 33, recently completed 30 years' service with the Company. On his anniversary, D. H. Hanson, Supt. of the division, presented him with a congratulatory letter. Attending the presentation were: (l. to r.) Mr. Hanson, W. F. Konow, Supervisor of Methods, Planning and Wage Rate; J. H. Oman, Assistant to Production Manager; Mr. Brooks; E. G. Stock, Supervisor of Costs, and C. A. Hartman, General Foreman.

Erne Is Presented $110 Award

Dewey Erne, FHP Div. 13, recently received a $110 suggestion award. He suggested a change in the design of the pulley clutch on winding machines. The picture, above, was taken at the time Mr. Erne (right) received the check from his foreman, H. J. Nahrwold.

Jhsa and Jhata "Specialty Motor"

by Helen Engle

By way of the grapevine I hear that Ray Snyder and Hank Wiegman have three kitties in their possession and would like to dispose of same! . . . Helen White and Reggie Eggeman both celebrated their birthdays on the same day last week. Congratulations! Belated greetings to Ruth Nordyke and Gilbert Walker. We extend birthday greetings to Beulah Briner, Olive Elliot, Cora Rice, Carl Metker, and Joyce Schroeder. Here is hoping that you all have many more! . . . Folks on the Getz road have been wondering just what is going on at Mardo Tobias' home. He is digging at night with a flashlight tied to his shovel. Some invention! Could it be you are hiding your gold, or are you really going to have a new walk? . . . It won't be long now until Marie and Frank Deyoe move into their new home. . . . Fern Painter and husband, Harold, spent last week-end baby sitting for their year-and-a-half old nephew. . . . Veva Healy says that her twin granddaughters are getting cuter and cuter. She visited them last week-end in Bremen, Ind. . . . Ruth Ann Shilling is taking dancing lessons. It won't be long until she will put Arthur Murray to shame. . . . If you wondered why Mildred Gaffer looked so tired the other day, we have the reason. She had spent the night with her sister-in-law, who brought two new little Gaffers into the world. . . . Florence Rekeweg spent last Sunday hulling black walnuts. Gosh, suppose she'll make some candy and let us sample it? . . . Eleanore Krouse was presented with a wonderful G-E clock and an iron as wedding gifts from her co-workers. . . . Evelyn Petgen is leaving us today to become a full-fledged housewife. We all know she will enjoy keeping house in that nice log-cabin, but we will miss her cheerful smiles and good fellowship. Sorry you are going, Evelyn. . . . Edna Hergenrader came to see us one day last week and says that she will soon be off the sick list. Didn't you notice how much wiser she looked now that she has parted company with her wisdom-tooth? . . . We want to welcome Harold Frazier, Edmund DeWeese, Jessie Hamilton, Viola Martin, and Carrie Edgar to Division 1. Hope you all stay a long time. . . . Frieda Knoche and Louie Barrows are both taking their third week's vacation this week. Marguerite Dasher, Art Bobay, Anna Ruth Clements, Art Knoll, and Ruth Reed have returned from their extra week's vacation. . . . According to Art Knoll, he really cleaned out Big Long lake. He caught all the perch in the lake. Seeing is believing, Art! . . . Louie Sauers is busy grinding valves for a Chrysler instead of a Chevrolet now. . . . Ruth Tutwiller told Bonnie Birely that she wanted a piece of cake on Bonnie's birthday. So Bonnie fixed one for her. She put red-pepper between the layers and gave it to her! Ruth got the surprise of her life when she took a bite. If I were you, Bonnie, I would be very leary of anything Ruth offered me to eat for a long time to come! . . . Harry Berry is really a good chef! Alva Foulks and Evelyn spent an evening at Harry's home and he really put on a feed! He prepared it all himself and served it, too! Anyone wanting to plan a party, just call Harry and he will be glad to help you out. From all reports he missed his calling, he should be a chef instead of an inspector! . . . We all want to thank Louie Barrows for that mint candy he was passing out last week. He said his dog had pups! Today I find out that he doesn't even own a dog! Well, the candy was good anyway. . . . Anyone wondering what those two men were doing who carried the ladder for a few feet, then crawled up and did something to the ceiling? I have the answer for you. Their names are Henry Tucker (he is Emery's brother) and Oren Miller. They were replacing the automatic sprinkler heads. In case of a fire, it gets so hot it melts the small bit of sodder and it automatically turns on the sprinkler system. I bet not many of you knew that we had such a system. My curiosity got the best of me and I wanted to know what they were doing. So I asked them. Then I thought I'd let you know, too.

2-2 Tales

by Belle Buchan

Hugh Reynolds is the most popular fellow in tbe office these days. He supplies us with baskets of apples. If there is anything to the old adage, "An apple a day keeps the doctor away," then we should be the healthiest group in the whole plant. . . . SWISH. Yes sir, that was Perry Esterline going by in his brand new Packard. How about giving a poor old lady a ride, Perry? . . . This week we say good-bye to Joan Bailey, who is leaving to take up her duties as a housewife. We also say hello and welcome to Clara Theismann, who has been added to our time clerk staff. . . . Frank Shidler, Robert Esterline, and George Skinnell are all on vacation this week. The lucky guys! . . . Vern Castle says that his daughter, Gladys Ann, is looking more like him these days—sort of fat in the face—due to having four wisdom teeth pulled. It's no laughing matter. . . . Larry Gase and Harold Boles have become interested in lizards as a pastime.

The Interdivision League had its biggest night of the year last Wednesday evening with four big 600 counts, thirty-three 200 scores, three 1000 counts, and a league high three-game total of 651 individually and 2923 team high total.

The Brouwer Tire and Battery team followed up their 2841 of the week before with a 2923 total on games of 919, 1014 and 990. The Firemen shot a 992 against the boys to win the last game by two pins. Frank Matthews led the Brouwer Boys with a 651 league high total on scores of 212, 258, and 181. Les Shroyer helped him out a little with a 632 total and scores of 187, 223 and 222.

Herb Habig, of Pierre's team, shot a 642 on games of 206, 235 and 201. Paul Walker, a member of Schuelers' G-E Appliance team (formerly known as the Motor-Generator boys) had the other 600 count, a 617 on games of 222, 183 and 212.

Two hundred scores: Bill Ort, 233; Frank Kopp, 201 and 222, Leo Elward, 205; Erv Haugk, 202; Frank Gitter, 205; Clarence Rump, 214; Russell Rose, 204 and 209; Hal Fanning, 200; Frank Iannelly, 206 and 201; Paul Billman, 202; Hal Spath, 205; Wayne Weimer, 204; Arnie Horstmeyer, 212; Erv France, 209; Putnam, 203; Cuney, 213; "Proud Pop" Ponsot, 210; Art Seidel, 212, and Noah Kuntz, 218.

Foerster started the evening with a 113 game and just to show how consistent he is, came back with games of 201 and 226.

Friday Night Girls

Tommy Williams pulled out the stops Friday evening and blasted out the second high, three-game total of the year at the G-E Club for women. She had games of 172, 190 and 215 for a rousing 577 total, just three points short of Bess Potts' 580 high.

High single games were rolled by: Ginnie Mollet, 186 and 170 (what happened to the other game, Ginnie); June Gettys, Liz Shearer and Betty Workman all a juicy 178, and Marge Malizzo a 175.

Helen Miller made the 4-7-10 split.

Apparatus League

Vic Rump grabbed the spotlight Thursday evening with a big 635 total on games of 234, 209 and 192.

Two hundred games were rolled by Arnold White, 223; W. Spahr, 209; Dan Oesch, 212; R. Dunten, 235; Charlie Briggs, 203; and J. Burton, 237.

Team No. 2 is leading the league with a 12-6 record, just one game back comes Team No. 10.

Apprentice League

The Compasses are out in front by three games. Jack Kirlin came up with the league's high three-game total of the season, a 569. (Bowling and table tennis, what a combination!)

Two hundred scores were rolled by: Jack Kirlin, 209; Smith, 203; Werling, 202; Marcus Junk, 201, and Chasey, 200.

Harold Fremion was happy to have his 200 score mentioned last week, but he'd rather no one knew he rolled under a hundred this week.

Office League

The Standardizing Team is out front by four big games. The boys had plenty of 200 counts Monday evening, but none of them were able to crack that 600 circle. Dick Gettys had the big 200, a 245. Other 200's were rolled by Erv Aumann, 233; Forrie Carlson, 232; Dick Hanson, 223; Maury Cox, 221; Paul Perry, 214; Fred Schafenacker, 207; Wade Tyler, 205; Don Pappert, 205; Frankie Schlink, 204; John Root, 204; Clarence Rump, 202; Bob Knepple, 202; Dudley Snyder, 201; Ife Holmes 201, and Robert Hanna, 200.

Bowling and Stuff

Homer Carson of the Apprentice League made the 7-9 split the other evening. Homer claims he shot at it enough during the evening that the law of averages took care of it.

High scores for those trophys this year are as follows: Frank Matthews, 651; Don Waldrop, 266, and Bess Potts holding both high counts for the women, 580 and 220.

Harold Patterson has moved into the second place slot in the All Star league. Harold had the weekly high total this week a 992 count. Ed Kraft continues to lead the league, being five games out in front. Both boys are G-E employees.

Small Motor League

The Small Motor Bowling was really spilling the maples during league play Wednesday evening—200 and better scores were prevalent, with Walker getting a big 618 with games of 199, 181, and 238 to take the lead in high three-game series. C. Holmes tied E. Haugk with a 247 high single. Other 200 games were Hinton, 203; Bice, 227; Horstmeyer, 210; Aumann, 200; D. Hoffman, 214; Seidel, 223; Miller, 202-200—(Bill claims he blew the ball up before he rolled these two games); Conrad, 213; Lamboley, 202 and 208; Whonsettler, 202; Walt, 222. Although not rolling a 200 game, Leo Reffelt deserves mention for his consistency in bowling. Leo rolled 165, 165, and 165. No, that is not a typographical error, he actually rolled those games. Kramer finally nosed Haver out. Kramer threw two in the gutter about half way up the alley. Somebody should tell him they have the gutter cleaned out after every league.

Transformer League

Watts are out in front with seven wins and only two losses.

Two hundred games were rolled by: Downine, 200; Howlett, 203; Hoopingarner, 213, and Moore, 225.

Ladies' Monday Night League

High games were kegled by the following girls: Dorothy Fuhs, 190; Helen Hardy, 184; Mary Weidman, 183; Maxine Root, 185; Mildred Bleivernicht, 178; Louise Fanning, 177, and Esther Muzzillo, 177.

Decatur Bowling Leagues

MONDAY NIGHT LEAGUE: Flanges are leading the league with 10 wins and five defeats. Two hundred scores were tallied by Sauer, 205; Shoaf, 201; Schultz, 203, and Laurent, 203.

G-E FRATERNAL: Teeple Truck Line team is the league leader with 12 victories and six losses. Preble and Elks are tied for second with a record of nine and nine. Teeple rolled the high singles with a 1033 total.

Six hundred series were piled up by H. Hurphy, 626 and Stump, 610. Two hundred games were rolled by: P. Hooman, 232; Stump, 224 and 200; Petrie, 223; H. Murphy, 223 and 210; Laurent, 200; G. Schultz, 221; Baumgartner, 200, and Leonard, 206.

WOMEN'S LEAGUE: High individual series were rolled by H. Wellman, 477, and M. Miller, 458. The high games were kegled by: B. Schneider, 179; R. Wellman, 182, and H. Wellman, 182.

The Firemen defeated the Test Engineers by the score of 26-25 in league touch football play Thursday, Oct. 20. The Apprentice School scored a 35-6 victory over the Messengers.

The Tool Division met a 14-6 defeat from the Works Lab. Transformer won over Winter St., 12-0.

Firemen downed Apprentice School, 24-19, in the last 45 seconds of the Tuesday, Oct. 25, game. An Apprentice School player knocked a pass down, hitting another team member. The Firemen recovered and made the winning touchdown.

The Messengers defeated Transformer, 13-0, that same evening. The Test Engineers handed Tool Division a 6-0 decision.

The following games will be played Tuesday, Nov. 1:

7:00 p.m.—Firemen vs. Tool Division

Test Engineers vs. Transformer

8:00 p.m.—Messengers vs. Winter St.

Apprentice School vs. Works Lab.

The rest of the schedule will be played in twilight games because of conflicts with the basketball and bowling schedules.

Basketball Team Opens Season Monday Night Against Indiana Tech

The G-E Club Industrial basketball team will open its 1949-50 season Monday night, Oct. 31, against Indiana Tech in the G-E Club gym at 8 p.m.

Bill Schible, manager and coach, has assembled a fast and experienced team that is packed with scoring ability and all-around good floor play. Bill feels that the team is in A-1 condition for the opening game.

The team consists of the following players:

Bob Baals, 5 ft., 8 in.	Guard
Richard Bucher, 5 ft., 10 in.	Forward
Richard Gettys, 5 ft. 11 in.	Forward
Lou Goehring, 6 ft. 1 in.	Center
Don Hower, 5 ft., 9 in.	Guard
Leon Lahrman, 5 ft., 8 in.	Guard
John Lindholm, 6 ft., 5 in.	Center
Ed Trable, 6 ft.	Forward
Jim Walley, 5 ft., 11 in.	Guard
Bob Zimmerlee, 6 ft.	Forward

Basketball fans are reminded that no tickets are necessary for the games at the G-E Club gym and everyone is invited to come.

Congratulated For Long Service

George L. Thimlar, Bldg. 20-1, celebrated his 30th anniversary with General Electric recently, so a number of his friends in General Service gathered to extend their congratulations. In the picture are: (l. to r.) Milford Toner, W. O. Luebke, Bill Schible, Howard Treesh, Mr. Thimlar, Raymond Kreigh, Sam Houser, Tony Arthur, and Edmund Bauer.

"A real friend is one who will tell you of your faults and follies in prosperity, and assist you with his hand and heart in adversity."—Horace Smith

The past week has been one of farewells. Hilmer Drayer and Mary Beaman have gone to Bldg. 17-3. Lena Shaw transferred to Bldg. 2-2. . . . Vance Burnau attended a farewell party for his brother and family who are moving to Phoenix, Ariz. . . . While Bill Straub was on vacation, he attended the Odd Fellows' Convention in Indianapolis. He was presented the medal of Past Grand Patriarch by his good friend, James Leverton, who is 93 years old. Congratulations to you, Bill, for this honor that has come to you. . . . Bob Esterline is vacationing this week. . . . We wish a speedy recovery to the little daughter of the Clifford Smeads', who has been suffering with whooping cough and bronchitis for the past two weeks. . . . Herb Halley and wife have declined the offer of learning to play Canasta taught by Johnnie Westerhauser. Johnnie just wants to be helpful and save Herb the time of trying to read the rules. . . . Gene Wheeler and Ed Meyer seem to be lucky in choosing the winners in almost anything. See them for the forecast on the football and basketball games. . . . Congratulations to the Fred Slaters on the birth of a baby boy. His name is Stephan and he weighed 9 pounds at birth last Saturday.

High wages—Low prices?

We can have them!

A lady sat down at day's end before a weary shoe clerk. She began to tell him just exactly what she wanted. But soon the salesman broke in with "Yes, yes, lady, I know—*big* inside but *little* outside."

That's just the way we are about wages and prices.

We want high wages. But we want low prices too.

Labor is about 85% of the cost of getting goods from the ground to the ultimate user. To get this big labor cost inside of low prices, we have really got to have lots of help with the shoehorn.

But we can do it!

We can have low prices with high wages—*if* we each in this country turn out a lot of goods in a day for that day's high pay. For we can then buy lots of goods from each other with our day's pay.

If we each *turn out little* goods for lots of pay, we will each be able to *buy* just *little* goods for our big pay.

How can we each get more done during our day's work?

Nobody in his right mind wants to get it done through having employees put forth more or harder body effort than ought to be in an honest day's work by our reasonable modern standards.

So the extra goods from a day's work—the extra goods that can then be bought with a day's pay—have got to be produced largely with our minds instead of our muscles.

We each have to put our most fruitful thinking into waste elimination, improved designs, and arm-lengthening tools and methods . . . into heightened interest, ingenuity, skill, and care in increasing productivity and making a given amount of cost result in as many goods as possible.

This kind of thinking by us all is the shoehorn that can help us squeeze the big cost foot into the little price shoe.

FHP Motor Divisions Receive Two Gold Key Contest Awards

The Fractional Horsepower Motor divisions received two Gold Key Order Contest awards last week for orders achieved through extra effort by members of the FHP Motor Sales divisions and district offices.

Gold key tie clasps were presented here Friday as individual recognition awards to three members of the local sales divisions by A. W. Bartling, Manager of FHP Motor Sales.

The individual awards for their efforts in obtaining an order from the Royal Typewriter Company were made to R. W. Grott and E. F. Rhodes, of the FHP Motor Sales divisions, Fort Wayne. F. A. Dred-

(Continued on Page 3)

Individual Gold Key awards were presented last week to E. F. Rhodes, H. E. Priwer, and R. W. Groot for their efforts in obtaining orders which brought the Fractional Horsepower Motor divisions two out of the 10 awards made by the Apparatus Department as a part of the Gold Key Order Contest. Taking part in the presentation, shown above, were: (l. to r.) A. W. Bartling, Manager of Sales; L. D. Hodell, Manager of Manufacturing; Mr. Rhodes, sales engineer; L. I. Asher, Divisions Accountant; Mr. Priwer, application engineer; J. J. Clarkson, Manager of Engineering; Mr. Groot, application engineer; C. B. Smith, Supervisor of Procedures; M. E. Lord, Manager of the Fractional Horsepower Motor divisions; B. R. McClure, Staff Assistant, and W. H. Sunier, Supervisor of the Inspection and Test division.

Decatur Employees Contribute $1,935 To Community Chest

Employees at the Decatur plant have contributed more than $1,935 to the annual city-wide Community Chest drive, it was announced today by G. F. Laurent, chairman of the campaign. The total contribution represents 1/6 of the city's $12,000 quota.

Armistice Day

On Friday, Nov. 11, there will be a general observance of Armistice Day as a tribute to those who gave their lives in the service of their country.

All employees are asked to observe two minutes of silence at 11 a.m. To aid in this purpose, horns throughout the factory will sound a warning signal at 10:55. Five minutes later at 11 sharp the signals will again be sounded, power will be shut off, and all work will stop for the duration of two minutes during which employees are asked to maintain a respectful silence.

Foremen and others responsible will see to it that individual switches in and around the shop, switchboards, etc., are thrown out so that power may be restored at the expiration of the two-minute period.

C. A. Matson
Works Manager

Foremen's Association To Host Ladies Nov. 9 At G-E Dinner Meeting

The G-E Foremen's Association will hold its annual ladies' night and dinner meeting Wednesday, Nov. 9, in the G-E Club auditorium.

"A New Formula" will be the topic of an address by Vernon C. Sheldon.

Music for the dinner meeting will be furnished by Buddy Nolan, Huntington organist.

Tickets may be obtained from contact men.

Employees Are Requested To Return Non-used Tools

All employees should get a list of tools which have been charged to them from their respective tool crib attendants and return all supplies not being used, it was requested today in a statement made by L. D. Platt, Supervisor of General Stores.

Most employees have tools in their bench drawers or around their work stations that are seldom or

Employees Maintain Perfect Safety Record

The Fort Wayne Works had a perfect record of no lost-time accidents during the entire month of October, it was announced this week by Herschel L. Smith, safety engineer, at a meeting of the General Safety Committee. It was the first time for as many years as records have been kept by the safety section that a perfect record was maintained for an entire month.

The no lost-time accident record was set as a goal by the safety section as part of the Wilson 50th Anniversary Program.

Edward Stettinius, G-E Director, Dies

Flags at the Fort Wayne Works were placed at half mast this week following the announcement of the death of Edward R. Stettinius, Jr., a member of the General Electric Company's Board of Directors. The wartime head of lend-lease and former U.S. Secretary of State died of a heart attack Monday at the age of 49.

7500 EXPECTED AT G-E CLUB'S ANNUAL REVUE

Six Acts Are Booked For Shows Nov. 5-6

Approximately 7500 tickets have been issued for the five performances of the G-E Club's annual Fall Revue Saturday and Sunday, Nov. 5-6, it was announced today by Ralph Hemminger, chairman of the entertainment committee.

Shows will be given at 7 p.m. and 9 p.m. Saturday, Nov. 5, and at 1 p.m., 3 p.m., and 5 p.m. Sunday, Nov. 6.

Jack Davis, an outstanding banjo player, is the final act to be booked for the revue. This act completes the cast, which also includes Harold Gautier's dog comedy act, the Machino Troupe of acrobats, Andy Mayo's "Pansy, the Horse," the Jack Gwynne Magic Show, and Dick Ware, master of ceremonies.

JACK DAVIS

Free Booklets, Comics Are Offered To Readers Of 'Adventures Ahead'

Five free offers of comic books and booklets are being made to young subscribers to Adventures Ahead, General Electric's bi-monthly magazine for teen-agers. Now in the mails, the November-December issue carries a variety of material, from history and biography to domestic science and how to make Christmas candles.

The new comic books being offered are "Adventures Into the Past," which takes young readers into the past to the days when Williamsburg, Va., was the capital of the young colonies, and "The Story of Light," the latest in the comic series, which deals with lighting from the days of the caveman to the present. Adventures Ahead's first article tells how the Williamsburg comic came to be written and drawn and shows pictures of restored Williamsburg and

Your Ideas May Become A Worthy Contribution To Better Living

Everything that concerns our present day standard of living was first an idea. Each of the improvements in quality and cost of production, as well as additional job opportunities that have been created, started as someone's idea.

Aside from the better living and greater efficiency that develops from idea-thinking, ideas—in the form of suggestions submitted to the G-E Suggestion Committee for approval—have paid suggestion-minded employees more than $2,500,000 since 1922. One suggested improved method of operations on refrigerator cabinets brought a G-E employee a single award of $2,285.

Yet no idea is too trivial or too simple for consideration. Get in the habit of THINKING, SUGGESTING, SUBMITTING. Turn in MANY suggestions, YOURS may bring a cash award . . . and become a worthy contribution to better living.

Health Program Here Includes Detection Of Tuberculosis Cases

The detection of tuberculosis in its early stages is a public health problem that is receiving the attention of many private and public agencies. It will soon be called to our attention again by the sale of Christmas seals, the proceeds of which help carry on this program in our community.

Well-organized industrial medical departments also include tuberculosis case-finding in their health programs. The extent of this activity by our own medical section may not be generally known by all employees.

Our program was first expanded some 12 or 13 years ago when a fluoroscopic X-ray unit was installed and was used as a method of chest examination to detect suspected cases of lung disease. The suspected cases found by this method were then given an X-ray film study. This method served to identify a number of cases of active tuberculosis. About five years ago a special X-ray unit, developed by our own Company, was installed. This unit makes possible the taking of a chest photograph on a film about 1/12 the size of former films, thus reducing some of the problems of developing and filing space for large numbers of films.

In 1948 our medical section did 2,173 chest X-ray examinations and 1,617 chest X-rays have been done up to Oct. 31 this year.

In general, the following groups are routinely given chest X-rays:

All new employees applying for work.
All employees returning to work after an absence of longer than two weeks.
All periodical examinations of hazardous occupation groups.
Periodical follow-up of suspected cases, or arrested cases of those who have returned to work and require continued observation.
Cases referred by the Fort Wayne Tuberculosis Association.
Cases referred by private doctors.
Employees coming to the dispensary with chest complaints.

Any requests by employees for chest X-rays, either through their supervisors or directly to the medical section, will be given consideration.

The goal of eventual elimination of tuberculosis depends upon the finding of cases in the early stages of the disease. The chest X-ray is the one most effective measure in finding these cases. With all the various public agencies, as well as private physicians, now interested in this program, it is possible for everyone to have a chest X-ray.

Industry has a definite stake in this program. First because it is a public health problem, and secondly because it is a definite contribution to individual health maintenance. Our medical section stands ready, as in the past, to give all possible assistance to the private and public agencies that are cooperating in this effort.

By Dr. H. W. Garton, Works Physician

It's Your Federal Government

The Veterans Administration

By Robert L. Johnson

Editor's Note: Following is the fifth in a series of articles describing the major findings of the "Citizens Committee for the Hoover Report." These articles are written by Robert L. Johnson, President of Temple University and Chairman of the committee. This committee is a voluntary, nonprofit, nonpartisan organization of leading citizens which has undertaken the task of informing the public of just what reorganization means and what the Hoover Commission recommendations, if enacted into law, will mean to each individual and to the nation.

As a patriotic citizen, you certainly will agree that the people of this country, through their government, are under an obligation to the veterans of our wars which they can never discharge spiritually, but which they should do their utmost to meet materially. It was in that spirit that the Veterans Administration was created. The Veterans Administration is doing its utmost. The question raised by the Hoover Commission is whether it is being done in the most economical and efficient way.

The Hoover Commission, as you probably know, was bipartisan in its makeup. It was created by unanimous act of Congress and given the task of delving into the affairs of some 24 problems of government and of making a report to Congress with recommendations for improved efficiency without impairing services. President Truman and former President Herbert Hoover are jointly urging Congress to pass the laws that grew out of the Commission's 19-volume report.

If all these laws are passed, Mr. Hoover has said in a conservative estimate, the annual saving in the cost of government will be at least $3 billions. In my belief it will be nearer $4 billions.

The Report on the operations of the Veterans Administration raises some questions which we cannot afford to ignore. It discloses the estimate that whereas there are now about 20,000,000 veterans, in ten years veterans and their dependents will number 62.5 millions, or 40 per cent of the population, entitled to benefits. The Veterans Administration will spend $5.3 billions in fiscal 1950. This is 11 per cent of the federal budget, a sum second only to our defense expenditures. Obviously the need for careful management of the Veterans Administration is great.

The Report found the greatest cause for concern in the areas of hospital construction, and government life insurance.

Plans Ignore Shortages

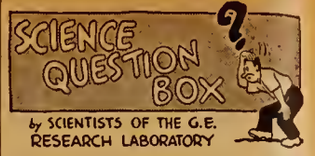
At this time the Veterans Administration has planned or is building 89 hospitals for a total cost of $1.1 billions, some of them in areas where it will be difficult, if not impossible, to obtain doctors, nurses, and technicians to operate them. This program is being carried out, despite the known shortage of nurses which is being felt by every hospital in the country. Even in New York City, with its numerous schools for nursing, one of its largest hospitals, the New York Hospital, has closed 150 rooms because of this shortage of personnel. The Veterans Administration itself has 6500 empty beds for lack of staff.

The cost of Veterans Administration hospitals greatly exceeds the average of $16,000 per bed paid by voluntary community hospitals. Veterans Administration hospitals cost from $20,000 on up to $51,000 per bed. Moreover, the Veterans Administration program conflicts with the Government's policy, under the Hill-Burton Act, of aiding non-federal hospitals in order to establish a sound hospital system for the whole country. Its hospitals will compete with such institutions for scarce personnel.

Lack of Planning

All this is the result of a lack of any overall plan for hospital construction, the Commission found, and stated:

"The Government is moving into uncalculated obligations without an understanding of their ultimate cost, the lack of professional manpower to discharge them, or the adverse effect upon the hospital system of the country."



The Commission referred to the fact that 100,000 Veterans Hospital beds are being occupied by veterans with non-service connected disabilities. The report does not comment upon the propriety of this, but it scores the method by which it is being accomplished. Congress authorized the agency to hospitalize such cases only when beds were "available." Yet 100,000 beds have been built or authorized for no other purpose than to make room for such cases. The conclusion of the Commission was that such cases could be more cheaply cared for in non-federal hospitals on a reimbursable basis.

Congress Overrules Saving

Aware of the need for economy in this field, President Truman ordered cancellation of $280 millions for unnecessary hospital constructions last year but Congress overruled him and restored this sum to the budget.

According to the findings of the task force, the reason for the marked delay of the Veterans Administration in paying death benefits on life insurance results from great numbers of basic reports having been mislaid or lost. The Administration, it showed, consumes an average of 73 days in paying such benefits after receiving proof of death. Private life insurance companies average 15 days. Yet, the report said, the Veterans Administration uses four times as much manpower, per policy, to such claims as the average insurance company.

Criticism was also made of the bureaucratic set-up of the agency. There is an excess of staff officers, it stated, and too much red tape. The task force discovered that there are in use 88 manuals of instruction, 665 kinds of bulletins, and 400 different circulars. The personnel turnover is very high and replacement expensive. Employees who have left the service gave these reasons for leaving: "Lack of opportunity to progress." "Infringement on personal liberty." "Too many coxswains and not enough oarsmen." "Autocratic and arbitrary rule as to clothing to be worn." "Supervisors not allowed to dine with subordinates."

Q. Is it advisable to drain the boiler and pipes of our home hot water heating system and to put in fresh water before it is used again in the fall?

A. No, this practice is not advised. Draining and refilling a hot water system adds scale and oxygen, and it should not be done unnecessarily. When necessary to drain and refill, boiler compound should be added to the water to prevent rust and scale formation.

Our Faces Are Red

Louis N. Brunner has been appointed Assistant to the Supervisor of Production in the General Tool division; instead of in the General Service division, as was stated last week.

Convention Trips To Be Described At AIEE Meeting

C. J. Herman

R. D. Jones

C. J. Herman and R. D. Jones, both of G-E, will address a local chapter meeting of the American Institute of Electrical Engineers Thursday evening, Nov. 10, in the G-E Squares Club rooms.

"Our Section, Coast-to-Coast" is the subject of the talks, which will be featured at this meeting for members and their guests. The program has been planned as a ladies' night.

Mr. Herman is a group leader in the Developmental division of the Fractional Horsepower Motor divisions, and Mr. Jones is a division engineer in the DC and Specialty division. They will discuss the trips they took to attend recent AIEE conventions.

Mr. Herman attended the Winter Conference meeting in Swampscott, Mass. He was chairman of the local AIEE chapter in 1948-49, and it is the general rule that the outgoing president attend the following convention. He will present his impressions of the convention and give highlights of his motor trip to the East.

The Pacific Coast Convention at San Francisco in August was attended by Mr. Jones, who presented a paper on "The Design of Insulation Systems for Small Rotating Machinery by the Determination of Corona Starting Voltages." He also attended a meeting of the Air Transport Committee, of which he is a member.

His talk concerning the trip to the west coast will be illustrated by colored movies. Mr. Jones will also give a brief account of the paper he presented at the convention.

G-E Fellowships

(Continued from page 1)

being accepted under provisions of foundations established to honor two former General Electric presidents, Charles A. Coffin, founder of the Company, and Gerard Swope, retired president. Grants will be made from income on the $1,000,000 G-E Educational Fund. Since 1923, when the Coffin Foundation was established, more than 200 awards, totaling $168,508 from both foundations, have been made.

Applications for fellowships, which must be filed before Jan. 1, 1950, have been distributed to deans and professors of engineering, science, chemistry, metallurgy, and mechanical and aeronautical engineering, and to placement officers. Applications, Mr. Trench said, may also be obtained from A. D. Marshall, secretary, General Electric Educational Fund, Schenectady, N. Y.

The Charles A. Coffin Fellowships are awarded in the fields of electricity, physics and physical chemistry, while the Gerard Swope Fellowships, first granted in 1946, are awarded in engineering, industrial management, the physical sciences, and other scientific and industrial fields.

The fellowships, Trench explained, will be awarded to graduates of colleges, universities, and technical schools in the United States who need financial assistance, and who have shown that they could, with advantage, undertake or continue research work in educational institutions either in this country or abroad.

Awards to an annual maximum of $1,500 for each fellowship will be made, the amount depending on the needs of the student. A $500 grant may be made for specific apparatus or other expense in connection with the research of the fellow. In addition, in cases of need, loans up to $1,000 may be granted, Trench said. The fellowships, he emphasized, are not intended for those who now hold, or expect to hold, other fellowships carrying stipends larger than the tuition at the institutions where the research is to be carried on.

After applications have been received, they will be submitted for recommendations to a committee of representatives from the National Academy of Sciences, the American Chemical Society, the American Physical Society, the American Institute of Electrical Engineers, the American Society of Engineering Education, and the American Society of Mechanical Engineers.

Gold Key Awards

(Continued from page 1)

rickson, of the New Haven office, and J. J. Pascher, Hartford office, also have been given awards for obtaining this order.

H. E. Priwer, of the FHP Motor Sales divisions, Fort Wayne, and D. O. Brooks, of the South Bend office, received awards for their efforts in acquiring an order from the Nineteen Hundred Corporation.

First Awards Made Here

The two Gold Key Order awards to the Fractional Horsepower Motor divisions were the first to be given at the Fort Wayne Works as a part of the contest in conjunction with the C. E. Wilson 50th Anniversary Program.

The order for motors obtained from the Royal Typewriter Company resulted from 12 years of hard work, perseverance, and creative selling on the part of a G-E team in the face of extremely difficult competitive obstacles. The initial order covers 1,000 type KH motors now being manufactured by Div. 17. It is believed that this sale has moved G-E from a secondary source of supply to a primary one, and it is expected that the customer will purchase several thousand additional motors from G-E this year.

The order from the Nineteen Hundred Corporation covered 25,000 ⅓ HP motors for automatic washing machines. This order established G-E as a definite source of supply for FHP motors after a lapse of 15 years. This order was secured by energetic salesmanship on the part of Mr. Brooks and excellent application service on the part of Mr. Priwer for the factory sales organization.

Ten awards were made by the Department on Oct. 15 in the Gold Key Order Contest, of which the Fractional Horsepower Motor divisions received two. Additional selections will be made Nov. 15 and Dec. 15.

With the added incentive of maintaining a rate of 20 per cent of the Apparatus Department Sales Contest awards in the form of Gold Key orders, the Fractional Horsepower Motor Sales divisions are making an all-out effort to gain additional important orders.

Contest Offers 50 Awards

The Gold Key Order Contest will honor the 50 most important orders received in the Apparatus Department during the period from Sept. 2 to Dec. 15.

The Gold Key order awards are made on the basis of extra effort in the terms of imagination, ingenuity, and industry on the part of the individual securing the order. While each order selected must have a minimum value of $5,000, the awards are not made simply by the amount of money involved.

Under the provisions made for honoring individuals in the contest, nominations for Gold Keys are made by the district sales offices. While it is recognized that the Engineering and Manufacturing personnel have played important roles in these Gold Key orders, only Sales personnel are eligible for the awards.

The greatest value which is gained from these Gold Key Orders is the fact that it has been possible for 85 additional persons to be placed in continuing employment, provided that satisfactory quality and service are maintained to obtain repeat business. It is only by rendering the customer the quality and service that he expects that the Fractional Horsepower Motor divisions may deserve or expect to receive this repeat business.

Elex Committee Plans Publicity For Thanksgiving Dance Nov. 23

Eva Fisher, chairman of the Elex Club's third annual Thanksgiving Eve dance, is shown above looking over one of the dance posters. Dance committee members are (seated, l. to r.) Marian Leiter, Eva Fisher, and Sue Thompson. Standing are (l. to r.) Donna Bauermeister, Maxine Daniels, and Janice Mueller. Justine Luyben, another member of the committee, was absent when the picture was taken.

The Elex Club's Thanksgiving Eve semiformal dance will be held Wednesday, Nov. 23, at the Prom Terrace ballroom.

Bill Miller and his orchestra will play for dancing from 9:15 p.m. until 12:30 a.m. Jean Kelly is the featured vocalist with the band.

Tickets are $1.20, tax included, and the public is invited. The tickets can be purchased from committee members and Elex contact girls.

Return Non-used Tools

(Continued from page 1)

never used, he explained. The request is being made in order to get these tools back in the tool crib for further distribution.

300 Cavort At G-E Club's Halloween Dance

Approximately 300 persons attended the Halloween Square Dance Friday night, Oct. 28, in the G-E Club auditorium. Attendance prizes and awards for the funniest and most unusual costumes were given during the intermission. Joe Taylor and his Red Bird band played for the dance, which was sponsored by the G-E Club entertainment committee. The above pictures show some of the scenes at the dance and the winners of special awards.

Safety Council Cites G-E Fort Wayne Works For Excellent Record

Awards Are Presented At National Congress In Chicago Last Week

The G-E Fort Wayne Works received special recognition for its excellent accident prevention record at the National Safety Council's 37th annual Safety Congress and Exposition held last week in Chicago.

General Electric had one of the lowest accident rates among the heavy metals industries. This is the third consecutive year the Fort Wayne Works has reeeived this recognition.

Herschel L. Smith, Fort Wayne Works safety engineer, was presented a certificate of recognition from the National Safety Council for having rendered "unselfish and devoted service" as general chairman of the Council's Power Press Section for 1948-49.

E. F. Harmison, DeKalb Plant Manager, addressed the Power Press Section at the conference Monday, Oct. 24. His topic concerned the training of power press operators.

Drivers Receive Awards

As a part of the Fleet Safety Driver's Contest of the National Safety Council, special awards have been made to the following G-E drivers:

S. G. Henline, Noble Drum, Ted Raypole, Fred J. Heaston, L. E. Lahrman, L. L. Boitet, Adam Johnson, Ray Moser, Willard Grush, Clyde Kreigh, Henry Hahn, Charles Woodward, J. E. Joseph, Julius Bradtmiller, M. W. Beucler, Virgil Carter, A. J. Voirol, F. H. Widner, H. W. Steward, and Roscoe Hamilton.

The awards were signed by Ned H. Dearborn, president of the National Safety Council, and by their superintendents.

Mr. Beucler has 31 years without a chargeable accident, Mr. Henline has a record of 27 years, and Mr. Heaston, 24 years.

No Accidents Since July

The G-E fleet of drivers has maintained a no-accident record since the start of the recent contest in July.

Recognition of this record was made at the annual Fleet Safety Driver's Award dinner last night at the Chamber of Commerce.

Elex Calendar

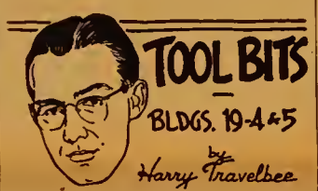
Nov. 7—Elsa Maxwell Party

Nov. 9 — Executive Board Meetings for First and Second Shift Sections.

Nov. 15—Partizan Anniversary Banquet

Nov. 16—Second Shift Paper Party

Nov. 23—Thanksgiving Dance



Dec. 3—Sonja Henie Trip

Dec. 15—Christmas Party

Bastian Celebrates 30th Anniversary

Hoy L. Bastian, Taylor St. Receiving section, celebrated his 30th anniversary with General Electric Tuesday, Oct. 18, when several of his co-workers joined in their congratulations on his long service. Left to right are: Fred Campbell, FHP Motor Div. 14 Supt.; M. G. Pugh, Assistant Supervisor of FHP Inspection and Test; Viola Jacobs, Erma Poinsette, Mr. Bastian, L. R. Heer, and Russell Frey, Foreman.

Al Nebur thinks that every boy should have a dog as a pet, especially when said dog turns out to win a prize in the citywide contest as his son's dog did. After giving the dog to his son, Al thought it a swell idea to enter him in the Dog Show at Lawton Park, so he and the boy took the dog to the park. They were confronted as to which class he belonged, but after much deliberation, they decided to enter him in the long tail class. And what do you think? The dog won third prize. Al thought he would put this bit of special news in the paper; however, when it was printed, someone else's name had been used instead of Neil Nebur. But that isn't the payoff, as Al learned later that there were only three dogs that entered in the long tail class. Try again, Al. . . . We have been told by those who should know that Harold (Doc) Hoffman is manufacturing miniature rakes. Better start hiding them, Doc. . . . John Roemer and his son were driving close to the Smith Airport Sunday and were eye witnesses to the airplane crash in which three men were injured. John and his boy came up to the wreck in time to help get the men out of the crashed plane. Nice work, John, we are proud of you and your son. . . . Anyone needing a baby sitter or two, better contact Mr. and Mrs. Chet Reynolds, as they are experienced after sitting last Sunday with two very high class beagle hounds. . . . Art Rasor was asked if he liked taffy apples and gave a negative answer, but politely took a half of one anyway, explained that he takes anything that's free. . . . We wonder why Ray Mutton took offense when asked if he knew anything about the Mutt Dog Show? This is one word that stopped Art Rasor in the test the other day—that dern work "barge."

Winans Retires

Q. R. Winans

Quincy R. Winans, Bldg. 6-1, retired Nov. 1 after 32 years' service with General Electric.

Mr. Winans began working in the Distribution division in 1917, and at the time of his retirement was a leading operator in that division.

Cigarette Lighters Are Given To 13 Suggestors As Bonuses

G-E monogramed cigarette lighters were presented this week to the following employees as bonus awards for submitting suggestions on which the regular awards were $10 or more:

Delmas Detter, Lewis Guenther, Dewey Wisner, Charles Lauer, Edward Huhn, Arthur Lantz, Charles Norwood, William Saylor, Anthony Koorsen, J. H. Hambrock, Richard Zirger, Gilbert Hoover, and Verlin Biggs.

The biggest block to many a man's success is his head.

23 Members Of Department's Advanced Production Program Attend Graduation Ceremony

The Schenectady Works was the scene this week of a four day meeting and graduation for 23 members of the Apparatus Department's Advanced Production Program.

During the first two days, the trainees toured portions of the Schenectady Works and heard talks on production and related subjects by Schenectady Works and General Office personnel. A. V. Feigenbaum, Supervisor of Training for Manufacturing Personnel, directed the conference during the final two days.

Brief ceremonies Thursday evening in the Edison Club highlighted the meeting when the members of the group were congratulated by T. F. Garahan, Production Manager of the Apparatus Department, and presented with a leather-bound diploma signifying satisfactory completion of the program.

Members of the Advanced Production Program and their sponsoring Works include:

R. J. Geiter, L. W. Rank, J. W. Fry, R. G. Loecher, R. Medros, C. Dodge, Jr., H. G. Norris, and R. F. Richard, all of Schenectady; W. F. Fachet, K. E. Agan and C. W. Gerni, Philadelphia; C. B. Anderson and J. P. Sheperdson, Pittsfield; E. F. Elwell and E. R. Nelson, Erie; E. C. Hazelwood and W. L. Scanlan, Lynn River, E. H. Lovequist and R. J. Perron, West Lynn; A. E. Monahan, Fitchburg and W. R. David, E. S. Sembroski and B. F. Brickley, Fort Wayne.

Men are recommended for the Advanced Production Program, by Divisional and Works Service Production Managers, directly from Works sponsored training courses or from other Company training programs such as Test, BTC and the Apprentice Course. Those who are selected are given advanced training in production and related subjects over a period of approximately 18 months.

Lubrication Engineers To Hear Talk Nov. 10 By Automotive Expert

The Fort Wayne Chapter of the American Society of Lubrication Engineers will hear a talk on automotive lubrication and fuels at 7:30 p.m. Thursday, Nov. 10, at the Van Orman hotel.

The speaker will be R. G. McMahan, of Indianapolis, Mr. McMahan is the field expert on motors for the Socony Vacuum Oil Company.

Of interest to all car owners and industrial plant personnel, the talk will include different phases of automotive and industrial lubrication. The speaker will have the answer to many questions the car owner asks the lubrication engineers in regard to the new detergent type motor oils and oil changes.

A Purdue graduate with BSME and ME degrees, Mr. McMahan is a member of the Society of Automotive Engineers, American Society of Mechanical Engineers, and the American Society of Lubrication Engineers.

The speaker has had 25 years of experience in automotive and industrial engineering for two of the major oil companies, and nine years as mechanic and machinist for various automobile companies.

He was technical advisor during the making of a movie film about the 1949 Indianapolis Speedway Races. The movie, "Behind the Checkered Flag," will be shown at the meeting.

'Adventures Ahead'

(Continued from page 1)

how the same scenes are treated in the book.

The booklets are being offered in connection with "Television Tutoring," a story of the use of television for training Naval Reserve airmen; with "A New Excursion in Science," about a new film in the General Electric library; and with "No Golden Chariot," a biography of Charles E. Wilson, President of the Company, and of his youth in New York.

The new and fascinating field of ultrasonics is treated in "The Bat Knew It First," which points out how impulse and echo waves are used in modern tests. Other scientific articles are "Thunderbolts in Harness," the first of two chapters of the story of man's conquest of lightning; "The Story of Light," about lighting through the ages, which is being concluded; and Vincent J. Schaefer's "Scientific Adventures," which deals with glacial earth deposits.

Erie's Troubadours, who entertain shut-ins at numerous homes and hospitals, are the subjects of "The Idea That Paid Off in Fun." Ann Hamlen of Schenectady, who won a trip to Switzerland for an essay, has written "I'm Going to Miss My Swiss," an account of her prize-winning trip.

WELCOME—The AC Division welcomes a new draftsman, Jim Templeton, also welcome to Jack Trott, who is working for Fred Suhr, Dev. Div. He replaced Ed Rathbun, who left the Company to go to California. . . . SCHOOL DAYS OVER—School days are over for Joe Rowan, he is now a draftsman in the Developmental Divison. . . . HALLOWEEN DANCE—Lydia Wilkening went to a Halloween dance the other night. It was loads of fun, everything but the removing of the mask. I wonder why! . . . FOOTBALL—Delores Giltz and her husband attended the Ohio State and Northwestern game last Saturday at Columbus, O. . . . HAPPY BIRTHDAY — Happy birthday to Wes Powers, of the DC Div., who celebrated his birthday Nov. 1. . . . DE-MOUSING—Advise on how to catch a mouse. Fred Cooper, Engineering File Room, put a peanut on a mouse trap. The next morning there was poor Mortimer (cold). . . . NEWS—Denton Manecke received a letter from Lew Davis from sunny California. He is getting along fine with his new job. Wishes to hear from the gang. His address is No. 49 Trailer Tel RR No. 2 Box 1021, San Jose, California. . . . BY BY—Milt Ceoglein left last week to take up the activities in his filling station. Lots of luck, Milt. . . . VACATIONS—Charlie Koomjohn was on vacation last week in St. Louis. He went there to visit his two daughters who are in school there. . . . RED HEAD BEAST—Carl Vizithum was late last Friday morning due to the bus driver passing him up. It seemed Carl was at a Halloween party Thursday evening and had forgotten to take off his red wig he had worn with his outfit. Carl would also like to know how women walk in high heels? . . . CONGRATULATIONS— Saturday, Oct. 29, Carl Mann had an addition to his family. Not one, but twins—girls. Congratulations, Carl. Also congratulations to John Chipco on the addition to their family. It was a girl born Oct. 30. . . . MISSING IDENTITY—Bill Pringle, well-known engineer in the DC Division, has a new pair of glasses and a new suit. The new glasses, however, don't seem to be enough for him to recognize the coat of this new suit. Several days ago, Bill rushed out at quitting time so as to quickly be in his family circle. We suspect Mrs. Pringle had given orders he was to hurry home from work. Bill grabbed a coat and headed for the south part of town. Some time later, Art Wilson having satisfied his conscience on a day's work decided to call it quits and head for Decatur and his family. There was one coat left which didn't match his pants and didn't have his car keys in the pocket. There was a nice new pair of bifocals in the pocket which looked like Pringle's. A call to Bill's wife confirmed the suspicions—Bill's coat didn't match his pants. Bill said that if Art would carry his car keys in his pants pocket, matching coats would not seem so important. Art said that if Bill would wear his new glasses he could distinguish his own coat. Anyway, all's well that ends well. Bill drove back to the parking lot and exchanged coats with Art and their respective dinners were not too much delayed. . . . SORRY—Thelma Barbeau was quite surprised to see her name in the birthday column last week since her birthday isn't until April. Sorry, but we were a little early with the birthday wishes, Thelma. . . . TROUBLES—Harvey VonGunten wants a couple of Kigmies dressed like Johnny Leffers. If you know what Kigmies are for, you will know why Harvey wants them. . . . Jack H. (Halefax) Jennings and Harvey (Sore arm) VonGunten sure have some hattles sometimes, but why do they just sit and hit each other on the arm. Why don't they get a couple of Kigmies too? . . . SHOPPING FOR ??—Well! Well! Wonder what Joan Walter and Gil Baker were shopping for. They were seen dashing around town, Saturday. . . . VACATION—Owen Vaught returned Monday morning to work after his third week's vacation which was spent in Cincinnati which he said was most enjoyable. . . . WET FOOT—Franklin Ross was washing his car Saturday (for the last time this fall and winter). Standing on the running board washing the top of his car with his bucket of water on the ground, he proceeded to step down to refill the sponge. Doing so he alighted with a splash, his right foot in the water. Result, wet foot, upset bucket of water, and a few minutes of silence. . . . BUTTS—Dick Dochterman went into the engineering file room to cut some papers the other day. As he was cutting the papers he laid his cigarette in Mr. Cooper's ash tray. After cutting the rest he reached back to pick up his cigarette, but no cigarette. Mr. Dochterman asked if it was his cigarette, and Mr. Cooper replied, "I don't know, what brand were you smoking." Mr. Dochterman said, "Camels," and Mr. Cooper had to give up the cigarette. Better luck next time, Mr. Cooper. . . . SPEEDY RECOVERY—Everyone in Bldg. 4-6 wishes Fred Borton a speedy recovery. . . . CONGRATULATIONS—Congratulations to Joe and Joan Hilcs for winning a prize for being the funniest couple at a dance. Nice going, Joe, we hear you didn't wear a false face.

Jefferies Receives Retirement Gifts

William C. Jefferies recently retired after 26 years' service. At the time of his retirement he was a toolmaker in the General Tool division, Bldg. 19-4. On his last day at General Electric his friends gave him a G-E toaster, a roaster, electric drill, and a miniature accordion. Mr. Jefferies is shown in the picture above, opening his gifts.

Hodell To Present Talk At Lutheran Men's Club

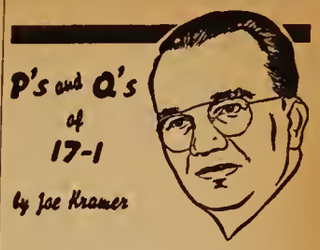
Lisle D. Hodell, Manager of Manufacturing for the Fractional Horsepower Motor divisions, will address members of the Men's Club at the Redcemer Lutheran Church, Rudisill Blvd. and Harrison St., at 8 o'clock tonight. His topic will be "A Life's Philosophy."

Green Retires

M. P. Green

Monroe P. Green, FHP Div. 13, retired Nov. 1 after a 34-year career at G-E.

Mr. Green first starting working for the Company in 1912 as an oil separator in the Meter division. He later became a drill press operator, working for W. N. Wehrs. In 1927 he became a machinist in Bldg. 26-4 and then in Bldg. 18-4. He then transferred to Bldg. 4-3 as a lathe operator and at the time of his retirement was a stub lathe operator.



Bill Crouse should go in the garage business. He was seen pushing cars during lunch hour. . . . Genevieve Conley and her husband are on a hunting trip in Canada. . . . Joe Troendley took Ralph Braden a ride in his new Packard. Now Ralph has back trouble. Maybe Joe is selling Packards now. . . . Otto Braun can't make up his mind whether to buy his wife a Packard or a Plymouth. You had better get busy and talk him into a Packard, Joe. . . . We are all pleased to hear that Al Topp has enrolled at a driving school. . . . Ray Horstman went to a Hallowe'en party. He didn't dress for the occasion and won first prize. . . . Did you know that Benny Keller was the hero of the Kingsland train wreck? . . . We wish the Dwight Jacksons a lot of good luck in their new home. . . . Kenny Disler gave the fender of his car a nice permanent wave. . . . Berneice Kratzsch just came back from her vacation. . . . Ruth Gaff is off on leave of absence. . . . Congratulations to the Claude Hughes on their 7 lb. 3 oz. baby boy.

"Do good with what thou hast or it will do thee no good."—William Penn.

Did you ever come to work feeling like a million dollars, full of pep and almost young again, when suddenly someone comes along and says, "When are you going to take your third week?" I guess it just seems that they've seen you about the place for 20 years. . . . John Johnson is enjoying his third week of vacation this week. . . . John Williams was trying to locate some Vaseline the other day. He was offered a jar, but that wasn't enough. John turned up with a five pound can before the day was over. . . . The Fraternal Order of Police beat Farmer Harris to the "Beast of Busco." At a Halloween party a couple appeared dressed as Harris and the famous turtle. Needless to say they won the prize. . . . Joe Haas wants to know if a man can trust his wife. Bob Rehrer says not. He had a nice looking cheese sandwich the other day which didn't taste just right. When he opened the sandwich all he could find was pepper. . . . Ed Bienz is a goodhearted fellow. In fact too good. While bowling one night the first game was good, the second even better, and then came the third. With a 164 in the sixth frame Eddie decided he didn't want to beat the fellows so he blew the last four frames. . . . Mel Kiessling has come along with something new in a scale. It is very attractive and the coloring is perfect, but it only measures two inches. Not so practical is it, Mel? . . . Herb Lemmel is going deer hunting next week up in the northern peninsula of Michigan. Good luck to you, Herb. . . . Helene Evanoff is back with the day shift again.

Happy belated birthday greetings go to Frank Martin who celebrated his ??? birthday last Tuesday. Frank was ably assisted in celebrating by his friend and coworker George Mosshammer. . . . Andy Degler brought apples in and distributed to everyone in 19x72 group. Andy states the main reason for eating apples is the old adage "An apple a day keeps the doctor away." . . . It looked like Henry Papenbrock was back in Bldg. 17-1 the other day, but it was just Clarence Doctor running a hot job with a small amount of cutting oil. . . . Mike (Cowboy) Kramer wouldn't admit that the reason for his sore back could have been caused by a slip, at least that is what he said it was, from his pony's back. Mike was giving his young daughter, Leeanne, some lessons in how to ride a horse. . . . Cliff (Steeplejack) Coombes ably assisted by Curly Sprague placed a cardboard over a broken window in the upper regions of Bldg. 17-1. Curly does the ground work while Cliff takes care of the work in the altitudes. . . . George Mosshammer has gone out of the real estate business and is contemplating on going to the South Seas to become a beachcomber. He is going to take his own apple trees with him so he can have plenty of shade in which to relax. . . . Ed Arthur was the winner of a wrist watch. Ed can now keep track of the time very easily. . . . Ed Brosche must have taken Paul Geiger too far south last Thursday. Ed was giving one of his lectures on the beauties to be seen in the south last Thursday afternoon, and Paul Geiger was among the interested audience. Paul was so tired Friday morning that he couldn't make it to work. . . . It was an interesting stag party which was held at the Dent's lake cottage last week-end. Everyone had an enjoyahle time and returned home well rested. Bill Walt kept the conversation at the dinner table running in smooth order by returning occasionally to the pictures seen the night before. Wally McKay provided entertainment for the group by showing movies taken on a hunting and fishing expedition. The party consisted of playing cards and fishing. Bill Franke and Bill Walt had a time keeping Harold Mettler awake to see the sun come up Saturday morning. Charlie auer stayed up with the rest of the gang but he gave as his reason that he wanted to get an early start fishing. Sunshine Boy had his usual good luck by catching an ample supply of fish.

Estabrook Is Elected To Board Of Directors By Chamber Of Commerce

John E. Estabrook, Assistant to the Works Manager, has been elected a director of the Fort Wayne Chamber of Commerce to serve in the Manufacturing and Industrial Division.

Balloting for nine new directors was conducted by mail last week. Directors are elected for three-year terms and the board consists of 30 members.

SHIPPING—That gal with the flying fingers has done it again—little Eva Westrick displayed one of the most beautiful crocheted tablecloths these tired old eyes have seen in a long long time. . . . Herman (hoy do I feel good) Ebel is back after a nice vacation and also a very interesting trip to our Pittsfield plant. . . . TELEGRAPH—The telegraph switching center gals loaded with refreshments surprised their new bride Eleanor (Phillips) Blake with a party at her trailer home. Imagine the surprise when Eleanor's hubby came home and asked her why she didn't give the girls some of the banana cream pie he baked. Of course he explained the meringue wasn't fluffy because he added the sugar before beating the egg whites and the crust was a wee bit tough due to the fact that he had put too much water in and therefore had to add more flour, but despite all these minor faults all who ate it had to admit it was good. Gals, you'd better watch your step for from this small beginning men could eventually take over this job of housekeeping. . . . MAILING—We take this opportunity to wish the best of luck to Ed Trabel who recently was made a member of the G-E Majors Basketball Team. We are right proud of you Ed my boy. . . . Sport accidents seem to be plaguеing the Mailing section. Frank Hopper, Bruce Hapner, and Howard Ream were all among the injured in one way or another while playing football. Bruce, however, claims he was an innocent bystander. . . . We are very happy to hear that Frank Goetz's wife has been taken home from the hospital and is recovering rapidly from her recent operation. . . . Dick Howell is leaving Friday for a two weeks cruise to Puerto Rico for the Navy. A quart of rum would be a nice gift for the boys, Dick. . . . SHIPPING BLDG. 6-1—A sincere get well wish for Roscoe Grover and Roy Utter. Hope to see both you boys back with the gang real soon. . . . Does married life change a man's character? Well seems no one will make a positive statement on this matter, however, seems it's impossible to borrow anything from Howard Sauers anymore. . . . If you're having trouble with your Chevrolet, especially the spark plugs contact Bob Younghaus. Bob can tell you just how many spark plugs there should be, cause his father-in-law didn't know. . . . REGIONAL WHSE.—Alice Horman was a guest of Nancy Siebold last week end at Michigan State College. Nancy is one of our former employees now attending Michigan State. . . . Betty Zeig has one of the best collections of over-parking tickets on record. She has been averaging about three a week, which isn't at all bad, however, we hear Ann Swisher is running a close second. . . . Wish we knew what Irene Shroyer finds so interesting in Warsaw. . . . "My Friend Irma" has nothing on Gene Manecke. Gene pulled out the plug on the drinking fountain and then wondered why the water kept coming. . . . It may be just coincidence, but Fred Gerhard cleaned off the top of his desk recently and the next day the eight-ball turned up missing. How about that, Fred? . . . Emmet Mills' hidden talent has finally come to light. He says he does lots of cooking at home. Come to think of it he does look a little thinner lately.

Altekruse Chalks Up 30 Years

Fred B. Altekruse, Bldg. 20-1, completed 30 years' service with the Company recently. Shown, above, are: (l. to r.) W. O. Luebke, Everett Keenon, Bill Schible, Mr. Altekruse, William Welch, Arthur Beck, and Bill Doehrman.

I've seen everything now. Ray Leitz on the end of a scoop shovel is it. It's true; I saw it myself. But there is one drawback to it, it happened when the lights were out last week. Yep, that's for Ripley. . . . Jack Richards, insulator, has gone back to his old haunts on the grinding machine in Plant I. Red McGill has replaced him. . . . Ira Huber and John Knott motored to Indianapolis last Sunday where they visited with relatives. Of course, they went in the birch gray outfit. . . . Cliff Pond has bought a brand new blue metallic Ford. Cliff sure is stepping high, wide, and handsome since then. . . . Iola Hamrick, that tall slender gal from them thar hills, has been off for several weeks due to virus pneumonia. Say, lady, you had better get well and get back to work again as it's cold outside sister. . . . Did you know that Dora Mae Fairchild is taking up beauty culture on the side? Yup, she goes to Fort Wayne for the lessons too. I believe I will have her give me an end curl one of these days. . . . Al Windmiller always gets the breaks. He must belong to some of the higher aristocracy as the other day he was bragging about some gentleman coming out and giving him his check personally. Al claims the man had a white shirt and a coat on. . . . Watch out when you are up town and you see a green Hudson pull over to the curb, because if you don't Felix will be after you. . . . It's gone with the wind that Scottish dress Nancy (Ruth) Tinkham wore that took your eye. Yes she says it was a little tight. Sorry, Ruth, it was such a nice dress too. . . . They do say Homer Liby, of the protection squad, has gone and got himself one of them there Nash automobiles. Just what would he want one of them things for? I don't understand. . . . Richard Myers spent the week-end at Oliver Lake. . . . Alma Fruchte spent the week-end at Lafayette with her daughter-in-law and son Don, who was a former employee of the G-E and now attending Purdue. . . . Bonnie Foor has her difficulties with the parking meters. Roger, her son, deposited a nickel but it didn't register so Bonnie proceeds to use her skill with a hat pin, and it worked. All Bonnie wanted was her nickel's worth. . . . Emma Butler says "We have baby rabbits, baby cats, and baby dogs at our house," thinking she had something on her co-workers. . . . GeCode again this year has accepted an invitation to join Elex girls of the Fort Wayne Works to see Sonja Henie at Indianapolis. Reservations of $3 should be in at once. The date of the performance is Dec. 3. Cost of this trip will be $8.25 for club members. . . . Kate Burkhart is back with us after three weeks of illness. . . . Clarence Morgan was all smiles the other day being the recipient of a suggestion award. Nice going, Clarence. . . . According to the Daily Democrat we see where Rufus Roop and family with Forest Roop accompanying had been sight seeing the Ohio Caverns. How were the stalagmites, boys? . . . Could it be the new streamlined models that encourages Eddie Adler to trade the '31 model on a new Frazer. Eddie, keep you foot light on the accelerator—them new models sure can get away from you. . . . Russell E. Weldy, nearly a 25 year employee, died last Wednesday morning. He has been ill for a year. Everyone remembers him as a good employee, and we all are sorry to lose him from our midst. Deepest sympathy to his wife and family. . . . Our sympathy to Eddie Hesher on the death of his mother-in-law. . . . As long as the sun shines and breezes blow and flowers bloom and fade there will be weddings. Cecelia, have you that "something old, something new, something borrowed, and something blue" ready for your eventful occasion? We have been hearing rumors of it. Morris Gobel is sure a lucky bridegroom to be. . . . Germaine Straub had a baby boy for her husband. We all remember Germaine, our little tester. Congratulations, Mom and Pop. . . . Who has more zipper trouble than Alice McBride. . . . We hear Jim Staley is grandpa again. Hi, Gramp! . . . Dort Schnepf was rather embarrassed the other day. Ask Dort for the details. . . . Harry Staley is driving a different car we see. . . . The GeCode Club now has Christmas cards, wrappings, birthday cards, get well cards, all occasion cards, and everyday wrappings. See any GeCode Club member. . . . Christmas card displays can be seen at the Credit Cage in Plant 2 and in the Club Room in Plant 1. The people in Plant 1 can purchase cards, wrappings, and pens from Paul Briede.

Diplomacy has been defined as the art of letting the other fellow have your own way.

Paging Mr. Burbank. Ann Lapadot swears that the apples that Hugh Reynolds brings in are a cross between a peach and an apple because they have fuzz on them. Oh, Ann, if Mr. Burbank were living he wouldn't like you for stealing his stuff like that. . . . Do we have strong mice in our office! They are so strong that Ann Lapadot and Dorothy Askren have their trap anchored to a desk to keep the little rodents from dragging it away, and what did they use for an anchor—a rope. . . . Norma Krall did agree to pass her new nylon blouse around for inspection but she absolutely refused to model it, oh shucks. . . . This week we have Dorothy Medsker as the new addition to the office force. Welcome, Dorothy. . . . A little three-year-old girl climbs aboard a large transport plane, seats herself prettily and gazes nonchalantly out the window. Is she afraid? I should say not; isn't her daddy the pilot? And dad in this case is the son of Vern Castle and, of course, the little airminded girl is Vern's granddaughter whom he calls "The Butcher". I don't know why unless it is because she just slays you with those grown-up ways of hers. . . . The Birthday Club was entertained by Lucile Werling with a dinner at the Colonial Inn, for Florence Knight. Those present were Norma Krall, Eileen Hennen, Dorothy Askren, Audrey Hickernell, Laurel Weaver, Kate Scherrer, Belle Buchan, Joan Bailey, Ann Lapadot, Lucile Werling, Florence Knight and Jean Pappert.

A New Penalty for Leadership

UE came in to resume negotiations three weeks ago.

We were told that things were "not standing still." With this we certainly agreed.

We were told that we should "step out and show some leadership.' Leadership is what we thought we *had* been showing.

We believed we *were* out well ahead of others—*had* taken a commanding lead in providing our employees with good jobs—and with an advanced security program in addition.

After two bargaining sessions, a week apart, the UE negotiators confessed that they had nothing new to advance along any line and urged the Company to make some offer that they could "kick around."

We then made our offer. We promptly reported it to you. And the union press and representatives have since been kicking it around as promised, although study of the offer by the union is continuing in our negotiation meetings. Meanwhile, here are some of its main points:

(a) New Group Life Insurance for all employees equal to about one and a half times straight time annual earnings . . . with the insurance averaging about $4,500.

(b) New $2,000 Accidental Death Benefit in addition to life insurance.

(c) New non-occupational Disability Benefits of about one-half average straight time earnings (up to $30 per week) for each of 26 weeks. If hospitalized, benefits start immediately.

(d) New paid-up Life Insurance program for all employees hereafter pensioned with 5 years or more of insurance coverage.

(e) Pensions for life for all employees with one year or more of service retiring at 65 for men, 60 for women. This is in addition to present Social Security, and the new higher Social Security expected soon.

(f) Pension payments guaranteed for at least 5 years to pensioner — or beneficiary — if he dies within that time.

(g) Pension payments by employees returned with interest on leaving Company.

(h) In anticipation of increased Social Security benefits, and until they are increased, payment of an additional $15 a month up to the point where the Company pension alone plus this $15 totals $100 a month, for those retiring in the future with 10 years of continuous service.

(i) Lowered MBA and Health Insurance costs or inceased benefits made possible.

(j) Modified vacation plan resulting in increased payments to employees leaving or laid off.

(k) Employees Stock Saving and Bonus Plan.

(l) Company pays all costs of new benefits, and would now pay some more of the cost of old benefits—this resulting in better benefit program and in less cost to employees than before.

(The complete text of the offer will be sent to anyone requesting it.)

We are convinced that our offer contains the best over-all employee security program that has yet been—or will in the near future be—made available to employees anywhere for like work under like conditions.

Let's all take a look around and see if we don't find this to be so.

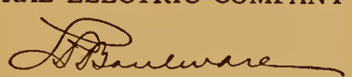
For this offer contains new and important benefits. And it contains some old and important benefits for General Electric employees—voluntarily developed by the Company—which the UE is only now beginning to seek, or get, elsewhere.

In some 300 settlements UE has claimed to have made with employers since we have been negotiating this time, we have seen no mention of more than a handful of contracts which have any pension provisions at all. We have had plenty of indications from time to time that our liberal pension program has been used as a basis for demanding pensions of others.

The question is not whether the General Electric pension plan is perfect yet. We are improving it again, now, and will hope to go on improving it. However, it is not intended —nor is any private pension plan intended— to be the *complete* answer to the individual's security problem.

The question is—should UE forget all about its contract settlements elsewhere with *no* pension provisions, or only *limited* pension provisions, while complaining about some small or fancied shortcoming in the General Electric pension plan?

Let's keep in mind that there is already $200 million accumulated in our Pension Trust; that an additional $85 million of Company earnings must be put away for past service; and that, despite the provisions already made, the Company's cost of benefits from here on probably will be as great as or greater than what most others just now starting will be putting into their plans at the beginning.



What we are really being told is that all these improvements—made ahead of others —don't count now.

If we take the lead in pioneering something in our employees' interest—and something the union is then still trying, mostly without success, to get done elsewhere—we think we should be given credit.

We don't think we should be cited for *lack* of leadership the minute other employers even start toward getting up in line with us.

The complaint seems to be that we have been doing too much previously! We had thought this was a good fault. But, by seeking to penalize us for thus stepping out and doing so much in the past, UE seems to want to discourage us from stepping out to take the lead in such things in the future.

GENERAL ELECTRIC COMPANY

VICE PRESIDENT—EMPLOYEE RELATIONS

Tricks In Transformer

—FROM DIVISION 91—

By Bob Bunyan

Our congratulations to Mr. and Mrs. Robert Miller who became the proud parents of a bouncing boy last Thursday. You may remember that Mrs. Miller was a victim of polio just two years ago. By the way, Bob is looking better already. . . . Danville must be going along smoothly again. I noticed that Roe Ormiston is back to work. . . . Mrs. Harrold Franz brought in the bacon the other evening when she answered the telephone by saying, "Macaroni and cheese." This reply made her a dinner winner. . . . Eddie Dauscher and Don Huffman finally convinced Carl Stout their tool wagon would operate easier with round wheels than it would with the square ones now in use. They may even put rubber tires on it. . . . Satan McKee has threatened to shoot all of Ted Mullen's rabbits. Ted's farm is alive with game this year, it's reported. But, of course, everything has a catch to it. It's permission in this case. . . . It's almost impossible to get new gloves anymore since Mary turned her interest over to Paul. Anyway, it helps the band-aid business. . . . Santa Claus must have gotten around to Ad Ragan's house early this year. Have you noticed that shirt? . . . Why is it Fred Banks insists he wants to buy a farm? Maybe you've got something there, Fred. . . . Gerald Crum had great hopes of using bis new car one day a week. This week he planned a trip to South Bend, but found disappointment in store for him and John Laymon. . . . We understand Sam Macy received an IOU to balance his suggestion budget. . . . I think that pin-up girl Paul Noffze has is a bit young. Maybe Paul is just going to wait till she grows up. . . . You fellows should keep an eye on Joe Ort. He seems to be having collision trouble. Perhaps Freeman Rolfhing can suggest a good eye specialist. It seems he had the same trouble. . . . Place your orders now for deer meat. Bill Conrad is taking off for that north woods next week. He might fish a little too. . . . John Laymon received a new Elgin watch for his birthday from his son in Texas. I supposc we will have another voice about the correct time now. . . . River fishing hasn't been very good lately, so Fred Thieme is going back to eating refrigerator ham. . . . Fred Wellinsick has finished his new garage. What are you going to put in it now—those 19 hens? . . . It seems to me that six a.m. is just a little bit early for Mary Kieler to have an appointment. You know she didn't get in until ten. I didn't see anyone else come in at that hour. . . . Don Edgar gave me the straight story on the fishing trip with Red Marshall and Nick Penick. Nick wanted to use his new five-horse power Neptune motor while Don wanted to use his old Johnson. Neither one would go without being able to use his own motor, so Don stayed home. Nick and Red left the cottage at 6 o'clock and went about seven miles down the lake. After fishing until noon, without even a bite, they tried to start their motor, and lo and behold, the thing wouldn't start. Nick said they started rowing back against the wind and hit the landing about 6 o'clock that evening. Nick said Red and he were just about frozen. Edgar said that next time they will take an old Johnson and somebody with a mechanical ability as well as fishing ability. . . . Jim Stauffer turned his suggestion which concerned the new lights for his desk drawers over to the planning section to be acted on.

Tool and Sample Shop News

We wish to welcome Water-cooled-clutch-gas Charlie back in the tool room again after a few months working in another division. . . . We were sorry to hear that Kenny Cassleman is home ill, and we wish to see him back to work soon. . . . It seems like the price of meat must have gone up or something, as Harry Rollins had a nice big wiggly alligator sandwich in his lunch bucket. You should have seen his face to appreciate the joke. . . . Jean Fry got quite a surprise when she started back to work at noon the other day and gave out with quite a hearty laugh. In case anybody would like to hear about it, Jean will be more than glad to explain. . . . During the fire drill the other day we had to rescue the safety woman. . . . It seems like someone was kind enough to offer Louie Miller a pair of false teeth but come to find out they were made for someone else, so Louie will just have to buy his own when he needs them. . . . Anybody wishing to order any Christmas cards or wrappings, be sure to see the Elex contact girl.

Serves Company 30 Years

Irene Meyers, Supervisor of Women's Activities and Elex Club Adviser, is shown at her desk reading a congratulatory letter from C. H. Matson, Works Manager. Irene completed her 30th year with General Electric Monday, Oct. 31.

Congratulations to the Mulvanes! They celebrated their 25th wedding anniversary last week. That was a beautiful orchid, Mae, and orchids to both of you and Lawrence on your silver anniversary. . . . Andrea Kral, nurse at the DeKalb plant, has been spending this week in Dispensary, Bldg. 21. . . . Olive Walters spent last week-end visiting friends in Cincinnati. . . . A letter was received several days ago from Veda Orff who is recuperating in Bronson, Mich. We are glad that she is gaining strength and also much-needed weight. . . . Now that the Elex members have toured the Coca-Cola plant, it is easier to understand how this popular drink is prepared for distribution. It was a pleasure to see such an immaculate establishment. . . . **Helpful Hint.** Do you enjoy the golden beauty of marigolds but turn up your "dainty" nose to their so-called perfume? By simply adding a spoonful of sugar to a vase full of water there will be no unpleasant odor. This is true, because Mabel Wilson says so! . . . October will long be remembered as one of the most beautiful and colorful of any Autumn season. James Whitcomb Riley was able to describe the rare beauty of Indiana autumns in his poems. This famous Hoosier was born Oct. 7, 1849, and many celebrations were held honoring his memory. At his birthplace in Greenfield a huge tower, 77 feet high, was erected on the courthouse lawn and covered with flowers sent by school children all over the state. All around the courthouse lawn were characters such as "Little Orphan Annie", and others depicted in large frames. There was also a replica of a log cabin reminding one of "Out to Old Aunt Mary's". Riley was a lover of children and his birthday was a fitting time to lay the cornerstone of a new research wing at the Riley Hospital for Crippled Children in Indianapolis.

But the air'a so appetizin';
and the landscape through the haze
Of a crisp and sunny morning
of the airly autumn days
Is a pictur' that no painter
has the colorin' to mock—
When the frost is on the pumpkin
and the fodder's in the shock.

—James Whitcomb Rlley.

Another perfect week-end. Only saddened by the arrival of the first frost during the week which ended the gardening for the year. The mums are beautiful in their brilliant colors, the pumpkins are yellow and did you ever see so many red apples in all of your life? Guess we needed all of those things to meet the "Trick or Treaters" with a smile. We like the cute little ones but when they get to be almost six feet tall we feel they are overdoing it. . . . Safety was brought home very forcefully to us on Sunday. We were driving near the airport not too long after the airplane crash. We were satisfied to just follow the leader and detour around the scene. (My curiosity just does not enjoy gruesome sights). These young men were fortunate in being able to walk away from the scene—that doesn't happen often. It is surprising what affect just the word accident has on most people, at least it seemed that everyone was driving a bit slower and more carefully. . . . Vacation—Mr. and Mrs. Wylie are enjoying a vacation trip this week. Our birthday greetings to Mr. Wylie whose birthday falls on Oct. 31. . . . Last week Hazel O'Brien was back in Bldg. 18-B handing out candy, etc., with a smile. . . . The Arnold Hensick's attended the Illinois game Saturday. . . . F. L. Richards is back in Bldg. 16-3 after spending the past several weeks at West Lynn. . . . Things have been happening to Elizabeth Carnell, Bldg. 18-1, she drove her new (?) car to Cincinnati last week-end—after moving into a seven room house on Smith Street. . . . Emily Guth was absent due to illness several days last week. . . . Nila Hansen, Bldg. 18-1, was in Bloomington for the game Saturday. Of course, her husband was with her. . . . Irene Draper of Bldg. 18-3, we thought must be well started on her Christmas shopping. It was noted that she was buying red balls and other rubber toys, but imagine our surprise when she announced that she was buying them for her new Persian kitten. . . . Joseph Grosjean was in last week visiting friends at G-E. He told us that Mrs. Grosjean was enjoying a trip to Hot Springs, Ark. . . . Week-end Party—The Annual Cottage Closing of the Herb Kammeyer cottage at Crooked Lake was in full swing last week-end. Much to the disappointment of those present, no one fell into the lake in spite of all the many attempts. I have interviewed practically all of the following men who attended, E. W. Waldschmidt, R. C. Meyers, Bill Spahr, Al Berg, Ray Soughn, Phil Singleton and Dick Cullen, and they are all very mum on the activities of the week-end, (surely there were some interesting pictures taken) with the exception of saying "Did we have fun!" . . . Next Wednesday the G-E Foremen's Association will hold its annual ladies night meeting. Great plans are being made for the event and we are sure that it will be a gala event. . . . W. N. Wehrs was in last week to see G-E friends. . . . Halloween Party—The Payroll girls enjoyed a party at the home of Nila Hansen on Monday evening. I am not sure that they joined the "Trick or Treaters" but I think they did. Did you girls have any luck? . . . Last week the A. S. Johnsons and R. M. Hartigans enjoyed a vacation in Kentucky. The only things that almost marred the trip—the famous Kentucky team almost met their Waterloo! . . . Did you hear the radio Sunday evening urging everyone to go back into the Church? In case you did not it was a national hookup—and there were a number of speakers including President Truman and Bing Crosby—they all advanced very good reasons why everyone should return to the Church. There was food for thought in their statements. If you have not tried it lately, why not? That is my thought for the week.

Archbold Dies

Maurice H. Archbold, 46, of 1005 Illsley Dr., died at 1:45 p.m. Tuesday at the Lutheran Hospital. He had been ill three weeks.

Mr. Archbold worked as a winder in Bldg. 19-2 since 1925. He was a member of the Bethany Presbyterian Church, Summit City Lodge 170, and the Scottish Rite.

Funeral services will be held at 1:30 p.m. today at the Klaehn Funeral Home. The Rev. William J. Ratz will officiate and burial will be in Lindenwood cemetery.

Horstmeyer Enters Retirement

Herman C. Horstmeyer, Bldg. 19-3, left the Company last week for retirement after 22 years' service with General Electric. Mr. Horstmeyer first came to G-E as a sheetmetal worker in Bldg. 20-1. He then worked at Winter St. and in Bldgs. 12-1, 4-1 and 17-2 before going to the Motor and Generator divislon as a sheetmetal worker. He is shown in the center of the above picture with his G-E friends, who wished him luck on his retirement.

With just fifty days till Christmas we can't keep the winter weather away much longer, but gee, wasn't it cold? . . . The S.P.C.T.L. will be out for Dick Seidel for sure. The S.P.C.T.L. is The Society for the Prevention of Cruelty to Lincolns. Dick was seen hauling baled straw in his new Lincoln and this is a definite breach of the club's rules. Not only that but it is a distinct defamation of character, and now his degraded Lincoln won't be able to hold its bead up. Besides who knows what next he will force his chariot to haul? Alas and alack, poor Lincoln. . . . We hear Cy Seymour missed half the fun at Doc's party because he didn't wear his falsies. Next time we'll let you know when we are going to have peanuts in the sbell. . . . We would like to extend our extra special welcome to Bob Spittler who has taken Doc Hanson's place. We hope you will enjoy your stay with us and that we will have many pleasant hours of association with you. . . . Norb Lose is originating a new group known as "Caffein Anonymous." It seems as though Norb has suddenly lost his taste for coffee and will not drink anymore of the aromatic brew. Could it be due to the rising cost of coffee or is there other reasons? . . . The Annual Hunter's Jubilee sponsored by the Southwest Conservation Club will be held on the club grounds located at 5703 Bluffton Road, Nov. 5-6. Several exhibitors will be present with the latest in sports equipment. On Saturday night an Elk barbecue will be held, free of charge. No admission will be charged to see the exhibits. Attendance prizes will be given every 15 minutes Sunday, so be there. Many members of this club are co-workers in Bldg. 17-4 and welcome you out to the grounds for a good time. . . . Don Gerardot's curiosity got the better of him. On the advice of one of his fellow workers he bent down over a small piece of metal to see it change colors. All of a sudden it popped up and hit Don. Nothing seemed to have changed color, except maybe his eye. . . . Buck Lydy is hard at work—selling firemen's tickets. Since when does a fellow need a ticket to go to a fire? . . . Frank Magers and Al Middaugh seem to enjoy patronizing the Sunoco filling station on Washington Blvd. else why would they go way up there on their way home? Or would it be Ned Neuman leaves his car there and forgets to mention it to the boys? . . . Ray Greek is on his third week of vacation. We are all wondering if Ray took a trip, or if he is spending his time loafing around the watchman's shanty. . . . The stag party held for Doc Hanson was quite an affair last Thursday night. Nearly two hundred of Doc's friends were on hand to say farewell. He was presented with some very nice gifts and he gave a short talk on his time here in Fort Wayne. Though everyone attempted to have a good time, yet there was an undertone of sadness. All of us who have been associated with Doc regret seeing him leave, although at the same time we realize his new appointment is a real opportunity for him. His ready smile which we have come to know so well will be greatly missed.

Completes 30 Years

Elmer E. Schoenlein, Bldg. 19-3, chalked up his 30th year of service with General Electric Wednesday, Oct. 16. On his anniversary, a number of his Motor-Generator friends gathered to congratulate him. In the picture are: (l. to r.) Charles McCormick, Fred Buchholz, Elmer Warner, and Mr. Schoenlein.

Idea To Change Die Gauges Earns $110

John Laymon, Sr., Bldg. 26-1, was awarded $110 for his suggestion to change die gauges. Several friends gathered to congratulate him on his award. In the picture are: (l. to r.) James Stauffer, Paul Noffze, George Horner, Mr. Laymon, Sam Macy, and Fred Banks.

The famed "Eight-Ball" went this past week to Tom Dent for the poor housekeeping in Bldg. 6-4. Tough luck, Tom. We have noticed that the previous holders of the Eight Ball are doing a "bang-up" job on their housekeeping and we doubt if Ed O'Neill or Fred Gerhard will ever be on the receiving end again. Keep up the good work, fellows . . . Chris Reiz is back from his third weeks' vacation which was spent in the vicinity of Baltimore. . . . We hope by the time you read this Byron Simmons is home from the hospital and well on the road to recovery after his recent operation. We all miss you, Simms, so please hurry back. Bldg. 8-1 isn't quite the same without you. . . . Our congratulations to Irene Meyers on her 30th anniversary with G-E. . . . Congratulations are also in order to Karl Soest who celebrated his 30th anniversary too with the Company Oct. 26. Doyal White and A. E. Leider were on hand with the grinding room gang to wish Karl the best for his future years at the G-E. The office gang says "Congratulations" too, Karl! . . . If anyone has any bus schedules lying around, please bring them to Florence Casey. It seems since she sold her auto, she just can't get to work on time. Maybe a good alarm clock would help, s'pose? . . . "Heiny" Guenther is back from his third weeks' vacation, too. These lucky people. . . . We leave you with this thought—"A man who lives only by himself is apt to be corrupted by the company he keeps."

Our most recent graduates are five draftsmen: Milton Goeglein on Oct. 21 and Harold Fremion, Carl Lommatzsch, Garland Roby and Joseph Rowan on Oct. 28. Lots of luck, fellows. . . . We are sorry that Fred Borton is ill and still in the hospital. Fred is feeling better and should be a different man after all those transfusions. In one day he had a pint of Gripe, a pint of Junk, mixed with a pint of Miller's High Life. Seriously, I think Fred's sudden illness and his grave need of blood—with none of his type in the Blood Bank should make all of us stop—think—realize how little it would be for each of us to give a pint of blood to the Red Cross and how much it will do toward saving a life, and the frantic worry we could save loved ones if they knew that the necessary life giving blood was there for their need. . . . It seems Werling needs a little instruction on smoking cigars. A few weeks ago he had his manly (?) chest exposed to the world when the cigar he had in his mouth got out of control and fell, burning a path through the brush on his chest—and on another occasion he put the lighted end of the stogie in his mouth. Some people just never learn. . . . It's beginning to look as if John Leffers will have to be a star athlete again next year so he can replace his missing letter sweater. . . . Schmidt and Frede learned what all must learn when on a wiener bake with Miller. If you don't keep the "schnitzel-wiennies" hid, Miller will eat all of them. . . . The fellows are beginning to wonder if Birkenbeul and Berkheiser ever take their sweaters off. . . . Avast there and clear the seas, all small craft lay up to the beach and all that sort of stuff, because Kirlin, Inc., is about to embark upon a few fast cruises around the lake. . . . Goeglein had a chance to play "Mom For a Day" when his wife was injured in a home accident. I guess the family thought mom does a pretty good job after M. L. wound up his domestic touch. . . . We were sorry to see Milt leave last week but we all wish you lots of luck in your new business. . . . Bob Zollinger just couldn't explain that large burned hole in the knee of his trousers. . . . Schmidt held a preview to his new house. It looks very nice inside—but oh, the shovel work to be done outside! . . . Paul Wuttke stopped in for a visit last week. He will be off for another five or six weeks but otherwise is feeling fine. . . . We were glad to see George Turner last Friday. He was home from college for a couple of days and took the occasion to drop in and say hello to his old buddies.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ad will not be accepted unless accompanied by the name, pay number, and division of the employee. No works building or telephone number may appear in ad, only the home telephone number or address.

No ad will be received over the telephone. Send all ads to WORKS NEWS office, Bldg. 8-2.

"Lost" and "Found" articles must be cleared through the Plant Protection office, Bldg. 16-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

CLOSING DATE FOR NEXT ISSUE
Monday Noon, Nov. 7, 1949

LOST AND FOUND

LOST—Six ft. aluminum zig-zag rule.

FOUND—One key in Bldg. 26.

FOUND—One gold earring with rhinestone sets.

FOR SALE

HIGH CHAIR—$5. A-75442.

1946 ALMA TRAILER—24 ft., with electric stove, axminster rug, rubber foam studio couch, trailer in good condition. Will sacrifice for quick sale. A-66471.

FOUR ROOM HOUSE—Large garage, immediate possession, $3,500, In Waynedale. H-74514.

GIRL'S WINTER COAT—Size 14; Camel hair sport coat, size 38, like new, $9.75; two pairs trousers, brown, size 38, $2 each; suit, size 36, $15; leather jacket, 42-44, $7. H-90715.

"LITTLE WONDER" TRACTOR PLOW—2-12". A-75182.

1936 FORD—715 St. Marys Ave.

1939 STUDEBAKER COMMANDER—Good condition, radio and gasoline heater. H-50633 after 4:30.

KENMORE DELUXE ELECTRIC VACUUM CLEANER—Whizzer motor and bicycle; console type phonograph, all reasonable. 530 Spring St. or A-55464.

CONN CORNET—Silver plated, good condition. H-0500, afternoons and evenings.

PEKINESE—Year and half old, reasonable. A-56634.

BOY'S GREY-BLUE TWEED SUIT—Size 12. H-81245.

SNOW SUIT—One piece, dark brown, size 5-6, almost new. H-55901.

FOR RENT

NICE ROOM—For one or two men, side entrance, always warm, $6 week, 1839 Broadway. A-66314.

MODERN THREE-ROOM GARAGE HOME—Waynedale, Ind. H-48461.

WANTED

KEROSENE HOT WATER HEATER—With or without drum. E-1345.

PIANO—Small, upright, full size keyboard. H-0500 afternoons and evenings.

BOY SCOUT WEARING APPAREL—Used, Size 14-16. A-70494 after Sunday.

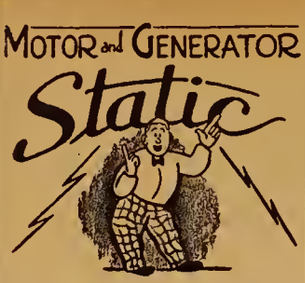
TRANSPORTATION

WANTS RIDERS—From Tri-Lakes on Highway 33. Works at Broadway from 8-5:15. Contact Robert Thomas extension 746 or Columbia City 3035M.

WANTED RIDERS—Or will trade rides from Blue Lake or Churubusco. Contact W. G. Skinner, Taylor St. from 8-4:30, on T.St. extension 460.

Thisa and Thata "SPECIALTY MOTOR"

By Helen Engle



Clarence Nahrwold, why don't you have Pondo show you a few tricks about bowling? His fee is very nominal, only $5 a lesson. Alva thinks he will have about $15 worth! . . . We wonder if Wendell Heckley is about to reach down in his sock and spend about $20 for bowling lessons? Pondo told him he would take care of him any night and on any alley. This Pondo must be a whiz-bang of a teacher on bowling, that is! . . . Congratulations to Tom Dickenson who became a great-grandfather last week. You can tell he is proud by the way he walked down the aisle. . . . Esther Walborn sure was embarrassed when she fell down the other day. No bones broken though! . . . Don Greenler was a sight for sore eyes last Saturday—he got first prize for the most outstanding costume and we do mean outstanding! He borrowed some of his wife's clothes, wore a rubber face mask with the mouth moving constantly and topped it off with a mop for a wig! . . . We welcome Evelyn Foulks, Gerna Ashcraft, Lucinda Pettit, Dan Brice, and George Worley to Div. 1. Here's hoping you all stay a long time! . . . Birthday greetings to Clarence Reuschler, Esther Fagan, Alma Merwin, Bertha Click and William Wickliffe. . . . Louie "Cheezy" Barrow is back from his vacation. In case you want to know why we call him Cheezy the answer is very simple—he likes that type of cheese that is so strong that it almost walks by itself. In fact he likes it so well he even puts it on his light bulb so he can smell it all the time! . . . Clarice Woodruff and Marie Griffith are staging a contest to see who can lose the most weight by Christmas. For a inbetween snack Clarice ate a pound of corn twisties, and drank four cokes. From the sounds of that I'll put my money on Marie! . . . Louis Scherer from 1x65 on four had a piece of steel stick one of his fingers the other day. He wrapped his finger up and after about two hours he began to wonder if he really had hurt his finger. So he unwrapped the finger and discovered that he had wrapped up the wrong finger! . . . If anyone would like the recipe for a good applesauce cake ask Mildred Green who really makes a good one. . . . Helen White spent the week-end sleeping and just doing nothing. How we envy you, Helen! . . . Eleanor Whitehouse and Kathryn Hepker worked harder than ever last week-end. They seemed to have a lot of zip on Monday though! . . . Rege Eggeman had a nice birthday dinner for her son Dal Zuber last week. . . . Henrietta Deck, who claims she does so many exciting things, won't tell what they are. Gosh, come on, Henrietta, we might enjoy the same things. . . . Bernice Johnston, Marie Martz and Hope Hatfield are bemoaning the frost! They all have such beautiful flowers and now they are ruined. . . . We were sorry to miss a piece of that wonderful pineapple up-side-down cake made by Lorinda Beyerlein. However, she may make another, one of these days! Marie, remember your diet!

Guard Has 43 Year Record Of Being At Work On Time

Phil Weick, Taylor St. guard, has a record that is hard to beat. His clock card has tallied "on time" every day since he began working here 43 years ago. In fact, he is usually a half-hour early. One of the main factors for his excellent record is that Phil does not rely on any vehicular mode of transportation. He usually walks to work, even though at one time it was as far away as Bloomingdale. He worked first in the Meter division. Then when the Supercharger plant was erected at Taylor St., he became a guard. On his off-duty hours, he likes to hunt and fish.

Motor and Generator Static

Thought for the week: "If money is all you ever aspire to earn, you'll never really be rich."—Frank Fellinger.

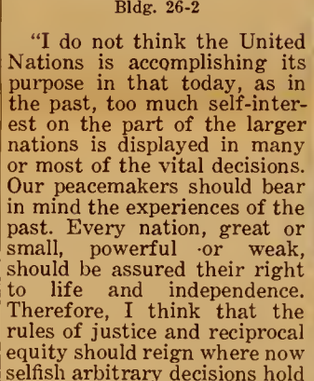
ODDS AND ENDS: "You know how they tie a chain to big oil trucks so that the static can escape and ground onto the road, instead of building up and blowing up the truck? That's what be-bop is—static. People holler be-bop to keep the static from blowing off the tops of their heads." Robert Ruark. . . . WATCH YOUR STEP, LADIES: Damage to nylon stockings can occur when women walk close to an automobile exhaust. The discharge from the exhaust which contains moisture and acids may cause the threads of nylon hose to break and numerous runs result. . . . OUR GUESS: The mystery melody is, "Indian Rain Dance." . . . A POUND OF FLESH: University of Alabama's physical education laboratory says you would have to dance 20½ hours to lose a pound of weight. If you'd rather walk, you'd have to amble 66½ miles at a rate of four miles per hour to shed the pound.—Or, if neither of these methods appeal to you, strenuous work or exercise will get the pound off quicker. Just saw wood 10½ hours or play almost five hours of football and the job's done. And we'll guarantee, you'll be done too. . . . CONGRATULATIONS to Bud Fisher who again became a grandfather Oct. 31 when his daughter, Mrs. Jean Swigart, gave birth to a baby girl. Before her marriage Mrs. Swigart was employed in Bldg. 31-1. She resigned later to enter nurse's training at St. Joseph's Hospital in Mishawaka. . . . WE BET: Ed Foley has had a hankering to be a detective ever since that day when Jesse James held up a stage coach in which he (Ed) was a passenger. So when Alex Makreas offered to review a local break-in and accompanying gun play, our hero was delighted no end. Assuming the proper detective look as dictated by most dime novels, Ed followed as Alex pointed out the place of break-in, the culprit's hideout, where his shot entered the hideout and the window through which the robber escaped. Several customers noting the grim look of concentration on Ed's face, watched with awe, figuring Mr. Foley was a super-detective hired to solve the crime. "I got a kick out of that," remarked Mr. Foley. And we bet he did. . . . DISCOURAGING: Roscoe Markley, farmer, pork salesman, civic light of Roanoke and basketball coach, demonstrated that he could toss a wicked ball as well as coach a team. Recently Roscoe and some of his pals were in the gym when one of the men suggested that they hold a basket shooting contest for a pot to which each would contribute 10 cents. The contest started and Roscoe sank three out of five to win the prize. About that time Roscoe's son arrived and challenged his father to the test of skill on the same terms. The son sank four out of five and was ready to pick up the prize when Roscoe still hot made five straight baskets and collected. It's awfully discouraging to a young fellow trying to get ahead. SAFETY RAISER: When you practice safety you have the edge.

Inquiring Reporter:

DO YOU THINK THE UNITED NATIONS IS ACCOMPLISHING ITS PURPOSE?

DOROTHY SHIVELY

Taylor St.



"I think the ideals and purposes of the UN are wonderful, but feel that they are not accomplishing their purpose because they lack an army or any sort of police power to enforce decisions."

LLOYD COVAULT

Bldg. 4-5

"I don't think that the United Nations has been entirely successful up to this time, but they have shown progress. If given time, I think they will accomplish their purpose."

HELEN DELOFF

Bldg. 26-2

"I do not think the United Nations is accomplishing its purpose in that today, as in the past, too much self-interest on the part of the larger nations is displayed in many or most of the vital decisions. Our peacemakers should bear in mind the experiences of the past. Every nation, great or small, powerful or weak, should be assured their right to life and independence. Therefore, I think that the rules of justice and reciprocal equity should reign where now selfish arbitrary decisions hold the spotlight of activities at the UN."

MAXINE SHARROW

Bldg. 18-3

"In my estimation the UN is trying hard to accomplish its purpose, but it will fail unless all nations are able to come to agreement on control of atomic weapons."

L. E. RINEHART

Bldg. 19-3

"No, if it was accomplishing its purpose, there wouldn't be any Russian war in China nor American war in Greece."

DIVISION EDITOR: Everyone wants to know how can we get him or her in the WORKS NEWS? Well, folks' that's very easy. We hand it out and we can take it, so just tell us what you have heard and providing it's fit for print, the printers will get it. But have you ever stopped to think what chances we editors are taking? For example; we had an article last week about Virgil Howell the referee at the wrestling match being thrown out of the ring. That when he came over the ropes we said it looked like "Oscar" the turtle. That is for size at least. Did you know that Virgil is an ex-boxer? And can you imagine what would happen to little us if Virgil would have taken offense to this? I yi. yi, we shiver all over just thinking about it. . . . MICE: We have heard many excuses for being late, but the one you gave us Virgil Dennis about having to set mouse traps is a new one. . . . BROWN EYES: Bill Rohe tells us he fairly melts when he looks into Vaughn Sheets' great big brown and innocent looking eyes. May we suggest, Bill, that you have Vaughn bow his head slightly forward. In this way you can also see the look on your face at the same time. That's providing his cocoanut has been shined for the day. . . . TODAY'S CHILDREN: Arriving home from work (We call it, you no doubt have another name for it) we found the good wife out. Boy, here was a chance to sit in an easy chair and read the paper in peace and quiet. When we were just comfortably situated we beard bang, bang, bang at the door. Getting up very reluctantly we slowly walked over to the door and opened it. Here we found two little girls about seven or eight years old. The one said, "Mister want to buy a potholder." We then started to give out the old stall. You know wife not in and we didn't know whether she needed one or not. Didn't even know what potholders were. (Course, we did all the time, potholders are handles on pots.) Thinking we just about put the old alibi over. The little girl said "Mister, they only cost a dime." Here we go again. We said haven't even got a dime reaching in our pocket we pulled out a nickel and a penny and said, "See here, little girl, this is all the money I have to my name." She then looked up very pitifully and said "Well good night then, Mister, I sure feel sorry for you with only six cents to your name, I'll pray for you when I go to bed tonight." These children will get along all right, don't you think? No doubt, they are retired by now. For we are selling potholders. Want to buy any? . . . FOUR FLATS: Ralph Olinger, you must have awful poor tires when all four go flat at one time? Hope you had a nice Halloween anyway, Ralph. . . . 25 AND 32: Congratulations to Frank Woodward, who completed 25 years service and to Guy Oberlin, who just completed 32 years. It's been a pleasure to work with you fellows. Hope to see you around many more years. . . . CHEW, NO TEETH: When Paul Buell of the Taylor Street Receiving Section is chewing you know that he is either having his choppers repaired again or either they're in hock. Paul just can't hold that old pipe between his lips with no teeth. . . . VISIT: Lloyd Cowell is still at the Irene Byron Sanitorium. Lloyd would appreciate a visit from you guys and gals. Stop in sometime when you are out that way. He'll appreciate it. . . . HORSE THIEF: City police have discovered evidence at Al Hambrock's home that he is harboring a horse within the city limits. Don't you know, Al, there is an ordinance against that.

Rounds Out 30 Years Of Service

Karl J. Soest, Bldg. 8-1, completed 30 years' service with the Company Thursday, Oct. 27. Several of his friends gathered to congratulate him on his long service with General Electric. In the picture are: (l. to r.) Alvin McCullough, Charles Florent, Fred Divelbiss, William Schenher, Lloyd Platt, Mr. Soest, Melvin Rose, Doyal White, James Laisure, Robert VanHorn, and Marion Sienkiewicz.

All the girls of Elex who took the tour of the Coca-Cola plant had a super time. I don't know how Mr. Anderson expected us to watch our diet with all the delicious food he had for us. . . . Hap Hazard has been hanging around over weekends. Ted Gall had the misfortune of falling and receiving a back injury. Floetta Zartman received a multiple fracture of the index finger when she caught it in a power mower. Tch, tch, Floetta, and a safety committeewoman at that. Rosella Farrell's husband was injured in a truck accident. Glad to hear that he is improving. . . . On our sick list is Elsie Klemm and Elizabeth Wert. . . . Emma Bennett Snyder has returned to work. We're glad to see you back. . . . Kids will be kids. Virgie Mayer, Mary Shumm, Ann Robinson and Mildred Huntinc were out going the round for "tricks or treat." But we can't understand why Delores Wonderly would be afraid of false faces. . . . Santa is going to have to bring Charlie Rice an alarm clock. He took a nap and missed the wiener bake. . . . Ann Kensill is getting her order in early for Christmas. She wants roller skates. She can't get from one place to another fast enough. . . . Cecil Leslie wore a rose-colored dress to work and informed a listening ear that she had a green one at home the same color. . . . Joe Motter seems to be watching the conveyor for umbrellas. It should be stators. . . . Mary Zirkle is the new Elex contact girl replacing Alice Loftus who has left our floor. . . . Bill Martin must be afraid of pinochle games. When Joe Jensen went over to Bill's house, Bill brought out a marble game. I thought playing marbles was a sure sign of spring. . . . Mabel King is happy over a new grandson. . . . Congratulations to Evelyn Kreuger and her husband on their 24th wedding anniversary. . . . Marcille Thomas and Joan Kemery think an apple a day keeps the doctor away, so they eat three. . . . We are waiting for Lucy Alexander's new home to be finished, so that we can have a housewarming. . . . Karl Brown, a former co-worker, was up to visit us last week. . . . It's "how dee doo dee" to all the newcomers on the early bird shift. . . . Not everyone is fortunate enough to have a little white dog meet them at the gate. But "Josie" was there to see Luella Mason home. . . . Our sincerest sympathy to Gertrude Martin in the death of her husband. Also Rose Fuhrman in the death of her sister-in-law.

Some people call it hard times because they can't borrow the price of a new auto.

Corn S'talks

TAYLOR ST. SHIPPING

By Gloria Geesaman

Greetings everybody. My how the time does fly. Here it is November already. From now on we can expect to get up early every morning and freeze. Pleasant thought huh? . . . With Halloween just over you would think that all the goblins and ghosts would leave. But we have an all-year round gremlin. The oddest things happen. Papers stapled together, things upset, and the most unusual stuff put in purses. Doc Potter, you gremlin you. . . . This last week-end was one for the homecoming games in football. Edith Robertson and family spent the week-end in Bloomington for Indiana's homecoming game. Edith said that she only goes along for the ride so guess that Indiana losing makes no difference to her. But since I'm a Hoosier just have to say that It's too bad. . . . Gloria Beverforden went to Culver Military Academy for their homecoming and dance. Most probably she was the belle of the ball. . . . Al Kruse spent his third week of vacation just playing around having a wonderful time. Now he can look forward to next year's vacation. Only 51 weeks away. . . . Oh by the way. I forgot to tell you the results of our mystery last week (about Romeo's secret admirer). It's like this. I know who it is but since Romeo Fred Wheeler doesn't know, I can't tell. So the case is solved as far as we are concerned and we'll put it in the files for future use. . . . Week-ends are nice, but these Monday mornings for the most of us are terrible. But take Jo Franklin, being different from the rest of us, doesn't go to bed nights during the week. Don't know how she does it. . . . Nancy Woodhull spent some time in Cincinnati at a church convention. Said she had a real nice time, but just didn't get to do everything she would have liked to do. . . . Jerry Schlund is a racing fan. Saw him at the Speedway Sunday. Jack Angel was there also, and me too. There was not enough excitement hardly any wrecks at all. . . . Alice Uffleman had a Halloween party over the week-end. The apes won first prize. I mean the ones that were dressed like apes. . . . In my first column I told about Morris Petgen wearing alluring Old Spice. Since then, he doesn't say anything and we don't get to smell his wonderful shaving lotion. Come on, Petgen. We like it or we wouldn't say anything about it. . . . Wish people would do something so we would have some news.

"The endeavor to understand is the first and only basis of virtue."

"Slim" Miller is certainly in need of a helicopter. His alley is being paved and they have excavated so deep that Slim's garage is about two feet above the alley, and his car is marooned in the garage. . . . Louie Botteron really makes a "haul" around this time of the year. It seems Louie and his son go "trick or treating" every Halloween. His boy goes to the different homes and gets his "loot" and dashes madly back to his father who is standing with a shopping bag on the corner. . . . Dale Irwin was standing hands folded and so solemn, back in the packing section the gang thought he was praying for a good days shipment of motors. . . . Where did Les Richter get his bright yellow cap? . . . Lottie McFarland received a brand new package of rulers. Wonder why? . . . Johnny Wilson fell asleep in the barber chair and lost his curls. That doesn't seem to bother him so much as you can really detect the gray hair. . . . "Chief Rain in the Face" Bill Kurtis wouldn't have been drenched at the drinking fountain if he would have had his mouth open as usual. . . . Why was Fritz Vogt so willing to talk about bowling a week ago Friday morning? He came to work so cheerful and greeted everyone with, "Good morning and how was your score last night?" That is one way of letting everyone know about your own score. . . . Happy birthdays for November go to Helen Keim, Dessie Jackson, Betty Noe, James Robinson, Paul Beauchamp and Pearl Chenoweth. . . . Milo Heller needs leather patches for the knees of his trousers. He is wearing them out looking for gold he lost on the floor. Gosh, Milo, there is another gold rush in Alaska, wouldn't that be much easier? . . . Bill LaVine insists upon smoking his cigars so short that he is still burning the end of his nose. . . . The fellows back in the east end are wondering just when Bob Kissinger will "get that light bulb tightened up." . . . We hear Walt Niemeyer has eaten his last two meals at noon in peace. Could it be he and Bob have signed a truce? . . . All Bob Hartman needs is a good night of "shut eye."

Open Bowling at G-E Club Saturdays, 3 to 11 p.m.

Teams two and four of the Apparatus League are tied for first place in the league standings with 13 wins and 8 losses. Frank Karthol of Team No. 6 pulled a one-out-of-a-hundred series with a 127, 127, and 127 triplicate.

Ed Beinz led the 600 series list with a 618 on games of 203, 224 and 191. Ralph Williams got 198, 223, and 196 for a 617.

Two hundred games were kegled by R. Smith, 203; R. Resler, 208; P. Billue, 202; H. Garrett, 210; H. Sexton, 202; A. Anderson, 200; W. Stute, 202; R. Lawrence, 217, and V. Rump, 207.

Friday Night Girls' League

Bess Potts continued her assault on the pins, firing games of 202, 162 and 173 for another 500 series this season. Bess still leads the women with a 580 and 220 counts. Ethel Koontz came through with the league's other 500 count, a 504 on games of 201, 154 and 149.

Other high games for the evening were Marge Huber, 191; Lois Drewett, 182; Tommy Williams, 174; Betty Puff, 173; and the two Virginias, Bowman and Mollett, 173.

Apprentice League

The Compass team continues to lead the league, being out in front by three games. Joe Rowan had the only 200 score of the evening, a robust 200 even.

We understand Bob Birkenbeul was in the groove and that he went home with his blood pressure soaring. Reason No. 1, a 98 count; Reason No. 2, a 357 total. Too bad, Bob.

Masonic League

The league has developed into another tight race with Composite and Fellowcraft tied for first and just one game back come the Patrols and Dorics.

Two hundred scores were kegled by Dale, 223; Somerville, 221; B. Somers, 214; Howard Hickman, 205; Denton Manecke, 204; H. Smith, 203; Ruhl, 203; Frank Quinn, 202; Don Shultz, 201, and Chevelier, 200.

Interdivision League

Wonder what happened to those Schuler boys last Wednesday night? Those same boys who have been hollering, "Beat the Screwballs." After the evening's bowling they were as quiet as mice. It couldn't have been that Brouwers' Screwballs clipped them for two games, could it?

Erv France came up with the leagues only 600. "Ole Slow Ball" had games of 214, 205 and 194 for a 613 total.

Two hundred scores were rolled by Walt Seidel, 208; Noah Kuntz, 212; Adam Farrell, 208; Oscar Schelper, 212; Carl Stout, 211; Bill Nickerson, 211; Vic Rump, 225 and 200; Frank Matthews, 220; Frank Gitter, 210; Paul Walker, 200; Leo Allmandinger, 203; Arnie Horstmeyer, 207 and 202; Kenny Bainbridge, 219; M. Tobias, 232; Clarence Rump, 209, and Rudy Zelt, 200.

The Messenger Boys won their first game of the season this week. They clipped the Hot Rod Series and Specialty team to chalk up their first mark in the won column.

Monday Night Ladies' League

Vivian Fleckenstein rolled the high series of the evening with a 526 on games of 183, 179 and 164.

Other high games were kegled by Bertha McCague, 172; Marie Gehle, 168; Jackie Boxberger, 167, and Malinde Gehle, 163.

Decatur Bowling

MONDAY NIGHT LEAGUE: An oddity of bowling occured in the league whereby three bowlers rolled identical high scores, as follows: G. Schultz, G. Koos, and H. Shoaf all 201.

Flanges is leading the league with 12 wins and 6 losses.

G-E FRATERNAL LEAGUE: Two hundred scores appeared to be a monotonous routine as the keglers in this league rolled a total of fifteen 200 or better scores.

High Series: Zelt, 624, and H. Murphy, 619.

Two Hundred Scores: Zelt, 234 and 211; H. Murphy, 223 and 224; A. Miller, 233 and 201; Stump, 232; L. Hoffman, 226; Laurent, 220; O. Schultz, 209; Schneider, 208; Leonard, 204; G. Schultz, 202; Bultemeier, 214, and Alton, 202.

Teeple Truck Line is still out in front with 15 wins and 6 losses. Preble AC's and Moose No. 7 are tied for second place with a record of 11 and 10.

WOMEN'S LEAGUE: Schafer and Plasterer got the high series with 481 and 479, respectively.

Schafer got the high game of the evening with a 175. R. Wellman was only one point behind with a 174.

Bowling and Stuff

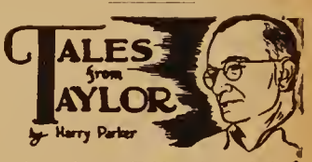
The boys in Bldg. 19-2 are having a match game this Saturday afternoon. The Mush Heads will roll against the Hard Heads. What they're shooting for is unknown, but tickets are on sale and may be procured from Bob Buck, Thurm Leichty, and Ty Cook. The price of admission is $3 per ticket.

There's no waiting for alleys at the club on Saturdays from 3 to 7 p.m. There are also plenty of pin boys available.

Have you been reading the latest issue of the bowlers' year book? We think Bill Doehrman and his helpers deserve a big round of applause for a job well done. I wonder if we realize just how much work is required to put out a book like that.

From the 1931 year book we see that Bill Doehrman and A. Knoll won the city doubles championship with a 1305 count. George Luedeman finished in third place in the singles with a 681 total. George Jackson was leading the Interdivision league with a 205 average for 205 games.

BOWL SATURDAYS AT THE CLUB ALLEYS!



No one could really blame Irma Miller for not wanting to cut her birthday cake, a gift from Helen Spear and Margie Rall. It was really a beauty and suitably decorated with witches, black cats, pumpkins, etc., befitting the spirit of Halloween on which her birthday falls. Our best wishes to her for many more. . . . Belated greetings also to Vilas Bender and Ed Johnson who celebrated their birthdays recently. . . . Charlie Reed was puzzled by a new type calendar in which the months are in reverse order. From his reactions he really didn't think much of it. . . . Business man Paul Monroe had both hay and a calf for sale. Martin Brown (Brownie) bought the calf, found out it needed hay for feeding, so now he's buying the hay from Paul. . . . Lola Whitacre is grandma to a brand new baby girl. . . . Monday was a rugged day for Roy Bracht after returning from his week of vacation. It was a trick or treat, only the trick was played on him before he had a chance to treat. . . . It's to be hoped the little dears in Virginia Gebhart's neighborhood appreciated the treats she prepared for them on Halloween. After an unusually heavy raid depleted her supplies, she found it necessary to make a hurried trip to a nearby store to replenish them. Hurrying into the store she slipped and twisted her ankle, then on returning to the car she slipped, fell, and rolled under the car. The trip home was uneventful, the kids did get their treat, but Ginny is still limping a bit. . . . Edna Mowery is getting about painfully these last few days. A couple of playful vertebra won't keep their place causing her much distress. Tain't funny, she says. . . . To his other accomplishments Ed Gebhart has now added square dancing. . . . Has anyone had the experience of hearing Bob Bennett give out like a Polly Parrot? Sounds really natural!

The Firemen defeated the Messengers, 24-0, Thursday, Oct. 27, and the Tool Division, 35-0, Tuesday, Nov. 1, to win the Touch Football League championship for the third year. They have been undefeated for three seasons. The Apprentice School placed second for the 1949 season.

In other play-off games, the Apprentice School downed the Test Engineers, 42-6, and Transformer, 21-0, in games played Thursday evening. Test Engineers beat Transformer, 6-0, Tuesday.

League Manager Dennis O'Connell and Byron Simmons Assistant Manager, thank all players and officials for making the season a successful one, and also for the sportsmanship displayed by the players.

A week ago Friday, Dale Spieth and a group of fellows left for the wilds of Northern Canada to do some plain and fancy hunting. In fact they planned going to within three and a half miles of the North Pole, where they hoped to capture several polar bears. Then on the way back, their plans called for knocking over a few deer. Before going, Dale let his beard grow so that his pan could stand the rigors of the far northern weather. If he is not shot for a bear, it will surprise us very much. . . . Sam Allmandinger is constructing a home at Barbee Lake. He is far enough along to have the electrical installations made so he contacted Lindsey Eastes on who to get to do the job. Lindsey told him to get Don Eichorn, which he did and Don did a good job. After it was all finished, Sam told Don that being a little short on money he would have to take his bill out in fish. Sam is going to have to do a lot of fishing to settle that bill. On his way up there last Saturday morning, Sam was carting along a stove which he had in a trailer. After stopping along the way for refreshments, he examined his cargo only to discover that he had lost about half of the stove. . . . The boys along the rotor line were in high glee last week when Ralph Ecenbarger was on vacation. Before going he forgot to lock up his long drills, so the boys had plenty of these drills to work with and did a marvelous job. They are worried now since Ralph is back on the job that there will be another shortage of drills. . . . Ray Quandt now has another pipe dream. Sometime ago he was busily engaged in constructing a small garden tractor. He had it all finished with the exception of the motor, but he was at a loss as to how powerful an engine to install in it. So he gave it all up. He is now working diligently upon a new idea in the make-up of a rug loom. This dream promises fulfilment, as it can be operated manually. We believe he has engaged the services of Frank Kimble on this latest venture. His lens-grinding efforts proved a dismal failure, so we are all hoping that he comes up with a winner this time.

G-E Basketball Team Opens Season Against Indiana Rod-Wire Nov. 10

The G-E Club team, in the YMCA Industrial Basketball League, will play Indiana Rod and Wire for their first game of the 1949-50 season at 6:45 p.m. Thursday, Nov. 10, at the Central High School gym. The league consists of 17 teams and games are played either Tuesday or Thursday nights. G-E team members are: (front row, l. to r.) Bob Baals, Leon Lahrman, Dick Gettys, Don Hower, and Dick Bucher; (back row, l. to r.) Bill Schible, manager and coach; Ed Trabel, John Lindholm, Lew Goehring, Bob Zimmerlee, and Frank Woenker, assistant manager. Jim Walley was absent when the picture was taken.

Elex Partizan Chapter To Hold Anniversary Banquet Nov. 15

The Partizan Chapter of Elex will celebrate its second anniversary Tuesday, Nov 15, with a banquet at the YWCA. The dinner will be served at 6 p.m.

Tickets for the affair are $1.45 and reservations must be in by Friday, Nov. 11.

Hilda Martin and Marie Fox are co-chairmen of the celebration. They will be assisted by Lillian Wolfe, Martha Zebendner, Louise Heine, and the officers: Margaret Tomson, president; Selma Rodemayer, vice-president; Myrtle Bennett, secretary, and Helen Thiele, treasurer.

Elex Second Shift Plans Paper Party

The second shift members of Elex will attend a paper party at the YWCA Wednesday, Nov. 16. Izora Roop will present the program. Luncheon will be served at 12 noon.

One of the outstanding features of the afternoon will be the Apple Sisters, Seedy and Cory, direct from the Applesauce night club.

Reservations can be made with contact girls and must be in by Friday, Nov. 11. Tickets are $1.

We'd like to congratulate Joe Steward on his coming out party last week. . . . Mart Macke has been chief cook and bottlewasher at his home for a while. Besides whipping up big dinners with all the trimmins', he even does the family washing and ironing. He's been quite a salesman on the side. Rumors are, the boys in the scrap shed are in the market for a monkey and a grind organ. That might help you sell some, Mart. . . . Evidently Tez Trump's pigs are all pretty healthy since the fellows are going to have barbecued ribs at the stag party Friday night, instead of the customary donation of a whole pig. . . . Ernie, is it true you're going to make an armored car out of one of the fire carts? . . . Why is Chuck (Schone) Campbell at the scene of any large accident? We understand he attended one recently at Taylor Street bridge. Was it a fizzle, Chuck? . . . Bill Wetzel never had any trouble with his back until he bought his new car. Does it really ride that hard? It couldn't have gotten that way from work. Or could it? . . . The boys reported to me that it's a fact that Paul Dull has won every argument he's ever started. Does that include at home too, Paul? . . . Now we know why they call Bob Hatfield "Custy." . . . Say, Carl "Cupid" Banks, where did you get that new name? . . . Henry Kiess won't come near the tonk game. How come, Henry? . . . Carl Furge paid us a visit one day last week. Glad to see you around, Carl. . . . Frank Kilcoin entered his dog in a contest last Sunday and waited from noon 'till 4:30 for it to be judged. Frank says it was worth it though 'cuz he won two ribbons. . . . All you have to do to be as tough as Ralph Latham is to push your nose all over your face.

This week it is with the greatest of pleasure to cover Division 15, Fractional H.P. specialty motors located in Bldgs. 4-5, 4-2, and 4-1. Any and all applications of D.C. motors are built in this division. It is a small wonder that the harmony of the division is so evident since it is in the capable hands of Foreman Al Kissinger who has been with the Company for 36 years and has been a foreman for 25 years of that time. Al is quite a fisherman but never brags about the big ones that got away—they don't do that to Al. He has a cottage on Adams lake where he spends his extra time. He is the owner of one of those infectious smiles that makes many friends. . . . We will give Bldg. 4-5 the once over first. Our informant is Madonna Endres who in a big way has made this missive possible. Besides being an ardent shutter fan, Madonna likes to go boating and fishing. . . . Jim Battrick could be called a World traveler since he has been overseas. One of bis stops was in England wbere the good old dollar sign means much more than the pound. . . . Gilbert Auth goes in for the racers, auto and motorcycle. . . . A fan of all sports is Don Carrier. . . . The bome builder is Neil Anderson who would welcome information on how to have a wiener bake on his own property without the strong arm of the law butting in. He also likes photography. . . . Bob Shoemaker has an interesting hobby of collecting guns. . . . Pete Macke, the leading operator, besides his big game hunting mania also goes in for fishing. They tell us that he is adept at repairing a bicycle too. . . . Bob Williams, wbo was born in Chicago and is an ardent Cub fan, says that he likes New Jersey too because it brings back memories of his army days. . . . A book worm and walking dictionary is Maurice Pohling, who really enjoys catching his fellow employees on cute brain teasers. He is handy with a hammer and saw too. . . . Fay Christie and Doloris Gladback are both bowling fans. . . . Art Kurtz likes to putter around with radio along with building furniture. He is also a member of the fire department. . . . Another carpenter is Ralph Rosenberg. He used to be a very good house-to-house man for a nationally known products company. His feet don't show if he ever had a door slammed on them. . . . Fred Phillips played first base on the softball team and is now out for the basketball club. He is a real Piston fan, but he likes races too. . . . Fishing and hunting take up about all of the spare time of Bud Beaman. . . . We wish Mary Berger a happy birthday. . . . Any spare time that he can find is with a fish pole in his hand, so sez Boyce Lambert. . . . Another part of Al Kissinger's brood is in Bldg. 4-2. . . . Paul Boyer is one of those fishermen who thinks that the early bird usually just gets the worm instead of tbe fish. Paul was manager of the owl softball team and has his hands full now with the basketball team. . . . Colie Stovall thinks that it is great sport chasing after the kids. He went down to his Kentucky home during his vacation. . . . Lake Gage is the pleasure spot for Ed Johnson, but he likes to fix things up around the house. . . . Alice Klingel makes a hobby out of her two and a half year old daughter. She sez that she is not much on sports but likes to sew. . . . Paul Habecker built himself a garage this last summer. He likes to tinker around with motors which probably accounts for his love of auto racing. . . . Harold Kramer likes to travel, (he would even take a slow boat to China). . . . Clarence Kronmiller tells us that his work shop is anywhere the job happens to be. He likes to fish. . . . Bernadine McCune is interested at the present time in raising chickens. . . . Dale Edington is interested in any sport in season. He tells us that he works around the house whenever his better half digs up things to do. . . . The last of the Kissinger gang is down in Bldg. 4-1. . . . Jack Boyce who built a new home in '48 can sit back and watch the world go by. . . . Dinty Moore's hobby is eating pumpkin pie. The real for sure home canned "farm" style. . . . If Elmer Diemer had a hobby, it would be driving a truck. . . . Joe Bacon and Paul Neal are a couple of bid euchre sharks. Joe's hobby is "shooting the moon" and Paul's is "moaning" over the hand just played. . . . For Kenny Evans it's an old saying, "Where is your hair at?" . . . Wilbur Scott has a hobby of five nice little girls at home or maybe we should make that six to include his better half too. . . . There you have the complete pedigree of the Owls of Division 15. A good gang, a good division and a great guy for a foreman. . . . Rambling Notes: The Industrial Owl Basketball is shaping up to be a winner under the capable guidance of Warren Wickliffe and Paul Boyer. The season begins Nov. 15 at the G-E Club. . . . We hear that Virginia Franzdorf, Bldg. 17-2, is quite an artist. She does clay modeling. . . . Bldg. 4-4 Repair and Return is next on the list. Let us hear from you if you have any comments.

Stringing Along

In order to prove that men aren't the only ones who know how to fish, take a look at the above photo of Mary Berger taken while she was vacationing at Lake of the Woods, Kenora, Ont., Canada. The fish are smallmouth bass and walleyed pike.

If a care is too small to be turned into a prayer, it is too small to be made into a burden.

To get to the top, the place to start is at the bottom. And also on the level.

Pick-Ups

Bldg. 26-3

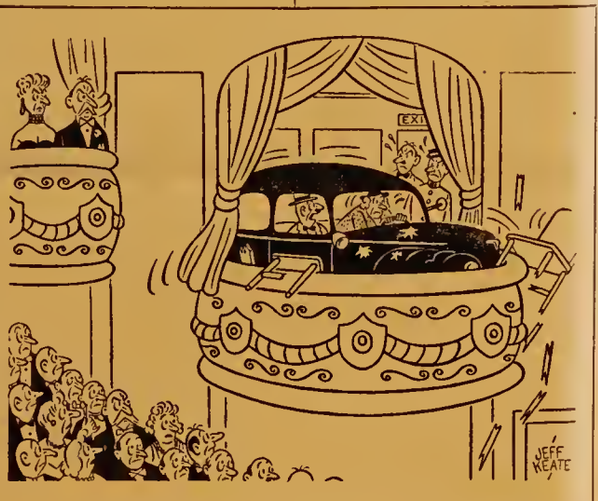
By Elvira Romary

Dear Co-Workers: As your new third floor reporter I hope to make our column one of the best in the WORKS NEWS. With your cooperation in reporting all news to me I think I can. Any and all suggestions will be welcome at any time. And now for some choice bits of gossip. . . . Has everyone noticed how intellectual Ray Schiebel looks in his "new look" glasses? He may also offer a good suggestion as to how he keeps the mice out of his desk. . . . Our sympathies to Dorothy Campton on the death of her father. . . . We were glad to hear that since Walter Mertz isn't bowling any more, Maxine will be glad to make all publicity for that family. . . . Welcome to Johnnie Erb who came to our floor from Bldg. 6-4. Hope you like us. . . . Annabelle Blair is going on a two weeks' vacation to Florida. Lucky girl. . . . Congratulations to Cliff Thompson who won a nice suggestion award this week. . . . Since Gary Pequignot cannot manage to have his picture taken, maybe he will settle for his name in this column. . . . QUESTIONS WE WOULD LIKE TO HAVE ANSWERS FOR: Is Joe Prairie dead or are his hands always that cold? Why does Margie Robinson blush everytime someone sings the Wedding March? Why can't Ellen Gerbers buy green shoes in Fort Wayne? Why go all the way to Chicago, especially if they don't fit? How many miles does Rosie Smead get on one stick of chewing gum? Any answers will be paid by one big black cigar. . . . Lonnie Rockstroh and Garnet Curie attended a book review last week. Later in the evening they were mistaken for school teachers. Have an apple, girls. . . . Wanda Grimm is an artist. Surprised? Of course, the only things she draws are mice. . . . Danny Reuille has a magnetic personality. He draws the lids right off pressure cookers. Look out, girls. . . . Since Dick Kimball bought that new ranch-style home we were wondering if he would wear spurs and a ten-gallon hat. . . . Little Leonard Pequignot is planning a trip to Canada. Big deer and little man. . . . A cheery word to shut-in Doris Hill who was taken to the Lutheran Hospital for an emergency appendectomy. Hurry up and get well, we all miss you. . . . See you all next week, bye now.

WHAT'S NEW IN PLANTS & LABS

WEST LYNN—A complete new line of 3½-inch, long-scale panel instruments of internal-pivot-type construction has been announced by the Meter and Instrument divisions. Designed for general industrial applications, as well as for manufacturers of electronic devices, testing equipments, and similar apparatus, the instruments have permanent-magnet, moving-coil mechanisms. With the exception of high-sensitivity microammeters, they are available in all ratings now listed for conventional 3½-inch instruments with 90-degree scales.

* * *



SCHENECTADY — A new 20-page catalog containing descriptions, specifications, and prices of more than 150 arc-welding accessories has been announced as available from the General Electric Company, Schenectady, N.Y. Designated as publication GEC-253A, the new bulletin includes information on electrode holders, helmets and goggles, tungsten electrodes, all types of protective aids and clothing, electrode carriers, cable connectors, ground clamps, brushes, cleaning tools, fillet weld gage, and many other accessories for the arc-welding operator.

M. B. A. SICK LIST

Alma Beck, Earl Vachon, Maurice Archbold, Richard Braun, Frederick Borton, Oliver Sawdon, Wayne Worman, Earl Strong, Charles Hartman, Kenneth Frick, Byron Simmons, Louis Klotz, Adam Nicholson, Paul Wuttke, Velma Minnick, Evelyn King, Elizabeth Wert, and Ruth Whonsettler.

Left the Hospital

Myrtle Wagner, Oliver Sawdon, Ruth Fields, and Allen Emrick.

"You explain it to the theater manager! I'm tired of explaining the things that happen when you try to park!"

CHARLES E. WILSON Anniversary 50 years with GENERAL ELECTRIC

Volume 32 | FORT WAYNE, INDIANA, FRIDAY, NOVEMBER 11, 1949 | No. 45

G-E Urges Use Of N.L.R.B. Procedures To Resolve Conflicting Union Claims

In response to a telegram from James Carey, the General Electric Company has advised the newly-formed CIO International Union of Electrical, Radio and Machine Workers of America of its opinion that under present circumstances the Company is "required under the law" to continue bargaining with the United Electrical Radio and Machine Workers, as presently certified to it as the bargaining representative of certain of its employees, until otherwise directed by the National Labor Relations Board.

The Company urged that any conflicting claims arising between the IUE-CIO and the UE be settled by the peaceful and orderly procedures provided by the courts and by the N.L.R.B. N.L.R.B. secret ballot elections and certifications are available under the law to settle disputes as to the employees' choice.

The Company pointed out that it is General Electric policy to recognize and bargain collectively with any labor organization duly designated as the representative of its

R. I. PARKER TO ADDRESS SQUARES CLUB

R. I. Parker, Commercial Vice President in charge of the Central District, will be the speaker at the annual management-sponsored dinner meeting of the G-E Squares at their club rooms at 6:30 p.m. Wednesday, Nov. 16.

Invitations are being mailed to members of the club and test engineers to hear the address. To accommodate the test engineers, arrangements have been made to furnish their meals in Bldg. 16-2.

CONTEST IS CONDUCTED FOR SALES PERSONNEL

Specialty Transformer, Ballast Divs. Announce Educational Sales Campaign

The Specialty Transformer and Ballast divisions are sponsoring a sales campaign known as STAB, it was announced today. The title is derived from the initials of the divisions' name.

The STAB campaign, which is being conducted during the entire month of November, is open to all distributor salesmen active in the sale of Specialty Transformer products. Free prizes, cash awards, and bonuses are the incentives being offered to develop greater

(Continued on Page 3)

General Electric Resumes Negotiations With Union

General Electric and negotiators met with an afternoon session Wednesday, Nov. 9, and continued discussions of the various features of the Company and union proposals.

The meeting was to be resumed at 2 p.m. Thursday, according to information received as the WORKS NEWS went to press.

SQUARES WILL HOLD OPEN HOUSE TONIGHT

"The Gold Nugget Casino Grand Opening" is the theme of the open house to be held by the G-E Squares Club tonight at 8 o'clock in the club rooms.

War Memorial Flag Pole Dedicated 25 Years Ago

The Fort Wayne Works dedicated its Memorial Flag Pole just 25 years ago today.

Despite the drizzle of rain, a large crowd assembled at the foot of the flag pole the afternoon of Tuesday, Nov. 11, 1924, to honor the men who left the G-E plant for service in the first Great World War. An Armistice Day parade

(Continued on Page 3)

Local Banks Close For Armistice Day

Fort Wayne Banks will remain closed today in observance of Armistice Day, but will be open tomorrow from 9 a.m. to 12 noon.

Committee members at the dedication of the Memorial Flag Pole, which was held 25 years ago today, meet again at the site and are shown, above, watching K. W. Michael, president of the G-E World War Veterans' Association, place a wreath at the monument in commemoration of Armistice Day. From left to right are: H. E. Hire, Superintendent of the Wire and Insulation division; I. H. Freeman, Supervisor of Personnel; Martha Scherzinger, foreman in Bldg. 4-3; Lois Miller, Bldg. 8-2; Irene Ofenloch, Bldg. 21; Mr. Michael, George Graue, Winter St.; F. J. Schwarzkopf, retired, and E. A. Barnes, retired.

G-E Company Submits Payment As County's Largest Taxpayer

H. B. Leach, Assistant Works Accountant, is shown, above, presenting the Company's check to Sam Cook, Allen County treasurer, and Willis D. Hite, deputy treasurer.

The General Electric Company is Allen County's largest taxpayer by a wide margin, the County Treasurer's office has revealed.

The Company's second half-year installment on its local industrial plants and equipment in Allen County was presented last week when the Company remitted a check for $357,066.50 at the office of County Treasurer Sam Cook.

To what extent General Electric's taxes contribute to the operation of essential governmental functions in the county, is shown by the fact that its 1949 tax bill defrays more than three-fourths of the salaries of all Fort Wayne police officers, city firemen and employees of the Police and Fire Department's Signal Division.

G-E Club To Sponsor Square Dance Nov. 18

The G-E Club's entertainment committee will present its third in a series of square dances Friday night, Nov. 18, in the G-E Club auditorium. The dance will be held from 9 to 12 p.m. and admission is free of charge to all employees, their families and friends. Joe Taylor's Indiana Red Bird band will provide the music for both round and square dancing.

We Bow Our Heads In Prayer To Honor Today Our War Dead

As we bow our heads in tribute to the dead of two World Wars, it seems only a few months ago that we were in the throes of a mighty conflict to halt the arm of an aggressive nation. We entered that conflict so that the world might be free to follow peaceful pursuits. On this Armistice Day we are doubly saddened—first in recollection of those who have made the supreme sacrifice in two wars, and secondly because a world at peace is so uncertain.

The very history of Armistice Day has been marked by an ironical twist from the time of the first false armistice of World War I to the observance of Armistice Day of this year. While millions welcomed the armistice that brought an end to the first war, they found all too soon that an armistice was a period before the resumption of hostilities and not the termination of actual combat.

Sir Philip Sidney, the English statesman, once said: "War is the most reckless and prodigal waster of time, property and life the world has even known. It is the destroyer of commerce, the hot-bed of vice, the violator of the Sabbath, the promoter of cruelty, the wholesale butcherer of men and the ruin of morality. War ought never to be accepted, until forced upon us by the hand of necessity."

On this Armistice Day there is little we can do but to honor our war dead by praying to the Almighty that such necessity will never arise again.

N.L.R.B. Procedures

(Continued from page 1)

employees, but stated that it has "no competent evidence that the IUE-CIO has been so designated by a majority of employees in any bargaining unit."

The General Electric position was contained in a letter made public from L. R. Boulware, Vice President in charge of Employee Relations, in answer to tbe telegram from Mr. Carey, chairman of the administrative committee of the newly-formed IUE-CIO. The Carey telegram to General Electric, which according to press reports was a standard version sent to over 1,200 employers Thursday night, Nov. 3, contained a demand that the Company withdraw recognition from UE, recently expelled from the CIO by convention action, and recognize in its stead the IUE-CIO.

The Company maintained that it would remain strictly neutral in the figbt between the two factions, and that the Company believed that the choice between the two unions must be left entirely up to the employees. The Company also insisted that, until otherwise directed by competent authority, it would continue to carry out its legal and contractual obligations to UE, and pointed out that at the time of the last monthly check-off, over 80 per cent of Company employees in the contested bargaining units were continuing to authorize a cbeck-off of union dues to the UE. Employees are free to discontinue check-off authorizations on 30 days' notice.

The Company said that it was difficult to understand the basis for Mr. Carey's claim that the IUE-CIO is entitled to the contract rights held by UE. The Company has an existing master contract with botb the national UE and UE locals. Even if a UE local switched to the new IUE-CIO by unanimous action, there seems to be considersiderable question as to whether it could take with it the old contract with tbe UE.

Whether or not it is possible for UE locals to make a complete transfer is a subject which is surrounded with much legal uncertainty. In almost every location where a local claims to have seceded there is a rival group claiming that they are the Local UE and therefore still entitled to full contract rights.

The claims of opposing local factions to contract rights under the UE contract have created serious problems requiring careful study at a number of locations with respect to bargaining rights and check-off problems. The Company held that the only way the situation could be clarified in any clean-cut fashion would be by the holding of N.L.R.B. representation elections to determine the employees' choice.

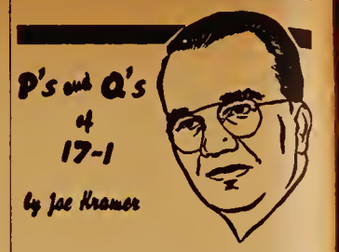
Following is the text of Mr. Boulware's letter to Mr. Carey:

Mr. James B. Carey
Chairman, Administrative Committee
International Union of Electrical, Radio and Machine Workers (CIO)
718 Jackson Place, N.W.
Washington 6, D. C.

Dear Mr. Carey:

I have your telegram of November 4 to Mr. Wilson which states that the International Union of Electrical, Radio and Machine Workers (CIO) demands to be recognized as the exclusive bargaining representative of General Electric Company employees now covered by collective bargaining agreements with the former CIO affiliate, United Electrical, Radio and Macbine Workers of America and that it is incumbent upon the Company not to recognize tbe U. E. in any respect.

As you undoubtedly know, it is the policy of General Electric to recognize and bargain collectively with any labor organization which has been duly designated as the representative of our employees.



We have no competent evidence that the International Union of Electrical, Radio and Machine Workers (CIO) has been so designated by a majority of our employees in any bargaining unit. It is our opinion that under present circumstances until we are otherwise ordered by the National Labor Relations Board we are required under the law to continue to recognize and bargain with those unions which have been certified to us by the Board as the collective bargaining representatives of our employees in the respective bargaining units.

Your attention is called to the fact that existing law provides well-established orderly procedures for resolving conflicting claims such as those you have raised. We hope that you will realize that it is in the best interest of our employees that these issues be settled by the peaceful and orderly use of these procedures.

Very truly yours,
L. R. BOULWARE

OUCH: The dentists were in bad with two engineers of the DC Division. Ned Hackney has been confined to his home because of infection after having a tooth pulled. Ray Jones complains of numbness around his mouth, since having a wisdom and molar pulled. He said shaving is very difficult since he has no feeling. We hope by the time this is in print they will both have fully recovered. . . . ILL: Helen Conrad, DC Division, spent a week at home in the company of the popular flu bug. She returned to work Monday. Hugh Stevenson is also back from a week of illness. Glad to see you back, Hugh! . . . BLOWING OR BOWLING? Tell us, girls, was it a bubble gum blowing contest or a bowling contest? It seems as though the Payroll bowling team (with the addition of Romona Ireland) entertained themselves Friday evening. Everyone ended up blowing bubbles instead of bowling. . . . HUNTER? This Al Volz must be a hunter. Everytime we hear anything about him he seems to have bagged quite a few fowls. We wonder if he is just trying to make himself believe it. Don't be angry, Al, we are only kidding you. . . . VITAMINS OR? Certain people are wondering just what were in those vitamin pills last week, Robbie? It seems that you (R. F. Robinson) were feeling low a while back so you tried some vitamin pills. They sure make a difference in a man don't they? . . . WE NEED BLINDERS: Please take notice of the bright socks D. Dochterman wears. They are hand made. Do you suppose he makes them for a hobby. . . . NEW IDEA: Jack Seigel has extra duties now. He sets the mouse trap before going home each night with bread and butter instead of cheese. Result: two mice. We wonder if it was Mortimer's (last week) brother and sister. . . . GUESS WHO? One day last week Wade Reed of the Development division found a note on his desk saying "See Me." The note was unsigned. After a lot of inquiring he found it was from Dick Seely. "What's the matter, Dick, you forget how to write your name?" . . . WELCOME: Our heartiest welcome to Fred Meyer, a test engineer, in the AC division, and to William Buchholtz, Rotating Engineer of the same division. . . . NEED GLASSES? Paul Ohnesorge spent a half hour looking for a folder Tuesday morning. Betty Stahl found it for him on Bob Kirby's desk which is directly behind Paul. Paul was so exhausted he had to rest for a (short) time before he could go on working. . . . SHORT SNORT: Orland (Moose) Foltz decided to have a short working week last week, he put his time card in the box on Monday evening. What's wrong, Moose, tired of working? . . . SQUARE DANCING: The square dancing bug has hit Bob Starkel. He started to buy one record the other day and before he left the store he had bought the whole album. He either had a darn good salesman, or he decided that it would take more than one record for him to learn.

Don't forget the office party tonight at Lillie Pion's country home. There is going to be food, beverages, and entertainment. . . . Clarence Doctor had the lucky number at the Southwest Conservation Club outing held last Saturday. Doc won a gasoline lantern which is going to come in mighty handy in case of power failure this winter. . . . Johnny Junk has found a new way to increase the life of a shop apron. John's new method includes an anti-rust treatment after cleaning. We don't know whether John accidentally doused his apron in the anti-rust oil or he did it to bring the shine back in the worn spots. . . . Frank Martin must have been reading too many tales of the Arabian Nights. Frank tried to convert a piece of plaster boarding into a magic carpet, but without success. Frank had tied the plaster boarding to the top of his car but had not fastened it securely. On the way to the lake, the wind blew the board from the top of the car, and from eye witness reports, it looked like the magic carpet. Of course, it might have been a flying saucer. . . . William (Buck) Grimm rides again. It has been rumored that Bill should learn language of the ram sheep. Bill was endeavoring to take his rams down to the neighbors but the sheep had other ideas. The only thing we know is that Bill has a very sore hip to show for his Saturday's work. . . . With the report in a recent column of George Mosshammer celebrating his 39th birthday, George immediately started living up to his youth. Of course, he decided to start out slowly so he started with cigarettes. George has now gotten to the point where he can blow smoke rings. Ask him for a demonstration. . . . Francis Bennett has gone into the egg broiler repair business. Of course, the next time he has a broiler to repair he is going to get an ample supply of fuses ahead of time. It seems that there is a possibility of getting certain wires mixed up and blowing out the fuses. Frank Quinn was very efficient in cleaning the gutters at the bowling alley at the G-E Club last Wednesday night. Frank blames it all on the blister he wore on his thumb making the signs for the stag party at Dent's cottage. . . . With the approaching winter weather, Ed Brosche has forsaken Florida and is traveling North on his week-end jaunts. We wonder if the Notre Dame game could have had anything to do with his visit to East Lansing. . . . Nora Williams had a new addition. The name has not been decided as yet, but "Nomore" is decidedly the favorite. Congratulations, Mr. and Mrs. Williams.

Decimal Minute Men Announce Plans For Thanksgiving Party

The Decimal Minute Men will hold a Thanksgiving Party tomorrow night at 7:30 o'clock in Sears Pavilion. Round and square dancing, games, and refreshments are being planned by the organization's steering committee.

Sales Campaign

(Continued from page 1)

knowledge, interest, and enthusiasm for the sponsoring divisions' products within the G-E Supply Corporation and Graybar Electric Company sales organizations and independent wholesalers; and hence, to increase the sales of these products for our mutual benefit.

Approximately 3,000 salesmen are eligible for the contest, and more than 300 entries have already been reccived here.

The local Specialty Transformer and Ballast divisions are conducting the campaign in conjunction with the Apparatus Agency division and the Advertising and Sales Promotion divisions in Schenectady.

First Postwar Sales Stunt

The contest is unique in that it is believed to be the first postwar merchandising stunt of its kind attempted in the Apparatus Department.

The campaign is bein staged differently for the Graybar Electric Company than for the G-E Supply Corporation and independent wholesalers.

The program for salesmen within Graybar Co. has been set up as a mock college, "STAB College of Product Knowledge."

STAB College

STAB College consists of two parts:

Part one offers enrollees a chance to earn a handsome seal-finish desk aid, simply by making a sincere and original effort at answering tbree specialty transformer and ballast product questionnaires, and submitting them by Nov. 30. The desk aid is a case containing a pocket for correspondence, memo pad, and phone index.

Part two offers cash prizes totaling $500 to those Graybar personnel who submit the five most interesting or unusual application stories on G-E dry-type transformers.

The STAB Contest for members of the G-E Supply Corporation's sales organization and salesmen of independent wholesalers is broken into three sections. The first two parts are similar to those presented to Graybar sales personnel. In addition, part three offers cash bonuses, regardless of participation in the other portions of the contest, for each G-E M and D dry-type transformer sold during the contest month, at the rate of $10 per 100 kva.

Diploma Is Offered

The following diploma, with the entrant's name inscribed on it, is mailed to all salesmen who successfully complete the three product questionnaires:

"Know all men by these presents that (NAME) having been duly examined and found to have fulfilled all requirements is hereby awarded the degree Doctor of Specialty Transformers and Ballasts (STAB). As a recipient of this degree, he is entitled to all the rights and privileges pertaining thereto, including that of making known to his customers and prospects the greater benefits resulting from the specification of General Electric Specialty Transformer and Ballasts."

The awards will be announced sometime next month.

Judges Are Announced

Judges are: W. V. O'Brien, General Sales Manager; H. K. Pritchard, Manager of the Specialty Transformer Sales division, and P. M. Staehle, Manager of Sales for the Specialty Transformer and Ballast divisions.

The entire program is based on the obtaining of more orders and stimulation of greater sales activity for the Specialty Transformer and Ballast divisions.

98 Employees Presented Awards For Suggestions

Ninety-eight suggestors received a total of $1,125 in awards during the past three weeks, it was announced today.

Robert Bunyan, Specialty Transformer Div. 91, was the leading suggestor with a $115 award. His idea was to make a blanking die for certain parts.

Homer A. Markey, General Service division, was awarded $65 for his suggestion of a method for saving colling water for turbines. A $45 award went to Doyle D. Miller, Specialty Transformer Div. 91, for his idea to use scroll steel instead of sheared material for shunts.

For her suggestion pertaining to a change in the bulletins in Bldg. 4-6, Virginia Mariotte received $30. Twenty-five dollar awards went to Joseph A. Haas, FHP Motor Div. 16, and Samuel E. Bireley, Bldg. 26-5.

Employees receiving awards ranging in different amounts from $5 to $20 were:

FHP Motor Div. 13: Charles Clawson and Donald J. Long.

FHP Motor Div. 14: Robert L. Pickett and Dallas L. Corson (two awards).

FHP Motor Div. 15: John Kirchenbauer, Oliver H. Bowman, Carl R. Riedel, Lewis Hutchinson, Joseph B. Howard, Leola R. Carrier, and Richard Anderson.

FHP Motor Div. 16: Eunice Zehr, Lee Shanabarger, Stephen A. Sallot, Jr., Jay Rippe, Herbert C. Langer, Gerald Koehl, Joseph A. Haas, Walter H. Buesking, and Jeanette Blough.

FHP Motor Div. 17: John E. Donaghy, Carl Sweeney, Robert J. Robertson, Ernest Krause, Howard Householder, Lois J. Grim, Ben M. Fleek, and Ralph J. Begue.

FHP Motor Div. 19: Raymond B. Schuckel, (two awards), Lloyd L. Runyon, Lloyd Miller, Merlin E. Wagner, George A. Silk, Peter Schible, John R. Miles, Walter D. Durst, and Walter Bauermeister.

FHP Motor Div. 33: James F. Smith, George H. Miller, and Roger Crabill (two awards).

FHP Motor Div. 10: Robert L. Walters, Oscar O. Mize, L. W. Johnke, and Jack E. Angel.

Decatur Plant: Frederick Schamerloh, Clarence Morgan, R. L. Mills, Harold Rhynard, Waymon Patrick, Raymond Franz, and Clarence Drake.

Tiffin Plant: Gilbert Hoover and Richard Zirger.

DeKalb Plant: Russ Wiley, J. D. Ramsey, Alfred Rankin, Clifford V. Smith, and Robert M. Hart.

Specialty Transformer Div. 91: J. H. Plescher, George Jones, Russell Golliver, Donald C. Ford (two awards), Phyllis V. Fisher, and Charles Druce.

Motor and Generator: Amos Schladenhauffen (three awards), Delphus Morrical, John W. Jones, Guy Miller, Arthur R. Keller, Norman F. Jueschke, Ralph E. Hill, Richard F. Grote, George I. Fields, Myron W. Cox, Virgil Carmean, and Wayne W. Blake.

Wire and Insulation: Dewey C. Wisner, Ralph N. Hoover, Lewis Guenther, Delmas W. Detter, and Robert Deerwester.

Tool Division: John A. Inches (two awards).

General Service: John Schreiber, Charles D. Hardy, George F. Ely, A. J. Delagrange, Erma L. Cumming, Simon Knapp, and Betty Jane Wagner.

Distribution: Genevieve E. Meyer.

Miscellaneous: M. Miriam Valentine, Lloyd Miller, and Mary I. Heymann.

Recipients of cigarette lighters this week included: Oliver Bowman, Betty Jane Wagner, Genevieve Mayer, Merle Morkoetter, Robert Bunyan, George Jones, Gerald Crum, Charles Druce, Gilbert Hoover, Phyllis Fisher, John Driver, Fred Vietmeyer, Everett Sloffer, Melvin Kiessling, Thomas Cannon, John Lee, Amos Schladenhauffen, George Rothgeb, H. T. Kruge, Arthur Hyser, Elmer Scott, Loren Wood, Hugh Wells, Edward Cristallo, John Feyerhard, Virgil Hinkston, Robert Glenn, Ronald Rutan, Fred Vogt, and Arthur Bear.

Bob Bunyan, Bldg. 26-1, received $115 for his suggestion to make certain spacers for transformers on a blanking die instead of shearing the stock. He is shown in the picture receiving the award from his foreman, James Stauffer. Left to right are: Mr. Stauffer, Sam Macy, Mr. Bunyan, Paul Noffze, Gerald Crum, and Fred Banks.

Company To Pay Last Of 1946 Bank Loans

General Electric announced this week that it will prepay on Dec. 1 the final $25 million of its $50 million five-year bank loans negotiated in December, 1946. These loans were part of a $200 million financing program arranged in 1946, of which the Company still owes $142.5 million.

This money was borrowed in order to make possible the reconversion of plant facilities to peacetime production, and to enable the Company to expand its activities and create peacetime jobs for thousands of employees who had been added during the war years.

War Memorial

(Continued from page 1)

ended in front of the plant that day, as the crowd gathered for the dedication.

The G-E band provided music for the event.

Following an invocation by Rev. A. J. Folsom, of the Plymouth Congregational Church, Charles M. Niezer, president of the First National Bank, spoke on the subject, "Fort Wayne in the World War." He mentioned that out of 5,000 who enlisted from Allen County, 149 men and two nurses gave their lives to the cause.

Walter S. Goll, then Manager of the Fort Wayne Works, told about the activities of the Works during the period of the war. At the close of his address, he unveiled the base of the memorial.

Acceptance of the monument was then made in an address by Brigadier General L. R. Gignilliat, then Commandant of Culver Military Academy.

Following this address, he read the roll of the G-E men of Fort Wayne "who gave their lives in the cause of freedom," as the flag was slowly raised to the top of the new pole and the band struck up the Star Spangled Banner.

A campaign for funds amounting to $3,500 for the construction and erection of the memorial had been made by the G-E Foremen's Association during a week in April of that year. The Company subscribed $500 toward the expense and the remainder was contributed by employees.

The general committee for the Foremen's Association in charge of the war memorial included E. C. Olds, H. W. Stahlhut, H. E. Hire, I. H. Freeman, and F. J. Schwarzkopf, then president of the organization.

Included in the military group at the dedication were Lieut. Harry Muller, then Commander of American Legion Post 47; Lieut. George Bally, of the French Army; Brigadier-General L. R. Gignilliat, Commandant of Culver; Capt. R. R. Bartel, Sgt. George Graue, and Cadet Lieut. Ralph Polk, of Culver Military Academy.

John L. Verweir, A. L. Foellinger, John Pulver, L. D. Meader, H. J. Andress, F. S. Walburn, E. A. Barnes, Beulah Kinna, Irene Fox (Ofenloch), Lois Miller, Martha Scherzinger, and W. S. Goll were members of the reception committee for the ceremony.

Pensioner Parade

George Davis is moving to Charleston, S. C., to share an apartment with his son, Lt. T. W. Davis. Lt. Davis is assigned to the destroyer Hamilton. George plans to get in some deep sea fishing, while down in the deep South. He claims that $3.50, which includes the boat, bait, food and "everything," is a reasonable way to spend a day. He missed the flowers and cotton in bloom this year, but he will be on hand to see them next spring. . . . Leo J. Miller was visiting G-E friends recently. He and Mrs. Miller have just returned from Louisville, where they visited their daughter and her family. They will return to Louisville to spend the holiday season. . . . George N. Prince is leaving for his winter home in Eustis, Fla., for six months. He says the main reason he is heading south is because Charlie Strodel caught all the big ones in Indiana. So George is leaving for where the fishing is good. He also says that he is sorry to leave here, where it's nice and cool and everyone will be wearing their longies. . . . Charlie Engle, who just retired this month, is spending his spare time repairing and painting rural newspaper boxes. One of the local newspapers has supplied Charlie with a portable welder, and he has set up a shop in his home. When he retired, his section gave him a small outboard motor. So he plans to try it out at the lake next summer. By the way, he also has a small farm, where he raises black raspberries, strawberries, and popcorn. . . . Quincy Winans has just returned from the land of the Mardi Gras, New Orleans. . . . We had two visitors this week. E. A. Barnes and F. J. Schwarzkopf posed for a picture alongside the War Memorial Flag Pole as members of the committee at the dedication 25 years ago. Mr. Schwarzkopf spends much of his retired time working in his garden. He specializes in growing climbing roses. . . . Ora and Edna Hoffman are just taking it easy out on the Bluffton road. They have a 90 acre farm there which they rent. . . . Fred Nute is improving, but is still confined to his home in Bluffton. Hurry up and get well, Fred. . . . Harry Haberkorn visited his friends in FHP Div. 1 last week. He has moved back to town for the winter. Harry is going to give the fish at Pretty Lake a rest for a few months, or, so he says. . . . Another visitor in FHP Div. 1 was Clara Krudop Schneider. Her friends in Bldg. 4-3 say that staying home must agree with her, she looks so good.

PARTIZAN CHAPTER TO CELEBRATE SECOND ANNIVERSARY AT DINNER

The Partizan Chapter of Elex will hold its second anniversary dinner Tuesday, Nov. 15, at the Y.W.C.A. The banquet will begin at 6 p.m.

All reservations for the celebration must be in today. Tickets for the dinner are $1.45.

BUNNIES, BEWARE: It is rumored that our hunters and would-be hunters have had their guns oiled and as of yesterday they are out to get you. . . . SEVENTH INNING STRETCH: Just seven weeks to go for "No time in '49." Let's finish the game with a perfect safety record. Remember your machine can't think. It's up to you. . . . WET TEARS: Hugh Tigges put his lunch pail on an outside window sill (to keep something cool). When he reached for it at lunchtime, the elusive pail went buckety, buckety. Five seconds and three stories later, it was all in smithereens, a mass of broken glass and what looked like garbage. Hugh had tears in his eyes over no lunch. . . . FOR SALE: John Gutermuth and Ray Johnson will sell you a slightly used "Busco Beast" until next Halloween. They had a hand in building the tin one that appeared in the newspaper last week. . . . APPLE DAYS: Dick Madden seems to have a nice red apple appear on his desk. Always thought apples were for teachers. . . . D. C. Danny Cupid is still shooting darts. Martha Rice is displaying a ring on the third finger, left hand. . . . THE MUG: Hallie Hosler received a new drinking cup from Irene Blank. It turned out to be Jerry's shaving mug. . . . ODDS AND ENDS: Last Friday was almost like Friday the 13th. Mary Jane Redding forgot to get up. Result, very late. Violet Brower wore two earrings of different sets. Mary Wright had to be told that she was welding and not placing. . . . Walter Kryder was rushing around finishing last minute details so that he would enjoy his third week of vacation this week. . . . Gertie Dammeyer takes her third week next week. If it gets much colder she can go ice fishing. . . . On our sick list is Ann Robinson and Catherine Salmon. . . . Margaret Swain is back in the groove after being ill. . . . John Magley attended the Indiana homecoming game. He has a son attending Indiana. . . . CONGRATULATIONS: Richard John is issuing his calling cards from the Richard Thonert residence. His mama is a former co-worker. Ralph and Shirley Ohneck Ross of Canton, Ohio, also have a new tax deduction. She also was a former co-worker. . . . It's a happy birthday to Mary Baker and Iley Souder. However, we wish Iley could skip this one, because it means we will not be seeing her smile very long. . . . It's "how dee doo dee" to all the newcomers on the early bird shift. . . . Joe Motter was seen standing by Bldg. 18 holding three pocketbooks, and it wasn't even Wednesday. . . . Want an egg shampoo? Anne Gibson is an expert and very obliging. . . . Our sincerest sympathy to Peggy Bahde in the death of her nephew.

Pick-Ups

Bldg. 26-3

By Elvira Romary

Hi Gang: Here is a bit of good advice I picked up from a very good friend:

A wise old owl lived in an oak.
The more he saw, the less he spoke;
The less he spoke, the more he heard.
Why can't we be like that
Wise Old Bird.

Battle of the Century: Helen Eger and Otto Reitdorf open the windows or close the windows. Tickets may be obtained for a nominal fee. . . . Christ Starke has a life-long ambition to own a candy store. Believe me, he would be his own best customer. . . . Phyllis Perry is now giving driving lessons by appointment only. . . . Al Reiman claims the burns on his forehead came from an oil explosion. We wonder if he got burned up over something. . . . Lonnie Rockstroh needs a sling to help her carry that beautiful new diamond she is wearing on her third finger, left hand. Best wishes, Lonnie and Bud. . . . Don Poland was in to see us Monday. Danville must agree with him, he looks fine. . . . Mabel Odel tells this one on herself. It seems as though she moved her footstool at home and forgot about it. That floor is hard isn't it, Mabel? . . . Ed Bangert should use name tapes on his coat, so that Les Redding won't put it on by mistake. Maybe Ed's coat is better than Les's. . . . Lorraine Von Beheren's father won an electric mixer and promptly gave it to Lorraine. For your hope chest? . . . Vera Hoover is a football expert. She won a pool right out from under everybody's nose—or should we say "feet"? . . . Farrold Scheumann has a brand new Nash. Business is picking up. . . . Everybody is invited to Grace Campbell's house for Thanksgiving dinner. She won a big turkey. . . . Lola Brunner baked a ready-mixed cake Saturday. Now what we want to know is, are they working you so hard that you can't bake a regular cake? . . . Has Les Redding gone primitive? He has been inquiring about palm trees and any information would be greatly appreciated. . . . What has happened to the second trick? We would like to hear from them also. How about it? . . . Dick Rump without his pipe is like eggs without ham. . . . A closing word about Christmas cards and wrapping paper, see your Elex contact girl.

Nowadays the rising generation retires when the retiring generation rises.

Suggestion Contest To Close Tuesday

The Suggestion System Contest closes Tuesday, Nov. 15.

The contest, which opened on Sept. 1, offers a total of $500 in merchandise certificates as bonuses for the best suggestion contributed during tbat period by employees of the Fort Wayne Works.

A total of 10 certificates, each redeemable at the Employees' store for $50 worth of merchandise at employee prices, have been allocated to the Fort Wayne divisions, according to the following schedule:

Fractional Horsepower Motor divisions, two certificates; Specialty Transformer and Ballast divisions, one certificate; Motor and Generator divisions, one certificate; Works Service divisions, one certificate. Employees in all divisions compete for the remaining five certificates.

G-E monogramed cigarette lighters have also been presented to employees who submit one or more suggestions during the contest on which the regular award is $10 or more.

Miller's Orchestra To Play At Elex's Thanksgiving Dance

Bill Miller and his orchestra will play for the Elex Club's Thanksgiving dance Wednesday, Nov. 23, at the Prom Terrace ballroom. Dancing will be from 9:15 p.m. to 12:30 a.m.

Tickets are $1.20 and the dance is open to the public. Tickets may be purchased from committee members and Elex contact girls. Any member who sells 10 tickets will receive one free.

Elex Second Shift Members To Witness Paper Demonstration

Izora Roop will present a demonstration on the use of paper products for the Elex Club's second shift members at the YWCA Wednesday, Nov. 16. Lunch will be served at 12 noon.

The Apple Sisters, Seedy and Cory, direct from the Applesauce Night Culb, will be featured during the program.

Today is the deadline for reservations to be made with contact girls. Tickets are $1.

TOP FLOOR TOPICS

BLDG. 26-5

by WALT POHLER

The wolves are howling again. No news. Why can't we have some news for Bldg. 26-5. Actually it takes several weeks to accumulate enough news for a column. Then numerous people have stopped us to give us some news, but no paper was handy and as a result by the time we could have made a note of the item we had been asked so many other questions that we forgot the item. Please folks, write your items on a slip of paper. Just mention the facts and we will try to write a satisfactory story. . . . Alma Berger had a birthday recently. The event was properly celebrated with ice cream and cake. No mention was made of age. . . . Last Wednesday was the twenty-fifth anniversary of the first day that Bertha Gruber worked for General Electric. Her co-workers celebrated the event with a little program. Evelyn Nowles sang a solo with words appropriate to the occasion. Ruth Klopfenstein read a poem and Bert was presented several gifts. One gift was 26 one dollar bills. Several tears were shed by the honored guest. We all extend our congratulations, Bert. . . . The second shift people in the east end of Bldg. 26-5 are wondering whether Junior is in love or is mad. . . . A certain girl couldn't understand why her machine wouldn't stop. All the stops were checked and then she discovered the strip was finished. Could it be love, Ely? . . . People who are interested in learning how to dress chickens are advised to contact Lenora Gillard. . . . We understand that Evelyn Miller will be more careful of the material in future dress purchases. Evelyn was caught in the rain on the way to work recently and it is reported the dress she was wearing shrank eight inches. . . . Kenneth Fisher became so wrapped up in a discussion of his boybood days that he forgot his pot of coffee. The cord got wet and blew the plugs. . . . Maude Weikel was seen wearing Arietta Denny's coat several days ago. We understand the coat was a bit tight.

Elsa Maxwell Addresses Meeting Of Elex Club

Elsa Maxwell, internationally known hostess, author, and friend of the world's celebrities, addressed the Elex Club at a dinner meeting for first shift members Monday evening in the G-E Club auditorium. Miss Maxwell is shown, above, talking with Irene Meyers, advisor of the club, and Mary Leiter, Elex president. The picture at the right shows a part of the crowd that attended the meeting.

Five Complete Apprentice Draftsmen's Course

M. L. Goeglein

Milton L. Goeglein graduated from the Apprentice School Oct. 21 as a draftsman. He began working for General Electric following his graduation from New Haven high school in 1942. He worked in Bldg. 4-6 a year before entering the Navy. Mr. Goeglein served 21 months in the States and had 15 months overseas duty. He enrolled in the drafting course of the Apprentice School in March, 1946, after his discharge in February. Mr. Goeglein is married and has one child. He resides on R. R. 9, Fort Wayne.

C. D. Lommatzsch

Carl D. Lommatzsch graduated as a draftsman from the Apprentice School recently. He was a 1941 graduate of Central high school and worked in Bldg. 19-4 before entering the armed services in January, 1942. He saw three years' duty with the armed forces, with nine months in Europe and the Pacific. Following his discharge in February, he enrolled in the Apprentice School the next month.

Mr. Lommatzsch is married and resides at 3202½ S. Lafayette St.

H. C. Fremion

Harold C. Fremion, completed the Apprentice Draftsmen's course Oct. 28. He graduated from South Side high school in 1940 and attended Purdue University before coming to General Electric the following October. He worked in the FHP Motor Drafting division before enlisting in the Army July, 1942. Mr. Fremion served in the Army Quartermaster Railhead company one and a half years in the States and two years in Europe. He received his discharge in December, 1945, and returned to G-E as an apprentice draftsman in March, 1946. He lives at 3814 S. Lafayette St.

G. G. Roby

Garland G. Roby is a graduate of the drafting course of the Apprentice School. A 1942 graduate of Central high school, he began his G-E career as an inspector in the FHP Motor division in July of that year. He entered the Army with the Quartermaster Air Service group, serving three years with over a year in Hawaii. Mr. Roby entered the Apprentice School in March, 1946, after being discharged the previous month. He is married and has two children.

The Robys live at 1316 McClellan St.

J. F. Rowan

Joseph F. Rowan graduated from the Apprentice School as a draftsman Friday, Oct. 28. A Central high school graduate in 1942, he became an employee of General Electric in June and worked in Bldg. 4-1 until he left for the service the following December. He served with the Army in the Gun Battalion three years, 30 months of which was in the South Pacific. Mr. Rowan was discharged in January, 1946, and entered the Apprentice School the next March. Mr. Rowan resides at 3018 Oliver St.

I have read, "Victory usually goes to those whose nerves hold out the longest. That may be so when it comes to winning peace as well as wars. So, let us keep our nerve and be *strong, calm* and *steady.*" This statement from an author that I can not name, is particularly apropos on Armistice Day. Our world is still unsettled and it behooves all of us to not only be strong, calm and steady but to have a determination to make the meaning of Armistice Day a realization! . . . Our congratulations to Paul Kissinger, Bldg. 18-3. He is now the proud grandpapa of a seven pound boy. But, did you see Paul on Monday? He was slightly pink in spots, 'twas mercurochrome, he said. Also, he said that he was up on a ladder at his cottage at Lake Everett when it gave way and he came out with several scratches. Is that like the excuse, "I ran into a door?" After all, a grandson IS something to celebrate! . . . Our congratulations to Herbert Kammeyer on his 40th anniversary. Last Friday, in the staff meeting Mr. Kammeyer was presented with a service certificate. It had all been very quiet and was a surprise to his fellow workers, we all unite in saying "Good Luck" to you for at least ten more! . . . Everyone is talking about the G-E Club Revue. Did you see it? From all reports everyone liked the trained dogs. They must have stolen the show. Nice to have such entertainment, isn't it? . . . At the G-E style show last week Phyllis Tanner was the lucky one to win a lovely new hat. I understand she spent the week-end—selecting and trying it on. . . . DEER HUNTING: Ralph Van-Osdale has been absent from his duties in Bldg. 18-B deer hunting in Ontario, Canada. At this writing we are not able to report the success of the adventure—only a hear-say report that it was slightly cold up there! . . . The dignified gentleman that you have noticed in Bldg. 18-3 is Joe Wauro wearing his new glasses. . . . Helen Dafforn danced at the Prom Terrace Saturday. Understand that the popular song, "Baby It Is Cold Outside" was reversed to cold inside. . . . Robert Meyers is absent from his duties in Bldg. 18-1 this week due to the death of his father-in-law. May we extend our sympathy. . . . Emily Guth, Bldg. 18-3, spent the week-end in Michigan with her nephew, Walter Klinger and family. . . . Notice, please, I am still waiting for a picture of the Kammeyer lake party—it has been promised so you may have a treat in store. . . . Daniel Webster wrote: Let us develop the resources of our land, call forth its power, build up its institutions, promote all its great interests and see whether we, also, in our day and generation may not perform something worthy to be remembered." I am sure he would not approve of our present day strife at home and abroad. . . . Mary Slater of Bldg. 18-4 and Hilda Mueller, Information Desk, have learned their lesson on jay walking. A week ago they tried to cross in the center of the street and received instructions on how to properly conduct themselves in downtown traffic. . . . We wish a happy birthday to Fred Andrew and Ray White of the Data Bureau. . . . The genial test engineer, L. J. Speicher, leaves Bldg. 18-4 this week to go to Bldg. 4. We will miss his cheerful demeanor. . . . Ray White, Bldg. 18-4, spent last week with his mother in Henderson, Ky. He brought back some wild persimmons to show us how they grow (personally, I would have enjoyed a persimmon pudding very much—if you have never eaten one I am sure you can not know what you are missing). . . . Al Tharp, Bldg. 18-4, was vacationing in the Great Smoky Mountain range. He brought back an album of pictures to show us and they were very interesting.

Tricks In Transformer

—FROM DIVISION 91—

By Bob Bunyan

John Laymon celebrated another birthday this past week. We always welcome birthdays in this group, because a treat has been the tradition for several years. John's was ice cream. Thanks from all of us and many happy returns. . . . Louie Wegman enjoyed his third week vacation last week. Louie mixed his pleasure with work, so he spent his time tilling his land and picking his corn on his large stateline farm. . . . Gerald Crum has finally found happiness since he adopted that new baby. Of course, most of you know by now that it is plain rubber, but interesting. . . . Lawrence Hosack paid his honor a visit last week. He came into possession of a pink ticket over on Jones St. If Hosey had a smaller Buick, perhaps he could park in the parking lot. . . . After several days of attentive work, Roe Ormiston and George Horner have accumulated a number of bugs that they removed from the new lead pad die. . . . It seems that we have two Daniel Boones in our group—Don George and Al Hamilton who are experts of the skyways. They are taking orders for ducks. Don said their list is so long now that they have rented a truck to bring back their game. I don't know, but I hope they get more than wet feet. . . . I didn't know Ed Byers was just a kid at heart. He must be because he ran around all Friday afternoon with a rubber doll. It is so dear to his heart he is keeping it even though it has a hole in its head. . . . Harold Franz appears so refreshed at quitting time now since he received his latest promotion. He gets to stand up now, that may be the reason. . . . Some seem to think if Bob Quinn hadn't voted for himself in the MBA election that Doyle Miller would have been re-elected since there was only a margin of one vote. . . . It's been suggested that they furnish Baldy Hart with a secretary. It seems that Baldy has been having his troubles too. His orders just seem to disappear. . . . Bill Conrad will certainly be pulling his hair when he returns to work this week. Al Campton has been trying to carry on his work for Bill, and it's just not quite right, I guess. . . . Jim Stauffer just isn't taking any chances. Did you notice he is wearing glasses too? . . . Marvin Leykauf provided a candidate on the MBA ballot by nominating himself. It seems that Ruben DeWart did a little more campaigning, though. . . . I hear from the grapevine that Sam Rhoads is trying to get Noffze's and Bunyan's auxiliary job. He claims he can do both of their jobs. . . . Jim Hurst received a promotion too. He does his own set-up work on the welding machines. . . . Bob Miller is on deck every morning to see how his new baby is. From Grandpa, George, the baby is fine, but George looks mighty sleepy.

Tool and Sample Shop News

We want to wish Bob Smith the best of luck as he is in Canada deer hunting. . . . Congratulations to Millie Strickler and her husband in winning the Halloween costume party at the G-E Club recently. They won a G-E electric alarm clock. Boy, what bath towels won't do for some people. . . . We're sorry to hear that Bob Glenn has been off work two weeks with the flu. Hurry back to work, Bob, as the gang misses you. . . . Some people must have been born lucky. Elmer Hazelett won a turkey for only 25 cents on a punch board. Carl Ramsey also was in a winning mood by winning all those check and ball game pools.

Women's clothes express their sentiments, says a writer. But why do the gals have to be so vague.

Corn S'talks

TAYLOR. ST. SHIPPING

By Gloria Geesaman

Hi you all. Changes, changes: Bonnie Swain has a better job. She is taking over Ruth Sutorius' job and up to her neck in learning. We also have a new gal Marge Gordon. Poor Marge, to think she has to put up with all of us. Faye Alexander came to the telegraph section, and she likes it too. Bet none of you can guess why—I can. . . . Anyone living in the Bloomingdale region, if you would like a ride to and from Taylor St. call Bob Walters on 385. He'll give you the low-down on how to obtain the ride. It would be nice not to wait on the bus these cold mornings. Right? . . . You never can tell what's gonna happen next. The other day Mary Caruso got a call that her house caved in. Luckily no one was hurt and not much damage done. She was a scared person until she found out "wot really hoppened." . . . Naomi Snyder was off last week with a nasty old cold. I see that she's back fit as a fiddle. . . . Brooks Brickley went to Schenectady on business. It's nice to have a change of scenery once in a while. . . . Poor Mr. Kruekeberg never gets his name spelled right. Sometimes we all wonder how he can tell if all those peculiar names belong to him. . . . Bonnie Koop has some gambling blood in her. The only thing is she wins. She won a radio on Jean Carrol's punch board. Of course, Jean gets a radio too. . . . We are sorry to hear that Mary Nelson's father isn't well. We are all hoping for his speedy recovery. . . . Why don't you all ask Paula Howard if she has a guilty conscience. She should have. Shouldn't you, Paula? . . . Sally Ford is in such a hurry to get to work that she puts her clothes on backwards. I never knew anyone that anxious to get to work. . . . That's all.

Capacity Crowds Enjoy G-E Club's Fall Revue

More than 7,500 employees and members of their families attended five performances of the G-E Club's annual Fall Revue Saturday and Sunday in the auditorium. Scenes at one of the shows are shown in the layout above.

H. B. Carter, president of the G-E Club, issued the following statement today in regard to the revue:

"It is unfortunate that all General Electric Club members could not be accommodated at the Fall Revue held last week-end at the G-E Club. For a number of years, five complete shows have been adequate to accommodate all interested members and contracts were again made on that basis. With reduced employment, we felt that this contract would be entirely adequate.

"A few members undoubtedly obtained tickets to which they were not entitled, which would eliminate the supply of tickets for late requests. The G-E Club management requests cooperation of the members for future activities by asking that they procure tickets for themselves and members of their family only and by using all tickets given out, or returning tickets which cannot be used prior to the date of performance."

What with Santa on Wolf and Dessauer's store and the holiday wreaths all along Calhoun Street, can Christmas be far behind? Don't forget to do your shopping early. "Early," says Clarence Nussel, "is usually Dec. 24." How about it? . . . There were many familiar faces at the conservation club celebration last week-end and everyone was having a swell time inspecting sporting goods and eating "elk burgers." This fine conservation effort deserves your full cooperation and the boys who are a part of this organization thank you for your support. By the way, did you see and hear how well Mike Lowe got along with that mike! A real workout. . . . Someone ought to show Mike how to approach the pumps in a filling station. He gets his car so close he falls over the car trying to walk between. . . . Food seems to be the troublesome item in our gang this week. Someone brought a loaf of rye bread, some Bermuda onions, and a pound of limburger cheese to work. Everyone was eating sandwiches and enjoying themselves tremendously until some unknown character started smearing limburger on light bulbs and in desk drawers. Victims of this stinking trick include Frank Magers, Ida Witte, Bill Schultz, Carl Matthias and Les Dafforn. . . . Morrie Crowe spent considerable time and sniffing in a vain attempt to locate the offending cheese; however, even his search of the wastebasket was to no avail. . . . There also was food problems in the Frank Surface household. It seems that on their weekly trip to the grocery Mrs. Surface found some nice jars of cooked chicken for only nine cents a jar. Recognizing a real bargain when she saw one, Mrs. S. bought two jars, thinking perhaps the quality was not up to par she took only two until she had the boss (meaning Frank) taste it. But her fears were stayed. The chicken was delicious. Wanting to share her good fortune with others she took orders from her friends, delivery promised next grocery day. After gathering nearly all the little jars in the store the boss (Mr. Frank again) had to pay the bill. Boy, was it high. Frank paid it, however and started home. After some discussion between Mr. and Mrs. on why the grocery bill was so high they discovered that the little inexpensive jars of chicken were priced at 89 cents instead of nine. Frank had to exchange the chicken, hence the moral of the story: If you want to be boss of the household, fellows, don't find your wife making mistakes on grocery prices. . . : Speaking of trouble in the family—A group of people from Bldg. 17-4 went to the wrestling matches Wednesday night. Among those present were Ray DeBolt, his wife (the boss) and daughter, Al Middaugh, Ned Neuman and his future wife (already boss) Ruth Meeks. Sometime during the evening something was said regarding a stag party. It seems Ray had told his wife it was stag, and it wasn't and he didn't get home until 4:40 in the morning. Ray said sleeping in the garage wasn't so bad. Neuman was also in the dog house, but not for the same reason. . . . In connection with the limburger cheese —we hear Bill Schultz snitches these sandwiches from the Punch Press section so he won't have to buy his lunch. . . . Many of you folks will remember John Willauer who left about two years ago to go to California. Carroll Elder received a very nice letter from him recently, and John says it's a wonderful place. Carroll still has the letter and anyone who would like to read it, see Carroll. Incidentally we should get together and answer it, especially test personnel. . . . We had quite a visit with several of our pensioners in the last few days. John Hillsmier, Harry Prange, Ed Offenloch and "Hobby" Haberkorn stopped in to say so long to "Doc" and hi to the gang. Come back again soon and to the rest of you pensioners, how about coming up to see us soon. . . . Dick Wagner spent last week-end getting in some hunting. It takes a few days to get back in practice, doesn't it, Dick? . . . Best wishes and get well quick to John Howard who is in the hospital. How do you like being on your "tummy" by now?

Strasser Celebrates 30th Anniversary

Adolph Strasser, Bldg. 4-6, celebrated his 30th anniversary with General Electric Monday, Oct. 31. He is shown at the left, above, being congratulated by R. D. Jones, FHP Motor DC and Specialty Motor Division Engineer. J. J. Clarkson, FHP Manager of Engineering, is looking on.

We are glad to report that Fred Borton is on the road to recovery and has left the hospital. We hope Fred will be back with us soon. . . . We were sorry to have Harry Meads leave us last Friday. But our loss is Bldg. 19-5's gain. . . . It's a great day for John Leffers. Today he dons the title of Graduate Draftsman Apprentice. . . . Mr. and Mrs. Arthur Braun are the proud parents of a baby girl born November 4th. . . . One of the instructors stopped in to have a talk with Mr. Gebert and Mr. Wolf. Suddenly several of his students became very conscious of their low test grades. So they decided to make someone really suffer—so they informed McNulty he was wanted in the inner office. Gene Werling was planted at the outer door to inform Mark it was all a joke—but Gene was called to the telephone and Mark went barging into the meeting. When he emerged —he wasn't the only one who had a red face. . . . The fellows in Bldg. 31-2 inform me that Fremion is officially a Navy man now. They are tattooing him next week. . . . The boys who throw a lotta weight around Bldg. 12-2 slugged it out at the platform scale last week. Staley never had a chance with only 218 avoirdupois. He was eliminated by Hoppel who rang up 224 lbs. The contest really came to a screeching halt, however, when Auer entered the affair. His exact weight is a secret but it's somewhere between 237 and 239.

Derbyshire Is Granted Patent

C. E. Derbyshire

A patent has been granted to Charles E. Derbyshire on his invention of a high reactance transformer.

Mr. Derbyshire is a design engineer in the Specialty Transformer Engineering division, where he has been employed since May, 1946. He first joined the Company in 1941, after graduating from Ohio State University.

This is the first patent which has been granted to Mr. Derbyshire. It relates to a novel means of obtaining high reactance by use of magnetic shunt punchings between primary and secondary coils.

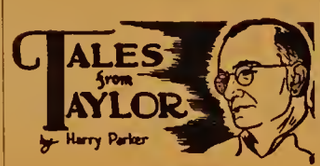
M. J. Payton Dies

Maurice J. Payton, 54, former Fort Wayne resident, died Wednesday, Nov. 2, at his home in Brookline, Haverstown, Pa.

He worked as a meter engineer in Bldg. 19-5 from 1919 until 1935. He was then transferred to the Philadelphia office. Mr. Payton was a member of Sol D. Bayless Lodge, No. 359, F. and A.M.

Services were held Monday at 2 p.m. at the Scheuman Funeral Home. The Sol D. Bayless Lodge officiated at the funeral and graveside services. Burial was in Lindenwood Cemetery.

Paul Traub is either going to move his desk or ask for a coat rack. Paul's desk is just inside the office door and a most convenient place for people to drop their coats and hats as they come in. . . . Dorothy Askren's Buick refused to be parked where it wasn't supposed to be parked, so what did it do! It ran over a retaining wall and sank itself so firmly into the earth that it took Clyde Cowan, a chain, and several fellows to pull it back into place again. . . . Walter Kryder is on vacation this week, and I am not trying to be corny when I say that he is gathering his corn. He really grows it. . . . There is always a reason for everything and Pres Slack says the reason that he has such big feet is the fact that he does a lot of skiing. Now that there is snow on the mountains Pres is having a hard time concentrating on his work. He is anxious to get those feet of his on a pair of skis. . . . Paul Clendenen has a homing pipe. He sticks it in the office mail box and the thing comes right back to him. Wonder why?



BIRTHDAY GREETINGS: To Mary Goss and Earl Glass. Mary's birthday was last Monday and Earl's Tuesday. Nearly twins, eh? (As Groucho Marx would say). . . . GRATITUDE: Bill Rohe, the Good Samaritan (if you don't care what you say), gave Wimpus Lemper a mess of nicely frozen fresh fish in one of his finest refrigerator (G-E) trays. Bill has been trying for weeks to get his tray back but nothing happens. Now Wim-puss finally tells him he's ashamed to give it back. He's been feeding the cat and the sows out of it. Right now we could say something awful mean. You know, like is it a two or four-legged sow or something like that, but time and space will not permit. . . . HE'S THE BOSS, HUH: Frank Yarman, Jr., that is, made a date with Earl Glass to see the wrestling match. Frank, Jr., was heard to say, I'll be there with bells on, and I'll bring this and that and something else. But, folks, as usual that was just a lot of hot air. For Frank never showed up. His excuse is that his wife was going to have company and he had to help entertain (who wants to be entertained with just a lot of wind). Yet he's the same guy who has been telling us "I'm not henpecked." "I'm the boss at our house" and bla, bla, bla. Oh! Boy, how we can blow and pop off when the real boss is not around. Keep it up, Missus, you are doing fine and we're all for you. . . . ALWAYS LOOK UP: Why is it, Harry Jones, that every time we see you talking to the boss (Lemper) you have your head bent way down? Is it because he's so short? Boss or no boss. If that's the reason make him look up to you. Never look down. You might find something some day, that you can't use. . . . HORSE THIEF: Thanks, fellows, for the evidence that we have been harboring a horse. Al Swift must read the WORKS NEWS, too. For now he is saying that some people get everything and others nothing. Al says he wants some evidence too, that I've been harboring a horse. So, folks, if you have any, please see that Al gets it. If he's not home at the time just leave it on the front porch. . . . OH BROTHER: What some people won't do for a nickel or a dime. What's your percentage year-to-date Tom Hutsell on getting away from the candy lady (nice name) without payment. We'll bet it's very low. She's got her eye on you. That's as far as cash is concerned. . . . We in the Wire Division during the past week were quite worried about Al (Hawkshaw) Hambrock's actions. He was seen on many occasions looking for the fellow's feet and sniffing the trunks of their cars to find the guilty ones who played a Hallowcen prank on him. As yet he hasn't found the guilty one. One more week of these actions, Mr. Hambrock, and we will begin to wonder about you.

Kappa Delta Phi Chapter Honors Voyce Brumbaugh

Gamma Lambda Chapter of Kappa Delta Phi, national sorority, honored their national regional director, Voyce Brumbaugh, Bldg. 4-4, at a dinner party Wednesday in the Berghoff Gardens.

SHIPPING: If you notice a bit of a glint in the eyes of Phyllis Crace, it's because she is a brand new aunt. The wee bundle of joy (a little girl) arrived last Friday. . . . These late fall mornings with their practically total darkness, present quite a problem to the worker plodding around in semi-darkness to get dressed for work. This semi-darkness can no doubt be blamed for Xercia Sinish's appearance at the plant the other morning, wearing one black shoe and one blue shoe. . . . Happy birthday to Betty Millhouse today, and the same good wishes to both Bob Gebert and Ferne Runyan who have their day this Sunday the 13th. . . . There seems to be quite a remarkable change in Del Bucher of late, however, the satisfaction of knowing one is all prepared for the weatherman's wintry blasts can account for that, no doubt. . . . TELEGRAPH: The telegraph girls were sorry to say farewell to Faye Alexander, who left telegraph to join the telegraph section at Taylor St. last Friday. Lots of luck from us all, Faye. . . . We welcome Gladys Hadley. Gladys comes to telegraph from Bldg. 31. Bldg. 31's loss is our gain, and we hope Gladys enjoys being with us all. . . . Kitty Cooper and Dolores Widner attended the Elsa Maxwell program Monday night and report that it was grand. . . . Helene Schlund has a new look in the form of a new permanent. We call her "Curly" for short. . . . If you're yearning to learn the new craze—square dancing, see Carol Levy, she gives first class lessons. . . . Our new bride Eleanor Phillips Blake has suffered a terrible blow, her husband is now working nights. . . . MAILING: Boy are some people lucky. There's lots of good eating in store for Kenny Beck, Ed Blotkamp, and Beverly Springer. Kenny recently won a 12-pound turkey while Ed and Beverly won a chicken apiece. . . . Poor Don Ahlersmeyer. It seems the Palace theater holds terrible embarrassment for him every time he goes there. For any further details, we suggest you contact Don. . . . Frank Hopper and Dave Thiebolt took their fathers for an airplane ride over the week-end. They flew over the lakes in Northern Indiana. We have had no reports from the fathers yet, but the boys say they had a nice trip. Frank, who is a private pilot, is now working for his commercial and Dave is working for his private pilot's license. . . . DISTRIBUTION, BLDG. 6-3: Mart Witte has the most remarkable head of hair we have ever heard of. Mart says that when he isn't feeling quite up to par he has trouble keeping his hair in place. However, when he is just tip top he never has a bit of trouble keeping his locks in perfect order. . . . If you are thinking of remodeling with plaster board, don't nail a board until you consult Clifford Saylor. Cliff can give you all the dope and incidentally he says never again for him, next time he's going to use corrugated paper pads. . . . REGIONAL WHSE:. We extend our best wishes for a speedy recovery to Jess Moser's sister who is ill in the hospital. . . . Question of the week: Is Tom Fox keeping banker's hours, or is he just envious of Ora Ramey? . . . We extend our deepest sympathy to Ilene Shroyer whose father died. . . . Boy, this square dancing is really sweeping the country. It has even swept into Regional section and three of its most ardent admirers are Alice Horman, Dick Goetz and Gladys Sorenson. . . . If you haven't heard the new record of "Mule Train" just go in the vicinity of Carmen Sordelet's. All her neighbors are now familiar with it. . . . The gang in Bldg. 6-4 are wondering when Wren Herbst is going to invite them over for a chicken supper. One of your co-workers knows about the conversation with Mr. Springer, so how about it, Wren? . . . Earl Vachon and Martin Vogel are on the sick list and we are all hoping to see both of you boys up and around again real soon. For card purposes, Martin Vogel's address is Billings V. A. Hospital, Fort Benjamin Harrison, Indianapolis. . . . Welcome back to Jim Craw. Glad to see you, my boy. . . . Speaking of seeing, Clair Lieurance is wearing his glasses again. Could it be that we are missing something, Clair? . . . Jess Moser vows he'll never let his grass grow so tall again. By golly, he had to get out ye old lawn mower and clip his jungle before he could rake the leaves. . . . Gertrude Hamel has her Christmas shopping all finished. Well how about that, lucky girl. . . . Our new group leader is Floyd Brown. Hope you like your new gang, Brownie.

Ray Heck, our young man of many adventures, has had another one. This time it was with one of the fair sex. It seems that he became enamoured by a certain young lady. Seeking to entertain her, he thought that it would be appropriate to take her out for something to eat after the show. They headed for the Coney Island for some super hot dogs. Seemingly all was going well when suddenly they broke off diplomatic relations. The reason given by the young lady was that she was so filled up on hot dogs that she could not look another one in the face. . . . Our super Casanova of group 13x10 Everett "Maggie" McKee has offered his heart to any girl to the tune of $10,000, but 'tis not the time of year that your fancy has turned to Maggie. Living alone at Avilla is a cold lonesome existence so he has come forth and offered his heart for a cosy fireplace for two. . . . Our honorable mention for this week goes to Kenny Applegate who was very busy last week raffling off a turkey. The joke of it all was the fact that he himself won his own turkey. Now everybody is looking at him with side long glances. Joe Turley opines that if someone else had picked the winning number, no doubt, Kenny would have tried to slip them a few crows instead of the turk. . . . Last week we ran a story about Newton Poland's very intelligent dog, and by the way that dog is really smart. Seeing a pail of garbage setting outside the kitchen door and deciding that it must be disposed of, the dog dug a big hole at the end of the lot so all Newt had to do was dump said garbage overboard. He told us that the hole was big enough to bury a man in. This dog, being only four months old and being very adept at digging, Newt is wondering what the dog would do upon reaching full maturity. Also he is wondering if he could train this pooch to do his spring plowing for him.

It is just like old bome week to report on tbe Repair and Return section in Bldg. 4-4. This is the section set apart to repair and sometimes completely rebuild motors that have been out in service for the American public. Let us look them all over just as they are. . . . First if you would hunt for a hunter and fisherman that can top any story that you can tell with a true experience of his own then you would naturally talk to Perry Jeffries. Perry is one of those true conservationists that surely must have some Indian blood, so keen is his woods and stream lore. I know that is spreading it on rather thick but you're lucky to go along with Perry. They say of him "three times fishing with no fish took the fish out of fishing for Jeffries." . . . Sometime ago we inquired about a "Black Beauty" owned by John Stanek. Publicity must have dulled his comments. . . . Jeanette Conrad who recently didn't have a house warming is now expecting a phone call. . . . We understand that Charles Griffin will soon be able to give expert advice on his new hobby canasta. Simple—he bought a rule book on the game. . . . Arnold Bentz tells us that his favorite sport is drowning bait since he never catches any fish. . . . Weatherman Walt Sollberger advised everybody that winter had arrived when he put his cap back on. We are beginning to think that his best friend is that short stemmed pipe. . . . Carl Sleppy has given the rabbits in Wells County fair notice to hole up before the season opens up. His shootin' iron is cleaned and shined ready to go. . . . The grapevine gives out with the news that Lloyd Miller has acquired a new sideline as water boy for Howard

Proud Mama

The proud mother in the picture is Blondie, registered cocker spaniel owned by Elmore Hurt, Bldg. 4-4, Repair and Return section. There are one red, two golden, and six light-buff puppies in the family.

Keppler. How about it, Lloyd? . . . You should be sure to inquire of Byron Newman about his unique way of carrying his shoes. . . . Ed Bowser has finally discovered the way to master the art of bowling and it has nothing to do with form or ability. It is the shirt that does it. The man has the nerve to borrow his son's very loud sport shirt and then just because he bowls a 200 game two weeks in a row for the first time in his life, he refuses to give it back. . . . We are all hoping that Herb Jehl's young son has a quick and complete recovery from his recent operation. . . . "Great Gildersleeve Elmore Hurt" is all one name but we can't understand how he rated it all. . . . We hear that Ira Runyan has changed his name to "Little Mutt". How come, Ira? . . . If you were to yell "Curley" you might be calling Harry Chism. It couldn't be that he has no hair! . . . Howard Keppler still can't figure out how he could get set in euchre when he has both bowers, and leads the king. . . . Margaret Parisot gives us a very good closing thought for the Repair and Return section. "He that loveth not, Knoweth not God, For God is Love." . . . RANDOM NOTES FROM EVERYWHERE. . . . If anyone wants to know how to bring a bushel of apples in to work ask Paul Broxon, Bldg. 26-4. Never did we ever see such a piece of pie. . . . A mule surely gave Norm Shane's, Bldg. 26-4, goat the once over last Friday night. In fact Norm was in such a state he forgot to pick up his wife at the G-E Club, he even walked by his car. We hear Mrs. S. came home about 1 p.m. and very unhappy. . . . You should ask Pearl Noble, Bldg. 26-5, who is one very shy gal about the present that she expects to get from Santa that will be purchased at Murphys. . . . Madonna Enders, Bldg. 4-5, had such an important engagement that she plumb forgot this reporter. . . . Harold Dimke, a Bldg. 17-4 swing shifter, passed out cigars for his third boy. Two non-smokers that tried to show that they could take it were Paul Schlie and Bill Johnloz. They both looked a little green around the gills but were both able to stay on their feet at the end of the cigar. . . . Morrie Snyder, Bldg. 17-4, was seen out running his new dog. It was a good race, but our money is still on the dog's nose. . . . Now is the time for the West-siders to get into the thick of this thing. Get after someone on your floor and let me hear from you.

The Fall Revue held last weekend at the G-E Club was well attended. The acts were highly entertaining and amusing, enjoyed equally by children and adults. Too bad Arnie Johnson missed it—he's planning to attend this week-end. In case he does he will find himself very much alone and in the dark. Perhaps next time he'll check the date a little closer. . . . Jess Stoller spent his vacation last week 'down on the farm" where he was busy picking corn, weighing in the pigs, as well as the numerous other jobs to be done. He's glad to get back to work so he can sit down and rest a bit. . . . Harry Anderson looks definitely fetching in his new plaid bonnet. Getting ready for the hunting season, no doubt. . . . Floyd Saylor was treating with apples one day late last week in honor of his birthday. Probably part of the Halloween loot collected by his offspring. . . . William Doell, formerly of Tool Maintenance but now located in Bldg. 17-2, celebrated his birthday, too. In this case, he was the recipient of a collection of gifts sponsored by the boys he worked with in Bldg. 4-2. . . . Betty Williams was our contribution to the Elex Style show and right proud of her we are. . . . Jo Alles brought in a jar of her home canned pickles for sampling recently. Gene Robbins was her best satisfied customer and in no time at all the jar was empty. The next day in Jo's absence, Gene found another jar of the same kind at her place. Knowing of her generous nature, he was doing the honors of passing them around and the jar was nearly empty when she returned. Imagine his disgust to find out then that she, realizing how much he had enjoyed them the day before, brought this jar for him alone. . . . Birthday greetings to Mary Mowery and Fred Clark.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ad will not be accepted unless accompanied by the name, pay number, and division of the employee. No works building or telephone number may appear in ad, only the home telephone number or address.

No ad will be received over the telephone. Send all ads to WORKS NEWS office, Bldg. 8-2.

"Lost" and "Found" articles must be cleared through the Plant Protection office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

CLOSING DATE FOR NEXT ISSUE
Monday Noon, November 14, 1949

LOST AND FOUND

LOST—A check book at tbe Taylor St. Plant.

LOST—Child's green purse containing prayer book. Lost at Fall Revue at the G-E Club Saturday night.

FOUND—SpeeCraft triangle.

FOR SALE

SEARS, ROEBUCK THERMOSTAT—With furnace control, complete, $12.50. H-58515.

KALAMAZOO 20 INCH FURNACE—And pipes, $75. 901 Lincoln Ave. after 4 p.m.

SHOTGUN—12 gauge, 30 in. barrel, single shot, like new. 1412 Colerick St.

1931 CHRYSLER—Four-door, excellent shape, driven only 56,000 miles, a good car for getting to and from work, $90. H-75055.

1937 CHEVROLET—Coach, new tires, cheap; also 36 inch left hand drainboard sink, like new. 1425 E. Creighton Ave. after 4:30 p.m.

CHINA BASE TABLE LAMP—Twin table lamps; dresses and suit size 18; dresses size 12. H-01213.

WOODSTOCK TYPEWRITER — Excellent condition. Lovely Christmas gift. H-20322.

GOOD USEO AMERICAN FLYER—3/16" gauge track, cars, and equipment. E-38093.

SMALL TRICYCLE OR ROCKING HORSE—E-32711.

THANK YOU NOTE

WE WISH TO THANK — All of our friends whom we can't thank personally for the generous gift which was presented to us recently. Martin P. Vogel and Family.

MISCELLANEOUS

LET ME MAKE YOUR HOLIDAY DRESS OR FORMAL — Reasonable and quick service. E-55185.

TRANSPORTATION

WANTS RIDERS—Dale Crigsby from Columbia City, Works at Broadway from 8 to 5:15. 260J Columbia City, or Extension 342.

WANTS TWO RIDERS—C. M. Leitch, from Kendallville or places between to and from G-E, Works from 8-5:15. Extension 2390 or Kendallville 259M.

Iola Hamerick will be back to work soon after a siege of illness. . . . One day this week Annabelle Gehrig returned to work. She hasn't changed a bit. Hope you find your work pleasant with us again, Annabelle. . . . Fanny Amstutz, what have you been doing lately? Has your husband got all his cord wood stacked up for winter? . . . Our glamour girl, Leona Fruechte is still on the job. . . . Agnes Andrews, we didn't know you had a brother working here. Why don't you tell us these things, Agnes? What's more we hear he's eligible. . . . We want to give credit to Floyd Morrison for having purchased six gold pencils to date from the GeCode Club. Sales like that really are appreciated by the GeCode girls. . . . What's this, Nora Smitley, another birthday? Sniff, that perfume atomizer will be a handy gadget for squirting on that good smellin' stuff. Those gift hankies you received are really nice. Oh, for a nice cold and you are really prepared. . . . More four-wheeled buggies have been purchased of late. Ray Schott, of Monroe, purchased a fine "Chevie" over the week-end. Oran Schultz got the fever, too. That's a nifty Chrysler "Windsor" you've been controlling down Second St. It is our favorite color. Do you think Milt Brown will soon part with his 36 model, Oran? . . . Thelma Goelz, happy birthday. We happened to spot the beautiful flower container someone presented you. Also the many thoughtful greeting cards. Many more such occasions, Thelma. . . . We'll admit Monday is a bad day to start working, but it must be pretty bad when you fail to show up for work. What excuse did you have, Florence? . . . Will someone put a bell on Eddie Hesher for Sprunger? It seems he always has trouble locating him. . . . Tuesday, Oct. 25, Clyde Gould celebrated his 13th wedding anniversary. . . . Margaret Waltke was a busy shopper in Fort Wayne last Saturday. . . . Dorothy Heimann is sporting a '46 Ford these days. . . . Leona Tinner sure has her difficulties with her refreshment of cocoa. . . . Lucile Braun, employed as a winder since January, 1941, in Section 7-51, quit to assume housewife duties in her newly-built and furnished home on Highway 1. She married Ed Gelzleichter Saturday, Nov. 5. . . . Battle of the century, Dale (Dempsey) Cowan versus—well, I don't know just who the other fellow was, but from what we hear, it wasn't bad. The best part of the incident is that the conflict was over, of all things, apples. A very juicy item. . . . Norma Poorman has dog trouble. She was observed one day last week working with her shoes off. Was it terriffic! I mean the odor. Most of the gals wore clothespins over their noses while this was going on. I don't blame them. Those dogs must have sure been growling. . . . Glenn Hurless really got hot last week, even if the weather was a least bit chilly. Yep, the ole 39 "cotched" a spark and was really going to town. Glenn arrived in time to smell the smoke. . . . Virginia Drake is now back with us again after a very long absence due to sickness. We hope she will be able to make it this time. Welcome, Virginia. . . . Warren Harden, the lad with the great big Buick, was in a little trouble last week. He went to town to see the parade and had to walk back. He parked in the wrong place to make a fast getaway and had to leave the car. . . . Take a look, guys and gals, at the wonderful display of Xmas cards the GeCode Club has on display and buy some. They are not expensive, either. . . . Edwinna Stucky had a birthday the other day, Monday, Oct. 31, to be exact. Edwinna distributed treats to the gang. Congrats, little girl. We hope you have many more of them.

Art Haberstock, our No. 2 crib man, was a bit slow getting to the crib on time last week. This was due to a slight detour out of the No. 1 crib via the window, and was he surprised to find the lock was off the main door, too. . . . Gurney Lindley likes the old Polish custom when it comes to weddings. He said he learned a lot of things that he thought Americans should have included in their wedding ceremonies. . . . Phillip (Tiny) Shoppman, of the plating room, has been trying to get Jess Batchelder to install a Hollywood muffler on that flashing blue Dodge with the red wheels since hearing that Jess was such an expert at the muffler business. . . . When I said Clarence Stolte was the only eligible bachelor the other week I forgot about Paul Mischo, but if Paul is anything like his dad was, he won't be in the bachelor class long. Paul has been off several days due to a bad leg which is the result of his playing touch football. . . . Noland Myers was trying to give the St. Joe V. F. D. a bit of work last week when one of his rags caught fire at his grinder, but one of the local firemen beat "Mac" McMaken to the job. . . . Noland and Ward Staley celebrated wedding anniversaries last week. When Noland thought of it he became so excited he wrote his clock number on a T. B. I. card for a shop order number. . . . I haven't been able to figure why Jake (Red) Allstetter keeps a bottle of perfume in his tool box and dashes a few drops now and then on our unsuspecting sweepers.

Who is the girlie with the curly hair? Why, Berneta Welbaum, of course. She is living proof of the results of a Toni. . . . Turkey Run State Park was host to the Indiana Industrial Nurses meeting last week-end. Olive Walters attended the various sessions. . . . Another wedding anniversary! Mr. and Mrs. Duane Stroud celebrated their eleventh wedding anniversary Nov. 5. Congratulations from the gang. . . . According to the calendar, it will be several weeks before winter officially arrives. But as far as Mabel Wilson is concerned, winter can be marked "present" now. The cottage at Turkey Lake is closed and the boat brought in from the lake. . . . From all reports the Fall Revue at the G-E Club was a great success. Large crowds attended all of the shows. . . . On this Armistice Day, please don't forget in the confusion and hustle of your daily work, to give some thought to the true meaning of the day. Let us never forget to keep a prayer in our hearts for our war heroes, living or dead.

We are wondering why a certain individual named Ray Snyder carries sawdust home in his lunch bucket? Does he have some rabbits or is he short of kindling? . . . Louie (Grandpa) Sauers is on his third week's vacation this week. He says that he is going hunting, but the season on wild game won't open until Thursday. Wonder what kind of hunting he is going to do? He is going to spend some of his time visiting his grandson in Peru. . . . We suggest that Alva Foulks limit himself to one can of vegetable soup a day and that way he won't tire of it so soon. . . . We don't know who to feel the most sorry for, Marian Miller or Joyce Schroeder! It seems that Marian had worn a big hole in her apron and Joyce, kindhearted that she is, cut a piece of her apron off and gave it to Marian so she could patch hers. Now if someone has an extra piece of thread and a needle Joyce could put a hem in her apron so she wouldn't look so frayed out! . . . Bea Davis is back in group 1x55. Glad to see you, Bea. We also want to welcome Wilma Linker, Mary Wyss, Mayme Carney, and Nova (Juanita as we know her) Shoppell to 1x29, Edward Harrison and Dale Stalter to black armature and Opal Brayton on inspection. Here's hoping you all stay a long time! . . . Mildred Coleman left out a loud yell the other day when she opened her drawer and saw that she had company. Brave Bill Wickliffe got rid of her little grey furred friend and everything returned to normal. . . . Several of the girls have their morning coffee everyday and then on Fridays they add a roll to their diet. They take turns in bringing the rolls, and this last Friday was Thelma Purdue's day to bring the rolls. Ruth Tutwiller filled Helen Struver's cup with coffee, and Helen helped herself to the last roll in the sack. In the meantime Thelma told Maude Erhardt that her roll was in the sack. Imagine Maude's surprise when she found the sack empty! Why, Thelma, my nephew in the second grade can count better than that! Maude got a roll from the candy lady though! . . . Merle Keesler is driving a different car, we can't say a new one. He calls this one the "Green Hornet". He was having his car serviced, and they gave him this one to drive. He always stayed a few minutes late in order that everyone could get out of the parking lot ahead of him. He said that it had no brakes either! He is driving his own now. . . . Birthday greetings to Helen Struver, Vera Fetro, and Richard Buecher. We wish Ella Staver and Clara (Krudop) Schneider who are both on pension a very happy birthday too. . . . Lucinda Pettit's young son, Glen, fell from a tree and broke his arm and had to undergo a very serious operation to set it. He is recovering but is still a hospital patient. . . . I'd bet my bottom dollar that if we staged a laughing contest for the best all around laugh, Eveline Best would take the prize. Mildred Green would laugh the longest, however. . . . By the way, we certainly are a dumb bunch sometimes. Everyone wanted to know why Nov. 8 was a red letter day on the calendar. After quizzing about 10 or 12 girls, Goldie Duff came through. She said it was election day even though we weren't electing anyone this year! . . . Neva Scott is on the sick list this week. Hope you get back soon. . . . Congratulations and good luck in your new home, Marie and Frank DeVaux.

Inquiring Reporter:

AMONG THE SMALL G-E APPLIANCES, WHAT ONE DO YOU THINK IS MOST NECESSARY FOR THE HOUSEWIFE?

GEORGE S. WEIKART

Bldg. 27

"I think our G-E iron is the most necessary because it really saves a lot of ironing work from the old method of using flatirons."

MARTHA HUTSON

Bldg. 26-4

"The electric iron. I think the iron is the most necessary of the small appliances. It cuts ironing time in half, saves countless steps and weight lifting."

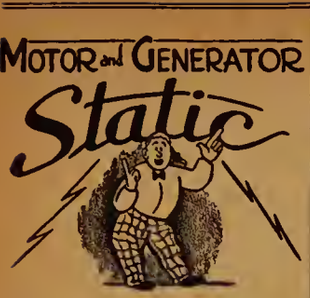
LUELLA M. WELBAUM

Bldg. 6-2

"Every housewife must have an iron. I think the steam iron would be my choice of the small G-E appliances. This iron has two uses, either for dampened clothes or dry clothes. It also covers a larger area in one stroke of ironing."

LOHNAS McINTOSH

Decatur



"Light bulbs. I think there should be one or more in each room, hall, basement and outside of the house, both front, back and side."

GARNET ZOLLINGER

Taylor St.

"I think the small, electric hand iron is the most necessary. With its fast heating unit and speed selector, it enables the housewife to choose the heat according to the material she wishes to iron. Besides, it saves time and makes ironing a pleasure."

Thought for the Week: "Many marriage failures are the result of many failures married." Beth Mumma.

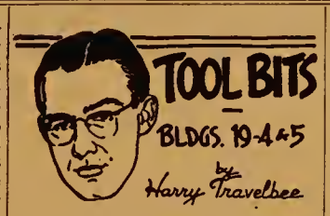
DEAR OLD FELLOW: Don K. Shultz, methods section of Bldg. 31-1, is enjoying his third week of vacation this week. The poor old man really needed it. Don, this is the same thing you wrote about yours truly the week of Aug. 19 (I looked it up.) . . . K. L. McDaniel of Bldg. 19-1 is on his third week, and last but not least, that dear old character of Bldg. 27, Therm Liechty, is spending his third week touring in a trailer coach. Happy days, Therm. . . . ODDS AND ENDS: Dentists: Strange men who ask women to open their mouths. Telephone Bill: Toll Tale: Clasped Envelope: One with a check in it. Rubber Check; Certificate for a long stretch. SAVE YOUR FINGERS: Slivers of broken glass can be picked up safely and quickly from the floor by using a moistened wad of absorbent cotton. . . . How many of you noticed that new 100 inch Betts boring mill in Bldg. 27. It's a beauty. . . . Marcia Neukom, Bldg. 31-1, looks very nice with her new hairdo. It is a sort of rolled up off the back of the neck effect. . . . RESEARCHERS ARE PROFESSIONAL AMATEURS: One of the leading scientists recently scoffed at the supersonic, atomic, spectroscopic "marvels" of present-day research. "We know almost nothing about everything," he commented, "and if you wrote the most imaginary things in the world, you wouldn't even be approaching what nature does." "They talk about the miracles of spectroscope which will detect almost infinitesimal quantities of substances. But give me a good hound dog. His spectroscope is better. Every housefly is equipped with an automatic pilot better than anything man has devised."—Hudson News letter. . . . SAFETY RAISER: Always use the safety equipment, guards, pliers, hooks, safety trips, etc. when operating your punch press or hydraulic press. Awful embarrassing to look up from a hospital bed and say, "Look, Mom, no hands."

Ramblings in Bldg. 31-2

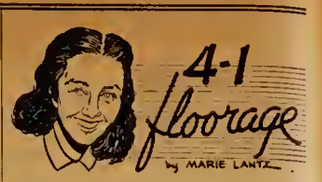
Harold Fremion has graduated from Apprentice School and is now working in the M-G drafting room. . . . Robert Hughes has transferred to Tool Drafting in Bldg. 19. . . . Virginia Mollet and her girl friends recently spent a costly week-end in Chicago. The girls parked their car in a parking lot and went across the street to meet a friend at the Palmer House. The girls had brought extra clothes to wear in the evening and left the clothes locked in the car. Virginia had worn her good clothes on the trip and only brought a box of Kleenex. When the girls returned to their car, they found that the ventilator had been pried open, and all their good clothes had been stolen—but guess what the thief left—Ginny's box of Kleenex. . . . Bob Gillum is sporting a new red convertible Ford. Oh, boy! . . . Our song writer, Eric Gawehn, will again have his songs on records. In a few days you will be able to buy Eric's two songs, "Merry Christmas" and "Santa's Coming," played by Ken Griffin on the Hammond organ. Watch this column for the serial numbers of the records of Eric's latest songs. . . . If you though Margaret Norman wasn't speaking to you this last week, there was a reason. Margaret had a wisdom tooth pulled and isn't supposed to open her mouth. We extend our sympathy to her for having to go on a soup diet. . . . Donations will be accepted to buy Bea Collar a bigger chair. It seems that at times Bea misses the chair and lands on the floor. . . . Please note: only 37 more shopping days until Christmas. See Elex for ball point pens, sachet, and cook books as well as cards and wraps.

An auto crash restored a man's memory. Often, that's all that's left after a traffic accident.

A dime is a dollar with all the various taxes deducted.



Firemen Capture Championship Of G-E Touch Football League



The Firemen won the Touch Football league championship this season for the third year. Team members are: (front row, l. to r.) Perry Esterline, Merle Morkoetter, Bob Baals, and Henry Vance; (middle row) Harold Blauvelt, Charles Bixby, Gene Etter, and Wilbur Hinton; (back row) Harold Summers, Al Meyers, Jack Angel, and Paul Stemmler.

The Apprentices were runners-up for the 1949 Touch Football league crown. The Apprentice School team consisted of: (front row, l. to r.) Don Konow, Ron Allen, Merle Aughinbaugh, Bill Smith, and Joe Barr; (back row) Paul Wuttke, Paul Mischo, Myron Auer, Dick Wagner, and Dick Gotschall.

The boys in Bldg. 19-5 welcome Harry Meades as he started to work in the lathe section last Monday. Glad to have you with us, Harry. . . . We are told that the Fall Revue was a big success. Art Rasor liked it, especially the horse act. . . . Ray Mutton has a way of doing things at just the right time. He relieved Art Rasor by making a perfect three point landing on the floor without injuring himself. We're glad, Ray. . . . Gus Wiedleman was thinking about getting a hair cut on the way home from work last Friday, but on second thought he decided to go straight home. His wife met him at the door with her coat and hat on ready to leave for the hospital. They made a fast trip to the hospital and very shortly after, a fine baby boy was born to the Wiedleman's. All three are doing fine. . . . Jerry and Mrs. Widner attended the Purdue-Michigan game at Ann Arbor Saturday. Jerry said Michigan won—darn it. . . . We have heard of people being allergic to smoke from someone else's pipe or cigars, and from stories that have been coming to us, Gene Dennie is one. When Milo Rauner gets his cigar going and Ed Gruber gets his pipe stoked up on the other side of Gene, things really start to whirl (Gene's head, we mean). . . . Art Braun, apprentice who used to be with us here in Bldg. 19-5, is the father of a baby girl born last Friday. Congratulations to Mr. and Mrs. Braun. . . . We have been wondering why Herb Thiele hasn't been attending the conservation club meetings but from what he said to one of the boys, he is going to have to watch his weight a little closer. He said he eats too much at those dinners and he doesn't want to get fat. . . . Our attention is again drawn to a heroic soul in Bldg. 19-5. We all read of the terrible accident which happened just outside of Huntington in which three people were killed. Art stayed on the scene for almost two hours helping the injured and directing traffic during that time. We are proud of you, Art. . . . The hunting season opens this week so get ready for some tall tales. Herb Thiele said he would probably have to shoot a couple rabbits for John Roemer next Saturday. . . . The welcome mat is out for Vic Barcus who has returned to the check room from Bldg. 6-1½ and also for Chas. Spencer who has returned to Bldg. 6-1½ from the Transformer div.

Ah, Armistice

All quiet now—to dwell within
The fury of the battle's din
Where many fell and gave life
To end the hell of war and strife.

But did it end? Ah, no, instead.
We had another war and more bloodshed.
For what? If Communism's hold
Brings back the tyrannies of old?

All quiet now—ye honored dead
Will have to pray for us instead.
That we may never, never cease
To pray to God—for His real peace.

We must have lost our lease; we're located now toward the south end of Bldg. 4-1. We find it a very satisfactory move. It's warmer here. . . . Last week Adam Flager vacationed and returned to us with news of a big surprise. It was an eight-pound bundle from Heaven, christened John Victor. He was born Saturday, Oct. 29 at the Lutheran hospital. Co-workers here presented the Flagers with a lovely blanket for their new arrival. . . . Note to Fred Higgins: Though goblins and such don't scare us much, we must admit we'll throw a fit—not only once or even twice—but EVERY TIME you show those mice. . . . To anyone who's hungry a hike to Huntertown may prove helpful. For Halloween celebrants the Watersons prepared 20 bags filled with popped corn, cookies and bubble gum; yet only seven kiddies showed up. Since then Lois has given no indication of gaining weight—so the Watersons apparently are still holding the bags. . . . Howard Hoffman is candidate for the meanest man during the Halloween season. He tied his dog to the front porch to scare away trick or treaters. . . . Betcha Carl Riedel's favorite song last week-end was "Baby, It's Cold Outside." Carl was one of a group of Scout Leaders who camped out at Big Island. . . . It's our apology to Avery Spayde. Though it appeared that your scribe used the wrong number, she didn't try to confuse roses with feathers. . . . Week-end before last George Hahn attended the Indiana-Wisconsin football game at Bloomington. But I.U. wasn't bloomin' much that day, were they, George? . . . Ted Schelper's nerves are improving. His nerves, as well as the car's windshield, were somewhat shattered when the car, in which he was riding, hit a stone. The stone bounced up, through the windshield, and left Tod slightly out-of-wind. This mishap occurred during a trip Ted and his brother were making to Illinois.

Team No. 8 of the Friday Night Girls' League enjoys a two game edge over Team No. 1 in its race for first place. Liz Shearer led the pin assault with a 533 total on games of 197, 137 and 199.

Bess Potts, leading the league with a 162 average, came up with another 500 series, a 526 on games of 177, 171 and 178.

Ethel Koontz got her second straight 500 series, a 501 on games of 132, 127 and a new G-E high single, 232.

Other high games were rolled by: Lois Drewett, 190; Bert Liggett, 180; June Gettys, 179; Marge Malizzo, 179; Ella Hardier, 174; Dolores Lauge, 174, and Marger Huber, 171.

Monday Night Ladies' League

Louise Fanning kegled a high series of 507 on games of 160, 195 and 152. Esther Muzzillo was not far behind with her 482 series, rolling games of 185, 140 and 157.

Other high games were piled up by: Opal Cook, 188; Edna Koester, 181; Justine Luyben, 179, and Frances Miller, 172.

Transformer Division League

The "M" and Watts teams are tied for first place with 10 wins and five losses. Bells are just one game behind for the second place position.

Apprentice League

The Compasses are out in front by four big games over the Scales and Dividers.

Dick Wuttke had the evening's only 200 counts, a 201 and an even 200.

Masonic League

Now we have four teams tied for first. Composite, Fellowcraft, Patrols and Doric, all have a 14-10 record.

Ed Crabill shot a 624 series on games of 210, 225 and 189 to head the evening's kegling. Two hundred scores were rolled by the following: Bailey, 203; Frank Quinn, 212; Ed Crayton, 210; J. Smith, 213; R. Crabill, 226, and Lauterberg, 204 and 209.

Gidley had a rather monotonous evening, rolling games of 138, 138, and 138 for a once in a lifetime triplicate.

Interdivision League

The Broadtails, Hire's Motor Parts, and Brouwers Tire and Battery teams are tied for first place with 16 wins and 8 defeats each.

Les Shroyer of Brouwers' Screwballs had games of 201, 234 and 216 for a big 651 total. Herb Habig, of Pierres, had the other 600 count of the evening, a 624 on games of 196, 217 and 211.

Two hundred counts were kegled by Whitey Ponsot, 213; George Luedeman, 215 and 212 (168); Rudy Zelt, 231; Russell Rose, 203; Ty Cook, 244; Frank Gitter, 212 and 203; Leo Elward, 202; Walter Seidel, 235 and 203 (151); Noah Kuntz, 245 and 211 (140); Hal Fanning, 211; Arnie Horstmeyer, 209; Erv France, 234, and Oscar Schelper, 221.

The games in parenthesis are the low scores, to give the reason why some of the boys didn't get that 600 series.

All Star League

The League will bowl at the G-E Club Saturday evening at 7 p.m. Top matches of the evening should be the Everett Scott vs. Bob Ramsey and the Roger Vaughn vs. Cel Huffman match.

Ed Kraft continues to lead the league with a 22-13 record. Roger Vaughn is second with a 20-15 standing. Herm Muesling's 1,121 leads the high five-game series total.

Come down to the Club alleys Saturday evening and enjoy the exhibition and then bowl a game yourself.

Below is the score bowled by the Lincoln Life Insurance team at Toledo, O., March 19, 1922, which won the ABC tournament.

	Tot.	St.	Sp.	E
Ed Kraft	638	20	4	1
Frank Farnan	612	16	4	0
Fred Zurcher	633	19	4	0
A. Greim	535	8	0	4
Bill Doehrman	580	14	5	0

Bowling and Stuff

The match game between the Mush Heads and Hard Heads, both teams from Bldg. 19-2, was hardly worth a bottle cap let alone the price of $3 that they charged. Frank Matthews was away from the G-E alleys and couldn't get a thing. Not only that, he had no one to carry him. The Mush Heads won by 170 pins, 2307 to 2138. Bob Buck was high man with 550. Moe Zollinger was next with a 512 for the only scorers over 500. Frank had a rousing 469. We also understand that the game of shuffleboard can also be a bit rough.

We notice plenty of G-E bowlers in the 600 and 520 Club lists each morning in the Journal-Gazette. Let's keep up the good work.

Ethel Koontz took over the women's high single game lead on a 232 count. Bess Potts continues to hold the high three-game total of 580.

Don Waldrop still holds the men's high single game, a 266. He also copped the high-three-game series this week with a 674 on games of 242, 268 and 164. Les Shroyer and Frank Matthews were formerly tied for this honor spot with a 651 each.

Decatur Fraternal League

E. Faulkner, of the Teeple Truck Line team, rolled the season's high series, a 694, as Teeple's won two from Elks.

Preble AC's took all three from the Elks. O. Schultz came through with a 603, but did not receive enough help from his mates as Moose No. 7 lost two to the G-E Club.

High Series—Faulkner, 694; O. Schultz, 603.

Two Hundred Scores—Faulkner, 259-219-216; McIntosh, 203-200; Lord, 221; O. Schultz, 212; Schneider, 200; Appelman, 211; Leonard, 204; Miller, 202; Werling, 213; Bultemeier, 216; Baumgartner, 206; Steury, 210, and Macklin, 206.

Legion Post To Sponsor Gun Match

Forrest Reed, secretary of the G-E Rod and Gun Club, has announced that American Legion Post No. 296 will sponsor a shooting match Saturday, Nov. 19. The match will be held at the FOP range.

Anyone interested in entering the competition is requested to contact Mr. Reed, Bldg. 19-3, or John Collins, Bldg. 26-3.

Bland Wins Miller Trophy At Recent Pistol Match

Lester Bland

Lester Bland, Bldg. 22, expert pistol marksman, won the Miller Trophy in a match Sunday, Oct. 23, under the sponsorship of the Anthony Wayne Pistol Club. His score was 259 out of a possible 300, using a 45-caliber, Government automatic pistol. Requirements for the match were 10 shots of slow fire at 50 yards; 10 of time-fire (20 seconds apart) at 25 yards, and the same amount of rapid fire, also at 25 yards.

The following Sunday, be placed second in the FBI shoot at the FOP range. Les averaged 96 for the match. The first place winner was Ray Atkinson, Bldg. 31-2. The match consisted of 50 rounds of 38 caliber shooting at quick-draw and left and right band shooting from distances ranging from 15 yards to 50 yards.

Les has been classified as an expert for the last five years and it is his ambition to acquire the master rating, which his friend Ray Atkinson has done. According to Les, Ray is a very hard fellow to beat with a hand gun.

Les has a long string of medals and championships bebind him, including several first and second places in State Championship matches. In 1946 he won the national pistol championship at Friendship, Ind. The following year he placed second. He has 31 medals and five trophies, including the Miller Trophy. Sixteen of the medals were awarded for pistol shooting. These include 10 championship medals, three second place, one third and two club trophy medals.

He has captained his G-E Rod and Gun team to a second place and two county cbampionsbips and one second place in state competition.

Les is shown in the above picture holding the trophy given his team for the Summer section of the Anthony Wayne League. Tbe Miller trophy is on the desk next to him.

FIREMEN PLAN FEATHER PARTY

The G-E Firemen will hold their annual Featber Party Thursday, Nov. 17, at 8 p.m. in the G-E Club auditorium. Tickets may be obtained from volunteer firemen.

Oscar Beaty says all the drivers who failed to attend the fleet safety award dinner at the Chamber of Commerce Thursday evening certainly missed a good feed and a very enjoyable evening. One of the remarks heard later in the evening was, "Gee, if I didn't know Jay Greer, I'd think he was a truck driver, too." Don't miss it next year, fellows. . . . Helen Hlawek is back on the job in the telephone room after a serious operation. Glad to have you back, Helen. . . . June Widman has offered to demonstrate her new Ford to anyone wanting to take a ride. "Be sure your life insurance is paid up," sez Bill Altekruse. . . . Earl Anderson, the mighty hunter, has returned from his annual sojourn into the northern wilds. He brought back two deer, the larger of which we think Mrs. Anderson shot. . . . The stag party the gang in Bldg. 20 had last Friday turned out to be a real success. Some of the boys looked very becoming with barbecued spare ribs draped from one ear to the other. The eats were plentiful and very good from all reports. Our old friend "Butch" Vegalues sorta got his doors mixed up. Too bad, but I couldn't get the whole story. The fellows left the party with a look of satisfaction which proves that a good time was had by all. . . . We now have a celebrity in our midst. Gloria Wiebke modeled for the Elex Club Style Show last week. Wasn't it rather warm for furs inside, Gloria? . . . Just a reminder—the office party is drawing near. Better buy your tickets early.

If some folks were as sour as they look the world would be in even a worse pickle.

OPEN BOWLING
3 to 11 P.M.
SATURDAYS
At the
G-E CLUB

Small Motor Team Leads Volleyball League Rivals

The Apprentice Machinist volleyball team defeated Main Office two games out of three in league play last Friday at the G-E Club gym. The scores of the match were 15-1, 10-15, and 15-12.

Winter St. handed the Squares Club a three-game defeat on games of 15-3, 15-8, and 15-10. The Small Motor team had two victories over the Apprentice Draftsmen. The final scores were 15-5, 15-13, and 13-15.

In the last game of the evening's play, General Tool fell before Taylor St. on games of 15-6, 15-10, and 10-15.

The next league play will be held tonight at the G-E Club gym from 6 to 10 p.m.

League Standings

	W	L
Small Motor	8	1
Apprentice Machinists	7	2
Taylor St.	6	3
Winter St.	4	5
Apprentice Draftsmen	4	5
Main Office	4	5
General Tool	2	7
Squares	2	7

Basketball Team To Play K of C, Indiana Rod-Wire

The G-E Club's Industrial Basketball team will play tbe strong Huntington K of C five Monday, Nov. 14, at 8 p.m. in the club gym. This game will be the team's last warm-up before league play starts Thursday night.

The G-E Club team will play in the YMCA Industrial Basketball League again this year. The League will be composed of tbe following teams: Tokheim, Salisbury Axle, Zollner Reserve, Master Builders, Eckrich and Sons, Capebart-Farnsworth, Magnavox, Joslyn Manufacturing, Rea Wire, Gas Co., Wayne Pump, ACWA, Inca, I and M Electric, Indiana Rod and Wire, International Harvester, and G-E.

The club will play Indiana Rod and Wire in their first league game Thursday, Nov. 17, at 6:45 p.m. This game was scheduled for last Thursday, but the Central high school gym was not available for that date. All league games will be played at Central high school gym Tuesday and Thursday nigbts. Tbere is no admission charge for these games.

Y-Owl Industrial Basketball League To Start Nov. 15

The YMCA Industrial Owl Basketball League will start Tuesday, Nov. 15. The four teams playing on the opening day are General Electric, Indiana Rod and Wire, Zollner, and Eckrich Packers. The first game will begin at 9:30 a.m.

The G-E Owls, managed by Paul Boyer, will floor a formidable quintet. The Owls have height and ability.

The opening schedule will be as follows: G-E vs. Indiana R. and W. at 9:30 a.m., and Eckrich and Zollner at 10:30 a.m.

The Choice Must Be Yours

You are naturally aware that two or more national union groups are now struggling to represent employees for whom UE has been bargaining.

Opposing sets of union leaders are fighting for control within the various locals. There are contests in many places over the possession or control of present union funds.

Already, we are getting demands and counter-demands as to which faction we shall deal with from here on. At some places, the question is already being raised as to who should be paid the dues we check off.

The newspapers are reporting that these matters are being variously approached within the locals—by court action, by wholesale resignations, by elections of various kinds, or by doing nothing toward change.

For our part, we have been and will be absolutely neutral in the battle of union officials seeking to control the UE and to hold members in— or get them out of—various locals or national organizations.

We want to—and must—follow carefully the course indicated by law in the question of what representative we will deal with as we must with reference to all other conflicting claims made upon us.

We hope all parties to any conflicts will take advantage of the orderly and peaceable procedures available through N.L.R.B. and the courts for resolving representation claims and other such issues.

The choice of retaining an old union affiliation, or selecting a new one, or having none at all is now, as always, for our employees to make.

There is, however, one area where we can all meanwhile act together. We want to continue to do—and we assume you will want to help us to do—everything possible to keep up the flow of General Electric products and pay checks in the face of the steel, aluminum, copper and other shortages caused by strike action.

GENERAL ELECTRIC COMPANY

Thanksgiving Preview

Steve, 4, and Dick, 11, can hardly wait to dive into the Thanksgiving turkey in front of them. They are the sons of Perry Esterline, Bldg. 2-2.

Dinner Meeting To Be Held For Foremen, Supervisors

'HUMAN RELATIONS' TO BE TOPIC OF ADDRESS AT SESSION DECEMBER 7

The Fort Wayne Management will be host to members of the Foremen's Association and the Supervisors' Club for their semi-annual dinner Wednesday, Dec. 7, in the G-E Club auditorium.

Fred Smith, Vice President and Director of Industrial Relations for the William Powell Company, will speak on "Human Relations. . . . The Art of Togetherness."

Mr. Smith served during the war as a member of the War Labor Board, and is the author of several national magazine articles.

Invitations will be mailed to all members of the two organizations.

Reservations Available For Elex Club's Trip

There are still a few reservations open for the Elex Club's trip, Saturday, Dec. 3, to Indianapolis for the Sonja Heine Ice Revue, Mary Leiter, president, revealed today. A fee of $3 must be paid at the time the reservation is made. The cost is $8.25 for members, $9.25 for others.

Parker Stresses Importance Of Public Confidence In Address To Squares Club

"Public confidence in General Electric is more essential than ever before to the continuance of our growth and the security of our jobs," R. I. Parker, Commercial Vice President in charge of the Central District, said in an address before 250 members of the G-E Squares Club and test engineers Wednesday night.

Mr. Parker stated that public confidence results from the same considerations on which is based employee loyalty to the Company. Good service and constructive criticism of Company products and policies on the part of everyone can be of tremendous assistance in winning and maintaining public approval, he added.

"Friendly relations between our

(Continued on Page 3)

To All Employees:

In America our calendar is filled with many dates which have a special meaning to all of us. Some of those dates are patriotic holidays, such as the 4th of July and Armistice Day. Others are of a strictly religious nature, like Christmas and Easter, and still others we look upon as just family days.

The observance of Thanksgiving Day is truly American. It is a patriotic occasion as it reminds us of the early beginnings of our America; it is close to the church, as on that day we humbly thank our Maker for our blessings, each in the manner of his own faith; that it is a family day is proven by the traditions that surround it.

Next Thursday each of us will observe Thanksgiving Day in the manner that he is able and to which he is accustomed. Though I know that we all have much to be thankful for in just being Americans, I hope that everyone will have other blessings which they have personally enjoyed during the past year for which to be grateful. Where there has been hardship and misfortune, may the spirit of the occasion enter those homes and help to give courage to face the tomorrows, that there may be more blessings to be enjoyed in the years to come.

Among the many blessings for which I am sincerely thankful is the friendship of so many of you and the fact that as an industrial family, in spite of all the problems we have had to face during the past year, we have been able to work together so purposefully in such an atmosphere of friendliness.

C. R. Matson

Works Manager

Elex Plans Annual Thanksgiving Dance

The Elex Club's annual Thanksgiving Dance will be held Wednesday night, Nov. 23, at the Prom Terrace ballroom.

Bill Miller's orchestra will play for dancing from 9:15 to 12:30 o'clock. Jean Kelley will be the featured vocalist. The semi-formal dance is open to the public and tickets may be obtained for $1.20 from any member or at the door.

Eva Fisher, chairman, is being assisted with arrangements by Sue Thompson and Marian Leiter, vice-chairmen. The committee in charge includes Maxine Daniel, Janice Mueller, Donna Bauermeister, Justine Luyben, and Mary Leiter.

22 SUGGESTORS ARE GIVEN LIGHTERS AS BONUS AWARDS

The following 22 employees were presented G-E monogramed cigarette lighters this week as bonus awards for submitting suggestions on which the regular awards were $10 or more:

H. F. Koch, Max Fielitz, H. F. Lepper, Norman Abbott, Robert Borer, John Lea, Alfred Arlic, Lee Mohr, Frank Chayka, Dorothy Crist, Richard Hobson, Fred Lahrman, George Noffze, Carl Hankel, Lois Connett, Russell Noll, Horace Franklin, Frances Fitch, James Sarasin, Gilbert Walker, Henry Wiegman, and Jay Michael.

Cigarette lighters have been awarded each week since Sept. 1 as a part of the Suggestion System Contest, which closed Tuesday.

G-E CLUB TO PRESENT SQUARE DANCE TONIGHT

A square dance for all employees, their families and friends will be held tonight in the G-E Club auditorium.

Sponsored by the G-E Club's entertainment committee, the dance will start at 9 p.m. and is free of charge. Music will be presented by Joe Taylor's Red Bird Band.

Store Has Ample Supply Of Christmas Decorations

An ample supply of Christmas lights and decorations have been made available for the first time since before the war, R. L. Fischbach of the Employees' Store, announced today.

Employees are urged to make their purchases early to avoid the rush.

Thanksgiving Day

Thanksgiving Day will be observed on Thursday, Nov. 24. The Broadway and Taylor St. plants, in general, will close on that day.

THANKSGIVING DAY

This Thanksgiving let us remind ourselves of what this joyous holiday really means—beyond the feasting and the festivities.

Thanksgiving celebrates the first year of freedom and opportunity enjoyed by the Pilgrims, those first brave settlers in our new America.

Those original settlers faced many hardships the first year. But through freedom and opportunity that the then young America already offered, they managed to make the first simple beginnings of our wonderful United States of America.

So, remembering the origin of this Great Day, let us offer thanks for this wonderful land where opportunity lights the way to a better life for more people.

Here Is Something We Can Really Be Thankful For

All of a sudden it hit me just now, how lucky I am. Nine-tenths of the world is afraid—but I haven't got anything to be afraid of. A lot of the world is hungry—I don't really know what hunger is.

Where my grandfather lived, he could never hope to "rise above his station." Nobody decides what my "place" is, and best of all, nobody wants to. . . . I can rise and grow as far as I'm willing to pay the price, in hard work and self-denial.

What I have is mine—I can spend it or save it, and if I save it I can keep it, for myself or my children; no man dares take from me what I have earned.

I can be lazy and just get by, or I can work and be paid more and more as I produce more. Or, I can go into business and be my own boss.

My children will start where I leave off; they can keep on, and go farther and farther, better and better.

I can think and say what I want. I need never shrink in fear of anyone. No one commands me, no one will command my children.

I don't much care what you call all this—free enterprise or the American way, or democracy; names don't matter: It's America. I like it. Don't let anybody dare try to take it away nor change it. I like it this way.

I fought for it once. My boy fought for it this time. Both of us will fight again if anyone, from outside or in, tries to cheat us of this we love. It isn't perfect but it's the best there is.

I like it. I'm grateful. Stop monkeying with it.

—Warner & Swasey Company

Let's All Help To Maintain Our October Safety Record

Throughout the month of October the Fort Wayne Works operated without a single lost-time accident, as was announced in a story which appeared on the front page several weeks ago. With an over-all plant total of 10,171 employees, this represents 1,579,748 man-hours without a single lost-time accident.

The success of our no-accident campaign is due largely to the fine efforts of all the employees here and to the coordinated efforts behind our community safety programs and more acceleration in safety discussions at managers' meetings, foremen's conferences and supervisory groups.

"While we work constantly as a plant-wide team to eliminate causes for minor injuries and these accidents which develop lost-time injuries," Herschel L. Smith, Works Safety Engineer, reported, "we pay considerable attention to the little accidents not causing injuries. Our program calls for precautionary training both in and out of the plant to safeguard against mechanical, physical and health hazards."

The Fort Wayne Works and all its employees have earned the praise of the entire General Electric Company for this fine record which we have achieved. Let us all continue to do our part in maintaining this no lost-time accident record in the months to come.

This week we will try to give you a first hand picture of the co-workers in the Plating section (commonly called the Duck Pond) and Division 19, Contributing Parts Section in Bldg. 17-1. In Bldg. 17-1 Fred Crickmore is in charge. He has been there 17 years, 15 of which he has been an Owl on the second shift. His service with the Company started 32 years ago, but you wouldn't know it to look at him for Fred has kept himself young by spending his free hours up at his cottage at Adams lake. During the last summer he has been busy adding to his cottage to make more room for more company. . . . You have heard about the best of the Owl golfers all summer, one of the boys on the other end of the list was Garland Myers. The fall of the year provides his favorite sport, however. That is football. . . . John Shanahan, another Owl Golfer, is a fisherman who likes to go to Michigan and Houghton Lake for those big bluegills. . . . Norm Gardner is a collector of pipes and likes to work around in his shop at home. He tells us that so far hunting for him hasn't been so good. . . . Roy Pflueger gets a bang out of tinkering around with autos and also has a woodworking shop. . . . A Tri-Lakes resident is Walter Esterline who tells us that fishing was good this summer whenever he could lay down his hammer and saw that he used to remodel his home. . . . Cards, cards and more cards is the hobby of Walter Bauermeitser, even canasta. In his spare time he makes lawn furniture. . . . Elmer Moring is a Canadian fisherman. He once caught a 20 pound lake trout that took him 15 minutes to land. He just had a short line of 1500 feet out when he snagged him. . . . Howard Beery likes to hunt but has had no luck yet. He has a cottage that he built himself at Lake Of The Woods. . . . Remodeling his home took up the spare time of Joe Bernardin but his favorite sport is hunting. . . . Harry Connor, an ex-sailor, is a red hot St. Louis Cardinal baseball fan. He thinks that Eddie Dyer is still O.K. He has done quite a bit of deep sea fishing. How did they ever make a landlubber out of him? . . . Keepin' his car in shape to run for the kids takes up about all of the spare time for John Miles. He likes to tinker around home too. . . . Ray Huhn likes all sports, but fishing where they are biting is what he likes best. . . . Louis Hesse is eight times a grandpa. He is at present living alone. . . . Jay Gaff moaned the fact that he couldn't see his two sons play for the Busco Eagles on Friday nights. Jay agrees with Gayle Harris that there is a Beast in Fulks lake. . . . Paul McCreary likes to fish but he can't sit around all day and wait for them to bite like his better half does. He says he loses interest when they quit hitting his bait. Maybe he doesn't like to drown bait. . . . Working on his "junker" so it will run keeps Bob Facks on the jump but he did manage to get a couple of bunnies since the season opened. . . . We had quite a time getting any information out of Lloyd Foulks but he did say that he was a grandpa and is plenty proud of it. . . . Charlie Hazen from Busco is quite a flyer. Cubs are his favorites. Football is his tops in sports but his hunting prowess is plenty sharp. So far he has seven rabbits and three birds but we have it on good authority that one bird had him so flustered that he shot at the clouds before he could collect his wits. . . . Just give Virgil Best a good helping of Hoosier Hysteria (basketball) and he is satisfied. . . . Ray Stanger, the last of the Bldg. 17-1 gang, was an ex-caddie from Foster Park golf course along with this scribe in the days when a quarter in the pocket of a teen-ager was a small fortune. Ray also was a member of the Jolly Boys in the Owl Golf league. . . . Now we turn to the "Duck Pond" otherwise known as the Plating section over in Bldg. 2-1. . . . The biggest member of this gang of water waders is of course Hugo Wengert who can carry that 300 pounds of his around almost as graceful as gazelle. He is a flying fan. I'll bet he has a two seater all for himself. . . . Charles "Bob" Wheeler was our able informant for this group. He has hobbies of hunting and working in his garden. He built a new home last year. . . . Kenny Driver also likes to hunt and fish, but his Roto-Tiller takes up the extra time that he can find. He also raises bunnies. . . . Adam "Bill" Spieth is a stock car racing fan. He drove in one race last summer but didn't finish. Next year he says he will try again. He also likes to hunt and fish. . . . Radio is the hobby of Wendell Hogle who joined the gang recently from Winter Street. . . . George Belscher, who can shoot golf in the 80s, is almost as good at shuffleboard. He is a general "handy man" at doing anything. . . . Larry Fuller, who is sometimes called "Ike," makes fishing and hunting a hobby. He also likes to do the fixing around his home. He has a cocker spaniel dog. . . . Guy Brundige built himself a new home last summer on the outside, now he spends all of his spare time on the inside. He got into practice by building a chicken house. . . . Over in Bldg. 2-E there are three fellows who we have the low-down on: Merlin "Jap" Gromeaux spends most of his spare time with a hammer and saw in his hands. They say he is quite a carpenter. He catches his big ones in Pleasant Lake in Michigan. . . . Bob Davison is quite a sportsman. He collects all kinds of guns. His hobby is set aside now while he is building himself an eight room home in Yoder. Bob tells us that it is really going to be snazzy. . . . Harold Orr has two boys and two girls, works with a dump truck and is now looking for a tractor. . . . RANDOM NOTES AROUND THE HORN: We hear that Bob Braun, Bldg. 26-4, had pheasant-burgers. He caught the bird on the ground and really let him have it but good. . . . Fred "Beau Brummell" Phillips, Bldg. 4-5, was really in the dog house the other day. Have him tell you about it. . . . If you are still with me I would like to invite you to the G-E Club next Tuesday morning at 9:30 to see the Owls play basketball. . . . Whenever you have any ideas for G-E Club activities pass them along to me and I will see that they get into the proper hands. It is up to you to make the most use of the facilities offered by YOUR G-E CLUB.

PENSIONER PARADE

Si Palmer, who retired with 50 years' service with the Company, has returned home from the hospital. He will be confined to his bed for a few weeks and at the present time is unable to have visitors. Here's a sincere wish that you will soon be feeling better, Mr. Palmer, and hope that you will be up and around shortly. . . . Another speedy-recovery wish goes to Max Pomper, who recently came home following an operation at the Lutheran Hospital. . . . Marcus Harrigan is a patient in the St. Joe Hospital. His condition is reported to be good and he would be very glad to see any of his G-E friends. A speedy recovery to you also, Mr. Harrigan. . . . Paul Noble is keeping busy in his woodworking shop, making a table for his daughter as a Christmas present. He also has made very nice letter-openers for his friends. . . . Mary Oceleston, recently retired from Bldg. 18-2, has returned from Chicago. . . . The cafeteria employees received a letter from Charles Wagner in Inverness, Fla. He constructed a trailer this summer to make the trip. He says that he had been fishing and getting some of those big bass you read about. . . . Bill Fritz has joined the Johnson, Moffett and Wehrs golf group. They report that Bill plays good golf. . . . Last week the Homer Hartmans and the William Wehrs visited Potawatamee and Saturday the traveling Wehrs were in Toledo. . . . William Fowler visited friends in Bldgs. 18-4 and 18-5 one day last week. We are sorry that he has not been feeling quite up to par, and hope that he will soon be feeling better.

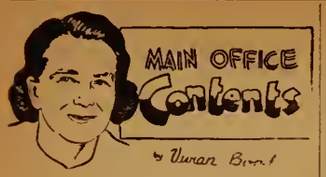
MOUSE TROUBLE — Marilyn Franke flew (and we're not exaggerating) out of her chair the other afternoon as a little mouse came running towards her. The girls decided it was such a little thing and fed it potato chips which were much larger than the mouse. Finally Joe Allen came to the rescue and caught the mouse and carried it out. This made Marilyn very happy and she started back to her chair when lo and behold another mouse crawled out of the hole. By this time Marilyn believed she was seeing things. But after Joe carried the second mouse out and the hole was covered, Marilyn and everyone else had a peaceful afternoon. . . . CONGRATULATIONS: Nov. 15, Sam Moore was married to Clariece Conoly of Florida. We want to wish you all the happiness in the world, as we know you will be. Before Sam left for Florida last Friday, the FHP Motor division presented him with a very lovely and useful gift for their home. . . . Wedding bells will ring for Joe Rowan and Jo Ann Eicher Saturday, Nov. 19, at St. Vincent Villa Chapel at 9 a.m. . . . TRAFFIC JAM—That traffic jam on the steps leading to the first floor of Bldg. 4, was caused by none other than little mighty Margie Murphy. Margie was going down the steps so fast as she left work one evening last week that her shoe flew off. The mad scramble that followed to recover it, amidst laughter, didn't affect the disposition of those behind one bit. In fact, it just helped to start our evening in a hilarious mood. HARD WORK—C. T. Johnson was seen duating Glenn Seabold's desk and when asked why, he said, "Glenn had been dusting his desk so he thought he had better return the favor" (turn about fair play). . . . NOTICE—Herb Osborne is wearing shoes again. After a few weeks of wearing houseslippers, due to a sore toe, he has decided to buy a new pair of shoes. . . . TOUGH LUCK — When the candy wagon arrived last week Paul Berghorn decided he could eat half an orange. So Glenn Seabold, trying to be nice said he would go and buy one and divide with Paul. In the meantime, Ernie Spaulding gave half of his orange to Paul—so when Glenn returned with the orange Paul was already eating an orange. Some days you can't make a nickel. . . . BYE BYE—The Production Division gave a luncheon in the Works Restaurant for Abbie Hartman, Tuesday noon. Abbie is transferring to Taylor St. today. The group also presented her with a farewell gift. . . . HELP—Will someone please send a letter to Santa Claus and see if he could get someone to help Denton Manecke finish painting his house? The poor fellow can't seem to get it done alone. He says and I quote, "The house seems to get bigger every time I go to paint it." . . . QUIET PLEASE—Everyone is wondering how Judy Clark kept quiet for two minutes last Friday morning, Nov. 11. How did you do it, Judy? . . . BEWARE—When Maurice Bennett was vacationing in Arizona he went to pick up a pretty stone and something jumped up and hit him in the knee. He thought it was a snake, but to his surprise he diacovered there was a jumping cactus on his pant leg. He had to go back to the car and have his wife pull the needles out of his knee. He wishes to warn anyone going there to beware of jumping cacti. They are quite painful aren't they, Benny? . . . FLASH — Anyone wanting any knitting yarn wound should go down to the Engineering File Room and see Donnabelle Degler. She will sure fix it for you. . . . FOOTBALL—Weir Anderson attended the Purdue-Marquette football game last Saturday at Purdue. . . . CONGRATULATIONS — Glen Willits and J. A. McKim received word laat week of passing their exams for Professional Engineer'a licenses. . . . PRO—Hugh Folsom bought some black golf balls so he can play golf when the snow is on the ground. He also has taken up bowling. His bowling score is almoat as high as his golf score. . . . NEW CAR—Don Reek is sporting a brand new Plymouth. Some guys have all the luck. . . . CONFUSED—R. G. Dobbin was thoroughly confused when he heard he had a reservation at the Ten Daily Hotel in Atlantic City. Did you think that was a place under the boardwalk, Bob? . . . MISTAKEN TIME—We understand that Mr. and Mrs. Harry Balz had intentions of attending the G-E Club Fall Revue Sunday night, Nov. 6, at 7 p.m. They were expectantly waiting at the entrance at that time but no performance was scheduled. . . . HAPPY BIRTHDAY to Helen Conrad who celebratea her birthday Nov. 20. . . . COINCIDENCE—Ted Ross has not been able to bowl with the Aircraft team on two occasions. Both of these times and only these times, the team won all three games. His team-mates are now consoling him with the argument that it was only a coincidence. . . . WELCOME—to Jane Hellan who started in the A.C. Section as an engineer assistant. She came here from Works Lab. . . . HAPPY BIRTHDAY TO — Donna Bauermeister, Nov. 14; Joe Donahoo, Nov. 12; Joe Gardt, Nov. 14; Nate Horton, Nov. 10; Jim Hilfiker, Nov. 3; Ralph Kaeck, Nov. 2; and Harold Sherbondy, Nov. 5. A few of these are a little late. . . . BUZZER HAPPY—The file room girls would like to know why Jack Jennings doesn't grow up. Maybe he would like aome one to buy him a buzzer. Seeing it in front of him must bother him. Congratulations to Joan Walter for suggesting the idea for the buzzer. . . . BANG BANG: It was observed Friday afternoon that Phyllis Hines had a large hammer lying beside where she was typing. We wonder if she was using the hammer to get the proper impression. . . . OLD BUDDY: We sure were glad to see Larry Hemphill back to visit ua last week. You are always welcome, Larry. . . . OVER OPTIMISM: The Small Motor volleyball team ia holding a one game lead over the rest of the teams in the league. Feel pretty good, huh, fellows? . . . HIT THE JACKPOT: Virginia Mariotte and Nadeen Junk are two lucky gals who received $3.15 apiece (wonder what they did with all that spendulicks) on a suggestion for a screen on the drain of the mimeograph washing machine. Who knows, maybe you both will hit the jackpot the next time. Keep 'em coming. . . . We weren't supposed to know this but Gloria Hormann got a Tootsie Roll out of the spendulicks.

Foremen's Association Hears Address By Vernon Sheldon At Annual Dinner

Members of the G-E Foremen's Association and their guests heard a talk by Vernon C. Sheldon Wednesday, Nov. 9, at the organization's annual ladies' night and dinner meeting in the G-E Club auditorium. Approximately 180 persons attended the meeting. A. R. Kissinger, foreman in Bldg. 4-5; Everett Lindeman, president of the association and foreman at Taylor St., and L. A. Bond, foreman in Bldg. 26-5, are shown, above, talking with Mr. Sheldon, following his address on the topic "A New Formula."

Jordan Gunkel has a new television set, and everyone is welcome to come over and see it. . . . We hear Bob Enz had a big time at a wedding reception last Sunday. He said he entertained all the women while the rest of the men played cards. . . . Bessie Chapman wishes to take thia opportunity to thank each and every one for the beautiful gifts and cards sent to her on her birthday which will never be forgotten by her. Thanks again. . . . The photographer muat have thought Dutch Norwalt was going to break the lens because he went away and never came back. . . . The boys were surprised that Dutch bought a new Plymouth instead of a Dodge. . . . Wonder why Ralph Braden has so much trouble with the washing machines he sells? . . . Genevieve Conrad and her husband came back from their hunting trip and brought back a deer. . . . What causes Bill Fowler to disappear along about 3:30 in the afternoon? . . . Otto Braun claims all you hear anymore is, "quack, quack here and quack, quack there and bang, bang everywhere." . . . Fletcher Cumbey, the big sheep rancher, had an emergency phone call the other day. He had to drive home and chase the rustler off his ranch. . . . Otto Braun went duck hunting on opening day. . . . We hear Benny Kelling is going to plant cocoanut trees on his farm, ao he can eat all the cocoanut piea he wants. He's decided to do away with the middleman's profit. . . . Anyone wishing to know any duck calls contact Leo Klejnot. . . . Oris Cagnut has a new Ford. . . . The boys think Buzz Hiser should have a dog to find the birds after he shoots them. . . . Eddie Alter had a lot of excitement last week between the Kroger store robbery and then his car accident. . . . We wish Otto Braun a lot of good luck in his new home. The alarm clock was changed and he was up the first night at 11 p.m. ready to eat breakfast and then come to work. . . . Vivian Johnson was reaching for a small piece of candy and fell off her chair. Howard Draper came to her rescue. . . . Edson Dickey moved to the office from Bldg. 26-5. . . . The girls in the office worked overtime Saturday and had a potluck. They seemed to have had quite a time with the whipping cream dispenser. . . . Sorry to hear about Novella Pape's illness. We all wish her a speedy recovery.

Parker Stresses

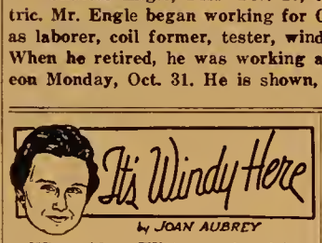


(Continued from page 1)

various employee groups, based on an atmosphere of mutual understanding to which our social activities contribute so much, has a very definite effect on the customer's acceptance of our efforts to serve," he explained.

Mr. Parker stressed the fact that in view of the very highly competitive situation in all markets, everyone must become more conscious than ever of their individual responsibility.

Andy Anderson's tournament team went to Hartford City last week-end to roll in a tournament. I won't say what Andy rolled, but if he would have passed a river on the way home he would have thrown his bowling ball in it, bag and all. . . . Kenny Bainbridge is now back on hia old job. Kenny says he is going to atay on that job now until he has 25 years' service then maybe when he takes another job they will let him keep it. . . . Things are quiet around here since Oral Emrick has gone off the second trick. . . . Bob Johnson had quite an experience last Thursday evening. Bob had been working second trick ao he could go hunting early Friday morning. Bob got off at 11:48 and was walking to hia car in the parking lot. All of a sudden something hit him from behind and he let out and grabbed something to hang on. He turned around and there was a taxi cab right up against him. The driver opened the door and said "I didn't see yon back there." Bob said that he didn't see him either, that we drive forward not backward. That took care of Bob's hunting for Friday, in fact he was laid up the whole week-end. . . . Roy Pickett can't figure out whether Howard Householder sprays the stators or aprays his apron and then wipes the statora on it. . . . Charlie Penn traded off his old Pontiac for a new Buick. Charlie says there isn't any other car but a Buick for him from now on. . . . Ed Fiedler is on his vacation this week and his little helper Doyle Sheets is lost without him. . . . Ruth Cavender is about ready to bowl in the Classic league now that she had a good count laat Friday. . . . Irene Shaffer went to the Michigan football game last Saturday. . . . Gus Harrison is back on packing again. Last week he worked over in fan motors as set up man. . . . Sarah Moore went to Toledo over the week-end. Clarabell Castle asked her what she went there for and Sarah said to find a man. Clarabell was so dumbfounded that she forgot to ask Sarah if she found one. . . . Gladys Mosshammer Ponizan has been pretty busy here lately riding around in her new car. . . . Maurice Roe must be going into the florist business. Every morning he brings flowers for different people in the division. . . . Have you noticed those pretty green pants Bob Robertson has been wearing lately? How could you miss them! You can see them fully five minutes before he comes in view. . . . Art Hubler had better start believing in Santa Claus. We hear he didn't want to get in the Christmas exchange this year. For his own good he better reconsider because his co-workers are thinking up a nice present for him. Here's a tip, Art, it has something to do with horses. . . . Clark Holmes is getting farther away from cigarettes. Have you noticed that new cigarette holder he has been puffing on? . . . Ed Brockall is also another one of those in the new car class. . . . Was Doyle Sheet's face red last Monday! He got his directions mixed up when he came out of the conference room. It probably would have been a lot redder if Andy hadn't been there to keep him out.



We trust that your Thanksgiving will be festive and not overshadowed by the unsettled local and national upheavels, to say nothing of the rapid approach of Christmas. . . . CONGRATULATIONS: Last Tuesday Edna Welch's co-workers united in helping her celebrate her 30th anniversary with the Company. They had a cooperative dinner (the menu sounded good) in the office of Bldg. 18-4, presented her with a gift, and many pictures were taken. . . . NAME CONTEST: Happy birthday to Pat Olinger of Bldg. 18-5. Among her birthday gifts was an adorable black and white cocker puppie. The pet has not been named. We will officially launcb a "Name the Puppie" contest. The prizes will be nil but we are sure you will want to enter. Box tops are not required but a can of dog food would be acceptable. Just address your entry to Bldg. 18-5. . . . HAPPY BIRTHDAY—Thelma Stone and Chester Kowalski will both have double celebrations on Thanksgiving Day. That is better than on Christmas Day. . . . VACATIONS. Robert Meyers, Bldg. 18-1, is enjoying a vacation this week, bunting. Next week Ralph Clark will take off for parts unknown for his tbird week's vacation. Also, The Bonds—so next week, Pat Olinger, Bldg. 18-5 will write this column. Please send your news to ber or call 465 on Friday, there is an early deadline due to Thanksgiving vacation. . . . DEER HUNTING—Glenn Forst, Gladys works in Bldg. 18-1 Payroll, is enjoying a bunting trip in northern Michigan. . . . William Fowler formerly of the Data Bureau visited his friends and former coworkers last week. We are sorry that he has been "under the weather" and hope that be will recuperate rapidly. . . . Question! Who drives the convertible that picks up Delores Patterson so regularly? . . . Speaking of hunting, Ray White, Bldg. 18-4, took off in the direction of Webster Lake. Sure enough last Friday morning he had the head from a ring neck to prove to everyone that he could still bring in the birds. . . . A. E. Leider has been quite unhappy with his rigbt shoulder, but we are happy that there is now some improvement. . . . Estel Monroe was home ill the first of the week. . . . Last Saturday the Russell Burns (Opal of Bldg. 18-1) and The Daffonns (Helen of Bldg. 18-1) were among the crowd from Fort Wayne which helped dedicate the new Moose Lodge at Huntington. . . . Karl Reid and Ruth Givens of Bldg. 18-5 have their special epithets over the phone. We now hear them addressed as Mr. Smitb and Mrs. Jones, wbat won't tbey think of next. . . . DOROTHY LONG, our Bldg. 18 polio victim, is improving. The last reports tell us that she is now walking a few steps and that is something we have all been waiting for. . . . Helen Gelert invited the girls in Bldg. 18-2 out to see her new bome on Thursday evening. Mary Occleston who recently retired was among the guests. . . . Marilyn Mattes and Doris Lehman, Bldg. 18-2 recently visited Mary Brouwer who recently left Bldg. 18-2. She sends ber regards to all ber friends in G-E. In case you have been wondering who the new girl in Mr. Swager's outer office is, she is not really a new girl, just Lucile Curie with a very becoming new hair-do. . . . Have beard several people say that they plan to see tbe Judy Canova sbow at the Quimby Auditorium Wednesday. Thelma Stone and Phyllis Tanner plan to go from Bldg. 18-1. . . . Elizabeth Carnell, Bldg. 18-1 is all anticipation, her three year old niece "Penny" Pollack of Cincinnati will spend the week witb her. . . . The Credit Union Card Party last Tuesday evening attracted a number of players from Bldg. 18-1. . . . Next week, Tuesday to be exact, the G-E Volunteer Firemen will give away all sorts of things, not that I expect to be on the receiving line—but it's fun to look forward to anyway. . . . PETER GEORGE III: Our congratulations to Mr. and Mrs. Peter Kuttner, (Peter works in Bldg. 18-3) on the arrival of a 7 lb. 15 oz. son. Leo W. Kuttner (Pete) of Taylor Street, the grandfather, is holding up very well.

Engle Retires With 42 Years' Service

Charles Engle, FHP Div. 17, left recently for retirement after 42 years of service with General Electric. Mr. Engle began working for G-E in 1907, doing armature work. He has worked on several jobs such as laborer, coil former, tester, winder, repairman, speed lathe operator, stub lathe operator, and grinder. When he retired, he was working at Taylor St. His friends and co-workers honored Mr. Engle at a luncheon Monday, Oct. 31. He is shown, above, with his son and daughter, Arnold and Helen.

When Alma Witte wandered into Div. 14 office last Friday and was trying to give them our checks, her mind must have been a million miles away from Fort Wayne. Really, Alma, you have been around here long enough to know where our office is. . . . Francis Thomas and John McComb of Div. 13 are now on a deer hunting trip in the Upper Peninsula of Michigan and we hope they have a lot of luck because the fellows are looking forward to a big venison dinner. . . . Charlie Briggs was on vacation last week and he said the hunting was fine. The only trouble was it was just like at home, surrounded by females. At home he has a wife, three daughters and a female pup. So when he goes bunting all he can find is female birds, and he was really disgusted. . . . Frank Hutchinson from River Works in West Lynn is with us in the Planning Section for a few weeks. Nice to have you with us, Frank. . . . Welcome also to Portia Schaaf, who joined the raw material section recently. . . . F. L. Gale is also on vacation this week, but is just taking it easy at home and might try his luck at a little hunting. . . . The girls are really doing all right with their knitting. Peg Tursebman has one mitten nearly finished and if she hurrys she may be able to finish the second one before Christmas.

Information Clinic

QUESTION

I would like more information about the pension plan, in which one's wife may receive a portion of the retired employee's pension after the employee's death.

ANSWER

With the consent of the Pension Board and subject to Company medical examination, a participating employee may, at the date of his retirement, elect to receive a reduced pension in order to provide for payments being continued after the employee's death to a surviving spouse during the latter's lifetime. This is called a Survivorship Option.

The Survivorship Option of the Pension Plan provides a reduced pension under two options. Tbe amount of the pension shall be actuarially determined by the Pension Board on the basis of tbe age and sex of the employee and of the spouse.

Congratulations to Mr. and Mrs. John R. Clendenen who are the proud parents of a baby girl Lois Marie. . . . Carl was kind enough to let Dick White go hunting out at his place. But it was the first and last time, because Carl still hasn't found his two cats. . . . The office has a "new look" since the furniture has been rearranged. . . . I've heard some pretty good hunting stories, but Mr. Wolf still claims he has run over more rabbits than any apprentice has caught. . . . Our congratulations to Joan Eicher and Joseph Rowan who will be married tomorrow. We wish Jo and Joe many years of happiness. . . . Morton was very generous in passing around fried chicken (?) one day last week. After every morsel had been devoured, Smith sweetly informed the fellows they had just eaten that old owl Mort caught last week. . . . Merton Allen is now known as "file-head" for details see Dick Wagner. . . . Flash! Fire Sweeps Apprentice School—or was that Carl sweeping water from the low spots? Due to quick thinking by "cool" heads the small blaze outside Bldg. 12 was extinguished in the record breaking time of 30 minutes. The alarm was sounded by someone in the mill section, and they sent Fireman Ecenbarger racing down the aisle for the fire fighting equipment. He came back with a hand pump. Of course with Chubs Auer on the pump, how could Harry miss, but he did. Next came the bucket brigade with Harry dashing from hose to window. Three buckets were used—a five-gallon pail, standard mop bucket and last but not least a pedestal grinder cooling cup. The fire still blazed on! Then came the mechanized division with Pugh, Allen and Werling cranking water out of the compound tank. This succeeded very well until the tank went dry. The fire hose was then rushed to the scene from the gear section with only a dribble coming forth at first. Then it began to pour—out of the side of the hose connection. With the fire nearly out, Harry and Mort finally subdued it by using a good fire hose from Bdlg. 12-1. . . . All that trouble one day trying to get water, and the next day the water pipe broke in the tool crib and everyone was frantically trying to get rid of the flood. This time it was Homer Thayer and Carl Johnson who saved the day by pumping the water out of the tool crib. Neitber Carl nor Homer suffered any ill effects from taking their Saturday baths a day early.

The pipe that Frank Blotkamp smokes is one of the most atrocious that we have ever come into contact with. The other day he laid it on Jimmie Hamilton's bench. Well, Jim just could not take it as Frank smokes everything from mullen leaves to shavings in it, also a little horse hair now and then. So Jim picked up the pipe, disassembled it and tossed the pieces in different directions. Frank had an awful time finding the parts, but he did. Taping them together, he restored the fume pot to service. Now Jim tells us that he is going to have a requisition put through for a gas mask. . . . Ray Heck, our auto mechanic extraordinary, is now busy reconditioning an old car that laid down and died many moons ago. He claims that he will have her running in a very short time. He made the rounds of all the junk yards for his replacement parts, saying that he likes parts with plenty of tolerances in them for his reconstruction jobs. In other words he likes a lot of shimmy and shake in his cars. . . . While departing from work the other afternoon, Leo Herber picked up his lunch kit as usual and left the plant. That evening his wife opened the kit to clean it for the next day's charge, but it was full of food. She asked him why he did not eat his lunch. Saying that he did and taking a good look at the lunch box, he discovered he had taken one of the second trick fellow's dinner pail. Living quite some distance from the plant Leo was unable to return it, so some poor soul had to do without his daily sustenance. . . . We report that the first of this month William Mauger and Herman Doehrman were appointed official seeing-eye dogs of the drill press section. Their duties include keeping a close vigil upon their coworkers and helping them out in whatever way may be necessary. So if any of you need expert guidance, get in touch with Herman or Willie, our super bleed hounds.

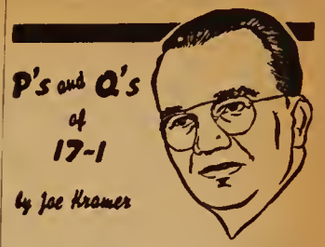
Here it is the hunting season is upon us and we don't have any stories worth printing except the one that almost took place the other eve when Clisty Rich was going to take the Misses Myers, Weaver, and Schindler on a trip snipe hunting. I guess the reason they didn't go was due to the fact they couldn't get a bag to throw the snipes into. . . . No, she wasn't hurt, nor her foot wasn't fast. It was only Julia Sprunger singing, "Halleujah, I'm a Blonde." Boy, she sure can yodel. . . . Dorothy Ketrow is the gal who is wearing the cheaters you see over on the winding line. Don't you think she looks rather snazzy? . . . Al Windmiller is consistently getting his name in the WORKS NEWS. Sure and now he got himself a title, Grandpa. His son Jerome and wife are the parents of a baby so that makes Al a grandpa. . . . Clarence (Bones) Brunnegraff, the boy that herds the jeep around on the second shift, has a tough time getting the bull by the horns and just when he thinks he has things under control—ker wham. . . . Get your turkey here. Yes, the GeCode girls have the tickets now on sale for that big bird and now is your chance to get one free. . . . Clarence August is off due to illness. Hurry back, Clarence. . . . Effie McGill decided to kill two birds with one stone by taking her third week of vacation and celebrating her birthday all at one time. Thanks for the treat, Effie. . . . Peter Koenig never woke up to the fact that Nov. 7 was his birthday until 3:30 when he made out his time. . . . Evelyn Plasterer just fairly beams over her 212 howling score. . . . All the pretty originals you see Agnes Nesswald model are all her own making. Agnes is quite a seamstress. . . . Olive Journey was a visitor at Anderson recently. . . . We thought she was a new girl on KH Line but at second glance it was Bonnie Foor wearing a new pair of glasses. . . . Regulars seen on the golf course are Red Morgan, Johnny Baumann, and Mary Miller. They are wondering if the cold weather is responsible that George Laurent, Bob Andrews, and Kenny Gaunt fail to come out. . . . Clyde Gould and family spent the week-end of Nov. 12th at Cedar Rapids, Iowa. . . . Meet the new Mayor of Wren, Jason Moser also George Myers, of the Lab, treasurer. Congratulations. . . . We extend our sympathy to Chester McIntosh upon the death of his mother-in-law, Mrs. Ada Martin and to Marcia Martin, a former employee. . . . Bob Striker also belongs to the "New Car Club" and is the proud owner of an Oldsmobile. . . . Christine Andrews couldn't figure out why her sister didn't get her with the car one noon and later on remembered she had driven to work that morning. . . . Charles Keller, Ray Shackley, J. K. Eady, Lloyd Baker, and A. Buffenbarger have birthdays in the month of November. Congratulations. . . . In bowling the other night Dort Schnepf bowled a 181 and was so thrilled about it she almost let out a war whoop. . . . One special event for this week was the opening of hunting season. Several employees managed to get their hours and vacation arranged to take advantage of early shooting. Erhrman Johnson and Curt Baxter are vacation hunters. Hez Cochran is working nights, and, pheasants, look out this week for Hez is out to shoot um up. Hope you boys get your bag limit. . . . Mary Meyers is again planning a vacation in Northern Michigan during deer season with her sons. We'll be waiting to hear if they have any luck shooting a deer or two. . . . Last week there was another birthday that was celebrated but was mentioned too late for our last issue. Ella Scherry passed out sweets. Happy birthday, Ella, many more celebrations. . . . Another birthday was discovered one of our winders "Curley" Reynolds is celebrating today. Happy birthday, Curley, and may you have many more. . . . Margaret Waltke entertained last Sunday at a birthday dinner for her father who was 87 years young. We all hope he has many more of them. . . . It is a good thing Armistice Day celebration comes once a year. Wonder what made Irene Bieberich feel so tough the next day, also Geneva Pickering so run down? Pauline Dixon hasn't any complaints as to the fact. What a wonderful constitution you have, Pauline. Anyway these girls had a good time celebrating with their husbands at the Legion supper. . . . It's pink booties again. Once more Hilda Staley is grandma. The son-in-law, our former engineer Barney Hartough, and Hilda's daughter Peggy, the former attractive secretary. So far Hilda knows the addition as Jane. . . . One news item: Margaret Waltke is on a diet—one box of cherry flips a day is her limit.

Irene Meyers Addresses Rubber Co. Girls' Club

Irene Meyers, Supervisor of Women's Activities and adviser to the Elex Club, was guest speaker at a dinner meeting of the board of governors for the U. S. Rubber Company's Girls' Club Tuesday night, Nov. 8, in the private dining room of the Ace Cafe.

Witte Completes 40 Years

Edward W. Witte, Bldg. 8-2, has completed 40 years of service with the Company. Wednesday, Nov. 9, he was honored by his co-workers and was presented a 40-year certificate.



Mary Heymann

Time to trade again. Time rolls by so fast, it is difficult to realize that it has been six months since two of our nurses traded places. Monday Berneta Welbaum came to Broadway in Bldg. 21 on second shift and Mable Wilson treks out to Winter Street on days. . . . Edith Bald, R. N., classmate of Mae Mulvane's spent Tuesday evening in Ossian. The breezes carried the scent of liver and onions all the way to Fort Wayne! . . . Back in the days of the Revolutionary War a lot of history was made by the famous "Red-Coats". Today, not to be outdone by these scarlet-coated boys, we have a new organization, namely the "Green-Coats". According to the latest count among the members of the Medical Section, there are eight green coats! Anyone else going coat shopping? . . . Dr. Garton celebrated a birthday last Monday and was presented a gift, cake and coffee by members of the Section. . . . The doctors and their wives entertained the employees of the Medical Section at the Murdock home last Saturday evening. Technicolor pictures of their travels were shown during the evening, followed by a delicious buffet luncheon. It was a very delightful party and enjoyed by all. We are hoping to see the pictures all over again sometime. . . . Imo Jean Schwartz spent the week-end with her brother and wife at Purdue University and attended the football game Saturday afternoon.

Celebrates 40th Anniversary

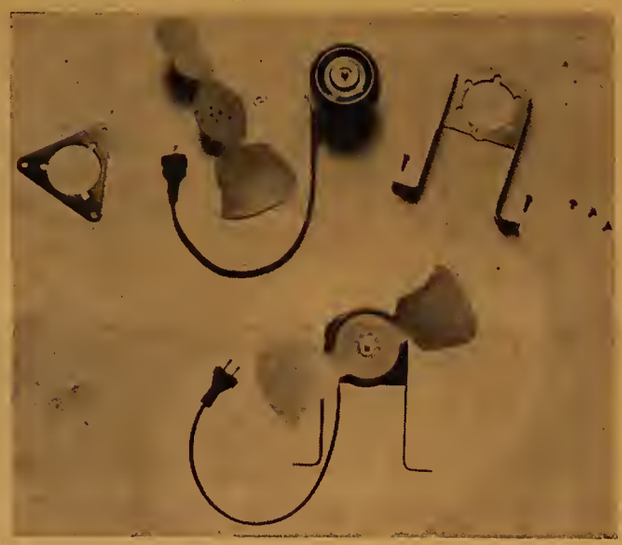
Victor W. Blomenberg, Bldg. 31-2, completed 40 years of service with General Electric Friday, Nov. 4. He was presented a 40-year service certificate, and received the congratulations of his friends in the Motor and Generator division. Left to right in the picture are: P. S. Stough, Manager of Engineering for the Motor and Generator divisions; R. A. VanHorn, E. P. Ginder, R. P. Walworth, and Mr. Blomenberg.

The deer and the bear are going to be in for a rough time this winter. Ed Arthur is going bear hunting and Clyde Crabill is going after deer. We have been informed that Ed is going to get more than one bear. Clyde Crabill has received a number of deer lures and hunting information from Loyal Decker so he is quite sure of returning with his quota of game. . . . There was quite a smoke raised in 19x72 group the forepart of the week, but it wasn't a fire. What with winter weather, Jerry Humbarger had dug out his corn cob pipe and was smoking fast and furious to keep warm. . . . Andy Degler is going to compete in the club noted for being tellers of tall tales. Andy is practicing noon hours by describing some adventures he had in Texas. Ask bim about the Texan that fell in the well and how he got out. Boy, that should win first prize. . . . The Florida bug is really biting people in Bldg. 17-1. George Mosshammer is the latest addict to plan a trip south. George has received numerous pamphlets describing the fair cities of the south. He has decided to leave Ed Brosche be his highway guide to Florida and have Vic Hall schedule his return trip. . . . Bill Walt, having been a master at bingo calling for a number of years, had better prepare himself for some competition. At the Bldg. 17-1 office party last Friday, Bill Franke ran the bingo game, and from all reports, Bill is going to give Mr. Walt a race for his money. . . . We wonder how many sore muscles there were Saturday and Sunday after the square dancing and rope jumping exhibitions that were put on during the party. Norm Bender kept the square dancers in line. Norm says that what was wrong, they kept in too straight a line. You are not supposed to walk straight when you are square dancing. Bob Dent did a good job in leading the community singing. A special song was presented by Vic Hall with gestures and facial expressions. The "Schnitzel Bank" was the song presented by Vic with the crowd joining in for the repeat phrases. Attendance prizes were won by Mrs. Norm Bender, Agnes Cordes, Mary Gerhard, Betty Sue Morris, Tavie Popa, and Miriam Valentine. The party was held at Elmer and Lillie Pion's country home. Elmer must have really worked to get the nice fireplaces and have the tables set up like they were. It was a lot of work for Lillie and Elmer and we want to thank them very much for their hospitality. We just about forgot the speech made by Elmer Brown concerning the can opener salesman from Canton, Ohio, while standing on a wabbly log. Agnes Cordes and Addie Masbaum, members of the food committee, did a good job keeping the food coming from the kitchen to the table in the yard. Bob Dent also very ably assisted by passing around coffee without cups. Frank Hickman proved the old adage that you are as young as you feel by giving a remarkable demonstration of the way they danced a few years back. Argend Denny and E. P. Tickel even joined in the square dancing with a little persuasion. Denny said that after a round of square dancing it was harder to do that than spend a day working in the field.

FHP Motor Divisions Announce Sale Of Multi-purpose Fan Kit

The Fractional Horsepower Motor divisions have announced the development of a Deluxe Multi-Purpose, 10-inch Fan Kit, with long-life, pressure-lubricated motor.

The sale of this kit is being conducted directly by the divisions through the use of coupons, which have already appeared in the Country Gentlemen and Farm Journal magazines.



The fan kit, originally intended for the ventilation of poultry houses, operates on 110-120 volts, 60 cycle lighting circuit. It is quiet, and requires no attention, even with continuous year-around operation, and may be mounted in any position. The kit includes all accessories for installation.

In addition to poultry house ventilation, this Multi-Purpose kit is also ideal for use in many home-designed fan units for moving hot or cold air. As a hot air booster, it can be mounted inside radiators to draw heat through long runs of pipe. The kit may also be used as an exhaust fan for kitchens, barns, milk houses, laundry or utility rooms, or many other jobs.

When the kit is used for the ventilation of poultry houses, it keeps litter drier and birds healthier. Based on test results by several state agricultural schools, it has been found that each fan will move approximately 360 cubic feet of air per minute. Best results are obtained by using one fan unit for each 125 to 175 hens.

If a choice of mounting exists, the exhaust fan should be located on the side of the building opposite from which most prevailing winds blow. If this cannot be done, louvers should be provided to protect the fan from "bucking winds." The fan should not be mounted outdoors unless it is protected from the weather.

The kit, which is regularly sold for $9.95, has been made available at the Employees' Store for only $6.65.

The Multi-Purpose Fan Kit is shown, above. At the top of the photo are all the parts included in the kit, while the assembled fan is spotlighted below them.

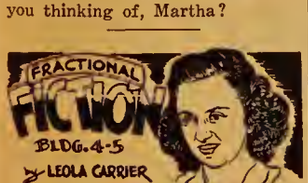
The Hunting Season Is On! Watch this column for latest developments and results. It looks like the women have it on the men this time, so far the only pheasants I've heard of anyone getting is Mayme Carney. She got one Thursday and another Saturday! Of all the men I've asked nary a one of them got even a shot at one! . . . Rabbit hunting was good for almost everyone in 1x10 but few if any birds. One fella thought that Earl Sexton was a rabbit and shot him in the ear! . . . Freeman White, 1x65, will believe Art McNamara the next time he tells about catching a big fish! The head of one found its way into White's coat pocket. . . Herb Bauer 1x10 caught a "Popeye" fish last Saturday—it was nine and a half inches long and had only one eye. It had to be blind to run into his hook, that is what he says! . . . Fred Couture was disappointed the other day when the candy lady did not have his favorite raisin pie and he had to eat a mince pie. . . . Bill Wickliffe is sporting a new Pontiac these days. . . . Here is another hunting story about a lady. Geneva Worden and her husband went hunting in Michigan for deer and bear, and they got one of each! She even helped drag the deer back to camp. The guide wasn't with them when they got the deer—just she and her husband. That is why she had to help get it back to camp! . . . Sometimes I forget to say anything about people's birthdays like I did George Prince's last week and then again I get too rambunctious and get them in too early such as Helen Struver's. Her birthday isn't until after Thanksgiving, but GREETINGS all the way around anyway! . . . We hear that Ralph Weikart has a farm animal he will sell cheap (say about five bucks). Now I'm wondering where he keeps it tied? . . . Opal Brayton can sure find her gauges in the funniest places! But it's kinda hard on the appetite! . . . Edna Hergenrader is back at work after a sick leave. Glad you're back, Edna! . . . Hazel Leonard and Bessie France are back in 1x55 and 1x79. Welcome to Augusta Gallmeier who is new in 1x55 and Juanita Harris in 1x79. . . . We wish to announce the birth of a baby girl to former co-worker Carol Estes and wife of Robert Estes. Congratulations. . . . Welcome to Walter Hart in 1x29. . . . Carrie Edgar spent most of the week-end washing windows. Now at least you'll be able to tell if it's snowing or not. . . . Mildred Gaffer certainly has been kept busy lately, first the twins—then she was sick and last week she was rushing around getting her niece (Sherry Varner) ready for her trip to Cuba. Maybe you can't get to Cuba, Mildred, but I'll bet some of your clothes will! . . . Berniece Johnston is kept busy lately washing feed sacks. It won't be long until we'll all have aprons or something out of them! . . . Clarice Woodruff entertained a few of the girls in 1x50 to a Stanley party. We all enjoyed it very much especially the lunch. She certainly can make some good cookies; I'll have to get the recipe. . . . A speedy recovery to Fern Painter's brother who recently underwent a serious operation. . . . Did you know that the Elex Club, with your help, has sent in enough "dog food labels" to be able to purchase 20 seeing-eye dogs? If you don't know what kind of dog-food labels they send in see me and I'll be glad to tell you. . . . Margaret Beugnot spent the week-end visiting a sister in Chicago, but didn't get a chance to do any Christmas shopping. . . . Elmer Sible keeps an up-to-date log on the Busco turtle and says so far it hasn't been caught. . . . We wonder what was wrong with Hazel Stauffer on Saturday evening of the Fall Revue. She forgot to take her 11 year old daughter along! It didn't dawn on her till she was ready to turn in the tickets, then she had to send someone back home to get her daughter. It is a good thing she doesn't live too far from the Club.

Everyone has heard about bees in your bonnet, but ask Vondy about the squirrels in his attic. . . . Earl Greenlee is taking orders for pike bobbers again. . . . Kitchen says he doesn't need a shanty for ice fishing, especially on Lake George. . . . Waldo Martin is going to carry a spare can of gas hereafter when he rides with Clarence Schroeder. . . . Martha Lee, isn't it rather cold to go swimming? . . . Ask Alice and Ina just how they got T-bone steaks at the Hobby House when they had ordered hamburger steaks. They only were charged for the latter. . . . Bill and Mac are looking pretty thin again. No pumpkin pie lately. . . . Mr. Fishback, during his week's vacation, saw his first hockey game in Milwaukee. Besides enjoying the game he was a lucky number winner. He received two tickets to the following night's game, groceries, and last but not least, a free ticket to Fred Astaire's dancing school. . . . Congratulations to Mr. and Mrs. Weisenburger on the birth of their daughter, Ann Louise. . . . Mrs. Walter Neimeyer was seen buying drapes and now we are wondering just what color Walt will have to paint the room, now. . . . We can't understand why Harold Somers isn't a Piston fan, unless it is due to the fact he went to South Side. . . . Chauncey Tucker worked so hard building a two-car garage and now we hear he is tearing the one stall down to build himself a dog house. . . . Louie Botteron is really a bragging man. Since he has filled his yard in, the upstairs apartment is now on the first floor. He claims he is the only man with a two story basement. . . . George Miller is getting his new set of teeth for Christmas. He is insisting that Santa take back the "whistle" George has had ever since he had his teeth pulled. . . . Cleon Oyer has been wondering why his name hasn't appeared in the column for some time and that is the only reason we can figure out for the exhibition last Thursday morning. He had gone hunting earlier in the morning and when he came to work his hat was covered with pheasant feathers. According to all reports he really put on a show for the gang.

Last Saturday Paul Kennerk shared an unprofitable hunting trip with Charlie Reed and Ralph Reinking. According to his story the game was scarce and the few chances Reinking had, he missed, blaming it on poor ammunition. For lack of other game Charlie took aim and fired at a butterfly which he also failed to hit. We will have to wait for further information to learn how much ammunition Kennerk dissipated. . . . True Sheets spent his vacation of last week at Pretty lake. He has been unsuccessfully trying to convince us that he is enough of a weather prophet to know the weather at that time would be so perfect. . . . On one of his recent fishing trips Ray Lepper found himself in the direct path of an artificial bait which became imbedded in his scalp. Expecting a bit of sympathy from his listeners, he related how deeply it had penetrated into his head when Roy Bracht came up with the snappy retort that he could readily believe that since there was plenty of room there because he had nothing else in his head. What frankness! . . . Birthday greetings for the week to Ed McKering, Clarence Kronmiller and Arnold Johnson. . . . In the absence of your reporter a substitute has volunteered to write the news for the next three months but wishes to be kept anonymous. You may give your information either to your foreman, the time clerk or Erna Mann, who will see that it reaches the proper person.

Nothing ages like laziness.

Mennewisch Completes 30 Years



Ralph F. Mennewisch, Bldg. 4-3, celebrated his 30th anniversary with General Electric Oct. 30. He was congratulated by a group of his friends in FHP Div. 1: (l. to r.) William Wickliffe, O. J. Mettler, Florian Korte, Mr. Mennewisch, George Prince, Elihu Lee, William Widdefield, and Frank Buhr.

Fractional Facts

TAYLOR ST. OFFICE

By Alice Nichens

A grandson is born! Pete Kuttner has now been a grandfather for a week, and young Pete probably already has a room full of toys. We do know he has a tiny pair of boxing gloves. He may as well learn early that it takes a bit of fighting to get along in this world. . . . You have probably all heard that a little butter and a dash of salt greatly improves the flavor of coffee—this to be added while the coffee is being made, but when Mert Edgar dropped the whole salt shaker in his cup of coffee, I, for one, was amazed. How was it, Mr. Edgar?. Haven't had the courage to try it myself. . . . When Phyllis Cliffton was seen dashing after her tray the other noon we thought she decided she would have that last bite of pie after all, but then she said her billfold was on the tray and she didn't want her money washed away. And speaking of money, haven't you ever wished you were a dollar bill. Just think, no matter how old and wrinkled and dirty you get, everyone thinks just as much of you as when you were new and fresh and crisp. . . . In case you haven't noticed Kathryn Pfister's new hairdo you should because you are going to see more like it and she has started the trend. The style "End Flight" won the hair stylist contest for Kathryn and her sister at Columbus, O., last week. It ees soo smart. . . . The big fish that got away is now being replaced by the duck that was just winged and flew bravely into the blue. Someone was telling me that there is quite a rugged place to shoot ducks. There is a walk built out into the water and every so many feet there is an enclosure that has a glass top which can be opened when a bird comes in sight. Can't you just see four men sitting there playing poker and an attendant standing at attention—suddenly a soft voice is heard over the speaker which is connected with the radar scanning station. "Now hear this—Formation of ducks at 6 o'clock, altitiude 100 ft., approaching 45 miles per hour—should pass over station four in 55 seconds—That is all." The attendant then gently taps Reginald on the shoulder explaining that his big moment has arrived. The window slides open and good old Regie's chair is tilted at the proper angle and the gun placed in his hands. He does pull the trigger all by his 'ittle self and the duck falls into the water. A dog is released and the prize is brought to the attendant who allows our hunter a look before the bird is taken to the cleaning room to be dressed and frozen and sent to Reginald. Quite a trying day, wasn't it, old boy? . . . Martha Zuber was seen ringing out in the middle of the afternoon. What were you thinking of, Martha?

Congratulations to Walter Amacher who has a new grandson. By the way, Walter came to work late Friday. He claims that he was putting new wiring in the house and had the current shut off; therefore, his alarm didn't go off. . . . Belated birthday greetings go to Ida Mugford. . . . If anybody heard a grumbling noise behind the packing bench, it was no one but Dale Fredericks arguing with himself. . . . The co-workers of Ralph McCain wish him a speedy recovery. He is in Room 326 of the St. Joseph Hospital. . . . Pat O'Brien is spending his vacation this week hunting and fishing. He even was kicking wastepaper baskets to see if there was any game running around on the floor before he left last Thursday. . . . We are glad to see Forest Bunner back on the second trick. He has been on the sick list.

Gloria Geesaman Writes Column For Taylor St. Shipping Section

Gloria Geesaman

Gloria Geesaman, new division editor for the Taylor St. Shipping section, writes "Corn S'talks."

Thanksgiving will soon be here. That day when everyone forgets their diet but we hope, won't forget to give thanks for being able to live in this land of plenty, for being able to worship in the way they believe, and for so many other things that in our daily lives seem so important. We have so much more to be thankful for than our ancestors who set this day aside. We need have no fear of Indians or long, hard winters, or any of the perils they had to face. We can sit relaxed with a feeling of security and really enjoy our turkey. So let's remember all these things when we seat ourselves at our table this Thanksgiving Day amongst our dear ones and really give THANKS. . . . Mart Macke went pheasant hunting the other day. I'll admit there's nothing so strange about that, but Mart came back with rabbits. . . . Tez Trump went hunting too, but he came back with nothin'. . . . Last Friday someone unbeknownst to some of us brought a piece of cheese into the General Service office. Now this was no ordinary piece of cheese. It had an aroma that would have made limburger look sick. Someone started getting ideas and that's when it all started. Rog Pierson got a big surprise when he answered the phone. He really got an earful (of cheese, that is). I guess it might be added that he got a snootful too. But naturally, it didn't stop there. After that it was found on Forest Somer's desk. Then, somehow it got over to Ernie Hanauer's waste basket. After he became aware of the aroma, he went through his desk and couldn't find it so he put on his coat and left. In the meantime someone very thoughtfully put it in his desk drawer so he couldn't miss it. Lois Ulrey just couldn't get away from the scent. After washing her hands umpteen times she discovered someone had rubbed it all over her pencils. The moral of this story is, a little bit of cheese goes a long way.

Gloria began working for General Electric in 1945 while she was still going to school. During that time she worked in the Bldg. 16-1 cafeteria. After completing her school work, she did duplicating in Bldg. 4-6. She then left the Company in 1948 and returned last June. Gloria is now a clerk in the Shipping office at Taylor St.

Although she has no specific hobby, Gloria's after-work hours are occupied by taking care of her baby daughter. She also enjoys horseback riding and swimming.

Shipping Office: Warning to all rabbits! Take cover! Cause "Deadeye" Wilson (Dutch to all his friends who aren't rabbits) is on the prowl. Dutch had his third week's vacation last week, and the Wilsons are really eating now, rabbits, pheasant, you name it and they got it. . . . Viola Haiber, who has been looking high and low for some appropriate feathers for her chapeau, was the first one to corner Dutch about some pheasant feathers for said hat. Dutch complied and now we are wondering if Vi will be safe wearing that hat during the hunting season. So please, all you hunters, don't shoot until you are sure the tail feathers belong to a real pheasant and not Viola's hat. . . . We extend our deepest sympathy to Sarah Harris upon the death of her aunt. . . . Teresa Arend has given us all the inside details on the new kitchen feature, the built-in dust pan. If you don't think there isn't any such animal you just have Teresa get in touch with a special carpenter in her life. He'll do the job and your dust will disappear like magic down the chute instead of under the rug. . . . Happy birthday to Helen Eggeman who celebrates next Tuesday. . . . We are very happy to report that Anna Somer, who has been recovering from a broken foot, is progressing very nicely and is now getting around on one crutch. . . . Mailing: He did it! Yes sir, Frank Hooper is now a licensed commercial pilot. We bow from the waist to Frank's superior technique. . . . Telegraph: The biggest and happiest smile we've seen for quite a spell was displayed by Carol Levy Monday, and why not, that's a beautiful sparkler Carol is now wearing on the all important finger. . . . Distribution, Bldg. 6-1: We extend our best wishes for a very speedy recovery to Henry Brueggeman and Romney Wass. We are looking forward to seeing both you boys real soon. . . . Regional Office: Boy we've heard of some talented dogs in our time, but the dog belonging to Millie Homes has topped them all. When Millie and her hubby hop in the family auto and drive away from the house Fido waves farewell from the window. . . . It pays to start early they tell us, so Kathleen Freshwater did just that and she has her New Year's resolution all made. The resolution is to quit smoking in 1950. We must remember to contact Kathleen next year at this time and see if she held out that long. . . . For Sale: One new chair—cheap. The owner wishes to sell because she is unable to rout friend husband out of his old chair. The victim of this unusual circumstance is Helen Friddle, and she just can't seem to convince hubby that the new chair sits just as good as the old one, to say nothing about how much nicer it looks. . . . Many happy returns of the day to Ilene Shroyer who had a birthday last week. . . . Emmet Mills (a very conservative man) has figured out a way to eliminate going hunting every year. With Emmet's method and also a good aim, one can get all his bunnies one year, thus eliminate the necessity of going hunting the following year. Last year Emmet got 17 bunnies so this year he didn't have to go, you see Emmet deducts the depreciation of his hunting coat from his income taxes. (T-Men, is this legal?) . . . Attention Donna Hayes, Bing Crosby's record of "Mule Train" is very good. By the way if anyone has any old Bing Crosby records Donna will take them. . . . For the most varied and choice selection of footwear just cast an eye in the direction of Joyce Archibold's feet. . . . Joe Hambrock (Holmes) of the corrugated box stock in Bldg. 6-4 has the inside information on how to catch a thief. Do you use a trap, Joe, or are you applying the old Sherlock Holmes technique? . . . Heavens look at that man standing on one foot fixing his shoe. Why it's Hector Fraser. Hector has us so confused we couldn't decide whether he is a shoe cobbler or a turkey gobbler since he did such a good job of standing on one foot.

Ginder Chalks Up 30 Years' Service

E. F. Ginder, Bldg. 31-2, chalked up 30 years' service with General Electric Monday, Oct. 31. The day of his anniversary he received a congratulatory letter while a number of his friends offered their best wishes. Left to right in the picture are: E. F. Richter, W. P. Lautzenheiser, K. R. McDougall, Mr. Ginder, R. A. VanHorn, L. A. March, P. S. Stough, Manager of Motor and Generator Engineering, and R. E. Pumphrey.

BROADWAY STORE HOURS
12 noon to 4 p.m. daily

TAYLOR ST. STORE HOURS
1 p.m. to 4 p.m. daily

The following items are available for immediate sale* in the Employees' Store:

Heat Lamps	$4.47
Room Heaters	$11.25
Automatic Blankets	$27.95 to $39.95
Kitchen Clocks	$4 to $6.40
Alarm Clocks	$2.95 to $14.50
Mantel Clocks	$6.40 to $11.70
Chime Clocks	$33.90 to $44.35
Circline Fixtures	$8.75 to $10.06
Lamp Diffusion Bowls	$.52 to $1.27
Fluorescent Fixtures	$2.31 to $14.50
Fluorescent Ballasts	$.35 to $3.40
Heat Pads	$4.45 to $5.80
Foot Warmers	$3.35
Vacuum Cleaners	$32.35 to $64.35
Cleaner Attachments	$11.20
Travel Irons	$5.50
4 lb. Irons	$5.50

E. Moore, Fern Hartman, Leroy Heintzelman, Leroy Crider, Susie Yerger, Peggy Ruck, Ernest Reed, Marjorie Kramer, Phillip Vorholzer, George Schaaf, Donald Voorhees, Ronney Wass, Clarence Duhamel, and Rose Mary Daugherty.

Left the Hospital

Frederick Borton, Waneta Koehlinger, and Roy Utter.

Returned to Work

Verl Pribble, Neva Scott, Roscoe Grover, Rita Zuber, Lucille Salas, Emma Snyder, Armin Mittermaier, Eulalia Zuber, Emma Tschannen, Katherine Koorsen, Marilyn Parrish, Robert Glenn, Florence Minnick, Marie Bowers, Edna Herganrader, and Jo Ann Moyer.

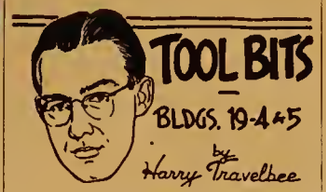
Tricks In Transformer

—FROM DIVISION 91—

By Bob Bunyan

A dillar, a dollar. We have one who is a ten o'clock starter. Guess who? . . . Maybe Santa Claus will bring Raymond Zell a pair of boots this Christmas. It seems that Ray is bringing in a great deal of mud from his farm every morning. . . . The sportsman and hunter, Bill Conrad, again reports a successful hunting and fishing trip in the north woods, bagging his limit of trout and deer. . . . Don't be surprised if Don Huffman asks for a recount on the MBA election. Don claims if Crum had spelled his name right, he might have been elected. . . . We're just wondering if that watch chain John Laymon is carrying is strong enough to hold that new watch. A recent discussion of strength was held about the watch chain and Fred Thieme's fish line. But we found Fred Wellingsick's pipe to be strongest of all subjects. Paul Noffze will still buy the chain for his garden tractor. . . . Luther McConnehey has started a liar's club. He will accept any entry you may have to offer. Of course, you will have to top his best. . . . I hear there was some disappointment in the West end of Bldg. 26-1. It seems the invitations for Ladies' Night got out a day too late. . . . George Horner seems to think they just don't want his picture for publication. At least he was cut from the print that was published. Maybe it was because Crum left his apron on. . . . We hope this week's vacation for George Christman will rest him up and that he will be able to work at its end. . . . Anyone having an extra blanket please bring it in for Sherman Miller to wrap up in. He is bothered with our ventilation here. . . . Arnold Ley is our furnace cleaner and repairman. He offers his work reasonably and guarantees all repairs. . . . That baby doll that Ed Byers and Gerald Crum had must have been a Betsy-Wetsy. Anyhow a lot of fellows got wet. . . . There is a rumor around that we have romance in the making here in Bldg. 26-1. I am curious too.

We have been having celebrations galore the past several weeks. The division paid tribute to Irene Meyers on her 30th anniversay and to Ed Witte on his 40th anniversary with G-E. We still have not discovered Ed's secret on how to stay so young looking. He guarantees, however, that he does not use hair dye. . . . We welcome Marie Alleger to our division. Marie is giving a helping hand in the suggestion office. . . . Congratulations are in order for Herschel Smith, who was presented with a certificate of outstanding service and achievement at the National Safety Congress held recently in Chicago. It couldn't happen to a nicer guy. Have you heard that while he was in Chicago, he also learned to rumba and has promised to demonstrate at the Elex Thanksgiving Dance at the Prom Terrace Nov. 23. We are looking forward to it. . . . There is usually a good canasta game in the Works Library during lunch period. The players are Ceal Romary, Ruth Shull, Marie La-Mons and yours truly. Occasionally we can talk Lloyd Platt into being a fourth, and he has proved to be a good substitute.



Pappy says, "If your wife isn't home, look at the neighbors. She is probably playing canasta." . . . Next Thursday is Thanksgiving, a day to pause and give thanks for all that we have. After walking through one of our super markets, I wonder what my grandmother would think of the food products. You can find canned chicken, turkey, potatoes, onions, frozen pies and cookies, strawberries, corn, beans, peas and all other good things of modern times. Food has no season anymore. . . . Bill Ort and his tragedies: The other night Bill was bitten by his own "falsies". Then later he came into work banged up from playing football. They really should wear "cat's paw" instead of cleats. . . . Paul Nelson also came in with a black eye. The cupboard door got in his way (and he's stuck with it). . . . A tragedy also happened in the Lupton family. Betty's canary had a heart attack. . . . Ever since she has seen and heard Elsa Maxwell, Lorena Buuck has been wearing a silly grin, "to be the first to laugh at herself." . . . Betty Pressler left us last Friday to take up the occupation of sewing tiny garments. Best of luck, Betty. . . . Need an apron mended? Bill Martin was seen mending his apron. He did a good job too. . . . We hear that Hershal Case is in the market for a permanent wave. . . . Grace Jones got the new cook book that Elex is selling. She decided to try her art at cooking, so she made Fido some cornbread. . . . JoAnn Kemery's dog has a new diet too. He likes cheese so well that he ate a whole pound of it. Of course, his mistress knew nothing about it until it was all gone. . . . Hedy Harrison really supports all Elex activities. Every time Isabelle Blackburn comes near Hedy, she reaches for her purse. . . . Marie Dunfee spent last Sunday in Bloomington visiting her daughter. . . . Bertha Bertsch was a third week vacationer last week. This week Jess Hahn is taking his third week. . . . Ethel Perry and Pauline Kirchner were hunters last Friday. We haven't heard how many bunnies they missed. . . . Marcille Thomas has been boosting the St. Joe basketball team by attending all their games. . . . Ellen Dittlinger had her lipstick smearing trick backfire. She got it all over her gloves and had quite a time keeping the little white stockinettes clean. . . . "How dee do dee" to all newcomers on the early bird shift. . . . Mary Wright has decided that you should never leave a party early. Then you don't have to go back and get your husband. . . . We have been missing Elvira Diller. She is off due to the serious illness of her father. . . Our sincerest sympathy to Fern Monroe Wagner in the death of her father.

Proof Positive

This photo offers proof to the stories by Gertie Dammeyer and Rose Heche of bullheads they caught at Lake Webster.

Mart Walsh isn't having much luck pressing out cider these days. He claims all he's getting is apple sauce. Why not sell apple sauce, Mart? . . . Leo Slaudrauff and Elmer Sauerwein took in the Michigan-Purdue football game. Now we hear the football game must have been too much for Elmer. He came down with the German measles. . . . We're glad to see our friends, Al Holthouse and Joe Mettler, are well and back on their jobs. . . . Chuck Abbott and his son David went hunting last Saturday. Chuck did a lot of shooting, but as usual Dave brought home the game. . . . John Fleisher refuses to bring any of his frozen fish to Frank Lebrecht until Frank produces some of those five pound steaks. . . . Harry VanDiver is putting the finishing touches on his new garage and then he intends to hold open house. . . . Don Alcott says his bowling is getting as bad as his golf game. He's now rolling 157 average. . . . Walter Greiner and Frank Hoffman both have the latest edition of Webster to keep them on their toes in English. . . . Carl Einsiedel's Hudson wouldn't start, so Art Dicke gave him a lift. Carl left the door handles in position when closing the door, thus making it impossible to unlock the car. That's gratitude. . . . The reason Mabel Truelove drove in the ditch wasn't because she was learning to drive, but because the door wouldn't stay shut. Maybe she's using Mrs. Brinkroeger's system to get the husband to buy a new car. . . . Frank Druhot was seen fishing behind Centlivre's brewery. Fishing? . . . We all know by now that Schoaff has a new 1950 hydromatic drive Johnson outboard motor, and we hear he keeps it in a clothes closet. Gosh, some dogs don't rate that good. . . . Wonder if Charley Gutton visited the same barber shop as John Roemer? They both smelled mighty sweet when they reported for work Monday. . . . Wonder if Art Rasor's wife has been making him wear those green and red shirts the last couple of weeks for a purpose? Christmas is coming, you know. . . . Herb Thiele and John Roemer went hunting together but neither of them captured a bunnie. We hear Chet Reynolds did a lot better than that and didn't even go hunting. Chet says there is nothing —absolutely nuthin' — like good neighbors. . . . We welcome Herb Meyers into the lathe section. John Newkam didn't give Herb too much of a welcome as he accused Herb of stealing his shirt. After all, John, other people can buy shirts just the same as you. . . . Congratulations are in order to Mr. and Mrs. Elmer Ueber on the arrival of a fine baby girl born Nov. 7. Cliff Clapesattle, John Ebert, Karl Zurker, and Al Nehbur are enjoying vacations this week. We hope to have the details next week. . . . We have been asked just what has happened to the harmonica boys. John Hensler has asked us to tell them (Rasor and Jones) that the bass fiddle is always ready. Let's go, boys.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ad will not be accepted unless accompanied by the name, pay number, and division of the employee. No works building or telephone number may appear in ad, only the home telephone number or address.

No ad will be received over the telephone. Send all ads to WORKS NEWS office, Bldg. 8-2.

"Lost" and "Found" articles must be cleared through the Plant Protection office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

CLOSING DATE FOR NEXT ISSUE
Monday Noon, November 21, 1949

LOST AND FOUND

FOUND—Light tan wool glove, turned in at 18 gate house.

FOUND—One earring set with brilliants. Found on the stairway between Bldgs. 4-B and 4-1, south end.

FOUND—A white rosary in Lindley Ave. parking lot, Saturday night, Nov. 5, coming from last show at G-E Club Gym.

FOUND—A small set. Found in ladies' rest room, Bldg. 18.

FOUND—Four keys on a bar. Found in coal yard parking lot back of Bldg. 12.

FOUND—Link bracelet with red sets. Found by Bldg. 18 gate.

FOR SALE

NICE FOUR ROOM HOUSE—H-78313.

TWO-TROUSERS SUIT—Brown, Size 38 stub; overcoat, blue, size 38. H-26094.

ROLL-AWAY PANEL BED — Innerspring mattress, perfect condition. E-1345.

DESK—Waterfall, knee-hole, walnut, $25; Horner accordion, 120 bass, good condition, $100. H-28522.

GIRL'S 24" BICYCLE—Schwinn, very good condition, $25. H-76943.

GIRL'S BROWN SNOWSUIT — And brown coat, size 10. H-79642.

GIRL'S THREE-PIECE SNOWSUIT—tan, size 2-3 years; boys blue tweed suit coat, 5-6 years; misses' gray wool ¾ length winter coat, size 32-34. H-35932.

TWO BOYS' WINTER COATS—Size 14 and 16; Woman's coat, size 12, $5 each. H-75784.

HAND CROCHETED PILLOWCASES—Good 42" tubing, different designs and colors, $5.50 to $6.50 per pair, also chair sets. A-89804.

CUB UNIFORM—Size 10; girl's blue winter coat and leggings and hood, size 10; crib mattress. H-24771.

WHITE FORMAL—Size 14, excellent condition. 1049 Swinney Ave.

RED COAT AND LEGGING SET—Girls, size 4, used one season, cleaned, in excellent condition, half price. A-70064.

CONN CORNET—Silverplated, good condition. H-0500 afternoons and evenings.

SUBURBAN HOME SITES—200 ft. frontage, two lots fully wooded. R.R. 11, North Bend Dr. H-48345 after 4 p.m.

1935 OLDSMOBILE—Four-door sedan, good condition, both in and out, make an offer, must be seen to be appreciated. A-49545.

WELSH BABY BUGGY—With pad, $8; windup train, $2. H-77604.

CAR RADIO—With aerial, recently installed and in working order, $25. 1302 W. Washington.

ROOFING, SIDING, INSULATION—Free estimate without obligation. H-1267.

1949 KAISER TRAVELER—Good condition, low mileage, radio, heater, black, red leather interior. E-2670.

WANTED

COMBINATION STORM DOOR—Also chrome kitchen set. A-75442.

PIANO—Small one preferred. H-70855 before 3:30.

METER BOX—Trailer. H-50672.

TWO COMPLETE TWIN BEDS—H-39824.

THANK YOU NOTE

WE WISH TO EXPRESS OUR THANKS—To the Regional Warehouse, Bldg. 6-2, Transformer, Bldg. 26-5 co-workers and Local 901 for the beautiful floral offerings sent us in the death of our father and husband. Ilene and Irene Shroyer and Family.

TRANSPORTATION

WANTS RIDE—Henry P. Gollmer, from Lima Rd., Route 3, and Wallen Rd. to G-E Taylor St., each day to and from work. Works in FHP Div. 17, Taylor St. A-85341.

WANTS RIDE—Catherine Walters, from Avilla. Works in Bldg. 19-2 from 7-8:30. Extension 2192 or Avilla 104W.

There are more people ready to turn down ideas than there are people to think them up.

ELEX CLUB'S

Fall Fashion Show

Paulla Moyano, Luella Bandt, Kathryn Erwin, Jessie Filler, Betty Williams, Phyllis Tanner, Mary Jane Redding, Gloria Wiebke, Pat Cranfill, and Helen Brindle were models for the Elex Club's fashion show Wednesday, Nov. 2. They are all members of various Elex clubs.

MOTOR and GENERATOR Static

Thought For The Week: "Everything that has happened was an idea first." G-E Suggestion Booklet.

THANKS: Roscoe Markley, the "Sage of Roanoke" sends his thanks for the publicity given to him in the WORKS NEWS. He states that everyone in town knows him. That's what we have always said, "advertise." . . . OF HUNTING AND STUFF: As Ed Foley, that dear lad, informed you in last week's "Static" this "poor old man" was on vacation. A vacation spent planting rose bushes, hunting and taking life easy. Speaking of hunting it was fine but this writer bagged little game. We figure that, calculating our walking mileage the way you do on automobiles, we averaged about 12 miles per rabbit. We kicked up four, got two and felt pretty low that our average was only about 50 per cent. That is, we felt low until reports of other fellows' attempts began to arrive. Then we felt pretty good. We understand that Stan Marquardt blazed away six times and bagged none. Howard Musselman shot 23 times and downed four. But this is the pay off. Dick Hobson, our crooning nimrod, went hunting Saturday, saw eight rabbits, shot at four, bagged none and then complained that about 1:30 p.m. a heavy "London" fog settled around him so that he was unable to shoot any more. All this on a bright sunshiny day. We realized for quite a while that Dick frequently goes into a fog, but never heard of it happening on a hunting trip. Taken all in all hunting is a nice way to get exercise with the game having at least a 20 to one chance of remaining unharmed—almost as good as the hunter's chances. . . . RESULTS: Handsome Dick Saunders, seems to be taking the feminine hearts by storm in Fort Wayne. Especially at a certain diner on Maumee Avenue extended. Could it be his red curly hair? Or maybe his Buick? Dick says that if you want to get results, you must make calls. See Dick about this. . . . We're all glad to see Jack Scott back after his recent appendectomy. He looks swell.

Safety Raiser

Make every week Fire Prevention Week. Be careful at Work, at Home and at Play. Fire losses attributed to carelessness in smoking and the use of matches amounted to $200,000,000 in 1948 or 30% of the fire losses in the United States. This does not include the cost of the cigarettes, cigars and tobacco.

Ramblings In 31-2

On Record No. R 212, Ken Griffin plays "Uncle Joe's" (Eric Gawehn) "Merry Christmas" and "Santa's Coming." Uncle Joe has another song, "Our Indiana," which will appear soon in an album called "A Salute to Indiana". . . . She shall have music. Irene Hastings has a new electric organ in her home. She is thinking seriously of going in competition with Ken Griffin. She's got rhythm. . . . The high financier, Curley Mannan, was seen on Main Street, waiting for a bus. Since Curley was reading the stock market reports, several busses passed before he came to. In Curley's language the stock market is the "shock" market.

Inquiring Reporter:

WHAT HAS BEEN THE MOST UNUSUAL EXPERIENCE IN YOUR LIFE?

MINTA COLE

Bldg. 18-B

"After keeping house several years, I faced the fact I must find work. I didn't want to at first, but now find it very interesting and pleasant to be able to meet and work with nice people, young and old alike."

HERMAN KUHN

Bldg. 19-3

"I was walking on an ice-covered sidewalk. My left foot slipped under an iron fence and a buddy had to remove the shoe to release my foot."

WILDA FRAUHIGER

Bldg. 26-4

"The most unusual experience that I can recall concerns my first fishing trip. I caught my legal limit of fish and in addition I helped catch two turtles. This remains as unusual in my mind, as I have never been able to duplicate this first feat."

RUSSELL F. MEEKS

Bldg. 4-1

"When World War II started, the boys on the floor each week collected money for a war bond and raffled it off. I won two out of four draws. Then they said it was my time to draw and I drew my own number three times out of five."

LUCY WHITLOCK

Taylor St.

"My most unusual experience occurred when I took an Eastern trip and went up the narrow, winding stairway to the top of the Statue of Liberty. This was a climb of 300 feet to the crown. The view across the water was an unforgetable sight."

Jack (Deadeye) Pollock, he was known as in those days, or daze, received a few pointers in the art of hunting last week when Paul Bodeker and he went out after the meat on the table. Jack said that he didn't care much since he was the only one at home who ate rabbit. That way if he didn't shoot any, he didn't have to clean or eat any. But Louie Watt's story was somewhat different, it was either the kind of shells he used or something else. We are inclined to think it was something else. . . . Frank Phillips is on his vacation this week, but what we would like to know is how long it has been the style for men to carry ladies purses to work. Frank was recently observed going out the gate with a ladies purse under his arm. . . . Bill Johnson was presented a rear view mirror to wear on the side of his head so he could tell when the party he was talking about was standing behind him. . . . Art Haberstock now gets quite a thrill when that certain party walks down the aisle. . . . Fireman Ray Bowers has been operating a pump that throws 6,000 gallons per minute trying to pump the water out of the air conditioning tank. Ray has been on this job for a week now and we have started to wonder what the capacity of that tank really is. . . . Maybe the reason Frank Phillips is vacationing this week is so he can celebrate his birthday. Anyway, congratulations, Frank. . . . Lyle Claphan found that a day's hunting was a good preliminary training to an evening of volleyball. But after the first game he decided he would do his hunting on a day other than his volleyhall schedule.

Only four weeks more until our annual Christmas party. Don't forget the date, Dec. 17, or the address, Robinaon Park pavilion. Party starts at 8 p.m. and is open to all members of Bldg. 17-4, your families and guests (over 21). Noble Wagner has gallantly consented to substitute as party chairman for John Howard who is ill. Let's all help "Wag" make this year's party the biggest success ever. Come out and meet your old friends, meet new friends and have an evening of holiday fun. . . . Art Blume had water heater troubles and "Emie" Stock was a little skeptical till he went home and found the same trouble at hie house. . . . Dick Wagner was seen autographing all the copies of last weeks WORKS NEWS that he couldn't get in hia lunch bucket. What price fame? . . . Bill Wehrle is the very proud father of a son Michael born on Armistice Day. Better come down out of the clouds, Bill. . . . Ray Debolt must not get along so well with his Ford. He was seen last Thursday evening going home on the bua, even though his Ford was parked on Calhoun St. Or do you have someone to visit where you car was parked, Ray? . . . Who is the guy who after Wednesday walked around with expanded chest? Just because you invested one dollar and got 35 in return, don't get snooty with us, Al Middaugh. . . . Frank Magers went hunting after work the other evening. He rushed home, nearly got run over by a train and had a rough time in general. We understand Frank had his usual luck. . . . The corn is nearly all picked so we probably will be seeing a lot of the old faces back again. . . . Who put the overalls in Mrs. Murphy's chowder? We don't know, nor do we know who tied the banana skin under Wilfred Fett's chair. All we know is that Wilfred fought hordes of little gnats for a week and was nearly exhausted before he found said banana skin. . . . Bill Mills seems to have a lot of trouble getting a true story out of the fishermen on the floor. It seems as though when three of them go fishing together, Bill gets a different story from each of them. And as Bill says, he doesn't believe any of them. Why be so suspicious, Bill, maybe one of the three stories is true. . . . When McNussel loses on a match of the coin to see who buys from the candy lady, he does not eat. That is one way to cut expenses and reduce at the same time. . . . After all the hunting stories I have heard since the season opened I wonder if the hunters are just as truthful as the fishermen. After a hard day of hunting Norb Lose says he was more tired than his dog. Don't see how that was possible as I heard the dog had to run down all the rabbits he got. . . . We were happy to see "Doc" Hanson's smiling face when he paid us a short visit the first of the week.

Corn S'talks

TAYLOR ST. SHIPPING

By Gloria Geesaman

Edith Robertson went to the Indiana-Michigan game. Said she didn't go along for the ride this time and that I shouldn't put this in for the reason that some people might think that it's all she does is go to the games. If most of us had the chance we would go too. Wouldn't we? Wot a game, nice weather too, everything was perfect. Lucky you, Edith. . . . We have back with us two old fellow mates, Maxine Carl and Betty Aschilman, nice to have you gals back. . . . More changes again. Bonnie Koop left us. Boo hoo went over to Bldg. 26-2 where her hubby works. Be nice, huh? . . . Don't look now but Jo Franklin got her hair cut. Not bad though. . . . Jean Carrol's mamma isn't well. Bet it won't be long before she's up feeling better than Jean does; we hope so anyway. . . . Boy oh boy rabbit season is in. Remember in the Fall Revue show the magician asked everyone to place their hand on their head, and asked if they felt a little bunny (hare) Helen Risser's hubby has not only one but five (hares). Lucky shots, that all. . . . Mr. Blackburn went hunting too. . . . And Fred Wheeler also became a hunter Saturday he only got one between two of them. Couldn't see them for looking. Right, Fred? . . . Let it up to the younger generation to do something cute. Russ Carpenter's little one was playing with mommie's shag rug one day. Says mommie to the little one, "Leave that rug alone I have eight bucks wrapped up in it." The little one then started to look for the eight bucks. . . . Have to mention that Barbara Reeb can now see what she is doing. New specks. . . . Say boy we have a real dancer in the crowd. Gladys Cleland and hubby were jitterbugging the other night, and Gladys spun around on the floor like a top. . . . When lovers go for a ride in the country the fellow always finds an excuse to stop. Gloria Beverforden had a situation like that last week. Only thing, they really did have a flat tire and had to stop whether she wanted to or not. From now on Gloria knows how to change a tire. It's always nice to know in case of emergencies.

PISTOL LOUIE: Maier and Carl (Snuffy) Junk went hunting. Pistol Lou got three rabbits and one large pumpkin. Snuffy got skunked. Snuffy was so tired out helping big Lou over the fences that he couldn't see straight to shoot. At least that's Snuffy's story, or was it that Lou was taking all the shots? . . . WERE YOU WONDERING TOO: Why it wae so quiet around the Wire Mill last week? George Gettle was on his third week's vacation. . . . DOC VS. DOCK: Truman (Curly) Buckles had a reminder on his desk which read "Don't forget to call Dock Garton." Maybe it shows up better that way. . . . WAD'DA SAY: Leo Elward said to Howard Smith, "Not a thing," repiled Howard. That's just the way I heard it would be after you get married. Leo, you ought to know you are one of the newer recruits, and you seem to be awfully quiet lately. . . . SKELETON-GHOST-CONSCIENCE: Jake Arnold was seen talking to something like a Skeleton at the Ivanhoe Club Catacombs after the Bears and Packers football game several weeks ago. Still we are not sure it could have been a ghost. Couldn't be, Jake, that you were trying to bargain with your conscience, oh! no couldn't be. . . . VALUABLE LIFE: Ora Bireley must have. It seems that every week they take insurance payments out of his check. If this keepe up, Ora, someday you will be worth more dead than alive. . . . PEPSODENT KID: Is the new nickname given Bill Rohe. Bill had his teeth cleaned and polished. He walks around all day with a smile on his face as large as the moon (full, that is). . . . RIGHT VS. LEFT: Have you noticed that limp on Herb Thompson? If not please take note, on Monday, Wednesday and Friday, it's the right leg. On Tuesday and Thursday the left. Saturdaya and Sundays, we don't know. . . . UPSTAIRS WINDOW: Virgil Nash tells us he fell off of the ladder while he was painting. Other reports are that his wife threw him out of the upstairs window. What's the true story, Virg? . . . EVERY ONE WANTS TO GET INTO THE ACT: If you have read your WORKS NEWS you no doubt noticed that we seem to have a couple of new assistants. They seem to by-pass yours truly with their news. No doubt to show him up on the punk job he's been doing. But, I'll let you in on a little secret. We have been looking for a long time for a couple of suckers like you. So that we can take a rest and also get that face of ours out of circulation. Our only ambition now is to find out who you are. Anyone having this information will be greatly rewarded (with a new division editor). . . . GRAND POP: Cy Ort has a brand new granddaughter, and is he ever proud. Congratulations, Cy, we know you'll make a good one. . . . THANKSGIVING: Is next Thursday, folks. Who in this wide world has more to be thankful for than we here in America? So please do not forget to take a few minutes out on this Thanksgiving Day and give thanks to Him who has made it all possible. "God Bless America" and all of you.

Diploma Daze

We often wonder what our fellow-workers looked like way back when. The boy is Ray Kierspe, Asst. Supt. of the Wire and Insulation Division. The picture was taken on the occasion of his confirmation.

Pick-Ups

Bldg. 26-3

By Elvira Romary

Hi, Gang, here is somethlng to remember: "More helpful than all wisdom or council is one draught of simple human pity that will not forsake us." . . . Congratulations to Jackie Boxberger who will be married Nov. 19 to Eric Trier. Best of luck to both of you. . . . Dale Stucky has a pet mouse that he feeds every noon. . . . Ed Bangart should turn the lights on in the morning because stubbing one's little toe is a violent way to awaken. . . . Dave Bertsch and Don Shepherd are inseparable. Do you suppose they are part Siamese? . . . We all wish a happy birthday to Mabel Odel, but unfortunately she will be in the hospital due to an auto accident. . . . I wonder if the single girls have noticed how cute and bashful Earl Sweeny is? How come, Earl, are you afraid of girls? . . . Helen Wagner has taken up plpe smoking, much to Frency Chilicot's surprise. It was his pipe. . . . We wish to extend our sympathies to Ed Bangert on the death of his father. . . . After Mary Cordell got her brand new Ford, she got some slick new seat covers too. Now Mary's little bear, Herkimer, can't stay on the seat. Poor Herki. . . . Anyone needing a hat model, please see Art Pequignot. He should do a good job. . . . A personal note to Pearl Eger: Lavonna Porter wants to know if you are waiting or resting. . . . Baby sitter for hire: Lena Forker is available—for baby fish only. . . . Welcome to Ruth Schwartz who started recently in the stacking section. She nearly stopped production on her first day. Bldg. 4-5 lost a pretty cute gal. . . . Any music you hear coming from the winding section will be Rose Onstodt who can really make with the hot licks on the drum. . . . Congratulations to a Bldg. 26-3 bowling team: Capt. Helen Wagner, Chlorene Trout, Marie Johanns, Helen Studler, and Mary Wiedman. They are now in third place. Nice going, girla. . . . When Gary Pequignot came to work Thursday morning he had a slightly blackened eye and aince he didn't work Wednesday we all wonder, "wot hoppened." . . . We all thought the second trick had left town, but we finally have heard from them. Wilson Jones will have no part of any used cigars. They gotta be new or nothing. . . . We wonder what is so interesting about those notes Llnda Werling receives. They leave her speechless. . . . Second shift now has its own little boy blue. He is none other than Kenneth Saalfrank. . . . Anyone wishing their glasses repaired see Evelyn Armstrong. She does a good job. . . . With George Brehm, it's something new has been added. Smile, George. . . . We hear Wade Bowman, Thelma and Ray Loveless missed part of a party Saturday night. Better late than never. . . . Swan'a loss will be Fort Wayne's gain before long. Kathryn Bailey will aoon be a city slicker. . . . And now for a parting word. Next Thursday is Thanksgiving. Be thankful for the smallest things as well as the biggest things.

Scandal and failure make news. Only success makes history.

OUT OUR WAY

By J. R. WILLIAMS

Having slighted the Office League for the last few weeks, we'll try to catch up with all those 600 and 200 counts.

Monday evening was chicken night and the following were the feather winners: Paul Hattendorf in Group No. 1; "Wee Willie Back Up" Bushong, Group No. 2; Dick Grote, Group No. 3, and Ed Whipple walked off with Group No. 4's chicken.

Two hundred scores for the evening are: Erv Aumann, 231; Paul Hattendorf, 233; Denton Manecke, 209, and Don Kaiser, 201.

Don Waldrop, led the assault on the pins the previous week, taking over first place for those trophies with a single game of 268 and a three game total of 674. His games were 242, 268 and 164. It must be that new neighborhood Don lives in now.

Harold Fanning had the jinx on his former team as he led Clems to a three-game sweep over Standardizing.

Two hundred scores were rolled by: Don Pappert, 225 and 213; Hal Fanning, 213 and 211; Clarence Rump, 224; Bob Kallmeyer, 217; Dick Kent, 213; Harry Goheen, 212; "Brownie" Brown, 212; Dick Gerke, 205; Ife Holmes, 202; Frankie Schlink, 203; Paul Hattendorf, 203; Gardt, 200, and Schneble, 200.

Two hundred scores of the previous week were: Bob Blomker, 244; Walter Nitz, 224; Carl Hattendorf, 220; Maury Cox, 220; Dick Hanson, 218; Frankie Schling, 212; Dudley Snyder, 210, and Ife Holmes, 205.

Apparatus League

The week of Nov. 3, the league had its warmest night of the year, led by Paul Perry and Whitey Saalfrank's 600 counts and a total of 14 two hundred counts.

Paul Perry kegled 197, 193 and 230 for a 620, and Saalfrank had 150, 236 and 226 for a 612.

Two hundred scores were made by: Russ Sealover, 209 and 200; E. Bienz, 200 and 205; Ross Smith, 233; Bob Stute, 225; Bob Blomker, 220; R. Arnett, 209; A. Thompson, 206; William Stute, 210, and Oscar Huge, 204.

Now to bring us up to date, Team No. 2 is out in front by two full games. Erv Aumann headed the list this week with a 631 total on games of 180, 193 and 258.

Two hundred scores were piled up by: Bob Stute, 210; William Stute, 217; R. Dunten, 203; Vic Rump, 206; F. Burnau, 225; Russ Sealover, 215, and Howard Hickman, 201.

Ladies' Friday Night League

Virginia Mollet set the pace this week with a 513 total on games of 140, 197 and 176. Charlotte Stanford was right behind with a 508 on games of 220, 158 and 130. Too bad the girls didn't get into that 520 class.

Other high games of the evening were: Betty Puff, 186; Helen Miller, 179; Delores Lauge, 172; Jean Saint, 172; Ginnie Bowman, 171; Tommy Williams, 171, and Marge Malizzo, 170.

Apprentice League

Dick Reinking had two big games, a 248 and an even 200. What happened to that other game, Dick? Don Dimke had the only other 200, a 202.

Hillard Butcher hasn't been able to have his name mentioned under high games, so he tried for the lowest score and won special mention. We won't tell his score, but he avcraged 6⅔ pins per frame.

Masonic League

Dorics had a big evening, winning three games and moving into first place by one game and taking over the high three-game total of 2756.

Lauterberg had the only 600, a 601 on scores of 214, 210 and 177.

Two hundred scores were rolled by: B. Somers, 200; Denton Manecke, 200; R. Crabill, 225; Art Crayton, 200; Jones, 211; Boerger, 201; Briant, 216; W. Altevogt, 235; Hoelle, 213; A. Altevogt, 200, and Archer, 204 and 213.

Interdivision League

The Broadtails whipped the Hires Parts team three games to go back into first place by themselves, one game ahead of the Brouwer Tire and Battery team.

Arnie Horstmeyer and Erv France, of the Wire and Insulation team, had 600 counts, as did Les Shroyer, of Brouwers.

Arnie had games of 242, 221 and 163, for 626. Erv's games of 231, 178 and 203 totaled 612, and Les had a 619 on games of 222, 194 and 203.

The following rolled 200 scores: R. Tobias, 223; Ivan Parrish, 224; Ort, 209 and 209; Harold Fanning, 213; Paul Walker, 200; Murray Johnson, 232; Andy Anderson, 217; Rudy Zelt, 201; Russ Rose, 206, and Wayne Wiemer, 206.

Frank Matthews is still taking a razzing from the boys on his 414 series, which also included a gutter ball. Doesn't he know that they clean those out with a mop between leagues?

All Star League

There was another big turnout Saturday evening for the All Star League. Ed Kraft won five games from R. Sawyer, to increase his lead for the season to four games. Ed continues to lead the league with a 190 average.

Decatur Bowling

Monday Night League: High series were rolled by H. Shoaf, a 606. Shoaf led the two games on 218 and 201. Schultz got the other two hundred game on a 201.

Flanges still lead the league, with 14 wins and seven losses, followed by the Inspectors, with 10 and 11; while the Stators and Office are tied at nine and 12.

Fraternal League: K of C's toppled the league leaders, Teeple Truck Line, two out of three. Preble AC's took two from Moose, while the Elks nosed G-E Club two of three.

High scores were rolled by: Stump, 233; Bultemeier, 203 and 202; G. Schultz, 200; L. Hoffman, 205, Gilliom, 200; Schneider, 205; Zelt, 200; Appelman, 204; Leonard, 205, and A. Miller, 207.

Ladies' Monday Night League

Vivian Fleckenstein rolled the high series for the night's play on 191, 135 and 178 for a 504 total. Dorothy Fuhs rolled a 180 for the other high game.

Chicken winners were Vivian Fleckenstein for high series; Dorothy Fuhs, high single game; and Melinde Gehle, most pins over average.

Transformer League

Teams M and Watts are still tied for first place with a record of 12 and six. Bells are just one game behind for second place.

Two hundred games were kegled by: Wownie, 202; Lieberenz, 202; Meeker, 205; Pappert, 208; Moore, 218, and Mack, 223.

Someone in the league traded a size 44, blue sweater with Tommie Williams, of the Taylor St. plant. She claims that her sweater was much newer than the one that was left, so she is anxious to get hers.

There will be no bowling for the league Nov. 25, the night after Thanksgiving.

Bowling and Stuff

Don Waldrop's 268 and 674 head the men's list for those trophies. Bess Potts leads the women's high three-game series with a 580 count, and Ethel Koontz's 232 holds down first for high-single game.

There will be a mixed doubles tournament at the G-E Club alleys Saturday, Dec. 3. Entry fee will be $4 per team. This will include the price of bowling. You may bowl in the tournament as many times as you wish, providing you change partners. There will be squads at 3:30, 6:30 and 8:30 p.m. If we can't handle everyone on these three shifts, the tournament will be extended to the following Saturday, Dec. 10.

We have had a lot of requests for this tornament, so let's have a big turnont. The Clnb will donate the first prize with the prize money derived from entry fees to make up the rest of the prize list.

Enter now at the Club to get the shift you desire. Entries will be accepted right up until bowling time, providing there are any openings. Entries will be restricted to G-E employees and club bowlers. The tournament will be run on a handicap basis with averages as of the week starting Nov. 14, 1949.

Don't eat too much turkey over the holiday and to those lucky chicken winners, here's hoping you enjoy them.

The bowling alleys will be closed over the Thanksgiving holiday week-end, including Friday. The reason for the closing is to refinish the alleys.

Machinists Beat Squares To Lead Volleyball League

The Apprentice Draftsmen's volleyball team defeated General Tool two games out of three in Interdivision League play last Friday. The scores for the games were: General Tool 14, 4, and 6; Apprentice Draftsmen, 16, 15, and 15.

Another apprentice team, the Machinists, came up with three victories over the Squares with scores of 15-0, 15-8, and 15-2. Taylor St. won two games from Small Motors. The scores for this series were 13-15, 15-9, and 11-15.

Main Office won one game from Winter St., but fell to defeat on the last two games. Scores for the set were 11-15, 15-6, and 15-6.

League Standings

	W.	L.
Apprentice Machinists	10	2
Small Motors	9	3
Taylor St.	8	4
Winter St.	6	6
Apprentice Draftsmen	6	6
Main Office	5	7
Squares	2	10
General Tool	2	10

Interdivision basketball got off to its usual good start Tuesday, Nov. 15, with the appearance of several new teams and lots of new faces.

Transformer, a team of veterans, beat the Test Engineers, 34-23. The Traffic Division defeated the Apprentice School team, 38-29, with most of the scoring honors going to Bentley and Lenz.

Winter St., with only two players left from last year's championship squad, dropped a 53-22 decision to the Squares. It looks as thongh Bill Hunt may really have something there.

Some of our teams could use additional players. Anyone interested in playing shonld contact Walt Muehlenbruch, Bldg. 20-2, or Ray Quinn, Bldg. 6-2.

G-E Downs Rod-Wire In Opener

The YMCA Owl Industrial basketball league got under way Tuesday morning at the G-E gym.

A big league atmosphere prevailed as Marian Davies, Bldg. 8-2, held the ball for the opening tip. Eric Oakshott, YMCA director; Charlie Wilt, G-E Club manager, and Harry Zimmerman, G-E Club steward, were present for the opener.

G-E bested Indiana Rod and Wire by the score of 46-18 in the opener and Zollner beat out Eckrich in the final minute, 24-22. Wickliffe and Riedort, with 12 and eight points, led G-E in the routing of Indiana R. and W. Feasby was the big gun for the losers, with eight points.

Schrimp, of Zollner, scored the winning basket and also led his team with eight points. McKeeman, with 10 points, led the losing Eckrich Packers.

G-E Club Loses To Huntington In 55-43 Upset

The G-E Club, industrial basketball team, after leading 31-23 at the half, faded fast and finally fell before the Huntington K of C rally, 55-43.

Larry Godfrey and Joe Etter sparked the K of C's drive, with 24 and nine points respectively.

The Club was only able to hit 11 of 33 free throws, missing 12 free throws in the last half alone. Dick Bucher led the Club, scoring with 11 points; while John Lindholm and Lou Goehring looked good in controlling the ball off the backboards.

The next game is scheduled for Monday, Nov. 21, when they play Gladieux Oilers at 8 p.m. in the G-E Club gym. Tuesday, Nov. 22, they will play a YMCA Industrial League game with Master Builders at 9 p.m. in the Central gym. Friday, Nov. 25, they return to the G-E Club gym to play an 8 p.m. game with the Turners' Club.

Box scores:

Hower	1	0	2
Totals	16	11	43

Half Score: G-E 31-23.
Officials: Morkoetter, O'Connel.

Bangert Dies

Edward C. Bangert, 65, died Sunday at 9:05 p.m. at his home, 1222 Swinney Ave. He retired two years ago aftor 27 years' service as a pattern maker in Bldg. 19-5.

Mr. Bangert was a member of the G-E Quarter Century Club, Holy Name Society, Council 451, and Knights of Columbus.

Funeral services were held Wednesday at 8:30 a.m. in the Getz and Cahill funeral home, and at 9 a.m. in St. Paul's Catholic Church.

We Must Be Neutral

The contest between national unions and local officials continues to be reported in the press.

We continue, of course, to be absolutely neutral.

But each side is now beginning to charge us with being *for* the other.

What each side seems to mean is that we are not enough for *that* side. Each has apparently adopted the old slogan of "if you aren't *for* me you're against me."

We are not—and must not be—for *either* side. We *must* be neutral. We *want* to be neutral. We *intend* to be neutral.

And we are trying our best to *show* we are neutral. We are taking care that no statement or act of ours can possibly—no matter how cleverly twisted or unfairly distorted—be misinterpreted as the slightest departure from what is actually our strict neutrality.

We are continuing to deal—as we must under the present circumstances—with the 40-odd unions certified to us by federal authority as the choice of our employees. This we are required to do by law.

As to any disputes about these unions, or among these unions, or inside these unions—and regardless of what must be the strong and sincere conviction of many of our employees on one side or the other—we are duty-bound to take a position on the side-lines.

At any time, however, that the pay or safety of our employees should be in danger, we would initiate whatever action would be proper for us to take.

Meanwhile, we repeat again that we want to keep on peaceably and productively working with our employees toward accomplishing the main objective in our joint activity—to serve our customers with good General Electric products in a way that will let us serve our employees with good pay checks.

Record Number Of Awards Presented As Suggestion System Contest Ends

Mary Jane Runkel, FHP Div. 14, Taylor St., was awarded $110 for her suggestion pertaining to a change in the records used in placing parts in sequence on the matching conveyor. Miss Runkel is shown receiving her check in the above photograph. Left to right are: Carl Reynolds, Supervisor of Production; Miss Runkel, and F. H. Campbell, FHP Div. 14 Superintendent.

196 EMPLOYEES RECEIVE CHECKS

A total of $2,210 was presented during the past two weeks to 196 suggestors, the largest number ever to receive awards for their ideas over a comparable period of time at the Fort Wayne Works.

This great influx of suggestions successfully climaxed the Suggestion System Contest, which officially closed Tuesday, Nov. 15.

N.L.R.B. Asked To Decide Conflicting Union Claims

BOARD STARTS INVESTIGATING TO DETERMINE REPRESENTATION

The National Labor Relations Board has commenced its official investigation of conflicting claims of IUE-CIO and UE as to representation of certain General Electric employees.

The N.L.R.B. has advised the Company that a representation petition has now been filed by the IUE-CIO asking for bargaining rights for many General Electric employees now represented by the UE. Pursuant to the Board's preliminary investigation, the Com-

G-E Club To Hold Annual Christmas Party, Dec. 17

Committee Plans To Limit Attendance To Children Under 13 Years Of Age

The G-E Club's annual "Kiddies' Christmas Party" will be held Saturday, Dec. 17, it was announced today by Ralph Hemminger, chairman of the entertainment committee.

A professional talent show is being booked for the party, which is staged each year for the children of all G-E employees. A special effort to limit the attendance to children under 13 years of age will be made this year, because of criticism received in past years about many adults taking seats rightfully belonging to the children.

The G-E Club management has adopted the following rules and requests that all employees comply:

1. Obtain tickets for your children only. Otherwise, you deprive other employees' children of their tickets.
2. Tickets may be obtained only for children under 13 years of age.
3. For children too small to attend alone, one adult should be sufficient escort.

Performances will be given at 10 a.m., 1 p.m., 3 p.m., 5 p.m., and 7:30 p.m. Saturday, Dec. 17. Free tickets will be made available starting Monday, Dec. 5.

"Happy, the Clown" is the first act which has been booked for the show by the G-E Club's entertainment committee.

HAPPY, The Clown

Apprentice Alumni Banquet Is Scheduled For Dec. 14

The Apprentice Alumni Association will hold its annual banquet and election of officers Wednesday night, Dec. 14, in Bldg. 16-2. Tickets may be obtained from contact men.

G-E Club To Sponsor Square Dance Dec. 2

The G-E Club's entertainment committee will present its fourth in a series of square dances Friday night, Dec. 2, in the G-E Club auditorium.

The dance will be held from 9 to 12 p.m. and admission is free of charge to all employees, their families and friends. Joe **Taylor's Indiana Red Bird** band will provide the music for both round and square dancing.

After the first of the year, the family night dances will be held Saturdays to accommodate employees on the second shift. Previously the committee was unable to acquire a band except on Friday nights.

Q-C Club Announces Slate Of Candidates

J. V. Johnson

J. L. Lare

James V. Johnson, Bldg. 18-2, and John L. Lare, Bldg. 20-2, have been named as candidates for the presidency of the G-E Quarter Century Club, it was announced today by C. V. Bobay, chairman of the nominating committee.

The slate of candidates also includes:

Vice President
Howard F. Bennigan, Winter St.
Delbert C. Rehm, Bldg. 19-5.

Secretary
Lyston P. Persing, Bldg. 16-3.
Herschel L. Smith, Bldg. 8-2.

Treasurer
Walter W. Dreyer, Bldg. 4-4.
Herbert D. Kammeyer, Bldg. 18-1.

Director
Arthur R. Kabisch, Winter St.
Elmer J. Wagner, Bldg. 19-3.

The directorship is for a term of five years, while all other offices are for one-year terms.

The election will be held during the first week in December. Ballots will be mailed to all members.

Fred Schafenacker, Taylor St., and Walter H. Sunier, Bldg. 4-6, complete their third terms this year as president and vice president of the club.

Mr. Dreyer is the only candidate nominated for re-election.

ELEX CLUB PLANS CHRISTMAS PARTY

The Elex Club's Christmas party for members will be held Thursday, Dec. 15. There will be two sections of the party.

The party will be held at 8 p.m. for the day shift, and at 12 midnight for second shift members.

The Harmonicats will be featured on both programs. The harmonica trio is famous for its recording of "Peg of My Heart."

A reservation fee of 50 cents must be paid on or before Friday, Dec. 9.

HARMONICATS

Squares Announce Plans For Annual Fall Dance

The annual Fall Dance for members of the G-E Squares Club will be held Saturday night, Dec. 3, in the club rooms. The informal dance will start at 9 p.m.

Unless You Are An Indian, Be Careful Of That Word

Ever since the Pilgrims landed, there have been those who called others "foreigners." Come to think of it, we're all foreigners, aren't we? Some of our families have been here longer than others—but at one time they, too, were foreigners.

We're all foreigners, more or less, but far more important —all Americans. So let's not think of others in terms of where their ancestors came from, or which church they go to. Let's think of everyone as individuals—as Americans.

Attention Hunters: Don't Let Bugs Bunny Have The Last Laugh

With the hunting season now going full tilt, many of us are tramping the woods and fields with shotguns under our arms, hoping to bag our share of the rabbits. Brer Rabbit makes good eating, and hunting him is good sport—if the hunters are aware that he may be carrying a dread disease, tularemia.

This tularemia, which is more commonly known as rabbit fever, is an acute infectious disease that may have dire consequences. It is just as common in ground squirrels, so watch your step with them too.

All rabbits don't have tularemia, of course, but it's good common sense to be on guard when handling or cleaning any of them. This infection, if present in a rabbit, can enter your system by way of any small cut or break in your skin. It is passed from one animal to another by the bite of parasitic insects such as fleas.

Under ordinary conditions, tularemia has its own effects on a person and is not hard to identify although once in a while it is confused with such diseases as typhoid fever, malaria and tuberculosis. A blood test by a medical laboratory will tell whether it is tularemia.

Symptoms usually show up within three or four days following exposure to a diseased rabbit. There is a sharp onset of fever and chills. This is followed by aches and pains throughout the body, principally in the muscles of the back and thighs. These aches and pains are associated with a severe headache. At the point where the infection enters the body, a sore usually develops. As a rule, it is a thumb or finger that is infected, and the lymph glands which drain this area become swollen and sometimes even ulcerated. Once in a while the infection spreads to the eyes. If this happens, it might cause blindness.

When a person in average physical condition gets tularemia, he usually recovers. But—and this is an important thing to remember—a deep physical depression hangs on for many weeks and months after the original infection gets hold of the system. With this general lowering of physical condition, there is likelihood that some other severe infection may get a toe hold in the system and cause serious damage.

There is no special drug which medical science has found to cure the disease. It is mainly a problem of treating the symptoms. Some of the newer drugs, such as streptomycin, have contributed their share in lessening the severity of the illness, however.

It is always best to play safe, so whenever you're handling or skinning a rabbit wear a pair of rubber gloves. If the infection can't enter your body, it can't raise hob with your system. Also, just as we have always cooked pork thoroughly to remove any threat of trichinosis, another parasitical disease, we should cook all the redness out of a rabbit to eliminate any possibility of getting tularemia when eating the meat.

Beware of the rabbit that has "spotty" liver or organs—this should be a definite warning that tularemia is present. And, in the field, be suspicous of the rabbit that is sluggish and doesn't make the usual effort to get away. It's a good idea to shoot him, but don't take him home.

"Ugh!.. foreigners!"

It's Your Federal Government

What You Can Do About It

By Robert L. Johnson

Editor's Note: Following is the sixth in a series of articles describing the major findings of the "Citizens Committee for the Hoover Report". These articles are written by Robert L. Johnson, President of Temple University and Chairman of the committee. This committee is a voluntary, nonprofit, nonpartisan organization of leading citizens which has undertaken the task of informing the public of just what reorganization means and what the Hoover Commission recommendations, if enacted into law, will mean to each individual and to the nation.

If I have been successful in presenting the case, you have a fairly good idea of what a disorderly and wasteful pattern of government we have in this country. But you don't know half of it. I have attempted in this series to inform you of some of the defects in those departments of the Executive Branch of the government which are next to be considered by Congress; and in the order of this series.

I purposely spaced these articles in this way so that you could discuss the measures intelligently when they come before the Congress in its session opening in January, 1950. It also gives you time to communicate with your Congressman if, as I expect, you are disturbed by this vast waste, which is costing you money, and wish to do something about it.

A little further on I will tell you specifically how you can co-operate to bring about the saving of at least $3 billions a year, and probably $4 billions, if all the recommendations of the Hoover Commission are made into law by the Congress.

People are daily becoming more aware of the bipartisan Hoover Commission and of the great importance of its work. The Hoover Report, I am convinced, will take its place in history alongside other great and cherished documents which have marked the passage of this country along the road to human betterment. As to the Commission itself, it was unique.

Politics Are Avoided

It was unanimously created by the 80th Congress to make a survey of the government, to seek out instances of waste and duplication, and to recommend how savings in costs and more efficient government could be achieved. Politics did not enter into the question in any way. There were six Democrats and six Republicans on the 12-man Commission and Mr. Hoover was made chairman at the suggestion of President Truman himself.

The 19-volume "Hoover Report" is the result. To the everlasting credit of the Commission and the Congress, the first five of the Reorganization bills to be considered have all become law with potential savings of at least $1.25 billions. It is a remarkable beginning. Witb your help, at least 80 to 90 per cent of the entire program can be enacted into law. Perhaps all of it.

I should like briefly to review some of the bigh spots of the previous articles. The first referred to Uncle Sam as the world's worst business man. I think it is true. If there is anyone in business more confused, I haven't heard of him. Imagine a business house that goes into debt every year on an increasing scale, while going ahead and deliberately piling up other and greater expenses. Try and see if you can conceive what kind of thinking goes on in a government which spends $10 in cumbersome paperwork to execute millions of purchase orders for items costing less than $10. Or in a concern that borrows money from itself and pays itself interest. Or a company which keeps seven different set of books and still doesn't know where it stands. All those things are done by this government.

Then take the Post Office. It does a business of $1.3 billions a year and goes "in the red" for more than one-third of that amount. It spends two and one-half cents for each of the billions of post cards it sells to you and delivers for one cent. This loss alone amounts to $45 millions annually.

The Post Office bill will be the next to be taken up by the new Congress. Watch it.

Hard To Keep Employees

Then we took up the question of a government career, and found that a job with the government is proving so unattractive that every fourth person working for Uncle Sam voluntarily quits his job each year. The reason? Low pay and less chance for advancement than in private employment. Also, nearly 50 per cent of applicants who have passed examinations for government jobs quit before they are appointed because of the delays and red tape. And, by the way, it is just as hard to get out as to get in. Red tape and delays are so great that it is practically impossible to discharge an inefficient employee.

We saw in the fourth article how the finances of the government are being conducted under formulae dating back to Alexander Hamilton and how there is no place where an overall picture of our financial standing can be found. Some of the departments, the Post Office, for example, do not handle their own finances and nobody, even the Postmaster General himself, can tell, until the end of a fiscal year, how his department stands. Or, in other words, how much it is going to lose that particular year. It's fantastic!

Finally I took up the subject of waste by the Veterans Administration in the building of hospitals. It seems to me that its program is too ambitious.

Disservice To Veterans

The Veterans Administration, at the time of the survey, had 6500 empty beds in its existing hospitals and yet it plans, or is building, 89 additional institutions at a cost of $1.1 billions. This could result in a disservice rather than a benefit to veterans, because there are not enough available doctors and nurses to staff these hospitals when they are completed.

OUT OUR WAY

By J. R. WILLIAMS

N.L.R.B. Asked

(Continued from page 1)

pany has been requested to supply copies of the contracts and of the correspondence from the parties concerned having any bearing on the representation question.

In accordance with what the Company has been urging, matters of representation are thus seemingly on the way to being resolved in the normal and customary legal manner. The Company will recognize as the bargaining representative of employees whichever union is the choice of employees, as certified by the N.L.R.B.

Under normal Board procedure, the Board makes an investigation, holds a hearing and directs an election if it finds there is doubt as to the union the employees want as their representative. An election directed by the Labor Board is conducted by secret ballot as to whether one or another or no union is desired by the employees.

PURDUE TECH INSTITUTE TO OPEN REGISTRATION FOR WINTER TERM DEC. 8

Purdue University Center has released its schedule of classes for the Technical Institute Winter Term, to begin Dec. 12.

Registration for all courses will be held on Dec. 8, 9 and 10. All courses are approved for G.I. training. Pre-registration is now underway at the University Center Personnel Office.

41 Courses Available

Forty-one afternoon and evening courses will be available during the coming term. All courses carry Technical Institute credit and can be used for meeting requirements for certificates.

Technical Institute training constitutes a two-year terminal program, in which students may pursue programs of study in Building Construction Technology, Electrical Technology, Drafting and Mechanical Technology and Industrial Technology.

Graduates receive an Associate Technical Aide Diploma and are qualified for work in time study, as production control coordinators, laboratory technicians, in technological services with architects, contractors, and building material suppliers as methods engineering aids, administrative assistants, draftsmen and electrical contractors.

It is now possible to complete each of the four two year Technical Institute programs on either an afternoon or evening part-time or full-time base.

Requirements for admission to the Technical Institutes are quite flexible. Applicants who are not high-school graduates but who can submit satisfactory evidence of an equivalent background of experience or training may be considered for admission.

Complete information and schedule of classes may be obtained by writing Purdue Center, Jefferson at Barr, or by phoning A-3171.

Parker Addresses Annual Meeting Of Squares Club

R. I. Parker, Commercial Vice President in charge of the Central District, addressed 250 members of the G-E Squares Club and test engineers at the club's annual dinner meeting Wednesday night, Nov. 16. Mr. Parker is shown at the right, above, talking with P. M. Staehle, Manager of Sales for the Specialty Transformer and Ballast divisions; W. A. Hubbard, of Rugby, England, who is the Sales Manager for Fractional Horsepower Motors of the British Thomson-Houston Co., Ltd., an IGE associated manufacturing company, and R. C. Hanna, Assistant Manager of Sales for the FHP Motor divisions and president of the club. Mr. Staehle and Mr. Parker both started with the Company as test engineers in 1912.

Reduced Prices Announced On Several Models Of FHP Utility Motors At Employees' Stores

A limited supply of ⅓ hp Fractional Horsepower utility motors are now available at the Employees' stores at special reduced prices. These motors are discontinued models and will be offered for sale to employees until the stock is exhausted.

These models are:

	Retail Price	Special Employees' Price
No. 1E158—⅓ hp—Split Phase—Sleeve Bearing	$17.95	$10.75*
No. 1E159—⅓ hp—Capacitor Start—Sleeve Bearing	$24.50	$14.70*
No. 1E165—⅓ hp—Capacitor Start—Ball Bearing	$26.95	$16.20*

*Plus state tax.

⅓ hp Ball Bearing, Capacitor Start, Utility Motor, Catalogue No. 1E165.

Catalogue No. 1E158 motors, rated ⅓ hp—1725 rpm—115 volts—60 cycles, are equipped with double shaft extension, 8 ft. rubber-covered cord and plug, ON and OFF switch, and manual reset overload protecting device. These motors are recommended for devices where high initial starting ability is not required. Typical applications are buffers, grinders, bench lathes, and other similar applications.

Catalogue No. 1E159 motors, rated ⅓ hp—1725 rpm—115 volts—60 cycles, are equipped with single shaft extension, sleeve bearings, 8 ft. cord and plug, ON and OFF switch, and manual reset overload protection device.

Catalogue No. 1E165 motors have the same rating and features as No. 1E159, except they are equipped with ball bearings.

Both Nos. 1E159 and 1E165 are capacitor start motors and are recommended for devices where the motor must start under a heavy load. Typical applications include belt-driven, shallow-well pumps, homework shop tools, small compressors, and similar devices.

Despite all the sword rattling that has been going on lately, Arnold Toynbee, the famous historian, says he doesn't think there'll be a shooting war for generations. That's as cheerful as a shaft of sunshine in a cave. He is not optimistic enough to expect Russia to become a "good neighbor," but he says he doubts that they'd dare buck our production ability. But don't look for any sudden thaw in the cold war. Still, if the frigid fracas continues, it'll be up to the Western nations to prove how successful their way of life can be . . . and that might mean a better world for everyone. It's a great idea.

What You Can Do

(Continued from page 2)

The Hoover Report points out that the cost of these structures greatly exceeds that of community hospitals, running from $20,000 to $51,000 per bed. The average for community hospitals is $16,000.

In the fiscal year 1950 the Veterans Administration will spend $3.5 billions, which is 11 per cent of the Federal budget and second only to the Defense Establishment. No one begrudges the veterans the best care available; but it is significant that last year President Truman lopped $200 millions off the Veterans Administration budget, declaring that the hospital building program was excessive. Congress, however, restored the item.

There is now a nation-wide movement on foot to see that the Reorganization bills are understood by everyone, and that everyone who will, can be an influence in effecting their passage. It is spear-headed by the non-partisan Citizens Committee for the Hoover Report. This is a voluntary, non-profit group of citizens having 38 active State committees. The Committee wants your cooperation.

Simply address a note to the national headquarters, 1421 Chestnut St., Philadelphia 2, Penn. Indicate whether you wish only to sponsor the movement, or will take an active part. We can, together, be the deciding force in the battle for good government, and we, and our children, and children's children, will benefit in better government, reduced taxes and a more normal life.

CURRIE, CASE RECEIVE NEW APPOINTMENTS

Neil Currie, Jr., and Byron A. Case, both formerly of the Fort Wayne Works, were among seven executives of the Apparatus Department named to new positions last week by Henry V. Erben, G-E Vice President and General Manager of the department.

Mr. Currie was appointed Administrative Assistant to the General Manager. Before his promotion, he was Manager of Manufacturing.

He was Manager of the Fort Wayne Works from 1936 to 1939, when he went to Schenectady as Assistant to the Vice President in charge of Manufacturing. In 1944, he was named Manager of Manufacturing for the department.

Mr. Case was promoted from Assistant to the Manager of Engineering to Manager of Engineering, Small Apparatus divisions.

Mr. Case served most of his career at the Fort Wayne Works after graduation from the University of Washington in 1927. During that time, he was an engineer in the Transformer Engineering department, Supervisor of Production Planning, Fort Wayne Works, Administrative Engineer of the Fractional Horsepower Motor Engineering division, and Assistant Engineer of that division.

In 1947, he went to Schenectady as staff assistant to the Manager of Engineering and in 1948 became Assistant to the Manager of Engineering.

Some of our teen-age dancers look as if they had just stepped into a wad of chewing gum.

Record Number Of Awards Are Presented

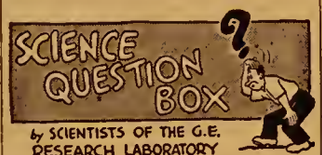
Russell Noll, Bldg. 17-4, received $30 for his suggestion to change the method of punching ventilation slots. He is shown at the left, above, discussing the idea with his foreman, Carl Hattendorf.

Dear Mamie: Opal Bates and Evelyn Daugherty and our mutual friend George Norwood are suffering the same form of torture that of having a birthday. They think that it doesn't show, but all of them are smiling. . . . Why is it that all of the things that are happening we have to go back and think how much better this would be if Mamie were still here to do the weekly stint. . . . We hear by the grapevine or cable (whichever fits best) that our friend Ed Glusenkamp is having his difficulties. Very innocently he asked Ed Johnson to go downtown with him after work to make a tour of the toy departments (his wife being allergic to toys). Mr. Johnson, having in mind of going home declined the proffered ride, but Ed went ahead on his own. I wonder what he was really looking for. (Maybe it was for an archery set to make it more difficult to get out this week's blurb). . . . Wonder what is wrong with Bill Shuler's car. It sounds like a cement mixer. . . . It would appear to me that there would be a little more care taken by Joanna Alles and Luella Guy when they went to a style show. Maybe they are so interested in getting home that they don't care what they put on in the way of coats. If you know them you will see the problem. . . . Frank Lawrence is about to have the best chance in his life to be a success. He went hunting with an Allmandinger (we all know how many of them there are) so he just can't come home empty handed.

Mamie's going to take a trip
We hope that she doesn't make a slip
By trying to work and strain her brain
She sure will have trouble catching a train.

By "Them"

CHRISTMAS CARDS, WRAPPING PAPER ARE SOLD BY ELEX



The Elex Club has a selection of Christmas cards and wrapping paper for sale. The cards and wrapings are $1 per box, and may be purchased from contact girls or at the personnel offices at Taylor St. and Broadway.

City To Erect Stop Light Near Taylor St. Plant

A stop light will be erected at the corner of Brooklyn Ave. and Taylor St., it was announced this week by city officials.

The General Electric Company has offered to furnish the timing device for the light and arrangements for the bus loading zones have been made by the Fort Wayne Transit Co. According to the new plan, the special buses will load on the north side of Taylor St., just east of Brooklyn Ave., and the regular buses will load on the south side of Taylor St., just east of Brooklyn Ave.

Starting Monday, Nov. 28, a police officer will direct traffic at the corner during the changing of shifts at the Taylor St. plant.

Q: If rocket ships can some day be constructed to travel to other planets will there be much danger from meteorites?

A: Different opinions have been expressed in the past but one of the most recent studies was made by a California engineer, G. Grimminger. He concludes that for meteorites large enough to penetrate the hull of such a rocket ship, the chances of a hit are negligibly small. Suppose the skin of the ship were of stainless steel and as thin as 1/20 inch. Then the smallest meteorite from which there would be any danger of penetration would be about 1/175 inch diameter and weighing about 1/180,000 ounce. If the ship presented an area of 1000 square feet, the average time between hits by a meteorite of such a size or larger would be about once in 15 years, and for a thicker hull, of course, it would be much longer.

These are the days when your life in the country agrees heartily with your relatives from the city.

(Continued from page 1)

Donald W. Shutt, of the Tiffin plant, was the leading suggestor with a $140 award. He recommended the reduction of banding steel used.

Mary Jane Runkel, FHP Motor Div. 14, was awarded $110 for her suggestion to omit certain records. A $100 award went to Fred E. House, FHP Motor Div. 17, for his idea regarding tote boxes.

For his suggestion of a float to remove paint, John Bastian, FHP Motor Div. 17, received $80. A proposed change to unit bearing motors brought a $30 award to Russell J. Noll, FHP Motor Div. 33.

Twenty-five dollar awards went to Walter F. Hinrichs, FHP Motor Div. 14; Robert McAfee, Decatur plant; Loren Wood, DeKalb plant; George T. Noffze, Motor and Generator division, and H. J. Kruge, General Service division.

Employees receiving awards ranging in different amounts from $5 to $20 were:

FHP Motor Div. 1: Robert Maxwell, Jay H. Michael, John S. Pumphrey, James F. Sarasien (two awards), Gilbert Walker, Henry Wiegmann, and Francis J. Fitch.

FHP Motor Div. 13: H. D. Patterson, Theodore H. Weber, Waldo D. Martin, Clarence F. Myers, Fred K. Vietmeyer, John F. Driver, Herschel Foreman, Donovan Garton, and Preston H. Hille (two awards).

FHP Motor Div. 14: E. E. LaVine (two awards), Herman F. Lepper, Charles Norwood, Fred H. Vogt, Joseph Sallot, Claire H. Forbes, Luke C. Shorter, Lydia M. Doebrman, and Arthur L. Bear.

FHP Motor Div. 15; Gerald F. Meeks (two awards), William Oberlin, Wilbur E. Tibbitts (two awards), Walter Amacher, E. James Battrick, Thomas L. Blackwell, Merl E. Bryie, Leola R. Carrier, Francis Fann (two awards), Harry C. Grimm, Robert O. Kerr, and Oliver H. Bowman.

FHP Motor Div. 16: John R. Magley (two awards), Everett Sloffer, Dale W. Stalter, C. J. Mosshammer, Charles Coffman, Jr., Ross M. Domer (three awards), George Eshelman, and Herb Halley.

FHP Motor Div. 17: Eldon R. Lewis (two awards), John Lee (two awards), George N. Miller, Betty Boldt, Thomas W. Cannon, Howard Householder, and Norman Hughes.

FHP Motor Div. 19: Hugo Wengert, Claude L. Gill, Mary A. Herb, Howard G. Reinking, Dorothea Swank, Lloyd Runyon, John R. Miles, Charles A. Lauer (two awards), Ruby A. McBride, Edward A. Huhn, Ralph E. Trevey, Raymond B. Schuckel, and Arthur W. Lantz.

FHP Motor Div. 33: George H. Miller, Joseph F. Prezbindowski, Joseph E. Quinlan, Solomon Andorfer, William F. Decker, and P. H. Kraft.

FHP Motor Div. 10; Joan Walter, Merle Morkoetter, Jr., Jack E. Angel, Nadeen Junk, and Virginia Mariotte.

Decatur Plant: Calvin P. Magley, William Hunt, George Rothgeb, Edna Callow, and Guy Koos.

Tiffin Plant: Norman Abbott, Robert Borer, Merlin Drohen, Donald J. Philbrick, Harvey J. Miller, Paul Raitz, Russell L. Semer, Robert Warrington, Richard Zirger, Gerald Yost, and Al Grieve.

Joseph A. Haas, FHP Div. 16, recently received a $25 suggestion award for his idea in regard to grinding dies.

DeKalb Plant: Elliott Lay, Sr. (three awards), Elsie Hawkins, Evelyn Freeman, Jesse Ramsey, Elmer W. Scott (two awards), William Paseka, Loren Wood, J. D. Ramsey (four awards), Clifford Smith, H. K. Wells, John Feyerhard, Edward Cristallo, and Virgil Hinkston.

Specialty Transformer Div. 91: Donald C. Ford (two awards), Robert A. Bunyan (three awards), George W. Jones, John A. Kennell, Gerald Crum, Howard G. Welch, Charles Druce, and Harold Franz.

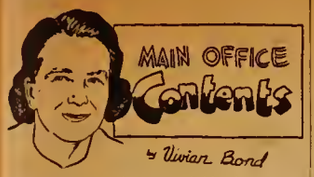
Specialty Transformer Div. 94: Olen 1. Lehman, J. Virgil McKeeman, Lucile Nevelle, Arthur Pequignot, Phil A. Roberson, Murray J. Sherman, Dorance Stuckman, Clifford Thompson, David Bertsch, Virgil Buchanan, Levi C. Carpenter, George E. Corell, Kenneth Fisher, Estella Frantz, Ned D. Greulach, Violet Kellams, Dorothea Kaylor, and Robert D. Glenn.

Danville Plant: Roy A. Tarpley, Wilson D. Halls (two awards), Joseph McFadden, W. E. Deichman, Paul Zemont, Donald Halls, Robert Gardiner, John Doney, Lula Allison, Miriam Farley, William Uvick, Peter Szollosi, Robert Young, Ambrose Frazeier, John Hinrichs, Viola Cundiff, Ronald Rutan, Verlin Biggs (two awards), Herman Drew, and Ted Henderson.

Motor and Generator Division: Fred B. Lahrman (two awards), Clifton J. Mugg, George T. Noffze, George L. Santon, Louis E. Tagtmeyer, Leroy A. Heintzelman, Richard K. Hobson, and Everett Anderson.

Wire and Insulation Division: Gerald Kummer, Dewey D. Parkison, Amel D. Beck, Lois M. Connett, Lawson Bryan Cox, Alfred Eisenacher, Lewis Guenther, Carl F. Hankel (two awards), and Ralph N. Hoover.

Tool Division: Lowell O. Welker, Ned Tarney (two awards), Guy F. Wagoner, and John Inches.



General Service Division: Alice R. Nichens, Theodore Raypole, Glen F. Ely, Horace L. Franklin, John N. Schreiber, Arthur A. Hyser, Wallace D. Reed, John A. Birchmeyer, Erven C. Huth, and Richard P. Dentel.

Miscellaneous: Ruth E. Moodie, Kenneth J. Petgen, Howard R. Mertz, Dorothy Crist, and Frank J. Chayka.

Recipients of G-E monogramed cigarette lighters during the last week of the Suggestion System Contest included:

William Tennison, Eldon Lewis, Lloyd Garrison, Clifford Balyeat, Raymond Pickett, Eugene Kelsey, Clifford Geller, Alva Johnson, Clifford Thompson, Edward Murchland, Lloyd Brown, Jason Moser, Walter Gibson, Harold Pippin, George Cavanaugh, Earnest Freeman, and Paul Judah.

Service to Others: Life in these United States presents many problems to all of us. To Fred White in Bldg. 18-4 some of these problems can be very embarrassing. Now, mind you, he does a wonderful job of getting everyone on the right train at the right time; is very accommodating about last minute changes and goes all out for service. But to park a car at the Pennsylvania Station with the keys in it, making it most convenient, is carrying the matter of service to others just a little too far. At the present writing, the car has not been located. . . . Carl Brandt and Ray White of the Office Bowling Team said the chicken flew over the fence Wednesday evening. Ray said if I had only made more points in that third game and Carl bemoaned the fact that he has been falling behind par lately. Better luck, next time, bowlers and may the prize be bigger. . . . With Thanksgiving over and everyone full of turkey and roast duck, we settle down in earnest to work on Christmas. Judging from what we see, the Employees' Store is carrying a complete line of fancy gadgets for the Christmas tree. So just spend your spare time over in the Store and the first thing you know your shopping worries will be over, G-E will profit and you in turn will profit, and the receiver of the gift will love it! Simple, isn't it?

I. W. Butler Completes 45th Year

Irvin W. Butler, Bldg. 31-1, celebrated 45 years with the Company Friday, Nov. 11. At that time he received a long-service certificate. Pictured above are: (l. to r.) R. M. Hartigan, Manager of Manufacturing for the Motor and Generator divisions; Mr. Butler, and P. S. Stough, Manager of Motor and Generator Engineering.

G-E Squares Women Hold Bridge Party

The Women's division of the G-E Squares Club entertained Thursday, Nov. 17, with a dessert bridge at the Squares hall, 219 E. Berry St.

Charles Powell, of radio station WKJG, was the guest speaker. His subject was "Interesting Sidelights Of Radio." He concluded his talk with a question and answer period.

An attendance prize was awarded to Mrs. Richard Thomas and bridge prizes were won by Mrs. Robert Hanna, Mrs. William K. Gregg, Mrs. M. C. Halleck, Mrs. Mark Tam, Mrs. Gilbert Jamieson, and Mrs. Frank Olney.

Mrs. M. B. Barrows and Mrs. Lore Ferverda were co-chairmen for the party. Their committee members included Mrs. Eldon Vosburgh, Mrs. Charles Cutshall, Mrs. Charles Johnson, and Mrs. Robert Schulte.

The refreshment table was centered with an attractive arrangement of autumn leaves, colorful gourds, and white chrysanthemums. The individual tables were spread with pastel covers, and each table was centered with a gourd holding a lighted taper.

The next event of the group will be the annual Cbristmas guest bridge Wednesday, Dec. 14.

West Lynn, Fort Wayne Take Top Safety Honors

The West Lynn and Fort Wayne Works are rated as baving the best records for safety of all the works in the Company's Apparatus Department for the first 10 months of this year.

Classes In Resuscitation Being Conducted Here

Classes in resuscitation started this week for maintenance and plant protection employees. Films and actual demonstrations are used in the training and pamphlets on resuscitation are furnished.

Carl Rehling, Bldg. 20-2, is arranging the classes, and E. J. Cade, Bldg. 4-6, is the instructor. Mr. Cade is also assisting the local Red Cross on a city-wide basis in Red Cross training work.

Elex Partizan Chapter Installs New Officers

The Partizan Chapter of Elex held its second anniversary banquet at the YWCA Tuesday, Nov. 15. The new officers were installed by Irene Meyers, following the program. I. H. Freeman, Supervisor of Personnel, spoke on the chapter's slogan, "Endeavoring, We Progress." Helen Miller was toastmistress for the evening.

The officers for the 1949-50 season are: (seated, l. to r.) Margaret Tomson, president, and Selma Rodemeyer, vice president; and (standing, l. to r.) Helen Thiele, treasurer, and Myrtle Bennett, secretary.

Apprentice BROADCAST

by MILDRED ELLIS

Wayne Bergman has earned a new name. While hunting rabbits with some of his buddies, Wayne scared out a cottontail, but was unable to shoot immediately because the safety on his gun was jammed. For fear the rabbit would get too far away Wayne was heard to say, "Bunny, bunny, bunny!" So now he goes by the name of "Bunny-Bunny Bergman." . . . It must have been the volleyball victory Wednesday night that went to Ecenbarger's head. Hoppel and Staley report that Harry became so brave he wanted to let the air out of the sheriff's tires. . . . We are glad that Fred Borton has recovered and has returned to work. . . . Paul Wuttke was to have the cast taken off his arm last Friday and hopes to be back with us soon. . . . Joe Rowan's bachelor buddies were beginning to show signs of anxiety last week. All were hoping Rowan would last till Saturday. . . . Donald Dimke and Homer Carson were the fellows who took home the chickens last Tuesday. It was their reward for bowling the most pins over their average. . . . Apparently Skeets Lahrman's ribs are back in shape. It is rumored he has been taking chest expansion exercises—probably so he would be in shape for Rowan's reception. . . . Wayne Bergman was a proud man. He bragged that he was going to lead the parade, and he thought he would look pretty nice riding along in that new station wagon, but it proved to be a long walk and Wayne's ego and feet both suffered. . . . Garland Roby was having his fun by frightening people with his rubber alligator named Hirkermer. But poor Hirkermer has disappeared, and we fear someone has killed him.

With television spreading its web across the country the report is that many politicians are resorting to face lifting and oral surgery. The TV and newsreel cameras are making them as self-conscious as an amateur toe dancer with blisters. When the politicos say, "Let's face it" . . . they want to have the face to face it with. A man's ideas may be as sensible as a mother's advice . . . but if he pops out of a TV screen looking like Groucho Marx or J. Durante, he'd bc better off in vaudeville. Of course, if we ever get to a time when we pick our representatives by their looks alone . . . we better look out!

FHP Motor Divisions Announce New Line Of Shaded-Pole Motors

A new line of lifetime oil-lubricated, sbaded-pole motors designed for operation in any position—shaft up, down, horizontal, or at any intermediate angle—has been announced by the Fractional Horsepower Motor divisons.

Designated as Type KSP, frame sizes 11 and 21, the new motors can be used as drives for exhaust fans, cooling fans, evaporative coolers, unit heaters, condenser cooling, and space heaters, as well as for small pumps, agitators, and blowers.

The new motors feature a new unit-bearing construction in the shaft end of thc motor for greater strength on direct-connected loads; treatcd stator windings of Formex (R) insulated wire; and vibration-absorbing resilient end rings which are resistant to oil and aging. Mounting arrangements for the new motors include resilient end ring mounting, resilient cradle basc, and hand mounting. Motors also are available with four tapped holes on the shaft end for end mounting.

21-frame open motor with resilient base.

Kammeyer Celebrates 40th Anniversary

Herbert Kammeyer, Supervisor of Payroll, Bldg. 18-1, celebrated his 40th anniversary with General Electric, Nov. 5. He was presented a 40-year service certificate by C. H. Matson, Works Manager, in a meeting Friday, Nov. 4. Attending the presentation were: (l. to r.) J. E. Estabrook, Assistant to the Manager; Mr. Matson, Mr. Kammeyer, E. F. Waldschmidt, Works Accountant; C. H. Weber, Manager of Wage Rates; I. H. Freeman, Supervisor of Personnel; L. C. Swager, Assistant to the Manager; A. E. Leider, Manager of Production Service division; and C. R. Olson, Staff Assistant.

Motor and Generator Static

Thought for the Week: No man is fast enough to keep up with his good intentions. . . . Odds and Ends: Daffynitions: Antique Furniture—Chairs too old and rickety for poor people. . . . Bathing Beauty—Displaced person. . . . Poet—Guy who lives the hard way. . . . Wedding Cake—Altar rations. . . . Garage—Room for one mower. . . . Dilemma: The fellows in the office have a problem: "What do these New York fellows have that we don't have, and where can we get a Buick right away?" . . . TAILS NOT TALES: That ole coon tail is really getting around in Bldg. 21-1. We can't make up our minds as to who did it most justice. It looked mighty good on Joe Neal, but then it looked right nice on Walt Metzenius, too. It made its comehack today on our ex-Marine, Stan Marquardt, who unknowingly paraded it hack and forth across the office. When it was discovered following Mr. Marquardt, he, heing anxious to pass the honor along, attached it to "Golden-Voice" Hohson. . . . Birthdays: Speaking of Mr. Hobson, as we were doing, our fair-haired boy celehrated a hirthday today. Likewise for Dwight Meyers. We wish them many more. . . . Sleep: "Big John" president of Ed Foley's Greeks is a sound sleeper. On two occasions he has boarded the train at Detroit and gone to sleep. On one occasion the conductor managed to awaken him at Fort Wayne, and he wanted to argue that the train could not he in this city as he had only heen asleep five minutes. On the other occasion he was carried to St. Louis hefore they discovered him peacefully sleeping. In this case there was no argument. . . . Who? Each year since 1939 Jack Toole and Mike Sorgen have exchanged a Christmas greeting. "So what," you remark. To which we reply that it is the same greeting each year. Both hoys have forgotten who sent it last year and will have to check their collection to decide who sends and who receives. . . . Must Be: The other evening Jack Hively decided to chop some wood for his fireplace. He picked out a choice piece, struck a mighty blow with his trusty axe almost severing the log. To complete this task he picked up the piece and struck it on the chopping block. The severed piece flew up in the air and hy some freak action curved around and struck Jack in the hack of his head cutting a gash behind his right ear. Must be a limb off some sort of a boomerang.

Safety Raiser

These three little words, calm, cool, collected, give those who practice it a douhle reward—safety and happiness.

Ramhlings, Bldg. 31-2

Extra, Extra: Howard Naslund is all hroken up ahout haskethall. While playing on the Squares team Howard was humped and is now laid up with a broken clavicle (that's the collar bone). Howy has to wear a cast which makes his "wings" spread hack like he is ready to fly. We may he missing him four weeks. Howard will prohably have some ribbing to take from Brown and Brighty about being too old to play basketball. . . . The Formeneks have recently returned from a two weeks' trip to California and Oregon.

Corn S'talks

TAYLOR ST. SHIPPING

By Gloria Geesaman

Here we are again with something new added—me. . . . We had two hirthdays this last week—Naomi Snyder and Nancy Woodhull. Both received gifts from the girls of the officc. May they hoth have many more happy birthdays to come. . . . Oh, brother, what style! Ruth Sutorius was honored at a dinner at The English Terrace and show afterwards. Corsage, too. What's the occasion? She's leaving us this week to take up the duties of a housewife. Lucky girl. . . . Whoopee! We got off Thanksgiving to eat all the turkey we could hold. . . . Romeo has his third week of vacation. Man of leisure, that's what. . . . Notice to all visitors. You must sign the register when you visit certain (they must be special) persons in shipping. . . . Barhara Reeh went with her boyfriend muskrat hunting, and they came home with a couple. Nice hunting, ole girl. . . . Our other hunter, Jack Angel, hagged five rabbits Saturday. Not bad considering, who did the hunting. . . . Delores Connin's daughter was operated on Saturday for appendicitis. Condition, good. . . . Who bas a visitor every noon in teletype? Ask Fay E. Alexander. . . . Can you imaginc anyone forgeting a turkey dinner? That's what Jerry Schlund did. He forgot he was planning on having a turkey dinner Saturday. . . . Alice Uffelman has been robbing her piggy hank lately. Guess everyone will know that Christmas is just around the corner. . . . That's all today, folks, see you next week.

Mr. and Mrs. Lou Mayle spent the Thanksgiving holidays in Niagara Falls, N. Y., visiting his parents. . . . Dr. Garton spent several days last week in DeKalh on husiness. . . . The little nurse from Huntington, Thelma Harrison, was visiting in Bldg. 21 Dispensary recently. She formerly was on second trick at Taylor Street. . . . At last the secret is out! There were some surprised girls at the last night girls Elex party at the "Y", when the identity of the Apple sisters was revealed. Now who would have thought that Seedy and Corey were Berneta Welbaum and Mary Heymann? Their costumes were colorful hut far from beautiful, and the music "out of this world"—but not far enough. It really was plenty corny, hut a lot of fun. . . . The last report from Veda Orff was that she is improving satisfactorily. This is another of the many things for which we are thankful. . . .

A Post-Thanksgiving Thought

"He enjoys much who is thankful for little;
A grateful mind is both a great and happy mind."

William Seeker.

L. W. Wightman Granted Patent

L. W. Wightman

The U. S. Patent Office has granted Lawrence W. Wightman a patent on his invention of a thrust eyelet for single bearing end play adjustment. Mr. Wightman is a group leader in the Fractional Horsepower Motor Development Engineering division.

His invention consists of an eyelet, having one of a variety of forms, which is secured to the motor shaft outside the hearing in such a position as to control the end-play of the rotor from the one bearing only. Twelve claims were allowed in connection with this invention.

Mr. Wightman has heen employed hy General Electric since 1938 and has worked in the FHP Motor Engineering divisions since 1940. This is his fifth patent.

Fractional Facts

TAYLOR ST. OFFICE

By Alice Nichens

'Till the digestive workers cry "No room"
And the tables now are turned
The turkey is no longer stuffed
But that title I have earned
We seem to feel on holidays
All food we must consume
And this we do quite vigorously
Thanksgiving day is over
We slowly leave the table
To find a nearby chair
And never will we eat again
This solemnly we swear.

But prohahly before the day is over we will be planning a menu for Christmas equally as capable of making us feel dull and stupid. It's a good thing holidays are scattered through the year. . . . Is it true that four little hunnies committed suicide so Ralph McVay and his hunting companions could face their friends? . . . Were those shells or blanks or has Bob Feller a job making shells? . . . Alberta Roth has spent some time recently studying the 1901 issue of a Sears and Roehuck catalog. Does that about finish the Christmas shopping? The catalog displayed a selection of good looking surreys and the clothes—they were really dreamy. . . . We, the loyal supporters of Bob Wildermuth during his recent MBA election, are patiently waiting the promised candy and cigars. It was my understanding that all politicians kept their promises. . . . Clara and Paul Billue will check the milk containers before lunch after this. Sometimes a bit of water is noticed in milk, hut not quite that much. Who could have done such a thing? . . . Martha Zuber was very embarrassed when she started to fix a slipping stocking hefore looking to sec whether or not she was alone in the hall.

Dean Carothers To Address Fort Wayne Engineers' Club

Dr. Neil Carothers will address the Fort Wayne Engineers' Club at a meeting in the Civic Theatre Thursday, Dec. 15. Free tickets will be made available the first week in December.

On leave of absence as dean of the College of Business Administration at Lehigh University, Dr. Carothers has heen conducting a series of lectures at various works throughout the General Electric Company during the past year. The lectures were presented here from November through January last year.

Thanksgiving time, God has been good.
Are you going to thank Him as you should?
This wonderful world, this life we love
Are gifts to all from the Father above.
Look your blessing over with careful eyes
Take time to think and to realize
That God is good. Give thanks.

Foothall has taken a hack seat. All you hear is hunting stories. John Gutermuth wants to huy some sleigh hells to put on his rahbit dog, so that he knows where the dog is. John always has to hunt in the next county for the dog after each shot. . . . Ray Johnson really shoots up any going rahhits. He shot one with his boy's air rifle. The rahhit took off, bumped into a tree that was 14 inches across the stump, hreaking it off even with the ground. P.S. The rahhit never stopped. (Anyone taking notes for the tall story club?) . . . We also hear that Harry (Curly) Chism has heen out getting the bunnies at Eunice Zehr's place. . . . Betty Collier went hunting last weekend. . . . If you haven't had a hunny and are hungry for them, Lilly Schock will help. Pretty good on the trigger too. . . . Monday morning Charlie Rise reported to line 534 that he was Jess Hahn. (Jess was on vacation.) We wondered how Jess grew up and out so fast. But Jess' ghost must have been hanging around. Wilma Burkholder just knew that she had seen him. . . . We have a duel scheduled, not a sunrise affair, however. It is a euchre duel between Edith Beaty and Joe Jensen. . . . Delores Wonderly has decided the next time she rides an automatic elevator, she is taking a can opener along. . . . Elizabeth Wert wants to know the price of a hear trap. Wonder what for? . . . Minnie McCague was airminded last week. She flew to Hartford, Conn. . . . Dorothy Johnson attended the Michigan-Ohio State game. . . . John Magley went to see the Purdue-Indiana game. . . . It's a happy birthday to Margie Drake, Faye Kitteridge and Ella Arn. . . . Fourth wedding anniversary wished to Lavon Neshitt. . . . And Gertrude Martin was a grandma. . . . Our "We wish you happiness" mat is out for Marie Bowers. She is getting married tomorrow. . . . Congratulations for the baby girl at the Jack Shadys. The mama was a former co-worker. . . . Leona Hollis got out her ear muffs the day we had our first snow. . . . Bill Martin has kindergarten ideas. He likes to use a "double X" stamp. . . . Lucille Miller was very unhappy with Jerry Snyder. Jerry decided to hurn leaves while Lucille had her washing on the line. . . . Hedy Harrison believes in getting down to the basement in a hurry. She makes it in one step, landing on her face. . . . Lucille Allen is getting ready for Christmas hy having her picture taken for gifts. Did you see the hirdie? . . . Notice the difference in Alice Brockmeyer? It's the new gold rimmed specks. . . . Luella Stabler was out for exercise. She was going to the heauty shop at Taylor and Broadway and ended up at Broadway and Berry. . . . The hoss said, "We are going home at noon." Delores Wonderly said, "Goodby." At the cafeteria she found out it was she who was homeward bound. Not the hoss. . . . Our sincerest sympathy to Mildred Clevenger in the death of her mother.

When a college student gets a joh in spite of his education it's the power of mind over Mater.

GENERAL ELECTRIC
NEWS SUPPLEMENT

Candid Camera

VOLUME 14 NOVEMBER 25, 1949 No. 11

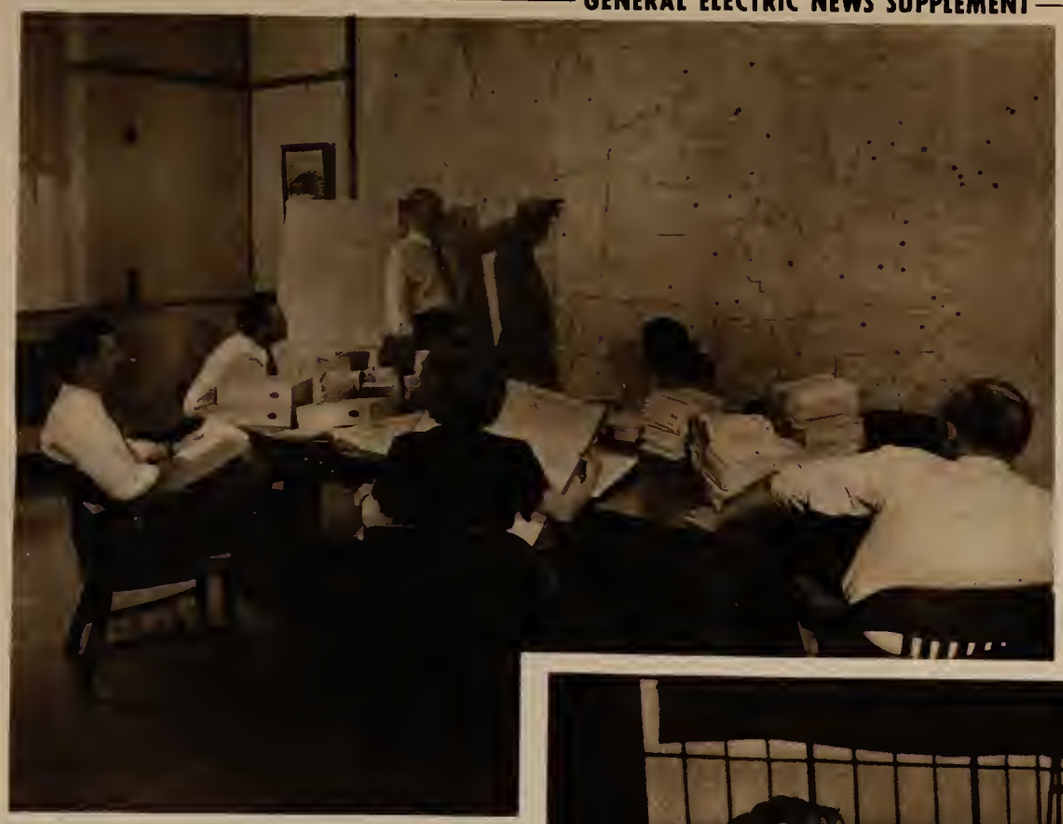
Mirthful Moment . . . Al Capp, left, famed creatar af Little Abner, and Hank Prajansky of Aircraft Gas Turbine Divisian, who does cartooning far the *River Works News*, enjay a G-E NEWS cartoon.

In the Mood . . . The Family Night Committee assumes the praper pose for "Our Family Album" film which traces histary of the Fart Wayne Warks for past 50 years. Seated, left ta right: J. E. Estabraak and R. A. Waehr. Standing: I. H. Freeman, C. J. Manrae and Frank Ondrovik.

Bowery Cutie . . . At annual Bowery party held at the Edison Club, Schenectady, members and friends wear those Bawery-laak autfits. Helen Rostkowski af the General Office is in an apprapriate costume.

Holiday Headliner . . . Jayce Ann, daughter of James Quilty af the Mahoney Glass Warks, Niles, Ohia, has the main caurse af her Thanksgiving dinner well in hand, as she leads unhappy bird kitchen-ward.

Head "Ham" . . . Gearge Grave af Winter Street Plant, Fart Wayne, displays plaque he received as autstanding amateur radia aperatar af Indiana. At right is instrument panel showing his call letters W9BKJ.



How G.E

JOB holders aren't the only ones who worr about steady work, did you ever stop to think about that?

Management does, too.

Steady work and regular pay for its employees is something that management does more than just *worry* about—it spends hard cash which runs into millions to maintain employment for its people and financial security for those who depend upon them.

For instance, product improvement never stops. No matter how good a product is, smart management tries continually to make it better. And when existing products don't move fast enough in the market place, new

1. Marketing Services experts study detailed map of U.S. to determine in what areas which products are selling. They not only make sales surveys, but can report whether a product will sell even before it leaves the draftman's drawing board.

2. An idea for a new product or for improvement of existing one, goes first to drafting board, after it's confirmed by survey returns, where engineers start with slide rules, blueprints.

4. The Tool Section must then convert machines or design new anes. With new and converted machinery, engineers then begin to set up assembly lines for quantity production to bring this new idea ta the buying public as rapidly as possible.

3. Appearance Design and Praduct Engineering specialists must agree before the engineers' skill can be dressed up to appeal to the customer and provide the utmast in durability.

5. Division management, sales, advertising and promation experts canfer an a national program to introduce improved product to the market in hope af stimulating buying power.

helps keep jobs steady

products are developed and introduced in the hope that they will find public acceptance and perhaps support some of the slower lines.

Then there's Marketing Services which conduct studies in the field to determine customer likes and dislikes, to locate poor selling areas in the market. Also advertising which makes the excellent quality of General Electric workmanship known through the medium of newspapers and magazines, through assistance to distributors in the form of product promotion materials such as counter cards, window and floor displays, etc.; Product Engineering which not only creates new lines, but improves existing ones; Appearance Design which develops the sleek, serviceable modern design that houses the engineering skill of G.E. merchandise, and on and on in a never ending parade whose functions serve to bolster the effort of production workers—in good times and bad—in bringing *new* and *improved* products from the assembly line to the homes of our customers.

Sales mean jobs. Literally hundreds of G.E. experts, sales and advertising people, and thousands of dealers are working for the man at the machine. We can all help them protect our jobs by keeping quality up and costs down. . . . *Prepared for CANDID CAMERA by A. and M. Dept., Bridgeport Works.*

6. Important people in the chain of distribution to bring goods from factory to consumer are G.E. distributors. Here, a Company district representative exposes a new and improved sandwich grill and waffle iron to a group who buy in carload lots.

7. Meet the critics. An improved product which specialists in marketing, appearance design, manufacturing, advertising and promotion say will sell is shown to distributor salesmen in the field. It's their job to sell it to dealers everywhere.

8. It ultimately reaches a dealer's window where its smart styling, set off by a handsome, self-contained display, attracts prospective customer. A whole army of talent has combined its total effort in bringing this product to the point of sale.

9. The prospective customer is intrigued. Yes, it's brand new! She observes that waffle plates are removable and the hot plate can be used to toast sandwiches, to fry eggs and used in many ways to prepare breakfasts or quick light lunches.

10. But selling effort does not end with customer buying her G.E. sandwich grill. Three months later, alert dealer called to ask if she was pleased with its performance, resulting in the sale and installation of complete General Electric kitchen.

Excellent Form . . . Ann Halland, right, golf chompion af the Electronettes, the G-E Wamen's Club ot Electranics Pork, Syrocuse, shows her trophy to Pot Evons, runnerup.

OPEN HOUSE AROUND G. E.

Viewing the Works . . . Mike Brickley (above), son of Wolter Brickley of Schenectody Warks, is o little bewildered by the size af equipment at G.E. as he gets next ta a huge generotor shaft under construction in new turbine building at Schenectody. (Right) Julius Pardi demanstrotes pottery moking in parcelain to part of Schenectody Works Open House crowd.

Family Affair . . . At River Warks Open House, (below, right), Children of G-E employees were omused by ventriloquist ond his dummy, part af the ofternoon-long show for the youngsters. (Below) John DeSolvo, shaws his wife ond sons where he works.

Three Draftsmen Graduate From Apprentice School

C. Z. Hubartt

Carl Z. Hubartt completed his draftsmen's course at the Apprentice School last week. A 1939 graduate of Wolcottville high school, he attended Indiana Technical college before coming to General Electric. He worked in the Motor and Generator division a year and a half before leaving for the Army.

Mr. Hubartt served with the Eighth Engineering squadron of the First Calvary division nine months in the States and 18 months overseas in New Guinea, Philippine Islands, and Japan. He returned to the Motor-Generator division after his discharge in January, 1946. He enrolled in the G-E Apprentice School the following May. He is married and has two children. They live at 2929 Queen St.

J. L. Leffers

John L. Leffers garduated Friday, Nov. 11, as a draftsman from the Apprentice School. He attended Central high school and graduated in 1941. His G-E career began that same year, working in Bldg. 6-4.

Mr. Leffers entered the armed services in February, 1943, serving a year in the States, 18 months in India, and six on Okinawa. After his discharge in January, 1946, he returned to G-E the following March when he enrolled in the drafting course. Mr. Leffers is married and resides at 2623½ Pittsburgh St.

H. L. Carson

Homer L. Carson graduated last week from the draftsmen's course of the Apprentice School. A 1940 graduate of Brown high school, he attended Tri-State college before coming to General Electric in 1942. He worked as a draftsman in the FHP Motor division until he entered the service in November, 1942.

Mr. Carson was a crypographic technician with the Signal Corps in the Okinawa campaign. He was discharged in March, 1946, and returned the same month to the FHP Motor divisions as a draftsman. His apprentice training began in May, 1946. Mr. Carson resides at 1516 Swinney Ave.

SHIPPING OFFICE: Helen Elbert (shipping section's proudest grandmother) produced some very snazzy pictures of her two pride and joys for some very appreciative eyes. No wonder you're proud, Grandma, they are adorable. . . . That troublesome little fellow, the Eight-Ball, was back to Herb Grueb Friday, but it seems there is some question as to whether he deserved it on such short notice. However, Ed David and Tom Dent believe in neatness at all times. . . . Katie Minchart has become our society candidate since her picture appeared in the morning paper, but Katie hasn't let fame go to her head. . . . A very difficult problem has arisen between Ray Quinn, Eileen Fitch and Phyllis Grace. Seems the problem is the age old question of which is the best way to bring up the off-springs. Anyone who has the proper method fully perfected please advise these three. Ray says move the furniture and release the younguns, while Eileen and Phyllis say don't move a stick of furniture just hold onto Junior. Well anyway it's a good question. . . . MAILING SECTION: Happy birthday to Dave Thiebolt who celebrated his birthday the 21st and also Jim Nagel who celebrated the 25th. . . . Is your Ed's face red, all because her knowledge of aviation is very slim. Last week we reported that Frank Hopper had received his commercial pilot's license, but with deep regret we must back down. Frank received his seaplane rating instead of a commercial license. . . . The reason for all the smiles displayed by Dave Thiebolt is he has taken a test for Apprentice School. Good luck, Dave. . . . If you are in need of a good excuse for being late just contact Dick Wilson. He will find you one, cause he has a million of them. . . . All our sympathy goes out to Clint Sorenson, who is going to have one of his molars extracted next Monday. Clint is now sweating out the delay. Keep a stiff upper lip, Clint. . . . SHIPPING, BLDG. 6-1: Roscoe Grover vows that never again will he accept an invitation to a rabbit dinner, especially when it is extended by Simon King. Simon told Roscoe he was getting a few of the boys together for a rabbit dinner at Dave Bridge's Wednesday. Poor unsuspecting (and also very rabbit hungry) Roscoe went to the gate house with Simon and agreed to wait there until Simon gets his car. After quite a wait a faint suspicion crept into Roscoe's brain and he decides he's been tricked and trotted off to buy his dinner. . . . If you big brave men think that women are the only ones afraid of mice you are mistaken because Dave Bridges has discovered that Simon King is very allergic to the little rodents. It seems Sam has quite a habit of sneaking apples out of people's coat pockets whenever he knows they have one. So the boys (being quite alarmed at the fact that Sam was afraid of mice) decided to correct the matter. They found a mouse, tied him to an apple stem, placed the mouse and apple in a coat pocket and then casually let it slip that a certain coat pocket contained an apple. Sam whizzed to said coat pocket, reached down deep and bingo! There was the little rascal. Just for the record Sam hasn't been seen around any apple-holding coat pockets lately. . . . John Brothers has a hidden talent, that of square dance calling. John has been calling at the American Legion Post at Leo for some time.

We all know that sourness spoils milk. It's too bad more people don't know it has the same effect on people.

I hope everyone was able to get in after that big Thanksgiving meal. . . . Howard McMaken has something to be thankful for this week. His long lost cigar holder was found next to the starting switch on his machine. . . . We have heard many stories about fellows building boats in their basements, and not being able to get them out. One of our former coworkers, Claude Gill, built a display case in his basement for a friend. When all was finished Claude had the choice of dismantling the case or taking out a door. From the last reports I had, Claude was working on his door. . . . Paul Boedeker lives in a neighborhood which has had several large fires recently so it was a rather common thing when someone knocked on his rear door and said that there was a fire out there. Paul's answer, was "I'll be right out and help you in a minute." Was he surprised when he went out the rear door and found his garage engulfed in flames. . . . Jack Pollock was going through the scrap last week in search of a shaft he threw away thinking that someone had placed it on his bench as a prank. When the boss asked if he had put that keyway in it, Jack remembered that it wasn't scrap. . . . Anyone wishing fast service in tire changing in the parking lot, just call on Jess Batchelder. He has all the latest equipment for tire changing. . . . Birthday greetings to George Bartel this week. George will probably celebrate by eating some of that deer he brought back from his hunting trip. Nice going, George. . . . John Bastian received a nice check as an additional award on one of his previous suggestions. I promised John I wouldn't mention the $80 to his wife. . . . The fellows were trying to tell me Louis Watt was on the receiving end of a skunk last week. I guess it was just a rumor as Louie said, "You fellows won't live long enough to skunk me." Oh, boy, if and when. . . . We all hope Ray Bowers is enjoying that additional week of vacation and catches plenty of game. . . . I will probably have a good hunting story next week. Paul Boedeker, Louie Watt and Bob Ripine are going on a threesome. . . . I saw one of our former coworkers, Russell Clawson, last week and he said to give the fellows his regards. . . . Edwald Stinsmuehlen is now at home to his friends at 1250 Sheridan Ct. since last week-end.

Birthday greetings of the week go to Martha Smeader. . . . Frank Lebrato left us last Friday for a new interest of business. . . . We wonder why Thomas Blackwell was wearing a red helmet last week. So he could be noticed by a lot? . . . Helen Tescula gets in a hurry Friday. She just leaves her card in the rack. You cannot get paid that way, Helen. . . . Welcome to Herman Macke and Burl Beaman. . . . At least we had one person who was lucky at the feather party. Velva Smith won an order for a turkey. . . . We have one proud papa in Bldg. 4-5. Ed Rodenbeck told us that his son won fourth place in a local baby picture contest. His picture is on display at a local studio. . . . We welcome A. Denny to the Bldg. 4-5 office who came from Bldg. 17-1.

Folks who left coal buying go until late may find out they made a fuelish mistake.

You're very likely to get a sudden shock when any account is overcharged.

Case Rounds Out 30 Years' Service

Calvin W. Case, Bldg. 19-3, rounded out 30 years of service with General Electric Wednesday, Nov. 9. At that time a number of his friends in the Motor and Generator division joined in with their congratulations. Pictured above are: (l. to r.) C. F. McCormick, Foreman; C. W. Hale, General Foreman; Mr. Case, Delphos Morrical, George Foerster, Glen Stanger, and Ralph Root.

This week we will introduce to you the team. The team that wears the gold and blue representing your G-E Club in the YMCA Owl basketball league. Hardly could a team be found anywhere that are as formidable as this. . . . To lead off the coach is Paul Boyer, who received his book learning at South Side. Although he didn't play varsity basketball Paul was always in direct contact with the sport. He also was coach and manager of the softball team last summer. . . . The captain and sparkplug of the team is Warren Wickliffe, 6-ft. 1-in. forward who played on the varsity of the Central Tigers for two years. In '41 he played on the G-E Majors and also on the interdivision team that won the championship in '47. Warren is an aggressive type player that can be used in any position. He was also a member of the "Hot Shots" three-time winners of the Owl Golf league. . . . A real old-timer is Bob Crosley who graduated from South Side. Bob is better known for his boxing ability. Seven times he won his weight division on the Golden Gloves boxing championships. In one year he and two brothers, Max and Lee, won their division in Golden Gloves, a feat that has never been equaled in the Gloves' history. . . . Max Greeno, who hails from Salem Center where he played two years of basketball, was in the 1947 class of the Apprentice class. He is 5-ft. 8-in. tall, but is plenty quick out on the court. He is soft spoken and can always be depended upon to give his best. He was the catcher on the softball team. . . . Harold Baker is the team's "mighty mite." He stands only 5-ft. 7-in. but makes up for his lack of height with drive, speed and cleverness. Harold went to Central where he played a year of reserve ball. He played with the interdivision champs in 1947. At shortstop and with a bat in his hand he was a potent factor of the softball team's success last summer. . . . George Lambroff was another Central grad but didn't play basketball until he went to the Apprentice School. George is single now, but is spoken for sometime next spring when he plans to take the step. . . . Fred Phillips, the team's tallest man, at 6-ft. 2½-in., holds down the paint booth in Bldg. 4-5. He went to North Side but didn't play varsity ball. He also held down first base last summer. . . . Another Tiger from Central is John Anspach. One year of varsity ball and a big helping of interdivision competition bave coupled to make Johnny one of those players whose value always shows up in a close game where aggressiveness and team play is necessary for the winning of the game. . . . Another of the team's "fancy dans" is Don Rietdorf. A South Side product who gained most of his court experience playing for 71st Army division team along with Blackie Towery, a former Piston, Milt Ticco and Ewell Blackwell, the Cincinnati Red baseball pitcher. Wearing glasses doesn't handicap Don, who is in on every play while he is on the floor. . . . Joe Schible played three years of reserve basketball and two years of varsity football for North Side, holds down a guard spot on the team. He almost invariably comes off of the opponents' board with the ball and quickly engineers the ball on its quest for two points for the Owls. . . . Howard Barrier is one of the boys that we didn't get the dope on, but it doesn't take long to see that he knows his stuff out on the court by the way he takes care of his position. . . . Ray Scherer, a Hoagland product, is a heads up ball player who always makes it very uncomfortable for the opposing team the way he hawks the ball. He played on Hoagland's 1936 Allen County Champions. . . . Our loss of Red Markey was the first trick's gain. We should mention that the mouse under his right eye was really a beauty to behold. . . . Now you have met them all. . . . Come out and see a real classy team perform at your G-E Club every Tuesday morning. . . . A team picture will be found on the sports page of this issue. . . . RANDOM NOTES—Ralph Clark, the night superintendent, has been busy planning his third week's vacation. We all hope that the vacation is as good as the anticipation of it has been. . . . This writer is very sorry to learn that Perry Jeffries, Bldg. 4-4, is in the hospital with pneumonia. It would take something just that drastic to keep Perry from hunting on opening day. . . . At a recent Elex party held at the YWCA two attendance prizes were given to two Second Shifters. They were Eileen Foor, Bldg. 17-3, and Laura Schnoeder of Taylor St. . . . Off to the hunt went Don Shroyer, Lloyd Oberholtzer, Virgil Fogle and Eileen Foor of the Hermetic gang. Obey bagged a poor little bunny. . . . Al Fry outdid the whole gang by getting two pheasants. . . . Bea Lantz and her daughter will tell us all about the ND-Iowa football game. . . . We hear that our good friend, Mary Heymann, the east side nurse, really spilled the maples down at the Court Street alleys to the tune of 180 pins. Nice bowling, Mary. . . . Jim Battrick, Bldg. 4-5, is really making the suggestion system pay. It all goes to show that good ideas really pay off. . . . Next week we hope to get across the street and take them floor by floor. It takes your cooperation to make this a success. Let me hear from you.

Crawford Chalks Up 30 Years

Lynn L. Crawford, Bldg. 4-5, chalked up 30 years' service with the Company Wednesday, Nov. 9. On his anniversary, he received the congratulations and best wishes of his friends in FHP Div. 15. Left to right above: are: H. G. Siebold, Superintendent of FHP Div. 15; George Kline, Mr. Crawford, William Vachon, W. L. O'Brien, Supervisor of FHP Div. 15 Test and Inspection; W. H. Sunier, Supervisor of FHP Divisions Test and Inspection, and M. G. Pugh, Assistant Supervisor.

C. A. Thomas Given Patent

C. A. Thomas

A patent has been granted to Charles A. Thomas on his invention of a Unicoil type of motor.

Mr. Thomas is a group leader in the Fractional Horsepower Motor Engineering divisions. This is the eighth patent which has been granted to him.

His invention permits the reduction in the size of certain types of motors by reducing the number of field coils from two or three to only one. In some small machines which are too small for wound interpoles, the invention gives commutation performance comparable with that of machines baving interpoles.

A beauty expert says women lose their figures only because they are lazy. Try telling this to a plumpish mother who is raising nine children.

Ross Sills, prominent livestock raiser, was seen recently adding to his collection by catching a live squirrel (with his bare hands, too) in Bldg. 19, West Elevator. . . . If Harold Fanning doesn't answer to his given name, you might try "Billboard." It seems that he does a bit of advertising on his new bowling shirts. . . . We've been wondering why the Standardizing bowling gang doesn't take up a game in which they at least stand some chance of winning. To us it sounds as if debating would be a better deal. . . . Art Hyser, on his vacation last week, shot a 210-lb. doe. Art says it was the nicest vacation he has ever had. . . . Say, Charlie Hartman, did you have a little trouble getting your dog ready to go hunting the other evening? . . . There is a large sign in the machinist's shop with an attendance record on it for George Miller. The fellows say it won't come down until George has a perfect week. Come on now, George, that sign has been up there too long now. . . . We hear from the grapevine that "Cupid" Banks likes to see his name in the WORKS NEWS, so we can't let him down. It seems the other night he took the wrong lunch box and didn't notice it 'till he got home. Being the gentleman that he is, our "dashing hero" brought it back to the plant only to find that his own was gone. The next night Roscoe Hamilton brought his lunch to work in "Cupid's" box and didn't seem to mind the switch at all. . . . What's this we hear about Roger Pierson going to be "Supervisor of Production" in his own little business. . . . Elmer Mesing was off a couple of days last week. It is rumored that he went hunting with Jay Greer, John Estabrook, and Joe Steward. We wonder if Elmer went along to hunt or to lift Mr. Estabrook's dog over the fence.

No ad will be received over the telephone. Send all ads to WORKS NEWS office, Bldg. 8-2.

CLOSING DATE FOR NEXT ISSUE
Monday Noon, November 28, 1949

LOST AND FOUND

LOST—Man's brown leather glove.

LOST—Square yellow gold tie clasp with pencil insert.

LOST—A biege colored wool glove.

LOST—About three weeks ago, a diamond set out of a ring.

FOUND—Fancy hair comb. Found in Fairfield parking lot.

FOUND—One gold colored button. Turned in at Lindley Ave. gate.

FOUND—One key in Bldg. 16 cafeteria.

FOUND—One pearl earring. Found in front of the Employment office.

FOUND—One gold earring. Turned in at Bldg. 18 gate.

FOR SALE

GIRL'S BICYCLE—Schwinn, 25"; size 10 snow suit, botb like new. H-48921.

WALL TYPE KITCHEN SINK—Single drain board, mixer faucet, good condition. A-77589.

TWO PRACTICALLY NEW TIRES—5.00x16, General, four-ply. Very reasonable. Will install. H-15512.

20-GAUCE DOUBLE-BARREL, HAMMERLESS SHOTGUN—Practically new. 1135 Broadway.

MINK DYED SKUNK CHUBBY—Useful for formal wrap, size 11-13. Reasonable. H-82029.

FUR COAT—Northern Seal, in fine condition, box style, size 14, make offer. H-3435.

FOLDINC BED—With mattress, $10; Horton washer, fair condition. A-85884.

FORMAL—Light blue, size 18, net skirt and jersey top. E-40971.

TUXEDO COAT—Moss green, brown muskrat fur, size 14. A-97024 or 21294 Thompson.

OAK KITCHEN TABLE—And four chairs, good condition; Westinghouse sweeper. A-40545 after 4 p.m.

LADIES' RED TUXEDO COAT—Skunk fur, size 12-14. E-55812.

ELECTRIC TRAINS—New and used, also repaired. E-5204 or 1182 Wabash.

LADIES' MOUTON LAMB FUR TRIMMED COAT—(Fur collar and cuffs). Size 14-15, like new, $7.50; also man's overcoat, size 42.

GIRL'S WHITE BOOTS—Size 8; three dresses, two blouses, skirt, for 3-year old girl, excellent condition, reasonable. A-26502.

FUR COAT—Mink dyed coney, like new. H-58463.

FOR RENT

COMFORTABLE FRONT ROOM—For one or two gentlemen. Near C-E. Meals if desired. A-50175.

WANTED

BOY'S SHOE ICE SKATES—Size 4 or 4½. H-79386.

MITERBOX—Trailer. H-50672.

USED $2 DUCK STAMPS—Will pay 50 cents, must be clean. A-50551.

35-FT. EXTENSION LADDER—A-66222.

TRANSPORTATION

WANTS RIDERS OR RIDE—Bob Scher, from Huntington. Works in Bldg. 19-1, from 3:30-11:48. Pbone Huntington 2747J or extension 2257.

WANTS RIDE—Golda Duff, from three miles north of Zanesville, Ind., on Rt. 8. Works at Brondway, from 7-3:30 for T. F. Bain, Bldg. 4-3. Extension 428 or Nine Mile 719.

WANTS RIDE—Ralph E. Jacobs, Liberty Center, Ind. Works in Bldg. 31-1, from 8-5:15. Extension 565.

WANTS RIDE—Mildred Hartman, from Wayne Trace and Tillman Rd. Works in Reproduction, Bldg. 18-5, from 8-5:15. H-50623.

"UP IN THE MORNING, OUT ON THE JOB—BUT HE FORGOT TO SHAVE"—Bill Pringle arrived at work the other morning and discovered he had forgotten to shave. This must have bothered him because we notice he was clean shaven by 11 a.m. . . . "SLIPPING AROUND" — Harry Balz tells about the plight of two defenseless ants who only remained of a host that were wiped out by the wild swing of a golfer. Of course, the golfer missed the ball. One ant says to 'tother "To survive we are going to have to get on the ball." . . . "HI THERE NEIGHBOR"—The Tabulating Division wishes to welcome their newcomer, Gloria Geesaman, formerly of Taylor St. We hope you like us all, Gloria. . . . "CANDY, I HAVE MY SUGAR CANDY"—Esther Batchelder provided the Production Division with another box of that delicious divinity fudge she so capably makes. Candy like that can't come too often. . . . "A HUNTING WE WILL GO"—Al Volz doesn't like the little mice who scamper about him. He says they "irk" him when they set up on their hind legs and want to shake hands. What did you expect them to do, Al, turn cartwheels? If you don't like them why don't you bring in that big gun that gets all the ducks for you and shoot 'em. . . . "YOU GALS MAY PLAY ACCORDING TO HOYLE, BUT FROM NOW ON, YOU PLAY ACCORDING TO MY RULES!"—Joe Hiles sure makes a cute canasta player. He substituted as fourth player for the girls the other noon. We wonder who won. . . . I WISH I WAS SINGLE AGAIN—Girls, beware! Of Leonard "Spike" Speicher, that new man in the Developmental division. He must have hidden charm. Someone asked him the other day if he had a wife. He replied, "Sure, I have three." Reckon we ought to get the law on him? . . . "BACK HOME AGAIN"—We wish to welcome Fred Borton back who has been ill. We are also glad to see Joe Gardt, of the A. C. Section, back to work after his recent illness. . . . "HAPPY BIRTHDAY TO YOU"—A belated birthday greeting to C. T. Johnson, Nov. 14, and C. J. Herman, Nov. 15. Happy birthday to J. C. Duryee, Nov. 25. . . . "GOOD BYE NOW"—Ed Brink, who is going to DeKalb and getting closer to Chicago, is being replaced by Leonard Speicher. Robert Zieske, test engineer, is leaving A. C. section for Winter Street. . . . "AN APPLE FOR THE TEACHER"—Betty Puff, of Developmental division, received a great big box the other day, and guess what was in it? Just an old apple wrapped in plenty of paper. . . . "PRISONER OF LOVE"—Anyone want any housework done? Chris Flanigan has been chief cook and bottle washer since his wife went to Florida. . . . "THAT OLD GANG OF MINE"—Joe Rowan was presented with a very lovely clock for a wedding gift. I guess by the time he reads this he will not have that old gang anymore. That's all right, Joe, you're happy. . . . "A TISKET, A TASKET, I LOST MY LITTLE PURSE"—Virginia Mariotte was always losing her glasses, but the other day she lost her purse. What's happening, Virginia, having troubles? . . . "I DON'T KNOW HOW SHE DOES IT BUT SHE DOES IT"—If anyone wants a pair of gloves made just call on Gloria Openlander. She's an expert on it. . . . "I WONDER WHO'S KISSING HIM NOW?"—Georgia Garrett is left all alone this whole week. You see, her husband has gone to Michigan to hunt *deer* (four legged that is). Good hunting, Harold. . . . "NOW HAS HE GOT THE WINGS OF AN ANGEL?"—We notice Jack Jennings has been issued a pass for leave of absence from home to play volleyball on certain nights. Why, Jack? . . . IRRESISTIBLE YOU — Do you know Wilbur Boltz, of the DC division, can wiggle his ears? Not only both at the same time, but each one (he has two) separately. Come in and see. He also said the other day the barber charges him two dollars for a hair cut ($1.50 for research). He ain't got it no more. . . . "SOMETIMES I WONDER WHY"—We hear Walt Gerke got himself chased out of some farmer's field. Why, Walt? Was it because he knew you didn't shoot anything but holes in the doors and roofs of barns? . . . SO SORRY—We wish to retract the statement of last week saying Judy Clark was quiet for two minutes. It was really four minutes.

Hope you all had a very nice Thanksgiving. If you feel a little loggy and stuffy today, maybe it's because your eyes were larger than your stomach. . . . BUNNY HUG: Bill Skinner tells us that the day he went hunting, the bunnies were so thick that they actually sat all around his feet, and that he had to keep kicking them away so that he could get a shot at them. You are not trying to be elected president of that certain club are you, Bill? . . . CONGRATULATIONS: Guy Oberlin had a birthday Tuesday and a wedding anniversary Thursday. Wish you many more, Guy. . . . PHEASANT OR PARROT: Jess Easterday brought in some feathers to show us he went pheasant hunting, but to us the evidence looked more like parrot feathers. You can't fool us, Jess. . . . WHY IS IT, Curly Buckles, that Wednesday night when you are bowling you can be heard all over the place? And then the rest of the week you are as quiet as a little mouse? . . . NEW FRIENDS: Has Paul Kempf the kind who invite him in for refreshments, and then pull the old stall about leaving their pocketbook at home? That's an old one, Paul. You'll learn eventually. . . . CHICKEN: Leo Elward won a chicken at the G-E Club the other night for bowling. Bill Irwin got one just for keeping score. Not bad, fellows, we'll be over Sunday. . . . BLOOD DONOR: Did you know that Herb Thompson is a regular three month blood donor. That's a very fine act of charity, Herb. We should have more like you. . . . RILEY-RUHL AND MOP: First it was Louey Maier who chewed and messed everything all up. Now Lou's quit chewing and Nolan Riley has started smoking a pipe which seems to make him cough a little. The result is that John Ruhl has to mop up the place before he can start. work. Why don't you guys get together and chew gum and swallow that stuff. . . . HOSPITAL: Amel Beck underwent an operation last week. Bing Englebrecht is on the sick list. Hope to see you back soon, fellows.

That was a fine Thanksgiving dinner you tucked away yesterday. The kind that leaves mouth-watering memories. When we stop squawking long enough to really think about it, we do have much to be thankful for and your dinner, served in warmth, among friends, was just the kind of thing we should appreciate. Let's not forget to "Count our many blessings, count them one by one." . . . 'Tis said the quickest moves of the day were made by Clara Gehring and Virginia Harris when the mouse ran across the rest room floor. Didn't know you were so fast, did you? . . . Bob Olson joined the coon hunters' club. Buck Lydy initiated him not long ago and the night was crowned with success, as the boys got two. . . . Tickets for the Christmas party went on sale this week so better hurry and get yours. The date, Dec. 17. The time, 8 p.m. The place, Robison park pavilion. All the fun you can crowd in one evening; dancing and singing and visiting, plus all you can eat and drink for $1.25 per person. Where else can you get so much for so little. Let's all join in the fun and have a wonderful party as we have always done. Watch the bulletin board for more details. . . . Larry Reed was surprised to find his picture above the fountain on Wednesday. We hear he is very upset because the evening paper slighted him and didn't print his picture, too. How about that? Oh, yes, Don Thomas says he knows now why Larry won't join S. W. Conservation Club. No ladies there. Could that be it? . . . What has happened to the good Samaritans? That question is uppermost in Emmie Stock's mind these days. It seems Mr. Stock's Buick (of unknown vintage) refused to answer his pleas to start Saturday. Although Emmie made various and sundry pleas with motorists at large no one came to his rescue. If a scowl is apparent on Emmie it's just because he has lost faith in mankind and Buicks. . . . Frank Magers and Al Middaugh decided to ride home in Al's car instead of riding with Ned Neuman. Results: One flat tire to fix in the rain. . . . Last Friday we said goodbye and lots of luck to Don Gerardot who left us for a new career. All our best wishes went with him along with our reminder not to forget the gang. Best of luck, Don. . . . Our "Pink Lady" last week was Blanche Allen who celebrated her birthday. She now has two new friends called "Chicquita" and "Pete" who were sent to wish her a happy birthday and many more. . . . Ida Witte celebrated her birthday on Nov. 14. No matter how hard we tried, we didn't get to give her a birtbday spanking, worse luck. . . . Our sincere apologies to Wilford J. Fett. We are sorry we misspelled your name. Next time we'll do better. . . . Our very best "get well wishes" to Harold Moore, who is among the aching. Harold was hurt in an auto accident two weeks ago but is on the mend now. Hurry back, Harold. . . . Just because McNussel dined at an exclusive place last Friday noon, he thought he could park most any place and picked a spot where the F. W. P. D. had posted a "No Parking" sign. Too bad the pretty pink ticket wasn't the shade of the "Coral Room".

Oversleeping will never make your dreams come true.

Inquiring Reporter:

WHAT IS IT YOU HAVE FOR WHICH YOU ARE MOST THANKFUL?

ALVIN MYERS
Bldg. 4-B

"I am thankful that our country is at peace, and for the privilege of seeing our young men and women striving to keep it. I am thankful for the safe return of my three soldier sons, for my job, my health and my family. Then, too, I am thankful for being able to celebrate the coming holidays as I see fit."

AGNES E. HARBER
Bldg. 31-1

"One of the numerous things for which I am most thankful is the privilege of being born a citizen in the United States, which entitles each and everyone to the rights of liberty, freedom of speech, religion and the press."

RUTH SHIVE
Bldg. 26-3

"I have one thing for which to be extremely thankful. I speak of my utmost faith in the One who has supremacy over all and who gives me guided peace of mind. Consequently my everyday happenings are taken in their stride and to be solved for better or worse by His method. The very best things in life are free, so let us be thankful not for what we can take but for what we can give."

HENRY GUENTHER
Bldg. 8-1

"I am most thankful that I am an American citizen, with the privilege of free worship and free speech."

ANNA E. GRIEBEL
Taylor St.

"I am most thankful for the freedom we have in our United States of America—freedom of religion and freedom to live our personal lives as we choose."

Louie Sauers was out in the woods hunting the other day and wasn't having much luck so he sat down on a stump and wrote the following poem:

A raccoon has a bushy tail
The opposums' tail is bare
A rabbit has no tail at all
But a little bunch of hair!

Art McNamara is just waiting for his pension so he can spend all of his time at his lake cottage. He still has a few years to go, but he sure is anticipating it. Paul Arnold is back with us, and so is Jim Burns. Esther Harkenrider and Marcella Oetting who recently worked at Taylor St. are over here now. Down in 1x29 we have Phyllis Hermes, Edith Harchelrode and Marilyn (Jean) Parrish. Hope you all stay with us a long time! . . . Congratulations to Georgia Jarrett who lives in Mesa, Ariz., and who is a former co-worker, on her new son, Thomas Michel. . . . Ralph Mennewisch is on his third week's vacation, and we sure do feel sorry for those rabbits out around his home. . . . Paul Hendricks is on his third trip up in Michigan to try and catch a deer. The first two trips they didn't even see one, and I doubt if he brings any home this time. Better take a salt shaker with you next time. If I remember rightly deer like to lick salt, and you might sprinkle some around and see what luck you have. . . . Harry Magner is going to Florida on his third week's vacation. Just think, he will be eating his Thanksgiving dinner in the sunny South while we will probably be freezing up here, lucky guy! . . . Louie Clark is on our sick list. Sure hope you are soon able to be back at work, Louie. The winders sure miss you! . . . Hilda Barthold is spending this week in Chicago staying at the Bismark Hotel and from there is going to Milwaukee. . . . These lucky people and their third week of vacation. . . . An addition to the main office: Brooks Brickley is new in the production section. Hope you like your job, Brooks! . . . Bonnie Wolf came home the other night and drove her car in the garage, left the lights on and motor running, locked the car, ran to the house to turn on the garage lights, came back to turn off the motor and lights when she discovered that all the keys were locked inside the car. The only solution was to call a service man for assistance. . . . The trapping season is on at last for Elmer Sible. Gladys Beal claimed she saw one of those little grey furred animals running around, so Elmer came to the rescue or so he thought but no luck yet! . . .Louie Scherer fell off a 12 ft. ladder and fractured three ribs. He says that he was putting up storm windows, but we wonder. . . . Alma Merwin had a very good dinner at Clara Krudop Schneider's the other night and she says that Clara really knows how to put on a feed! . . . Pinkie Barnes, the little lady in our washrooms, is leaving us on the first of December. We sure hate to see you go Pinkie but know it won't be too long before you will be back with us again. Here's wishing you a lot of luck, Pinkie and that is a wish from everyone! . . . Was Evelyn Foulks ever surprised when she opened her lunch sack last Friday. Her husband, Alva, was extra special good to her and put a half fried chicken in her lunch. I know it was good cause I had some! . . . Those fabulous dreams that Marie Griffith has been having are really something. The latest is that she dreamed that she was dining and dancing with Ike Eisenhower! Imagine! Wonder who she will be dreaming of next? . . . Gloria Mechling wishes she was back in California! Her sister says the temperature is 90 degrees in the shade. There is only one way to make those wishes come true, Gloria! . . . The Credit Union should have more card parties. Does everyone receive a prize? Malinda Gehle, Clarice Woodruff, Lorinda Byerlein and Kathryn Hepker all came home with something. . . . Richard Bucher reports a grand birthday, and that he and his wife were guests of the Johnny Procise's for dinner. . . . Tom Dickerson had as guests for Thanksgiving all his children and grandchildren. That takes quite a turkey, Tom! . . . Irma Henney won a turkey but wasn't sure of having it for dinner on Thanksgiving. Going to raise them, Irma? . . . Thelma Wyss says she had to have vegetable soup on that day. Welcome to it, Thelma, if you like it! . . . Teresa Trout spent the day eating and not much of anything else. . . . Lee Raver went to a big wedding and reception. . . . Birthday greetings to Malinda Behrman. . . . Yesterday at your Thanksgiving dinner, did you once again thank God for all your wonderful blessings and also for the privileges you receive as an American citizen?

Serves Company 30 Years

Edna Welch, Bldg. 18-4, recently completed 30 years' service with the Company. She was honored by her friends Tuesday, Nov. 8, at a luncheon. Miss Welch is shown reading a congratulatory letter from C. H. Matson, Works Manager.

Pick-Ups

Bldg. 26-3

By Elvira Romary

Hi, Gang: I suppose everybody is full of turkey today and wishing they weren't. I hope everyone had as nice a Thanksgiving as I did. . . . This certainly has been an eventful week: The Max Kimbles have a brand new baby girl named Sarah Lee and on arrival weighed 7 lbs. and 11 oz. Congratulations, Max. . . . When Rose Smead came to work last Friday she looked rather bedraggled. It seems she was on her way to work and the car she was riding was hit by a truck. Rose received a knee injury. . . . As Jackie Boxherger completed her bowling last Monday she dropped the ball on her third finger, left hand. Any old curtain rings or hailing wire would be greatly appreciated by her future husband. . . . A bit more information about Mabel Odel. She was quite seriously injured and is in the St. Joseph Hospital. . . . We wish to welcome Donna Bailey to Bldg. 26-3 from Bldg. 26-4. Hope you like us, Donna. . . . We wonder if Blanche Kanning is trying to tell fortunes or if she was suffering from a headache. . . . Dave Mannix is going to keep Ginny Wilson and Helen Wagner happy by keeping his time straight. That's a good boy, Dave. . . . Who has the sweet voice on the other end of the phone asking for Ronnie Davies? . . . Vera Hoover must be studying accounting. She certainly works hard at budgeting her money. . . . Marjorie Robertson has announced her engagement. Congratulations. . . . Never pull a raveling on Lorraine VonBehren or you may have an unveiling. . . . Has Lola Brunner moved from her R. R. 2 address? According to the records, she has. . . . Erma Wilkens and Almetta Smith like surprise sacks. . . . John Collins got a new car and a flat tire. Don't be discouraged, John, it was only flat on the bottom. . . . Peggy Reynolds is a perfect model for tweed coats. Are you for hire, Peggy?

A woman complained to a doctor that her 17-month-old baby ate dirt whenever he could. The child may grow up to be a politician.

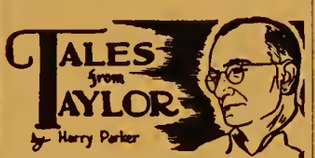
M. B. A. SICK LIST

Gertrude Martin, Carl Jenkins, Daisy Rickard, Ralph McCain, Ida Williams, Alfred Woenker, George Taylor, Anna Robinson, Hollie Hosler, Kermit Agler, John Bailey, Amel Beck, Perry Jeffries, Oscar Mize, Fred Major, Winifred Scheurich, William Morton, June Reneman, Louis Scherer, LeRoy Cook, H. Glenn Billman, Harold Moore, Ray Slusher, Ruth Stier, John Fuller, Jr., Dorothy Childrey, William Hattendorf, Jr., William Mitchell, and Mable Odel.

Left the Hospital

Doris Hill, George Schaaf, and Merrill Patrick.

Returned to Work



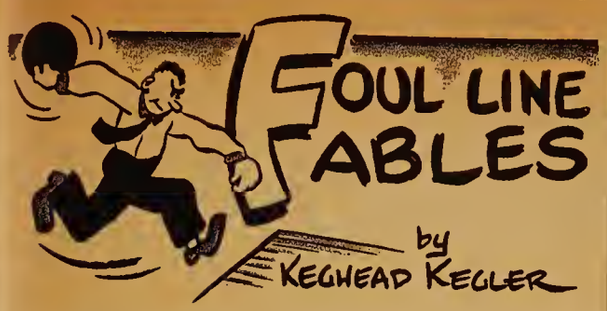
Phillip Vorholzer, Aloysius Holthaus, Willis Bunyan, Rose Mary Daugherty, Clara Hoeh, Clarence Duhamel, Forest Bunner, Kenneth Betts, Thomas Rockhill, Byron Simmons, Adam Nicholson, Edna Hauser, Elsie Houtz, Constance Hille, and Thelda Aker.

Tricks In Transformer

—FROM DIVISION 91—

By Boh Bunyan

We are wondering just how much Everett Jones knows about the book of "How to Win Friends." It seems Ed Parker has taken an interest in the same subject. . . . If anyone sees a flash of tan between here and Decatur, don't become alarmed. It will probably be Jim Stauffer just trying out his new Kaiser. . . . Everyone has heard of corns, bunions and callouses of the feet. We have a man among us who has callouses on both legs from wrapping them around his chair. Your guess is right; it's Paul Noffze, but did he tell all. . . . Raymond Zell is doing better now. He was late only one day this week. Of course, it was the same excuse, "That Ford." . . . I expect Al Campton will show a little attention hereafter when Freeman Rohlfing has a good looking girl in conversation. So the story goes: A young lady was seen talking to Freeman, and a comment was made to Al, how good looking she was, but she was married. Al's only reply was, "I am not interested." A moment later he was very surprised when he saw it was his wife. . . . Bill Woberking solved Hosack's problem of parking his Buick. He provided him a private space in his backyard. . . . We got our air hose back now, so you, Eddie Baucher, can blow out your pipe again. . . . I don't know what Mary Kieler will do when winter comes if she has to go home now with cold feet. . . . Now Luella Allen is just the opposite. She claims the office to be exceptionally warm and is planning on wearing out her summer clothes. Let's get together now, girls. . . . The ventilation problem around the welding machines appears to be solved for the time being, at least. . . . Anyone interested in trading reading material, such as books and magazines, see Bob Mennewisch. I understand he has a variety to offer. . . . The romance continues. Have you guessed yet? . . . McConnehey took the week off to locate and land that Busco Beast. There isn't any doubt we will have turtle soup now.



Brice Martin was terribly worried over the last week-end. In fact he could hardly perform his duties last Friday, so perturbed was he over a certain situation at home. Sunday evening the blessed event occurred—one of his mama pigs presented him with nine little pigs. From all reports mama and piglets are doing fine and Brice wears a broad smile. . . . Quentin Romy tells us that he will not go near Sam Allmandinger's cottage since he has had that mountain of dirt moved onto his place. He said that the pile is so high that it cuts off entirely the view of the lake. Sam tells us that the reason Quentin is keeping clear is that he is afraid of being handed a scoop shovel and told to get busy. . . . We discovered sand in Kenny Miller's lunch kit and also in an empty compartment of his tool box. We cannot understand the presence of this commodity in these two places. Perhaps he is eating it. We know that it would not be any good for his driveway. Nevertheless we are mystified by its presence there and Kenny will not explain. . . .

By this time we have all had our traditional Thanksgiving dinners. With those irresistible drumsticks and cranberry desserts. . . . Wonder if Lawrence Franklin shot his limit during his extra week's vacation? Pheasant with banana cream pie! . . . Don't think Chet McIntosh did any shooting. He just doesn't go in for that sport. He also had his third week vacation. . . . It would be unusual if Jack Teeple came two minutes early some morning. The other morning he would have succeeded if that durn rooster had crowed earlier. If the gate was just a little closer to the parking lot, that would help. . . . Greetings to the two new members of the KC Line, Betty Amweg and Ruth Miller. Glad to have you back and hope you enjoy your work. . . . It was Doris Paxson and Cecile Egly passing out the treats this week. Happy birthday, girls. . . . Frank Braun is enjoying his third week of vacation. So far we haven't heard anything about how it was spent. . . . Have you heard Edna Callow reciting poetry? You surely have missed something if you haven't. Edna, we didn't know you could do it. . . . Congratulations to Mr. and Mrs. Jason Moser on their tenth wedding anniversary Friday, Nov. 11. . . . Sephus Jackson would like to know if anyone has an automatic shotgun for sale—one that would automatically aim at the rabbit and fire at the proper time. His wife told him to bring home the bunny, or else. So Sephus gave up hunting. . . . Ezra Brandyherry says it's so hard to diet when your wife is such a good cook. . . . Kathy Jane Hartough is the name of Hilda Staley's granddaughter. Congratulations, Hilda. . . . Barney Rempp enjoyed pheasant hunting on the opening date. . . . Leona Fruechte is our new glamour girl. . . . Lohnas (light bulb) McIntosh made his debut last week, but we believe it came a little late. I mean that advice he handed out. He had his photo in the WORKS NEWS. . . . Did you notice last week the posies that some of the girls were wearing? They were the handiwork of that well-known gal, Rosemary Miller. They were nice looking creations. Carnations and chrysanthemums. Thanks, Rosy, for my posy! . . . Max Drake is the proud possessor of a new '49 Ford. Some class to that boy, huh? . . . Did you ever see Clisty Rich in a pair of slacks? She wore a pair of them last week. For my money, she looks pretty snazzy. . . . Maggie Fruchte, the gal with the 29 charms, is still around and just as pretty as ever. . . . Herb Fruchte is back at work on the second shift at the mechanical press for McDougal. Welcome, Herby! . . . Charlene Evans has her share of trouble. Now her lights go out on that new jalopy she purchased. You know, Charlene, you never want to look a gift horse in the mouth. . . . Last report has it that Julia Sprunger is singing "Nearer My God to Thee." The girls really enjoy the singing.

John Weber has been busily engaged in replastering some rooms in his home. After getting the job completed he discovered that the plaster would not dry, and was sagging in many places. This has him stumped as he did not count on a lengthy drying process. We are wondering if he might have mixed his plaster with raw linseed oil as he also has been doing a lot of painting.

The Tools are still leading the league in the Wednesday night Small Motor Bowling League. The Production Team is fast on their heels in second place.

Wednesday, Nov. 16, was chicken night and Paul Walker, Bill Miller, Paul Billue, and Clarence Didier went home the winners of a chicken. Bill Miller had a hot night, rolling 104 pins over his three-game average. Orval Haver came back into his own, getting a big 206 in his second game.

Masonic League

Chicken night proved that the boys have been lying down all season, as they came up with their hottest night of the season. B. Somers showed the way with a rousing 662 on games of 246-214-202. J. Ruhl was not far back with a 235-222-172, 629 series. J. Harris came through with the other 600 count of the evening, a 606 on scores of 229-207-170.

Two hundred games were rolled by Ed Crabill, 203; Somerville, 202; R. Crabill, 202; Hoelle, 203, and Hinrichs, 205.

Chicken winners were B. Somers, J. Ruhl, J. Tarris, and Thonsberry.

Doric and Fellowcraft lead the league with 18 wins and 12 losses.

Interdivision League

Leo Elward, of the Schuelcr team, waxed hot Wednesday evening to knock out games of 191-256-202 for a 649 total and a chicken.

Murry Johnson had the league's only other 600 a 601 on scores of 181-220 and 200. He also walked off with a chicken.

Two hundred scores were rolled by Hal Fanning, 207; Carl Stout, 231; Paul Walker, 204; Lee Crowell, 210; Bill Nickerson, 202; Ivan Parrish, 203; Andy Anderson, 203; Putman, 203; Herb Habig, 212; Vic Rump, 203; George Luedeman, 223; Les Shroyer, 219; Mardo Tobias, 205; Forester, 207; Clarence Rump, 209, and Rudy Zelt, 228.

Other chicken winners were Carl Stont and Gil Meeks.

The Broadtails are leading the league by three games and a record of 22 won and 8 lost.

All Star League

The boys were back at the club last Saturday evening and had their best night of the year, having an overall average of 194 for the evening. High games were rolled by Ed Kraft, 259; R. Sawyer, 252; Hal Patterson, 247; Everett Scott and Roger Vaughn, 246, and Ernie Lester, 234. Roger Vaughn led tbe five game totals with a 1056. Don Stump was right behind with a 1001.

The league as a whole is averaging 184 for the season. Don Stump is the only bowler to have three 1000 counts. Ed Kraft continues to lead the league by four games and also has the high average of the league, a 191.

Bowling and Stuff

Don't forget to enter the G-E mixed doubles tournament to be held at the club Saturday, Dec. 3, with Squads at 3:30, 6:30 and 8:30 p.m. The handicap for the tournament will be 70 per cent of the difference of the averages from 400, with no limit on the amount of handicap.

Your wife's eligible, your husband's eligible, so come and enter the G-E mixed doubles tournament.

The club will be closed this weekend to refinish the alleys.

The Brouwer Tire and Battery team journeyed to Hartford City last week. They missed the prize list by 100 pins. All that was accomplished was striking up an acquaintance with Walt Mertz's long-lost uncle, Joe Schnops. No battery fell out and no carburetor to mess with this trip.

Ladies' Friday Night League

Marge Malizzo banged out a 546 series on games of 224-159 and 163 to walk off with the high series for the evening and a chicken.

The other two chickens were won by Bonnie Workman and Mary O'Brien.

High games were rolled by Bonnie Workman, 212; Marge Huber, 197; Virginia Bowman, 180; Ginnie Mollett, 174, and Liz Shearer, 171.

Decatur Bowling

E. Faulkner, a member of the Teeple Truck Line team in the G-E Fraternal League, became the first Decatur bowler to hit the coveted 700 mark this season. He rolled games of 204-249-258, for a 711 total. Faulkner's score was all the more remarkable because only the week before he barely missed the 700 mark when he rolled a 694, also in the same league.

Teeple Truck Line took two from Moose No. 7; Preble AC's took two from G-E Club, and K of C took two from Elks.

Teeple's still lead the league with 20 wins and 10 losses, followed closely by Preble AC with 18 wins and 12 losses.

700 Series—Faulkner, 711.

200 Scores—Stump, 223; McIntosh, 212; L. Hoffman, 211, and Schneider, 217.

Monday Night League

STANDINGS

Flanges	15	9

Stators	11	13
Office	10	14

High score—Koos, 204.

Hugh Reynolds is just barely speaking to us common folks these days. The reason, a new Oldsmobile. . . . Paul Clendenen is sporting that great big smile and all new grandfather's wear. The new little lady's name is Lois Marie. . . . Perry and Marvelene Butts have something special to be thankful for this year, and her name is Linda Sue. She weigbed eight pounds, and I'll bet she has red hair and is pretty cute. Congratulations to the new parents. . . . "I've got a quarter, who'll make it 50 cents?" No it wasn't an auction sale, it was Paul Merkey selling his can of tobacco. He actually knocked it down to Herb Koch who didn't think so well of his bargain so he split it with Vern Castle and Fred Grunst. Now no one knows who got tbe bargain, if any. . . . Harold Boles is on our sick list, and we all hope he will be up and around soon.

G-E Club Schedules Bowling Tournament

The G-E Club will sponsor a mixed doubles, bowling tournament at the club alleys Saturday, Dec. 3.

Squads will play at 3:30, 6:30 and 8:30 p.m. and the tournament will be extended to Saturday, Dec. 10, if there are more entries than can be handled in these three shifts.

The entry fee is $4 per team and includes the price of bowling. Bowlers can play as many times as they wish, providing they change partners. Entries are restricted to G-E employees and club bowlers. The entries will be accepted up to bowling time, providing there are any openings.

The tournament will be run on a handicap basis.

When Charles "Butch" Gable received some literature on a meat cutting course the other day he tried to blame everyone in the office as being responsible for him getting it, but not a soul knew a thing about it. It seems as though Butch has been doing a little meat cutting on the side and someone thought a few lessons might help. Anyone planning to do some butchering this winter should make their appointments now if they request a little expert advice. . . . Wanted, homes for five kittens. Peg Turschman still has a house full of kittens she would like very much to find homes for them so, any one interested, see Peg. . . . When the Delta Handa Polka Fraternity met at Gordon Smith's house the other evening they had a little difficulty getting out of the cars. Duke (the boxer) was the official reception committee, and he wasn't sure if he should let them in or not. After keeping them worried for a while Gordon told Duke they were all right and he let them in. . . . The latest report on the O'Neill twins is that they both have two teeth and are beginning to crawl around. It is really keeping Pop busy to keep an eye on both of them.

They are able because they think they are able.

The best way to preserve peace is to have more canned feuds.

G-E Owls Swamp Zollner, 58-17

ECKRICH EDGES ROD-WIRE, 33-28

The YMCA Owl Basketball League went into action for the second week with Indiana Rod & Wire winning a decision from Eckrich, 33-28, and G-E thumping Zollner, 58-17.

In the first game, tbe Eckrich Packers led at the end of the first period, 8-7. Three quick baskets by Lortie, of the Rod and Wire boys, put them out in front to stay. Lortie led his team with nine points, while Wynn led tbe losers with 10 points.

The Zollner Pistons found just too mucb power and balance in the G-E Club team. They went down on the short end of a 58-17 score. Wickliffe and Rietdorf led G-E with 11 points apiece, while Ducheteau and Brandtmiller each had four for the losers. The Pistons missed their tall center, Harry Schrimp, who suffered an elbow injury in last week's game.

The summaries:

ECKRICH				L. H. & W.

G-E Club Owls Open Season In YMCA Basketball League

The G-E Club Owls have launched their 1949 season in the YMCA Owl Industrial Basketball league. This year's team members are: (front row, l. to r.) Don Rietdorf, Max Greeno, Bob Crosley, Harold Baker, and Ray Scherer; (back row, l. to r.) Paul Boyer, coach; Warren Wickliffe, captain; Joe Schible, Fred Phillips, Bob Markey, and John Anspach. George Lambroff and Howard Barrier were absent when the picture was taken.

G-E Vice President To Appear On Radio Forum Tuesday Eve.

L. R. Boulware, Vice President in cbarge of Employee Relations, will be one of tbe speakers Tuesday night, Nov. 29, at 7:30 p.m. on the Town Meeting of the Air program over radio station WOWO.

Stumbling blocks make very good stepping stones to success.

WHAT'S NEW IN PLANTS & LABS

SCHENECTADY — A new machine used in laboratory experiments to increase a hundred-fold the voltage produced by a small, shop-size generator has been developed by G-E.

Still in the developmental stage, the machine, called the voltage multiplier, may eventually be used in conjunction with X-ray equipment and atom-smashers. Initial tests show that it may provide a compact source of high voltage.

The voltage multiplier operates on the principle of the old-fashioned water wheel, according to Charles Lemmond, development engineer for the General Engineering and Consulting Laboratory. While a water wheel develops power as its buckets fill with water, the new voltage multiplier builds up energy by "filling" 100 capacitors with electric charges. Connected in series, the capacitors accumulate energy by picking up their charges through a sweeping arm with "finger-tip" brushes. The new machine multiplies the 1,000 volts of a small generator to a total voltage of 100,000 volts.

* * *

FORT WAYNE — The Belt Corporation, Orient, O., manufacturer of farm equipment, is using G-E motors for the electric drive on its main product, the "Harvest-Handler" portable grain and ear corn elevator. According to Vernon C. Belt, president of the company, the G-E ½-hp general purpose induction motor, rated at 3450 rpm, 110-120 volts, was chosen because of its light weight and compactness, and "because of the reputation of the General Electric Company."

* * *

PHILADELPHIA—A tempering process which heats a metal surface from room temperature to a bright-red 1600 degrees Fahrenheit and cools it again to room temperature, all within less than five seconds, is now being used at the Switchgear divisions.

Developed by G-E engineers for the tempering of small metal parts, the process uses an electromagnet which holds the part to be tempered within the field of a powerful electronic heater.

As soon as the part has been heated to the proper temperature, an automatic timing switch shuts off the electronic heater. At the same instant the current is removed from the electromagnet and the part drops into a cooling bath of oil.

* * *

SCHENECTADY — Special power and control equipment is being built by G-E for a "human centrifuge," a machine which will subject pilots to strenuous conditions common in high-speed aircraft.

A 4000-horsepower motor, principal part of the power equipment, will whirl a gondola so rapidly that forces as high as 40 times the gravitational pull of the earth can be exerted on a pilot inside the gondola. Sensitive electronic controls will enable extreme acceleration and sudden changes of direction of the gondola, permitting study of such effects on tbe pilot.

* * *

SCHENECTADY — Special "push button" drive and control equipment, developed by G-E engineers here, has enabled a new mine hoist to raise and dump eight tons of potash ore per minute automatically from 1150 feet below ground.

Installed at the Potash Company of America mines near Carlsbad, the new hoist will speed production of potash for fertilizer which is essential in maintaining a high level of food production.

Driven by two 500 horsepower motors, the hoist alternately sends two ore buckets, called "skips", down the 1150 foot vertical shaft, waits long enough for a bucket to be filled by a gravity chute and starts upwards with the eight-ton load.

Works Physician Stresses Importance Of Proper Body Mechanics Before Exercises Are Effective

By Dr. H. W. Garton

Proper body mechanics in standing, sitting and while engaged in work and exercise is a subject of considerable importance to those employed in industry. To many people, physical education conveys the idea of some form of active exercises involving the use of various groups of muscles, with particular attention to formal arm and leg exercises. This type of physical education was formerly emphasized by many educators. Ideas have been modified over the years, and it is now recognized that exercises, gymnastics or games are not always beneficial and in fact may be potentially harmful to some people. Educators point out that it is of first importance that the mechanics of the body should be proper before exercise can be said to be of maximum benefit.

Any sort of mechanical contrivance operates smoothest and most efficiently if it is set up in proper alignment, with the center of gravity passing through certain points according to specifications. It is true that such a machine will run in other positions, but with the loss of smoothness and efficiency. An automobile will run all day with one cylinder missing and a wheel out of alignment, but at the end of the day both car and driver will have absorbed much punishment.

The Creator allowed a wide range of safety when he converted man from a quadriped into a biped. He probably foresaw that intellectual development would be accompanied by less attention to the mechanical perfection of the human body; but subjecting the body to work, play, recreation or exercise when it is in poor alignment may bring about results not unlike those mentioned in the case of the mechanically imperfect car. Proper mechanical working of the body in standing, sitting and walking; as well as in exercise, is the foundation for any system or type of physical exercises, formal or otherwise.

Although physical exertion connected with industrial occupation has been greatly reduced by conveyor, cranes, methods, etc., a frequent application of industrial workers is fatigue, which results in discomfort, reduces efficiency during certain parts of the day and interferes with manual dexterity and mental alertness. While there is no single accurate method of measuring fatigue, and there are many factors contributing to its production, it is reasonable to conclude that a balanced, smoothly operating human machine can do more work with less effort (therefore, less fatigue) than one that is hampered by the abnormal stresses and strains of poorly balanced muscles.

Fatigue may be relieved, at least partially, by some type of single exercises; but better still, much of it can be prevented by the simple practice of proper posture. Certainly a knowledge of good posture and good body mechanics should precede any consideration of exercises as a means of preventing and relieving fatigue caused from standing or sitting for long periods in a constant position.

While correct standing and sitting postures should be developed in childhood, most adults can improve their situations in this respect. The formula for correct standing posture, for example, is so simple that it is almost universally ignored as being commonplace. Consider the West Pointer. His "carriage" is an outstanding characteristic. The lesson he has learned in good posture is simple in its fundamental principles, but it has been acquired by constant practice to the point of becoming a habit. It is not necessary to learn anatomical points and lines in order to acquire the posture of the Cadet. He has simply learned by constant practice to "stand tall, with head up, chin in, chest high, weight on balls of feet" — and that, as summed up by leading authorities, is a brief description of correct standing posture. The formula may be still further reduced to a single fact: if, in the standing position, one makes himself as tall as possible without rising on the toes, correct posture is automatically approached.

Anna Kensill, leading operator in Bldg. 17-2, is shown in the picture, above, demonstrating the right and wrong posture for sitting while engaged in work. The series of pictures, below, show first the right way and then the wrong position, center, in lifting heavy objects. Frank Newport, G-E Club boxing trainer and assembler in Bldg. 19-1, posed for these shots.

Distribution Of Free Tickets For Xmas Party Starts Monday

Free tickets to the G-E Club's annual "Kiddies' Christmas Party" Saturday, Dec. 17, will be available in the G-E Club basement, at the Taylor St. employment office, and from members of the entertainment committee starting Monday, Dec. 5.

All children under 13 years of age whose parents are G-E employees are invited. The party will feature a professional talent show and special treats will be given to all the children.

Performances will be given at 10 a.m., 1 p.m., 3 p.m., 5 p.m., and 7:30 p.m.

The Wade Quartette, a musical

SAFETY INSTITUTE PRESENTS AWARDS TO SONDAY, LIBBY

Edward F. Sonday, General Foreman in FHP Div. 15, and Loyal L. Liddy, Foreman in FHP Div. 13, were presented Safety Ace Awards last night at the ninth annual Foremen's Safety Institute sponsored by the Industrial Safety Committee of the Chamber of Commerce.

The Safety Ace Awards are given each year by the committee in recognition of distinguished service to safety. A foreman is recommended for the award by each of the industries represented at the institute.

Mr. Sonday was selected to represent the Broadway plant and Mr. Liddy, the Taylor St. plant, by the General Electric Company. On the

Foremen, Supervisors To Hear Fred Smith At Dinner Dec. 7

Fred Smith, Vice President and Director of Industrial Relations for the William Powell Company, will address members of the Foremen's Association and Supervisors' Club at their semi-annual dinner Wednesday, Dec. 7, in the G-E Club auditorium.

Fred Smith

His topic will be "Human Relations . . . The Art of Togetherness."

Mr. Smith has a law degree and started his career in sales work. He was a sales supervisor before being named personnel director for five plants at the age of 25. In 1942 he became director of industrial relations for the General Shoe Company's 26 plants and nearly 100 retail stores. Then, several months ago, he assumed the duties of vice president and director of industrial relations for the William Powell Valve Company in Cincinnati.

During the war Mr. Smith served as a member of the War Labor

Decatur G-E Club Announces Annual Christmas Party

VARIETY PROGRAM IS PLANNED FOR HOUR-LONG SHOW DEC. 11

The Decatur G-E Club's annual Christmas party will be staged at 3 p.m. Sunday, Dec. 11, in the Junior-Senior high school auditorium.

Admission will be by ticket only. Special tickets will be provided to G-E employees for members of their families under 13 years of age for a gift and treat. Tickets are available from foremen.

Decatur's famed Aeolian Choir will be featured on the hour-long program. The choir will provide a wide selection of the favorite Christmas carols, as well as a group of novelty numbers.

The story of the "Three Wise Men" and their visit to the manger-crib will be enacted in a playlet, with all characters in full costume.

Two novelty features of the program will be a version of Spike

(Continued on page 4)

Guest Night To Be Feature Of G-E Club's Square Dance

All employees have been invited to bring their friends to the square dance tonight in the G-E Club auditorium.

The "Guest Night" dance will be held from 9 to 12 p.m. and admission is free of charge.

Pat Corbat, daughter of James L. Corbat, Bldg. 20-2, and Ed Parker, Bldg. 24, will call the dances. Joe Taylor's Indiana Red Bird Band will provide the music.

After the first of the year, the family night dances will be held Saturdays to accommodate employees on the second shift. The G-E Club's entertainment committee has been unable to acquire a band except on Friday nights in previous weeks.

FHP Motor Divisions Receive Third Gold Key Contest Award

R. A. Thompson, sales engineer, is shown, above, accepting the Gold Key award from A. W. Bartling, Manager of FHP Motor Sales. Taking part in the presentation were: (l. to r.) R. C. Hanna, Assistant Manager of Sales; Mr. Thompson, M. E. Lord, Manager of the Fractional Horsepower Motor divisions; Mr. Bartling, and M. W. Edgar, Manager of the Household Equipment Sales division.

With the presentation last week of a Gold Key to R. A. Thompson, the Fractional Horsepower Motor divisions marked the receipt of their third Gold Key Order Contest award as a part of the C. E. Wilson Fiftieth Anniversary Program.

During the Gold Key Order Contest, 50 of the most outstanding Apparatus Department orders will receive this recognition. Thirty awards have been made since the start of the contest on Sept. 2.

The FHP Motor divisions' recent Gold Key order was received from the Lennox Furnace Company at Columbus, O. In addition to the Gold Key presented to Mr. Thompson, an identical award was also made to A. L. Kelly, G-E Sales Engineer, of the Columbus office.

In presenting the Gold Key award to Mr. Thompson, A. W.

Garden Scene Is Planned For Squares' Fall Dance

The G-E Squares Club rooms will take on the appearance of a huge garden for the club's Fall Dance Saturday night, Dec. 3.

Extensive decorations are being planned for the informal dance, according to Jim Walley, chairman. His committee includes Glenn Seabold, Dick Dochterman, Herb Eaton, Hugh Folsom, and Dale Amsted.

The dance, which is for members of the club and all test engineers, will start at 9 p.m.

Woodie Neff and his orchestra will provide the music.

Looking Back Over The Years After Retirement From G-E

When an employee reaches the retirement point in his life, leaving behind a long enviable record of service to his company, he perhaps has his first opportunity to reflect on his accomplishments, his past associations with his employers, and most important, the benefits he has received through the years.

Most of us here at General Electric think our jobs are tops. Yet, the Company keeps constantly trying to make jobs better, with pay that is right for the skill, care, and effort as measured by fair standards. With extra financial benefits —pensions, awards for ideas, free life insurance, scholarships, and paid vacations. With working conditions steadily improved, studied for further improvement, and about which suggestions are welcomed. With supervision competent technically, as a leader, and as a counsellor where the employee may obtain sympathetic assistance in solving his problems. With the greatest possible job security through the teamwork of our employees, our management, our stockholders, and our loyal customers.

G-E gives all of us a satisfaction that comes from going home to the family after a day's work with the feeling that something important has been accomplished, that this accomplishment has gained the attention and earned the respect of our fellow employees, and that the job is a good one to return to the next and following days.

As one G-E employee, recently retiring, has ably said: "Three things, to my mind, are important in a job. They are capable and sympathetic supervision, agreeable fellow workers, and good working conditions. I have found them all here; and now, on retiring, have a greater appreciation for them than ever. As pleasant and rewarding as my retirement will be, I will never be able to think of my service here without a great deal of pleasure and satisfaction."

Buy Seals To Help Solve An Important Health Problem

Tuberculosis is one of the most important health problems facing the American people today.

It is important because in the productive young age group from 15 to 34 it costs more lives than any other disease.

It is important because it is a communicable disease which is killing nearly 1,000 Americans a week, 125 a day—at the rate of one person every 11 minutes.

It is important because 500,000 people in this country are estimated to have tuberculosis, one-half of them unknown to health authorities.

Tuberculosis is an important public health problem because it can be prevented.

When we know that a disease as costly in lives and happiness can be prevented, it is only common sense for us to spare no effort to root it out of our communities.

Nation-wide efforts to bring tuberculosis under complete control in this country were started 45 years ago when the National Tuberculosis Association was founded and launched its campaign against the disease.

The Tuberculosis Association of Allen County is one of 3,000 associations affiliated with the National Association which are conducting sound programs of tuberculosis control in communities throughout the country. These associations, which work in close cooperation with official health agencies, receive their sole support from the annual sale of Christmas seals.

With Christmas Seal funds, the tuberculosis associations are seeking to find the estimated 250,000 unknown cases of tuberculosis so that these people can be placed under treatment and the danger of their spreading their disease eliminated; they are seeing that people are correctly informed about tuberculosis so that individuals can protect themselves and their families against the disease; they are aiding tuberculosis patients readjust to their new way of life and prepare to resume useful living in the community when their disease is arrested, and they are helping support medical research which is constantly searching for new weapons to use against tuberculosis.

We are helping support all these projects when we buy Christmas Seals. We are helping in the solution of a grave health problem.

Let's do our share to make this campaign successful.

WHAT'S NEW IN PLANTS & LABS

The Company has been awarded a contract for construction of propulsion and other equipment for three new round-the-world passenger-cargo vessels. Propulsion turbines and gears, which will give the liners a speed of 19 knots, will be constructed at the River Works, Lynn, Mass. The contract includes three turbine generators for lighting the ships, and the main power switchboards, as well as searchlights and floodlights.

* * *

SCHENECTADY—A new smoke density indicator and control has been announced by General Electric's Control Divisions. Designed specially to indicate industrial smoke density levels and thus facilitate compliance with smoke abatement ordnances, the equipment can also be used to control over-the-fire heated air to the firebox to reduce excessive smoke and thereby improve fuel consumption and boiler efficiency.

Available immediately, the new equipment consists of a light source, a phototube holder, and an enclosure containing the required control and incorporating an indicator calibrated in Ringlemann units, all in one packaged unit. If desired a recorder, either of the continuous strip chart type or the circular "step" type, can be furnished. The equipment is sturdily constructed and dust-tight throughout. The water-tight phototube holder is easily mounted on ductwork or on a stack, indoors or outdoors. The complete equipment has only a few interconnecting wires and is easy to install and maintain.

SCHENECTADY — A new ultrasonic generator, providing a simple and practical method for studying the effect of ultrasonic energy on various materials and processes, has been announced by the G-E Special Products Division.

Developed by the General Engineering and Consulting Laboratory, the new device is for use in research laboratories, including those of industrial organizations, hospitals, schools, government bodies, etc.

Many possible applications in ultrasonic research are offered by the new instrument. Biologically, experimentation can be done on the destruction of some bacteria and increase in virulence of others. Physically, the transforming of immersible liquids into stable emulsions and the colloidal suspension of precipitates in liquids can be examined. Investigation into chemical reactions such as oxidation, hydrolysis, and reduction is possible with the new generator.

SCIENCE QUESTION BOX

by SCIENTISTS OF THE G.E. RESEARCH LABORATORY

Q: What causes sap to rise in trees?

A: The main force seems to be pressure in the roots, caused by the process called "osmosis." In the roots there are thin membranes through which water from the soil can pass more easily than the sugary sap inside can diffuse outwards, and this builds up considerable pressure. However, other forces, such as capillary attraction—which causes a blotting paper to soak up a liquid—and suction in the leaves caused by evaporation from their surfaces, seem to aid in raising the sap.

Q: Why do we yawn?

A: Yawning in humans, and higher animals, is a reflex action made up of many components. According to one theory, slight deficience of oxygen in the blood stream and in the brain is responsible for starting the yawn. Though it may be associated with sleepiness it does not necessarily indicate a need for sleep.

Q. What causes the colors in a soap bubble?

A. This is caused by "interference" of the light rays reflected from the inner and outer surfaces of the wall of the bubble. For thicknesses equal to certain fractions of the wave length of the light, the wave from the back of the film emerges in step with that reflected from the front, so they reinforced each other. For other thicknesses the two waves are out of step and cancel each other. The length of visible light waves ranges from about 16 millionths of an inch (red light) to about 31 millionths for violet light. Thus, a film thickness that will reflect one color will eliminate another, and as it changes we get the familiar play of color.

OUT OUR WAY

By J. R. WILLIAMS

New Ballast Design Is Announced As Gold Seal Development Project

Members of the Wilson Anniversary engineering committee for the Specialty Transformer and Ballast divisions are: (l. to r.) W. M. Sims, C. P. Hayes, C. W. Kronmiller, E. J. Thomas, W. C. Wichman, Manager of the Specialty Transformer and Ballast divisions; J. F. Eltman, and C. A. Ellis.

An important redesign of single-lamp ballasts for the operation of 30, 32, and 40-watt fluorescent lamps has been disclosed in a report by the Ballast Engineering division at Fort Wayne to the Wilson Anniversary Engineering Committee of the Apparatus Department.

The engineering effort that made this improvement possible was one of several developments undertaken as Gold Seal Development Projects in connection with the current Wilson Anniversary Program.

The newly designed ballasts operate widely used lamps. The 30 and 40-watt lamps are common in commercial and industrial applications. The 32-watt lamp is the 12-inch Circline, which is used in domestic applications.

Two major advantages to the public have been developed. The first is the extremely quiet operation.

All electrical equipment utilizing ordinary a-c power has an inherent hum in operation. Ballasts are no exception. The vibrating sound generated by fluorescent fixtures when a number of them are operating in a quiet room is a good example. This sound is much more pronounced than the hum actually produced by the ballasts themselves, because the metal body of the fixture acts as a sounding board to amplify the noise. By means of a radical departure in internal construction, the new ballast design has drastically reduced this noise level.

The other major benefit is in price reduction to the Company's fixture-manufacturer customers. The simplified design and reduction in material makes possible an average price reduction of 20% over the equivalent ballasts in the old design. Since prices on ballasts in these ratings are especially competitive, this factor will improve the percentage of the available business which the Company can obtain. One manufacturer, who previously bought 32-watt Circline ballasts from our competitors, has placed an order for 100,000 of these new units from G-E.

Here again is an example of General Electric's effort to provide "more goods for more people at less cost"—not only to serve the public, but to strengthen the job security of its own people.

Greatly improved noise characteristics and reduced cost are all features of the new ballast, above, for operation of the 12-inch circline lamp.

The OLD PHILOSOPHER Says:

Want to brighten up your drab conversational life? Startle your friends and amaze your acquaintances? Are you tired of giving the same stupid answers all the time? Then bend your ear over this way.

For years I went along just like you, I'd meet casual friends on the street and invariably they'd greet me with: "What do you know?" It never failed.

What can you say to such a question? "Oh, not much." Or, "not a heck of a lot." Or, "not a thing." You can see there isn't much variety to such dialogue.

So one day recently I decided to sharpen up my conversational gambits. As I started to take my seat at a table in the plant restaurant, one of my friends asked, "Well, what do you know?"

"The most spectacular performance of the Pony Express to California," I shot back, "was the conveyance of Lincoln's inaugural address nearly 2,000 miles in little more than seven days."

He gasped, turned a dismal shade of purple, and went on eating. Probably he's still telling friends what's happened to me—but at least he'll never again ask me, "What do you know?"

I've been having a merry old time ever since. I have given out all these glittering nuggets of knowledge in the past few weeks to all my what-do-you-know questioners:

—During the 1893 World's Fair in Chicago, John Philip Sousa was presented with a huge brass horn, standing 6 feet high and weighing 90 pounds.

—A stroke of lightning produces enough electrical current to light a city of about 30,000 population.

—During the 17th and 18th century, kissing was a part of nearly all the dances in France and Italy.

—A hailstorm occurring in Dallas, Texas, on May 8, 1926, took a toll of $2,000,000 in damages within 20 minutes.

—A red squirrel can swim two miles without stopping, but a goby fish will drown if kept under water.

—Mercury solidifies at 37.94 degrees Fahrenheit, and alcohol is used as a registering agent in thermometers used to record very low temperatures.

In a couple of months, I figure, nobody will ever come up and ask me what I know. Of course, I won't have any friends left, either.

Foremen, Supervisors

(Continued from page 1)

Board. He is also the author of several articles which have appeared in national magazines.

I. D. Rinehart, president of the Supervisors' Club, will act as chairman of the dinner meeting and will introduce the other officers of that organization. The officers of the Foremen's Association will be introduced by Everett Lindeman, president.

All members are requested to attend the dinner at the time indicated on their invitations. The dinner will be served in two shifts, as at former meetings.

Dinner music will be furnished by an instrumental trio and the group will be led in group singing by I. H. Freeman, Supervisor of Personnel.

BESSIE CHAPMAN RETIRES WITH LONGEST SERVICE RECORD OF ANY G-E WOMAN

Bessie R. Chapman

Bessie Chapman, Bldg. 26-4, retired yesterday after 44 years of service with the Company. At the time of her retirement, she claimed the honor of having the longest service of any woman in the General Electric Company.

When she first started here in 1905, Miss Chapman was a taper in a building located near the present Bldg. 4. She later became a winder in the Meter department. Back in those days, winding had to be done by hand. This was accomplished by holding the coil in one hand and guiding the wire in the other.

During 1929 she became a supervisor in Bldg. 26-1. In succeeding years she has been a group leader, winder and finisher in the Transformer division. At the time of her retirement she was an inspector in Bldg. 26-4.

During the time she has worked here, Miss Chapman has seen many changes. In 1905, there were only about 22 girls working in the factory.

Factory conditions in those days were a far cry from those of today. The hand-winders, in many cases, had to stand while working. They also got little instruction when starting on a new job.

Numerous parties were held this week in honor of Miss Chapman's retirement.

Safety Institute

(Continued from page 1)

certificate, recognition is also given to employees under their supervision.

Mr. Sonday was selected on the basis of his personal efforts as a general foreman in helping to attain a no lost-time-accident record in Division 15 of nearly three consecutive years and 3,563,050 man hours.

Mr. Sonday is chairman of the safety committee in Division 15. Elmer Fretz is the safety leader.

The selection of Mr. Liddy was based on the ratings he has received on self-analysis safety inspection reports during the past two years. During this time, he was consistently rated highest of any manufacturing foreman in his division on all reports turned in.

Nearly 400 attended the banquet and program where awards were presented to 16 of the city's top foremen.

The certificates "to the foremen who have done the most to make Fort Wayne a safer place to work during 1949" were awarded by Lee Peplogle, a member of the program committee.

The meeting was addressed by F. G. Liffert, of the American Gas and Electric Company, New York. He spoke on "Safety—A Nuisance or Good Business."

The program also featured music by the Tokheim Glee Club and a film, "Miracle of Paradise Valley."

Herschel L. Smith, Fort Wayne Works Safety Engineer, is general chairman of the Chamber's Safety Council; and Loyd Bodenhamer, of the safety section, is co-chairman of the Council's Industrial Safety Committee.

ELEX CLUB TO CONDUCT CHRISTMAS COLLECTION

The Elex Club's annual G-E Christmas collection will be conducted next week, it was announced today by Elsie Fabian, Taylor St., chairman of the drive. Contact girls will collect the donations.

FHP Motor Divisions

(Continued from page 1)

Bartling, Manager of Sales for the FHP Motor divisions, paid tribute to the extra effort, ingenuity, and imagination employed by Mr. Thompson and Mr. Kelly in securing this new business from the nation's largest supplier of domestic blowers.

General Electric supplied this customer before the war, but lost the business in 1946 when the Company was unable to meet the customer's requirements for motors. As a result of this new order, G-E has again been placed on the Lennox Furnace Company's list of approved suppliers, with an opportunity to obtain a large share of their business.

In addition to the Columbus factory, the Lennox Furnace Company also has factories in Marshalltown, Ia., and Syracuse, N. Y., and a subsidiary company, The Armstrong Furnace Company, with factories at Columbus and Des Moines; all of which are now logical prospects for General Electric motors.

The Gold Key order received from the Lennox Furnace Company is of great value because of the possibilities of obtaining repeat business, or becoming approved suppliers to the customer's other divisions, it was pointed out. It will be only by providing and maintaining the best of service and product quality to the customer that these possibilities will become realized.

SHIPPING—That sparkling lady of the ice, Sonja Henie, drew a few of our clan to Indianapolis last week-end to view the star and her company of expert performers. Some of our Elex members, namely Barbara Meyers, Betty Millhouse, and Beverly Springer will travel down Indianapolis way tomorrow with the Elex gals to see Miss Henie. . . .Congratulations to Xercie Sinish. She's an Aunt, again. . . . What a problem it's been for our bride-to-be Dorothy Fletter to get some furniture for her new place of residence. Chin up, Dorothy, it could be worse. . . . MAILING—Dick Howell, with a tan and butch hair cut, is back to work after a two weeks' cruise to Puerto Rico. Glad to see you back, Dick, even if you didn't bring any rum. . . . He did it! Yes sir, Keith Mast is an engaged man. He popped the question to his bride-to-be, Helen Barrand, last week. Congratulations, my boy. . . . Congratulations to all those sportsmen who went hunting over Thanksgiving and got something. Our deepest sympathy to those who went hunting over Thanksgiving—period. . . . RECEIVING—The gang in the receiving section had a pleasant surprise when two old timers (meaning Mart Mundt and George Elson) dropped in for a hearty hand shake and a good gab session. Seems Mart and George have been living the life of Riley lately and what's more it seems to be agreeing with them. Because they really looked good. Come again soon, boys. . . . Speaking of seeing old friends, how about you "Wag" out there on South Broadway, haven't seen hide nor hair of you for a long time. . . . REGIONAL—Best wishes to Gillie Plummer who has left Regional Warehouse to take up new duties in the Motor-Generator division. We will miss you, Gillie. . . . G. F. Bond (that lucky man) is enjoying a week's vacation. . . . Happy birthday to Jack Fox. Poor Jack, he insists he's 39 years old. Oh well maybe it's a coincidence (he and Jack Benny, that is). Jack was very delighted when he saw the big stack of cards on his desk the morning of his big day, but a very odd expression came over his face when card after card turned out to extend either "wishes for a speedy recovery," or "welcome to the new baby," etc. Oh well, it all turned out all right anyway. By the way, Jack, how do you cut a cake anyway? . . . If you have a very difficult problem confronting you, such as how to get a long ladder on a short elevator just get in touch with Jay Ramey. Jay solved his problem by merely cutting the ladder in three pieces. Now possibly there are other ways, but Jay thought this one seemed the simplest. . . . We want to shake the lucky hand of Clair Lieurance, cause he's the guy who walked off with the new Ford given away by Hatcher motors. All your co-workers wish to offer their congratulations, Clair. . . . What a break for the bunnies—it rained on Thanksgiving. Cecil McCall was all set to bag the limit, but instead he just went back to bed.

We are giving a gift of health when we buy Christmas Seals to support work of the National Tuberculosis Association and its 3,000 affiliates which are conducting year-round programs of education, case finding, rehabilitation, and medical research to stamp out tuberculosis.

Distribution Of Free Tickets For Xmas Party Starts Monday

(Continued from page 1)

group featuring two marimba players, an organist, and an accordionist, has been booked as the second act on the program. More acts are being planned pending booking arrangements.

The following rules have been adopted this year by the G-E Club management to limit the attendance to children and provide for adequate seating facilities:

1. Tickets will be available only for the children of those employees who request them.
2. Only children under 13 years of age will be admitted.
3. For children too small to attend alone, one adult should be sufficient escort.

These rules were adopted because of criticism received in past years concerning many adults taking seats rightfully belonging to the children, according to Ralph Hemminger, chairman of the entertainment committee.

Members of the entertainment committee are:

John August, Bldg. 22; Art Brockmeyer, Bldg. 17-1; Belle Buchan, Bldg. 17-3; Buck Buchan, Bldg. 19-2; Mamie Allen, Bldg. 4-2; Bill Glenn, Bldg. 12-3; Gayle Griffith, Winter St.; Ken Michael, Bldg. 8-2; Glenn Seabold, Bldg. 4-6; Gordon Smith, Taylor St.; Joe Wyss, Taylor St.; Kenneth Redding, Bldg. 8-1; Catherine Gardt, Bldg. 4-6, and Joseph Gardt, Bldg. 4-6.

The Wade Quartette, above, will offer a diversified entertainment feature for the G-E Club's annual "Kiddies' Christmas Party" Saturday, Dec. 17.

Hofmann Named As Supervisor Of Procedures

R. R. Hofmann

R. R. Hofmann has been appointed Supervisor of Procedures, Fractional Horsepower Motor divisions, it was announced last week by M. E. Lord, Manager of the Fractional Horsepower Motor divisions.

The appointment became effective Monday, Nov. 28.

Mr. Hofmann started in 1934 with G-E in Bldg. 4-2. Later that same year he transferred to the Manufacturing Standards division in Bldg. 4-6, where he did operation planning for Bldg. 4-3.

In 1939, he became leader of operation planning for FHP Div. 13. Mr. Hofmann's next transfer was in 1941, when he was named leader of operation planning and paper making in the Order Service section. He then did time study work in FHP Div. 15, and the following year was made leader of the Order Service section.

Three years later he did FHP Motor office procedures work in Bldg. 4-6. Prior to his recent appointment, he was Supervisor of Procedures for the FHP Manufacturing division.

Mr. Hofmann is a member of the Supervisors' Club. He is married and has two children. The Hofmanns live at 2107 Paulding Rd.

It's the fruit of carelessness that often upsets your apple cart.

Information Clinic

QUESTION:

Why is it that there are so many more suggestion awards made to other divisions than are made to Motor-Generator?

ANSWER:

On an average, the number of suggestions submitted per 100 employees in Motor-Generator is not up to the average of the Works as a whole.

To give information as to why this condition prevails is difficult, but it may be for one or more of the following reasons:

1. The product of Motor-Generator consists of special units of one or a few to each order and with few if any repeat orders. There is no so-called mass production of units in the division.
2. In most cases, the cost of special purpose machines or equipment exceeds total savings which could be realized due to the small quantities and special nature of the work.
3. Due to the above conditions, it is possible that some of the employees in the division are not as suggestion conscious as they might be.

However, during the past few months, employees in Motor-Generator, along with all other employees of the Fort Wayne Works, have accelerated their suggestion activities.

JAN. 1 IS DEADLINE FOR G-E FELLOWSHIP FUND APPLICATIONS

Another reminder is being made for applications for the G-E Educational Fund Fellowships for the 1950-51 academic year, acceptance of which closes Jan. 1, 1950.

All applications received prior to that date will be submitted for recommendations to committee representatives from the National Academy of Sciences, the American Chemical Society, the American Physical Society, the American Institute of Electrical Engineers, the American Society of Engineering Education, and the American Society of Mechanical Engineers.

Applications for these fellowships, as announced earlier by W. W. Trench, Secretary of the Company and chairman of its Educational Committee, are being accepted under provisions of foundations established to honor Charles A. Coffin, founder of the Company, and Gerard Swope, retired president.

Grants are to be made from the income on the $1,000,000 G-E Educational Fund, and will cover the fields of electricity, physics, physical chemistry, engineering, industrial management, the physical sciences, and other scientific and industrial fields.

Decatur G-E Club

(Continued from page 1)

Jones' favorite "All I Want For Christmas Is My Two Front Teeth," and a skit in which Santa gets fooled by a tiny, impish mouse who gets more in a little boy's Christmas stocking than Santa can.

"The Toy Parade" will be presented by a piano duet as another musical highlight of the show.

A movie short, "A Tiny Child Dreams A Christmas Dream," will complete the program, which has been planned for the enjoyment of every age group.

Motor and Generator Static

DAFFYNITIONS—Miser: Person who lets the rest of the world go buy. Dirty looks: Moscowls. Colorful girl: One who likes men with blue eyes, brown hair and greenbacks. DDT: A mosquito's abbreviation for Darned Dirty Trick. Modern Play-suit: A pair of bandanas and a worried look. . . . MYSTERY MELODY—Here is the Mystery Melody submitted by Harry Price, Bldg. 6-1, "Lord Remember Me". . . . REMINISCING—By the time we get the left-over turkey cleaned up from Thanksgiving, it will be time to start again on the Christmas bird. A lot of us are getting tired of turkey hash. . . . WARNING—Only 20 more shopping days till Christmas! . . . EXTRAVAGANT ROAD-BUILDING—If you believe that highways cost too much money, you should drive the streets of Johannesburg, South Africa, which are paved with gold. When the city council of this mining metropolis decided to widen a busy street, old gutters were crushed for paving material. Assay revealed that the paving contained a *half ounce of gold per ton*—a heavier content of gold than found in much ore mined today! What no uranium?

Safety Raiser

When I was a kid (some years ago), I always had a desire to run a locomotive—who hasn't? A lot of you like myself would also like to run an industrial truck, just for fun, that is. But it is not always fun running an industrial truck. Our industrial truck drivers in the Motor and Generator division drive their trucks approximately 7500 miles per year with safety hazards always present. Our drivers have a commendable record and it is our job to help them maintain it. Help to keep the aisles clear, always look both ways and slow down to a walk when stepping out into an aisle or when coming through a door at the stairways or wash rooms. This will help to keep our drivers happy and there's nothing better than a happy truck driver.

LUBRICATION ENGINEERS TO HOLD DINNER, TOUR OF LOCAL I-H PLANT

The American Society of Lubrication Engineers will hold a dinner meeting at the Fort Wayne International Harvester Plant Thursday, Dec. 8, at 6:30 p.m.

The management of the International Harvester Plant will be hosts at this meeting and a plant tour following the meeting has been planned.

Anthony J. Zino, Jr., Lubrication Engineer of the Industrial Division of Swan-Finch Company, New York, will be the speaker. He will speak on the topic "Hydraulic Oil Operation." Mr. Zino is a former chairman of the ASLE and ASTM and has written many papers on various phases of lubrication.

The meeting is open to the public and all G-E planning men and division superintendents are invited, it was announced today by Bill Buckner, Bldg. 20-2. Mr. Buckner is vice president of the local ASLE chapter.

Harmonicats To Appear At Elex Club's Annual Christmas Party Dec. 15

The Harmonicats, recording and radio artists, will be featured at the Elex Club's Christmas party Thursday, Dec. 15.

The party will be held in two sections, the first at 8 p.m. for first shift members and 12 midnight for night shift members. Both parties will be presented in the G-E Club auditorium.

A reservation fee of 50 cents must be paid on or before Friday, Dec. 9. Reservations should be made with contact girls.

Employees Requested To Keep Bond Receipts In Safe Place

Some employees have lost the receipts issued to them for U. S. Savings Bonds deposited with the Company under the G-E Employees Savings and Stock Bonus Plan.

Considerable inconvenience and delay is caused the employee in obtaining replacement receipts for those lost. An affidavit regarding the loss of the missing receipt must be executed by the employee before a replacement receipt can be issued. Bonds cannot be withdrawn until a replacement receipt can be issued.

Preserve your receipts carefully.

All of us can help stamp out tuberculosis, a communcable disease which is killing at the rate of one person every 11 minutes, by buying and using Christmas Seals.

SMITH, GAMEC ARE APPOINTED ASSISTANT SUPERINTENDENTS

C. B. Smith F. T. Gamec

Chester B. Smith has been appointed Assistant Superintendent of the Specialty Fractional Horsepower Motor Div. 1, Broadway, and Frank T. Gamec has been named Assistant Superintendent of Fractional Horsepower Motor Div. 15, Broadway, it was announced last week.

A graduate of Iowa State college, Mr. Smith took the test course in 1935. He then came to the Fort Wayne Works in 1937. The next year he worked on production methods, and was made Supervisor of Production Planning in 1943.

In 1946, Mr. Smith became Assistant to the Production Manager. He held this position until he was appointed Assistant to the Production Manager of the FHP Motor divisions. Prior to his recent appointment, he had been Supervisor of Procedures, FHP Motor divisions, since 1948.

Mr. Smith is a member of Squares Club, AIEE, Fort Wayne Engineers' Club, and the Supervisors' Club. He is married and has three children. He lives at 1145 Oakdale Dr.

Mr. Gamec began working for General Electric in 1928 as a rotor assembler in Bldg. 17-2. He later did clerical work, held a supervisory position on production, stock and data divisions in the FHP divisions, and was production supervisor of the Hermetic Motors division. In 1941, he became Supervisor of Production and Stock of the Power Drive division at Winter St.

The next year he was named Assistant Production Supervisor of the FHP Motor divisions. He then became coordinator of FHP Motor Production. In 1947, Mr. Gamec was appointed Production Manager of the Specialty Transformer and Ballast divisions. Since last October, he has been Assistant to the Production Manager, FHP Motor divisions.

Mr. Gamec is a member of the Squares Club, Supervisors' Club, and the Orchard Ridge country club. He is married and resides at 603 W. Rudisill Blvd.

Jenne Completes 30 Years At G-E

Arthur Jenne, Assistant Supervisor of Planning in the General Tool division, completed 30 years' service with General Electric Saturday, Nov. 26. Friday he received the congratulations of his friends in the division. Left to right in the picture are: Gustav Mittermaier, Walter C. Vought, Supervisor of Planning; Mildred Wagoner, Delbert Rehm, Mr. Jenne, and Eric Bluhm.

HI-Spots

OF BUILDING 4-2

By now Mamie is enjoying the beauties of nature in lovely California. We hope that she had a good trip and that all is well. We miss her especially when tbis has to be written up. . . . A strange and unhappy tbing happened in Bldg. 4-2. Friday morning. George Seabold spent the morning leaning out the window waiting for Santa Claus to come to Fort Wayne on the Pennsylvania. Lo and behold he came in from the East, and George was left without getting in his early request. . . . Charles Reed, the coon hunter, came to work rather crippled up. He was trying to beat the coon into a culvert. Some of you will remember his disastrous hunting experience of last year. . . . Speaking of hunting—Clarence James was successful in trapping (or was it shooting) his deer in Northern Michigan. But Virgil Allmandinger who went farther north into Canada just got very tired in trying to beat his way out of the wilds. It seems that they had to break ice in order to get home. Sounds cold to us. . . . We offer our sympathies to Fred Baily on the death of his brotber. . . . Andy Nichter of the tool room is to be congratulated on becoming a grandfather again. Just pick up your cigars in person. . . . Well that is almost all for now, but we hope that in the forthcoming weeks while Mamie is gone that we receive a little more news. . . . Charles Curtis now has a new nickname, "Hercules." It seems that someone fixed him up with a motor for his eight inch saw, ¾ hp at that. Strange to relate, he can stop it with two fingers, maybe because it is 25 cycle? Not so good.

Members Of Elex To Attend Ice Revue In Indianapolis

Members of the Elex Club will journey to Indianapolis tomorrow to attend the Sonja Henie Ice Revue. Buses will leave the Greyhound bus station at 10 a.m., arriving in Indianapolis at 1:30 p.m.

At 7 p.m. the group will meet at the Indianapolis Greyhound bus station for transportation to the ice show. Buses will be ready for the return trip immediately after the revue. They will arrive in Fort Wayne about 2:30 a.m. Sunday.

To Iley Souder, When You Retire

After having worked, and done your best,
You have really earned a time for rest
And time to plan, and time to do
The many things you have wanted to.
No whistle to call you to your place,
No urge to strive for a faster pace,
The rush hour is over, and now instead
A calmer, easier way is ahead.
Face your change in routine with a smile
And you'll find it is good in a little while.

By Frances Eckrote

After being with us 20 years, Iley Souder put away her tools and bid us goodbye. Wednesday was a gala day—balloons and stuff—but underneath it all we were sad to have to bid our co-worker goodbye. We wish you the best of health and luck. . . . Last week everyone was ready for Thanksgiving (except Mr. Turkey). Don Draxier had his ears lowered (haircut to you). . . . Harold Bowker's kiddies came down with the chickenpox (just like kids). . . . Velma Seibt and Iva Stephan spent Thanksgiving in Wabash. . . . Dorothy Johnson was in Ohio. . . . Winter is officially here. Harold Kiel has his inner-spring mattress with sleeves out of the moth balls. . . . We missed Erv Lange last week, but found out he was a third week vacationer. . . . Next week Charlie Rice takes his third week. . . . Warning to all glove wearers: Johnny Williams takes his vacation Starting Dec. 16. Better buy gloves to last until after Christmas one of the next two Tuesdays. . . . When Walter Kryder has a blue Monday, it's really blue, even to a blue ear. Besides that he is in the doghouse. He was all the way out to Leo when he remembered he left his wife in Fort Wayne. . . . Having dental troubles? Herschel Case has solved the problem of taking out a tooth. He unwrapped a little wire from a spool, put a turn around the tooth, dropped the spool—no tooth. . . . Minnie McCague found out that it doesn't pay to run a stop sign. . . . Irene Blank is getting a special box seat, and the connectors are getting her a tall cap. . . . Ivah Grandstaff is trying to figure a way to make her chickens lay eggs. She wonders if squeezing would help. . . . Mary Shumm thought it was a short week. She tried to make Monday a Friday by putting her time card in the box. She had Friday on her mind because she wanted to go up and see Santa come in on the Pennsy. Now you know Santa comes in a sleigh. . . . We know now why some people don't like opera after hearing Harold Bowker give forth. It sounded like an operatic version of "Mule Train." . . . Our "We wish you happiness" mat is out for Gloria Zion who was married last week. . . . Edith Paxson was proudly displaying pictures of her two granddaughters. . . . Bob Walt was also showing pictures of his new boss with the three cornered pants. . . . The girls in the lead section wonder what football team Bill Martin represents. They heard that he made a touchdown. . . . Ann Kensill was really having a time getting on the bus the other night with all those big bundles. She must be doing her Christmas shopping early. . . . Lucy Alexander is in her new home. How about that chicken dinner now? . . . Sorry to hear the husbands of Lena Schaper and Jerry Snyder have been ill. Also the small daughter of Peggy Bahde is ill. . . . Leona Scott is also on the sick list. . . . Marcille Thomas hasn't been able to talk.

Alice Nichens Is Division Editor Of Column For Taylor St. Office

Alice Nichens, Taylor St., is the division editor for the new column, "Fractional Facts, Taylor St. Office."

TOP FLOOR TOPICS

BLDG. 26-5

by WALT POHLER

We recently lost one of our co-workers and good friends. Ron Koldeway, foreman of inspection and test, left the General Electric Company to make his home in or around Twin Falls, Idaho. Mr. Koldeway was presented a gold watch bracelet by test and inspection personnel of the first shift. The second shift held a potluck with Ron as the honored guest. He was presented a large bow-tie with the names of all the inspectors and testers printed thereon, a pair of ear muffs, a Ronson cigarette lighter and a pen and pencil set. Potatoes were used as place cards with the request that Ron plant one for each person present and then send each a bushel of potatoes next fall. We all wish Ron and his family much success in their new home. It has been mentioned that some of the boys who are familiar with those hills are just a little envious, including your reporter. . . . Second trick held a potluck last Wednesday consisting of turkey and all the trimmings. This potluck was to celebrate Thanksgiving and also the retirement of Florence Purdy. Florence was presented a lovely purse and a nice check by her co-workers. Mr. Peterson made the presentation. . . . The girls in the lead section had a potluck Nov. 7 celebrating Christine Burns' birthday. She was presented a nice handkerchief by each girl present. . . . Rita Zuber came to work the other day and mentioned that it was her birthday. The girls she works with took her out to lunch.

Frog or horse in your throat? . . . Luella Masson said she wished she was popular so she could have her name in the WORKS NEWS. . . . JoAnn Kemery's dog has added something new to his diet—raw noodles.

She first began working for the Company in 1936 in the office of Bldg. 4-3. Then later she worked in Bldg. 4-6, before transferring to the Chicago office.

Alice left the Company during the war and returned shortly after. She now works for R. A. Wefel, FHP Cost Supervisor.

Alice enjoys sailing, skiing, archery and canoeing. She and her husband have their own two-placer sailboat, and race it at Lake Wawasee. The Nichens also take their boat to regattas on various lakes in Indiana and Michigan and have won seven trophies.

We of Div. 1 extend our sympathy to O. J. Mettler in the death of his mother and also to Lucinda Pettit, whose sister-in-law was killed in an auto accident Thanksgiving evening. . . . We are glad to welcome the following people to our division and hope they all stay with us a long time: Amanda Longwell, Lois Kaufman, Lora (Thelma) Shroyer, Wava Aughenbaugh, Margaret Erickson, William Beyerlin, Marie Bruggencate, Benjamin Farrington, Wilborne Garton, Robert Markey, George Hill, Gerald Adams, Donald Ertel, Paul Arnold, Ruth Hine, Roger Williams, Eloise Gephart, Martin Vogel, Emma Black, Nora Williams, Mary Beaman, Marcele Oetting, Alverda Cox, Flora Stricot, Martha Bulleit, Emma Bultemeier, Ed Pranger, and C. B. Smith. . . . Mat Wiegand is welcomed back to the office. . . . Birthday greetings to O. J. Mettler and Dale Stalter. . . . Bonnie Wolf and Frances Fitch spent the past week-end in Chicago and said they came home just loaded! They were just shopping, of course! . . . Mildred Wahle is enjoying her third week's vacation. . . . Emily Nierman is on the sick list. We hope for a quick recovery. . . . That "long-beaked, long-legged" bird has been busy the past few weeks. Margaret Fuelling Kern welcomed a son, Lyle John, and Loveta Van-Horn welcomed another daughter, Carol Sue. Both the mothers are former co-workers. . . . Louie Scherer is back at work again. His ribs are very sore and he has a scar on his head. We only heard about the ribs, wonder where the scar came from? . . . Paul Hendricks had a change of luck this time. He got an eight-point buck on his last day of deer hunting. You know the old saying, "If at first you don't succeed, try, try again!" and that is just what he did. . . . Lucille Jolly, her son Jimmy, and her husband are leaving the first of January to make their home in South America. We wish you the best of luck in your new venture! Lucille is a former co-worker from 1x29. . . . Good wishes for a speedy recovery to Hope Hatfield who is in the hospital. . . . Say, Elmer Koehlinger, you want to watch that ice you got in the big black box! Someone is going to get it if you don't keep your eye on them. . . . We are wondering how Pondo is coming along as a bowling instructor. Better be up on your toes, Pondo, as you are having competition. Wendel Heckley is already undercutting the price of instruction and from all reports he is good! . . . We were surprised when we heard that Nora Duncan was so mean to that poor little mouse! That poor little thing just wanted to keep warm. Surely you have room for a little mouse in your coat sleeve too! . . . We overheard the following statement made by Floyd Steinbacher and he says that if his wife cooked like he did he'd kick her out! You know a man never appreciates good cooking or a good cook until they have to eat their own cooking!

CIGARETTE LIGHTERS ARE GIVEN TO 21 SUGGESTORS AS BONUSES

G-E monogramed cigarette lighters were presented this week to the following employees as bonus awards for submitting suggestions on which the regular awards were $10 or more:

Raymond Hakes, Clarence Rothgeb, Mary Jane Harrell, Donnabelle Wagner, Doyle Miller, John Sowers, Helen Miller, Myrtle Barfell, Robert Till, Russ Wiley, Harry Meineke, Art Bell, Donovan Garton, Joseph Juettner, Garnall Parkinson, Carl Junk, N. R. Behm, Robert Schuelke, Ruth Kite, Eugene Hutsell, and Octave Andre.

The cigarette lighters have been awarded each week since Sept. 1 as a part of the Suggestion System Contest. Although the contest is over, the lighters will continue to be presented to all those who submitted suggestions during the period from Sept. 1 to Nov. 15, on which the regular awards are $10 or more, as they are processed by the suggestion committees.

Voorhees Rounds Out 30 Years

Donald B. Voorhees, Bldg. 22, rounded out 30 years of service with General Electric Monday, Nov. 14. At that time he received the congratulations of his friends in the Motor and Generator division. In the above picture are: (l. to r.) R. M. Hartigan, Manager of Manufacturing for the Motor and Generator division; Charles Castle, Mr. Voorhees, Floyd Brown, Charles Nord, Adam Farrell, General Foreman; Al Mason, Foreman, and Clarence Miser.

Fractional Facts

TAYLOR ST. OFFICE

By Alice Nichens

So help me, dear reader (maybe der iss con, no?), never again will you have to struggle through any of my so called poetry. The typesetter or someone was ag'in me and —well, if you read the poem you will know what I mean. My spirit is broken—the hours that were spent trying to rhyme consume with something other than moon, June or croon. But then maybe all us great artists has gotta have a tragedy. . . . Should you see a girl in the hall turning to the right and then turning to the left and murmuring something about swinging a partner, that's Isabel Trovinger practicing for the square dance. She has heen known to take the arm of a perfect stranger and swing him around if he happens to pass her during one of these enthusiastic moments. . . . Dick Morgan is back with Ye Olde G-E, this time in Central Cost. Welcome back. . . . Miles Cameron is the father of a four year old celebrity. Marian broke her arm and is now the envy of all her little neighborhood friends. . . . When I say that Eloise Buhl almost took the bus home the other night, that's just what I mean. She tried to hook bumpers, but the bus managed to pull away. Now whenever this particular bus sees her it screams and pulls over to the curb until she is out of sight. . . . If the Accounting section's basketball team operates during a game the way they do during practice, the opposing team had better have the bandaids ready. Ev Meyers had his glasses broken, Bob Wildermuth sprained his ankle, not to mention floor burns and twisted arms of other players. They must be using a few football rules in their game. . . . Sue Seidel is looking quite chic with her new End Flight hairdo. . . . Bob Wefel is taking his wife's head scarf along when he gets his hair cut this week. He's afraid the sudden change might turn his cold into pneumonia. . . . Suppose you have all read or heard about the new drug, Anahist, for preventing and curing colds. If it works, it's going to be quite a blow because a cold has always been such a wonderful excuse when you didn't want to do something. Now when your wife wants you to take her to that formal dance you can't say if it weren't for the cold you're sure you must be getting there is nothing you would rather do (ha). All wives will have a bottle of pills in readiness and when you look as though you might try to pull such a trick, you will probably find you have a mouth full of Anahist, and with that look in her eye, brother, you had better swallow.

M. B. A. SICK LIST

Herman Bertsch, George Danehy, Howard Naslund, Oliver Sawdon, Maurice Siples, R. G. Templeton, Virginia Johnson, Hope Hatfield, Elmer Hatfield, Eva Fisher, and John Weber.

Left the Hospital

Ernest Lowe, Eva Fisher, Glenn Billman, Anna Robinson, Perry Jefferies, and Merrill Patrick.

Returned to Work

Howard Orr, George Taylor, Merrill Patrick, Romney Wass, Jack Scott, Edna Peterson, Arthur Eizinger, Malinda Bradtmiller, Martin Vogel, Elmer Sauerwine, Archie Wright, Alfred Woenker, William Morton, Frederick Borton, Oliver Miller, Peggy Ruch, Ruth Fields, Helen Wyss, Stanley Stults, John Fuller, Jr., and Novella Pape.

"Up a Stump" or "I'm Stumped" are common everyday phrases, but leave it to Dort Schnepf to give us the real meaning of the phrase. Recently Dort backed her car into Ray Leitz's backyard. When she tried to go forward, the wheels only spun and spun. Upon investigation, Dort found the back of her car resting on a tree stump. Yes, Dort was stumped and the least bit irritated, but about 12 muscle men including Ray came to her rescue and helped Dort out of her dilemma. . . . Anyone interested in taking singing or dancing lessons see Lohnas McIntosh. We understand he does all right. . . . Did you know that Dave Embler's new car doesn't have flats? Time will tell! . . . A farewell dinner was given at Dort Schnepf's house for Joan Liechty, who is taking up full duties as a housewife. It also happened to be Joan's birthday and a lovely birthday cake was presented to her. She also received a lovely gift from the girls. Those attending the dinner were Ardella Heare, Harriett Haines, Cathryn Steele, Mary Fennig, Eloise Noll, Lydia Lehrman, Alice McBride, Mary Miller, Dorothy Schnepf, Joan Liechty, Genevieve August, Mary Ann Laurent, Fern Passwater, Earleen Steffen, Dorothy Schumm, Esther Meyer, Irene Holthouse, Wanda Bailey, Christine Andrews, Florence Schultz, Barbara Roop, and Mary Ellen Lengerich. . . . Mary Ellen Lengerich is taking Joan's place and we want to welcome her back in the office. Mary Ellen worked in the Planning section at one time. . . . James Stone is the new engineer and is from Birmingham, Ala. Hope you like our fair city, Jim. . . . Mary Fennig and Irene Holthouse were on the sick list. We hope by this time they are feeling much better.

Florence Knight entertained the Birthday Club with dinner at the English Terrace. At that time names were drawn for the Christmas exchange. The girls with birthdays this month were Jean Pappert and Dorothy Mills. Those present were: Dorothy Medsker, Dorothy Mills, Jean Pappert, Ann Lapadot, Dorothy Askren, Kate Scherrer, Norma Krall, Laurel Weaver, Luella Bixler and Florence Knight. . . . If Jack Welch ever comes in late he is sure to take a lot of ribbing. You see Jack just won a new clock. . . . Joan Toderoff is in the St. Joseph hospital as the result of a careless auto driver with faulty brakes. This ties right in with our safety program, WATCH THOSE BRAKES. Joan is getting along fine and hopes to be home soon. . . . Dorothy Askren had as her escort at the Elex dance a tall, but tall young man called Stretch and they were teamed up with Ann Lapadot and Dorothy's brother Charles. They all agreed that it was a swell dance. When they started home the car battery was dead and it was hours before they could get anyone to push them. It was in the wee small hours when they got home.

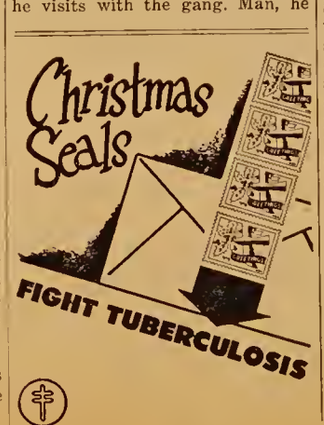
Speedy driving not only helps you to see this world, hut often the next.

Celebrates 30th Anniversary

Cecil D. Rose, Bldg. 8-1, celebrated his 30th anniversary with General Electric Tuesday, Nov. 15. He is shown at the right, above, being congratulated by E. J. O'Neill, while G. D. White looks on.

Tricks In Transformer

—FROM DIVISION 91—



By Bob Bunyan

It seems that McConnehey and Zell still have water in their radiators. At least they are keeping the windows closed up tight now. . . . I hear Paul Noffze was able to obtain a G-E lighter for Roy Dierstein. It was somewhat different than the regular lighter given by the Suggestion Committee. It was the folding type. It never occurred to Roy that the same one was given to Paul by Johnny Hughes just a few moments before. . . . Some people like to do things the hard way. Jim Stauffer was seen driving his new Kaiser standing up. It seems he is having a little trouble shifting his gears. . . . Fred Wellinsick feels pretty good now that he finally got the Philco job done. . . . The 625 gave Gerald Crum a headache so Bob Mennewisch is helping him out. . . . Roe Ormiston got our new lead pad die working pretty good now. He is going on a vacation too. . . . John Laymon has decided on a neutral position. No rackets for him, he says. . . . We are wondering how Don Huffman will look in Paul's shoes this week. Don will be top man during Paul's vacation. . . . Ed Byers has been a working fool lately. That is he sees to it that Bill Shaffer has enough to do while he visits with the gang. Man, he sure can talk your leg off. . . . Don Edgar had some line about getting 17 rabbits last Thursday. . . . Bill Gepfert said his wife is about ready for a new car. She let him drive last Wednesday—she always will just before she gets a new one. . . . Gerald Aspy is feeling kind of chipper now that Hoagland has won five straight basketball games. He forgets they haven't played New Haven yet. . . . It seems a little warmer in the office this week. Maybe it's the new corduroy, huh, Mary? . . . Eddie Sauscher probably would like to take another vacation after putting up with Bunyan for a week. . . . Jerry Schaefer didn't feel too good after Thanksgiving. I understand he spent the day in Ohio and it wasn't the dinner that upset him. . . . Rupright is hoping he isn't forgotten at Christmas. He wants wider steel to shear. It seems he is growing tired of our narrow stock. . . . Funny how these married men like Freeman Rohlfing and Bill Conrad get those gold pencils given to them in November by an attractive lady. Couldn't be a Christmas gift yet? . . . Loren Prince doesn't need to go high hat on us just because he has a new Ford that will carry 80 pound air pressure.

Tool and Sample Shop News

We hear that Dean Lockwood went pheasant hunting and had very good luck. How about having a pheasant dinner on you, Dean? . . . We're sorry to hear that Bob Smith didn't get his deer this year while hunting in Canada, but he says he did have plenty of fish to eat and had a good time so that's all that counts. . . . Wayne Henderson has some good pop corn so you better put your order in if you want some for next year. He has sold his crop fast this season. I'll just bet that there were very few "old maids" (unpopped kernels) left in the bottom of the pan. . . . Glenn Hobbs lost his lunch pail last week but he found it at a downtown drug store, of all places. . . . Millie Strickler has a new square dance hold and you can't get away very easy.

Two boys arrested for swindling said their fathers had trained them. Gyps off the old block.

Christmas Decorations At Employees' Stores Are Reduced In Price

Christmas lights and decorations have been greatly reduced in price since last year, R. L. Fischbach, Supervisor of the Employees' Store, announced today.

An ample supply of Christmas decorations has been made available, but employees are urged to make their purchases early to avoid the rush.

The Christmas bulbs and decorations available at the Employees' stores and the new prices are as follows:

C-6 BULBS—15 volt, miniature base, series type.....$.04, plus tax

C-7½ BULBS—120 volt, candelabra base, for use in multiple burning outfits.....$.07, plus tax

C-9½ BULBS—120 volt, 10 watt, intermediate base. Inside color-coated to protect finish when used outdoors $.09, plus tax

420 BUBBLE-LITE BULBS—Series type, miniature base lamp. 15 volts. Includes metal clip for fastening lamp upright on tree. Sturdy glass candle-tube and plastic housing. Comes in assorted colors. May be used as replacement lamps in any 15 volt, series type, lighting outfit.....$.18, no tax

G-14 BULBS—120-volt candelabra base, for use with multiple burning sets.....$.12, plus tax

No. 32—10 inch, CHRISTMAS CANDLE—Plated candlestick base. Trimmed with silver leaves, pine spray and poinsettia. C-7½ lamp with Noma Halo device.....$1.15

No. 54—TWO LIGHT CANDOLIER WITH HOLLY SPRAY—Plated base with antique ivory candles. Silver leaves, pine spray, and poinsettia trimming. C-7½ lamps with Noma Halo device.....$2.35

No. 164—HALO CANDOLIER — Three tapered candles in wood base. C-7½ lamps with Noma Halos.....$2.75

No. 201—EIGHT LIGHT MULTIPLE CANDOLIER—Ivory drip candles with metal base. C-7½ lamps and Noma Halos.....$3.95

No. 171—EIGHT LIGHT CANDLE DISPLAY—Antique ivory finish. Realistic drip candles in wood base. C-6 lamps and Halos.....$3.95

No. 110—EIGHT LIGHT, SERIES TYPE OUTFIT—Tri-plug connection with open outlet for attaching additional sets. 15 volt, C-6 cone-shaped lamps in assorted colors.....$.90

No. 3010—SEVEN LIGHT, INDOOR, BERRY BEAD OUTFIT — Equipped with Add-on connector for attaching additional sets. Noma patented Berry Bead feature fastens lamp upright and secure to branch of tree. C-7½ lamps burn independently. Washers keep lamps tight in sockets preventing the possibility of short circuits. May be connected to series sets as well.....$1.55

No. 3415—15 LIGHT, INDOOR OUTFIT—Berry Beads make it easy to attach lamps to branches of tree. Add-on connector for attaching additional sets or lighting decorations. Assorted color C-7½ Candelabra base lamps. If one burns out, the others stay lighted.....$3.30

No. 509—BUBBLE LITE SET—Series type. Colorful glass candles alive with bubbling action. Special metal clips make it easy to fasten to branches of tree in upright position. Each lamp is five inches tall. May be used in conjunction with any type of Christmas tree lighting outfit. Tri-plug connector. 15 volt lamps. Assorted colors.....$2.30

No. 3005—SEVEN LIGHT, RED-CAP, OUTDOOR OUTFIT—Wired in multiple. Thoroughly weatherproofed. Spring contacts keep lamps tight in sockets. Rubber washers. 13½ foot, straight line construction. Inside coated C-9½ lamps. Add-on connector.....$2.30

No. 126—COLOR POINT STAR—Edges of plastic points give off bright red glow when illuminated. C-7½ lamp. Complete with cord and tri-plug connector.....$1.15

No. 700—ILLUMINATED TREE-TOP ANGEL—C-7½ lamp with Halo. Cardboard cylinder, hidden by dress, slips easily on to top of tree. Cord with tri-plug.....$1.40

No. 1115 — RED CELLOPHANE WREATH—12-inch diameter. Crisp bundled cellophane on wire frame. Silver leaves and poinsettia decoration. 3½-inch red candle. C-7½ lamp with Halo. Complete with extension cord with tri-plug.....$.70

No. 501G—18-INCH, GREEN BUBBLE-LITE TREE—Bright green visca. Nine assorted color candles. Metal frame construction. Bubbling action. Complete with cord.....$6.25

No. 502W—18-INCH, WHITE, BUBBLE-LITE TREE—Same as No. 501G, except is made of white visca.....$6.25

No. 503G—26-INCH, GREEN BUBBLE-LITE TREE—Bright green visca. Eighteen assorted Bubble-lites. Metal frame construction. Complete with cord.....$12.50

No. 504W—26-INCH, WHITE, BUBBLE-LITE TREE—Same as No. 503G, except is made of white visca.....$12.50

No. 2007—NOMA HALOS—To fit C-7½ lamps. Circles the lamp with a radiant glow. Plastic. Practically indestructible.....$.05

Christmas Decorations
Radio Tubes
Iron Handles
Vacuum Cleaner throw-away bags

These prices are subject to change without notice.

Every year about this time many folks suddenly realize Christmas is no more than a whoop and a holler away . . . and that ringing noise in their ears is the approaching sound of sleigh bells. Just in case you're still spending your spare time thumbing through last summer's vacation pictures, we thought it might be wise to tip you off that the Yuletide is coming in. Now's the time to be smarter than a college-bred fox and get the jump on the rest of the shoppers.

Congratulated For Long Service

Paul G. Dannecker, Motor and Generator Accounting division, recently rounded out 30 years of service with the Company. On his anniversary, he received a congratulatory letter and was extended the best wishes of his co-workers. Left to right in the picture are: Everett Smith, E. C. Reese, R. H. Bender, A. C. White, Mr. Dannecker, Jack Newton, and L. O. Hildner.

Tales from Taylor

by Harry Parker

When it comes to getting an organist to play his request numbers Ralph Dunlap is a complete washout. Here sometime ago he and a number of associates made a special trip to Huntington to hear this famous musician. Asking for requests Ralph volunteered several which the maestro completely ignored. Evidently he considered Ralph's selections as being cellar type music. . . . Buck Kline is practicing the art of fast unloading. As you know he rides home in another fellow's car. He has been having this driver slow down and he unloads while the car is still in motion. Each day he tries it at a little increased speed, eventually accomplishing this feat while the car is going at full gallop. The other day though he came very close to colliding with a tree. Perhaps this will cool his enthusiasm for this sort of thing. . . . As all of you know Newton Poland had the misfortune of having his car badly wrecked one evening last week while on his way home from work. This is where that big dog of his had his just opportunity to pay for his board and keep. Calling up his wife Newt told her to bring the dog in post haste. Upon arriving at the scene of the disaster he hitched said pooch to the wrecked car and pulled it to a garage, saving him the expense of wrecker service. . . . Each year about this time we have to listen to Clarence Stove's long winded yarns about ice fishing. He is at it again and is making greater preparations than ever before. He believes this is going to be one of the coldest winters on record and that the ice will be extremely thick, requiring extra heavy gear. On the other hand we may have another open winter, and he may have to use a boat as he did all last winter.

Pensioner Parade

Fifty years ago Nov. 27, on Thanksgiving Day, Mr. and Mrs. Edward Leitz were married. To celebrate their Golden Wedding Anniversary, they were honored at a reception last Sunday for their friends and family. Congratulations, Mr. and Mrs. Leitz. . . . We got a letter from George N. Prince in Eustis, Fla. He said that was the place where most of the G-E pensioners seem to land. The Kelloggs, Greiders, Bookers, and Princes are there "suffering with the flowers, fruit and sunshine." George says that he envies us here "sliding on the ice, wading through the slush and snow, firing the furnace, and carrying out the ashes."

Modern Robin Hood

No, that isn't an identification picture for a certain Michigan City institution. It's Sherman Stilwell posing with his license for deer hunting a la Robin Hood in the State of Michigan. Mr. Stilwell does all of his hunting with bow and arrow.

4-1 Floorage

by MARIE LANTZ

It Can Be Done

It can be done;
It was—not once
But through October's entire month;

It's a record won
And well worth praise,
One that we should keep always.

G-E employees, every one
In truth applied the safety test
And made our better badges best!

It can be done;
The zero frequency in L.T.A.
We've shared—together—let it stay!

Not only the safety committeemen, but the entire Fort Wayne Works should be proud of this record which proves that "It Can Be Done." . . . Frank Lawrence believes in the policy of "Live and Let Live." He and eight others were up in Canada on a big game hunt this past week. They came back with—yes, you guessed it—five deer. The alibi is that the weather closed in on them, and that they were ice-bound three days. Oh, well, a poor story is better than none, we'll always say. . . . Sweet sixteen was the number of rabbits four huntsmen got Thanksgiving Day. Paul LeCoque was one among those (the hunters—we mean) to share this profitable luck. . . . Fred Pyle must have been thankful for a good conscience. At least it didn't bother him too much, as he devoted most of the holiday to siestas with the sandman. . . . We don't know whether to credit John DeWald with having an extraordinary ambition of his own or whether he has a desire to steal the spotlight from Harris of Busco. He has the fever to drain Irish lake in pursuit of a turtle. But it seems as if this particular body of water is too large for a hand pump and too small to use a power-driven one. One possible solution to John's problem would be to overfeed the beast (the turtle, not John)—so that by rapid growth he'd be too big to be submerged in the lake's depth.

FOR SALE WANTED FOR RENT LOST & FOUND AD-LETS

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ad will not be accepted unless accompanied by the name, pay number, and division of the employee. No works building or telephone number may appear in ad, only the home telephone number or address.

"Lost" and "Found" articles must be cleared through the Plant Protection office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone. Send all ads to WORKS NEWS office, Bldg. 8-2.

CLOSING DATE FOR NEXT ISSUE
Monday Noon, December 5, 1949

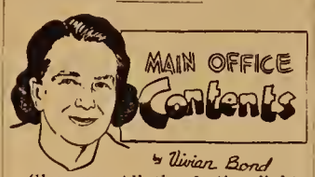
WANTS RIDE—Pauline Kaufman, from Dellwood drive, Sunnymede addition. Works for W. W. Dreyer, Bldg. 4-4, from 8-5:15. Extension 2291.



WANTS RIDE—Agnes Neideffer, from Harlan to Taylor St. Works Second Shift. Extension T-425.

THANK YOU

PERRY JEFFRIES, Bldg. 4-4, Repair and Return, second shift, wishes to thank his many friends and co-workers for their kindness and generosity during his illness.

Oral Emerick is back on days after working second shift for two weeks. He got a few rabbits hut no hird. . . . Congratulations to Herb Richter and Ruby Stoops on their recent election as Chairman and Secretary of MBA. . . . Pat Perry is buying geese these days. It seems they are all turning out to be ganders, and they say ganders don't lay eggs. . . . Charlie Englc and Herman Watters went rabbit hunting Saturday and shot two rabbits. One attacked Herman and he had to shoot it. . . . Crystal Boyd is back to work after being ill a few days. We are happy that she is feeling hetter. . . . Herb Richter went to see the ice show at Indianapolis last Friday. . . . Jackie Elder and Peggy Bandt went to Ohio for Thanksgiving and went hunting. They said they could have shot a lot of rabbits but just didn't have the heart to shoot them. . . . Maurice Roe was helping his wife get dinner Thanksgiving and cut his finger. That's a good way to get out of helping, just like when you have to help dry the dishes, after you drop a few they fire you out of the kitchen. . . . Johnny O'Neill did all right this Thanksgiving. He won a turkey, rabbit, ham and a slab of bacon. . . . Ed Fiedler came back from vacation last week and wasn't back to work more than an hour when he dropped a stator on his foot. He must have been thinking about another vacation real soon. Watch that stuff, Ed, did you ever hear of safety shoes? . . . If you run out of matches just see Ray Pickett. He will be delighted to give you a light since he wants to show off that new lighter he received for a suggestion. Ray doesn't smoke, but he's carrying the lighter for his friends. . . . Jackie Elder is the big wheel in the winding section this week, while her boss is taking his vacation. Glenn Miller is her assistant. We hope this combination won't be too disastrous that Ralph Keller won't have too much trouble getting the section back to normal. . . . We're so happy to bear our little underfed Ed Brockall won two turkeys last week. Now maybe he can put on some weight on that little skinny frame of his. . . . Little Georgie Ryan's son Jim was home over the holiday. He's in the Marines and is stationed in North Carolina. Jim and eight of his buddies decided to drive through as one lived in Dayton, four in Indianapolis and the driver in Chicago. Jim wrote his dad to meet him in Indianapolis last Wednesday at 10 a.m. George and his wife were there to meet him, hut instead of 10 it was four before they arrived. Jim was supposed to be back in Indianapolis and meet his buddies at 5 a.m. Sunday; George got him hack there in plenty of time, but it seemed the other fellows got their times mixed and shoved off without Jim. George started stewing around to find out how he could get his son back to the base. He tried every way and the only way he could get him back was hy putting him on a TWA, which George did. He said that was the first time he had 48 dollars in his pocket at one time and that was what the plane fare was, so you know the reason for those new grey hairs in George's head. . . . Louise Sinn is getting so heavy she can't walk through a narrow place anymore without tearing her clothes. . . . Congratulations to Andy Anderson. He and the Mrs. took first place in a mixed doubles bowling tournament last week-end. . . . Irene Shaffer says she has just started to live. She saw her first football game, and a couple of weeks ago her first basketball game. . . . Marguerite Stahl's daughter was married Thanksgiving day in Bluffton. From the writeup in the paper it was a big aflair. Any more information, see Ruhy Stoops as she attended the wedding. . . . Knute Melching is sporting a new pair of overalls. He's really proud of them.

Glamour: All the festive lights of the holiday season were completely outshown Wednesday night at the Prom Terrace when our Elex girls were "Queens for the Night." Being on vacation I missed the gala affair but the reports are many and varied, but good! Bldg. 18 was well represented, however, we understand that Jean Edwards of the Works Service Payroll group really bowled 'em over. Our secret reporter tells us she was "glamour personified" with her upsweep hair dress. . . . To George Waldschmidt we wish to express our sincere sympathy. We are sorry that an accident had to befall you and trust that you will soon be well on your way to recovery. . . . **Bldg. 18-4:** Dorothy Long went home last Wednesday evening and there was a really happy girl. Her address is 314 North Wayne Street, Columbia City, Ind. Don't forget her as she says it will be a long time before she is normal again. . . . Co-workers in Bldg. 18-4 wish to congratulate Carl Brandt and Virginia Worden on being elected officers of the MBA for the coming year. . . . **Bldg. 18-5:** Ed Hagadorn, traveled last week-end to a hockey game in Dctroit. What kind of weather are they having up there, Ed? . . . Hilda Hoeltje just returned from a marvelous vacation of traveling in California and Arizona. . . . Lillian Miller is vacationing this week at her home. . . . Goldia Archibold, please explain to the girls how you knock a man off his feet after meeting him for the first time. Must be your sparkling personality, humm? . . . The Pin Pals of Bldg. 18-5 bowling team are proud to report they won another game. I'm printing this because it really is news! . . . We always feel sorry for the prisoners, etc., who have to eat Thanksgiving turkey behind prison bars. Just that almost happened to H. B. Leach, not in prison, but in the Bldg. 18-1 vault. Late Wednesday he was forcefully detained in the vault. Imagine his surprise when R. J. Wiltshire calmly walked by with the retort, "Hope you enjoy your Thanksgiving dinner." Later, much later, a kindly soul from the Payroll group rescued Mr. Leach. (Mr. Wiltshire did not recognize Mr. Leach so his face was a little pink over it.)

Cottage Closing

The men, above, are shown at their annual "Cottage Closing" session, which was held recently at Herb Kammeyer's summer home. The photo of the distinguished group from the Accounting and Payroll section was taken by Ray Soughan. In the picture are: Edgar Waldschmidt, Robert Meyer, Al Berg, Phil Singleton, Bill Spahr, Dick Cullen, and Mr. Kammeyer.

BAD CONSCIENCE—Just to relieve the monotony of this humdrum life we lead, Frances Jailor decided she'd be different and pretend last Wednesday was our final work day for Thanksgiving week. Like the thorough little gal she is, she dropped her clock card in the box and proceeded homeward; but, alas and alack, up comes Friday, her conscience bothered her and she came back to work. Well, you all know the result. She had to break open the little black box, dig out her card—the only one there—and, start all over again. Life gets tedious, don't it? . . . FLIP FLOP—Irene Whelan really pulled a "turkey" last week. There she was flat on her back after a heautiful back flip in the hall and no audience. Ah, television. We could use it. . . . A BUNDLE FROM HEAVEN—Little Sir Eric Matthew, weight 7 lb. 2 oz., came to make his home with two very proud parents, Mr. and Mrs. Don Pomering. Time and place of arrival: 12:30 p.m. Nov. 25, at the St. Joseph Hospital. What a wonderful Thanksgiving gift. . . . WHAT A MAN—Can you imagine anyone blessed with the stamina of eating a cold drumstick in front of his co-workers, the day after Thanksgiving. You have heard of that adage—no rest for the wicked. This superman is Glen Stapleton. Well, he has a super capacity at least. . . . TOO MUCH HUNTING—Everyone in the Engineering File Room enjoyed their Thanksgiving Day vacation including turkey and all the trimmings. With the exception of Mary Leitch. She went hunting Thursday morning and didn't feel like getting any dinner when she returned home. Maybe the real truth is she wasn't such a good hunter. But you never know, maybe she really was tired. . . . ALMOST LATE—Joan Walter just about missed the Elex Dance Wednesday night. Joan stayed home half the evening and hemmed her formal. . . . HAPPY BIRTHDAY—to Eldon Cunningham Dec. 2. . . . GLAD TO SEE YOU BACK—It is good to see Carl Leitch back to work. Hope you are feeling better now, Carl. . . . CONGRATULATIONS—to Bob Loveland of the DC division for passing the test for a professional engineer's license. . . . BYE BYE—We are sorry to see Betty Ross, of the AC division, leave us, but it is the Development division gain. Good luck on your new work, Betty. LUCKY—Bernice Frieburger received the surprise of her life last Friday. She won a set of aluminum on a punch board. It wasn't luck, she says, it's just her new name. If you remember she was wed recently. . . . A KNITTING WE WILL GO—Besides being able to run the mimeograph machines, the girls in that section sure can knit. Nadine Junk is the kind of girl to have. She's making her boy friend a necktie. Pauline Badman is saving on her husband's expense account hy making herself a sweater, and Mary Lietch must have to cook for she's knitting pot holders. Let's hope those are for Christmas gifts though, eh! Mary? . . . FOOTBALL THRILLS—Bernice Frieburger and her husband journeyed to South Bend a week ago to see Notre Dame whip Iowa. . . . BUZZER HAPPY—Hugh Folsom is another one of those boys who forgot to grow up. Can't they make a nuisance of themselves when it comes to that file room buzzer?

Inquiring Reporter:

WHAT IS YOUR FAVORITE PASTIME?

HARRY BYALL

Taylor St.

"It is fixing up and remodeling our home. I say this due to the great interest I have taken in doing this line of work and the time I've spent planning each job to the finish."

EARLEEN STEFFEN

Decatur Plant

"My favorite pastime is reading and sewing. I like to read because it keeps me posted on things that happen every day. Next to reading, I prefer sewing inasmuch as it is a relaxation and accomplishment."

ALMA DARNALL

Bldg. 26-5

"Since everyone should have a favorite form of amusement or relaxation, the reading of autobiographies by famous world travelers is my favorite pastime."

GEORGE M. STONE

Works Lab

"I enjoy taking colored home movies, gardening, and keeping my Model A Ford 'dreamboat,' in running order. These, with square dancing and some church activities, just about fill my spare time."

EDWARD BRANNING

Bldg. 19-1

"My pastime is farming, raising hogs, etc. I enjoy this work very much."

We now have a new grandpa in the group, none other than Ernie Brown, who is rather proud of his new granddaughter. . . . I didn't hear much on the expedition of the "Three Must-Get-Theirs," Repine, Watt, and Boedeker, except that Repine couldn't decide on which side of the fence to hunt, either with Boedeker or Watt. If there hadn't been a barb wire on the top of the fence he would have straddled the fence. Anyway when he was on Boedeker's side, Watt did the shooting and when he was on Watt's side, Boedeker did the shooting. . . . Last week one cold morning there was a cloud of steam came rolling in the parking lot. When it finally cleared away there sat Jess Batchelder in ye old faithful jalopy with a big grin and remarking, "Well, I got here on time anyway." That was somewhat unusual. Jess also planned a fishing trip with his brother last week-end. When his brother called for him they decided they would go catch some minnows rather than pay 40 cents per dozen. Off they went with the nets to get their minnows. Arriving at a nice running stream they got along nicely until they came to a wide place in the stream, and Jess decided to walk on a small ledge. One step and Jess is now a member of the "Polar Bear Club." After a hurried trip home and a change to dry clothes they bought their minnows and headed for the lake. . . . Jess wasn't the only one to pick cold mornings to have trouble. Ozzie "Me Too" Nahrwold picked the coldest morning to have a flat tire. It's a good thing automobiles aren't here to stay, isn't it, Ozzie? . . . I want to report that Claude Gill had such success with that display case that he is now going to build another, but this time he has made arrangements to build it in his neighbor's garage. Claude is still looking for that pole to fit the curve in his car bumper. He almost found one, but it is for the waves in the side of his car now. . . . Jerry Knight has joined Jess Batchelder as a late arrival at work. . . . Paul Boedeker was on the receiving end of the streamlined kitty with the fluid-drive this week, and was he given a royal ride by the fellows.

Rodermund Dies

Joseph A. Rodermund, 50, died last Friday at his home, 2909 Lillie St. He had been ill since last March.

Mr. Rodermund had been an employee of the Winter St. Works since 1930. At the time of his death, he was the fire chief at the plant.

He was a member of the St. Peter's Catholic Church and the Holy Name Society. He also was a member of the G-E Bowling League and the old Crestos baseball club.

Survivors include his widow, Avis; a brother, Nicholas; 18 nieces and nephews, and eight grandnieces and nephews.

Services were held at 9:30 a.m. Monday at the Mungovan and Sons Mortuary, and at 10 a.m. in St. Peter's Church. The Very Rev. Msgr. John A. Bapst, officiated and burial was in the Catholic Cemetery.

Mastromarco Chalks Up 30 Years

Samuel Mastromarco, of the Power House in Bldg. 9, chalked up 30 years with General Electric Saturday, Nov. 26. Several of his friends joined in with their congratulations on his anniversary. In the picture are: (l. to r.) Lee Hess, Foreman; Gerald Schott, Mr. Mastromarco, Ralph Craig, Supervisor, and Pete Carpenter.

Now that the day set aside for Thanksgiving has come and gone let us all go in for a bit of reflection. Everyday should be a day of thanks for all Americans who enjoy the freedoms and take them for granted as we do. No other place in the world do people share so much of their country's goodness. Let us all pledge to preserve the ideals of democracy through our daily Thanksgiving to the God of all mankind. . . . Turkeyday played havoc with Us Second Shifters in as much as both groups that were to have been featured fizzled out at the last minute. Next week, however, we hope to get a line in Bldg. 26-3. Today it will be short. . . . We heard from Bldg. 4-5 that Mary Berger promised Deerburgers to the gang up there, but her better half didn't hold up his end of the bargain. He didn't get a deer. . . . Our good friend Al Kissinger, Bldg. 4-5, etc., is going out and do a little hunting during his third week's vacation. . . . Practical jokers had a field day at the expense of Bob Shoemaker, Bldg. 4-5. It seems that Bob had a ticket on a new Ford and got a telephone call. Nuff said. . . . We are very happy to report that Perry Jeffries, Bldg. 4-4, is on the road to recovery after being laid low by pneumonia. Perry will be confined around home for a week or so yet. . . . The softball award jackets arrived and it looked like half of the team's in Bldg. 17-4. Chuck Stone, Kenny Ford, Clarence Koepke, and this writer displayed the snazzy reversible jobs given by the club this year. . . . As yet we have to see the first group of people to see the Owl basketball league in action. You are missing a bet if you don't see this ball team play. The games are 9:30 and 10:30 every Tuesday morning at your G-E club gym.

Merrill Is Granted Patent For Improvement In Design

F. W. Merrill

A United States patent has been granted to F. W. Merrill on his invention of an improvement in the design of alternating current generators of the amplidyne type.

Mr. Merrill is a consulting engineer in the Fractional Horsepower Motor Engineering divisions, where he has been employed since 1922. His invention consists of the addition of a double interpole winding on the AC amplidyne generator, which effectively neutralizes the transformer action between the quadrature axis flux and the armature coils short-circuited by the brushes, without allowing the interpole flux to act as a control flux. Fifteen claims were allowed in connection with the invention.

This is Mr. Merrill's twenty-fifth patent.

Thieves stole an assortment of musical instruments from a music store. Instead of an all brass band, they could have an all steal.

A big thank you to Earl Stauffer for his window paintings. It helps bring the holiday season close and reminds us all to get our tickets for the big party on the 17th. There has been this one change. Tickets will sell for $1 each which is welcome news to all. Any one of the following people will be glad to see that you have all the tickets you need: Morrie Snyder, Ralph Hardy, Larry Reed, Norb Lose, Henry Roemke, Esther Hakes, Jim Smith, Clarence Nussel and Harold Moore. . . . Note to all former Bldg. 17-4 folks. Come join the fun and meet the old gang. Tickets will be available at the party, so see you there. . . . Folks, here is another announcement of importance to us all. Marion Williams, who worked with us as an assembler, is in the Methodist Hospital, a polio patient. He is very ill and many of the group would like to help him in some way, so next week a box will be circulated for him and anyone wishing to contribute to a worthwhile cause can do so then. . . . Ray Solga dialed the D. R. number instead of the telephone number and then wondered why he couldn't get the party he wanted. Carroll consoled him after he admitted what he had done. Guess the boss man had made the same mistake before and experienced that absent-minded professor feeling. . . . Visited with Harold Moore and he is rapidly getting back into condition. He wishes to express his thanks to all who had a part in the gift that was presented to him. . . . Rolland Miller and John Putman went rabbit hunting but a bull got them instead. "Nuff said." . . . Cy was seen giving Ray Jones a personal demonstration with his new electric shaver. Such service. . . . Bob Goers has been "eyeing" those new Fords. He even had the lucky ticket, he thought! . . . Here is a very hush-hush rumor. We heard it whispered that Cy's Lincoln is in the garage already. Is it possible? . . . Herb Buck is very unhappy about his Cleveland Indians. Should we cry with you? . . . Dick Seidel is having his troubles with his hunting dogs. He has only one left and even that one is disappointing him, oh well, the season is nearly over anyway.

WORKS NEWS: If you did not get a copy a week ago last Friday the reason was Ray Kierspe's picture. After Ray found out his picture made the NEWS he gathered up all the copies he could get his hands on. We surmise he took them to Sunday School to show all the boys and girls what a fine looking brat he was in his day. However, we interviewed Priscilla Thrasher and asked her this question, Don't you think, Pat, that Ray is a nice looking fellow? Pat's reply "He was." Your reply, Pat, was 100 per cent correct. Why is it that some people have to grow up so homely? Seems next to impossible. . . . CONGRATULATIONS: To Jean Phillips who had a birthday Tuesday. . . . WELCOME: Don Reed to our Cost section, hope you will like us, Don. Also congratulations on your new son, who we understand was born Sunday, Nov. 20. . . . HOSPITAL: Kermit Agler and John Bailey recently underwent operations. Hope to see you back soon, fellows. . . . TOBACCO—APPLE: Bill Rohe, who recently had his molars cleaned, now gives us another recipe to clean them after you have been chewing tobacco. Bill says, "Just eat an apple, but make sure you eat pealing and all." Tobacco chewers try it some time and let us know if it does the trick. . . . NOT THREE BUT TWO O'CLOCK IN THE MORNING: Wimpy Lemper called Bill Rohe on the phone to figure out his pension for him. Wimpy said he just rolled and tossed and could not get a wink of sleep worrying about his pension. Our Bill with every thought for his fellow man advised Wimpy to go to sleep and that he would take care of everything. After all he had 20 some years to figure it out. . . . OUR DEEPEST SYMPATHY: To the family of Joseph Rodermund. Joe was fire chief at our Winter Street works and a schoolmate of ours. May God grant him eternal peace and happiness. . . . CHRISTMAS PARTY: Don't forget to get your tickets for the Children Christmas Party. It's always been a swell affair. So don't miss it this time. . . . SO MANY PACKAGES: Were floating around last week that Porky (Aaron) Schoenefeld was actually afraid to open up the one he got. He first dumped it in the waste basket. On second thought he opened it up and sure enough it was pieces of manila rope he had been looking for. Some of the packages and receivers were Al Swift, part of a horse (three times); Lou Maier, a small rat with a red ribbon around its little neck, and yours truly, a coon's foot. . . . WHAT NO G-E IRONERS (Hope.) . . . THAT OLD BUZZARD: Bill Glenn went to the Elex Dance at the Prom Terrace instead of showing up for bowling, and all the time we thought he was feeling bad. We got a way of finding things out, Bill, old boy.

B. Somers of the Trowels, Masonic League, remains in the groove. He came through with another 600 series Tuesday evening. He got a 602 on games of 213, 208 and 181.

Two hundred scores were rolled by: Ed Crahill, 234; Somerville, 215 and 211; Jones, 203; H. Smith, 226; Schaberg, 211; Archer, 205; Howard Hickman, 210; H. Somers, 201, and K. Moore, 201.

Doric took over the high single game from Composite, with a 966 count. Fellowcraft is in front of the pack by two full games.

Office League

The boys waxed hot Monday as Erv Aumann, Bill Piercy and Hal Fanning came through with 600 counts. Erv's 189, 257 and 183 for a 629 headed the list. Bill Piercy had 192, 221, and 198 for 611; and Hal Fanning, 211, 220, and 175 for a 606.

Two hundred scores were made by: Paul Perry, 216; Don Waldrop, 215; Bob Kallmeyer, 214; Wade Tyler, 213 and 204; Ife Holmes, 212; Orval Doherty, 202, and Frankie Schlink, 202.

Apprentice League

Joe Haas came up with the only 200 count of the evening, a 202 talley.

The Compasses are out in front in the league standings by five full games.

Interdivision League

Erv France of the Wire and Insulation team had the only 600 count of the evening, a 608 on games of 191, 194, and 223.

The Broadtails continue to lead the pack. They are out in front by two games over Brouwer Tire and Battery team.

Two hundred scores were kegled by: Paul Walker, 213 and 200; Leo Elward, 202; Forester, 212; Rudy Zelt, 204; Noah Kuntz, 209 and 204; E. Dickey, 211; Murry Johnson, 210 and 203; Frank Matthews, 211; Les Shroyer, 204; Frank Kopp, 203 and 214; W. Ort, 227; L. Putman, 230; Oscar Schelper, 205, and Bob Cuney, 205.

Decatur Bowling

G-E FRATERNAL LEAGUE: Laurent got a 612 series on games of 207, 202, and 203. Two hundred games were made by the following: McIntosh, 236; Faulkner, 214 and 203; G. Schultz, 205; Leonard, 215; A. Miller, 213; J. Murphy, 201; Schneider, 209; Gilliom, 205; L. Hoffman, 202, and P. Hoffman, 203.

Chet Kleinknight came up with the evening's oddity, a three-game series of 111, 111, and 111.

MONDAY NIGHT LEAGUE: The Office won three games from Stators, while Flanges took two from the Inspectors. K. Jackson had the only high game of the evening, a 205.

Bowling and Stuff

It isn't too late to enter the Mixed Doubles Tournament. Come down to the Club alleys Saturday. Squads will be howling at 3:30, 6:30 and 8:30 p.m. Entry fee is $4 per team and includes the price of bowling.

Anyone has a chance to win as I understand that the Leo Almandingers will be unable to make the tournament.

There are plenty of openings on all squads and entries will be accepted right up to starting time. Keghead will be looking for you Saturday. You can howl as many times as you wish, providing you change partners.

If there are no liberties left, perhaps it's because everybody is taking them.

Apprentice Machinists Score Three Victories In Volleyball League

The Apprentice Machinists defeated the Apprentice Draftsmen three games Wednesday, Nov. 28, to lead the Interdivision Volleyball League. Scores for the games were: 15-8, 15-4, and 15-11.

Taylor St. handed Winter St. a three-game defeat on games of 15-9, 15-4, and 15-12. The Main Office team beat General Tool for three games. The scores for this series were 15-2, 15-7, and 15-3.

The Small Motor team also won three games from the Squares. The scores for their match were: 15-4; 15-0, and 15-5.

G-E Club Wins Two Thrillers

The G-E Club Industrial Basketball team found the going rather rough in their first games of the season and dropped one, but came back to win two.

Unable to hit from the field with any consistency, the G-E Club lost their first league game to Indiana Rod and Wire, 27-31.

In a YMCA Industrial League game, Tuesday night, Nov. 22, the G-E Club shaded Worthman Builders in a 29-27 thriller.

Lew Goehring and Dick Bucher sparked the G-E Club attack with eight points each and Jim Walley played a good game at guard. Crist led Worthman Builders with eight points.

The G-E Club played a league game Tuesday night, Nov. 28, and won a 39-37 thriller over Magnavox. Dick Bucher hit a field goal in the last three seconds, putting the G-E Club out to win.

Magnavox took the lead early in the first quarter. Then the G-E Club came roaring back late in the second on two quick baskets by Walley and Trabel and were trailing 16-14 at the half.

G-E took the lead early in the third quarter, as Lew Goehring started to hit the next with consistency. Magnavox closed strong and had a 29-26 edge at the end of the period. The final stanza was a wild affair in which the lead changed hands nearly every basket.

Dick Bucher gave the Club a 36-35 lead with 50 seconds to play, but Arnold hit for Magnavox giving them the edge again. Bucher came through with a free throw and then a few seconds later hit a hook shot from the side to give the G-E Club the victory.

The G-E Club will play St. Joe AC Monday, Dec. 5, at the club gym at 8 p.m. They play Farnsworth Tuesday, Dec. 6, at New Haven gym at 8:15 p.m. in another YMCA League game.

"I'm Mr. Webb's brother-in-law. I believe he's expecting me"

COPYRIGHT 1949 CARTOONS OF THE-MONTH

Monday evening the Firemen won their first game of the season by defeating Transformer, 38-25, in the Interdivision Basketball league.

Transformer led for the first half. At the end of three quarters, the Firemen had a two-point lead. In the last quarter, the winners took command and out-seored Transformer, 14-3. It was Transformer's first loss.

Winter St. beat the Apprentice School, 52-35, to bring their average up to .500. The Apprentice team, playing with only five men, gave them a battle all the way; but tired in the last quarter. Hanely, Winter St. forward, was the big man for the winners, getting 19 points.

The Traffic men downed the Test Engineers, 39-23, to take the league lead with two wins and no defeats. The TE's, playing the whole game with no substitutions, were out-manned and could not withstand the last-half drive of the victors.

Bob Dickson, Test Engineers manager, needs two or three more men to fill out his squad.

G-E Owls Down Eckrich, 55-25 To Head League

The G-E Club of the YMCA Owl basketball league racked up its third victory Tuesday morning by beating Eckrich, 55-25. The Zollner Pistons won the second game from Indiana Rod and Wire by the score of 32-24.

Warren Wickliffe led the way for the G-E Club by canning six baskets and a free throw for 13 points. Bob McKeeman and Arle Anders shared high-point honors for Eckrich with seven points apiece. Harry Schrimp returned to the Zollner lineup and led his team with 14 points. Dick Sowers and Junior DeLong had seven each to lead Indiana Rod and Wire.

OPEN BOWLING
3 to 11 P.M.
SATURDAYS
At the
G-E CLUB

We welcome back to work one of our fellows who thought the only way to prove he wasn't getting old was to have the measles. This fellow is none other than Elmer Sauerwein. . . . We all extend our deepest sympathy to Joe Mettler in the death of his mother. . . . We heard that Art Dicke was mashing potatoes that were still boiling while hanging from a chandelier. Art says he was climbing down a ladder by the kitchen stove and accidently stepped in a pot of boiling potatoes. . . . Helma Conrad is seen at the Zollner basketball games every week. However, this person notices everytime they call for women to shoot fouls at the half time, Helma seems to take a firmer grip on her seat. What's the matter, Helma, ya afraid you'd outplay them? . . . When Julian Franke walks down the aisle you hear all sorts of Indian war hoops. Could anyone be casting reflections on the City Council duties? . . . Mrs. Hoffman wonders how Frank gets all those wrinkles in the fenders of his car. . . . If there is anything more confusing than those new wait and walk signs uptown, Russel Sage would like to know just what it could be. Russel said the other day the lights had him so befuddled, that he was ready to climb a pole and call for help. . . . One of the flashiest winter jackets that has been sported thus far is that of Steward Bohrer. Sure makes you look younger, especially with that Sherlock Holmes' pipe. . . . Ray Mutton charged out a crescent wrench at the tool crib the other day, started to use it when he saw sometbing on his hand that looked like blood. Just when he was ready to rush to the doctor's office, he discovered that it was red paint off the handle. . . . Here's what the fellows did on their vacations: Cliff Clapesattle went bird hunting down by the Ohio River. Karl Zurcher spent his resting at home —'cept fer a few odd jobs. One that nearly got him down was patching his roof. The disgusting thing about it is that is still leaks —must have patched the wrong spot. John Ebert and Al Nehbur did a lot of rabbit hunting on their vacations. . . . Is Bill Jones going to take up flying next as a hobby? We are not too sure but we were told that he made a perfect three point landing on his stairs a week ago. And not only that, but he has the marks to prove it. . . . Here is one for the books and to think that we had to wait two whole weeks for it. John Hensler was walking slowly through the park after work to meet the boys at the parking lot, when he saw a large squirrel coming his way, but John figured that it would run past him. The squirrel, however, started up John's leg to get to his dinner pail which contained some limburger cheese. I thought squirrels had better judgment than that. So he pushed Mr. Squirrel down, but up he came again. John went home that night and told his wife to send a handful of nuts along the next day. Now he is playing the part of a Good Samaritan and feeds the squirrel every morning and night.

Every woman always gets just what she wanted for her birthday —and can hardly wait to get downtown and exchange it.

Party Is Held For Florence Purdy

Florence Z. Purdy, Bldg. 26-5, second shift, retired recently after six years' service with General Electric. On her last day at work, Wednesday, Nov. 23, her friends in the Transformer division gave her a going-away party and gift. In the picture above are: (l. to r.) Mary Schmenk, Alma Berger, Ritz Zuber, Blondie Frankart, Paul Peterson, Dorothy Meyer, Mrs. Purdy, Christina Burns, and W. E. Blalock.

Pick-Ups

Bldg. 26-3

By Elvira Romary

A horse can't pull while kicking
This fact I merely mention:
And he can't kick while pulling
Which is my chief contention.
Let's imitate the good old horse
And lead a life that's fitting
Just pull an honest load, and then
There'll be no time for kicking.

Have you heard Frenchie Chilicote's rendition of "Mule Train?" Believe me at 6:30 in the morning it is ear-splitting. . . . Les Redding has once again walked out with Ed Bangert's top coat. Come, come, Les, not when it is so cold outside. . . . What's this about Linda Werling having a round with a chair? It must have been a great fight, because Linda ended up on the floor. . . . It seems the "little old bug" got hold of Kenny Saalfrank and now he's engaged. Will the wedding bells be in the near future, Kenny? . . . We believe Dorothy McGowen needs something for nerves. She pours coffee and then spills it. For shame, Dorothy, and the price of coffee now. . . . Ruth Schmidt has her troubles. She brings foods rich in iron for her lunch only to have the jars break when heated. Wouldn't it be easier to take iron tablets, Ruth? . . . Second trick winding section wishes to welcome Carol Telschow and Lora Summers, and also Vilora Schnepp who returned from sick leave. . . . Levi Carpenter and Harry Bratton just returned from their third week's vacation. . . . Lola Brunner and Vera Hoover are studying home decorating. They can be seen pouring over ideas at most any time. . . . As the conversation got around to Chinese checkers, Lena Forker proceeded to explain that she still has all her marbles. . . . We wonder if Ernie Clark has been racing his motor. He reported a dead battery last week. . . . Any excess weight on John Collins is from the chicken he won. . . . Peggy Reynolds is practicing up on her housekeeping.

P. C. CHENOWETH RETIRES WITH 37 YEARS' SERVICE

P. C. Chenoweth

Pearl C. Chenoweth, FHP Div. 14, left yesterday for retirement after 37 years of service with General Electric.

Mr. Chenoweth first began his G-E career in 1912 as a punch press operator. Since that time he has been a shear operator, metal maker, and a set-up man. At the time of his retirement, he was a set-up man on punch presses at Taylor St.

We wanna know why. . . . Whitey Lieberenz bought an erector set for his little boy, but who has used it more than Whitey? . . . "Lucky" Earl Bartling won the football pool on Saturday's Army-Navy game. The rest of us get so tired of "just donatin' our money." . . . Carmella Raucci has been voted the fashion-plate of Bldg. 26-3. Everyday it's a different outfit.

About half of the men are flatterers, says a writer. The other half must he husbands

Corn S'talks

TAYLOR ST. SHIPPING

·Greetings from Ya Houdies. . . . Our little news-gatherer, Gloria Geesaman, has left our ranks to enter a new career over in Bldg. 4-6. We certainly miss her. Her last request was for someone to take over the column, sooo several of we girls are offering our services in keeping the column alive. . . . Sorry to say we have lots of bad news this week. First off Katy Richter and her husband were called home Wednesday as Katy's mother was quite ill. They arrived back Sunday with the good news her mother is greatly improved. . . . Next we are concerned over the continued illness of Mary Caruso. Hope to see her back shortly. . . . Mother of Hillis Colby was admitted to the St. Joseph Hospital for treatment. She is feeling much better and hopes to come home soon. . . . Glad to hear Mary Nelson's father is home again and well on the road to recovery. . . . Judy Connin, daughter of Delores, came home Sunday from the hospital. She's much better. . . . Seems all the bad news is like the old saying "every cloud has a silver lining" which is quite true in the above cases. . . . So perhaps 'tweren't so bad after all. . . . Please take note. Visit our section for canasta lessons. Alice Uffelman, Helen Reisscr, and Clarence Schaeffer are the experts. Every noon finds them engrossed in this new rage. . . . We are proud to have in our midst Maurice Petgen, who has recently been elected chairman of the MBA for the coming year for the Taylor St. offices. . . . Gregory Peck has certainly made himself a hero in the eyes of "Pearl" Waterman (nickname for Pat Waterman) ever since seeing the movie "The Great Sinner" Gregory is her main topic. . . . Bonnie Swain looks quite charming with her new look haircut. Hated to see those curly locks cut off tho'. . . . Little Helen Tarlton is leaving us this Friday. Hope she can be back soon. . . . You know the old saying "A good foundation is a good beginning"? Well Marge Gordon is thrilled. Work has commenced on the foundation of her new home. . . . What can be the cause of the sparkle in Barbara Reeb's eyes? We wonder Hmmm? . . . The scales out in the Packing section really takes a beating. Three little gals who worry about their weight are Jean Carroll, Barbara Reeb and Gladys Cleland. They get weighed both before and after lunch. That's watching it pretty closely don't you agree? . . . Gladys Cleland is leaving us for another division. Sure sorry to see her go as she is really loads of fun.

Courses Offered By Purdue Tech Are Announced

Winter term offerings of the Purdue Technical Institute beginning Dec. 12 were announced today by Dr. R. M. Bateman, district manager, with opening of pre-registration for the coming term. Continuing on an afternoon and evening schedule, the Technical Institute will offer certain courses of particular interest to industry and commercial businesses, as well as the regular required curriculum courses.

Four two-year programs of study are available in the Purdue University Center Technical Institute. These include: Building Construction Technology, Electrical Technology, Industrial Technology and Drafting and Mechanical Technology. Students can complete these courses on a part-time or full-time afternoon or evening program. Three 12-week terms are available during the school year.

Afternoon courses to be offered during the winter term are: Technical Drawing, Machine Drawing, Graphical Computations, Tool Design, Introductory Chemistry, Algebra, Review of English Grammar, English Composition, Psychology Applied to Industry, Building Materials, Quantity Survey, and Fundamentals of Industrial Production.

Evening courses are scheduled to include: Plan Reading, Architectural Drawing, Architectural Details, Specifications, Machine Drawing, Tool Design, Advanced Machine Drawing, Fundamentals of Mechanics, Dynamics, Industrial Materials and Processes, Math: Arithmetic, Algebra and Geometry, Trigonometry, Quality Control by Statistical Methods, Physics: Heat, Physics, Electricity, English Composition, Fundamentals of Practical Speaking, Personal Adjustment, Psychology Applied to Industry, Principles of Organization and Management, Operation Planning, Production Cost Analysis, Human Relations for Supervisors, Job Evaluation, D.C. Circuits and Machinery, Motion and Time Study, and Successful Salesmanship.

Additional information concerning registration procedures may be obtained by calling or writing Purdue University Center, Jefferson at Barr, Anthony 3171.

Stamp Out TB

Buy Christmas Seals

Human Relations Is Topic Of Speaker At G-E Dinner For Foremen, Supervisors

"The only original contribution America has made to the world is mass production," stated Fred Smith, Vice President of the William Powell Valve Co., Cincinnati, O., in his address to members of the Foremen's Association and Supervisors' Club at their semi-annual dinner Wednesday evening in the G-E Club auditorium.

G-E Squares Club To Hold Christmas Party Dec. 21

The G-E Squares Club will hold its annual Christmas party for children at 7:30 p.m. Wednesday, Dec. 21, at the club rooms. The program will include comic movies, singing, and an appearance by Santa Claus.

Capacity Crowds Are Expected At Children's Christmas Party

Members of the G-E Club's entertainment committee are shown, above, attempting to mail a giant invitation to Santa Claus so that he will not forget to attend their "Kiddies' Christmas Party" Saturday, Dec. 17, in the G-E Club auditorium. Members of the committee are: (l. to r.) Gayle Griffith, Bill Glenn, Art Brockmeyer, Ken Michael, Joseph Gardt (kneeling), Glenn Seabold (kneeling), Ralph Heminger, chairman; Kenneth Redding, Buck Buchan (kneeling), Gordon Smith, Catherine Gardt, Belle Buchan, and John August. Joe Wyss and Mamie Allen were not present when this picture was taken.

Early ticket requests indicate capacity crowds again this year at the G-E Club's annual "Kiddies' Christmas Party" Saturday, Dec. 17.

The free tickets are available in the G-E Club basement, at the Taylor St. employment office, and from members of the entertainment committee.

A professional talent show is being booked for the party, which is staged each year for all G-E employees' children under 13 years of age. Performances will be given at 10 a.m., 1 p.m., 3 p.m., 5 p.m., and 7:30 p.m.

A limited number of tickets are available for each of the five performances. Adults do not require tickets for themselves, but are requested to attend only if they have children too small to attend alone. Because of the great demand, extra tickets should be returned and employees are urged to ask for tickets only for their own children.

Two acrobats, The Jumping Jupiters, have been booked for the show, which will also include a clown and a musical quartette

Company Suspends Proposal

Willing To Resume Negotiations After NLRB Issues Ruling

In a recent statement to supervisors, the Company has outlined its position with respect to the conflicting claims of the UE and IUE-CIO as to which is the proper bargaining agent for employees covered by the UE-CIO contract.

Quoting from a letter sent by George H. Pfeif, Manager of Union Relations, to Joseph Dermody, of the UE, the statement said:

"As indicated in our meeting today, further study since the November 17 meeting of the legal problems involved has only confirmed the previous opinion of our counsel that the Company would

VACATIONS, 1950

Salaried And Hourly Rated Employees

The Broadway and Taylor St. Plants will close Saturday, July 29, 1950, for two weeks for vacation purposes, reopening for usual operations on Monday, Aug. 14, 1950.

It is expected that this vacation shutdown will be as near 100 percent as possible.

Some employees will be required to work during the shutdown period as follows:

1. It will be necessary for some few employees to work in order to protect the plant.
2. It may be necessary for some operating divisions to maintain a small skeleton force.
3. It also may be found practical to utilize this shutdown period for the completion of some physical rearrangement of facilities or the accomplishment of some essential maintenance work that cannot be done effectively in the usual working periods.

In all cases, Division Heads will arrange for this work and will notify those employees who are needed to be present during the shutdown period as far in advance as possible.

In accordance with the vacation plan, employees entitled to a third week of vacation will schedule this week immediately before or after the shutdown period; however, by mutual agreement, the third week may be scheduled at some other time.

Those becoming eligible for vacation allowances after the shutdown period and who were absent during the shutdown will not be required to take additional time off but will receive full payment when they qualify.

C. S. Matson
Works Manager

Note: The above also applies to the Decatur Plant.

Members Of Plant Protection To Hear Talk By Inspector Of Detroit's Arson Squad

Roderick K. Goeriz, detective inspector of the Detroit Arson Squad, will speak at the Plant Protection division's winter banquet Tuesday night, Dec. 13 at 6 p.m. in Bldg. 16-2 cafeteria. The announcement was made today by E. M. Hanauer, G-E Fire Chief.

Annual Christmas Party At Decatur To Be Held Sunday

A program designed to delight every age group has been planned by the Decatur G-E Club for its annual Christmas party Sunday afternoon, Dec. 11.

The program, featuring Christmas music, plays and a movie, will be held in the Junior-Senior high school auditorium. The hour-long party will start at 3 p.m.

The Aeolian Choir and a piano duet will provide the musical portion of the program. The plays will include the story of the "Three Wise Men" and their visit to the manger-crib and a skit in which Santa Claus gets fooled by an impish mouse, who gets more in a little boy's Christmas stocking than Santa can.

A movie short, "A Tiny Child Dreams A Christmas Dream," will complete the program.

Company's First Drafting Class Commemorates 30th Anniversary

Ten members of the original General Electric drafting class gathered Saturday evening at the Hotel Van Orman to celebrate its 30th anniversary.

In attendance at the banquet were: Philip Current, E. F. Ginder, V. L. Gingher, Leroy Haifley, Harry B. Keller, O. L. Mensch, Paul Sutter, Charles P. Thompson, Walter Whonsettler, and Glenn McNutt. Mr. and Mrs. William J. Hockett were honored guests.

Harry Keller was elected president and Vern Gingher, secretary, during a short business session. Then the meeting was opened to a reviewing of old acquaintances and general reminiscing.

The class was started in December, 1919, just after World War I,

(Continued on page 4)

TODAY IS DEADLINE FOR RESERVATIONS TO ELEX CLUB PARTY

Reservations for the Elex Club's annual Christmas party must be made today with contact girls. The party, which will feature the Harmonicats, will be held Thursday, Dec. 15, in two sections. The day girls will attend the program at 8 p.m., while the night girls' program will be at 12 midnight.

Let The Suggestion Committee Be Your Year-Round Santa Claus

Throughout the year all of us get all kinds of demands to be something of a Santa Claus, with the pressure greater as Christmas approaches. We even look to outside sources to supplement our budgeted funds for Yuletide buying.

And yet our failure to "cash-in" on day-to-day ideas we have for suggestions on improving Company operations has us passing up a year-round Santa Claus—The General Electric Suggestion Committee. For turning in a suggestion, which might result in savings to the Company, could earn a check award from the committee. Last year eighteen thousand employees of the Company earned checks for their adopted suggestions.

There is no limit on the number of suggestions you can submit. Make yourself suggestion-conscious all through the year and be one of the many to get a slice of that Suggestion System pie.

TODAY is the day to turn in YOUR latest suggestion.

American Bible Society Seeks More Readers Of 'Best Seller'

While the Bible has long held place as "best seller," there is some question as to whether it is read with the frequency and regularity it deserves.

These few weeks preceding Christmas have been designated for world-wide encouragement of Bible reading, under national sponsorship of a laymen's committee, in cooperation with the American Bible Society and state and local societies.

This movement, now in its sixth year, was started as the result of an incident in World War II. A lonely Marine on Guadalcanal wrote to his mother, asking if she would send him a list of daily Bible readings, so that he might be reading the same verses each day that were being read back home. She told a Bible society secretary about the request—and as a result the idea grew rapidly.

The American Bible Society, founded in 1816, issues approximately 10,000,000 volumes annually, of which more than half go overseas. Through the years more than 385,000,000 copies of the Bible, in more than 275 languages and to more than 40 countries, have been distributed directly by the society.

Sunday, Dec. 11, has been fixed as "Universal Bible Sunday," marking the peak of encouragement of Bible reading, with many churches participating.

Here Is An Opportunity For You To Help Make Christmas Last

There is a little girl in the neighborhood who every Christmas begs her mother to let her stay up late so she can "hold on to Christmas."

All of us want to hold on to the good things of life, to make Christmas last.

And we can make Christmas last—not by holding back the clock but by doing a deed that will serve a good purpose the year round.

We perform such a deed when we buy and use Christmas Seals, the Seals which are sold once a year by the Tuberculosis Association of Allen County to raise funds to support its year-round program of tuberculosis prevention and control.

Christmas Seal funds make possible many worth-while projects in the county.

When we buy Christmas Seals we are performing a service for our neighbors and for ourselves, for we are helping to protect our community from tuberculosis. We are doing what the little girl tried to do. We are "holding on to Christmas."

TOOL BITS

BLDGS. 19-4&5

by Harry Travelbee

Lloyd Welbaum is the newly elected secretary-treasurer of the Wayne Rose Society. . . . Marion More is having difficulties locating his news boy. He's been without his Sunday paper three weeks in a row. We suggest contacting the bureau of missing persons if your paper boy doesn't show up next week. . . . Ren Getty and Red Doster have decided to leave the well drilling business to someone who doesn't have to drive four or five times or break off the pipe half way out. . . . Bill Jones left us last week to return to the Apprentice School. While in Bldg. 19-5, he acquired that proverbial habit of coming in the west Broadway gate every morning. So sure enough, Monday morning he walked in the gate toward Bldg. 19 with John Hensler, but as John asked him why he was coming back to Bldg. 19-5, Jones turned a lovely Christmas hue (red, that is) and made a reverse turn to Bldg. 12. Nice to have you back, Bill. . . . If Don Alcott doesn't stop bringing those combination onion and braunsweiger sandwiches to work, the boys are going to call him Little Ramsey. Maybe Don thinks those sandwiches will give him strength to crawl out from under his house where he has been working. . . . By the way, John Hensler, what has happened to your friendly pet squirrel that always met you in the park? We just wondered as we saw you giving away a handful of nuts to one of the boys in the lathe section. . . . We believe that Herb Thiele has missed his calling. He should be a salesman because he had John Roemer believing that Ren Getty, another party and himself got 14 rabbits last Saturday. However, Ren gave forth with the truth cuz he was unaware of the tall story. . . . The boys in the Bridgeport mill section think that Herb Thiele has Bing Crosby topped as a singer on at least his "Mule Train" rendition.

Information Clinic

QUESTION:

Why can't we purchase parallel circuit (110 volt) Christmas tree bubble-lites and strands at the Employees' Store? They are available at local dealers.

ANSWER:

Because of the very small demand that there has been for this type of bubble-lite, the store has not carried them in stock. However, these strands are available at discount to all employees and can be secured in a few days after the order is placed with the store clerk.

Human Relations

(Continued from page 1)

Mr. Smith explained that in spite of the rapid development in this country of material wealth, "management became so involved in the things which they were creating that they had little time for the millions of creators—the workmen." Thus, he added, "the art of living began to lose pace with the standard of living."

The speaker attributed the industrial unrest as it is currently developing to the lessening of personal contract, personal knowledge, individual pride in the finished product, and personal security.

To combat these detriments to employee morale, he suggested that "the same management that has developed ways of eliminating the natural friction in high-speed machines must also learn to eliminate the friction of the human machine."

Mr. Smith then stated, "Industry must be the development of people, and the development of people depends upon accenting the individual."

In surveying the heights to which American industry and the American people can move together, Mr. Smith stated:

"We (in management) must come to the realization that while industry in the past may have been regarded as the 'management of things,' it must now be the development of people. Industry can best be built by the development of better people and in turn these better people will build better industry. We in management may dream and plan for bigger and better industry, but the realization of this dream and plan depends upon our making the employee believe that we earnestly and consistently practice good human relations, which is simply the art of togetherness."

Mr. Smith was introduced by L. C. Swager, Assistant to the Works Manager.

Ivan Rinehart, president of the Supervisors' Club, acted as chairman of the meeting and introduced Everett Lindeman, president of the Foremen's Association, and C. H. Matson, Fort Wayne Works Manager. Mr. Matson briefly reviewed business conditions of the past and presented an optimistic outlook for the coming year.

Apprentice BROADCAST

by MILDRED ELLIS

The fellows have decided that Bob Barnes and Jim Pugh missed their calling when they didn't become politicians. The way they present their arguments to each other is truly an art that shouldn't be wasted. . . . Some people get tired of eating the same kind of sandwiches week after week—but not John Clendenen because his wife likes to break the monotony by fixing little surprises for her husband. One day last week it was a bread sandwich! . . . Fremion and Bergman are feuding again. This time Wayne was kind enough to clean Harold's lighter—by dunking it in a glass of water, naturally Harold had to return the good deed. He fixed Wayne a very special mixture for his pipe by adding very small pieces of rubber bands to his tobacco. I wonder how they would treat each other if they weren't such good friends? . . . Mr. and Mrs. Joe Rowan had an exceptional wedding reception. The very fact that Joe decided to go double permanently is, in itself, an exception according to some of his friends. Everyone who attended had a very enjoyable time. It was like a reunion insofar as meeting friends one hadn't seen for some time. The wedding cake was indeed worthy of mention not because it was as big as a wash tub, or as tall as a man, but because of an exceptional design. It was made in the shape of a big cross with the chapel, Priest, bride and groom and candles in the center. The long way of the cross was representative of the church aisle with the bride and attendants in true fabric and colors coming up the aisle. The golden colors of the fall season really gave it a closing touch. An orchestra provided music and Skeets Lahrman got so carried away by the hypnotizing rhythm that he cleared the floor and with the guests forming a circle of silent amazement, he went into the traditional high dance of the Lahrman clan. The dance consists mainly of skipping and bobbing with plenty of high forward kicks. Since Skeets is getting older, he didn't climax the dance with the unusual trick of kicking both feet above his head at the same time as it is too hard on his back. Joe and Joan went to the Smoky Mountains on their honeymoon.

FHP Divisions Announce Three New Appointments

E. J. Vosburgh

R. J. Duras

J. B. Margerum

Eldon J. Voshurgh has been appointed Assistant Superintendent of FHP Div. 14, Taylor St., F. H. Campbell, Superintendent, announced recently. The appointment became effective Monday, Dec. 5.

A 1929 graduate of Tri-State College, Mr. Vosburgh has a BS degree in electrical engineering. He began his General Electric career in 1929 as an operations planner. He later became a methods tool planner.

In 1938, Mr. Vosburgh was appointed Supervisor of Planning and Wage Rates for FHP Motor Div. 15 and held that position until 1948. At that time he became Assistant Supervisor of Planning for the FHP Motor divisions, coordinating all manufacturing activities on the armament program.

Mr. Voshurgh is a member of the Squares and Supervisors' clubs. He is married, has one daughter, and they reside at 4721 Beaver Ave.

Robert J. Duras has been named Assistant Supervisor of General Planning with specific responsibility for Manufacturing Development projects, it was announced recently by W. K. Williams, FHP Manufacturing Engineer.

Mr. Duras is a 1941 graduate of Pennsylvania State College, with a BS in electrical engineering degree. He entered the Company's test and sales courses at Schenectady and then came to Fort Wayne in September of that year. In April, 1942, he was assigned to the FHP Motor Sales division, and several months later transferred to Kokomo as Supervisor of Test in the Motor and Generator division.

Returning to Fort Wayne in 1944, Mr. Duras then held the position of Assistant to the Supervisor of Inspection, FHP Motor divisions. On April 19, 1945, he became Supervisor of FHP Inspection. His next appointment, Supervisor of FHP Cost Reduction, was made in March, 1948. The following October he was made Supervisor of Cost Reduction and Expense Control, the position he held before his recent appointment.

He is a Professional Engineer, practising in the State of Indiana; a member of the AIEE, Fort Wayne G-E Engineers, Squares and Supervisors' clubs. Mr. Duras lives at 108 W. Masterson Ave.

Effective Monday, Dec. 5, John B. Margerum was appointed Supervisor of Cost Reduction and Expense Control for the Fractional Horsepower Motor Manufacturing divisions, it was announced by L. W. Kuttner, Assistant Manager of the Fractional Horsepower Motor Manufacturing divisions.

Mr. Margerum came to General Electric in 1942, following his graduation from Pennsylvania State College with a BS degree in industrial engineering. He was first assigned to the River Works on the test course, coming to Kokomo on test in 1943.

In December of that year, Mr. Margerum became head of test in the Motor-Generator division at the Kokomo plant. The following April he held a similar position in the FHP Motor division at Fort Wayne. He became Assistant to the Supervisor of FHP Test in January, 1945, and the next April went to Kokomo as Supervisor of FHP Test at that plant. He returned to Fort Wayne in November as Supervisor of FHP Test. Prior to his recent appointment, he was Assistant Supervisor of Inspection and Test, FHP Motor divisions.

Mr. Margerum is a Professional Engineer in the State of Indiana, a member of the Squares and Supervisors' clubs. He is married and has two boys. The Margerums reside at 1436 Taylor St.

War Films To Be Shown At DMM Meeting Dec. 19

The regular meeting of the Decimal Minute Men will be held at 7:30 p.m. Monday, Dec. 19, in the Chamber of Commerce building. Uncensored war films will be shown as a part of the program.

Christmas Party

(Continued from page 1)

featuring two marimba players, an organist, and an accordionist. Plans were being made this week to acquire two additional acts, which will be announced later.

THE JUMPING JUPITERS

G-E Men To Teach Classes At Purdue Tech Institute

Keith Ross, FHP Quality Control, Robert O. Brown, Supervisor of Accounting at the Winter St. Works, Claude M. Summers, Engineer, Works Laboratory, and Robert Bangert, Works Laboratory, will act as part time instructors in the Technical Institute at Purdue Center, during the winter semester starting Monday, Dec. 12.

Mr. Ross will teach Quality Control by Statistical Methods; Mr. Brown will teach Production Cost Analysis; Mr. Summers, Electronics, and Mr. Bangert, the study of Operation Planning.

Registration for the Technical Institute is being held this week at The Purdue Center, Jefferson and Barr.

12 SUGGESTORS ARE GIVEN LIGHTERS AS BONUS AWARDS

The following 12 employees were presented G-E monogramed cigarette lighters this week as bonus awards for submitting suggestions on which the regular awards were $10 or more:

Hugh Holthouse, Fred Engle, Charles Anderson, Cleon Oyer, Richard Graham, Gerald Kummer, Joseph Howard, Velma Sitcler, William Mills, Jesse Batchelder, Otto Borkenstein, and William Moltham.

The cigarette lighters have been awarded each week since Sept. 1 as a part of the Suggestion System Contest. Although the contest is over the lighters will continue to be presented to all those who submitted suggestions during the period from Sept. 1 to Nov. 15, on which the regular awards are $10 or more.

Engineering Conference Is Planned

Managers Of Engineering, Works Engineers To Hold Quarterly Meeting Here

A conference for Managers of Engineering and Works Engineers of the Apparatus Department will be held here next week under the direction of E. E. Johnson, Manager of Engineering, Large Apparatus divisions, and B. A. Case, Manager of Engineering, Small Apparatus divisions, both of the Apparatus Department.

The first session will be held Thursday, Dec. 15, at the Van Orman hotel. The day will be spent in conducting the regular business of the group and in discussing new engineering developments.

The meeting Friday will be devoted to a presentation of engineering developments by members of the Fort Wayne engineering divisions. This session will be held in the private dining room of Bldg. 16-2.

The two-day meeting is one of a series held every three months at various works in the Apparatus Department.

Christmas Seal funds are aiding 22 scientific research projects on tuberculosis.

Chamber Of Commerce Safety Committee Presents Ace Awards To Sonday, Liddy

Earl S. Ward, Executive Secretary of the Chamber of Commerce, is shown, above, presenting Safety Ace Awards on behalf of the Chamber's Industrial Safety Committee to Edward F. Sonday, General Foreman in FHP Div. 15, and Loyal L. Liddy, Foreman in FHP Div. 13. The Safety Ace Awards are given each year by the committee in recognition of distinguished service to safety. The awards were made last week to 17 foremen from industrial plants in the city at the ninth annual Foremen's Safety Institute and banquet.

Production Supervisors, Assistants Attend Training Course Meeting Here

Members of the Apparatus Department's Production Supervisors and Assistants Training Course are shown, above, during one of their meetings here this week. Seated: (l. to r.) G. H. Metcalf, Schenectady; E. T. Dahlin, Fort Wayne; Robert Dewing, Lynn River, and G. K. Spannbauer, Schenectady. Standing: (l. to r.) P. C. Sevoian, Lynn River; M. A. Sorgen, Fort Wayne; T. R. Owens and Michael Cerwinka, both of Philadelphia; G. L. Glatz and J. G. Riechenberg, both of Schenectady.

The Fort Wayne Works was host this week at a meeting for members of the Apparatus Department's Production Supervisors and Assistants Training Course.

The conference opened Tuesday morning in the conference room of Bldg. 8-2 with a short welcoming talk by A. E. Leider, Production Manager of the Works Service division. A talk on stockkeeping by L. D. Platt completed the morning session.

Hartigan Addresses Group

R. M. Hartigan, Manager of the Fort Wayne Large Motor and Generator Manufacturing division, was the luncheon speaker.

The afternoon was spent in touring the Taylor St. plant, following a talk on inventory control by M. A. Sorgen.

The Wednesday session opened with a talk on billing by K. D. Strong, Production Manager of the Large Motor and Generator Manufacturing division. T. R. Dent then spoke on the subject of billing.

Matson Is Speaker

C. H. Matson, Manager of the Fort Wayne Works, was the speaker at the luncheon meeting.

G. D. White and F. E. West spoke during the afternoon session on the subject of ordering. The conference then closed following a tour of the Large Motor and Generator division.

E. T. Dahlin and M. A. Sorgen acted as co-chairman of the conference.

Fort Wayne Engineers, Guests To Hear Address By Dr. Neil Carothers

Members of the Fort Wayne Engineers' Club and their guests will hear a lecture by Dr. Neil Carothers, noted economist, at 8 p.m. Thursday night, Dec. 15, in the Civic Theatre.

The program is being presented as Ladies' Night and reservations are being made by mail.

On leave of absence as dean of the College of Business Administration at Lehigh University, Dr. Carothers has been conducting a series of lectures at various works throughout the General Electric Company during the past year. The lectures were presented here from November through January last year.

Dr. Carothers is a graduate of the University of Arkansas, Oxford University in England, and Princeton University, where he received his Ph.D. degree. He also was a Rhodes Scholar at Oxford University. During the First World War, he was a captain in the U. S. Army attached to the General Staff.

A MacFarlane Professor of Economics, the dean has been an economic expert for the U. S. State Department, professor of economics at the University of Arkansas and Princeton University. He has written three books on finance and more than 40 articles on economic questions for national magazines.

Drafting Class

(Continued from page 1)

when there was an acute shortage of draftsmen. Credited with the idea for starting the class are W. J. Hockett and H. A. Hartman, both now retired, and the late W. H. Crighton. These three men formed a committee, which interviewed over 200 applicants and selected 23 to start the class. Sixteen completed the course and were assigned to the different drafting sections within the Fort Wayne Works.

The following nine members of the graduating class are still employed by the Company:

Mr. Gingher and Mr. Mensch, Winter St. Works; Mr. Ginder and Mr. Thompson, Motor and Generator division; Ralph Valentine, Wendell Miller, and Mr. Keller, Specialty Transformer and Ballast divisions; Mr. Whonsettler, Fractional Horsepower Motor divisions, and Rufus Klopfenstein, Erie Works.

The seven, who are no longer with the Company, are:

Mr. Haifley, Tokheim; Mr. Sutter, New York Life; Mr. Current, Fort Wayne Tailoring Co.; Mr. McNutt, engineer of the Wabash Railroad, Peru; William Steinbacher, Briggs Beauty Ware, Detroit; Paul Hoffman, Western Electric, Chicago, and Col. Paul Wilson, U. S. Army Engineers, Albuquerque, N. M.

Puel Smith, now living in Cuyahoga Falls, O., and Louis Hyde, of the Westinghouse Co. in New Jersey were instructors of the class.

The next meeting of the group will be held in December, 1954.

Purdue Line Coach To Address Meeting Of Apprentice Alumni

JACK MOLLENKOPF
Purdue

Jack Mollenkopf, varsity line coach at Purdue University, will be the speaker at a banquet of the Apprentice Alumni Association Wednesday night, Dec. 14, in the Bldg. 16-2 cafeteria. The group will also hold its election of new officers.

Mr. Mollenkopf will show a motion picture film of one of the Purdue football games.

Mr. Mollenkopf compiled an outstanding record as head coach at Waite high school, Toledo, O., for the 11 years prior to joining the Boilermaker staff in 1947.

He graduated from Bowling Green University in 1931, after winning letters on the football squad as an end and on the baseball team as a catcher. He launched his coaching career at Rossford, O., high school, where he remained for four years, and then went to Waite high school as assistant coach in 1935.

After a year as assistant coach, he was named head coach and during his 11 year tenure compiled a record that won national recognition. In six out of his 11 years at Waite, his teams won the city championship, while three times they were recognized as the mythical state champions.

Tuberculosis kills at the rate of one person every 11 minutes.

Company Suspends

(Continued from page 1)

be committing an unfair labor practice if, with this representation question pending before N.L.R.B., we consummated an agreement in accordance with our October 20 offer. Accordingly, we stated today that our firm position is that we must continue further suspension of the offer which, in accordance with our discussion at the last meeting, was placed in abeyance.

"We, of course, remain ready and willing to try to come to a final agreement, following further appropriate negotiations as to the subject matter of our offer, as soon as we have a clear determination by the proper authority as to those with whom we may properly enter into such an agreement."

The statement to supervisors continued, "We will—as we must—continue to recognize and deal with UE as the currently certified representative of our employees on matters which may properly be negotiated at this time, including the interpretation and administration of the present contract.

"When the new IUE wired 1,200 employers demanding recognition following the CIO convention, it was immediately evident that no such change could legally be made in most present collective bargaining arrangements unless and until the IUE could establish its claim—which normally requires certification by the N.L.R.B. Meanwhile, employers were obliged under the law to continue to deal under their existing contracts with UE.

"IUE then filed petitions with the National Labor Relations Board seeking company-wide elections at eight large electrical companies.

"The primary question—that as to representation at all locations—has now for some time been before the N.L.R.B. by reason of the petition filed by IUE. The question is simply one of choice by employees between IUE and UE, and then fresh certification to us as to who is the legal bargaining representative for each location.

"However, at some locations there is the additional question of two disputing groups. In some cases, each claims to be the elected UE representative with the rights under the UE contract.

"In other cases, it is reported or claimed that old UE officers have gone over to IUE and continue to claim representation rights as opposed to new UE officers.

"Under our contract and the law, we must continue to deal with the presently legally certified representative until and unless a new certification is received from N.L.R.B.

"To say that this gets a little complicated in a few places is putting it mildly. But the best information we can get, for our further guidance in the light of the newest developments, will be going out periodically to all managers so we can be sure we are fair and doing right to the greatest degree possible.

"Meanwhile, as employees, government and the two unions try to untangle the legal problems, let's all try to keep employees aware of the fact that things are apparently proceeding as fast as the law allows and that it's a good idea to keep calmly and productively at work in order to keep drawing pay."

Tales from Taylor

by Harry Porter

Willard Hull was invited to eat Thanksgiving dinner with the Joe Turleys. He was informed by Joe that he had better bring a clean apron along as he was expected to help with the preparation of the meal and also to help wash up the dishes afterward. Joe said that he was not going to tolerate anyone coming out to his place and eat his dog food without doing a little work. To make it strong he placed a can of dog food and a can opener on Bill's plate. . . . Kenny Applegate reports that he won another turkey so now he has two of them to eat. As you all know the first one he won was one that he himself was raffling off, but Kenny tells us that the second one was won fair and square as someone else held the stakes this time. Nevertheless all of the boys are still looking at him with sidelong glances, giving him the mule eye accompanied by a horse laugh. . . . Knowing that Mable Miller is very fond of the neck of any fowl, Frank Phillips brought her in one the day after Thanksgiving. Her son also brought in one for her, then she was presented with two chicken necks and two pieces of mince pie by some of her co-workers. She did not have much chance to chew the rag that day as she was too busy gnawing on fowl necks and gulping mince pie. Now, folks, please remember that if you have any necks from any kind of fowl left over from your Christmas feast and do not want them, just sack them up and deliver them to Mable.

Motor and Generator Static

THOUGHT FOR THE WEEK: "Poverty is no disgrace, but it is confoundedly inconvenient."—Sydney Smith. . . . DAFFYNITIONS: Ventriloquism: Double talk. . . . Deceptionist: Gal who makes you like to hear that her boss isn't in. . . . Dime: Chip off the old buck. . . . Gentleman: Wolf with patience. . . . Bachelor: Man who never Mrs. . . . Biggest post-war let-down: Women's skirts. . . . Budget: Method of planned worrying. . . . Fur Coats: Things that keep women warm—and quiet. . . . SPECIAL INTEREST TO VETERANS: By a vote of 333 yeas to 14 nays, the House passed H. R. 6000, the Social Security Expansion Bill. Of particular importance to all veterans of World War II was a provision in the bill recommended by The American Legion to grant a wage credit to veterans of World War II of $160 per month for time spent in military service. . . . HORSEPLAY: The works bulletin boards now carry a safety poster advising that "horseplay sometimes backfires." Blair Bushong, hero of this tale, has playful moments when he gives vent to his energies with all the grace and finese of an overworked draft horse. Hence the term "horseplay." The other evening Betty Eisenacker drove into Brouwer's filling station to purchase some gas. "Bush" was standing on the corner and the sight of the rear bumper on Betty's car gave him an idea for horsing. He climbed on the bumper and began bouncing up and down rocking the car from radiator cap to tail light, meanwhile laughing at Betty's discomfort. Here is where the backfire began. Bush has a trick knee that folds on occasion and it chose that time as the occasion. Feeling it go, Mr. Bushong hopped off attempting to balance himself on the other foot and failing this ended up flat on his back with both feet up in the air. He called to Bud Fisher "Hey, Bud, come and pull my leg." After a considerable exchange of questions and answers that we are unable to print due to lack of space, Bud grasped the meaning of Bushong's request and gave the offending member a tug, restoring it to the proper alignment and then helped Blair to his feet. Mr. Bushong dusted himself, discovered that only his feelings and dignity were hurt and began to realize that horseplay like crime does not pay. . . . CHRISTMAS IS COMING: Since Burt Spencer's last trip to the dentist his favorite song is "All I Want for Christmas is My Two Front Teeth." . . . WHAT? Roscoe Markley the Czar of Roanoke, spent his third week of vacation putting the town in order for winter. "Yep" sez Mr. Markley, "got everything lined up, even got the fire plug repaired that our assistant chief broke off." "What, oh what," he continued, "would the town of Roanoke be without me?" . . . DON'T: This week might be called Homecoming Week, honoring James Mitchell, sage of Blue Lake who returned to work much improved in health after a three month leave of absence. He also returned with a story about Art Druce and Frank Rathert, Damon and Pythias of Motor Generator. According to Jim, neither of these boys will stand for the other getting the best of a deal. So it was only natural when Frank slipped ahead of Art and got a seat on the bus that Art should attempt to enter the doorway just as the operator was closing the door. According to Jim the door caught Art around the neck. Sez Mr. Mitchell, "This story has a moral — never stick out your neck for Frank Rathert." . . . WHY: W. R. David, one of the New York boys, has recently been seen eating breakfast at Clem's. Come on let us know the reason why?

Ramblings Bldg. 31-2

Homer Carson and Carl Hubartt, who recently graduated from Apprentice School, are now working in our M-G drafting room. . . . Bob Hickman is now reclining in a hospital after undergoing a major operation. Bob is getting along fine and is now on the road to recovery. . . . Whitney Moore, too, has been missing because of illness. We hope Whitney will soon be well enough to return to work. . . . Announcing the arrival of a 7 lb. 13 oz. baby girl at the home of Mr. and Mrs. Ray Bryan. The Bryans now have three girls. . . . Nyra Ruckman was recently chosen the best woman athlete at the YWCA. Congratulations to a "good sport." . . . Christmas is coming! This week-end the M-G girls from Bldg. 31-2 will be entertained at Christmas parties at the home of Gerry Schmidt. . . . Big plans are under way for a Christmas dinner and party for all in the AC and DC Engineering divisions. The dinner party will be held at the Chamber of Commerce on Tuesday, Dec. 13. The committee in charge includes Minnie Ferguson for decorations, Ed Cwiklo for music, Ed DeCrappeo for entertainment, Dug Johnson for gifts, Bob Gillum for finances, Phil Potts for Master of Ceremonies, and Gerry Schmidt for dancing.

Safety Raiser

Ladies, do you have an electric mixer? It's a great little utensil for mixing cake dough, whipping cream, and fluffing potatoes (the old boy may use it sometimes for mixing drinks too). Do you realize that it can cause you a lot of grief if not handled safely. Don't use metal objects such as knives, forks, or spoons to work the mixture into the beaters. Use a rubber spatula. If the beaters do catch it, you at least won't wreck the works. Keep your fingers away from the rotating beaters. They can and have caused some pretty badly cut fingers and hands. Use your hand as a brake on the bowl as it revolves. A bowl can really get to turning if left to turn free and your bowl may fly all over the kitchen as my wife's did a few weeks ago. Besides buying a new bowl, we lost the potatoes.

Although tuberculosis kills more young people between 15 and 34 years of age than any other disease, it may strike at any age.

Honored At Retirement Party

lley L. Souder, Bldg. 17-3, retired last week after 20 years of service with General Electric. On her last day at work, her friends and co-workers honored her with a party and presented her several going-away gifts. Left to right in the picture are: Walter Kryder, Charles Rice, Bruce Rohn, Nellie Bellamy, Mrs. Souder, Laura Starner, Rosella Heche, and Margaret Swain.

Kathryn Landis Retires

Kathryn Landis, FHP Div. 17 at Taylor St., is shown making her final test before retiring last week. She has been an employee of General Electric since 1944.

Pick-Ups

Bldg. 26-3

By Elvira Romary

Hi gang: Here is a passing thought for the week: "Trifles make perfection, but perfection is no trifle." . . . A sad note to begin our news this week is the death of Warren Antoine's father. Our deepest sympathies to you, Warren. . . . A personal note to Max Kimble: Believe me, Max it would be cheaper to pay to park in a lot than to pay parking fines. . . . It seems Dick Kimball invited his father for Thanksgiving dinner which was a very nice gesture on Dick's part. Of course, when his father arrived he not only brought his appetite but also the storm windows for Dick's new house. Method in your madness, isn't there, Dick? . . . Peggy Reynolds is the little girl with the little curls. . . . Lola Brunner and Wanda Grimm are going on second trick. We will miss you, girls. . . . The girls are happy since Danny Ruielle came back to Bldg. 26-3. . . . Anyone wishing instructions on how to wind in your sleep see Lonnie Rockstroh. . . . Favorite Theme Songs: Garnett Currie, whose husband is leaving town is partial to "After You've Gone," and Betty Gates wishing she was in Florida is singing, "I Can Dream Can't I?" . . . Dorothy Donahue's husband had a serious operation and we all wish him a speedy recovery. . . . Bethal Heersche just celebrated her birthday and now claims it will be her last one. Now, we all think that is as good as admitting you're getting old. How about it, Bethal? . . . Doris Rinehold is part time "boss lady" again, and the title has Lavonna Porter shaking in her boots. . . . Has anyone noticed Carolyne White's dreamier than dream eyes? That lucky girl. . . . John Collins' downstairs neighbors have been complaining about John's heavy shoes making so much noise, so John bought a pair of house slippers so the neighbors could go on snoozing in the morning. . . . We wonder what the rest of the details are on Whitey Lieberenz's proposed Sadie Hawkins' Day race for Bldg. 26-3 single girls. We are still waiting for the rules, Whitey. . . . Don Sheperd returned from vacation last Monday looking sooo rested while Frenchie Chilicote looks sooo tired. (He is waiting to go on vacation.) Have a good time, Frenchie. . . . Anyone desiring lessons on how to hula see Lonnie Rockstroh. Last Saturday Elex made a tour to Indianapolis to Sonja Henie and during Miss Henie's hula number Lonnie was dancing as hard as anyone of the ice show cast. Got it down pat now, Lonnie? . . . The second trick is falling below par on their contributions for the column or may be nothing ever happens on second trick. How about it? . . . See you all next week.

Partizan Chapter To Hold Christmas Party Dec. 20

The Partizan Chapter of the Elex Club will hold its annual Christmas party Tuesday, Dec. 20, at the Gas Institute Kitchen at 1:30 p.m. There will be a 50-cent gift exchange.

Martha Kruse, Nual McVay, Hilda Martin, and Bertha Mattes have charge of arrangements for the program.

ALL RIGHT IF THAT'S THE WAY YOU WANT IT: Just keep the news to yourself and you won't have to bother or take time out reading it. After all it's your WORKS NEWS. The last couple of months you were doing swell but last week everyone must have been eating alum or something you were all puckered up like a pumpkin. Come on now let's all get together on this thing and pass the good word along, won't you? We are asking you with a great big please and all that their kind of stuff. . . . WANTS TO BE A REFEREE: Robert (Fatty) Morris, says he has been watching Virgil Howell and all he has to do as referee is to lie down on tbe floor and see that both ends are touching at tbe same time. For this he gets five dollars an hour. Fatty says he can do it just as good as Virgil. What we want to know Bob is can you take it when they throw you out into the middle row somewhere? . . . ROW D AND E: Wimpy Lemper, why do you insist on parking that Drof (Ford) in the "D" row when you belong in the "C" row? Don't you know when you get a new car you move up a notch. . . . ABSENT EMPLOYEES: Due to illness or operations are Walter Englebrecht, Fred Ramsier, Lloyd Cowell, Amel Beck, Kermit Aglar and John Bailey. Hope to see you all back very soon, fellows. . . . DECEMBER BIRTHDAYS: David Bastian, Romie Baumgartner, Donald Eaton, Richard Hensler, Carl Junk, William Leimenstoll, Dewey Parkison, John Powner, Frank Woodward, Lawrence Walters, Carl Williams, Gertrude Edwards. And do not forget folks it's also the "Christ Child's" please give Him your heart, full of love, won't you? . . . THAT BENNY GUY: Jack, that is, got a G-E blanket just for doing the same thing we did about a G-E ironer. How do you like that? We'll do it like our boss says. Put it in the follow up file and see what bappens. . . . BELATED BIRTHDAY GREETINGS: To Al Swift who celebrated his birthday Monday. Al's birthday is in June. The custom in the Wire Production Office is to give out candy on your born day. This Al has been promising to do ever since June. Finally Friday be won another check pool. Just to make Al's promise good we decided to help him. We used this money to buy candy, boy, was it ever good. After waiting all tbat time it should be.

Insulation News

There are lots of new faces around the Mica and Insulation Section these days. Alma Vorndran and Walter Gallmeir are welcome additions to Bldg. 12-B. . . . Joe Taylor, who is a newcomer to Bldg. 12, is the same Joe Taylor wbo leads the Indiana Redbirds in those Friday night square dances at the G-E Club. . . . Vera Pontius, Robert Mosshammer and Vern Davis are also on our welcome list. . . . We all hope Agnes Ryan is recovering quickly from her accident and we're looking forward to seeing her back with us soon. . . . Josephine Balsamo lost a bet to Bill Glenn to the tune of 50 cents. That'll teach you to underestimate Bill's social achievements, eh Jo? . . . I've got great news for the gals in Bldg. 12-3. Dorotby Baumgartner finally polished off the last of tbat 36 lb. Thanksgiving turkey last week. Sbe says it was a tough fight, but sbe won. Better cross your fingers, though, girls. Dorothy says they sometimes have turkey for Christmas, too. If you let us know in time, Dot, the rest of us won't have to buy one for Christmas. We'll just help you eat yours. . . . Here's a tip to you people selling Christmas dance tickets. For a quick sale—just see Bill Glenn. . . . Bill Hattendorf is back again after being off with a serious eye infection. Most fellows don't have any excuse for winking at girls, but Bill has a foolproof one. He claims it's good exercise for his eye. Sounds good, anyhow. . . . You should hear Russell Flaugh give his imitation of a hunting trip. You just don't know whether to recommend him to a talent scout or a psychiatrist.

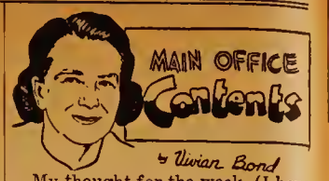
Receives Retirement Gifts

A group of friends and co-workers assembled recently to pay their respects to Johannah B. Braun, who retired Monday, Dec. 1. She was presented with a purse from her fellow workers in Div. 20, and an electric mantel clock and a bottle of cologne from her friends in Bldg. 4-6. Mrs. Braun was a matron at the time of her retirement. In the picture are: (l. to r.) Golda Rodich, Carl Stienbacker, her foreman; Elva Shaffer, Mrs. Braun, Elmer Hart, Ophelia Thornhill, Minnie Cashion, and Edna Mowery.

Corn S'talks

TAYLOR ST. SHIPPING

Yippee—another Friday has arrived, the best day of the week—so sit back in your easy chair and read the latest dope on your colleagues. . . . We welcome Phylis Clifton back into our little circle. Upon her arrival Monday morning she was informed by Mr. Blackburn that one of the new jobs of HIS secretary was to bring in cake every Monday morning. . . . If people don't call a halt to having birthdays and leaving, the whole office force will be on diets for the candy is being passed every day. . . . Three of our gals, Hillis Colby, Paula Howard and Jo Franklin, went traipsing down to Indianapolis over last week-end. Naturally soon as they arrived they had to eat. (Boy what money we mortals could save without the expensive habit of eating.) After gorging themselves they went Christmas shopping, all this exercise made them hungry so they indulged again then went to see the Sonja Henie show and found it "Sooooo lovely." Early Sunday morning found them stumbling into Fort Wayne glad to be home. . . . Fred Wheeler returned from his well earned vacation at Mt. Carmel, Ill., full of pep and excited about his many activities. He enjoyed quail and rabbit hunting and best of all helping his brother-in-law train six fine horses for racing. So don't get horsey with Fred for he knows how to handle nags. . . . Take notice of these popular men!!! First Fred Wheeler gets candy bars and now Mr. Kruekeberg finds a big red apple on his desk. . . . Wonder who the mystery person is? ? ?



Casanova touch!!!
You know a spot here and tbere
Is Russ Carpenter's bair. . . .

His barber was so excited over the Notre Dame game Saturday he chopped Russ' hair so badly he now is nigh sporting a crew-cut. . . . Monday is prayer meeting time for Edith Robertson. Monday noon we found her in front of the Cafeteria on her knees—slipped in grease. Then upon her return to the office she knocked Mr. Kruekeberg's telephone on the floor. "Fer hevven's sake." . . . Poor Jo Franklin had a misfortune also. She started to sit down and her chair took a notion to move—alas! Jo found herself sitting on the floor with a dumbfounded look on her face wondering what hoppened. . . . Several girls (Grace Taylor, Jean Carroll, Gloria Geesaman, Mary Nelson, Marge Gordon and Sally Ford) feted Helen Tarlton's departure with a delicious dinner at the English Terrace. Helen wore a lovely corsage of pink carnations. She received many gifts from the office. Her "Thank You" is sent to all. . . . Glad to see Mary Caruso back once more and all excited about her new niece. . . . We have three gamblers and all are lucky. Jack Angel and Al Meyer really played their hearts out in last week's basketball game with the Accounting team. Seems they bet and won after a valiant struggle. . . . Our other man of chance is Doc Potter. Every week-end finds him pondering over his many football tickets. A week ago he nearly won $100 but as you guessed he didn't play his hunches and won only $9 instead. What a let down.

The late Emily P. Sissell, founder of the Christmas Seal Sale in this country, was honored in 1942 by the National Tuberculosis Association with the award of the Trudeau Medal for distinguished service to the anti-tuberculosis movement.

Wilbur Jones borrowed a tap from Ralph Solt last week but didn't specify whether he wanted a right hand tap. Naturally he had some difficulty getting the left hand tap started in the piece he was trying to tap. . . . Dewey Erne has joined the late arrivals club of which Jess Batchelder is president due to his consistancy. Jess usually fails to make it on the morning after the "Jolly Boys" meet. Last week he arrived on time, but in his rushing to make it on time he forgot his keys and couldn't get in his tool box all day. . . . Bill Johnson gets in the absentminded class this week by ringing his clock card one noon, putting it in the box and starting for the cloak room when someone yelled at him and asked where he was going. . . . When "Look" magazine ran that article about Fort Wayne being two years behind in styles they were not talking about John Leiendecker because he came in to work the other day with one of those plaid flannel shirts with the distinct colors of the rainbow. Very flashy, John. . . . Arnold Engle was bemoaning the fact that he missed out on some delightful ham sandwiches the other night. All the fellows were sorry he was so interested in his work that he failed to get in on the free lunch. . . . Ozzie Nahrwold was in a phone conversation the other day and several of the fellows started watching him measure with his fingers several different sizes. Maybe you should tell us about the new television attachments on the phone so we can all use them. . . . Anyone wishing to purchase a midget racer can get first hand information from Gurney Lindley about a capable driver after his recent trip to Kokomo as a passenger in his own car. . . . Cris Delagrange has been off due to illness for several days, but we hope he will be okay by the time you read this.

My thought for the week, (I hope you will find time in your hustle and bustle over your shopping worry to read it)—

IF YOU WERE BUSY

If you were busy being kind,
Before you knew it, you would find
You'd soon forget to think 'twas true
That someone was unkind to you.
If you were busy being glad,
And cheering people who were sad,
Although your heart might acbe a bit,
You'd soon forget to notice it.
If you were busy being good,
And doing just the best you could,
You'd be so busy you'd forget
The blunders of the folks you've met.
If you were busy being right,
You'd find yourself too busy quite
To criticize your neighbor long
Because he's busy being wrong.

Isn't it so? I hope that I will be able to remember this thought—for I am sure life would be better for us all if we did. By the bye—Mary Occleston, who recently retired, gave me this poem before she left, and I like it! . . . Many G-E employees enjoyed the Sonja Henie Ice Revue in Indianapolis—this past week-end, along with a good many Elex members, Mr. and Mrs. Wayne Fritz and Mildred Whitmer with her party, Mr. and Mrs. W. R. Whitmer, Mrs. Robert Bell and son Jimmy and Mrs. Clarence Schafer were the ones who have reported a wonderful show and trip. . . . Mr. and Mrs. Robert Wylie accompanied the latter's father, Rev. Dutcher, to Chicago where he left for Clearwater, Fla. to spend the winter. . . . Mr. and Mrs. Ralph Clark enjoyed a very pleasant vacation in the Smoky Mountains.

Peter Speelman Visits Bldg. 18-1

Peter Speelman, who formerly served as a G-E guard and retired 10 years ago, visited in Bldg. 18-1 on Monday. In his conversation he told that he has a monitor top refrigerator which has been in continuous use for 19 years and he has not even had to replace the rubber gasket. Right now a little adjustment is needed—nothing serious. That may not be the record but Commercial division please note! It was nice to see Mr. Speelman again. . . . Lena Provine recently left for St. Petersburg, Fla. to spend the winter. Word has been received that she had a very pleasant drive down. . . . Wanted! An engagement book for P. O. Noble who recently retired. He was just one week early for a luncheon last Monday. Oh well, the restaurant is a good place to eat and meet old friends. . . . Chester Kowalski's little daughter is much improved from her recent illness and is home from the hospital. . . . Isn't it a blessing that this shopping frenzie only comes but once a year?

Canadian Bounty

Ralph VanOsdale, Bldg. 18, and a party of friends recently completed a successful hunting trip to Canada. The hunters shot two deer and one bear during the expedition. The men are shown, above, with their catch of the year. Left to right are: Wilfred Valentine, Clifford Lawrence (kneeling), and Mr. VanOsdale.

Local Divisions Present Exhibit At Exposition In Atlantic City

The G-E exhibit is shown above at the All-Industry Refrigeration and Air Conditioning Exposition in Convention Hall at Atlantic City, N. J.

The Fractional Horsepower Motor divisions, the Small and Medium Motor divisions, and the Specialty Transformer and Ballast divisions presented an exhibit at the sixth All-Industry Refrigeration and Air Conditioning Exposition.

Approximately 12,000 persons attended the exposition, which was held during the week of Nov. 14 at Convention Hall in Atlantic City, N. J.

The G-E exhibit was designed to stress the Company's commercial theme of standardization, complete line, and engineering service. The Fractional Horsepower Motor divisions' display included standard general-purpose KC motors, unit-bearing motors, and motors for hermetically-scaled refrigerators.

The new FHP unit-bearing motor was featured in a unique octagon shaped island display. A chrome-plated motor revolved vertically and horizontally on a chrome-plated shaft under a plastic bubble. This display was effective as an attention-getter. It received favorable comments from many visitors to the exhibit, including President Charles E. Wilson.

The Specialty Transformer and Ballast divisions exhibited a line of special refrigerator transformers. These make it possible to use standard refrigerators on 50 cycle and odd voltage circuits, such as those encountered in foreign countries and various parts of our nation. These transformers are popular because they provide an easy and economical solution to the problem of adapting standard equipment to special voltage and frequency conditions.

The exhibit enabled refrigeration and air conditioning manufacturers to inspect the G-E products applicable to their needs. The bulletin bar was very popular with many prospective customers requesting additional printed information regarding the units displayed.

Tricks In Transformer

—FROM DIVISION 91—

By Bob Bunyan

Rudy Jackson is also known now as a lone ranger of the west. . . . That new cap that Fred Menncwisch is wearing seems to have brought some poor service with it. The boys request you wear the old one, Fred. . . . Charlie Kaiser is getting pretty mad at some of the fellows. It seems they are taking him for a quarter every time the Pistons play. Charlie thinks they should draw different numbers. . . . Shorty Gratts was in the past week to see the fellows. He said he was trying to get that cheap chisler Nick Penick to come across with those bottles. What do you say, Nick? Going to pay up, huh? . . . We all wonder why Don George doesn't take a WORKS NEWS home anymore. Guess we will have to put him on the mailing list. . . . Some of the fellows wish Jim Stauffer would wear a red shirt instead of that tan sweater. It seems to blend in with the scenery so well that you can't see him coming. . . . A group of boys from the west end held a little bowling party Saturday which consisted of Quinn, Frantz, Akers, Burkamp, odd man Benzinger, Woberking, Knuth and Farrel. It wasn't such a bad idea either to get away from all this Christmas shopping with their wives. . . . The only complaint I heard from Paul Noffze after returning from his week of vacation was that his shoes just didn't fit after Don Huffman had worn them for a week. . . . I understand John Laymon took last Monday off to take a refresher course of the law. Some of John's close friends had offered him the tools to handle the situation but he didn't feel a saw or file would be necessary. . . . It must be getting noisy in here. Sam Rhoads has been wearing cotton in his ears for about three weeks. . . . Freeman Rohlfing got quite a surprise the other day when he found a list of household furnishings on his desk. It seems one of the girls had listed all her needs to furnish her home and had left the list on Freeman's desk. Christmas being so near, his first thought probably was his wife had telephoned them in. . . . Footsie Crum might take that new dog of his out to Fred Wellingsick's for some first class dog training. I hear Fred has taught his to bring in the paper. Maybe one of these days he will bring in the bacon, you hope. . . . Fred Theime was quite worried Monday about an unusual explosion-like sound he heard Sunday night. I'll bet he never thought to look at those tires on his Ford.

Keegan Dies

Edwin A. Keegan, 76, 509 W. Washington Blvd., died at 5:20 p.m. Tuesday after being struck by a pickup truck at Wayne and Ewing Sts.

Mr. Keegan was first employed at General Electric in 1916 as Assistant Supervisor of Order and Stocks. He retired on April 29, 1938.

By Marie LaMons

Everything happens to Florence Casey, especially last Friday morning. First she overslept, so she called a cab so as not to be too late for work. Next she couldn't find her billfold and had to call the office for someone to bring money out to the gatehouse to pay the cab driver when she arrived. Finally she made it at nine o'clock. . . . Doyal White and A. E. Leider along with Mrs. Gfell and the General Stores gang were on hand last week to bid fond adieu to Ed Gfell who retired after 23 years with the Company. Mr. Leider, on behalf of the gang, presented Mrs. Gfell with a gardenia corsage and to Ed a power saw, electric razor and a midget sander. Drop around once in awhile, Ed, and say hello to the gang—the welcome mat is always out. . . . Our congratulations to Cecil Rose who recently celebrated his 30th anniversary with the Company. . . . Lloyd Platt, Kenneth Redding and, of all people "Butch" Vegalues have joined the gang that plays Canasta every noon hour in the Library. Don Campbell is beginning to wonder whether it's a library or a dispensary for persons having been bitten by the Canasta bug. . . . They say you learn something new every day. Last week a few others and myself learned what a live oyster in the shell looks like. When Faye Jordan returned from a recent trip to Baltimore she brought a bushel of oysters home with her. Herb Jesse showed us the fine art of eating raw oysters. He says they're fine, but as for me—well, I'm not so sure. . . . Have you all noticed that "fire engine" red car that Al McCullough has been driving? Maybe I'm speaking out of turn, but we'd like to know why he tried to keep his new car a secret for four months. Al, you should know by this time that you just can't keep a secret from that grinding room gang. . . . Problem of the week: How many inches in a gross yard? For the correct answer, ask Chris Reiz. Chris figured it out the hard way. When Herb Jesse couldn't get the answer by calling the public library, Chris took matters into his own hands and went out to the warehouse and measured a roll of tape which contained a gross yard and found the answer to be 5,184 inches. He says he knows everything or else where and how to find the answer. It isn't every office which has a genius. Aren't we the lucky ones?

Birthday greetings for the week go to Lawrence Chesterman, Bob Morris, and Dorothy Jensen. . . . Charles Faulstick has a new hobby. It is making wagons for Christmas and keys for a pastime. He spent hours making a garage key. After he got home, he found his regular key where he always keeps it. . . . As Henry Vance, our fireman, went to use a fire extinquisher recently for some reason he couldn't. Could it have been the fireman or maybe the extinguisher was broken. . . . Welcome, Jan Crismore to the floor from Bldg. 4-1. . . . Wanted a grafter, to put the tail feathers back in Daisy Balyeat's bird. As she was cleaning the cage, the bird flew out of her hand and then she had a tail-less bird. . . . Ralph McCain is on the road to recovery. The co-workers wish you a speedy recovery, Ralph.

Tuberculosis takes the lives of more young adults than any other disease.

Wife Is Guest Of G-E At Retirement

Edward J. Gfell (left) shows his wife one of the duties he has performed during the time he has worked with the Company in the Oil House. Mrs. Gfell visited him at his work during the retirement party which was given for him last week. Mr. Gfell retired Thursday, Dec. 1, after 23 years of service. In the picture, watching him fill the oil drum are: (l. to r.) A. E. Leider, Mrs. Gfell, and G. D. White.

From the looks of the downtown streets last Saturday, a lot of us are in the same boat. We didn't start our shopping early enough. . . . We have had all kinds of tales and stories, but did you hear about the one told by George Soule and the thick fog of last week? The fog was so thick, the rabbits held hands across the road so that they wouldn't get lost. . . . Of course, Harold Kiel had to come up with one better. He and his pappy started the roof on the barn. When the fog lifted they had the roof extending 10 feet beyond the barn. (I give up and so do the tall story guys.) . . . Did you notice Walter Kryder's new footsies savers? He's not taking any chances of getting his feet hurt in the final stretch of the "no accident year," so he got some new safety shoes. . . . Luella Masson can't keep track of her husband these days. He has been on three different shifts in one week. . . . Leona Hollis dropped a bucket on her dog's toes, so she picked him up and sang, "Don't Cry, Joe." Latest reports are that Joe feels better. . . . Thelma Oswald was really having a time getting a dozen of eggs home. They were all cracked by the time she got home, so she made noodles. . . . It seems as though Fred Gruntz's feet would get cold. He was seen downtown Saturday with his hat and overcoat on, but no shoes. Be sure and keep your socks on, Freddie. . . . Our "We Wish You Happiness" mat is out for Martha Rice, who says "I do" tomorrow. . . . It's a happy birthday to Thelma Oswald and Velma Seibt. . . . Some of the girls went to see Erma Landes and report that she is improving. Also that Pauline Gnau is coming right along. Hope you're back soon. . . . LaVern Ferguson and Gertrude Martin have been paying the dentist a visit, so all they want for Christmas is "My Two Front Teeth." . . . Lilly Shock was lucky at winning. She bought Leona Hollis a Hershey bar to keep her from getting hungry. . . . Alice Brockmeyer's husband was shopping for Santa Claus faces. He thought he had purchased two, but when he got home one was an empty box. . . . We were glad to see Lola McCague, Fern Wagner and Floetta Zartman last week. They came in for the farewell potluck for Iley Souder. Floetta still has her finger well bandaged. Hope she too can report back to work real soon. . . . Violet Brower was really busy the day of the potluck. She was seen carrying a clean fork, not having time to make use of it. . . . Marcille Thomas is busy getting her doghouse ready. She is getting a black cocker spaniel puppy. . . . Mary Foster still thinks it gets early in the morning. The other day she needed toothpicks to keep her peepers open. . . . Gloria Woodland is a proud auntie. She has a new nephew. . . . Our sincerest sympathy to Stella Kempf in the death of her brother, also to Heddy Harrison in the death of her aunt.

The 1949 Christmas Seal, designed by Herbert Meyers, young art student of Leonia, N. J., won first prize in a contest sponsored by the Society of Illustrators in art schools throughout the country.

Retires With 44 Years' Service

Bessie Chapman is shown, above, receiving several retirement gifts from her co-workers in Bldg. 26-4. She was presented the gifts, a ring, purse and a U. S. savings bond, at one of the farewell parties given in her honor. Miss Chapman left the Company Monday, Dec. 1, after 44 years of service, estimated to be the longest of any other woman employee in the General Electric Company. Left to right in the photograph are: (front row) Carrie Green, Nora Corburn, Miss Chapman, Emil Schurenberg, and Bernice Kratzsch; (back row) Paul Koogle, Paul Peterson, and Walter T. McDougall.

We hear that Harry Berry had a good time over the week-end. He moved into his new home. If you want any more help, Harry, just say the word. We also hear that he is a good painter too. . . . Say, Ed Boedeker, why don't you brush up on your 500 game and stop that hard work you do over the week-end? . . . Pondo says he had a good week-end of bowling. That boy Pondo just doesn't give up! . . . Anyone having a card party from now on better serve a lunch or Martha Scherzinger won't patronize it. It seems the lunch at a recent card party she attended—consisted of two pieces of hard candy for four people. Kathryn Hepker didn't have her pocket knife along so they couldn't even split it. Since they all had so much manners they all starved. Lorinda Byerlein won the table prize, a pin. I forgot to ask her if it was a safety or straight one! . . . Speaking of the absent-minded professor, Esther Pape may soon have that title. She drank a coke in an uptown drug store the other day but instead of taking her check up to the cashier she handed her the coke bottle. . . . Esther has a friend who did her one better though. She was standing in front of the elevator at one of the downtown stores with an umbrella up waiting for a streetcar! . . . We all envy Eleanor Whitehousc. She certainly is tops in bowling. She has been rolling around 500 or better for three games. . . . Boy how I would love to have a dress knit by Bea Davis. She is a beautiful knitter and she loves to do it too! . . . Merle Keesler has been trying to get his wife to put a fifth of rum in her Christmas fruit cake. What is the matter Merle can't you take it straight? . . . In about a year Harold Dalman expects to be known as the "big hog-man". He says he expects to have bigger and better hogs than Ralph Hare ever raised. . . . We think Carl Metker is doing a fine job as garbage collector. . . . Wonder who will get the first ride on Rudy Zelt's sled this year? . . . Things were calm and quiet while Louie Barrows was on nights last week. He has caught up on his sleep so he is back on days again! . . . A speedy recovery to Cora Rice who has been a patient at the Lutheran Hospital but will be at her home near Yoder when you read this. We also hope that Beulah Briner will soon be off our sick list. . . . We also want to welcome the following people to Div. 1. Some are new and some have worked with us before—anyway we wish you all stay a long time—Richard Horn, Robert Frederick, Robert Donahue, Calvin Listenberger, Dorothy Hoffman, Dorothy Duff, Lorena Hahn, Joseph Adam, Wayne Dibert, James Monroe, Edward Green, William Bray, Hollis Mee, Geneva Moody, Midlred Clevenger, Lillian Kidder, Orlena Shaw, and Wayne Boester. . . . Jay Michal could sing the song "All I want for Christmas is a new set of teeth" and really mean it! . . . Birthday greetings to Wilma Pfierman. . . . It seems there was a mix-up on "hats" the other day—I guess we will have to start labeling them. Ed Robbin was in such a hurry to get home the other night that he just grabbed a hat and out he went. When Andy Borduer got ready to go home, after working the second shift, he couldn't find his hat but there was one there but it wasn't his. Here Ed had taken Andy's by mistake and didn't know it until he got back the next morning! . . . Willard Smith is on his third week's tion this week. He is fishing for "cisco"! I never heard of that brand of fish before, did you? It seems that they live in very deep water and only come out the first part of December and they are caught off the top of the water with nets. It is a white fish and very rich eating. There, if you already knew about cisco fish you didn't learn anything new but if you didn't—you know now!

Big Game Hunters

Ceneva Worden, Bldg. 4-3, and her husband, Kenneth, shot this bear and eight-point buck during their recent hunting trip to Massey, Canada. Mr. Worden killed the deer when they were out in the woods without a guide. The Wordens plan to make a rug from the bearskin, and gloves and billfolds out of the deerskin.

Metals Group To Hear Talk By Machining Expert Dec. 19

Dr. M. Eugene Merchant, Senior Research Physicist for the Cincinnati Milling Machine Co., will address the local chapter of the American Society for Metals Monday evening, Dec. 19, at the Fort Wayne Chamber of Commerce.

The speaker will discuss "The Physics of Machining," with emphasis on the happening during the process of chip formation with respect to tool materials, work materials, and cutting fluids. The effects of tool form and tool material, the role played by the various physical properties of the work material, and the action of cutting fluids will be explained.

Dr. Merchant completed his undergraduate work in mechanical engineering at the University of Vermont and received his Doctor of Science degree from the University of Cincinnati in 1941, under a cooperative fellowship sponsored by the Cincinnati Milling Machine Co. He has been employed by the sponsoring Company in conducting basic research on metal cutting, cutting fluids, friction, and lubrication.

All persons interested in machinability are invited to attend this session, which will begin at 8 p.m.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ad will not be accepted unless accompanied by the name, pay number, and division of the employee. No works building or telephone number may appear in ad, only the home telephone number or address.

"Lost" and "Found" articles must be cleared through the Plant Protection office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone. Send all ads to WORKS NEWS office Bldg. 8-2.

CLOSINC DATE FOR NEXT ISSUE
Monday Noon, December 12, 1949

LOST AND FOUND

LOST—Fountain pen with a silver top and name J. B. Creer on it.

FOR SALE

MAN'S OVERCOAT—Dark blue, size 38-40, very good condition. H-26094.

DRESSER—Genuine walnut dining room suite; Horton washer, 3 years old; Model T front axle; make offer. A-7194 between 8-5.

TRAL-LAR THREE-WAY PORTABLE RADIO—With batteries, $19.96; Taylor Tot, $5; Men's tubular Ice skates, size 9, $4; men's figure Ice skates, size 10½, $12. 802 Grace Ave. or H-66466.

CHILD'S MEDIUM SIZE SOLID OAK ROLL-TOP DESK—And chair. 3221 Dinnen or H-24513.

ZENITH CONSOLE RADIO — Push-button, tone control. H-76703.

C-E SAFETY SHOES—Size 10; high-top laced hunting boots, size 12; Army officers short coat size 38-40. H-37649.

WOOD LATHE—Dunlap, 38" with 9" swing and Craftsman cutting tools, like new. Six ft. cross-cut saw. 3108 S. Calhoun.

HICH-CHAIR—Child's table and chair set; doll bed; Admiral automatic record changer. A-69974.

MAN'S ROLLER SHOE SKATES—Size 9, $7; Gym Shoes, Keds, size 8, $3, good condition. A-70122.

CHRISTMAS TREES—75 cents to $2. 1729 Howell St.

TWENTY STEEL TRAPS—A-58622.

SIZE 6 ROLLER SKATE SHOES—And case. E-37691.

THREE-LAMP INCANDESCENT KITCHEN FIXTURE—Columbia City 260J.

STEELCRAFT PEDAL AUTO—39" long, two sleds; side arm gas water heater and 30 gal. tank; boy's three piece coat set, size 4-6. H-68952.

BOY'S LIGHT BLUE SUIT—Also tan short coat, both size 16, like new, both $8. 3616 S. Lafayette St. or H-70322.

GIRL'S WHITE ICE SKATES—Like new, size 6, were $18 new, will sell for $8. 10111½ Hanna or A-26901.

KRANICH & BACH PLAYER PIANO—And about 100 rolls, reasonable; 1940 15-tube RCA Victor radio-phonograph. 3102 Taylor or E-36762 after 4 p.m. or all day Sat. and Sun.

GIRL'S BICYCLE—Schwinn, full size; ice skates, black shoe, size 3. H-8996.

SILVER FOX FUR COAT—Size 12, ¾ length, very good condition, $40. H-79603.

LADIES' BICYCLE—$10; Belbert Baby buggy with pad, $5; portable electric phonograph, $20. 3629 Plaza Dr. H-01962.

C-E SWEEPER—$5. H-35872.

WANTED

G-E FAMILY WITH TWO SMALL CHILDREN—Not over 6 years of age, and home with large fireplace, for a picture to be used in the Christmas issue of the WORKS NEWS. Phone Extension 441.

GOOD HOME FOR SPAYED FEMALE COLLIE—2511½ Fox.

USED TOY CASH REGISTER—Also large doll buggy. A-76442.

BOY'S ICE SKATES—Size 7½, must be in good condition. H-17585.

TRANSPORTATION

WANTS TWO RIDERS—Dale Grigsby, coming from Columbia City on routes 9 and 14 or 30. Works in Bldg. 26-2 from 8-5:15. Extension 342.

WANTS RIDE—Dorothy McCoy, from Lincolndale Ave., route 30, west. Works for Lloyd Platt, Bldg. 8-I, from 8-5:15. Ext. 389.

WANTS RIDE—Ruth Hine, from ¼ mi. west of route 24 and 1 mi. north of route 114. Works for T. F. Bain, Bldg. 4-3, from 7-3:30. Extension 428.

WANTS RIDE—Harold Robbins, from 11 mi. south of Columbia City on state road 9. Works at Broadway from 7-3:30 for Ed Glusenkamp, Bldg. 4-2. Extension 2272.

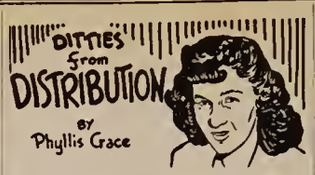
WANTS RIDE—Mildred Hartman, from Tillman and Wayne Trace roads. Works in Bldg. 18-6 from 8-6:16. Ext. 2221.

Letting someone else do your thinking is just thoughtlessness.

Even though Ross Strodel's bi-focals are new, we think he should get them checked just one more time. The other day during a conversation with Ross, Hugh Neely flicked the ashes off his cigar. Ross thinking he was looking out the window said "My gosh, look at it snow." (The sun had just gone behind a cloud.) . . . Louise Sinn had her chance of a lifetime to get a man last week. The story goes she was out in the barn helping her brother-in-law and it was about 6 p.m. so he told her to go to the house and see if supper was ready. As Louise was going to the house she passed a man as he was going into the garage. She thought it was her nephew but when she walked to the house she saw her nephew, so it couldn't have been him going into the garage. Louise ran back to the barn to tell about the strange man roaming around but when they went to look for him he was gone. Don't give up so easy, Louise, maybe he'll come back and remember, men are hard to find. . . . Kathryn Chilcote was disappointed one day last week. She wore a new blouse to work and it was noon before anyone noticed it. . . . If you want to know why Janice Sollberger takes her own tooth picks into the cafeteria, ask her. I'm going to start carrying my own too. . . . Kenny Brown went to town last Friday on some very urgent business and wanted to go back on Monday but stayed here at work and sweated it out. . . . Everything is almost back to normal in the winding section as Ralph Keller has returned from his vacation and Jackie is in a better mood. In fact she's all smiles and very natural too. . . . Laura Gerber went to bed early one night. After sleeping what she thought was all night she woke up and looked at the clock. The hands were straight up and down, so she got out of bed, got ready for work, went down to the kitchen to cook breakfast when she looked at the clock and it was only 11:30, so back to a cold bed she went. . . . Congratulations to Mr. and Mrs. Dick Graham, they have a new boss at their house—a boy—born the first day of December, and Dick was so sure it would be in November. . . . Walter Colchin has taken up a new hobby. He is the Chief Engineer on the train displayed in a local shoe store window. The train belongs to his son, but as he is in college he is unable to see that the train keeps running, so he turned the job over to his dad. Walt says his evenings are tied up from now until Christmas. . . . Ruth Cavender went to Indianapolis to attend the Ice Revue last week-end—no comments. . . . What is Sarah Moore doing riding in trucks? She was telling Clarabelle Castle and Gladys Mosshammer Pannazin that you sure can see a lot of sights when the cars go by. Clarabelle is a little worried as we hear she does quite a bit of traveling between here and Columbia City. . . . Last Monday Dale Ross was in such a hurry to ring out and go to dinner that she lost her shoe. . . . Clyde Boyce went hunting last Saturday for the first time in 15 years. Monday morning his arm was black and blue. He did OK though. Clyde and two of his buddies got 14 rabbits and almost a pheasant. . . . Red Yant brought his wife home from the hospital and she is doing fine. . . . What happened to Bob Hull last Monday morning or does he come to work at noon. . . . Cliff Balyeat is back on days again, says his bowling team needs him and can't work nights. . . . Herb Kurtz drives to Everett Lake every evening to see if the bay has frozen over and is solid enough to do a little ice fishing. . . . Welcome to the new punch press gang from Bldg. 17-1. Eric, this makes your family a little larger. . . . We're glad to see Pat Perry back to work after her recent illness. . . . Congratulations to Kathryn Landis, who retired last week. . . . Welcome to Helen Lantz, who was transferred from Bldg. 16. Hope you'll like it here. . . . Richard Templeton has been confined to the St. Joe hospital and from the latest reports he is getting along fine. . . . Don Niles is back to work after his recent illness. . . . Charlie Penn and Ducky Drake had a real workout while trying to fill Don's shoes.

Betty Ulrich, who formerly worked at G-E, has a new son, named James Edward. Dr. and Mrs. H. W. Garton are the proud grandparents. . . . Imo Jean Schwartz had a big day Dec. 2. It was her birthday, and celebrated with presents, candles, n'everything. Best wishes for many more happy birthdays. . . . At the recent "Harvest of Champions" Barber Shop quartet program at the Civic Theater, there were quite a few members of the medical section who enjoyed the show. . . . Veda Orff was visiting in Fort Wayne last week. She has made fine progress in her recovery. Now she is beginning to talk seriously about reporting back on duty. . . . Have you noticed amidst the decorations and shoppers a strange excitement that seems to be universal at this season of the year? Is it contagious? Will I, too be a victim?

Epidemic



There's a microbe most infectious
There's contagion in the air
That with the speed of lightning
Is spreading everywhere.
Men and women—children
All in a single day
To the ravage of that onslaught
Fall a helpless prey.
A smiling lip transmits it.
A handclasp brings it on.
It's in the evening sunset
And in the star-lit dawn.
The whole world's fallen victim
To this malady most dear
For there is no immunization
'Gainst the germ of Christmas Cheer.

(Mary D. Hudgins)

HI-Spots

OF BUILDING 4-2

We wish to welcome to Bldg. 4-2 from Div. 19 the following people. Barbara Yingling, Miriam Valentine, Mary Gerhard, Betty Sue Morris and last but not least is E. P. Tickel. All are associated with the cost section. Hope they like their new home. Of course, the problem of getting settled and the troubles of moving will soon be over. . . . Birthdays—yes we have some—Guyla Davison, Carl Stadleman; the girls gave him a cake with some candles on it and then proceeded to eat most of it themselves, very delicious (Oh yes! I got my share). Helen Hardy celebrates her birthday during the entire month of December—guess it must pay off. . . . Ray Lepper in the tool room really has his troubles since he moved out into the country. Even though he has been around here a long time it would appear that the Lindley Ave. parking lot is a total mystery to him. Hope he doesn't get lost trying to find Fort Wayne when journeying to and from LaOtto. . . . Joe Trentadue is taking his vacation next week so he can practice the gentle art of baby sitting. . . . We wish that if you have any news for the paper that you would give it to your foreman so that we can get it into print, surely there is something going on in the factory besides hard work. Don't let us down, get into print, it doesn't cost anything.

SHIPPING: The big CRASH hit shipping on Monday morning! No it wasn't another stock market crash. This time it was Barbara Meyers making a lovely three point landing under her desk. These new fangled chairs are sure hard to manipulate. . . . Ah Yuletide! Gee the way some of our people come back from down town at lunch time, all loaded down with packages one can hardly recognize them behind those gay wrappings. We did discover Rose Mary Flener peeking out from behind a huge box containing a huge dolly for her little daughter. . . . TELEGRAPH: Mr. and Mrs. Wayne Blake announce the arrival of a brand new kitten at the Blake residence. Congratulations. . . . We're still waiting for the peanut butter fudge that Gladys Hadley has promised us. Come, come, Gladys. . . . What will Kitty Cooper do Saturdays now that the Notre Dame football games are over. Dolores Widner is having the same trouble deciding what to do about Saturday afternoons now that the Purdue games are over. Chin up, gals, basketball is here. . . . Telegraph girls can hardly wait till that first big snow, cause they are going caroling and sleigh riding and best of all Helene Schlund is going to treat them all to a nice pipin' hot bowl of chili after the ride. Now all the gals need is a good contact with the weatherman so he can swing a little influence their way, or should we say swing a little snow their way. . . . Belated birthday wishes to Lloyd Stevens. The cake was delicious. . . . MAILING: The old wedding bells will be ringing merrily Saturday, Dec. 10, for Ray Schribner and his bride-to-be Doris Brunson. Best of luck to both you and Doris, Ray. . . . The most popular sport in mailing section is flying. Frank Hopper, Carl Click, Kenny Beck, and Ruth Roth took a flight to South Bend Saturday. Frank was pilot, Carl was navigator, and Kenny and Ruth were back seat drivers. They left Fort Wayne at 8:30 a.m. ate breakfast in South Bend at 9:15 a.m., and landed in Fort Wayne about 10:30 a.m. Wow what a trip, they all enjoyed it though. Official report read as follows: Damage—none. Comments to the pilot—KEEP THE LANDING GEAR DOWN WHILE LANDING. . . . RECEIVING, Bldg. 6-1—Some people have the strangest hobbies. Now some people collect guns, pipes, stamps, or old coins, but not Bill Degitz. Bill collects old tin cans or old oil drums. If you're interested in buying one the price is 50 cents for very old and very rusty drums, all other cans are priced according to size and age. Well, like we said some people have strange hobbies. . . . Charley Strong, the pride of Churubusco, is boiling mad. Yep, his blamed well went dry, and Charley says it's all on account of that pumping going on in Fulks lake in pursuit of that elusive monster, Oscar. Now you all know Oscar, Charley thinks he has a good case against that there turtle.

Inquiring Reporter:

WHAT IN YOUR NORMAL DAILY LIFE BRINGS YOU THE MOST ENJOYMENT?

CORA ASIES
Bldg. 19-2

"In my normal daily life I get the most enjoyment from my home, family, and three-year-old grandson. There is never a dull moment."

CLELLAH CHRISTMAN
Bldg. 26-4

"I enjoy the friendship of the people I work around and meeting new friends."

GEORGE M. ENGLAND
Taylor St.

"Our evening devotions when we can call our family around us; and after reading from the Bible, to bow and thank God for His past blessings and petition Him for future care."

JEANNE GRANT
Bldg. 18-4

"The most enjoyment that I get out of my daily life is to appreciate and understand music. Every evening the one thing that is most relaxing is to listen to soft music or to play music to fit the mood. It helps a lot."

BOB BOLINGER
Decatur Plant

"The most enjoyment of my daily life is coming home after work and relaxing with my wife and two boys, and also a night out now and then."

SICK, SICK AND THEN REALLY SICK—H. P. Love was very sick last week when he had to put anti-freeze in his radiator. Why? Because his radiator is of a 28 quart capacity and it cost almost a fortune. That isn't all though, when he heard that Harvey Von Gunten had a radiator of 22 quart capacity and C. M. Leitch a 15-quart radiator, he was really sick. He gave up and almost cried when he heard that Roby had only a 6-quart radiator. Why don't you buy a 12 cylinder with a radiator of 32 quarts capacity, Hank? It wouldn't make you any **sicker.** . . . GOOD TRICK IF YOU CAN DO IT—Why has Bill Manecke got a half gallon fruit jar under the hood of his car? He says it is to catch the overflowing anti-freeze. Why don't you tell Ernie Hicks about it, Bill? He is losing his anti-freeze like mad and doesn't even know where it is going. . . . WHAT EXCUSE WILL WE HEAR NEXT?—Shorty Poyser told us that the only reason he hasn't hit any rabbits this year is because someone (who, he didn't say) bent the barrel on his 20 gauge shotgun. That tops them all, Shorty. . . . MYSTERIOUS PUZZLE — Bob Knepple is still puzzled how, after taking five shots at a rabbit, hitting it five times (he says) the rabbit didn't die. What did you do, Bob? Outrun it and club it to death? . . . CHANCE OF A LIFETIME—Now's your chance to get even with that suspected character, Walter Jeremia Brake. Within the past year, various people have been receiving (shall we say clever) birthday cards from "strangely-named" women, and Walter has been suspected every time. Let's all get even with him. Happy birthday to Walter Brake next Friday, Dec. 16. . . . GOOD AND BAD NEWS—Jerry Jehender's youngest boy had an appendectomy operation Tuesday, Nov. 29, and is recovering quickly. The only bad thing about it is that Jerry forgot that it also was his own wedding anniversary. . . . CONGRATS—Happy birthday to Hugh Stevenson and Marge Murphy Dec. 5 and to Jim Capps, Dec. 11. Also to Joan Cormany Dec. 5. . . . WELCOME—We welcome Harry Nevert, a new test engineer in the DC division. He will be working with Bob Loveland's group. Also welcome to Ozzie Lacerte in the DC division. Ozzie will join Ted Ross's group. We hope you both will like us. We are just one big happy family. . . . FAREWELL TO A SWELL GAL—A dinner party was held Thursday Dec. 8 at the Works Restaurant in honor of Phyllis Faulkner, who is leaving to take up her duties as a full time housewife. . . . SENTIMENTAL JOURNEY—What's this we hear about Tony Schneble motoring to Buffalo, N. Y. over the week-end to see this certain gal. Was it to renew old memories? . . . TRAVELING THREESOME—Phil Hines, Ramona Ireland and Jean Pappert (formerly of Bldg. 4-6) were among those who attended the Sonja Henie Ice Revue. Also Dorthy Brubaker, of the AC division, Jackie Bowers, and Gloria Openlander and Marge Murphy. . . . KNITTEN NICKERSON—If anyone gets wrapped up in their work, just call on Art Nickerson. He was seen helping Nadeen Junk untangle her knitting yarn and seemed to be very good at it. . . . FLASH!—Last Tuesday afternoon Lois Tritch, of Payroll, came back to work looking very happy. It didn't take too long until someone noticed the beautiful diamond on her hand. The lucky man is Wilbur Wilson, a student at Indiana University. . . . BOWLERS SUBERB—Two "hot" bowlers were still wondering why they didn't make a 200 count. Thelma Barbeau made a score of 190 and Betty Garber a total of 195 for one game. Why didn't you try a little harder, girls? . . .

Witham Completes 30 Years With G-E

Clifford M. Witham, FHP Div. 14 at Taylor St., completed 30 years' service with General Electric Thursday, Dec. 1. In the picture, Mr. Witham is shown receiving a congratulatory letter from Superintendent F. H. Campbell, of FHP Div. 14. Left to right are: L. D. Hodel, Manager of FHP Manufacturing; Mr. Witham, Carl Reiter, Mr. Campbell, and William Skevington.

How are you and the battle of the Christmas shopping coming along? We're hoping you are winning for time is slipping away fast and before you know it that wonderful day will be here so, better hurry. . . . Jackie Bowers says dogs make the best calendar subjects but Steve Kelker says girls are much prettier. To date no decision has been reached but Mr. Hartman brought Jackie a "pin-up-man" to put on the wall beside her desk. Now she won't comment. . . . Howard "Lucky" Brooks taught a few of the boys the rugged art of poker playing to win last Friday night. Some people have all the luck but word has it, Mike Lowe sure doesn't. . . . Since Dick Seidel's dog is doing a little better, he can't decide whether to get a new dog or not. Hold out a little longer, Dick, maybe Santa will be good to you. . . . Santa stopped early at Mel Allen's house and left a new Pontiac. Wish Santa was as generous to the rest of us. . . . The Rembrandt of the dinner pail, namely Kenny Gillenwater says that he is no painter. Everyone heartily agrees with that statement. However, if he would have lived during the days of the Revolution, he would have made Paul Revere look like he was standing still when it come to spreading the news. The Associated Press has missed a good bet. . . . The bowling team from Bldg. 17-4 is still in second position in their league. They still aren't good enough to go around the girls' team, which is in first position. Last Friday the boys lost two games to a low average team. There are good excuses for the losses, however. Roger Crabill, the lead-off man, was heckled to death by his old pal, Berghoff. Ralph Thomas was bothered by pins in the gutters. Don Kruse was getting splits from bad pin spotting. Al Middaugh was always saving for the next game and Ned Neuman was up to usual form (bad). The team bowls the girls next week and they all claim they are saving up for them. . . . Frank Magers didn't tackle a lion. He got those scratches on his legs hunting! . . . Don't forget, Gang, there is only a short time left before Christmas and even a shorter time before our Christmas party. Be sure and get your tickets early. We're hoping to see the whole gang there to have a wonderful holiday get-together.

Fractional Facts

TAYLOR ST. OFFICE

By Alice Nichens

If you want a hot tip on any of the football games, see Jack Langdon—that boy can't lose. He has won all bets so far, but some haven't been too easy to collect. Ted Hicks came through with a dinner, but Joe Hartman is sometimes a little reluctant to release that currency. Jack finds it necessary to send Martha Zuber as his personal representative to gently remind him that he is carrying around money that no longer belongs to him and there is no point in wearing himself out with all that extra weight in his pockets and to pay up or else! . . . In a few weeks if Ed Martin's luck holds, he'll be a wealthy man. He has won the check pool for the fourth week now. The rest are just donatin' their dime. . . . If Earl Mills knew what he was doing when he asks Evelyn Arnold to bring him a Tango bar, he probably would change his brand. When Evelyn hears that word, the rhythm of the tango grips her and tango she does all the way to the candy wagon and back. Couldn't you please ask her to bring you something that didn't require such strenuous exercise? — Kathryn Pfister thought she would have to carry home one shoe the other day, but Dick Morgan came to her rescue and stapled her shoe back together. Why take your shoes to a repair shop, just bring them to Dick, he will be only too happy to make minor repairs. . . . Marie Drewett was presented with a gift at a farewell dinner Wednesday. She and her husband are moving to Chicago. Whenever you feel lonesome, Marie, don't hesitate to ask us all up. . . . Welcome back to Mildred Quackenbush. It's nice having you around again. . . . We'll miss Phyllis Cliffton who has transferred to the Shipping Section. . . . It looks as though Guy Chambers has decided to settle down for awhile. His assignment is now in Central Planning. . . . Saw this in the December issue of the Ladies Home Journal—"December 1899—A flat of five rooms may be furnished comfortably for $250. This allows $25 for dining room furnishing, $35 for the living room." At today's prices we might be a little uncomfortable in five rooms furnished with $250.

Chuck Campbell's conservative nature got the best of him one day last week. A local service station called up to remind him that he forgot to sign the check that he had cashed there. . . . We wonder how it feels to be awakened from a perfect slumber just to be asked for permission to hunt on your property? We may be able to find out by asking (Steve) Stephens if he'll tell us, that is. . . . Erven Huth doesn't hunt with a gun like most people do. He runs the poor little animals down with that Kaiser of his. By the way, if you see any squirrels lying along the highway, just bring them in to Erv. He has a big freezer to keep them in. . . . We'd like to congratulate Gilbert Hilt on his good fortune. He struck oil last week. . . . Congratulations to Slim Fuller on the arrival of a new son, Tim. . . . Al Hans and a fellow from the Shipping Section went out to Charlie Hartman's to coon hunt. After waiting about an hour for Charlie to dress and decide whetber to take his dog or his horse on the hunt, he finally decided to take the dog. Al drove to a cross road and let the other fellows out and then went on for about eight miles to wait for them. About 3 a.m., with Al asleep on a bale of hay in the truck, the hunters finally came. This is the story they tell. The dog picked up a scent and took the boys a merry chase through water and weeds and they became separated and both got lost. When they finally did find the dog the tables had turned completely cuz the coon had the dog treed. Say, Charlie, maybe it would have been a better idea to have taken the horse instead of the dog. . . . For short cuts in the finer arts of housekeeping, see Slim Fuller. . . . Whitie Van Auken was on a vacation last week and says he was sick from Tuesday on. He thinks he should get another week and really have a vacation. . . . We hope to see all of you at the office Christmas party tomorrow night.

G-E Club Scores 44-23 Victory Over Farnsworth

The G-E Industrial Basketball team racked up its third win Tuesday with a 44-23 victory over Farnsworth.

The defensive play of the G-E Club, led by Bob Baals and Jim Walley, held Farnsworth to four points in the first half while the Club's sharpshooters gathered 23. Dick Bucher and Lou Goehring took scoring honors with 11 and nine points, respectively.

The G-E Club now has a record of three wins and one defeat in league play.

Monday night, Dec. 5, the Industrials defeated the St. Joe AC five, 41-36, in a close game at the G-E Club gym. Lou Gochring led the scoring attack, with 16 points, while the St. Joe scoring was well divided.

The G-E Club will play the First Methodist Church team Monday, Dec. 12, at the Club gym, starting at 8 p.m. They will play two league games at the Central high school gym next week. The first will be Tuesday, Dec. 13, at 8:15 p.m. against Salisbury Axle; and they will face Inca Thursday, Dec. 15, at 7:30 p.m.

The Broadtails, of the Interdivision League, continue to lead the league and are now out in front by three full games. Bill Ort, of the Broadtails, had the evening's only 600, a 613 on games of 213, 214, and 186.

Two hundred scores were few and far between. Sam Baumgartner got 242; Adam Farrell, 203; Murry Johnson, 216; Erv France, 209; Vic Rump, 200; Bill Nickerson, 209; Hal Fanning, 203; Erv Haugk, 203; Clarence Rump, 203 and Noah Kuntz, 207.

G-E Masonic League

The Fellowcraft team remains the leader by three games.

Two hundred scores of the evening were rolled by: May, 203 and 203; Martz, 202; Braden, 207; Hinrichs, 211, and Cox, 222.

Mixed Doubles Tournament

Ceal Romary and Don Pappert, getting plenty of wood, won the first Mixed Doubles Tournament of the year. Ceal got a three game series of 571 and Don, a series of 594 total. Both got 200 games of 209 for Ceal and 217 for Don. Their scores handicap or actual would probably win nine out of 10 tournaments.

Having only 21 entries in the tournament, we were plenty disappointed in the tournout. We hope to hold another before the season is over.

The prize list is as follows:

	Actual	Handi.	Total	Prize
Ceal Romary—Don Pappert	1165	150	1315	$13.00
V. Crowell—Lee Crowell	1051	210	1261	8.00
R. Suelzer—Whitey Suelzer	1079	165	1244	6.50
Liz Shearer—Paul Perry	1088	156	1244	6.50
Mary Hyman—John Stark	1016	201	1217	5.00
Betty Puff—Carl Brandt	1026	189	1215	5.00
Vivian Fleckenstein & R. Fleckenstein	1061	147	1208	1.00

High series of the tournament were rolled by Whitey Suelzer, a 612 for the men, and Ceal Romary, 571, to lead the women. Bill Miller got a 238 to lead the men in the single games. V. Crowell led the women with a 219 single game.

Keghead won no money. He had the right partner but he gave her no help, as she beat him out on three games total. Here's hoping we have a better turnout for the next mixed doubles tournament.

Pick up your prize money at the G-E Club alleys.

Transformer League

Teams M and Watts are tied for first place in the League standings with 16 wins and 8 losses. Bells are close behind with a 14 and 10 talley.

Lieberenz led the 200 games with a 216. Meeker got 205 and Smith, 212.

Monday Night Ladies' League

Vivian Fleckstein howled the high series Monday night on games of 179, 170, and 151 for a total of an even 500.

Bertha McCague waxed hot with a 211 game. Other high games were kegled by Ruth Koeneman, 195; Dorothy Fuhs, 182; Mary Weidman; 181, and Esther Muzzillo, 172.

Office League

Erv Aumann with games of 242, 226 and 235 shot the high series of the year at the G-E Club alleys, a rousing 703 total. Erv's 703 beat out Don Waldrop's previous high of 674. Don also rolls in the Office League.

Erv's games helped the Standardizing crew subdue the Designers and boost their league lead to four full games.

Other 200 scores were rolled by Forrie Carlson, 225; Ife Holmes, 218; Don Waldrop, 217; John Root, 212; Bill Piercy, 206 and 210; Warren "Brownie" Brown, 202, and Paul Perry, 201.

Dope by Dopey

Erv Aumann's 703 now heads the men's high three game total. Bess Potts' 580 head the women, with Don Waldrop, 268, and Ethel Koontz, 232, leading the high single game division.

Paul Perry, after Saturday night's debacle, a 98, had plenty of fans in his gallery Monday night. Maybe a better word would be hecklers.

Decatur Bowling

G-E FRATERNAL LEAGUE: Prebles AC's won two from the league-leading Teeple Truck team and now trail the leaders by only two games. Moose No. 7 jumped into third place by winning all three from the Elks. K of C won two from G-E Club to keep the club in the cellar.

C. Leonard rolled a 626 series. Two hundred games were made by Bultemeier, 235; L. Hoffman, 226; Shackley, 217; Laurent, 202; Schneider, 200; Belt, 201; and Macklin, 209.

MONDAY NIGHT LEAGUE: Office took two from the Flanges, who still lead the league by three full games. Stators copped three from the Inspectors.

Two hundred scores were kegled by Koos, 212; Shoaf, 207; August, 232, and Laurent, 200.

CEAL ROMARY, DON PAPPERT ARE CHAMPS OF MIXED DOUBLES BOWLING TOURNAMENT

Ceal Romary, Bldg. 8-2, and Don Pappert, Bldg. 6-2, are shown, above, recapitulating their winning scores for the G-E Club's Mixed Doubles Bowling Tournament, held Saturday, Dec. 3, at the G-E Club alleys. They walked off with the first place on games of 181, 181, and 209 for a 571 for Miss Romary, and games of 217, 187 and 190 to gain a 594 total for Mr. Pappert. With handicap, their total pins were 1,315.

Aumann Bowls 703 Series To Take Lead

Erv Aumann, Bldg. 31-2, bowled a 703 series to take the lead in the high series division at the G-E Club. A member of the Standardizing team in the Office League, Mr. Aumann kegled games of 242, 226, and 235 to get the first 700 series at the G-E Club alleys in several years.

Last Thursday evening, Dec. 1, the Firemen defeated the Accounting basketball team, 28-23. The winners jumped out to a substantial lead in the first quarter and never lost ground.

Small Motors had a tough time, but finally beat down a stubborn Squares team to win 23-20. Transformer had just a little too much for the Traffic men and trouneed them, 53-26, in an Interdivision League game Monday, Dec. 5.

Tuesday night, Dec. 6, the Firemen topped the Squares, 37 to 29. The Accounting team bounced back after their last week's loss and topped Winter St., 34-25. C. Raney led the scoring with 14 points.

All Star League

The boys will be back at the G-E Club alleys again this week. Ed Kraft will be seeking to wrap up the first half championship. With a five game bulge going in, he is certain of at least a tie.

The Ramsey-Kraft and Scott-Lester matches on Alleys 5-6 and 7-8 look to be the best matches of the evening.

Apprentice League

Compasses have a strangle hold on the league lead, having a five game margin. Don Dimke had the league's high three game total last Tuesday evening. A 221 was included in his scores.

Joe Haas had the only other 200 score of the evening, a 202.

G-E Owls Trounce Rod & Wire, 49-24

ZOLLNER NIPS ECKRICH

The Owl basketball league was featured by a close win by Zollner over Eckrich. The score was 41-40. The G-E Club mauled Indiana Rod and Wire, 49-25.

Zollner led at the half, 25-15, and it looked like they had the ball game all wrapped up. Then Eckrich caught fire and knotted the count with one minute to go in the third quarter. The final stanza was a see-saw affair, with Paul Waltz, of the Pistons, and Bob McKeeman having a scoring duel. Dale Wynn, missed two free throws in the last 10 seconds and the game went to Zollner. Waltz, with 17, led the winners; while McKeeman led the losers, with 16.

The well-halanced attack and reserve strength of the G-E Club was just too much for the Indiana Rod and Wire squad, which played the whole game without subs. Paul Boyer used every man on the bench. Bob Markey dumped in six baskets to lead the scoring. Dick Sowers and Bob Feasby made all of their team's points between them. Dick was hitting from all angles. His total was 18 points.

IN THE MIDDLE

THERE was fresh evidence on all sides this week that many of our employees—as well as the general public—find the situation about union representation at General Electric very confusing. Here are the facts:

1. UE is at present the legally certified bargaining agent for a great many of our employees. The new IUE-CIO has asked the National Labor Relations Board to certify it as the bargaining representative of the employees at the places covered by the UE contract and apparently at some other places. It is expected that the Board will, after hearings, order secret ballot elections to determine which union, if any, should be the collective bargaining agent at the various locations.

2. On October 20—before any of these questions as to representation had arisen—we had offered UE a *new* contract which was an extension and improvement of the present contract. But when IUE-CIO petitioned the National Labor Relations Board we were advised by our legal counsel that it would be an unfair labor practice to make a new contract with the UE while the representation question was pending before the Board. Accordingly, on December 1 we notified UE that we must suspend the offer and not come to a new contract until the representation issue had been settled. We have informed UE that we will continue bargaining about matters within the area of our obligations and operations under the existing contract.

3. The representation question is now in the hands of the National Labor Relations Board, as indicated above, and we believe that any question about representation of our employees will be settled in the near future by NLRB elections. Meanwhile, we are cooperating with the National Labor Relations Board in order to expedite in every way possible the resolving of the issue.

4. UE's contract with the Company runs until April 1, 1950. We believe we are obligated to carry out the terms and conditions of that contract and to continue negotiating with UE so long as its authority to represent our employees continues in force. This of course we plan to do, despite any confused reports to the contrary. In some locations, however, questions have arisen as to who are the proper officers of the local, and at these locations local union negotiations have had to be postponed until these questions could be settled.

Throughout this whole difficulty we have sought to take no sides but to be absolutely fair and neutral as indeed we are required to be under law. We can assure all concerned that we are doing everything in our power not only to do right but to do as much as we properly can in cooperating with the National Labor Relations Board so that our employees can make their wishes known in the orderly manner provided by law. As we have said so often before, the choice must be that of our employees.

GENERAL ELECTRIC COMPANY

QUARTER CENTURY CLUB ELECTS NEW OFFICERS

New officers of the G-E Quater Century Club are shown, above, in a meeting held following the announcement of their election this week. They are: (l. to r.) Walter W. Dreyer, treasurer; Herschel L. Smith, secretary; James V. Johnson, president; Delbert C. Rehm, vice president, and Elmer J. Wagner, director.

Annual Christmas Party For Children Expected To Attract Over 9,000

SANTA CLAUS TO APPEAR AT G-E CLUB SATURDAY

Jingle bells, Santa Claus, and a fun-crammed, five-act show has been planned for the G-E Club's annual "Kiddies' Christmas Party" tomorrow in the G-E Club auditorium. More than 9,000 children are expected to attend the party.

Youngsters, ranging in age up to 13 years, will he the guests of the club at the gala entertainment which is scheduled for five performances throughout the day. First show will start promptly at 10 a.m. and will be followed by another at 1 p.m. The third performance will take place at 3 p.m., another at 5 p.m., and the final show will be held at 7:30 p.m.

The acts will include a clown, acrobats, musicians, and other entertainers.

The final act booked for the show was Ray Conlin, ventriloquist, and his dummy, Sparks O'Connor.

Sparks was a ventriloquist's dummy when Charlie McCarthy was still a limb on a tree. Conlin and Sparks have played in theaters and night cluhs all over the United States. During World War II, they spent four years overseas enter-

Elex To Present Life Membership For Retirements

Members of the Elex Club will be given a special life membership when they retire, it was announced today by Mary Leiter, president.

The only prerequisite is that the person be a member of the club three or more years previous to her retirement.

Presentation of the life membership will be made on the day the member retires from the Company. The membership card will be engraved and contained in a leather folder.

G-E CALENDARS ARE BEING SENT TO PENSIONERS

General Electric calendars are being mailed this week to all pensioners. All who do not receive a calendar by the end of next week are requested to notify the WORKS NEWS office, Ext. 441.

Santa Claus To Appear At G-E Squares' Party

Santa Claus will make an appearance at the G-E Squares' annual Christmas party for children Wednesday evening, Dec. 21, it was announced today. The party will be held at the club rooms, 219 E. Berry St., starting at 7:30 p.m. The program will include comic movies and group singing.

Decatur G-E Club Holds Annual Christmas Party

Approximately 1,200 persons attended the Decatur G-E Club's annual Christmas party last Sunday afternoon in the Junior-Senior high school auditorium.

The program opened with the singing of "Jingle Bells" and "Holly and the Ivy" by the Aeolian Choir, under the direction of David Embler.

A poem, "Winds Through the Olive Trees," was then presented by Katherine Steele. This was followed by another Christmas carol, "While the Shepherds Watch," rendered by the choir.

"All I Want For Christmas," a novelty number featuring the vocals by Charles Cook and Vernon Hebble on the drums, then took to the footlights.

The girls choir, under the direction of Evangeline Embler, pre-

Christmas, New Year's Day HOLIDAYS

The Broadway and Taylor St. Plants, in general, will be closed on Monday, Dec. 26, in observance of the Christmas Holiday, and on Monday, Jan. 2, in observance of New Year's Day.

C. S. Matson
Works Manager

Note: The above also applies to the Decatur Plant.

151 Employees Receive Suggestion Awards

Herbert Koch, FHP Motor Div. 16, received the week's top suggestion award. He was awarded $50 for his idea to combine set-up slips used in the division. The above picture was taken when he was presented his award check. Left to right are: Howard Schultz, Mr. Koch, William Eisennacher, and Bruce Rohn.

The Suggestion System acted as Santa Claus to 151 employees during the past few weeks to refill their Yuletide-depleted pocketbooks with a total of $1,600 in awards.

Herbert Koch, FHP Motor Div. 16, received $50, the highest award during the period, for his suggestion to combine the set-up slips.

Joseph C. Juettner, FHP Motor Div. 13, was given $40 for recommending a change to forming dies. Another $40 award was made to Juanita Brown, Danville plant, for her suggestion of a wedge before stacking.

For his suggestion pertaining to a Carboloy feed bar on a Heald grinder, John F. Driver, FHP Motor Div. 13, received $35.

Twenty-five dollar awards were presented to John Wood, FHP Motor Div. 13; Gerald Kummer, Wire and Insulation division; Clifford H. Geller, General Service division, and Betty Jane Puff, Bldg. 4-6.

Play Safe To Help Keep Christmas The Merry Holiday It Should Be

Trimming the Yule tree is an annual family pleasure; it just wouldn't be Christmas without it, for a gaily decorated tree, carefully lighted, adds to the enjoyment of the season.

Keep Christmas merry, and remember that the ordinary Christmas tree is one of the most flammable objects known, and that each year, fire turns the Yuletide, the most joyful time of the year, into one of tragedy in hundreds of American homes. A Christmas tree fire is very difficult to extinguish. The tree is filled with pitch and resin, and tests at Underwriters' Laboratories show that an average size tree takes less than two minutes to burn up. Such a tree can easily start a roaring blaze in your home before the arrival of the fire department.

The following rules will help you keep your home free from the misfortune of a fire at this happy season:

Don't attach too many light strings to one outlet, and be sure that insulation is not worn or sockets loose.

When hanging the decorations, stand on a stepladder or a sturdy stool, not on a box or flimsy chair.

Women should wear low-heeled shoes while helping to trim the Yule tree.

Don't under any circumstances, use cotton or paper for decoration on the tree or around the tree.

Keep your tree in water from the time you bring it home.

Make a fresh saw cut across the base of the trunk before you set it up.

Place the tree in a water-containing holder, and fill it daily.

For added safety, use only ornaments and decorations that are not easily set afire. Suggested are illuminated ornaments similar to those sold in the Employees' Store. They are approved by Underwriters' Laboratories, Inc.

Turn the lights off before you leave home.

From time to time, inspect the tree, to see if the needles near the lights have begun to turn brown. If so, change the location of the lights.

Don't allow burning cigarettes or candles near your tree, and don't forget to take the tree down when the needles begin to fall.

Ever Stop To Think That The Newsboy's Bike Is His Capital?

The newsboy starts a route, on foot. He can deliver 35 papers, he makes $3.15 a week, on bad days some customers have to wait.

He spends some money for movies but saves some to buy a bicycle. Now he can deliver 70 papers, make $6.30 a week, and his customers get their papers more promptly.

Now he can save more (profit) but he is wise and so puts some away in a special fund to replace the bike when it wears out. That's depreciation reserve.

If he's very ambitious he buys two bikes, takes on another route and hires another boy (wages) to cover it. Now he needs twice as much depreciation reserve, or when the second bike breaks down he will have no money to replace it, and so the second boy would be out of a job or would have to deliver on foot at half the wages.

That's all there is to business.

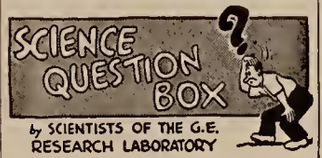
Is the first newsboy wicked because he makes a profit? Should he be prevented from accumulating bicycle replacement money? Is he oppressing the second boy by supplying a bicycle so he, too, can deliver more and so earn more?

No? Yet many people in high places say older business men are, when they do identical things. Think of the newsboy's bike when you listen to your next speech.

—Warner & Swasey Company

We Have The Cars!

America is the only nation in which the average man can own and operate an automobile. Not only that, but the annual operating cost of an automobile to an average American family—making adequate allowance for depreciation, repairs, insurance and so forth—probably exceeds the average total income, per family, of any other nation in the world.



Q-C Club Secretary To Supply Addresses Of Retired Members

Anyone desiring to obtain the addresses of retired members of the Quarter Century Club may do so by contacting A. C. Hartman, secretary of the club, in Bldg. 8-2, Extension 363. The importance of having the correct address on Christmas mail cannot be overemphasized, Mr. Hartman points out, so the list is being supplied of all those who retired for those desiring to send Christmas cards to them.

Last week Ralph Dennison left a check at home for his wife to do some grocery shopping with. But for some reason he didn't sign it. Either he wanted to be sure she didn't spend it all or his memory is getting short. It's all right to be economical, Ralph, and if you want to go on a diet that is a good way to do it. . . . At last Kenny Sheehan got a real buck (deer, that is). He and Al Olson made a second try at deer hunting in Pennsylvania last week-end and this time they were really successful. They each got their deer and only were hunting two hours. . . . Thelma Stapleton has told everyone that she sprained her ankle getting off a bus, but we understand the true story is that she was in such a hurry to catch up with a young man that she fell over her own feet. If you must chase someone, Thelma, please be more careful. . . . Have you ever heard any one carry on a conversation on the telephone with a eight-month-old baby? If not you should hear Gene Foster when he is talking to Mike. He keeps telling us that Mike talks back, but no one has heard him so, of course, we have our doubts. . . . Last week Gordon Smith was having trouble with his tractor. After working on it for some time and finally calling in the neighbors and finally taking it to the service station to see why it wouldn't run they discovered that Gordon had put kerosene in the tank instead of gasoline. Gordon, don't you know that those things won't run on anything but gas, and that is no way to save money.

Christmas Seals are sold in 29 countries to raise money to fight tuberculosis.

Q: What has been the population of the Earth in 1800, 1850, 1900 and 1940?

A: Since there are no accurate data concerning world population, and the statistics are quite unreliable in the Orient, where a large proportion of the total population lives, it is impossible to give a precise answer. However, Mr. Harold F. Dorn, secretary of the Population Association of America, gives the following as probably the best available estimates: 1800—919,000,000; 1850—1,091,000,000; 1900 — 1,527,000,000; 1940 — 2,100,000,000.

Q. How do electric fly screens work?

A. Some of the wires are connected to one side of an electrical circuit and the rest to the other the two sets being insulated but when the fly steps on them he causes a short circuit through his body, with serious results to the fly.

An optimist is a man who double parks while his wife runs into a store to make a small purchase.—Richard Armour. . . . Reporters do things too. Marie (Behind the Cracker Barrel in General Stores) LaMons was all set to get up early. She set the alarm, also the time hands, but failed to plug in the clock. It just doesn't run without that vital element—electricity. . . . By the way Edith Beaty has a new alarm clock that gets her up early enough to take a taxi to work. . . . Thelma Oswald is also an early riser. The other morning she got up at 2:45 to come to work. . . . Delores Wonderly is sure of making it home after dark. She has a new neon sign on the mailbox. . . . Santa visited at Ann Kensill's early. He brought a new Mercury. What big socks you have! Now all Ann needs is a filling station. . . . Dogs are the main subjects on Line 562. Luella Masson held her dog up to a mirror and it scratched her on the neck. . . . Clara Dixon gives her dog a bath every week. . . . Hedy Harrison's dog has a very special rug. . . . Marcille Thomas has a new doghouse. Her dog's name is even on it. . . . JoAnn Kemery pampers her dog by cooking special food for it. . . . Happy birthday to Betty Collier and Hedy Harrison. . . . Well, whadda know. Fay Stockberger is a brand new grandma. It's a good thing her dress has a zipper because the buttons would have popped. . . . Virgie Mayer has gone to Georgia for a visit. . . . Need a little minor surgery? Doris (Doc) Ryan is very helpful. . . . Vera Ramsey and Genevieve Ayres were visitors last Friday. Genevieve was a former leading operator and Vera, a former co-worker. . . . It's a small world so think Hedy Harrison and Marcille Thomas. They both went to Indianapolis (not together) and saw each other in a restaurant. . . . Ivah Grandstaff had a big surprise the other night. When she got home from work, the house was filled with flowers and supper was ready. It wasn't an anniversary or birthday, just good friends.

OUT OUR WAY

By J. R. WILLIAMS

151 Employees Receive Suggestion Awards

John Driver, FHP 13, (right) is pointing out the various features of his recent suggestion to Ewald Stinsmuehlen, Foreman. Mr. Driver received $35 for his suggestion to change the feed bar on the Heald grinder to Carboloy.

(Continued from page 1)

ending Friday, Dec. 9, included:

Clarence DeArmand, Harold Blauvelt, Harry Ribel, William West, Fred Bressler, Neil Anderson, William Jones, Harold Harrington, William Suelzer, Betty Ann Carsten, Ruth Gehfert, John Hinrichs, and Claude Gill.

Those receiving awards ranging from $5 to $20 during the past two weeks are listed below:

FHP Motor Div. 1: William G. Tennison and Herbert C. Braun.

FHP Motor Div. 13: Augusta B. Wynn, Donovan Garton, and Charles K. Winans.

FHP Motor Div. 14: Robert J. Till, Esther E. Watson, Myrtle Barfell, Clarence C. Rothgeb, Earl E. Mossburg, and Helen Lucille Miller.

FHP Motor Div. 15: Richard J. Young, Earl W. Souers, Paul W. Arnold, Francis F. Fann, Dale B. Peden (two awards), Leola R. Carrier, Faye I. Christie, E. James Battrick (two awards), Richard L. Anderson, Wilbur E. Tibbitts (two awards), Oliver H. Bowman, Merl E. Bryie, Richard J. Young, and Gilbert D. Brookhart.

FHP Motor Div. 16: Eunice Zehr (two awards), Herschel E. Odier Victor Bareus, Eugene Hutsell Daniel Barnhart (two awards) Melvin F. Kiessling, Maude Goodrich, Max Fielitz (two awards), Walter H. Buesking, Art Maske, Stephen A. Sallot, Jr., Frank A. Brohman, and H. K. Beam.

FHP Motor Div. 17: Harry L. Byall, Eugene G. Foster, Harold H. Fletter, Lloyd Garrison, George N. Miller, Eldon R. Lewis, Ruth Leverton, Raymond A. Pickett, Fred Young, Norman W. Wolf, and Clifford J. Balyeat.

FHP Motor Div. 19: John R. Miles, Raymond N. Hakes, Claude L. Gill, and Harold George.

FHP Motor Div. 10: Robert L. Schuelke, Rose E. Johnson, Helen C. Burnam, and Ruth K. Hite.

Decatur Plant: Jason Moser and William Hunt.

DeKalb Plant: Clifford V. Smith William Sipavich, J. Donald Ramsey (two awards), Harold Pippin (two awards), Art Bell, Harry Meineke, Russ Wiley, Earnest Freeman, George Cavanaugh, Ralph Carey, Myrtle Burchard, Paul Judah, Walter Hartwig, and Walter Gibson.

Specialty Transformer Div. 91: Glenn R. Kaylor (two awards), Robert Bunyan, Merle E. Byers, Donald C. Ford (three awards), Mary J. Horrell, Donnabelle Wagner, George W. Schafer, LaVern V. Schultz, Gerald Crum, Grover F. Rhodes, Robert M. Bultemeier, John S. Sowers, Doyle D. Miller, and Glenn Robinett.

Specialty Transformer Div. 94: Grace V. Bolyard, Donald E. Waldrop (two awards), Billie Tucker, John Lea (two awards), Albert E. Miller, Eugene F. Mettler, Lee Mohr, Edward M. Lullaghan, Howard Shipman, Lester Baker, Alfred A. Arlic, Edward J. Murchland (two awards), Ned D. Greulach, Clifford P. Thompson, and Lester L. Baker.

Danville Plant: Earl D. Miller, Ted Henderson (two awards), Owen Bedard, Margery Hines, Ray Adams, Elma A. Wynn, Cleo Woodard, Kenneth Prater, Nellie Embree, Octave Andre (two awards), Roy Tarpley (five awards), Ray Hinriehs, and Peter Szollosi.

Motor and Generator Division: Helen M. Stahl, Amos Schladenhauffen, George L. Santon, William H. Molthan, Herman J. Krock, Arthur Keller, Lloyd C. Brown (four awards), Otto Brokenstein, Richard K. Hobson, Ralph E. Jacobs (two awards), Mabel Stovall, Betty R. Eisenacher, and Joseph Miller.

Wire and Insulation Division: Carl M. Junk (five awards), Delmas W. Detter, Garnell Parkison, Alfred J. Rudasky, Burl D. Teboe, Gerald Kummer, and Harold Barriek.

Tool Division: Glenn Kline, Leslie C. Hines, and Richard Burns.

General Service Division: Alva R. Johnlos, Russell J. Maxson, and George F. Ely.

Distribution Division: Anthony J. Koorsen.

Miscellaneous: Edna Mowery.

Joseph C. Juettner, FHP Div. 13, received $40 for his suggestion to change forming dies.

Pick-Ups

Bldg. 26-3

By Elvira Romary

I once had money and a friend;
Of either, thought I store.
I lent my money to my friend
And took his word therefore.
I sought my money from my friend,
Which I had wanted long.
I lost my money and my friend;
Now was that not a wrong?

The stork has certainly been as busy as a bee (to coin a phrase) with all the new arrivals coming along. The Gene Mettlers have a boy weighing 7 lbs. 1 oz. named Thomas. The Eldon Stanleys have a boy weighing 7 lbs. 9 oz. and named Brian Lane. Do you all remember Maxine Patterson? She has a girl weighing 7 lbs. 13 oz. and named Cynthia Jane. Congratulations to all of you. . . . Jerry Miller came to work last Friday with his T-shirt on inside out. So much embarrassment can be saved by getting up three minutes earlier in the morning. Why don't you try it, Jerry? . . . A very happy birthday to Edna Boland. . . . Gene Scherer and Herman Curry have given up smoking. We think there must be an easier way to save money. . . . Why has Farold Schuemann been so dressed up the last couple of days? . . . We think a fine Christmas gift for Gene Scherer would he a pencil with a string attached to the end so he could hang it around his neck. . . . We would also like to know where Phil Robertson gets all his bright (and I really mean loud) sweaters? . . . Maxine Mertz should hang a "do not disturb" sign on her when she concentrates on standards. She usually forgets where she is going to get them. Cheer up, Maxine, better days are just around the corner. . . . Jackie Trier has a method of elimination. If your boss gets in your way, which is what Harry Keller did, just tap him lightly on the head with a window pole. Believe me Harry is now giving Jackie a wide berth. . . . If you have noticed how haggard Donna Bailey is looking it's because she is in the process of moving into her new home, and it's sooo much work. . . . When gifts were presented to Gene Mettler and Eldon Stanley you never saw two people more nervous than they were. Their hands shook so badly they could hardly get through the paper to the box. After the gifts were opened Rose Smead exclaimed, "Oh, how tiny." Were you expecting full grown men, Rosie?

Two G-E Men Are Elected Officers Of Professional Engineers' Chapter

Two G-E engineers were elected as officers of the Anthony Wayne Chapter of the Indiana Society of Professional Engineers at a meeting Monday night at the YMCA. L. W. Wightman, Bldg. 4-6, was elected state director, and R. P. Cheesman, Bldg. 16-3, secretary-treasurer. The other new officers are Richard J. Erh, state president, and Robert E. McKibbin, vice president. K. K. Cooper, Winter St. plant, was the president last year.

Orders Being Taken For Kindling

Kindling orders are now being taken at the Employees' stores, it was announced today.

G-E Foremen, Supervisors Hear Talk By Fred Smith At Semi-Annual Dinner

Fred Smith, Vice President of the William Powell Valve Co., Cincinnati, O., addressed members of the Foremen's Association and Supervisors' Club at their semi-annual dinner last week in the G-E Club auditorium. Mr. Smith was introduced by L. C. Swager, Assistant to the Works Manager. Shown above are: l. to r.) Everett Lindeman, president of the Foremen's Association; Mr. Smith, Mr. Swager, and Ivan Rinehart, p esident of the Supervisors' Club.

How do husbands always know that the night they offer to take the wife to the movies will be the one she wants to stay home?

Dr. Zay Jeffries, Vice President, To Retire Dec. 31

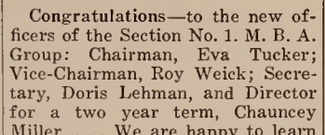
Dr. Zay Jeffries, of Pittsfield, Mass., Vice President of the Company in charge of the Chemical Department, will retire Saturday, Dec. 31, Charles E. Wilson, G-E president, has announced.

Long a pioneer and leader in the fields of chemistry and metallurgy, Dr. Jeffries was vice chairman of the War Metallurgy Committee and chairman of two of its subcommittees during the war. As a part of the Manhattan Project for research and development work on the atomic bomb, he also served as a consultant for the University of Chicago metallurgical laboratory. He has been a member of G-E's four-man committee which administers the Nucleonics Project, the work on atomic energy being conducted by the Company for the government.

Dr. Jeffries is a native of Willow Lake, S.D., and received his B.S. degree at South Dakota State School of Mines, as well as the degree of metallurgical engineer and the honorary doctor of engineering degree. He earned his doctor of science degree at Harvard University. He is a member of the National Academy of Sciences, the most renowned organization of scientists in America.

In 1911 Dr. Jeffries became a member of the faculty of the Case School of Applied Science at Cleveland, O., and four years later was made director of research for the Aluminum Castings Company. Subsequently, he became consulting metallurgical engineer for the Aluminum Company of America.

Dr. Jeffries began his G-E service in 1914 as a consultant to the National Lamp Works. He served as president of the Carboloy Co., Inc., G-E affiliate, and as a member of the board. Later he was technical director of the G-E Lamp Department. In January, 1945, the G-E Board of Directors elected Dr. Jeffries a vice president and placed him in charge of the newly-formed Chemical Department, which has taken the responsibility for operations pertaining to resins, insulating materials, plastics, silicones, and other products.



For his work of achievement and leadership, Dr. Jeffries has earned numerous honors and medals during the period from 1927 to 1948, among which was the Gold Medal of the American Society for Metals. He also received from the government in June, 1948, the nation's highest civilian honor, the Medal of Merit for services with the War Metallurgy Committee.

In addition to his membership in the National Academy of Sciences, Dr. Jeffries is a member of the American Institute of Mining and Metallurgical Engineers, American Institute of Physics, American Society for Metals, American Association for Advancement of Science, Cleveland Engineering Society, Franklin Institute, Institute of Metals of Great Britain, American Chemical Society, American Philosophical Society, and Newman Society.

Santa Claus Is Center Of Attraction At Decatur's Annual Christmas Party

Santa Claus was the favorite of all the children at the Decatur G-E Club's annual Christmas party last Sunday afternoon.

Congratulations—to the new officers of the Section No. 1. M. B. A. Group: Chairman, Eva Tucker; Vice-Chairman, Roy Weick; Secretary, Doris Lehman, and Director for a two year term, Chauncey Miller. . . . We are happy to learn that Jean Ehringer, a former Accounting division employee, has presented the world with a very beautiful five pound daughter. . . . Mildred Whitmer has returned to work following a few days illness. . . . Doris Lehman, Bldg. 18-2, was absent last week due to a severe attack of tonsilitis. . . . It is disheartening to see a very lovely convertible, mentioning no names, parked, in the restricted Company parking area, with a slightly deformed bumper!

(Continued from page 1)

sented "Shepherds Shake Off Your Drowsy Sleep" and "The Sleigh."

The story of the "Three Wise Men" and their visit to the mangercrib was then enacted by the following: Wanda Foor, as Mary; Jerry Ross, Joseph; Jack Eady and Waymon Patrick, shepherds; Kenny Gaunt, king with gold; Jason Moser, king with incense, and Charles Omlor, king with myrrh.

A verse, "Santa and the Mouse," narrated by Katherine Steele, was then enacted by Freddie and Mickey McDougal.

A piano duet, Evangeline Embler and Eileen Bierberich, then presented "March of the Toys," while a group of children marched on stage. The toy trumpet player was Freddie McDougal, Jerry Laurent was the drummer, and the toy soldiers were portrayed by Theresa Laurent, Diane and Janet Baker.

Santa Claus then made his entrance amid a flurry of snowflakes and the program was concluded with the singing of "Silent Night" by the choir and audience.

J. J. Baker acted as master of ceremonies for the program.

Arrangements for the party were handled by the following:

Verena Meyer, decorations; Mary Ann Laurent, tickets; Hilda Staley, distribution of gifts, and Charles Cook, Ardella Heare and Rosemary Miller, stage managers.

General Foreman Receives Praise For His Assistance In Providing Blood Donors

Ralph McCain, Bldg. 4-5, will return to work a healthy man next week due greatly to the efforts of his general foreman, W. L. O'Brien, and his other fellow workers.

Mr. O'Brien gathered a sufficient number of blood donors, both from the division and from outside the Company, to keep Mr. McCain supplied with blood during his recent illness.

The task of finding donors was complicated by the fact that earlier many on the floor had already contributed their limit of blood for that period to help Forest Bunner, another member of the division who was recuperating from an operation.

The cooperation given by Mr. O'Brien is typical of the many acts that supervisory personnel are in a position to do in the interest of their employees.

Fruechte Dies

Arthur C. Fruechte, 47, of 305 McKinnie Ave., died at 1:15 p.m. Friday, Dec. 9, at Methodist Hospital. He had been ill six months.

Mr. Fruechte was a 1926 graduate of the Apprentice School, being employed in 1923. He first worked in the Meter department and since 1937 was a draftsman in the Motor and Generator division.

Corn S'talks

TAYLOR ST. SHIPPING

By Sally Ford

Straighten up and fly right, folks, for Santa Claus is coming to town and we must be on our best behavior. . . . *Caution*—if any candy is missing don't blame a mouse. We have a two-legged one, Kate Richter. While playing a joke on her girlfriend she nearly ended up with a tummyache. . . . Yours truly was all smiles last week. Reason — a newspaper clipping from my mother-in-law in Boston. The news—A picture of Ted Williams entitled, The Most Valuable Baseball Player of the Year." . . . *Thoughtful* is the word for Jean Carrol's husband. He came home with two beautiful blouses for her. A very nice surprise. . . . *Question of the week?* Who were the two gorgeous blondes at the Fireman's basketball game last week? Ask Al Meyer. . . . I've seen everything now. Marge Gordon now comes to work in a dairy wagon. Her milkman took pity on her and gave her a lift. How was the ride, Marge? . . . We are happy to announce the approaching marriage of Barbara Reeb and her fiance Robert Cleland. CONGRATULATIONS! . . . Monday mornings may be blue for the majority but Gloria Beverforden is the exception. She came in singing "Accentuate the Positive". Wonder if the reason is her learning to drive a car last week-end with her boyfriend as instructor? . . . Bob Walters celebrated his birthday a couple of weeks back. These men are so secretive about their birthdays that we never know until several weeks later. So we are now wishing him a belated happy birthday and hope you have many more, Bob. . . . Due to Maurice Petgen's untiring effort, a special bus has been added at Taylor Street for passengers catching the specials at Broadway. We wish to thank him for his good work. . . . Alice Uffelman is undergoing a tonsilectomy this week. Hope she doesn't lose her voice. Hurry back, Alice, for we miss you. . . . Wonder what these women do on their lunch hour? My reason for asking is—Dolores Connin swears she saw real live elephants going down Calhoun Street last Monday at noon. Are you sure they weren't pink elephants, Dolores? Guess her shopping spree in Chicago is giving her hallucinations. . . . Time to say cheerio. . . . See you next week.

Christmas Party

(Continued from page 1)

taining the armed forces. Conlin has five citations from the government.

SPARKS & CONLIN

Since this seems to be the time of season for hunting stories, it would not be complete if Kenny Gillenwater was not mentioned. Kenny started after a rabbit Tony Miller had crippled and after chasing it for 10 minutes, the rabbit looked around to see who was chasing it. After seeing Kenny it dropped over dead, and he hadn't even barked yet. Later Kenny kicked up a rabbit, aimed, fired and kept firing till the rabbit was out of sight; all before Kenny found out the gun wasn't loaded! Better take a salt shaker along the next time, Kenny. . . . The bowling team lost two games to the girls team Friday night. Same old story. Too little—too late. Everyone was just about his usual form, except Roger Crabill. He was having the same old trouble. Loyalty is a wonderful thing. Too bad more of us don't think of it. . . . Speaking of loyalty, Al Middaugh and Frank Magers really go all out for it. Neither of them will come to work until both are ready, even if it means they'll both be a half hour late. . . . Ed Klomp is vacationing this week. Not much of a vacation though if he doesn't succeed in getting rid of that cold he has. . . . Next Saturday is the party, so get your tickets and be ready to join in the fun. Let's see all of you guys and gals out there. . . . Frank Surface spent a fortune and a lot of time and labor to put in a gas water heater. Now he doesn't know if the gas company will hook it up for him. Why not use some of that gas you manufacture, Frank? . . . The boys nearly got to go ice fishing last week, but the ice didn't get ready as quickly as the ice fishermen. . . . After seeing Dick (Junior) Wagner with a big lollipop in his mouth, we were all longing to be a child again. He was really giving it a massage, and looked like a trumpet player sounding "A". . . . We had a couple of surprises Monday morning. First of all Harold Moore was back with us. Welcome back, Harold, and stay away from the ditches. . . . Oh yes, the second surprise, Ray Solga appeared on the scene with a fresh hair cut. That will take care of him 'till Easter. . . . Norb Lose has promised to take Tony Miller and Don Kruse rabbit hunting but it seems as though he has an excuse for every Saturday, and so far has not taken them. . . . "All I want for Christmas is my two front teeth," says Walter Fritze. Maybe Santa will hear you. . . . That glow Virginia Harris is wearing isn't all Christmas spirit showing—her husband is due home from school tomorrow. Life can be beautiful—huh, Virginia? . . . Congratulations to Ruby Lydy who has a new daughter, Linda Kay. (Many of you folks will remember Ruby who worked in the Winding section.) We hear Mamma and Papa and Baby are fine. . . . Carl Cochren stopped in to say hello to the gang. So glad to see you and come again soon. Say by the way, we are looking for you and all the pensioners Saturday at the party. Don't forget. . . . That Christmas tree certainly adds holiday spirit to our floor and to our people too. All we can say is—it's wonderful. . . . Santa must have read Maxine's plea for a new car in last week's column 'cause the Bakers are sporting a new Ford. . . . After some little ribbing Frank Magers was presented with his membership card in the Southwest Conservation Club. That sure was a funny expression on his face when he first opened that rejection letter though. . . . We're all very happy to hear that Charlie Schild is feeling much better. Hope to see you up and around real soon, Charlie. . . . If Kruse doesn't get any closer to a rabbit than he did Saturday, he won't need to worry about rabbit fever. Kruse lost the rabbit which escaped through a tile, although his rabbit nose was working. Lose says he shouldn't feel bad cause he still has the ears.

It's easy to laugh at misfortune when you're the one it misses.

Chenoweth Is Honored At Retirement

Pearl C. Chenoweth was honored by his friends in FHP Div. 14 when he retired Thursday, Dec. 1, after 37 years of service with the General Electric Company. He is being congratulated on his retirement by his foreman, R. E. Bobay, while several of his friends are looking on. Left to right in the photograph are: John Heine, Joe Roebuck, Eldon Burns, Mr. Chenoweth, Joe Monahan, Jesse Devaux, Mr. Bobay, and William Kiser.

Ed (Twinkle Toes) Brockhall had quite an exciting week-end. Last Saturday he went fishing and when he arrived at the lake he was so excited about going fishing he forgot to pull off the highway. After he had caught his limit in bluegills he went back to his car and there on the windshield was a sticker for parking on the highway. After Ed paid his fine ($44.15) he said those are the most expensive bluegills he ever caught. Ed being a brave man went fishing again Sunday. We didn't hear how many he caught but we did hear that the ice melted pretty fast when he started for shore. For a man weighing 255 pounds, Ed said he knew when he started for the bank he only weighed about 20 pounds. He was really light on his feet and just when he stepped on shore the ice broke behind him. That explains the name of Twinkle Toes. . . . Have you noticed the haircut and the new hairdo Pearl Everly is wearing this week. Very pretty, Pearl. . . . Jackie Elder and Peggy Bandt won't have to take any days off this Christmas as they already have their Christmas cards addressed. . . . Anyone see Gus Harrison having his V8 pushed last Sunday by a Chevrolet? What's the matter, Gus, aren't they teaching you enough at Central on how to keep a V8 in running condition. . . . Ray Pickett enjoyed a long week-end. He was off Friday and came in late Monday morning. . . . Selma Voight is back in the lead section again after her recent journey over to fan motor. . . . We asked Ruby Stoops where Marg Stahl was last Monday, and Ruby said she must be taking in too many basketball games. . . . Oral Emrick has found a new way to wash his face without water. He just ducks his head in compound. We have been wondering where he got that fair complexion. . . . Minnie Lung got up late one morning last week and didn't have time to eat breakfast. We hear when she got to work some kind person gave her a cup of coffee. . . . Every time Alice George is late she claims the alarm clock didn't go off. Now is a good time to tell Santa Claus about it, Alice. . . . Glen Miller brought Knute Melching two little kittens to work in a paper sack. We're wondering how Knute got them out. You can bet Knute gave him a tall story. . . . Welcome to Charlotte Blauvelt, who has been transferred into final test. . . . Gladys Mosshammer Panazin won't give us any more news. She claims everything she does she gets into trouble.

Our annual Christmas party was held last Saturday evening in the G-E Squares Hall. The Emcee, Bill Schible, seemed to have a little trouble getting the program started due to Andy Frank's baby (Tez Trump). Andy couldn't find a baby sitter, so he brought "it" with him in an oversized baby buggy. We'll believe Stella Trumbower when she tells about the carpentry she does, since she won the wood drilling contest. Boodles Bendel says he'll never be able to look at another marshmallow. Eight in one mouthful could turn you against them. Jay Greer should consider himself lucky, his wife having saved him from the "hot seat" or was it merely charged? Some people really seemed to get a charge out of it. Have any of you heard of the three "M's"? Mary, Mesing, and Mistletoe? After a buffet luncheon, everyone round and square danced to the tunes of the Dogpatch Dodgers. . . . Who is Pete Hillman? . . . If anyone has noticed a fragrant aroma among your fellow workers, just look for Virgil Kline. It seems he bought his wife some honeysuckle bath foam and sampled it for her.

Birthday greetings of the week go to Clarence LaGras. . . . Congratulations to Charles Kirkpatrick who was married last Friday. . . . Welcome, Forrest Bunner to first shift. . . . Our aircraft production man, Robert Shuster, has a new theme for the week, "Motors, motors, motors, and more motors."

Crummit Completes 30 Years Today

Herbert G. Crummitt, Accounting division at Taylor St., celebrates his 30th anniversary with General Electric today. Last week he was presented a congratulatory letter and the best wishes of his co-workers. Left to right in the picture are: Ann Jacobs, Robert Wildermuth, H. C. Brudi, Lura Wyatt, Paul Gellert, Mr. Crummitt, C. M. Schnieders, and L. I. Asher.

Thisa and Thata "SPECIALTY MOTOR"

By Helen Engle

It seems that some people by the name of Smith who live on the Getz Road had a duck. The duck was very tame and roamed the neighborhood but once it got into the wrong yard and now is no more. The dog that the Don Greenlier family thought was just a mutt has turned out to be a bird dog. Too bad you didn't find it out sooner—you might have had some luck during the pheasant season or the duck season, Don! By the way, Don, do you have a duck stamp on your hunting license? . . . Hilda Seiler got a letter from a former coworker, Billie Diaz, who is now living in Bogota, Columbia, South America. She really likes it down there, and says that the flowers are just beautiful! . . . Pat Buchold left to make her home in Jackson, Mich. Lots of luck, Pat, and hope you and your husband like it in Jackson! . . . Olive Elliott is grandmother again—a grandson this time named Gary Lee. Congratulations, Olive! . . . Anna Ruth Clements had her initials put on her pen the other day and was proudly showing it off to several people who were standing just outside the office door. They all exclaimed about it and she walked on to the office and sat down at her desk. She reached for her pen to sign something and imagine her surprise when she couldn't find it. She had it a minute before just outside the door, and now she didn't have it. Where could it be? She asked several people but not one had seen it! Later in the afternoon someone found it stuck in one of the cubby holes in Frank Laier's desk. Someone had found it and had tossed it there! . . . We are going to take up a collection for Alva Foulks for a pair of suspenders. We are sure he won't lose them then. . . . Birthday greetings to Velma Hetrick. . . . We welcome the following people to Div. 1. . . . Howard Colby, Robert Markey, Clarence Weimer, Mary Sitko, Charlotte Clover, Faye Christie, June Hines, Betty Baker, Emma Tschannen, Caroline Becker, Glenn Miller, Alice Snyder and Robert Kerr. . . . Willard said he had fair luck with his cisco fishing. . . . Hope Hatfield, who is recovering from an operation, wishes to thank all the folks who have remembered her. She is doing as well as can be expected. . . . Boy! Can Martha Scherzinger bake the cookies, so can Florence Rekeweg. We know cause we sampled some. . . . Our sympathy is extended to Clarence Renschler in the death of his father-in-law. . . . Reggie Eggeman bought a little mechanical dog which the man demonstrated out in front of the G-E the other day. It wiggled its tail and head and also barked when you wound it up. But Reggie couldn't get her dog to bark so she took it back and was told she was supposed to make the noise. Could we sell you a book on ventriloquism, Reggie? . . . We would like to find a way that Clarence Nahrwold could get a little more hair on his head as it has started to get cold outside. Please, someone give us some help! . . . We wonder if Wendell Heckley's car can get him back and forth to bowl on Tuesday nights since it is so cold. We always thought it was a warm weather car. Better watch out and keep the motor running while you bowl, Wendell, as it is a long walk from Fort Wayne to Ossian. . . . Harry Berry, you had better change you way or Santa will not come this year. What say, Harry, are you going to be a good boy? . . . Elmer Koehlinger, why are you so quiet? Are you afraid if you get too loud that Santa won't come? Go ahead and talk, Elmer, he will be there, you have been a nice boy—almost all year!

Don't worry about your hands getting cold this winter. Prices will keep them in your pockets most of the time.

Idea Brings $25 Award

John Wood, FHP Div. 13, was awarded $25 recently for his idea to make changes on the automatic welder.

Tricks In Transformer

—FROM DIVISION 91—

By Bob Bunyan

Our Christmas exchange got into full swing this week. There are 30 employees taking part. A number wonder just why George Horner won't trade his ticket. Maybe it's a new friend. . . . Does anyone have a spare fender that would fit Joe Collis' Kaiser? It seems Joe misplaced one on a telephone pole in his own driveway. . . . Why does Ad Ragan always wiggle his ears when someone mentions Mule Train? . . . Those shoes of Paul Noffze must have been a terrible misfit after Don Huffman wore them that week. Anyhow we noticed a new pair on Paul this morning. . . . Eddie Daucher was presented a new G-E pipe lighter by Paul this morning. This one is even personalized. . . . You can be sure winter is here now; Bill Conrad put on a shirt. . . . A potluck dinner was given for Evelyn Schnepp who left last Friday and Joan Foltz, who leaves this Friday. Both are leaving to keep house. The dinner consisted of chicken and noodles with a number of tasty sides, dessert and coffee. Both girls were presented a present. Those attending were Dorothy Fett, Eula Black, Donnabelle Wagner, Helen Deloff, Mary Keiler, Luella Allen, Mildred Sadler, and Dorothy Curry. We hope you girls won't forget us, but come in to see us. . . . Roe Ormiston is complaining again about the boys overloading the buggy press with that end shield die. . . . John Laymon returned to work Monday after finishing his post graduate course on law. He said he was glad to hear those presses again. . . . If Jim Stauffer really wants one of those flashy red shirts, he should see Herman Gebert. I understand his display of colors has attracted so many admirers he is now taking their orders. I wonder where the sale is?

ICE FISHING WITH AUGER AND SAW: Orville Doherty has made another bid for the tall story teller of the year. Orville tells us that when he goes ice fishing he uses an auger to start the hole then a saw to complete it. Then after fishing through this hole all day and night he puts the piece he cut out back into the hole. What are the elements of the weather doing all this time, Orville? After you have been pulling and splashing water out of this hole all day and night doesn't it freeze and make the hole smaller or melt and make it larger? It must either fit very snug or very loose, or doesn't it? Anyway Wimpy Lemper tells us you do it the hard way. He always cuts his ice holes before he leaves home. . . . SANTA CLAUS: Aaron (Porky) Schoenefeld is a very good mechanic, but from what we have seen we believe that the mechanical Santa Claus in Murphy's window must have him stumped. Porky spent over three hours the other night watching it in operation. Was the hand quicker than the eye, Porky? . . . OYSTER TOE: Herb Thompson is limping again; this time he claims he dropped an oyster on his toe and it's all black and blue. In fact it required medical attention. Pardon us did we say oyster, we meant to say a quart of oysters. Just how do you manage to get enough money ahead to buy a quart, Herb, old boy. Let us in on it. We like those slippery things too. . . . BUBBLE BATH CHANGES COLOR AND GIVES IT THAT DULL LOOK: It's that Thompson boy again. He decided to wash his car over the week-end but was out of the washing powder he usually uses. His little helpmate the Missus came up with a grand idea (At least that's what they thought). Why not use bubble bath powder if it doesn't take off the color and skin of a human it certainly would not hurt to use it on a car or should we say a green Ford, which is now white with a very dull look. Experience is again the best teacher folks and there's no doubt it is a very easy and cheap way to change colors quickly. May come in handy some day when you rob a bank to get more money to buy more oysters. . . . CIDER PRESS: Harry Perl just purchased a brand new cider press. We wonder why. Couldn't be he is going into the cleaning and pressing business. Whatever it is, Harry, your assets should be liquid. . . . HUSBANDS, WIVES AND SWEETHEARTS: If you have not as yet purchased that Christmas gift and have in mind a good looking purse, billfold or belt made of real leather at a very reasonable price may we suggest you contact Charles Bilskie, a young man who has the misfortune of being blind. He uses this means of making a livelihood. He is also a singer. No doubt, you have heard him at the G-E club some time or other. His address is on Columbia Ave. Thanks, folks.

Personnel-ities

By Ceal Romary

We have a new member on the floor in the person of Dale Amstutz. Welcome to the Personnel division, Dale. . . . Ruth Shull is tired of everything going out and nothing coming in. The other day, while hurrying back to play Canasta, she fell up the steps. P.S. It didn't work. The stair rail saved her. . . . Veora and Herbie Habig, and Sue and Art Seidel motored to the Windy City to see the Chicago Bear-Cardinal game. A good time was had by all. . . . We understand from very good authority that Evanel Holman's husband is thinking about changing jobs. The new one—interior decorating along with color scheming as a side line. . . . Congratulations are in order for Irene Meyers who celebrated her birthday Monday. . . . George Waldschmidt returned to work Monday. It's nice to see you back, George. . . . Anyone interested in playing Canasta in Bldg. 8-2 during noon hour is cordially invited to sit in, however, you are required to buy your lunch at the Works Cafeteria between 12 and 12:30 p.m. I. D. Rinehart will screen all applicants to the game to see that this rule is enforced. . . . Marie Alleger has been suffering from "step-itis" this past week. She moved into her new home and the steps were too much for her. At the time she moved she thought it wasn't worth it. Now, she has changed her mind. . . . Now that the football season is over, we understand that Al Hartman and Don Campbell are friends again. The only way we could settle their dispute would be to have Notre Dame and Northwestern schedule a game. . . . Celebrities are a dime a dozen in Bldg. 8-2, what with Marian Davies, K. W. Michael and Loyd Bodenhamer's pictures all appearing in the local newspaper. . . . Last but not least the great H. L. Smith of the Safety section, was elected president of the Mental Hygiene Society. Congratulations, Herschel, we knew you were physically fit.

Roebke Chalks Up 30 Years

Fred W. Roebke, FHP Div. 17, chalked up 30 years' service with General Electric Friday, Dec. 2. At that time he received the best wishes from his co-workers at Taylor St. Pictured above are: (l. to r.) Leaman Huffman, Mr. Roebke, Edwin Sliger, Eric Hellwig, B. B. Gausepohl, and Leonard Sordelet.

Friends Honor Sroufe On Anniversary

Saturday, Dec. 3, marked Samuel J. Sroufe's 30th anniversary at General Electric. On the preceding day he received the best wishes from his co-workers in FHP Div. 15. He is shown above being congratulated by his foreman, Adam Flager. In the above picture are: (l. to r.) H. G. Siebold, Mr. Flager, E. F. Sonday, L. D. Hodell, Henry Doehing, Mr. Sroufe, Jess Moore, Kurt Trapp, and J. W. LaVine.

Pensioner Parade

We got a letter from Curtis F. Martin saying that he wishes everyone a "Very Merry Christmas and a Happy New Year and may God bless you all." . . . George Davis has moved to 45 E. Bay St. in Charleston, S. C. His new home is about 150 yards from the Cooper river, which is a fine fishing ground. He says that he has been out only a few times and didn't do too bad for a fresh water fisherman. George states that he can watch the boats come and go while looking out of his window. . . . E. A. Barnes, former General Superintendent, sent us an interesting item and picture of an old electric railway at Brighton, England. Mr. Barnes did some of the installation work on this railway. To tell the story in his own words, it is: "Before I got in with the Edison interests I roamed around in several of the electrical companies in and near London. One was Patterson and Cooper Dalton, East London, who built the generator and motor for the Volk's folks in Brighton a South England resort, and it still is. It was, as I remember, 44 in eight copper brushes . . . picked 250-300 volts current up off the main rails, which were more or less insulated from the earth and the wheels were insulated from the axles. Without feeling, one could get an unpleasant jolt if you straddled the rails. This railway was about a quarter mile long. The V-E. R., as I remember, was Volk's Electric Railway, also Victoria Empress-Rex (King). Two of the budding youths of the engineering force were sent down to Brighton to adjust the brushes-switches and resistance boxes (called rheostats now). It was quite an experience for me. Magners Volk who was a naturalized Britisher was an old gent with white 'spinach' and stove pipe hat, quite the rage in those days, as were the gallways and loose chewing on the face. Quite an advance from those days that one sees on our streets today. I thought some day you might want to get a laugh from the sober minded folks here. Cheerio."

Medical Memos.....

by Mary Heymann

Even the air seems to be full of Christmas plans. You are liable to overhear remarks like these any time: "Whose name did you get in the drawing?" or "What kind of cookies are you planning to bake?" All of the many preparations help to make the simple everyday activities seem full of mysterious secrets. . . . Dr. H. W. Garton spent several days in Schenectady. According to him the weather there was grand. . . . We are happy to have Thelma Harrison back with us again. At present she is on days in Bldg. 21, but will leave for Taylor Street second shift to take the place of Mrs. Martin, who after tonight, will again be a full-time housewife. The people on second trick at Taylor Street will miss her pleasant disposition and ready smile. . . . Elex members enjoyed the annual Christmas party. The Harmonicats were featured on the program. Of course, they shared the spotlight with another prominent individual at this season, Santa Claus. It was a lovely party. . . . When buying your Christmas seals this year, do remember that you are helping to wage an unceasing war against tuberculosis. This year alone, more than 22 separate yet coordinated studies are being aided by the National Tuberculosis Association and its affiliates. Since 1904, the over-all TB program has helped cut the death rate by 85 per cent—yet this disease kills more people between 15 and 34 years of age than any other.

M. B. A. Sick List

Ernest Allmandinger, Betty Sapp, Mary Blanchard, Leonard Floyd, Maurice Cook, Edward Farrell, Clarence Schooley, Johanna Alles, Edmund DeWeese, Clarence Hartman, Beulah Briner, Marguerite Dasher, George Earl, Donald Ertel, Alta Franklin, Ionena Foster, Robert Hickman, Sarah Meagher, Agnes Ryan, Joseph Schlotterer, Henry Tucker, Carl Mosser, John Redmerski, and Grace Hall.

What the little kids would like to save for a rainy day is school.

Tool Bits — Bldgs. 19-4 & 5

by Harry Travelbee

Until now, nobody knew we had a genius in the pattern shop in Bldg. 19-5. Ed Gruber discovered perpetual motion—well almost. It was an interesting experiment, wasn't it? . . . George Luker's mind must have been on milking his cows while he was riding the elevator Thursday morning, because he got off in Bldg. 19-4 and tried to punch his clock card there instead of Bldg. 19-5. . . It looked like an invasion last week when several of our friends on retirement paid us a visit. Among them were Charlie Klepper, Bill Jeffries, Johnny Roebel and Loren Boxel. We're sure glad to see you fellows and please drop in whenever you can. . . . Lowell Welker finally broke down and bought a car. At least it was called a car in 1934. Now it's only $45 worth of negotiable scrap steel. Lowell says he gets good gas mileage on it and Hoop Suelzer says he should with his wife pushing most of the way. . . . Woody Hursh was in a play at Leo where he was cast as Tarzan chasing Dorothy Lamour through the aisles. Woody almost resigned from the part when he couldn't locate a leopard skin. Finally, a neighbor took a feed sack and cut holes for Woody's legs and spotted it with brown paint. . . . Milo Rauner is sure of getting at least one Christmas present as his wife called him aside and gave him a classy looking cigarette lighter. She told Milo that he was getting him something else to put under the Christmas tree. How do you rate all the attention, Mike? . . . Thanks for the cigars, Frank, and congratulations on the new baby boy. The parents are Mr. and Mrs. Frank Lebrecht. . . . We hope that Don Clark and Del Stickler get the six inch hook scale to its proper owner. Time will tell. . . . Don Alcott told John Neukam that he would gladly buy his wife an automatic toaster if she would just give him the money with which to buy it. Believe me, you have something there, Don. . . . Mr. and Mrs. Stewart Bohrer had a very pleasant surprise as their son who is in the Navy came home Dec. 5 to spend 10 days with them. . . . Herb Meyers wanted a table saw for his birthday, but for some reason he didn't get it. So now he is going to buy his wife a table saw for Christmas. . . . The boys in the Bridgeport mill section knew Carl Bearman was upset about something, but they didn't know if it was his new shoes hurting his feet or if he was just too proud to talk to them. . . . Scott Click says that at least someone admires his hair do and that admirer is his two year old granddaughter. . . . Gus Wiedelman spent his third week's vacation at home. We are told that he is becoming an expert with the saw and hammer. We may need you some time, Gus, so keep in practice.

2-2 Tales

by BELLE BUCHAN

Charles Rice is on vacation this week. That is if you can call butchering a vacation. . . . We are having our share of illness in this office. Harold Boles, who has been ill for several weeks, is reported on the mend and we hope he will be back very soon. Paul Traub is quite sick and has been in the hospital for observation. We all hope it is not serious. . . . Joan Toderoff is back at her desk after being off because of an accident. . . . It was a real pleasure to have Genevieve Ayres Cleland stop off to say hello to us. She was on her way to her home in Florida. . . . There is one fellow in the office who is almost sure that he is going to get his Christmas wish. It goes like this, "All I Want For Christmas Is My Two Front Teeth." We are talking of Vern Castle who says that Santa has promised him a full set of new choppers. . . . We are happy to spread the welcome mat for Bob Dent who is taking charge of our production section. On the other hand we will be saying good-bye to Jack Bendure who will take up new duties at Taylor Street. Good luck, Jack.

Congratulated For Long Service

Joseph R. Troendly, Bldg. 26-4, is shown above being congratulated by Frank Schlotter on Mr. Troendly's 30th anniversary with General Electric. Mr. Troendly completed this milestone in his G-E career Friday, Dec. 2. Others who joined in with their congratulations include: (l. to r.) A. D. Hellwig, Ralph Smith, Mr. Schlotter, Melvin France, Arthur Gallogly, Mr. Troendly, W. H. Crouse, and P. A. Peterson.

MOTOR and GENERATOR Static

Thought For The Week: "Some people smoke too much because they are nervous and others are nervous because they smoke too much." Ted Cook.

The new mystery melody is "The National Emblem March." . . . OH BROTHER: One of the downtown stores has a clever display of scenes from Christmas stories in their Calhoun and Washington streets windows. Scene No. 1 is in the north window and the subsequent scenes are continued in the windows south on Calhoun and then around on Washington. It was only natural when Ed Foley took his little granddaughter downtown to see the decorations that these windows were on their lists of "musts." Ed started at Window No. 1, read the story, described the scene in detail and then continued to the other windows where he repeated his performance. Mr. Foley related that as he talked a crowd of women and children gathered and followed from window to window. Sez Ed, "Suddenly I noticed that no one was saying a word, just listening to me talk. This made me realize that I had them enthralled by my magnetic personality, my fluent English and my outstanding ability to eloquently interpret the scenes. However, it bothered me a little. I felt like I was conducting a Cook's Tour and you know I am by nature both modest and retiring. Yak, yak, yak." To which we replied, "Oh, brother." . . . WE WANT: Frank Rathert has us guessing. We met him in the factory recently and he immediately began threatening us because we were as he expressed it, "putting something in this week's news about his adventures with a cat." We would have been only too glad to print a story about Mr. Rathert had we known, but to date are completely in the dark about the whole affair. May we suggest to his pals, that they ask him about it and if the story is told, inform us, that we may rectify a grevious oversight. We want everyone to be happy. . . . COURAGEOUS: It seems our Broadway Greeks are courageous men. Alex recently routed an intruder in the Broadway Lunch. Now "Irish" John Gianolus, president of the "American Greeks" drove a prowler from the doughnut shop down the street.

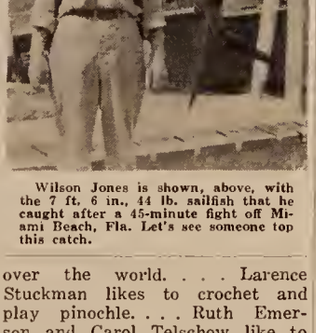
Safety Raiser

Did you ever drive down the road at night and have a car approach you with bright lights on? You dim but he doesn't. You can't see very well but he can. You get madder than all get out and your first impulse is to turn 'em on and let him have it. Don't do it. It is better that one of you can see where you are going than if you both are blinded. If you want to vent your wrath get yourself a Kigmy and kick the living bejupiters out of it. They like it and it will make you feel better. Be Courteous—Drive Safely.

Ramblings, Bldg. 31-2

Margaret Norman is still in a dither from seeing the Shah of Iran in Detroit. . . . Sam Stilwell, retired from drafting, paid us a visit recently. . . . This is a month of blessed events. Congratulations to Mr. and Mrs. Earl Elwonger on the birth of their 9 pound baby boy, Leslie Craig. Congrats also to Mr. and Mrs. Bob Stout for the birth of a son. . . . William L. Warner has been transferred from Air Conditioning department to the M-G drafting. William started working with us Dec. 5. . . . M-G engineering played "up-set the fruit basket" again this week. Due to the changes made in engineering to make the AC and DC divisions, it was necessary to move the partitions. So if you are looking for someone in the Engineering divisions, please remember we have been scrambled. . . . We of Bldg. 31-2 deeply regret the death of our friend and co-worker Arthur Fruechte.

Hambrock Celebrates 30th Anniversary



Clarence F. Hambrock, Bldg. 26-2, celebrated his 30th anniversary with General Electric Monday, Dec. 5. At that time he was congratulated by his friends in the Specialty Transformer and Ballast Purchasing division. Left to right above are: A. J. Lange, H. F. Briggeman, Mr. Hambrock, and G. H. Knoll.

Praises be, this week we lift the lid on a floor on the west side of Broadway. Herewith is the lowdown on the second shift of the Specialty Transformer and Ballast Div. 94 located in Bldg. 26-3. Likable George Brehm is the foreman in charge of this floor. George has been with the Company for 10 years and has been an Owl for a year. He tells us that he was born a long time ago on a farm. His pride and joy is his new Nash with all of the built-in comforts. Euchre, euchre and more euchre is his bill of fare for passing his extra time. . . . The credit for this missive goes to Lois Shaw, a gal who is always all smiles. Lois likes basketball, crossword puzzles and can also bake a good cake. . . . Wade Bowman, the second Izaak Walton, is a real hunter and fisher. He keeps his eyes on all sports also. . . . Jerry Kramer is a fisherman too, but likes gardening and pretty flowers. . . . Quite a mechanic is Ray Loveless. He built his own motorcycle. . . . Betty Burnett has a hobby of crocheting and likes all kinds of sports. . . . Shows and walking take care of the spare time for Linda Werling. . . . Another gal handy with the crocheting needle is Nancy Hawkensmith. . . . Besides having a cottage at Lake George where she fishes a lot, Vilora Schnepp raises tropical fish. (She should get together with Henry Koch, Bldg. 17-4, who hobbies tropicals too.) . . . Ruth Schmidt likes to pull out the big ones at Hamilton lake where her cottage is located. . . . Collecting antique coins is a hobby with Laurene Kraus. If you are interested in making a swap see Laurene. . . . We thought that gals were supposed to be afraid of mice but they are the hobby of Evelyn Armstrong who keeps them in her shoe at work. She also is a good bowler. . . . John Plummer who can blush beautifully is a radio ham. He has contacted fellow hams all over the world. . . . Larence Stuckman likes to crochet and play pinochle. . . . Ruth Emerson and Carol Telschow like to spend their extra time reading. . . . After cooking Billie Tucker likes all kinds of sports. . . . Carmel Grabowski likes the two b's, baking and bowling. . . . Estella Thompson is an ardent fisherman. . . . Cooking and baking take up the extra time for Lora Summers. . . . Thelma Loveless does a lot of reading and also likes to dance. . . . A crossword puzzle bug is Agnes Lopshire. She also likes to read. . . . Celeste Farrell likes to travel and also fish. . . . An equestrienne of note is Virginia Smith. (That's right, Bud, she likes to ride horses.) . . . Eulalia Zuber is another fancy needle worker. She embroiders and crochets but finds time to work crossword puzzles. . . . Myrtle Swager doubles with fishing and reading. . . . Sewing takes the extra time for Aldyth Cottner. . . . Celia Rebber likes fishing. . . . A piano player of repute is Helen Bracht. . . . The culinary arts take the time of Mildred Steffey. . . . Maxine Gaff—the diamond! . . . B. Frances Gerardot doubles with reading and crocheting. . . . Collecting recipes is the hobby of Edna Mapes. They say that she recently ran from a rubber lizard that somehow got in her lunch. . . . What is this about the cage on Thanksgiving eve, Dorothy Beasley? . . . Howard Colby is leaving for Bldg. 4-3 on the third shift. . . . Mary Irvin likes to putter around outside. . . . They say that Cora Charleston drives where she's looking in the cabbage patch. . . . A few have been left out because we didn't get the lowdown. Hope this is the start of a long series on the west side. . . . RAMBLING NOTES—The men and boys in Bldg. 26-4 wish to thank the gals in Bldg. 26-3 for inviting them down to help eat the big feast. We still can't figure out how Everett Hamilton made it back upstairs with that big drum stick. The little guy ate the whole thing. . . . Also from Bldg. 26-4 we learn that Ted Lauterberg has his basement finished and covered for the winter, now he is ready for the ice fishing season. . . . The boys are wondering if Sparkey Adams will get permission from the bass at home to let him go along this winter. His work makes him quite tired I'm told. . . . Jim Battrick, Bldg. 4-5, was displaying his gams (legs to you, Buster) to the gals and they all agree that they would make a good model for fine hosiery. . . . Us Second Shifters were glad to see Wilma Garringer when she paid the visit to her old haunts last week.

Can You Top This?

Wilson Jones is shown, above, with the 7 ft. 6 in., 44 lb. sailfish that he caught after a 45-minute fight off Miami Beach, Fla. Let's see someone top this catch.

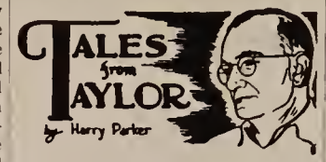
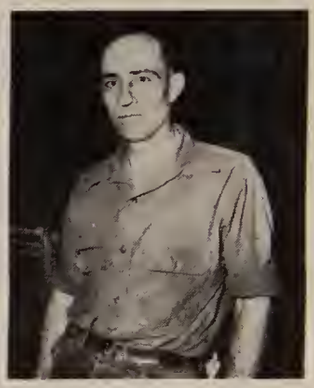
WANTS RIDE — Mildred Schoenlein, from Huntington. Works for Frank Shidler, Bldg. 17-3, from 7-3:30. Extension 754.



WANTS RIDE—Marie Alleger, from 2712 Sherman. Works in Bldg. 8-2 from 8-5:15. Extension 363.

THANK YOU NOTE

I WISH TO THANK—In this manner the many G-E friends, relatives and 901 union members for the contributions and cards I have received during my sickness at the hospital and at home. Many thanks. Nobert Hans and family.



It is nearly Christmas and now is the time to buy that best gal a present. Say that reminds me Merrill Weaver has already started as of last week when he set the boys up to a coke. Yeah, "On The House Weaver." . . . Remember Miriam Exline who used to be a winder for McDougal? Yes sir, she has acquired a husband. The lucky lad was none other than Paul Whitmore from Rockford. The ceremonial took place in the blue grass country, Kentucky. Congratulations, Miriam, to a long and prosperous wedded life. . . . John Adelblue is back on the job again. Hi, John. Leah Parr also came back to us as a winder. Clo Harkless is now on the second shift replacing Nyla Railing, who went on days. . . . What's this we hear Iola Hamrick taking her pet cow out for a walk along the highway? Funny place to take a cow walking, huh? . . . Cliff Pond is still off due to the infection caused from yanking too hard on some horse weeds. He oughta know he can't handle those things . . . . Charlie Zimmerman and his wife are now in business. Yep, they will make you any kind of a fur dog that you want including all the accessories for a very nominal fee. . . . Ralph Ross can explain to you just how a torpedo works in operation if you ask him and he will show you. . . . Ruth Tinkham is a lucky gal. She won a turkey at the Sportsman Club in Willshire, and she says she will have the bird for Christmas. Ralph Cauble was also lucky when he drew one of those GeCode Club turkeys. . . . Iola Hamrick is now fully qualified to be called grandma. Yes she acquired two more grandchildren. Hi, grandma, and congratulations. We hope you get many more. . . . We don't want to forget to tell you that another prominent second shifter, Wilbur Fuelling, middle-aisled it recently. Congratulations, Mr. and Mrs. Fuelling. . . . Birthdays may come and go but the past week or two there have been some interesting ones. For instance Revia Stauffer celebrated hers the same day our vice-president the "veep" did. Anyway Revia received very nice gifts. Annabelle Gehrig celebrated her occasion two weeks ago. Did your husband remember you with a gift or did you remind him? . . . A double celebration was held at the Noonan house. Eddie celebrated his birthday and Ceceila her wedding. By the way, the bride is back to work. She has a lot of new items for starting housekeeping. A lesson to brides from Celia—be sure and get a can opener on starting housekeeping. You just can't open those beans without an opener. . . . For those dainty hands Emma Goldner has a solution. No not Jergens lotion, but a nice pair of hot pad mitts to remove those tasty roasts and baked stuff from the oven. She has been sewing them in different colors, there right pretty snazzy. . . . Several weeks ago guests at George Womack's residence were Barney and Glen Hensley from around down south of Indianapolis. . . . A third week vacationer last week was Mike Kimble. No known details as to how the week was spent. Mike, we'll be looking for a summary on return. . . . Our grease and oil man on the winding machines sure must have a real romance or just a springtime spell. Johnny! Oh, Johnny! . . . Last week's most embarrassing moment goes to Joe Craig. Riley, you'll have to quit grinning—your day may come. . . . Hi ho and away she goes. We probably won't be able to see Hermenia High for a cloud of dust as she goes down the road in that new Chevie. . . . Jason Moser was all smiles, being the recipient of an award and cigarette lighter. . . . Jerry Kohne decided to enjoy a few hours of relaxation and try his luck at hunting. Somehow Lady Luck was not with him and everytime Jerry fired at the bunny, luck failed him and all you could hear him say was "Look at those rascals run!" . . . Leonard Meyer has returned from his third week's vacation. . . . Wedding bells will soon ring for Junior Hoffman. . . . Henry Krueckebery is confined to our local hospital due to an operation. Best of luck, Henry. . . . Violet Steffen and her sister Mildred left for Miami, Florida and Key West. They plan to be gone 10 or 12 days in the sunny south. . . . Harvey Koos is back after a long seige of illness. . . . Is it a new personality with Ray Schott or a new barber? . . . "Chuck" Cook is the proud father of a baby boy. Congratulations, Chuck. . . . Can you imagine a gal going on a diet just before Christmas? It is none other than Norma Poorman. Not saying she doesn't need it but why doesn't she wait till after Christmas? Of course, she makes several trips to the cage and just gets a candy bar, a few potato chips, and maybe a bucket of ice cream, but what is that to a poor working gal. . . . Yes sir, Ethel Schlickman is now Aunt Ethel. Her brother, the one and only Chuck Cook, the dispatcher general, is the proud father of a baby boy. Hooray for good old Chuck and many congrats. . . . Glenn Hurless was rather indisposed one day last week. The old Christmas cheer got him down. He says he had a cold. . . . Bones Brunnegraff, the mule driver, is sorta under the weather lately and was off one day last week. . . . Eddie Shaffer is back on the job after being absent for over a year. . . . We thought there was a funeral last week when Maggie Fruchte wore that black suit, but I guess she was in mourning just because she has not been proposed to yet, and I can't understand why because she is such a beautiful gal. . . . If you want to raise chickens and make them pay just ask that Teeple boy on the hi-freq. He sure has the formula. . . . Merrill Weaver has a special on hickory nuts for Christmas if you care for them. . . . The winding gals would like to get a bowling team to bowl some evening after work. What do you say, fellows? . . . And if you want those photos touched up with high class oil painting finish just see Harry Stults as he is the best you can get. I mean his pictures are the best. . . . In a little over a week each and everyone will celebrate Christmas. Don't forget to hang your stockings by the chimney to fill. . . . We all had hopes in sampling venison after Jerry Coffee's hunting expedition in the mountains of Pennsylvania. All he says, "Yes, we got a deer, but I didn't get any." . . . Only two days old and Johnny Baumann had the misfortune of getting his new Olds banged up. It was a beautiful job, Johnny. . . . Evelyn Thurston is leaving the Company today. She was the recipient of a shower to be given by Revia Stauffer! We hope you come back and see us again Evelyn. . . . Rumors are flying around about Junior Huffman's approaching marriage. On inquiring they say the six footer has a very nice little sweetie. Congratulations, my boy. . . . It's nothing like being prepared. Eddie Hesher is sprouting a cookie duster. He may be expecting a lot of holiday cookie specials. . . . When it comes to hiding things Vida Lammert takes the cake. We can't see how she can confine two squirrels and a teddy bear in such a lot of waste paper. . . . The G-E employees wish Fred Engle a speedy recovery. He had been seriously injured while helping to fight a fire. . . . Julius Baker deserves a big hand for the time and effort he put forth to make the Christmas party a huge success. With Santa and his toys and all the fun making by Chuck Cook in his version of Spike Jones' "Two Front Teeth" and Santa and the mouse, topped with songs by the Aeolian Choir was all in the making long before Christmas. Then the scene played by our local employees gave the party a religious touch which is the real Christmas, poverty, humility, and love towards mankind. So we hand it to you, Julius, for the grand time had by all. . . . Just a reminder that GeCode has on sale jello, in 12 different flavors, sachet in three lovely scents, birthday cards, and get well cards of pretty designs, all occasion cards, and wrappings—just the thing for that fussy shopper. Also Christmas cards and wrappings an assortment of very good taste.

Ed Murphy has purchased an electric train to be presented to his young son at Christmas time. He has all the accessories that go with an outfit like this and has been busily engaged in tuning it up every evening after the boy goes to bed. He wants it in shipshape when the eventful day arrives. This morning he was late for work. His explanation was that he was so busy playing with this toy after breakfast that the time slipped by before he knew it. We venture a bet that the boy will not have much opportunity to play with his train as Ed will do most of the playing after he arrives home from work. . . . Elmer Harshman is now the proud possessor of a brand new Nash. It is one of those kind that if you get tired of driving sitting up you can, by a simple operation, make a bed out of it, then drive while laying down. So enthused is he over this car that he took a group of his co-workers out to see it the other day during lunch period and gave them a demonstration of the various driving positions. . . . Darce Campbell, who is very much interested in boxing and owns a set of boxing gloves, has a son who shares this interest and is forever after his dad to put the gloves on with him. To pacify him. Darce promised his son that on his 16th birthday he would put them on with him. This birthday happens to be Dec. 21, so get ready, folks, for the battle of the century. We are fully expecting Darce to report for work with two black eyes and hobbling along on crutches. as this lad is of goodly size and mighty handy with his dukes. . . . As writer of this column and very interested in civic affairs, it was with great pleasure and interest that I attended the grand Christmas opening of the East State Blvd. merchants, and who should I happen upon but my old friend Charles (Pat) Monroe who was doing his stuff as Santa Claus. He was being followed by a bunch of kids and dogs. He presented me with a handful of candy canes along with the rest of the kids. Charlie said that he has always wanted to give me something, and this was it.

Inquiring Reporter:

WHAT WOULD YOU DO WITH THE MONEY, IF YOU WON A $1,000 SUGGESTION AWARD?

PHILIP A. HILL

Bldg. 19-1

"I'd use it to finish my home, such as installing bath tub, hot water heater and cement cellar floor; also buy an automatic washer."

RUTH M. SCHMIDT

Bldg. 26-3

"I would get a G-E television set, and also go to Florida for the winter."

RALPH ROSENBERRY

Bldg. 4-5

"First, I would give Uncle Sam approximately $200. With the balance, since it would be money I normally would not have, I would divide it equally among my two children to set up a trust fund for their education in later years or whatever emergency they might need."

HARRY E. HAWTHORN

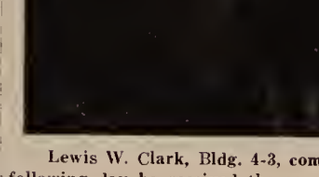
Bldg. 20-1

"I would use it for some improvements on my home."

MINA LAMPY

Decatur Plant

"If I was lucky enough to receive a $1,000 suggestion award, I think I would do a little fishing in Alaska."



SHIPPING: With the coal strike over seems getting coal would be a minor task, but for Eileen Fitch it has become quite a problem. Eileen and hubby spent quite some time Saturday getting all ready for the arrival of the coal. However, after the entire day had gone by and still no coal Eileen's patience was exhausted. The next few hours were spent in running down the coal company, when suddenly, like an exploding atom bomb. It came to our heroine that she had forgotten to call the coal company and inform them that it was OK to bring out the coal. What a re-voltin' development. . . . The big day of the week was Thursday for all the Elex girls, because it was their annual Christmas party, starring the Harmonicats and Santa Claus. . . . Have you noticed the pretty ties Bob Gebert wears? Are you interested in purchasing a few for Christmas gifts? If so see Bob cause he can order them for you, pronto. . . . Happy birthday to Ray Quinn next Wednesday. . . . MAILING: Is anyone in the market for a good used bowling ball? Don Pappert says he will sell his if his score doesn't go up soon. However, Don just recently made the paper by having a high score in a mixed doubles tournament. . . . The Mailing section will hold its annual potluck Christmas party and exchange Thursday noon, Dec. 22. . . . Frank Goetz seems to be having trouble keeping himself in cigars lately, and the law of averages doesn't seem to help him much. Birthdays are sure crowding us next week. Ruth Roth celebrates her birthday Monday and Kenny Beck celebrates Tuesday. Frank Goetz has a birthday too. Since he doesn't want the date known we'll just not mention the exact date, but for a slight hint we will say it's only one day before Ruth's. . . . We are wondering why Earl Covault is in such good spirits when he comes to work and now we know. It's because he exchanges lovely little notes with his girl friend. . . . Congratulations to Bruce Hapner. He's engaged. The bride to be is Ruth Ann Ryan. . . . REGIONAL: The Canasta bug has stung a few people in the Regional Warehouse. The scene of the latest battle was at Edith Cayot's home. It really turned out to be a contest to see who could eat the most instead of who could play Canasta best. The next "Food-Canasta Contest" will be at the home of Genevieve Manecke. . . . A word to the wise, in this case the word is to Mary Cline, "never go down stairs in the dark." Mary tried this little trick and as a result she's very sore in places. . . . Betty Zieg would like to know how to spell "Quimby". She's sure it's not spelled with a "G" because she looked all through the "G's" in the phone book trying to find it. . . . We've been meaning to ask Carmen Sordelet if she's been wearing her curlers lately, since we haven't noticed them around. . . . Melvin Schroeder was the center of attraction, of a group of young ladies the other day. We are wondering if it was because of Melvin's beautiful blue eyes or if it was his new contact lenses.

A Nebraska man tried to kill himself three times in one week and failed. He probably was never successful at anything.

Clark Completes 30 Years At G-E

Lewis W. Clark, Bldg. 4-3, completed 30 years of employment at General Electric Sunday, Dec. 4. The following day he received the congratulations of his friends in Specialty FHP Motor Div. 1. Mr. Clark is shown above reading the congratulatory letter he received on his anniversary. Left to right in the photograph are: William Wickliffe, Paul Ginder, Hilda Seiler, O. J. Mettler, Mr. Clark, George Prince, Serena Slatter, Florian Korte, and Charles Hendrickson.

STORY OF THE WEEK—Walter Hahn and Wilbur Boltz's dog have things in common. Here is the story. Walt was complaining the other day of his gall bladder (whatever that is) saying it was bothering him. He guessed he would have to get some pills. Wilbur hearing this turned to Walt saying, "My dog has the same trouble and I've got some of his pills. Would you care to try them?" This—Walt didn't think much of. The moral of the story is Wilbur's dog is recovering but poor Walt still has his trouble. So, why not try the dog pills, Walt? It helped the dog, it may help you. . . . CHRISTMAS PARTY—The girls from the production section had their Christmas party December 8. It was a potluck dinner and gift exchange. To receive their gifts the girls either had to put on a stunt or sing a song. Too bad there were no talent scouts present. The party was held at Irene Whelan's home. . . . RECIPE TIME—Anyone need cookie recipes? See Joe Jamison, whose wife bakes a special oatmeal variety, which keeps Joe's "hunger pangs" from twitching mid-morning and afternoon. They're really good. . . . SORRY TO SEE YOU GO—Last Friday we bid farewell to June Munson, Renewal Parts Sales, who has taken a secretarial job in Bluffton, her home town. We all wish her lots of success. The girls in Sales had a luncheon for June and presented her with a very lovely gift. . . . NATURE BOY—The Commercial division enjoyed a pleasant surprise last week with a visit from our own nature boy, Ray O'Keefe, now of our Chicago Office. . . . CONGRATULATIONS—To Mr. and Mrs. Harry Neuert, (test engineer in the DC div.) who are the very proud parents of Terry Wayne, 8 lb. 6 oz. son born Friday, Dec. 9, at 1:30 p.m. Santa came a little early but what a wonderful Christmas gift! Also Herb Osborne, father of Dale Frederich, 7 lb. 12 oz. born Dec. 6. Father and son doing all right. . . . OFF WITH A BANG—By the way, Walter Brake, why did you need a match to light your cigarette—the way your face lit up with that rosy hue after you struck the explosive match, was fire enough to light a dozen cigarettes. Wonder who the culprit was. One consolation though is that you weren't the only victim in the DC division. . . . FLASH—Anybody wanting to gain weight see Bernice Frieburger. Her husband has gained 20 pounds since their marriage Oct. 22. Is it her cooking or those vitamins you find done up in tin cans? . . . CONGRATULATIONS—If anyone is wondering why Joan Walter had such a big smile on her face Monday, here is the answer. It was the diamond on the third finger of her left hand. Congratulations, Joan and Gil Baker. The wedding will take place Jan. 7, 1950. . . . VACATION TIME—Mary Smoak starts her third week of vacation tonight at 5:15. . . . SPEEDY RECOVERY — We were very sorry to hear about Pauline Meehan's accident last Saturday in Alabama on her way to Florida. We hope she will recover soon, and he back to work. . . . BLANK CALL—Lew Nelson was called clear across the room to answer a phone. When he reached the other side the phone was dead. Then he was told it was Frankie Laine wanting another mule for his mule train. Boy! Did he bite. . . . LEGITIMATE GRIPE—Barbara Rider has a good gripe. She claims that everyone else gets their names in the paper, but she never does. Well, we wish to announce that she and her husband attended the Notre Dame-Iowa football game several weeks ago while in South Bend visiting her sister. What do you think of Notre Dame's football team, Barbara?

Salisbury Axle Ends G-E Club's Record Of Wins

Salisbury Axle ended the G-E Club Industrial Basketball team's winning streak at five games Tuesday, Dec. 13, by turning back the club, 45-37.

After trailing 29-28 at the end of the first half, the club came roaring back and held a 37-26 lead midway in the last quarter. Salisbury regained the lead on two quick baskets by Miller and went on to win. Jim Walley and Dick Bucher led the club's attack with 10 points each.

Monday night, Dec. 12, the G-E Club defeated First Methodist Church, 52-47. The club jumped off to an early lead and was leading 26-20 at the half. With Jim Walley scoring 11 points in the second half, the club went on to win.

R. Green led the visitors, with 14 points; while Walley, with 17, and Lou Goehring, with 11, paced the club's scoring.

The G-E Cluh will play the Sandpoint Merchants Monday, Dec. 19.

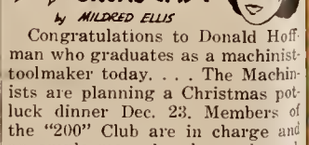
G-E Owls Score 49-24 Victory Over Zollner, Packers Win First Game

Earl D. Stauffer

The up and coming Eckrich Packers won their first game of the season at the expense of Indiana Rod & Wire. The score was 30-21. The powerful G-E Club Owls rolled over the Zollner Pistons for their fifth straight win by the score of 49-24.

Eckrich led all the way in their game with Rod & Wire, but they were never more than two points separating the two teams until the last quarter. Bob McKeeman got hot and made four quick baskets to put the game on ice. Arle Anders did a stellar job of holding down Dick Sowers, of the Rod & Wire boys, to four points. Bob McKeeman, with 10 points, led the winner; while Dom Lortie paced the losers with seven.

Once again balance and reserve strength were too much for the G-E Club's opponents. Bebe Blauvelt broke into the lineup and did all right for himself by scoring 12 points. Zollner, after a slow start, held the club scoreless during the second period and almost closed the gap. The score at the half stood 15-12 in favor of G-E. Then with a flurry of baskets, the club forged to a lead of 33-20 at the end of the third session. Two buckets by Frank Ducheteau ended the scoring in the last quarter by Zollner.



Bebe Blauvelt led G-E with 12 points, while Frank Ducheteau had nine for Zollner.

Officials—Wilson-Koepke.

Congratulations to Donald Hoffman who graduates as a machinist-toolmaker today. . . . The Machinists are planning a Christmas potluck dinner Dec. 23. Members of the "200" Club are in charge and an ample menu has been planned. With those chefs in charge we should have plenty of food and laughs. . . . A red smudge was noticed on the shoulder of Bill Smith's shirt. His explanation: Oil.(?) Oh, the oil was red hot! His excuse was original if unbelievable. . . . At the basketball game last week James Pugh shot at the wrong basket. He was determined to make a couple of points for one of the teams. . . . On the final exams there was one group of multiple choice questions that were to be answered with a 1, 2, or 3. Leave it to Ward Staley to come up with a 5 for an answer. . . . Congratulations to the Machinist Volleyball team who won the first-half championship.

Erv Aumann, of the Office League, had a very bad night this week, a 616 on games of 181, 217 and 218. Frankie Schlink, of the Designer team, walked off with chicken on his 605 total and games of 177, 191 and 237.

Two hundred scores were made by: Myron Cole, 246; Bob Kallmeyer, 236; Rex Oberlin, 233; Clarence Rump, 221; John Root, 210; Walt Nitz, 209; Dick Hanson, 207; Paul Perry, 202; Wendell Miller, 200, and Warren Brown, 200.

Chicken winners were: Frank Schlink, Walter Nitz, Blair Bushong, and Myron Cole.

Apparatus League

Having missed the boys last week, the following scores will be for the last two weeks:

Six hundred counts were tallied by Blomker, 226, 191 and 201—618; Vic Rump, 200, 214, and 180—614; and George Horner, 212, 183, and 208—603.

Two hundred scores were rolled by: R. Arnett, 208; Roy Lawrence, 203 and 201; Jimmy James, 210; A. Bienz, 206; R. Greenler, 201; E. Bienz, 214; Bob Blomker, 203; Vic Rump, 245; William Wright, 231; W. Stute, 211, and Andy Anderson, 204.

Blomker and Horner got their first 600 counts of the year, while William Spahr rolled a rousing 81.

Friday Night Girls

Virginia Bowman, having her best season this year, paced the girls on their 500 assault. Virginia won her 520 pin on games of 193, 176, and 180 for a big 549 total.

Other 500 totals were made by Bess Potts, 182, 170, and 167—519; Ginnie Mollet (that's my doubles partner) 137, 189, and 180—506; Charlotte Stanford, 149, 160, and 194—503; Helen Miller, 197, 170, and 134—501, and Betty Puff, 179, 181, and 140—500.

Ethel Koontz made the 6-7-10 split and also a 177 game. Other high games were kegled by Bonnie Workman, 181; Betty Millhouse, 178; Helen Manis, 175, and Mary Wells, 170.

Masonic League

B. Somers continues to wax warm, shooting a big 651 on scores of 269, 225, and 157. Some of the other boys also did all right with the following 600 counts: R. Crabill, 232, 203, and 186—621; J. Smith 211, 204, and 197—607; Dale, 218, 213, and 173—604, and Martz, 216, 208, and 180—604.

A. Altevogt was the only other bowler getting a 200 score that failed to negotiate a 600 series.

Interdivision League

Pierres' team rally waxed warm Wednesday evening, shooting an actual pin count of 2921 on games of 1022, 969, and 930. Their 2921 was just two pins short of the actual pin high at the club this year. Leland Putman, with 630, and Andy Anderson, with 609, paced the team to their big total. They had games of 214, 233, 183, and 236, 161, 212 respectively.

Other 600 counts were rolled by Paul Billman, 177, 193, and 234—604; Bob Buck, 194, 199, and 222—615; and Richard Tobias, 178, 233, and 198—609.

Two hundred scores were rolled by Forrester, 202; Russell Rose, 200; Whitey Ponsot, 213; Frank Gitter, 203; Paul Walker, 213 and 222; Walt Seidel, 201; Noah Kuntz, 208 and 204; Murray Johnson, 202; Wayne Weimer, 213; Bill Glenn, 225; Erv France, 234; Frank Iannelly, 210; Hal Fanning, 201; Oscar Schelper, 238, and Herb Habig, 225.

All Star League

Ed Kraft won the first half title by four games over Roger Vaughn. The boys got plenty of wood at the G-E Club alleys with the following 1000 counts, Cec Huffman, 1053; Bob Ramsey, 1017; Everett Scott, Jr., 1033; Ernie Lester, 1095; Herm Muesing, 1087; and Roger Vaughn, 1085.

Decatur Bowling

G-E FRATERNAL LEAGUE: Al Schneider with 632 and A. Appelman with 610 proved to be too tough as Moose No. 7 took 2 of 3 from the league leading Teeple Truck Line. G. Schultz rolled 617 in a losing cause for the leaders.

The second place Preble AC's failed to gain ground when they dropped two to G-E Club. K or C remained in thiek of the race by winning three from the Elks.

Two Hundred Scores: A. Schneider 243-226, A. Appelman 200-223, G. Schultz 231, Stump 242, H. Murphy 213, McIntosh 203, Wolpert 204, Briede 214.

MONDAY NITE LEAGUE: Two Hundred Scores: G. Schultz 210, L. Hoffman, 203, Plasterer 205, Laurent 212.

Seven G-E Men Elected Officers Of Southwest Conservation Club

Seven G-E men have heen elected officers of the Southwest Conservation Club. They include: Dee Hamilton, Bldg. 27, vice president; Don Kruse, Bldg. 17-4, secretary; Fay Russell, Bldg. 26-4, council delegate, and George Scott, Winter St., Ben Fleek, Mike Brayer, and Al Olson, all of Taylor St., were elected as members of the board.

Thursday night, Dec. 8, the Test Engineers won their first game of the year in the Interdivision Basketball League. They defeated the Apprentice School, 39-28.

Amstutz did most of the seoring for the Test men. He got 15 points. Gene Werling tossed in 13 points for the Apprentice boys.

In the second game of the evening, the Traffic section team took a drubbing from the front-running Small Motors, 53-24.

Monday evening Transformer, playing one of their best games, topped the Small Motor team, 36-26. It was the first loss of the year for Small Motors, which was leading the league three wins and no defeats.

Tuesday evening the Aceounting team beat the Traffic team in a good game which was close all the way. The winners, a new entry in the league this year, have a well-balanced attack and have given a good aecount of themselves in all their games. Traffic played a good game, with Saunders doing some very effective rebounding under the basket, and it was a tough one for them to lose.

In the only other game, the Apprentice School forfeited to the Firemen.

Apprentice Machinists Win Over First Half Of Volleyball League

The Apprentice Machinists won the first half of the Interdivision Volleyball League. They took 19 games out of 21 played.

Second place went to the Small Motor team, with 15 wins and six defeats.

In the first match of the second half, Taylor St. won two games from Winter St. The scoring for the match was 15-13, 4-15, and 15-12. The first half leaders defeated the Apprentice Draftsmen in all three games. The scores were 15-5, 15-4, and 15-6.

Main Office walked away with three games won from General Tool on scores of 15-10, 15-4, and 15-6. A three-game victory was made by the Small Motor team over Test Engineers. The scores were 15-7, 15-13, and 16-14.

The first half league standings are as follows:

	W	L
Apprentice Machinists	19	2

Henninger Rounds Out 30 Years

William E. Henninger, Bldg. 4-5, reecntly rounded out 30 years of serviee with General Electric. Friday, Dee. 2, a number of his friends in FHP Div. 15 joined with their congratulations on his long service. In the picture are: (l. to r.) Lawrence Chesterman, E. F. Sonday, H. G. Siebold, A. R. Hall, James Oman, L. D. Hodell, Mr. Henninger, Jess Haffner, and Arthur Bottoms.

Company Files Representation Petitions—NLRB

As outlined in a letter addressed to Robert Denham, general counsel of the National Labor Relations Board, the Company filed individual representation petitions with the N.L.R.B. yesterday (Thursday) in the hope that this will be of further aid to employees in affording the earliest opportunity for the expression of their wishes as to representation. The letter is as follows:

December 15, 1949

Mr. Robert Denham, General Counsel
National Labor Relations Board
Washington, D.C.

Dear Sir:

We have been hoping that the conflicting claims of UE and IUE-CIO as to representation could be settled promptly through the N.L.R.B. acting to give our employees an early opportunity to express their choice.

However, it appears that various legal, procedural and investigative difficulties are delaying the procedures by which N.L.R.B. could determine the one or more bargaining agents to certify to us for the units covered in our present UE contract.

As we have publicly made clear, we have been maintaining a completely neutral position as between the contending parties, while according the N.L.R.B. all the cooperation we were called on to give, or knew how to give, in connection with its investigation of the petition filed last month by the IUE-CIO.

The continued delay in determination is meanwhile, however, permitting a number of perplexing problems to grow to serious proportions. These are coming more and more to interfere with the day-to-day operations of our plants, the relationships with our employees, and the paramount interest of the public.

Accordingly, in addition to continuing our efforts to be properly neutral in this conflict, we are today taking two further actions by way of attempting to exhaust any remaining possibilities of assisting the board in the early resolving of the dispute.

First, we are filing, concurrently with this letter, individual representation petitions covering all locations where the Company has received conflicting demands for recognition of the UE and the IUE-CIO. We are doing this, for what it is worth in an effort to be of all possible aid in reducing any remaining administrative obstructions, and we hope it will contribute towards holding N.L.R.B. elections at a substantially earlier date to settle any representation questions found by the Board to warrant those elections.

Second, and in further effort to promote the resolving of any questions of representation at the earliest possible moment, we are hereby proposing to the N.L.R.B. that two agreements be sought:

1. That the parties meet and, to the greatest extent possible, agree to stipulate as to the appropriate bargaining units—these units to conform in a general pattern to the local units already found by the Board to be appropriate.
2. That the parties agree to waive formal hearings and consent to the holding of N.L.R.B. elections at some mutually agreeable early date and pursuant to mutually agreeable procedures, to be followed by Board certifications.

We wish to state our willingness to meet, under N.L.R.B. auspices, jointly with N.L.R.B. representatives and representatives of all the unions involved in an attempt to do anything we can to contribute to common agreement on this suggestion. Through copies of this letter we are advising the contending parties of this proposal we are making to you.

We desire to emphasize again that the suggestion is being made purely in the hope that it may be of some further aid in affording our employees the earliest possible opportunity for the expression of their wishes.

We will be grateful for your advice as to how we can be of any further aid in expediting the settlement of the present controversy.

Yours very truly,
L. R. Boulware

CC—James B. Carey
Albert Fitzgerald

DECIMAL MINUTE MEN TO VIEW WAR FILMS

War films will be shown at a meeting of the Decimal Minute Men at 7:30 p.m. Monday, Dec. 19, in the Chamber of Commerce building.

Grush Receives Congratulations

Willard E. Grush, chauffeur in the General Service division, rounded out 30 years with General Electric Thursday, Dec. 8. During the day he received congratulations from his various G-E friends. Left to right in the picture are: William Altekruse, Oscar Beaty, John Lare, and Mr. Grush.

A Message From a Friend of Labor

"The employees should strive to make the earnings of any business as large as possible. There can be no greater mistake for the workingman than to restrict the output of the individual. You must make the total earnings of the business in which you are engaged the largest possible. By earnings in this connection I mean the aggregate fund available for paying workingmen, capitalists, and managers. Make that aggregate large and there will be plenty for all among whom it is to be divided.

"The most potent factor in securing large profits is the avoidance of waste, and the greatest source of waste in the industrial world is unused, undeveloped, or misdirected human effort. To the correction of the evil, trade unions should direct their attention.

"Any restriction upon the output of the individual reduces the fund of profits available for distribution, besides demoralizing the man who is so restricted.

"It follows also that differences in efficiency between different individuals must be recognized and rewarded; and that those who can work faster and better than the others must not be retarded by the less efficient. The industrial superiority of America is largely due to the absence of restriction upon individual effort; to the encouragement of the individual by giving him the fruits of his efforts.

"A limitation of the production of the individual is pure waste. The business is merely rendered less profitable, and the man whose production is restricted is injured also. Nor does the restriction of the output make more work for others. The amount of work to be done is, in a country like ours, in no sense fixed; for the amount of goods or service men buy is not fixed. The amount bought is, as a rule, limited only by the ability to buy.

"If you waste human effort you make the product cost more. If you raise prices without increasing incomes you have simply limited the amount that will be bought. You have not made more work for more people. You have merely given people less for their money."

The above is quoted from a speech made in 1905 before the Boston Central Labor Union by Mr. Justice Louis D. Brandeis who, during his long and distinguished career as the "liberal" member of the United States Supreme Court, was revered as a friend of labor. The message is reprinted by permission from the November 1949 issue of The Em Kayan, publication of the Morrison-Knudsen Company of Boise, Idaho.

Winners Of Suggestion Contest Announced

G-E DEPOSITS UNION DUES MONEY WITH FEDERAL COURT

Action Taken In Attempt To Speed Decision Of Representation Dispute

Simultaneous with the filing of union representation petitions with the National Labor Relations Board by General Electric, the Company deposited with the Federal District Court of New York $141,000 of union dues money for which two unions, UE and IUE-CIO, are contesting.

The Company had this money in its possession and did not know to whom it should be paid.

Explaining the Company's move, L. R. Boulware, Viee-President in charge of Employee Relations, said:

"After attempts to find other

Employees' Stores To Close Next Week For Inventory

The Employees' stores at the Broadway and Taylor St. plants will be elosed Wednesday, Thursday and Friday, Dec. 28, 29 and 30, for inventory.

This will mean that the stores will be open only one day next week.

The stores will be open for business as usual Tuesday, Jan. 3.

Christmas Greetings

from President C. E. Wilson

TO ALL EMPLOYEES OF GENERAL ELECTRIC COMPANY:

This Christmas of 1949, as we approach the great half-century mark, provides one of the signal occasions in our lifetime for rejoicing, as free Americans.

On the world horizon there are many troubles, to be sure, and we must not forget them, nor the important extent to which our own country is involved in their solution. I believe that our own society now requires more personal attention and understanding from us than ever before. In this season of giving, let us consider making a gift of our own efforts and a tender of our own sense of responsibility for the well-being of this republic of which we are so proud.

During the year we have again come just a little further along the road towards stability and good-will which we so deeply desire. In that there is cause for joy.

Never before in history have the citizens of a single country been presented with an opportunity to achieve more progress, more lasting peace, and more happiness for more people — than is offered Americans today. In this we will not fail; in this there is cause for joy.

The problems we face are greater and more complex, but the means by which we can solve them have not changed. Patience, tolerance, honesty, and kindliness remain the determining factors in world peace and in building the confidence and faith of others.

To everyone of you I extend my most sincere wish for the best Christmas you have ever had.

C. E. Wilson

President

from C. H. Matson, Works Manager

TO ALL FORT WAYNE WORKS EMPLOYEES:

Christmas!—what a host of fond memories surround us at the approach of this—one of the most wonderful occasions of the year.

Since earliest childhood we have traditionally learned to associate Christmas with all that is good and beautiful—love, charity, hope and happiness.

Of all the days, this is the one on which we become most conscious that our individual worlds are worlds of many people not worlds of aloneness. We are more aware than ever of the importance of family and friends. During this brief holiday period, there is a new warmth in our contacts with those about us and though we are often wished a "Merry Christmas" by many whom we do not know personally, the spirit of the greeting is recognized and treasured.

In wishing you a "Merry Christmas," I am also expressing my sineere gratitude for the progress that we have made during the past year in working together towards our common goals as a large industrial family. I cannot help but feel that we have made outstanding accomplishments in the name of better human relations based on mutual understanding. This would not be possible without the cooperation of each of us.

May yours be a happy and prosperous New Year filled with all the blessings of which we are all so mindful at Christmas-time.

C. H. Matson

Works Manager

Is There A Santa Claus?

Editor's Note: One of the finest things ever written about Christmas is the following editorial printed in 1897 by the NEW YORK SUN in answer to the earnest appeal of a little New York girl to be told whether Santa Claus really exists. Its author, Frank P. Church, was an accomplished journalist, and wrote on many subjects, but his fame will rest chiefly on this beautiful setting forth of an eternal truth. With Dr. Clement Moore's "A Visit from St. Nicholas," it is one of the great classics of the Christmas season.

"We take pleasure in answering at once, and thus prominently, the communication below, expressing at the same time our great gratification that its faithful author is numbered among the friends of the SUN.

> "Dear Editor—I am eight years old. Some of my little friends say there is no Santa Claus. Papa says, 'If you see it in the SUN it's so.' Please tell me the truth; is there a Santa Claus?"
>
> Virginia O'Hanlan, 115 W. 95th St.

"Virginia, your little friends are wrong. They have been affected by the skepticism of a skeptical age. They do not believe except what they see. They think that nothing can be which is not comprehensible to their little minds. All minds, Virginia, whether they be men's or children's are little. In this great universe of ours, man is a mere insect, an ant, in his intellect, as compared with the boundless world about him, as measured by the intelligence capable of grasping the whole of truth and knowledge.

"Yes, Virginia, there is a Santa Claus. He exists as certainly as love and generosity and devotion exist, and you know that they abound and give to our life its highest beauty and joy. Alas! How dreary would be the world if there were no Santa Claus. It would be as dreary as if there were no Virginias. There would be no childlike faith then, no poetry, no romance, to make tolerable this existence. We should have no enjoyment, except in sense and sight. The eternal light with which childhood fills the world would be extinguished.

"Not believe in Santa Claus! You might as well not believe in fairies. You might get your papa to hire men to watch in all the chimneys on Christmas Eve to catch Santa Claus, but even if they did not see Santa Claus coming down, what would that prove? Nobody sees Santa Claus, but that is no sign that there is no Santa Claus. The most real things in the world are those that neither children nor men can see. Did you ever see fairies dancing on the lawn? Of course not, but that's no proof that they are not there. Nobody can conceive or imagine all the wonders there are unseen and unseeable in the world.

"You may tear apart the baby's rattle and see what makes the noise inside, but there is a veil covering the unseen world which not the strongest man, or even the united strength of all the strongest men that ever lived, could tear apart. Only faith, fancy, poetry, love, romance, can push aside that curtain and view and picture the supernal beauty and glory beyond. Is it all real? Ah, Virginia, in all this world there is nothing else real and abiding.

"No Santa Claus? Thank God! He lives, and he lives forever. A thousand years from now, Virginia, nay, ten times ten thousand years from now, he will continue to make glad the heart of childhood."

★

AND it came to pass in those days, that there went out a decree from Caesar Augustus, that all the world should be taxed.

(And this taxing was first made when Cyrenius was governor of Syria.)

And all went to be taxed, every one into his own city.

And Joseph also went up from Galilee, out of the city of Nazareth, into Judea, unto the city of David, which is called Bethlehem (because he was of the house and lineage of David).

To be taxed with Mary his espoused wife, being great with child.

And so it was, that, while they were there, the days were accomplished that she should be delivered.

And she brought forth her firstborn son, and wrapped him in swaddling clothes, and laid him in a manger; because there was no room for them in the inn.

And there were in the same country shepherds abiding in the field, keeping watch over their flock by night.

And, lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them; and they were sore afraid.

And the angel said unto them, Fear not: for, behold, I bring you great tidings of great joy, which shall be to all people.

For unto you is born this day, in the city of David, a Saviour, which is Christ the Lord:

And this shall be a sign unto you: Ye shall find the babe wrapped in swaddling clothes, lying in a manger.

And suddenly there was with the angel a multitude of the heavenly host, praising God, and saying,

Glory to God in the highest, and on earth peace, good will toward men.

And it came to pass, as the angels were gone away from them into heaven, the shepherds said one to another: Let us now go even unto Bethlehem, and see this thing which is come to pass, which the Lord hath made known unto us.

And they came with haste, and found Mary, and Joseph, and the babe lying in a manger.

And when they had seen it, they made known abroad the saying which was told them concerning this child.

And all they that heard it wondered at those things which were told them by the shepherds.

But Mary kept all these things, and pondered them in her heart.

And the shepherds returned, glorifying and praising God for all the things that they had heard and seen, as it was told unto them.

—*Luke 2.*

For Those Who Have No Christmas

Christ of All the Christmases there have been, hear our prayer for those who have no Christmas.

For the darkened millions who go to bed hungry tonight, and all the nights.

For the children in whose homes the candles have been put out by pestilence, war, and fear.

For boys and girls whose hands press against store windows while their eyes devour the glories they can never touch.

For those of us who think we are having a Christmas, but have none because our hearts are torn by hate, twisted by prejudice, crippled by narrowness and pride.

For those who have no Christmas this day, Christ of deathless love, let thy presence come with joy and healing in its wings. AMEN.

TO ALL FRACTIONAL HORSEPOWER MOTOR DIVISIONS EMPLOYEES:

To each of us the cheery Christmas Season hrings a warm personal feeling of peace and good will.

But Christmas would be only another day in the year if we did not, on that day, reflect the many hlessings which are ours.

For it is these blessings—the good will, joy, and happiness, shared with our loved ones, friends, and neighhors—which leads us all to sincerely appreciate that one special day—Christmas.

As you and I pause in the festive spirit of the holiday season, I am grateful for this opportunity to extend to you my heartiest greetings and hest wishes.—MERRY CHRISTMAS.

W. E. Lee

Manager, Fractional HP Motor Divisions

TO ALL SPECIALTY TRANSFORMER AND BALLAST DIVISIONS EMPLOYEES:

The glad Christmas season approaches and again we prepare to celehrate the anniversary of our Saviour's birth. It seems to me appropriate that we think back upon the events of this year, the first since 1938 to bring severc employment sethacks and short schedules to our Apparatus business here at Fort Wayne.

As we facc thc year end, I think we can all he sincerely grateful that practically all of thc normal schedules have been restored, and a great many of those laid off are back on our rolls. We can take a certain measure of pride, I feel, in the fact that through teamwork and goodwill we are well prepared to face the stern challenge of the future.

Let us, therefore, thank our Father in Heaven for all the many benefits which we enjoy here in this free country, and remember in thought, word, and deed those less fortunate than we, because only in this way, it seems to me, can we appropriately celebrate the anniversary of our blessed Saviour's birth.

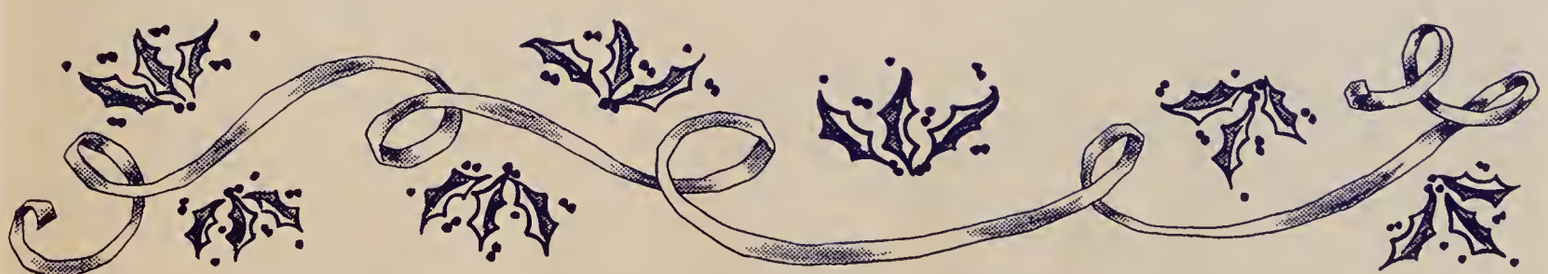
To you and your families, may I now extend by heartiest wish for a merry Christmas, a bright and cheerful holiday season, and a fruitful and happy New Year.

William C. Stuchman

Manager, Specialty Transformer, Ballast Divisions

TO ALL EMPLOYEES OF THE LARGE MOTOR AND GENERATOR DIVISIONS:

It is especially gratifying at the Yuletide Season to have this opportunity to express my appreciation for the fine job you have done throughout the year in the Fort Wayne Large Motor and Generator divisions. You can all he proud of the high quality of your work, and of the good spirit of teamwork you havc displayed.



The Christmas Season always affords the opportunity for us to review the accomplishments of the year just ending, and to look forward to extending wishes for joy and peace to our fellowmen. So it is in deep

appreciation for your loyalty and good work that I wish for all of you and for all the members of your families a very Merry Christmas Season and a Happy New Year.

J. M. Crawford

Manager, Large Motor-Generator Divisions

Suggestion Contest

(Continued from page 3)

Wayne Works during the period of the contest. A total of 2,131 suggestions were submitted and G-E monogramed cigarette lighters were presented to everyone who submitted one or more suggestions on which the regular award was $10 or more.

The certificates, each redeemable at the Employees' stores for $50 worth of merchandise at employee prices, were allocated so that two would be presented in the Fractional Horsepower Motor divisions; one each to the Specialty Transformer and Ballast divisions, Motor and Generator divisions, Works Service divisions, and Decatur plant. Employees in all divisions competed for the remaining five certificates.

Eligibility rules which have governed the submission of suggestions in the past were followed in this contest.

The Central Suggestion Committee of the Fort Wayne Works, after careful review of suggestions submitted during the contest, issued the following report of its selection:

Specialty Transformer and Ballast Divisions: Avenel Stanton, pricing and statistic clerk, suggested that the routine established to determine credits on lots of transformers be changed.

Motor and Generator Divisions: Amos Schlaudenhauffen, welder, was selected because, during the contest period, he submitted four suggestions, all of which were adopted. Mr. Schlaudenhauffen is consistently turning in suggestions and his past records show that 29 suggestions have been submitted on which 14 awards were made.

Works Service Divisions: C. F. Buchanan, shipping clerk in the Distribution division, suggested that the Danville plant order wire on a single requisition on a quarterly basis.

Fractional Horsepower Motor Divisions: Jesse Batchelder, machinist, was given the award for his suggestion to salvage small bore die cast sleeves. He has submitted 23 suggestions, of which seven were adopted.

John Driver, machine maintenance man, received the other bonus award for the FHP Motor divisions. His suggestion covers a method of fastening Veeder Root counters on Bliss and other presses. This suggestion, along with a large number of other good suggestions rendered by Mr. Driver, is the basis for his award. His past record indicated that he has submitted 30 suggestions, 18 of which were adopted.

Decatur Plant: William Hunt, plating operator, received the award in consideration of the number of suggestions he submitted and had adopted during the contest.

Five Awards At Large

Lewis R. Ormiston, set-up man in Specialty Transformer Div. 91, has developed and put into use a method that is eliminating the gaulding or scoring of the guide pins and guide pin bushings on punch and dies. This suggestion will not only be used in the Transformer division, but throughout all divisions of the Fort Wayne Works.

Homer Markley, power house operator in the General Service division, pointed out that the small turbine feed water pump at the Taylor St. powerhouse requires about 10 gallons of bearing cooling water per minute. This water is flowing to the sewer after leaving the bearings and he suggested that this water be reclaimed and returned to the cooling tower. Mr. Markley has turned in 12 suggestions, of which nine were adopted.

Elden Lewis, repair operator in the rotor section of Div. 17, received a bonus award for his suggestion to salvage steel quill from scrap rotors. He has been very active in submitting suggestions. His record shows that he has submitted 131 suggestions, of which 35 were adopted.

Herbert Scherer, wire insulator in the wire mill, was the recipient of another bonus award. The method of insulating nylon-covered wire sizes up to .0179 produced a nylon cover which is always near the maximum. Mr. Scherer suggested that the number of ends be reduced.

Otto Aumiller, annealing operator, reported that they were having jams in the annealing oven, due to the fact that the oven trays were constantly catching on the corners of the bearing blocks. Mr. Aumiller suggested that these bearing blocks be redesigned with a radii on the corners to prevent the oven trays from catching.

Apprentice Alumni Elect New Officers

The Apprentice Alumni Association held its annual banquet and election of officers Wednesday, Dec. 14, in the cafeteria, Bldg. 16-2. The following were chosen to serve during 1950: (seated, l. to r.) Henry Gollmer, Taylor St., financial secretary; Robert Branning, Bldg. 19-4, president; Wilson Garman, Bldg. 19-4; vice president; and Robert Schuelke, Bldg. 17-2, recording secretary. Standing are: (l. to r.) David Bartle, Bldg. 19-5; Howard Morton, Bldg. 12-2; and Robert Truelove, Bldg. 19-4, directors. Absent when the photograph was taken were: Matthew Wiegand, Bldg. 4-3, treasurer; Edward Bienz, Bldg. 17-2, and John Allen, Fort Wayne Tool and Die Co., both directors.

Two Volunteer Firemen Are Honored At Banquet For 10 Years' Service

Ernie Hanauer, G-E Fire Chief, is shown, above, pinning a service badge on Orval Haver, Taylor St., after presenting another pin for 10 years of service to Fred Crickmore, Bldg. 17-1, at the right. The badges were awarded at the annual banquet of the G-E Volunteer Firemen Tuesday night, Dec. 13, in Bldg. 16-2 cafeteria. Roderick K. Goeriz, detective inspector of the Detroit Arson Squad, was the main speaker.

Merry Christmas, folks! All the best wishes for health, wealth and happiness in the new year. We want to thank all the party helpers for a wonderful evening. If you didn't make it this year, try next year—you don't know what you missed. . . . Otto Proehl is celebrating 30 years with G-E today. Congratulations and many more years with the gang. . . . Marian Leiter thanks you for your generous contributions to the Elex Christmas Fund. . . . Some of the boys have expressed what they would like to have for Christmas. Here are some of the wishes made known to Santa Claus. Ray Solga wants a pair of electric hair clippers with a detachable gallon crock; Jay Hensler wants two packs of cigarettes (one at a time) or a fresh roll of pennies; Carroll Elder would like a nice full scrap bin with some good antique test equipment; Norb Lose would like a Rand McNally map of Adams county, or a supply of hot coffee piped to his test bench; Joe Brossard wants a couple more white shirts; Les Stauch wants an instruction book on how to test amplidynes; Bill Mills wants some good fish baits; Kenny Gillenwater wants a gallon of assorted paints and some brushes; Ned Neuman wants a bowling team that gets more pins; Louis Devoe and Henry Roemke both want the book "What to do When Your Car Won't Start" by Ford.

Don Stoneman's bowling team beat "Boodles" Bendel's team two consecutive times. If it had been vice versa, I wonder if Don would have told us. . . . Myron Cole, are you going to hang that chicken that you won bowling on your Christmas tree? . . . Our ole friend, Katie Steinman, dropped in to see us last week for a little chat. Married life certainly agrees with her. . . . It doesn't look like it will be a white Christmas, but that old spirit is there just the same. We have our own Christmas tree in the office. . . . General Service wishes you all a Very Merry Chirstmas.

Fractional Facts

TAYLOR ST. OFFICE

By Alice Nichens

Have you noticed the change in Lowell Mason? He doesn't walk with that brisk step, but goes furtively about looking at no one. He's had a brush with the law. It wouldn't be so bad if he were the only one involved but his wife and a stranger had to suffer too. He jay-walked and did a fine job of it. The squad car had to slow down to avoid hitting him. While Lowell and the uniformed gentlemen were exchanging a few choice words, his wife noticing the trouble rushed over to see what was wrong so she was presented a ticket. Then the nice little old man who offered to carry their Christmas tree to the car was requested to make his donation. So when you enter a life of crime you not only hurt yourself, but others. . . . Bob Wefel has been transferred to be replaced by Paul Deal. He will be missed in Central Cost and his new group will find that they have a friend as well as a boss. . . . We must bid adieu to Eldon Vosburgh who is taking another step on that well known ladder. His place was taken by Bob Duras. We welcome John Margerum who replaces Bob Duras. . . . The Accounting section's basketball team suffered only two casualties last week and they were minor—floor burns. That one layer of skin removed doesn't feel too comfortable. We don't want them to get conceited, but so far they lost only one game so they must be pretty good. . . . How to get your husband to an auction and have him like it. First bid on a large box of cookies, next a few books, then find a comfortable spot for said husband and you're off. At least that was the routine Martha Hallett used and everyone seemed to be happy. . . . My word when are these changes going to end. Wayne Edington transferred to Broadway. Can't someone stop this flood of changes?

G-E Deposits

(Continued from page 3)

ways of solving the perplexing question of who is entitled to the union dues checked-off by the Company, it was decided that the only fair and sure way of reaching the right result was to ask the U. S. Court to decide. The Company has no ownership interest in these funds and only wants to be sure it pays the money to those entitled to it."

In its effort to give further aid in the early settlement of the union dispute, the Company filed a total of 99 petitions for N.L.R.B. elections to be held at various G-E plants where UE and IUE each claim to represent a majority of the workers. Among these were petitions covering the Broadway, Taylor St., Fairfield, Winter St., Decatur, Ind., Tiffin, O., Danville, Ill., and DeKalb, Ill., plants.

Mr. Boulware, in a letter to the N.L.R.B., pointed out that G-E has maintained a completely neutral position between the contending parties and at the same time has given the N.L.R.B. all the cooperation called upon in connection with the investigation of the situation. He also stated that because of the delay in reaching a solution of the problem a number of perplexing situations are growing to serious proportions which interfere more and more with the operations of our plants, the relationships with our employees, and the paramount interests of the public.

SHIPPING: Santa Claus, please bring some band-aides to C. D. Uncapher who fell down stairs at home last week. He's slightly bruised and battered but otherwise OK, and could use the gift. . . . Christmas came a wee bit early for Buck Buchanan with a check for his suggestion. Being a bit of a Santa himself, Buck treated us to candy. . . . Several years ago, on the day before Christmas, a terrific race occurred between Kris Kringle and Mr. Stork. Who would arrive first that was the big question? For those of you who don't know the answer, Mr. Stork arrived first with a boy for Mr. and Mrs. Ebel. So, here's a great big Happy Birthday to Herman Ebel who was almost but not quite a Christmas package. . . . MAILING: Who is Puddles? That was one question that stumped the Mailing section. Don Pappert finally came to the rescue with the answer. Seems Don and Duane Cole attended a hypnotist show at one of our local theatres. Duane somehow became a subject and before you knew it he was barking like a dog, hence the name Puddles.

"Glory to God in the highest, and peace on earth, good will toward men."
Luke 2:14

Ed Bienz is monopolizing the space—as far as the tool room is concerned. He was elected on the board of directors for the G-E Apprentice Alumni Association. He purchased a new automobile. So proud is he that he wouldn't think of stopping in a hurry just because the traffic light was red. What he couldn't figure out was how that light kept following him. The boys in blue gave him a pink souvenir.

GLORY BE TO GOD IN THE HIGHEST AND ON EARTH PEACE TO MEN OF GOOD WILL. . . . In a few hours we will again celebrate the birthday of our Lord and Saviour, Jesus Christ who was born in a stahle, laid in a manger, wrapped in swaddling clothes, became man and then laid down His life, so that all mankind might be saved and attain his eternal destiny, "Heaven," for which we were all created. So, folks, come to Him this Christmas and give Him your whole heart full of love and Thanksgiving for all He has sacrificed for you and me. What greater sacrifice could any man give than lay down his life for his fellowmen. You and I are His fellowmen. The only difference is we are either with Him or against Him. So let's celebrate His birthday this year as it was originally intended to be celebrated hy our forefathers and the church. . . . It's not what or how much you give in worldly goods but how you give it. It will either be with a free and willing heart or just a commercial practice. So why not give Him and yours all your Heart and Love and whatever of this worldly goods your charitable self can give to the poor, the orphans and the less unfortunates until it hurts. We wish you and yours all a very MERRY AND HAPPY CHRISTMAS.

"Adventures Ahead" Offers Outlet For Teenagers' Hobbies

"Adventures Ahead" offers a source of entertainment to Ronnie Ruple, above, a patient at the Lutheran Hospital.

The G-E magazine, "Adventures Ahead," has been a source of entertainment for many employees' children and often it has afforded an outlet for the development of hobbies and skills which may pay off to the young men and women in later years.

Ronnie Ruple offers a good example of the pleasure afforded by the magazine to young men who are engineer-minded.

Through his reading in "Adventures Ahead," Ronnie became interested in building several projects described in the teen-agers' magazine.

Ronnie first erected a crystal set with the aid of a friend. After building his first set, he has improved on the design and construction of his future sets. He now has built a set that contains only the crystal, earphones, aerial, and ground wire.

Then he went on to larger projects. With his father, Charles Ruple, who works in FHP Div. 14 at Taylor St., he built a power lawn mower. They cut down the blades of an ordinary lawn mower and connected the blades with a pulley and belt to a gasoline engine.

Ronne's next try will be a one tube amplifier, but for the time being it will have to be a future project. About two months ago, Ronnie contacted polio and has been a patient at the Lutheran Hospital.

The doctors have promised him, however, that he may go home for Christmas, then in a few months Ronnie will be able to set to work again on other engineering projects described in the magazine; and, who knows, he may some day be one of General Electric's foremost engineers.

Speaking of vanity, Lorinda Byerlein, who swore she wouldn't be found dead carrying a shopping bag, was forced to buy one for all her Christmas packages last Monday night. She was so embarrassed she walked all the way home instead of boarding a bus. Incidentally, Lorinda, where did you find such a huge bag? . . . Edna Houser had some beautiful plastic tablecovers at work the other noon. Ironically, all the women wanted the same cover. . . . We are terribly sorry we missed Irma Hanny's birthday Dec. 4. Could we just wish you a Happy New Year, instead? . . . Goldie Duff bought a very nice iron cord at the G-E store the other day. She really didn't need it, but a friend of the family said that it was just the kind of cord his wife wanted and that was all he was buying her for Christmas! So Goldie hurried to get one beeause she didn't want Russell to buy her one for Christmas! . . . Now I know there is a Santa! We heard that Oscar Bobay was dressed for the part. Bet the kiddies thought so too.

Harmonicats Entertain At Elex Party

The Harmonicats, recording and radio artists, were featured at the Elex Club's Christmas party Thursday, Dec. 15. They paused long enough between the two shows to give a few pointers on the intricacies of harmonica playing to Mary Leiter, Elex president, and Alice Dahman, second vice president. Left to right are: Al, Mary, Jerry, Alice, and Don.

Nora Coburn thanks all her friends for the beautiful cards and hankies she received on her birthday. . . . Was Bertha Wollert's face red when she went down town to do some Christmas shopping and found out she had taken someone else's purse. . . . Agnes Reinking was walking across the street with Mike Dunscombe and didn't he let her fall down right on Broadway. . . . Eddie Murchland bought a new Chevy. . . . Dutch Narwald doesn't have a Plymouth, he has a "Rolls Royce." . . . Everyone is glad to see Tom Hildebrand back. . . . Wonder what Dutch Narwald and Ralph Braden were doing in New Haven? . . . Olen Lehman has left the green room and is on second shift. . . . Bessie Chapman thanks her friends for the lovely gifts and parties given her in her honor. . . . If there is a soap shortage, see Nora Coburn.

TOOL BITS
19-4 & 19-5

By Don Clark

The General Tool division and their reporters welcome Don Clark as their new editor. . . . Also, they join in wishing good luck to Harry Travelbee, who is leaving to take an advanee production course. The offiee presented him luggage as a farewell gift. All the best to you, Harry. . . . Any division can have a Christmas tree, but not like the one in Bldg. 19-5. The additional atmosphere is added by Louie Brunner's red eorduroy hat. What the girls wonder is how Louis will look wearing a Christmas tree. What he doesn't know is that it is fastened to the tree with wire. . . . Speaking of getting your money's worth from the bus company, Mildred Wagoner knows the answer. Any bus driver on the No. 4 line could easily recognize her, as she spent one noon hour last week taking a complete round-trip ride of the line—by mistake, however. . . . Lowell Welker rates his 1934 car highly. He was seen putting it in a paid parking lot. . . . Ed Steward came up with a dandy ice fishing story. A 14 inch hass swallowed his depth finder when he was in the act of checking the depth of water.

Pick-Ups
Bldg. 26-3

By Elvira Romary

TIME FOR SANTA CLAUS

When the snow is on the ground
This jolly time of year,
Then news goes buzzing 'round
"It is most time he was here."
Someone dressed in red and white
With a bell upon his cap,
Someone who takes great delight
Holding kiddies on his lap.
Now the boys and girls obey
So much better than before
Now they put their toys away
And they never slam a door.
What goes on? Is there a reason
They're so good? Ah, it is because
This is Christmas stocking season
And they're fooling Santa Claus.

Now you take Lois DeBolt, when a car stuck she'd rather push the car than work the controls. If you ever need a good pusher, call Lois. . . . Congratulations to the newlyweds, Lavonna Porter and Ernie Clark. They were married Dec. 21, and honeymooned in Florida. We hope you both will be very happy. . . . I would like to take this opportunity to wish you all the very Merriest of Christmases.

Lloyd Bird, is an ambitious chap—he spends his spare time studying radio and television. He is equipping his shop until it will be a modern first class place. Lots of luck to you, Lloyd, in your new studies. . . . Nina Brown recently underwent an operation. She is now released and doing fine. . . . Effie McGill says her mother is getting stronger daily since her accident. . . . Rita Wellman thanks Santa for her gifts of anklets and more anklets.

Now that the rush and fuss of Christmas shopping is nearly over, everyone is ready to settle down and just enjoy a nice long week-end. . . . Everyone has been really in the Christmas spirit. It was very evident last Monday when Charlie Gable wouldn't argue with Gordon Smith. When those two aren't at each other's throat, you know there is something wrong. You know, Charlie, we still wonder as to just what the right story is on what you did to your lip. . . . The girls in the office had their annual Christmas party and gift exchange at the Coral Room this week. All were very much pleased with their gifts. The dinner was very good, so a good time was had by all. . . . We were all sorry to see Louis Shattuck leave Div. 17, but since he had to leave, we know of no one we would like to welcome back more than Bob Wefel. Welcome home, Bob. . . . A Very Merry Christmas from Div. 17 to all Fort Wayne Works and an extra one from your reporter.

Corn S'talks

TAYLOR ST. SHIPPING

By Sally Ford

With Christmas coming
Just once a year
Reminds us that
It's darn near here
So with Yuletide Greetings
Of Health and Cheer
We wish everyone a
Merry Xmas and Happy New Year.

A Merry Christmas to Everybody. . . . Congratulations to Mr. and Mrs. W. E. O'Brien who will celebrate their 34th wedding anniversary Christmas. Also to Herbert Cook who was married last Saturday to Gerna Camhill. . . . Happy birthday to Velva Smith. . . . We are glad to see Clarence LaGras back. He had been ill. . . . Rudy Becker, who is retired, reports via Christmas card from New Braunfels, Texas, that he is living the life of Riley. He claims it is hot, (90 degrees) last Sunday, there and also the flowers are in bloom. . . . Charley Trey reports he is doing fine.

G-E PENSIONER DEVOTES TIME TO HOBBY OF BREEDING BIRDS

Mr. Trinen is shown, above, holding one of the "red factor" birds in his hand.

John Trinen has a hobby that has been both interesting and exciting to him since his retirement. Mr. Trinen began his hobby of breeding birds in 1936, when he purchased a siskin bird from South America.

When he received this bird, he bred it with a common canary. This resulted in a type of bird called "color-bred," which he has raised for the last five years. These birds have varigated plummage. They usually are spotted and have no true color. The dark spots that appear in the first five generations of the color-bred birds are inherited from the siskin parent, which has a red body and a black head.

According to Mr. Trinen, after this period of breeding comes the "red factor" bird, which is uniform in color and has a brilliant red-orange plummage. Mr. Trinen's goal is to some day obtain a clear-red bird. He estimates that this may be accomplished in a few more years. At the present time he has no knowledge of the existence of such a bird.

Mr. Trinen has shown his birds in several national shows. He has entered his "red factors" at exhibitions in Chicago, Muncie, and Dayton. He has one Great Champion and numerous other ribbons and trophies for his prize-winning birds.

Since his retirement, he has made many friends through his hobby of raising these rare birds. Mr. Trinen has invited anyone who would be interested in seeing his birds to come to his home at 4330 Drury Lane.

Mr. Trinen retired in November of 1946, after having worked as a punch press operator in the Transformer division. He was with the Company 30 years.

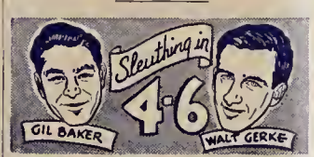
The world is keeping Christmas
Hearts grow tender once again,
And across the earth comes sounding
That sweet "Peace, good will to men."
May all the meaning of the Day
Rejoice your heart anew.
And be a world of Peace, Good Will
And Happiness for you.
MERRY CHRISTMAS, EVERYBODY

George Soule got up full of vim and vigor, and dashed to the refrigerator—fried head cheese for breakfast. His wife quickly put a damper on that. She said that was Fido's food. . . . Another fog story. Bill Martin knows we have been having dense fogs. In fact, it broke the bumper on his car. He has the evidence. The bumper still has fog on it. . . . Santa must have paid Helen Huhn an early visit—all the pretty jewelry. . . . Rose Fuhrman was tripping along to work when she bit the dust. I mean mud because it was wet dust. . . . Ruth Lemert, Violet Brower and Bertha Witham are third week vacationers. Next week Lela Doehrman and Laura Starner will be the lucky ones. . . . The next time Verna Bullerman eats out she will probably order hash, could be she would get a steak. The other night she ordered steak and got hash. . . . When Perry Esterline puts pepper on food he really uses it—a whole shaker full. . . . Happy birthday to Lilly Schock and Clara Dixon. . . . We thought Ross Domey was angry and wouldn't speak. We learned he had lost his voice. . . . Ivah Grandstaff and husband couldn't wait for Christmas. They showed each other their presents and hid them again. . . . Our sympathy to Marie Bowers Chandler in her sister's death.

There can't be any Christmas
Unless the heart is there,
For gifts, however costly,
Can none of them compare
With tiny Christmas greetings
Sent with a thought of love,
Like that first Christmas Gift to us
Sent down from God above.
You can't make Christmas merry
Unless the heart is there
So warm with love for all mankind
With whom you want to share
For God gave us His only Son
That all of us might know
That Christmas is for giving
And not for pomp and show.
For giving joy and kindness;
For spreading peace and love;
For laying down our grievances,
And praising God above
So put your heart in every gift,
In carols and in prayer.
For there can be no Christmas
Unless the heart is there.
—Karin Ashbrand

When some men do their Christmas shopping for ladies they take their favorite mail order catalog and behind locked doors they order the dainty items. Garland Roby apparently isn't of this bashful type, because it is reported that he was seen staring in a daze at some delicate pinks on a store counter. When he suddenly awakened to the circumstances of his whereabouts he registered only slight embarrassment. . . . With the coming cold weather and frozen lakes, ice fishing parties will replace those rabbit hunting parties. I wonder what technique Bergman has for calling back fish that missed his hook? This week's fishermen were: Dick White who caught 22 (minnows) and Richard Wagner who caught foot-long and foot-wide red-ears out of a four inch hole at Rome City. . . . James Hoppel is the new president of the "200" Club—but it hasn't been decided if its official because he didn't gain to get in the lead. Myron (Chubs) Auer is now on a diet. . . . For a list of the many things that can go wrong on a car all at once just see Donald Konow. MERRY CHRISTMAS and A HAPPY NEW YEAR to all.

I thought it was in the spring that a young man's fancy lightly turns to thoughts of love, but I guess love knows no season as noted by the sparkler on the third finger, left hand, of Vera Kruge. Yes, Vic Housel is the lucky man. Vera, they say a husband is one who stands by you in trouble you wouldn't be in if you hadn't married him. They also say marriage is the most certain method for determining who you can't live with. Please don't quote me on the above, as marriage is grand and I'm all for it. Congratulations to you both. . . . A familiar face belonging to Mary Lou Somers made its appearance here last week. Being in town for the day, she just couldn't resist coming in and wishing us all a Merry Christmas and a Happy New Year.



CALL TO CHRISTMAS

The hour has come now to receive
The long-awaited Christmas Eve;
Holiday shopping is all done,
Parcels wrapped, clean curtains hung
And, after endless tasks of cleaning,
Homes take on a festive meaning.
Hours were spent, like busy bees,
Making sweets and delicacies.
The sparkling Yuletide trees now glow
O'er holly wreath and mistletoe.
When, lo, the joyous Church bells ring
To call us all to Christ, our King—
That we may find Christmas complete
With Christ, our Lord, our Savior sweet.

BELLS OF CHRISTMAS

Bells of Christmas softly ringing
O'er our town, morn, noon and evening.
Pealing softly, sweet and low
Beloved carols we all know;
Carols in the sky, they say,
To honor Christ on His birthday.
Bells of Christmas softly ringing
Peace and joy, His message bringing
Love and light to us on earth
Who exalt His lowly birth.
Lo, Bells of Christmas, help impart
Love of God in every heart.

JUST HOW GOOFY CAN YOU GET! The File Room Girls sure know how to decorate for Christmas, but who ever heard of pink and blue for Christmas colors? . . . ICE FISHING—Billie Frain and her hubby went ice fishing last week-end. The story goes, she caught one bluegill to equal her hubby's seven small ones. Who says the weaker sex can't keep up with the man mountain dean of today? . . . KING FOR A DAY—Toby Tyler reigned supreme last Monday in the Southeast end of the DC Division. Adolph Strasser and Glen Stapleton were on vacation and Paul Lang ill. . . . THREE QUEENS IN ONE DAY—Delores Giltz, Betty Puff and Judy Clark added their beauty to that of our motors for the Apparatus Department Engineering Managers meeting last week-end. . . . ON THE BALL—Last Monday morning the clocks were 15 minutes fast but during the morning Millie Blievernicht completely forgot about this and at 11:40 Millie was standing out at the clock with her coat on ready to go. . . . AC DIVISION—This Division is holding their news for next week. They say it will be the column to read. . . . Your Editors, Gil Baker and Walt Gerke, take this time to wish you all a very merry Christmas. Have a wonderful holiday, kids.

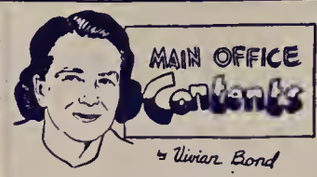
IT FINALLY HAPPENED: The little fellow, who went around with the pouter pigeon chest and with the chip on his shoulder saying that the fellows wouldn't live long enough to skunk him, got it. It all came home to roost on Louie Watt's doorstep last week, and there will be no retraction on this one as Louie didn't even make one little point. Louie took some consolation in the fact that Bill Johnson went along with him. . . . From all reports we heard only good of the Children's Christmas party. Everyone seemed to be very pleased. . . . We were telling of Ozzie and his television telephone. It seems that John Bastian found the combination as he too was giving a hand demonstration on the phone. . . . We were recently visited by Gene Werling, Apprentice School, and are all wondering if Gene is trying to outdo Gov. Schricker in the line of hat style. . . . Jess Batchelder recently made a purchase of a large selection of light bulbs and when he went to lay them in his shelf several rolled out on the floor. Jess had to make another trip for replacements. . . . Lyle Claphan is so proud of that new car that he took Louie Watt, Paul Boedeker and Bill Johnson to Loon Lake via Columbia City, Warsaw, Syracuse, Albion and other points of interest and all the time the fellows kept telling him he was on the wrong road. . . . We have a number of new people in the group: Jay Gaff, grinding section; Victor Beers, lathe section; Forest Gee, welding; Richard Gotschall, molds, and John Cline and Walter Reynolds, tool crib. . . . The fellows who ride with Bob Henderickson tell how they have to catch Bob occasionally to keep him from falling out when the door flies open. Maybe the old bus is getting dried out. Better give it another dunking in Big Lake. . . . We have no more information from Justin Heaston except that they hope to be home sometime this week. . . . TO ALL A VERY MERRY CHRISTMAS.

HI-Spots

OF BUILDING 4-2

With the holiday season rapidly approaching we must also offer our congratulations to those having birthdays: Harold Anspach, Mable Booker, Willis Mertens, Paul Brenner and last but not least our absent reporter Mamie Allen. Evidently Mamie got to California because there has been at least one card, hope she is enjoying her stay there. . . . Joe Trentadue complete with dishwater hands and housemaid's knee returned to work from his vacation and his new 7 lb. 2 oz. baby boy. Congratulations Joe and glad to hear all is well. . . . There is a rumor in the tool room to the effect that Ray Lepper ran foul of the law. I wonder if we have a jaywalker amongst us? . . . During his vacation Charlie Reed decided to go coon hunting. Following the dog across the field on the hot trail of a coon Charlie had the bright idea that the best way to head off his prey was to beat it to a culvert. Charlie entered the culvert, so did the coon. Calls for help and a slight skirmish finished off the duel. Guess who won. . . . We wish to welcome V. E. Hall to the Bldg. 4-2 tool room. . . . Andy Nichter went from nights to days in the tool room. They immediately repaired the fluorescent lights over his bench so that he is no longer in the dark.

Paul Clendenen is walking on air these days. All of his children will be home for Christmas, including the son and daughter-in-law who are coming all the way from Okinawa. This makes the Clendenen circle complete for the first time in several years. . . . Even if he doesn't get his new, two front teeth, Vern Castle is still going to be very happy. The little, air-minded, Glamour Gal is flying in all the way from Idaho to spend Christmas with grandpa and grandma. Of course, tucked away in her luggage are mother and father, just to make it a happy Yuletide at the Castle home. . . . Also on our welcome list is Bob Taylor of the Planning section. Bob was formerly located in Bldg. 17-1. . . . Being a good listener may not be such a good idea after all. While Perry Esterline was paying strict attention to some of the fellows talk at lunch the other day, the rest of the playboys proceeded to season up Perry's lunch with black pepper, "hot ziggity."



It behooves us, of the Christian World, to stop and look around as we enter into the greatest period of celebration known. Never before has the caption of "Peace On Earth, Good Will To Men" been so necessary in our world. In order to deal with our fellow men, peace through tolerance, humility and understanding is essential. On the other hand, if we build our own world around us and forget all else, spirit of Christmas is just a pretty phrase used by someone else. I am firmly convinced that if the spirit of Christmas is practised first in our great country, then we can in turn point out the goodness to other nations with whom we deal for peace. What we need in this great country is less diplomats and more statesmen who put America first.

I wish to send the very best Christmas Wishes to all who have made US SECOND SHIFTERS a success.

Not what we give, but what we share,
For the gift without the giver is bare; who
gives himself with his alms feeds three—
himself, his hungering neighbor, and me.
—James Russell Lowell

At this time we would like to send Christmas wishes to Anne Murtaugh, Veda Orff, and Alta Mayle. We hope that they continue to improve. . . . The annual Christmas party of the NE District Industrial Nurses Association was held recently at the Chamber of Commerce. Olive Walters, Lyle Rupert, Mabel Wilson, and Mae Mulvane were present and reported it was a lovely party. . . . Florence Martin, who has been on second shift duty at Taylor St. Dispensary, bid farewell to her co-workers last Friday, and we shall all miss her.

We have read the stories of
Scrooge and Little Nell
And about Poor Tiny Tim
Whom we know so well.
NOW, I can't write and my
Name ain't CHARLES
BUT, I can wish like the DICKENS.

So, in addition to a very Merry Christmas wish to you all, let me hope that the thoughts of your good deeds during the year will help you know the real meaning of Christmas. Good deeds to others are returned to you a thousand fold—in peace of mind. If you have been unkind to others in word or deed—let's take this Christmas time to make amends. It will not take long and the dividends will be high. . . . Happy birthday to C. H. Matson, C. R. Olson, Bldg. 18-2; Nila Hanson, Margaret Tennison, William Spahr, Bldg. 18-1, and Emily Guth, Bldg. 18-3. . . . The Payroll bowling team enjoyed a Christmas party at the Van Orman Coral Room. . . . There are many Christmas trees in Bldg. 18, Accounting Bldg. 18-1, Specialty Transformer Billing section, Bldg. 18-3, etc. . . . There were more than a thousand girls of G-E who enjoyed the Elex Christmas Party Thursday evening. The entertainment, decorations and gifts were all very lovely. Girls, girls just everywhere and were they all dressed up! A talent scout should have been present to both see and hear our little song bird, Deloris Patterson. I would like to say "thank you" to the committee members who worked so hard to make the two Elex parties a success—while it is difficult to fully realize the extent of the work required, we know it was not all fun. . . . Former WORKS NEWS Editor, Leona Nelson, visited friends here during the week. . . . Maxine Merrickle is back in Bldg. 18-3, with FHP Motor Billing. There are Christmas parties everywhere today and during the week. They all sounded so nice—sorry we can not give a detailed account. This should be a wonderful Christmas for Mr. and Mrs. Robert Wylie. Their granddaughter of Cleveland will spend her first Christmas with them. . . . Vivian Zelt, Bldg. 18-3, will have turkey for Christmas, at least she won one. She has lots of offers to help her dispose of it.

Merry Christmas To All of You From All of Us.

CHRISTMAS

Last night we put our old tree up
And, it took a lot of work;
With lights, and snow and ornaments,
But never did we shirk.
We got the many boxes out
That keeps things year by year.
The bells, the wreaths, and candles,
That add to Christmas cheer.
And when our task was finished,
We stood off to admire.
It's great how just one little tree
Can Christmas cheer inspire.
It was a gaudy little tree
The lights and tinsel glistened.
I'm sure we could have heard St. Nick
If we had only listened.
As I looked at all the trimmings
The thought occurred to me—
Here is just a part of living
Which, but once a year, we see.
I just couldn't keep from thinking,
And I think it's pretty true;
That the story of the tinsel
Is the same for me and you.
We madly live the hectic days,
We rave, we cave, and pout;
Then late in each December
Bring our Christmas Spirit out.
—By James E. Mitchell

Inquiring Reporter:

WHAT DOES THE CHRISTMAS SEASON MEAN TO YOU?

MARIE RENZ

Bldg. 6-1

"To me, Christmas will always mean the anniversary of the birth of Christ. The practice of Christmas exchanges is nice, but should be secondary."

WILLIAM HODGE

Bldg. 4-1

"Christmas is a religious holiday for it portrays the birth of Christ. Many people think that Christmas is merely a time to give and to receive gifts, but to me it is the uniting of family and friends; and of worshiping and sharing with each other. And a kind, spiritual heart understanding."

RICHARD HOOPINGARNER

Bldg. 26-4

"The Christmas season means more than just exchanging presents. It's the spirit of giving, which we should have in us every day in some small way or other. To live in peace and good will toward my fellowmen."

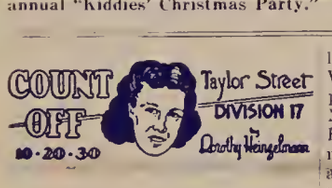
HELEN C. HUHN

Bldg. 17-3

"Celebrating the birth of the Christ Child by attending Midnight Mass with my family; giving generously to the orphans. I'm also thrilled with having our daughter home from school for Christmas vacation and the family Christmas dinner party and gift exchange held each year at a different member's home."

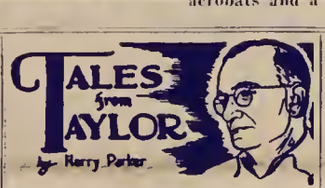
MERLIN DODANE

Bldg. 31-1



"Christmas, I believe, is the most important feast day of the year. It is enjoyed by adults, as well as children. It is a season in which everyone tries to spread cheer and happiness to our fellowmen."

9,000 Children Are All Agog At G-E Club Party



The wide-eyed children, shown in the pictures above, are a few of the nearly 9,000 who packed the G-E Club auditorium during five shows last Saturday at the annual "Kiddies' Christmas Party."

Santa Claus arrived to present each child a candy bar, orange, apple, candy kisses, and a toy truck. The entertainment included a roller skating act, ventriloquist, acrobats and a musical quartette.

Everyone is in the Christmas spirit this week. The girls decorated a tree. Ralph Keller has a tree in front of his desk. He says he saw Santa last Saturday and told him what a good boy he had been. We guess Ralph forgot about the time he went fishing in Wisconsin and borrowed a table that wasn't his and got caught. . . . Clarabelle Castle is leaving the U. S. A. over Christmas. She is leaving tomorrow morning for Havana, Cuba. Tomorrow night she will be there and will stay for a week. On the way home, she is stopping in New Orleans to take in the night life. Peggy Bandt and Jackie Elder have been giving her some pointers on "conduct aboard an airplane." . . . Pat Perry was off ill for a few days, so she had a little helper who inspected rotors. When Pat returned she didn't appreciate her little helper's help. . . . Newt Melching is in the Bluffton Hospital recovering from pneumonia. Ralph Keller, Doyle Sheets and Fred Young visited him and took some flowers and a gift from his many co-workers. Get out of bed, Newt, and get back to work, we all miss you. . . . Marguerite Stahl must be getting in the habit for the holidays. This makes two Mondays in a row she has been off. With the two holidays before us, that makes four Mondays straight. . . . Andy Anderson is hoping that it gets cold this week, as he started his vacation and wants to do a lot of ice fishing. . . . If you have been missing Maurice Roe this week, just look over in the fan motor section and there you'll see Maurie doing a fancy job of packing. . . . The Merriest Christmas to eaeh and everyone is wished by your writer, Dorothy Heinzelmann, and her substitutes, Alma Witte and Moe.

As the year of our Lord 1949 draws to a close and the time draws near to that day of days, the birthday of Christ, our Saviour, it is again my privilege to deliver our Christmas message.

It is with grave concern that we view the situation that exists, not only in our own country but also in those of the world in general. We should not fear the un-Christian like hordes that seem to have a strangle hold on Europe today, but be firm in our belief and have faith in the Almighty. Then, and then only, will the threat of totalitarianism vanish. Much has been said and printed on the subject, but if mankind would heed the teachings of our Lord and Master throughout the year instead of merely on Christmas day, then it would he possible to have a glorious peace on earth, good will to all mankind.

But, no, man is inclined to think of Christ only on this one day, then proceed to totally disregard His philosophy the rest of the year. Of all that is said and written about these things, mankind is prone to revert to selfish interest, greed, graft and corruption.

What must the Lord think as He sits upon His throne on high and looks over the situation that exists on earth today. Is it any wonder that we have to struggle for an existence? The wonder of it all is why He does not destroy the earth and its erring people. If mankind would take heed of His teachings, then and then only could we have a glorious world in which to abide. So on this, His day of birth, let us bow our heads and on bended knee beg of Him to lead us in the pathways of righteousness for His namesake and in the name of the Father, the Son and the Holy Spirit, begging of Him to restore to this weary old earth peace and harmony.

Tricks In Transformer

—FROM DIVISION 91—

By Bob Bunyan

Two days before Christmas and all through the shop not a creature was stirring not even a mouse, John Hughes, Ed Byers, or Bill Gepfert. This is the first time I've ever seen the boys on good behavior. Must be the Christmas exchange. . . . Seriously, speaking, be good and be careful over the holidays and a very Merry Christmas to all.—Ed Haas.

Tool and Sample Shop, Bldg. 26-2

We are sorry to hear that Al Colbert is not up to par as he had his tonsils taken out. We hope your throat heals soon, Al, so you can eat turkey Christmas. . . . Gladys Suter spent her vacation in Minnesota last week. . . . The Sample Shop had their Christmas potluck yesterday with a gift exchange. . . . Millie Strickler is making reindeers out of pipe cleaners.

Santa will soon be here !

Wishing You
A Merry Christmas

FORT WAYNE WORKS
GE NEWS

Volume 32 | FORT WAYNE, INDIANA, FRIDAY, DECEMBER 30, 1949 | No. 52

I am wondering what would happen to me by now if fifty years ago some fluent talker had converted me to the theory that it was not fair to my fellow workers to put forth my best efforts in my work. I am glad that the eight-hour day had not been invented when I was a young man. If my life had been made up of eight-hour days I do not believe I could have accomplished a great deal.

—Thomas A. Edison

In the role of Baby 1950, Tommy Budecki, above, celebrates the passing of the first half of the 20th century. He is the son of Ted Budecki, foreman in FHP Motor Div. 17 at Taylor St.

Social Security Deductions To Be Increased Jan. 1

The payroll deduction for Social Security, which has been one per cent on the first $3,000 of annual earnings since 1936, will be increased to one and one-half per cent on the first $3,000 of annual earnings starting Jan. 1, 1950.

The Company also will be required to increase its contribution from one per cent to one and one-half per cent in order to match the increased amount being paid by employees. The benefits payable under the Social Security Act remain the same—there is no increase in benefits corresponding to this increase in the Social Security tax rate.

According to the original provisions of the Social Security Act, the tax was scheduled to rise eventually to six per cent on the first $3,000 of annual earnings—three per cent to be paid by the em-

(Continued on page 3)

Supervisors Conduct Elections For Officers, Administrators

The newly-elected officers of the Supervisors' Club are shown above: (l. to r.) Hubert Myers was re-elected secretary; former treasurer, A. S. Johnson, was elected president; K. W. Michael will take office as vice president, and Robert Wefel was named as treasurer.

New officers for the Supervisors' Club were elected by the Board of Administrators Thursday, Dec. 22, at the board's first meeting following its election of new administrators.

The new officers, who will be installed at the club's annual meeting Monday, Jan. 9, are as follows:

President—A. S. Johnson, Bldg. 18-1.

Vice President—K. W. Michael, Bldg. 8-2.

Secretary—Hubert Myers, Taylor St.

Treasurer—Robert Wefel, Taylor St.

Six members of the Board of Administrators were elected Friday, Dec. 16, from the territorial groups for two-year terms.

Robert Wefel was elected to re-

(Continued on page 8)

G-E Foremen's Association To Hold Meeting Jan. 11

The Foremen's Association will hold a meeting Wednesday evening, Jan. 11, at Kreis Stolzenau hall. Judge William H. Schannen will be the speaker.

Withholding Tax Statements Will Be Distributed Jan. 12

Employees' Withholding Tax Statements (Forms W-2) will be distributed Thursday, Jan. 12, it was announced today.

Employees who have received more than one Form W-2 statement during the year must add the amounts together in order to arrive at the total earnings for 1949.

On the duplicate copy of the Form W-2 distributed Thursday, Jan. 12, will appear a red stamp, which will show total earnings for the last six months of 1949. This total is necessary in order to calculate Indiana Gross Income Tax, as the per cent was increased from 1 per cent to 1¼ per cent, effective July 1, 1949.

Suggestions Kept On File Six Years Before Destroying

Fort Wayne Works suggestions are kept on file for a period of six years after which time they are removed from the files and destroyed, it was pointed out today by A. C. Hartman, Chairman and Secretary of the Suggestion Committee.

After Feb. 1, the committee will only be able to re-open for consideration those suggestions closed after 1943. This is in accordance with past practice.

Suggestion Contest Winners Receive $50 Bonus Awards

The 11 winners in the Suggestion System Contest at the Broadway, Taylor St., and Decatur plants are shown, above, following the announcement of their awards by the Central Suggestion Committee last week. They are: (standing, l. to r.) Jesse Batchelder, Taylor St.; Otto Aumiller, Bldg. 17-2; Charles Buchanan, Bldg. 6-2; Elden Lewis, Taylor St.; Lewis Ormiston, Bldg. 26-1; John Driver, Taylor St.; William Hunt, Decatur; Homer Markley, Taylor St.; Avenel Stanton, Bldg. 26-2; Amos Schlaudenhauffen, Bldg. 19-1, and Herbert Scherer, Taylor St. Seated, above, are the members of the suggestion committee: Howard Miller, A. C. Hartman, chairman, and G. C. Michael. F. L. Schafenacker was absent when this picture was taken. The committee reviewed the suggestions and made the final selection. Certificates, each redeemable at the Employees' stores for $50 worth of merchandise at employee prices, were awarded to the 11 winners as bonuses for submitting the best suggestions contributed by employees of the Fort Wayne Works during the period extending from Sept. 1 through Nov. 15.

Changes Announced In Bus Schedules

The Fort Wayne Transit Co. announced today the following changes in its bus schedules, which will become effective Tuesday, Jan. 3:

The Special bus will leave Third St. and Franklin Ave. at 6:20 a.m., instead of 6:28 a.m.

The Calhoun and Lakeside Specials will be discontinued on the 5:15 p.m. trip. There will, however, be a Calhoun bus from the Taylor St. plant.

Those desiring to go to Paulding road may now ride a Special, which goes out Broadway, across Sherwood Terrace and out to Paulding Road as far east as Anthony Blvd. It then turns north on Anthony to Oxford St.

The new schedules can be obtained from the supervisor's booth at Main and Calhoun Sts. Those desiring to have their name placed on the mailing list for a particular schedule may do so by mailing a postal card to the Fort Wayne Transit Co., 220 E. Jefferson St., and indicating which schedule is wanted.

Cheerful Economic, Personal Outlook Seen For New Year

If the forecasters are right, 1950 will be quite a year. *U. S. News and World Report* has summed up the consensus. According to it, the people as a whole "will be better fed, better clothed, better housed, better supplied with the goods and services they want. Jobs promise to be rather plentiful. Pay will be better than ever before. Taxes will not be higher. Prices are likely to be fairly stable."

The figures are extremely impressive, even in an era when we are accustomed to talking glibly in terms of tens of billions. In 1950, our total spending—which includes everything spent by individuals, business, and government—is expected to be nearly $267,000,000,000. That is $7,000,000,000 more than the estimated figure for this year, and $5,000,000,000 over the 1948 total.

The biggest gain is expected in spending by individuals. One reason for this is the $2,500,000,000 which veterans will receive in refunds on their government life insurance. Payments will begin shortly after the first of the year and will be completed in a relatively short time. It is believed that a very large part of the money will be spent in a hurry for consumer goods of all kinds.

Total individual earnings, the magazine continues, are forecast at $216,500,000,000. Personal taxes and anticipated savings will amount for about $34,000,000,000 of it. So, if the crystal ball is telling the truth, individuals will send $182,500,000,000 flowing through the channels of trade and commerce.

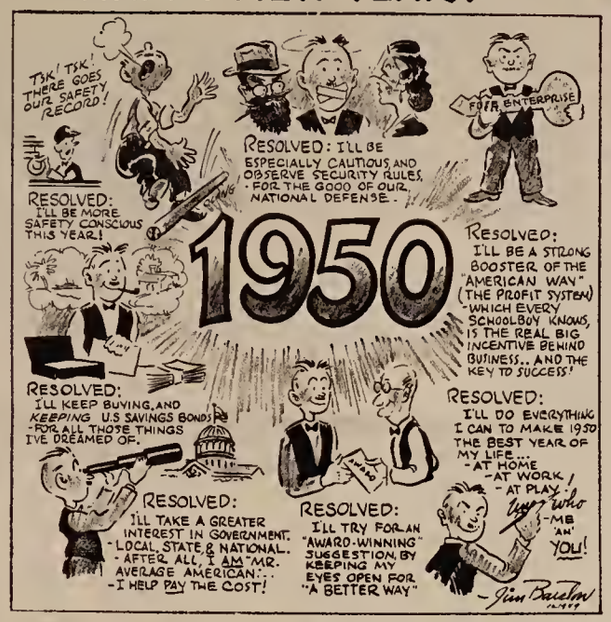
Spending by government will increase by some $2,400,000,000. Private investment, on the other hand, will probably be not much greater than this year, and substantially below the $45,000,000,000 figure which was chalked up in 1948.

Some of the experts are convinced that economic troubles lie ahead—but few expect them in 1950 or soon thereafter.

Whatever the New Year may be in other respects, however, we can, by profiting from experience, make it for our personal selves the happiest ever. Kind thoughts, a cheerful heart and feelings of fellowship have made our brightest moments for us in the past—and can make more such moments for us in 1950. Doing more things that we shall be glad to remember, saying more things that will make us gladly remembered, thinking more things that keep warmth in the spirit—the happiness of the New Year is ours thus to mold and to fashion.

Miracles Of A Free Nation Flourish During Half Century

Among the things that were practically unknown in American life 50 years ago are automobiles, motion pictures, radio, telephones, television, airplanes, electric refrigerators, vacuum cleaners, bubble gum and income taxes. If you think that any of these things were sadly missed, just ask anyone in his sixties if he had any fun growing up.



Life in the United States has been good from the beginning—because it has been free. Good things have come out of it, and there are no doubt more good things to come. At the turn of the century folks were not looking ahead to such miracles as traveling 50 miles an hour on the highways and 300 miles an hour in the air, talking across the continent and across the oceans, listening to an orchestra play a thousand miles away and doing their housework with pint-sized motors. They were only trying to get the best out of life, developing a habit of pressing on with every new discovery—to make it serve more people.

When this nation was founded, it was little realized how well men would work together without compulsion under freedom. They did work together so well as to evoke this comment in *The Iron Age* 50 years ago:

"The manufacturers of this country, as a rule, are inclined to impart information freely concerning methods and processes which they use. Our tremendous progress has undoubtedly been accelerated by the willingness with which experiences have been exchanged and the freedom with which faulty methods have been criticized when found in use."

Yes, long before we had any of the glamorous luxuries which we now like to regard as necessities, we had a spirit of mutual helpfulness at work in the world of commerce and industry that we destined to put these things within our grasp, and on a scale that almost challenges belief. This voluntary, gratuitous sharing of knowledge by such industrial pioneers as the General Electric Company goes on and on. It is a splendid example of man's inborn good will, and how it flourishes in a land of free people.

HAPPY NEW YEAR!

Christmas is over and we are now on the brink of a new year and when it rolls around I hope it will be the happiest ever and one that will be remembered by us all. Remember the best way to happiness is to "keep your heart free from hate; your mind from worry. Live simply; expect little; give much; fill your life with love; scatter sunshine; forget self. Think of others and do as you would be done by." . . . When Tom Dent returned from his third week's vacation he found himself really behind the "eight-ball." As you all know there has been an Eight-Ball Good Housekeeping Campaign on in the General Stores, Shipping and Receiving sections for the past three months with a large eightball going each week to the poorest housekeeper. This was the case with Tom—he thought. Someone had placed the eight-ball on his desk with the hope that Tom would "blow his stack" when he saw it (yes, it happened before) but Tom fooled them all and laughed it off. It was all a joke as Tom was really commended by the committee, consisting of Ed David, Herb Grueb, and Lloyd Platt, for his fine housekeeping and in appreciation they presented him with an eight ball cigarette lighter with his name engraved on it. This came as a great surprise to Tom and he would like to take this opportunity to thank the committee for their gift. By the way, the real recipient of the eight-ball this week was Paul Merkert. . . . One day last week the office gang enjoyed a delightful luncheon at the Belmont Restaurant and in memory of the day Chris Riez wrote the following poem:

DECEMBER 22, 1949

'Tis the twenty-second of December
As we are gathered here today
And a day we should all remember
When we are old and gray.
It's a day we should be grateful
For the many things we've had
As much of the world is hateful
And another part is sad.
So let's all be friendly
Greet each other with a smile
Speak of others gently
Our stay is just a little while.
And when we ring the clock again
This afternoon—I hope
I'll be razzed all over again
By, you know who I mean—the dope.

We're not sure to whom he was referring when he wrote the last line but his gaze centered on Herb Jesse when he was reading it. Could be. . . . Herb Jesse is enjoying his third week's vacation this week. By the way, gang, don't forget tonight's the night we go to Herb Jesse's at Ossian—Farm No. 7. See you all there. . . . Hunting stories have been rather scarce this year. Maybe Byron Simmons is the only hunter (or should I say trapper) in our midst. When hunting for rabbits, he says he always gets his limit even though sometimes he has to shoot them in a trap. . . . We welcome to our midst Richard Graber, John Cline, Walter Reynolds, and Milo Clark. . . . We're glad to hear that John Hall is home from the hospital and well on the road to recovery. . . . It's common knowledge around here that when one makes a mistake on his tools there's another boat anchor. We are all wondering now what Charlie Florent plans to do with 24 so-called boat anchors and in the middle of winter, too.

WHAT'S NEW IN GE PLANTS & LABS

SCHENECTADY — Army tanks out on test may be trailing bicycle wheels this year, according to G-E engineers here.

Engineers of the G-E General Engineering and Consulting Laboratory have developed a new speedometer for experimental military vehicles. It is hitched to a bicycle wheel which is connected to whatever vehicle is being tested, and the instrument keeps tabs on the vehicle's speed.

* * *

SYRACUSE — General Electric has sold television audio and video microwave relay equipment to station WLAV-TV, Grand Rapids, Mich. The station is believed to be the first to use equipment which will relay both picture and sound for commercial programming over a privately-owned, microwave, relay system.

The Grand Rapids television station hopes to make arrangements to pick up television programs from four Chicago stations, WBKB, WGN, WENR, and WNBQ.

G-E receivers will be set up at Stevensville, Mich. to pick up the signals from Chicago and from there the signals will be relayed to Cedar Bluff, Mich. and then to the station site at Grand Rapids.

ENGAGED BELIEVE IT OR NOT: It really happened, Loretta Gerardot is wearing one of those great big shinning sparklers which is a forerunner to a life partnership. We can't tell you the exact date of the final knot tieing but we all hope it's soon. We don't want Loretta to get cold feet and change her mind. Congratulations, Loretta, we're keeping our fingers crossed. . . . HAVE YOU SEEN OUR ACROBAT PERFORM: If not watch Paul Black sometime ride those reels of wire around like he was on a one wheel bicycle. Ringling Bros. or someone else is looking for guys like you, Paul. . . . HEARD THIS ONE: The fellow said he must have got out on the wrong side of bed, because he was wearing his wife's shoes. Fatty (Bud) Morris came to work with one week day and one Sunday shoe on. What's the story, Bud? You must have slept in the closet. . . . SIX TON PICKLE WIMPY (Lemper). He was referred to in them thar days, he claims. His enormous profits he goes on to tell us were made possible by the fact that during the years 1932 and 1933 pickles were scarcer in Indiana than free lunches in Scotland, and that he didn't fiddle faddle around with selling just a 100 or 200 at a time. You were obliged to purchase six tons at a crack or you went pickle hungry. That's all there was to it. For this one, Mr. Lemper, there is absolutely no doubt about it. You are the Champion Tall Story Teller for '49. Congratulations and may your stories for 1950 be much bigger and better. . . . GUESSES HE'LL HAVE OPERATION: Ray Kierspe's not been feeling too good lately. He's confided to one of his co-workers that he thinks he will have some operations performed at the "Last Chance Hospital." The first operation to lead to another and so on and so on. Everyone is worried. What will there be left of our little Ray after the last and final cutting. Be calm, folks, why start worrying now already? Wait till it happens then there's nothing you can do about it. It'll be too late. . . . SO BRIGHT CAN'T SEE STRAIGHT: To read those no parking signs. We mean that sparkler of Loretta G's. It's already cost her a buck traffic ticket. Seems like you just can't win. . . . KIDNAPPED. Forrest A. Gill had to kidnap Al Swift in order to get him home early after work so Al would receive his surprise gift. Al kept insisting he had to go to the barber shop. Next time Al promises not to be so contrary. He received a very nice rod and reel with which to catch those red horses, he hopes. . . . Congratulations Robert Firestine, Roy Fields, Carl Hankel and William Miller. . . . HE'S GOT THE FEVER: Harry Perl that is, as of last Friday he wants to buy a brand new black Ford four door sedan. Maybe by this time he has it. Nice Christmas present, Harry. . . . HAPPY NEW YEAR TO EVERYONE.

Proehl Rounds Out 30 Years

Otto W. Proehl, Bldg. 17-4, has rounded out 30 years of service with General Electric. Mr. Proehl is a jig bore operator in FHP Motor Development Div. 33. This position is considered tops in precision machine work. Attending a ceremony, in which Mr. Proehl received a congratulatory letter on his service, were: (l. to r.) C. A. Hartman, General Foreman; Carl Hattendorf, foreman; Russell Noll, Mr. Proehl, Theodore Seymour, R. L. Spitler, Superintendent; Fred J. Stauffer, Edward Schneider, and Erwin F. Zollinger. All except Mr. Hartman and Mr. Spitler have worked with Mr. Proehl in Bldg. 17-4 for the past quarter century.

DR. FISHER IS AWARDED 1949 ALFRED NOBEL PRIZE

The Alfred Nobel prize for 1949 has been awarded to Dr. John C. Fisher, metallurgist in the G-E Research Laboratory. A joint award of several engineering societies, the presentation was given at the recent annual banquet of the American Society of Mechanical Engineers held in New York.

Dr. Fisher was awarded the distinction for his paper entitled "Anisotropic Plastic Flow", which was published in "ASME Transactions" of May, 1949. He is the second member of the G-E Research Laboratory's Metallurgy division to win the prize in the past three years. Dr. John H. Hollomon, assistant head of the division, received the honor in 1947.

Each year a young member of either the "Founder Societies" or the Western Society of Engineers is given the award. The Founder Societies are the country's four oldest engineering societies, of which the ASME is one. The award is made on the basis of the excellence of a technical paper published in one of the Founder Societies' journals. Dr. Fisher's winning paper dealt with the theory of deformation in metals.

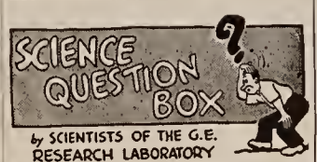
Social Security

(Continued from page 1)

ployees and three per cent to be paid by employers. No increase in benefits was contemplated at the time this tax schedule was established—the full six per cent being considered necessary to take care of payments under the adopted schedule of benefits.

However, at the last session of Congress, the House of Representatives passed a bill increasing the present benefits. Should this bill be passed by the Senate at some later date, and become law, even greater deductions may eventually become necessary to support the plan.

The increased deduction will become effective on all pay checks issued on or after Jan. 1, 1950, and a schedule of deductions covering checks of various amounts is now being compiled by each payroll division, and will be published in a later issue. However, the following table indicates the amount of the increase in the various earnings brackets.



The total tax is, of course, twice the amounts shown, since the Company also contributes an equal amount.

Increase in Social Security Deductions Beginning Jan. 1, 1950

Weekly Earnings	Present Deduction	Deduction After Jan. 1	Increased Deduction In Year	Total Deduction In Year After Jan. 1
$40	40 cents	60 cents	$10.40	$31.20
$45	45 cents	68 cents	$11.70	$35.10
$50	50 cents	75 cents	$13.00	$39.00
$55	55 cents	83 cents	$14.30	$42.90
$60	60 cents	90 cents	$15.00	$45.00

Under the provisions of the Social Security Act, as now amended, the deductions listed in the last column of the table may be increased at some future date (to be determined by Congress) with no increase in benefits. Further increases in the tax rate probably will become necessary if the bill passed at the last session of the House of Representatives, liberalizing the present benefits, becomes law.

As required by law, the Company will deduct the full one and one-half per cent from each pay check until earnings of $3,000 in any one year have been reached. Thus in the case of employees earning over $3,000 a year, a deduction of one and one-half per cent will be made from each pay check until the total of $45 has been deducted. Then no further deductions will be made for the balance of the year.

Q: If a rocket were fired 20 miles straight up into the air, would it return to Earth at the spot from which it took off, or would it land some distance away?

A: A solid body, thrown vertically upwards in a vacuum to a height of 20 miles (at the latitude of New York State) would return to the surface at a point about a quarter of a mile west of the point of departure, because of the eastward rotation of the Earth. A rocket fired straight up would behave similarly, except for such effects as wind, imperfect steering, etc., which would cause an additional shift of the impact point.

BRICKLEY IS APPOINTED ASSISTANT TO SUPERVISOR OF PRODUCTION IN DIV. 1

B. F. Brickley

B. F. Brickley has been appointed Assistant to the Supervisor of Production, Series Motors, Fractional Horsepower Motor Div. 1, it was announced recently.

Mr. Brickley began his General Electric career in 1942, doing production work in FHP Motor Div. 15. In May, 1948, he entered the Company's Advanced Production program, with assignments in West Lynn, Schenectady, and the Chicago district office.

At the termination of his course, Mr. Brickley returned to Fort Wayne and had been working in Specialty FHP Motor Div. 1 prior to his recent appointment.

He is married and has two sons. Mr. Brickley and his family live in Uniondale, Ind.

Tricks In Transformer

—FROM DIVISION 91—

By Bob Bunyan

It was last Thursday afternoon at three o'clock when all through the shop, not a wheel was moving, not even a man. The men were all snuzzled in their chairs assuming that Jim Stauffer was pinch-hitting for old St. Nick and would soon be there. . . . True to tradition he arrived appearing very tired and still jolly and a very good sport to take over the job really intended for Jim. Our thanks to you, Andy Allen, you did a fine job. . . . Such fellows as Noffze, Mullens, Rupright, and Gus Kuhn sure exposed red faces when the girls displayed those dainty gifts. They were proud of them, why weren't you, fellows? . . . Our thanks to Arlo Emick for the 66 pound candy treat. He is another swell fellow with lots of Christmas spirit. . . . Don Huffman and Eddie Dausher finally were rewarded their rubber tired die wagon equipped with a bicycle bell and a new paint job. Now, maybe we can get some dies set up. . . .

Santa Joins Party

Santa Claus paid an early visit Thursday, Dec. 22, to the Specialty Transformer Div. 91 Christmas party. Mary Kieler, Luella Allen, Dorothy Curry, and Mildred Sadler are shown opening their gifts from Santa.

Congratulations to Mr. and Mrs. George (Pop) Horner. They are the proud parents of a new boy. That guy is sure high-hat now. Thanks for the cigars, Pop, hope it won't be long between smokes. . . . Lauren Prince is looking for a sparing partner. Leykauf says he won't work out with Lauren unless someone furnishes him with a football helmet. . . . We wonder why Joe Ort had Rolfing down on his knees. . . . Ragan also has the Christmas spirit when he passed out candy. . . . I hear Bill Halloway had to get pennies from the piggy bank to pay the postage on a greeting signed by Carl Stout. . . . It seems a note in Bill Gefert's Christmas package was overlooked. It entitles you to drive that car, Bill. . . . Clair Wiebke was seen running circles in his bedroom the other morning. It seems Wimpy overslept and while the boys were peeping their horn, Wimpy couldn't find his clothes. . . . Gerald Crum was presented a decorated rooster from our chicken raiser friend, Ed Byers. It turned out all right though, Crum got his picture taken. . . . I wish to thank Tom Woodard, Bob Enz, and Helen Hunt from the fourth floor for that beautiful wrapped Christmas package and 20 cigarettes which helped to make our party more interesting. . . . And to you all I wish a Very Happy New Year.

Supervisors

(Continued from page 1)

place M. N. Brayer for Group One at Taylor St. Hubert Myers is serving his second year as a representative of this group.

P. A. Vance stepped down as an administrator and was replaced by H. K. Pritchard, who was elected from Group Two. W. H. Crouse is the other delegate from this group, which includes Bldgs. 26 and 28.

Group Three, which includes Bldgs. 19, 20, 31 and 21, elected Robert Blomker. F. E. West has completed his term of office and M. M. Ray has another year as an administrator from this group.

Denton Manecke has been elected to replace James Oman as an administrator from Group Four in Bldg. 4. Eric Hoppe will continue in his second year as a representative of this group.

K. W. Michael was elected to succeed Ivan D. Rinehart by Group Five, which includes Bldgs. 2, 6, 8, 10, 16, and 17. H. B. Reynolds will be serving his second term next year.

R. W. Kent has been elected to replace G. R. Lindemuth for Group Six. A. S. Johnson is the other delegate from this group, which includes Bldg. 18.

I. H. Freeman has been appointed by C. H. Matson, Works Manager, to continue as the Management's representative on the Administrative committee.

Review Of Book To Be Presented At Elex Meeting

Kathryn Turney Garten, noted book-reviewer, will be featured at the next Elex Club meeting to be held Thursday, Jan. 12, it was announced today by Mary Leiter, president.

Mrs. Garten will review "My Heart Shall Not Fear," by Josephine Lawrence.

Dinner will be served from 4:45 until 6 p.m. prior to the program. Tickets for the meeting are $1 and can be purchased from contact girls. Reservations must be in by Friday, Jan. 6.

Company Notifies U.E. That Contract Terminates April 1

General Electric advised the United Electrical, Radio and Machine Workers of America Wednesday that it did not feel it should let its contract with the U.E. automatically renew itself, and so gave official notice of termination on April 1, 1950, as provided in the contract.

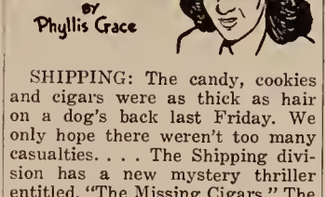
General Electric had earlier, on Dec. 1, suspended an offer made U.E. before the presentation dispute arose saying that the Company was not "legally free to consummate a new agreement with U.E. that would include new benefits or that would extend the existing contract" so long as the representation question raised by the U.E.-I.U.E. controversy was pending witb the N.L.R.B.

The letter to Albert T. Fitzgerald and Joseph Dermody read as follows:

United Electrical, Radio and Machine Workers of America
11 East 51st Street
New York, N. Y.
Att: Albert J. Fitzgerald, President
Joseph Dermody, International Rep.

Gentlemen,

During the past several weeks we have been faced with a series of problems arising out of conflicting claims as to who is, or is to be, the collective bargaining representative of certain of our employees. On November 4, 1949, we had a telegram from the chairman of the administrative committee of the IUE-CIO demanding for that union full and exclusive rights as bargaining representative. On November 17, 1949, we were notified by the National Labor Relations Board that (1) a petition for certification of representatives had been filed by the IUE-CIO and that (2) an investigation of this claim had been commenced by the Board and on November 29, 1949, the Board requested certain detailed information from us in connection with its investigation, which we promptly supplied. In the meantime, we bave been confronted with tbe conflicting claims of different groups purporting to be the exclusive bargaining representatives of certain of our employees at various of our plants. We have tried to remain neutral in the face of these claims, while offering all proper aid to the N.L.R.B. in resolving them, and we intend to continue to do so. The situation has, nevertheless, progressively posed an increasing number of perplexing problems. In addition, it began to appear that a resolution of this question of representation might not occur as promptly as originally expected. In a further effort, therefore, to exhaust any remaining possibilities of offering even any small additional aid in facilitating the prompt resolution of this question and giving our employees the earliest possible chance to choose their representatives by the secret ballot the law provides, we filed petitions with the Board on December 15 for all units where the U.E. had formerly been certified. In these petitions we stated that the Company had received conflicting claims for recognition of bargaining representatives, and we requested the Board to certify to us the representative desired by the majority of our employees at each location. We also suggested that the Board do what was possible to facilitate elections by seeking common consent among the parties concerned with respect to the details involved, including the setting of an early date for any elections it might order.



Meanwhile, as a result of the representation question having been brought officially to our attention by N.L.R.B., we informed you by letter on December 1, 1949, that we must suspend the offer we had previously made to you for a new contract with certain new benefits. We explained that the Company was not "legally free to consummate a new agrecment with the U.E. that would include new benefits or would extend the existing contract," so long as a question of representation was pending with the N.L.R.B. to do so, we were advised, would constitute an unfair labor practice on our part. We pointed out, however, that we would be ready and willing to try to come to a final agreement on the matters covered by our offer as soon as the Labor Board finally and clearly determined the bargaining agent with whom we could make such an agreement as of now, of course, this question has not been determined. The matter is in the hands of the N.L·R.B. and we assume that it will be settled at an early date, but there have been indications in the public press that designation of the proper bargaining agents may be delayed past March 31. In view of this we feel it would not be proper for us to run any risk of appearing to be unfairly favoring one side or the other by allowing our present national contract with the U.E. to be extended past its termination date on April 1, 1950. Therefore, in accordance with the provisions of Article XXVII of the National Agreement between General Electric Company and the United Electrical Radio and Machine Workers of America, entered in 1947 and 1948, we hereby notify you of the Company's intention not to let such contract automatically renew itself but to terminate it effective as of April 1, 1950. Once again we express our readiness to sit down with the duly authorized collective bargaining agent of the employees in question—whenever we are instructed by the proper authority as to who that agent is—and to negotiate either for an extension of the old contract, together with such changes and improvements as may be mutually acceptable, or the writing of a new contract—should such be mutually desired. Meanwhile we shall continue to afford our employees all the rights and protections which are rightfully theirs.

Very truly yours,
GEORGE H. PFEIF,
Manager

Ditton Celebrates 30th Anniversary

Ralph W. Ditton, Taylor St., recently celebrated his 30th anniversary of service with General Electric. At that time he received a congratulatory letter on his long service. Attending the presentation were: (l. to r.) R. C. Hanna, Mr. Ditton, A. W. Bartling, Manager of FHP Motor Sales divisions, and G. T. Wright.

SHIPPING: The candy, cookies and cigars were as thick as hair on a dog's back last Friday. We only hope there weren't too many casualties. . . . The Shipping division has a new mystery thriller entitled, "The Missing Cigars." The cast includes Herman Ebel, as the owner of said cigars (seeing as how it was his birthday) and Frank Goetz, the victim. As the story unfolds we find Herman about ready to dash to lunch, telling Frank to help himself to one of his birthday cigars. Frank, being a lover of cigars, trots over to Herman's desk and begins the search, at first calmly, then frantically for the cigars, but to no avail. When Herman returned from lunch Frank approaches him about the cigars, so Herman quickly offers to locate them for him. Back at his desk with Frank close behind, Herman pulls open the drawer, confidently pulls the lid off the box and—yik—no cigars. Herman's new theme song is "Oh where oh where could my little cigars be." . . . Happy birthday to Norma Book, Jan. 2 and Barbara Meyers, Jan. 4. . . . MAILING: The Mail section celebrated their annual Christmas potluck and exchange Thursday, Dec. 22. Everyone stuffed themselves so much that it made working difficult that afternoon. Ella Highlands, Donna Walters, and Barbara Ryder, former co-workers, were guests at the party. Everyone enjoyed themselves, but oh those after effects. . . . Dick Wilson has returned to work after three days of sickness and just in time for the potluck too. . . . TELEGRAPH: Happy birthday to Lee Blake, Dec. 24. The gals of telegraph had a very gay party and exchange last Wednesday, but Friday proved to be very jolly too. . . . The Telegraph gals along with Mailing, Shipping, and Regional Warehouse wish to say—"A VERY HAPPY NEW YEAR."

It is interesting to note that the Statue of Liberty is having her backyard cleaned. The vacuum and whisk broom are being applied to Bedloe Island to make it as clean as a lollipop stick at a children's picnic. But that's only part of the job. While the Island is being cleared up, how about the rest of Miss Liberty's land? We all have a stake in the U. S. and in preserving the ideals and beliefs the statue stands for. It's been said the price of liberty is eternal vigilance.

Edison Medal Award Goes To G-E Engineer, Dr. K. B. McEachron

Announcement has just been made of the 1949 Edison Medal award, which is to be presented to Dr. Karl B. McEachron, G-E engineer and internationally recognized authority on lightning.

Dr. McEachron will receive the honor for "his contributions to the advancement of electrical science in the field of lightning and other high-voltage phenomena, and for the application of this knowledge to the design and protection of electrical apparatus and systems."

Awarded At AIEE Meeting

Given annually to outstanding electrical engineers and scientists, the award will be presented to Dr. McEachron at the winter meeting of the American Institute of Electrical Engineers in New York, Jan. 30 to Feb. 3.

Dr. McEachron, Manager of Engineering for the G-E Transformer and Allied Product divisions, Pittsfield, will add his name to a group of other notable recipients, including Dr. William D. Coolidge, retired G-E scientist and father of the modern X-ray tube; Alexander Graham Bell, inventor of the telepbone; and the late Dr. Frank B. Jewett, engineer and past president of Bell Telephone Laboratories.

Established in 1904, the Edison award was founded by an organization of friends of Thomas A. Edison who wished to commemorate the achievements of a quarter of a century in the field of electric lighting with which Edison is so prominently identified, and to "serve as an honorable incentive to scientists, engineers, and artisans to maintain by their works the high standards of accomplishments" set by Edison.

Directed Study Of Lightning

Among Dr. McEachron's achievements for which he has been cited, was his direction of G-E's lightning strokes study atop the Empire State Building and for the development of the 10,000,000-volt artificial lightning generator used at the New York World's Fair.

For his work as inventor of Thyrite resistance material, used in a variety of lightning protection and other electric applications, Dr. McEachron received the G-E Coffin award in 1931. In 1935 he was presented with the Edward Longstreth Medal from the Franklin Institute, Philadelphia, Pa.

THREE G-E MEN JOIN PURDUE TECH STAFF

Three G-E men have been added to the staff of evening instructors at Purdue University Center's Technical Institute, which started Monday, Dec. 12.

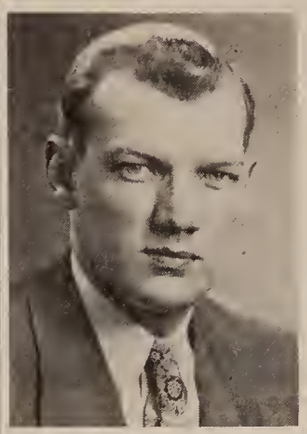
They are: Steven A. Zimmerman, section engineer, Electrical section, Works Lab, who will teach "Electronics;" John Laymon, Jr., time study leader, who will teach "Job Evaluation," and Dick Seely, design engineer in Bldg. 4-6, who will instruct "Physics: Electricity."

Pick-Ups

Bldg. 26-3

By Elvira Romary

I expect everybody is all over Christmas and ready for the New Year, so



From your last year select the love
And kindly, friendly deeds;
Throw out the disappointments
And the burrs and tangle weeds
And only keep the best that grew
For next year's garden seeds.

I received a very wonderful letter that I would like to quote: "We would like to thank each and every kind and generous person for their thoughtfulness in making this a Merry Christmas for us. Next to being able to return to work this is the nicest thing that could happen to us. We didn't know we had so many sincere and good friends. We would like to thank each one but there are so many, it would be impossible. So we hope all of you will read this and know we mean you when we say you have really made this a Merry Christmas. Thanks again. Jan and Aylene Speice." . . . Helen Studler, captain of her bowling team, is quite proud these days. Her team won the first half of the Ladies' Monday Night Bowling League. Her team members are Vivian Fleckenstein, Mary Wiedman, Ruby LeVon and Avenel Stanton. Congratulations, girls. . . . Rose Onstodt and Peggy Reynolds won turkeys recently. We all think that a turkey dinner would be delicious. . . . Edna DeLeury tells me that while in Indianapolis she was mistaken for a visiting school teacher. How does one acquire that intelligent look? . . . The office gang had a Christmas dinner last Tuesday and a gift exchange Friday. The Winding section had a potluck and gift exchange last Thursday. It's so wonderful to see everyone have the wonderful Christmas spirit of giving to make other people happy. . . . Maxine Hathaway has a very unreasonable husband. Their car wouldn't start one morning so good ole Maxine pushed their car for three blocks. Her husband then told her he couldn't guide the car very well because she wasn't pushing fast enough. Maybe Maxine needs a scooter for such things. . . . Carolyn White celebrated her birthday Dec. 24. Friday morning she brought a large cake in for her co-workers. At that time she was presented with a lovely gift. Happy birthday, Carolyn. . . . Happy New Year, everybody.

The gals and guys in Keller's section had their Christmas exchange last Thursday, and our girl Jackie received a lovely string of pearls from all of the girls and Ralph, a billfold. Most probably the best gift of all was the one which Louise Sinn enjoyed. She was covered with kisses (a one pound sack full) from a secret admirer. Doyle Sheets won't have to buy chewing gum until next year, as he received a sockful, but was kinda disappointed that there wasn't any bubble-gum in it. . . . "Twinkle-Toes" Brockhall got another turkey as his gift. It seems that he not only wins all of them, but gets them as gifts too. . . . Ed Fiedler is always talking about corn, so-o-o he received an ear of corn. . . . Pearl Everly was talking to Keller the other day and Ralph asked her if she believed in Santa. In no uncertain terms, she told him that she did not. Now it so happened that Ralph had drawn her name for the exchange, and now Pearl says that she is sorry and is now a very firm believer in St. Nick. . . . But the thing which is puzzling everyone is how did Lloyd Garrison know what size skirt to buy Becky Weaver. . . . Earl Fredericks got an engine, and after the exchange, he gave a demonstration for the gang. . . . The second shift girls were also in on the party, and from what we hear, a very, very, good time was had by all. . . . Someone mentioned the fact that Janie Adams has bought some new sweaters, and is now known as the "Sweater Gal" of the lead section. . . . Charlie Briggs was busy measuring the conveyor in the packing section the other day and failed to notice the pot of glue which was standing there. It seems that he had been leaning right over this glue and when he straightened up, it started running down his shirt front. Maybe you had better start wearing bow ties like Charlie Gable does. . . . Art Horstman must have had a lot of lost activity lately, as we hear that they have moved in an additional brake for him to work to help raise the pool. . . . It is reported that Brownie has been having trouble with his car heater. Maybe if you would start using gasoline instead of that tractor oil, you would have a little better luck, Kenny. . . . Gladys Pantazin and Clarabelle Castle served a buffet breakfast in the assembly section last Friday morning. They had braunschweiger and cheese sandwiches. . . . We are wondering if Ross Strodel's gift backfired on him at the foremen's exchange the other day, cause he won't tell anyone what he received. . . . Pat Perry's new little calf "Effie" seems to be thriving on lumps of sugar, and think it would make a good "Little Red-nosed Rudolph." . . . A HAPPY NEW YEAR TO EVERYONE.

Three Graduate From Apprentice School

J. N. Kirlin

Jack N. Kirlin graduated today from the Apprentice School, after completing the draftsmen's course. A 1940 graduate of Lima Central high school, he was employed by General Electric the following year. He first enrolled in the Specialist school, and later transferred to Bldg. 19-5, where he worked for one year.

Mr. Kirlin left in 1942 to enlist in the Navy. He served as a Pharmacist Mate First Class, with 21 months of overseas duty. Discharged in October, 1945, he entered the Apprentice School the next May.

He is married and has three children. Mr. Kirlin resides at 3007 Pennsylvania St.

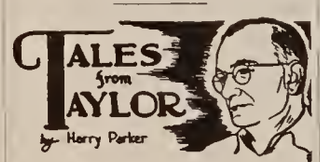
D. F. Hoffman

Donald F. Hoffman graduated Friday, Dec. 16, from the Apprentice School as a machinist-toolmaker. He began working for G-E in 1941 after his graduation from Central Catholic high school the previous year. He first worked as a messenger.

After two years, he enlisted in the Army Air Force as a cadet. Mr. Hoffman served three years, with seven months in the European campaign. He was discharged Dec. 25, 1945, as a lieutenant. He entered the Apprentice School on May, 27, 1946.

Mr. Hoffman is married and has one son. The Hoffmans live at 3511 Lillie St.

E. F. Schmidt



Everett F. Schmidt completed the draftsmen's course of the Apprentice School Friday, Dec. 23. He is a 1940 graduate of Central high school. He joined the Company the following January. Mr. Schmidt worked in Bldg. 26-4 two years before he began his army service.

He served 31 months in the States before going to Europe. He received his discharge in February, 1946. At the time of his release from the Army, Mr. Schmidt was a technical sergeant. He enrolled in the Apprentice School on July 8, 1946.

Mr. Schmidt is married and has one daughter. He lives on the Maple Rd.

Now that Christmas is over and we are on the eve of a new year, we hope it will be a happy and prosperous one for all. . . . Hope too that Frank Phillips will be recovered from his sudden illness by the time this is out. At this writing he is at the St. Joseph Hospital, Room 374, and his condition is improved. . . . We have another new member of the group, none other than John (Red) Braden, who with Louie Watt, Bill Johnson and Ward Staley are enjoying their final vacation period. . . . Henry Guenther is filling shoes for Ward in the No. 1 Tool Crib this week. Nice having you out, Hiney. . . . Everyone is wondering why Forrest Gee made a special trip to Bldg. 6 with his tools and then shipped them on a Decatur-bound truck for Taylor St. Maybe he thought no tools, no work, but they fooled him on that score by fixing him up with some of Ernie Brown's spare tools. . . . Henry Bradfield, formerly of the machinist group, is now working back in the high boy. Nice seeing you back, Henry. . . . Burney Lindley is learning the mechanics of city government through the efforts of the Police Traffic Department and City Councilman Hilbert (Me Too) Nahrwold. From listening to a recent broadcast series, evidently some one is copying the Me-Too-ism. . . . I wish to introduce to you through this column, our new Safety Man, Lyle Claphan and ask you all to give him your cooperation. Even our foreman can help him keep our aisle free from hazardous tripping obstacles. . . . Bob Repine not only has trouble with his shooting average when he only gets one rabbit in 15 shots. But when he can't get the jaws reversed in the small universal chuck on the bench lathe it's exasperating. . . . Ray Bowers has been reporting for work daily with a smooth shaven face. This has begun to cause some speculation as to what the reason for the pick up in the P. A. . . . It's mighty nice to see Justin Heaston back on the job, after the bad luck he had on his vacation. Jess says the others involved in their crash are recovering satisfactorily.

Don LeMaster of our plating section wishes in this manner to announce the arrival at his home on Tuesday, Nov. 29, of an eight pound baby boy, Jackie by name. Mother and son are doing fine, and Mom and Pop are quite proud. We wish to take this opportunity to extend to them our heartiest congratulations. . . . All of the boys on the assembly line are wondering what was on Don Eichorn's mind and what prompted him to ring his clock card while on his way to the locker room in mid-afternoon. Some of the boys ventured a guess that Don was becoming absent-minded but he said that this was not the case and that his wife had an explanation for it, so if any answer please see his wife. . . . Some of the boys in the rotor section say that Kenny Miller has a new theme song, "Slippin' Around." Now just why he has selected this tune is beyond us. Perhaps some of you will kindly explain. . . . During the Elex excursion to Indianapolis to see the Sonja Henie ice show Josephine Eme was threatened with a headache. Her companion gave her some aspirin. Jo offering to pay for it held a dime in her hand offering it to her friend who refused to take pay for the relief tablets. Jo, thinking that she had better take them right away, slipped the dime into her mouth and dropped the aspirin into her purse. . . . Frieda Hildebrandt on a trip to the grocery one day last week purchased several cans of fruit juice and several packages of tissues. On her way home the sack broke spilling cans and tissues all over the street. As it was raining and the wind was blowing poor Frieda had to chase rolling cans and flying tissues all over Taylor St. Being embarrassed would be putting it mildly.

A Brazilian burglar who made a habit of writing apologies to his victims was arrested when he bought some of his favorite writing paper. The warden will furnish the pen.

G-E Vice President M. L. Sloan Retires

Martin L. Sloan, Vice President of the General Electric Company with headquarters at Nela Park, Cleveland, has retired under the Company's pension program after nearly 40 years of service, it was announced in New York by Charles E. Wilson, G-E President.

Sloan was named G-E Vice President and General Manager of the Company's Lamp Department just five years ago. In preparation for his retirement, he relinquished his position as General Manager in 1948 in favor of his assistant, Fred F. Harroff. The Lamp Department has responsibility for the development, manufacture, sale and application of sources of electric light and radiant energy.

CIGARETTE LIGHTERS ARE GIVEN TO 32 SUGGESTORS AS BONUSES

The following employees have been presented G-E monogramed cigarette lighters as bonus awards during the last two weeks for submitting suggestions on which the regular awards were $10 or more:

William Nicholson, William Berg, Fredrick Heinkel, Frederick Kiel, Paul Beauchamp, William Butz, Toivo Rae, Charlotte Allen, Art Macke, Otto Aumiller, Garland Keister, Charles Zollman, Bethel Breeden, Herbert Lemmel, Franklin Bly, Ansel Feighner, Elvie Dafforn, Myron Racine, Donald Kruse, Chester Burgette, Louis Pooler, Norman Jackmeyer, Kenneth Beard, Edward Gehhart, Everett Moring, Donald Carrier, Harold Barrick, Herman Drew, Wilson Halls, Frank Davis, Josephine Matter, and Robert Gardner.

The cigarette lighters have been awarded each week since Sept. 1 as a part of the Suggestion System Contest. Although the contest is over, the lighters will continue to be presented to all those who submitted suggestions during the period from Sept. 1 to Nov. 15, on which the regular awards are $10 or more, as they are processed by the suggestion committees.

Speaking for the Medical section, we wish all our G-E friends and "customers" a safe, healthful and prosperous 1950; but just in case you should have a casualty or two, in the sick or accident field, our entire personnel stand ready to give you the very best at our command in prompt, efficient and courteous attention. If you should receive anything less than that, please tell us. (Dr. H. W. Garton). . . . Now the old year is nearly over, we wish to each and everyone a happy and prosperous New Year. (Mae Mulvane and Mable Wilson). . . . Most New Year resolutions are made only to be broken. However, I believe that if we resolve (and keep the resolution!) to do better by our jobs during 1950, our jobs will certainly do better by us. What do you think? (D. R. Stroud). . . . As the twilight of the day apporaches, so like the end of another year leaving us with memories along the milestones of life. It has been a pleasant year and personally I've appreciated my work with co-workers and my association with the G-E folks. May they all have the Best of Everything in Happiness and Success in the New Year. (Minnie Fryback). . . . I wish for all G-E people and especially my co-workers, all the very best in good fortune and happiness in the year 1950. (Imo Jean Schwartz). . . . I'm not a poet and I know it, but this I would like to say: Hope your Christmas was Merry in every way, And the New Year will be happy every day. (Berneta Welbaum). . . . Best Wishes from Taylor St. Medical section to all of you in this last year of the first half of the 20th century. (Olive Walters and Thelma Harrison). . . . For all I wish much Happiness in the New Year and let us all believe that the sun shines even when we cannot see it. (Alta Mayle). . . . Wouldn't it be fine to try to carry the holiday spirit into the coming New Year? I'm sure we all would be much happier. A very happy and prosperous New Year to everyone. (Bertha Schrader). . . . Mrs. Fryback has become very much interested in pictures. She is getting a viewer and no doubt will put on a show over the holidays for the benefit of her friends. (Dr. Murdock). . . . As the New Year approaches I suggest that each and every one of us add to our resolutions "The Value of a Smile" and pass it on:

The thing that goes the farthest
Towards making life worthwhile,
That costs the least and does the most
Is just a pleasant smile.
It's full of mirth and goodness, too
With heavenly kindness blest;
It's worth a million dollars
And does not cost a cent.

(Lyle Rupert)

"I said to a man who stood at the gate of the year. 'Give me a light that I may tread safely into the unknown', and he replied, 'Go out into the darkness and put your hand into the hand of God. That shall be to you better than a light and safer than a known way.'" (Anonymous). May the coming year be a happy, prosperous, healthy and safe one for all. (Mary Heymann).

TOOL BITS

19-4 & 19-5

By Don Clark

Harmon Westrick is considering installing side mirrors on the family car, but Rosemary suggests putting the fire hydrants underground. . . . We hear that Erwin Wiebke is now singing with the famous bargershop quartets. . . . We welcome Richard Poehler of the lathe section in Bldg. 19-5. . . . Since Roy Paulson moved the Dodge proving grounds to our Lindley parking lot, he has decided to withdraw from all future hill climbing and endurance tests. Roy had his blue cruiser balanced on a safety block and had to call a wrecker to get it on all fours. We can understand Roy's wonderful gas mileage now, but think of the cost to hire a wrecker whenever you want to take a spin. . . . The boys in the jig section are glad to see Reinhold Lepper back to work after a short illness. . . . Christmas is over now but we sincerely hope that everyone all received a spiritual renewal of the real meaning of Christmas that will strengthen and help to guide us throughout the coming year. . . . The boys in Bldg. 19-5 presented Stewart Bohrer a fine pipe and tobacco as a Christmas present Friday before Christmas. . . . John Hensler saw to it that Earl Lenz received at least 15 Christmas presents. See John for details. . . . You should have seen the Christmas tree Walter Greiner's men fixed up for him. It was decorated with shavings, apples, peanuts, a large pickle from someone's lunch, punchings, wire, cough drops, a stick of gum, and some decorated hard boiled eggs. Hope you don't get hungry, Walter. . . . Does it pay to be good just before Christmas? Bill Owen, Jr., claims that it does. He went to his girl's house to help her set up the Christmas tree which they did and then her folks asked him to stay for a little lunch which turned out to be a delicious chicken dinner (at midnight that is). . . . Purl Schoeff's wife came to town to buy Purl a Christmas present, but seems she parked in the wrong spot, and received one of those familiar pink tickets. We haven't heard yet who paid the ticket, but we hope that she didn't deduct the amount from Purl's present. . . . We were pleased to have Christian (Chris) Kaiser visit us before he journeys to California for the winter. Chris looks good and still bowls a good game. He reported that our friend John Littlejohn has been ill. We wish you a speedy recovery, John. . . . That extra big smile on the face of Robert Broderick was due to the fact that he is a father of a new baby girl. Congratulations, Bob. . . . Martin Walsh did his good deed in telling the fellow in the car parked next to him in the Jones St. lot that his lights were on. No one told Mart his lights were also on. He found out that night when he stepped on the starter. . . . We wish you all a Very Happy New Year.

Fractional Facts

TAYLOR ST. OFFICE

By Alice Nichens

Who's excited. For the good of the Company it would be best if Omer Meyers wasn't given any weighty problems to solve, at least for a while. Everyone is a little puzzled over the weight of Marsha Jean. He claims she weighs 7 pounds 11½ inches. Since this is his first child though we will excuse him this time. . . . David Hume at 9½ pounds is enough to make any proud father pound his chest and Larry Hume is no exception. David is also a first child and while we're on the subject of children, if you haven't read the book "Cheaper by the Dozen" do read it. . . .It looks as though Christmas holidays are to be especially happy for Marilyn Wire who became Mrs. Richard Arick Dec. 26. . . . Welcome to James Jellison, Test Engineer, who is working for Fred Smith. Also to Lela Stein who transferred from Broadway. . . . After Jan. 5 Bob Cunningham will be working in the Omaha office. Better watch out for your scalp, Bob, there is still a tribe of Omaha Indians out there. . . . Doc Ditton completed 30 years of service with G-E Dec. 24. Wouldn't it be interesting to go back 30 years and recall that first day in 1919. . . . Arnold Bowers had better close the lower drawer in his file or start saving money to replace torn nylons. . . . . Art Westenfelt just can't seem to get down to the candy wagon at the correct time. Can't you arrange to have those hunger pangs a little earlier, Art? Have you heard about the new service that is now available? If you have any trouble just dial 400. Evelyn Campbell just discovered this by accident too. She picked up the phone to make a call and a voice said "if you have any troubles just phone them to 400, please." Now before I dial 400 we all wish you a Happy New Year and we'll see you bright and early Tuesday—well early anyway.

"Peace on Earth Good Will Toward Man"—what an improvement in life if those words could ring true. All of the "isms", the "wings" and the general dissention throughout the world would be gone and we could settle down to the pleasant task of just living. It is my wish for you—that 1950 will bring us all closer to this goal. May you enjoy the best of health, wealth and happiness during the year. . . . The Specialty Transfomer Accounting division, enjoyed a very pretty Christmas party on Tuesday of last week. About 40 members of the division assembled in the private dining room. The decorations were very pretty and all enjoyed the greetings extended by Mr. Rinne and Mr. Schnieders. . . . The Bldg. 18-1 Payroll group had a dinner and gift exchange in Bldg. 16-2. The Mailing division must have had a lot of food at their potluck last week. For once the boys were not interested in anything to eat. . . . NO SIR! J. E. Estabrook did not run into a door. A tree found its way into his eye while hunting. That was the cause of the bandage last week. . . . Mystery: Robert (Bob) Meyers is carrying a brief case back and forth to work. "Brief Case Robert" he is knowed as! With his Canasta set enclosed or could it have been his Christmas cards or presents. Or is it that he worked with Harry Hire so long that it has just become a habit? . . . Joan Kowalski arrived December 22 to be a lovely Christmas gift to her parents, Mr. and Mrs. Chester Kowalski. Things were happening a little fast for Chester. The anticipation of the blessed event caused a nerve rash on his hands, (that's the why of the white gloves—thought any minute he would start singing "Mammy"). Then the climax—parked his car in the Lindley Ave. lot last Friday A.M. and it went overboard. He had to get a wrecker to put him back on the lot. So—with all of that excitement he should now relax and enjoy the New Year. . . . Did you ever see so many gayly wrapped packages, faces happy with anticipation and there must have been tons of candy and cookies —all to help start the holiday season in a festive mood, as there was in evidence last Friday? . . . If anyone is interested in making candles, ask Mary Slater, Bldg. 18-4. She is a most experienced candlemaker. . . . Olive Smith of the Data Bureau enjoyed a week's vacation last week. . . . Raymond J. Hoffman chose the last week of the year for his third week's vacation. . . . We hope that Herman Volmerding, Bldg. 18-4 recovers from his present illness and will enjoy the holidays. . . . Ask Deolres, Bldg. 18-4, about the nice gloves she received under the tree. She said she needed gloves. . . . Dorothy Long of Bldg. 18-5, a polio victim, sent her best wishes to her co-workers in the form of a Christmas box. We all join in wishing everything good for you, Dorothy. . . . Mary Occleston, who recently rctired from Bldg. 18-2 sent in a lovely box of candy. Thank you, Mary. . . . We are sure the holiday season was a most enjoyable one for the members of the Robert Wylie family. They entertained their granddaughter for her first Christmas. . . . Don McIntyre, the new trainee in General Superintendent's office, could not make it back to Oklahoma for Christmas but visited relatives in Cincinnati.

GENERAL ELECTRIC
NEWS SUPPLEMENT

Candid Camera

VOLUME 14 DECEMBER 30, 1949 No. 12

Spellbound... This little girl is getting the thrill of hearing her own voice played back on G-E's "Playtalk", the new electronic toy recarder which records and reproduces music ar voice.

Looking to 1950... Old Man Winter's icy blasts are fargotten momentarily as these lovely lasses of the New Yark Office look forward to a new year with plenty af welcaming smiles. Left to right are June Dolan, Terry Murphy (center), and Patricia Dunfee.

Big Day... President Wilson stops for a chat with youngsters at Bridgeport Bays Club when that city paid tribute to him recently on a day officially designated by Mayar McLevy (at Mr. Wilson's left) as "Charles E. Wilson Day."

Hard-to-Beat Record... Phil Weick, guard at the Taylar Street Plant, Fort Wayne, has been "on time" every day since he began working at G.E. 43 years ago, and usually walks to wark.

Take-Off... The Advertising and Sales Promotion Section af Bloomfield Works had their own version of "White Collar Zoa" at recent party for Jack Mooney, center background in role af animal trainer, wha has been transferred to Syracuse.

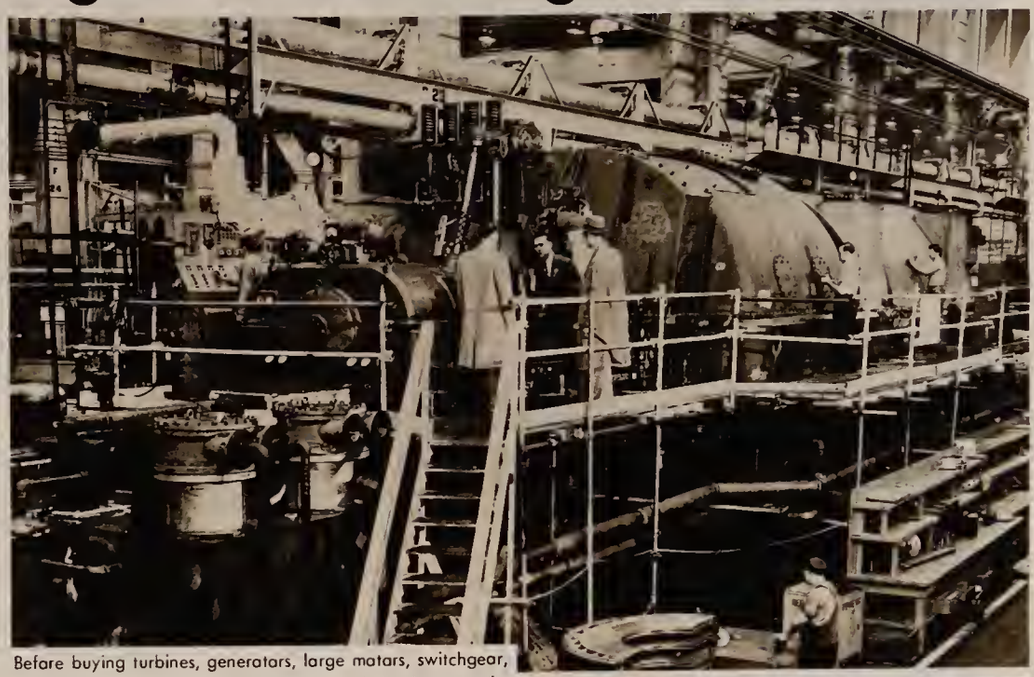
Competition is

Construction materials contracts are competitively tough to get. Building contractors consider bid specifications, costs, and promise of delivery, as was done on the $350,000 United Nations Building order for G-E conduit and wiring devices.

Every G-E product undergoes close scrutiny in comparison wi other competitors' makes before the sale is ultimately mad

On most products, the decision as to what make to buy is di cussed by entire family, comparing the features of competin products point by point before the final decision is mad

In this typical home are electrical products made by several different companies with whom we compete. Hour after hour, day after day, the family is unconsciously comparing the quality of its G-E products with those of our competitors, deciding which are better values.



The reputation of a product – whether it's good or bad – travels fast. With friends and neighbors visiting the home, they soon learn what the purchaser thinks of the new device

ough—but it brings better living for all of us

IT has been said that General Electric has more competitors than any other company. Each day, thousands of customers across the country are comparing G-E products with the similor products mode by our competitors—comparing our designs, our workmanship, and our prices with those of other monufacturers. Minute by minute, all day long, one customer ofter another is deciding whether a product we have built is of better value than that offered by some other company, and purchasing—or turning down—the G-E product.

Our jobs, here at General Electric, thus depend from day to day on the decisions of these customers, ond their decisions depend in turn on how good a job we do—on the values we put into the products we build. Thus, competition continually forces each company to find ways to turn out better products ond offer better values to the customer—o principle which has been largely responsible for the steodily increasing standard of living here in America.

Shown on these pages ore a few of the thousands of customers who day by day are comparing our products with those of our competitors.

Before buying turbines, generators, large motors, switchgear, and similar heavy apparatus, the customer's engineers make exhaustive studies of competitive makes. Sale depends on the product's quality, price, and ability to deliver it on time.

In the transportation field, competition between trackless trolleys and other service facilities is keen. All sales depend on the manufacturer's ability to provide fast, trouble-free economical equipment that will readily attract riders.

In the field of commercial air conditioning, General Electric faces severe competition from many well-established competitors, as is obvious to those who frequent restaurants.

Many G-E products face stiff competition in advanced chemical trade shows, where our competitors also display their products for side-by-side comparison of value, appearance design and quality by thousands of customers attending the exhibit.

There is stiff competition in the field of street lighting, where municipal engineers make exhaustive and careful tests of the light output and distribution, first cost, and operating and maintenance expense of all the competing luminaires.

In the automotive industry and the replacement parts field G.E.'s sealed beam headlamp competes with other top-notchers. To beat this competition, headlamps must have maximum light efficiency and provide for flexibility in styling the car.

Candid Camera

Enviable Position... The Patterson School at Philadelphia recently received the first Roy Rogers National Safety Award Trophy. Children af G-E employees at Philadelphia Warks pictured with Roy Rogers are: Charles, Jr., son of Charles Gardner, far left; Robert, son of Rabert Howard, Jr., fourth from right; and Rabert, son of James Taylor, Sr., third from right.

Five O'Clock Shadow... Razors were laid aside tempararily while these beards were being raised far the Centennial Celebratian at Las Cruces, New Mexico by members af the Service Engineering Divisions Outside Installatian Farce on the Hermes Project at White Sands Praving Graund. Left to right, top raw: W. E. Bright, G. S. Emmons, E. H. Bender, F. E. Medlin, H. A. Krieger. Battom Raw: C. F. Meyer, O. L. Antlitz, J. H. Becker, and K. F. Davis.

Half Century Man... W. H. Atherley (right), superintendent af G-E's San Francisco Warehause, receives his fifty-year certificate from A. G. Janes, Manager of the Pacific District.

Sitting This One Out... With the skating seasan nearing the full swing stage, Marge Turpen (left) and Grace Raykouff af Schenectady's General Office watch the ice antics while resting between turns araund the rink.

Tribute... Dr. E. F. W. Alexanderson (left), G-E radio and television pioneer, was hanored at Schenectady recently when a bronze plaque nating his achievements was unveiled by his granddaughter. With them are D. C. Prince (second fram left), Vice President in charge of the General Engineering and Cansulting Labaratory and W. W. Trench, Secretary of the Campany.

Was Santa good to Leo Hackman? He got a brand new Pontiac. Congratulations, Lee, and hope you get many miles of smiles with it. . . . Mickey McDougal got a new Plymouth—toy car. A gift from his right hand bower, Rosemary Miller. I'll bet he will get a lot of pleasure from it. . . . Did you fellows know Anselm Hackman is grandpa again? Yep, his son Patrick and wife are the parents of a baby born recently. Congratulations, grandpa, and luck to the child and parents. . . . She wore a yellow sweater instead of a yellow ribbon. That is I mean Norma Poorman and did she look nice. I guess it was in honor of her 21st birthday last Thursday as she treated all her friends to a swell piece of cake. Thanks, Norma and we hope you live to enjoy many more of them. . . . I just noticed the other day when Barbara Roop goes down through the shop all the boys get neck trouble and start making noises like the proverbial wolf. . . . Dale Cowan, the apple king, passed out the apples to the gang the other eve as a sort of Christmas cheer. Thanks, Dale! Don't forget, fellows, Dale has apples to sell if you should care for some. . . . Dan Zeser celebrated his birthday the day before Christmas. . . . Happy birthday to Howard Gehrig and Mina Lampy. . . . Jason Moser had everything in readiness for Santa. He had Christmas cheer and mistletoe all over the house. Marie Coffelt celebrated her birthday recently and passed out a treat. Marie will also be absent on a sick leave for some time. . . . Merle Snider and Frieda Keller were such good Santas to Margaret Waltke. Somehow Santa knew Margaret likes cherry flips. . . Happy New Year to each and all of you. . . . The Bob Bolinger family sure must have had a delicious Christmas dinner. Boy, can that man cook. He claims he hasn't tried to bake yet. Bob, soon as you master that bring us some samples of lady fingers or just plain cookies. . . . Anyone needing fatherly advice see George Meyer. He claims to have wonderful results. . . . A six pound and eight ounce bundle was left at the Donald Harman residence. Mom used to work here—remember Alice Sheets? Pop works in Plant No. 1. Congratulations, may your daughter grow to be your pride and joy always. . . . Florida here comes the Red Moore family. We hope you'll find the sunshine and surroundings pleasant during your extra week's vacation. . . . It really must be a real bargain—that old Buick of Norb Schneider's. Red Morgan has sure been pricing it eagerly. It's large enough to be converted to a firetruck, or an ambulance. Could even be a bus or, Red, is it just a good implement trailer like the rototiller conveyor? . . . The Legion children had a joyous time when Santa Claus Noonan arrived with his gift bag. They sure snuggled around him. Hope, Eddie, you didn't miss any of the tots even the one that aimed at your nose with his fists. . . . When it comes to gifts—Nellie Schug received the most economical gift. What may it have been, Nellie? Anyone interested see Nellie's most cherished present. He keeps it by his working office at the north conveyor. . . . Sleep stole on as sleep will do but Riley a real he-man battled to fight it off the other day. The sandman would have battled to sprinkle sand in that man's eyes. . . . Mildred Barger is back with us. Also Laura Misercola and Helen Barger. . . . Dorothy Heimann, winding line, has joined the sparkler's club, third finger, left hand. We hear it is a lucky fellow from Celina. Best wishes, Dorothy. . . . The girls in the office had a dinner and Christmas exchange recently. The tables were decorated with evergreen and at each place was a little red boot. The girls found their places by locating their name on their gift which was placed on the table. Those attending were Eloise Noll, Mary Fennig, Barbara Roop, Alice McBride, Mary Miller, Mary Lengerich, Geneive August, Christine Andrews, Florence Schultz, Wanda Bailey, Esther Meyer, Irene Holthouse, Dorothy Schumm, Earleen Steffen, Fern Passwater, Harriett Haines, Ardella Heare, Cathryn Steele. Those unable to attend were Lydia Lehrman, Dorothy Schnepf, and Mary Ann Laurent. Everyone reported a very fine Christmas and Mary Ellen Lengerich is still in the clouds since receiving the third finger left hand item. Congratulations, Mary Ellen. . . . Ask Dort Schnepf about the night she got caught under the mistletoe at home. . . . Mick Odle received some very lovely Christmas gifts at work Dec. 23. Is that right, Mick? . . . Mr. and Mrs. James Staley and Mr. and Mrs. Kenneth Gaunt spent their Christmas holiday in Wisconsin.

Fryback Completes 30 Years

Claude E. Fryback, Bldg. 26-1, completed 30 years of employment with General Electric Saturday, Dec. 17. The previous day, a number of his friends joined in their congratulations on his long service. Left to right in the picture are: Doyle Miller, Fred Mennewisch, William Woebking, Freeman Rohlfing, Otis Holzworth, Luther McConnehey, Mr. Fryback, Glenn Robinette, Ruben Dewart, Malvin Leykauf, John Sowers, and F. N. Banks, Superintendent of Specialty Transformer Liv. 91.

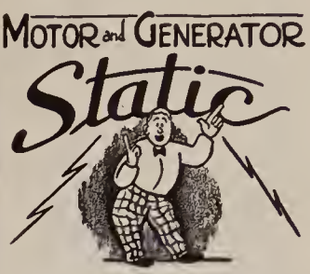
Shaft Shavings

BLDG. 19-3

By Jim Mitchell

As the newest and youngest member of the WORKS NEWS, we shall try to make our debut as brief as possible. From time to time we shall give forth with brief resumes of who we are and what we do. We are very happy to be with you, and are looking forward to the pleasant times we hope to enjoy together. Please be patient with us and we will try to bring you an occasional smile by our anecdotes. So, just for a starter, we wish to say—From all of us to all of you, a very Happy and Prosperous New Year. . . . Thanks for being with us.

Now we know why Myrtle Barfeld is all smiles these days. She is hoping to be in her new home by the first of the year. . . . Harold Blauvelt was one surprised guy when he found a mink in his trap. But it wasn't quite big enough for a coat. . . . Happy birthdays for December go to Earl Strong, William Smith, William Kizer, Evan Aultom, Opal Cuney, Elizabeth Hudson, Mildred Weinman, Alice Rodgers, Marjorie Hahan, and Mae LeBold. . . . Just what was it Ann Johnson and Rosa Schooley were hunting for in an Indianapolis dime store? . . . We hear Bill Kurtis had to stay home the day they brought their baby home. It seems their baby-sitter didn't show up. Anyway congratulations, Mom and Pop. . . . Tom was taking a cow to the locker to have it butchered and on the way, Bossy got away. He chased it a over Waynedale but befo he could catch it a car struck her. Poor Tom is finally convinced he is doing things the hard way. . . . Lottie is still wondering who the party is that swipes her rolls she buys from the candy wagon. . . . The Birthday Club had a dinner and gift exchange at the home of Zella Sheehan. . . . Your reporter was very disappointed when Marie Winkleman failed to sing a song at a certain night spot uptown last Saturday. . . . The two pole girls wish to thank Santa Claus for the funny little greeting they found at their places one day last week. . . . Loretta Runyon was one busy girl getting the toy train in shape for the children for Christmas. . . . Vivian Tricker was in the dog house. It seems while she and her husband were getting their new home ready to move into, a pheasant flew in the house. When bird was finally caught the Trickers gave it away. Viv made the mistake of telling her experience to Bill Lavine, who had just traveled 50 miles on foot (so he claims) for one. . . . We sincerely wish everyone "A Very Happy New Year."



Two Join Q-C Club

Bertha J. Gruber
Bldg. 26-5

Clarence E. Freehill
Bldg. 4-4

A Happy and Prosperous New Year from the Motor-Generator division. . . . A delightful dinner party was held at the Yacht Club Friday noon, Dec. 23, in honor of R. G. (Dick) Saunders and the Christmas Season. Those attending were P. E. Bohn, H. R. Brown, E. C. Foley, F. E. West, W. R. David, M. J. Neal, M. W. Brosius, F. Hutchinson, Jr., and the honor guest, Mr. Saunders. At the conclusion of the dinner Mr. Bohn, in his usual delightful manner, addressed the assemblage stating "Let's go back to work, boys, Mr. Hartigan is looking for us." . . . Our Police Chief, A. R. Vegalues, informed us that we missed a very informative lecture during the noon hour in the main gate house. This lecture was given by A. N. Farrel, General Foreman of this division, and the subject of Mr. Farrel's address was "The Use of False Teeth." . . . Our Editor would like to thank those splendid members of the Motor-Generator division for the delightful Christmas cards which he received during the week of Dec. 23.

Personnel-ities

By Ceal Romary

Lois Miller attended a potluck dinner the other night and was asked to bring a covered dish. Not having any covered dishes, she took a two-crusted pie. Served the purpose, didn't it, Lois? . . . Helen Bilskie celebrated her birthday last week and passed some delicious cookies around. Congratulations, Helen. You may celebrate often as long as you pass the cookies. . . . H. L. Smith, of the Safety division, attended a safety commiittee meeting at Indianapolis last week. We certainly hope he didn't have the misfortune on this trip that he had on the last one. . . . Santa Claus came early this year in the form of Ed Witte, when he dined with several of his co-workers and was stuck with the bill. We hear by the grapevine that the choice was not his, but he had no "out". The recipients asked the WORKS NEWS to print this open vote of thanks. . . . Lois Miller was vacationing last week. We heard that she spent her time looking for a covered dish. . . . Irene Meyers went to DeKalb to attend the girls' Christmas party. From her reports, a good time was had and it was a lovely party. . . . If anyone is interested in seeing what Ruth Shull looks like in a dark raspberry color, Daryl Long of the Cafeteria can tell you. He had her model it alajelly bread. . . . The girls who attended the Christmas party at Veora Habig's would like to thank her for opening her home to them. A second vote of thanks to Helen Bilskie and Veora for the delicious meal. There was nothing left undone. We were all happy to see Iris Knapp, Baby Sherry, and Lorine Peters at the party. Everyone reported a good time was had by all. . . . Hope Santa filled your stocking to the extent that you will want to keep all the new year resolutions you made—even though you know you'll break them. Happy New Year to all.

Thisa and Thata "SPECIALTY MOTOR"

by Helen Engle

Is everyone happy? Did you get from Santa what you wanted? I hope so—sure hope no one was too disappointed! . . . Esther Fagan is really going to town in her carpenter work. She has finished a perfectly lovely chair. Mildred Green finished a pair of beautiful lamps. . . . In case your funds have run out over the holidays and you are still hungry, Henrietta Deck has the perfect plan for getting a good free lunch. She knows because she really tried it the other day. This is how: Board the old familiar bus with the same familiar faces going to work in the morning; pick out a clean, well-fed, familiar man, tell him you will be glad to hold his lunch bucket for him while he reads the paper. Forget to return the lunch and when you arrive at work discover a beautiful lunch and that you don't know his name or where at the G-E he works! . . . Harry Berry, you can have all the dry ice you want, but why don't you break down and put something in my ice box sometime? . . . Congratulations to Gerna Ashcraft who was married to Herb Cook recently. We wish you both lots of good luck and much happiness in the coming year. . . . Edith Harchelrode must have been sleepy the other morning when she got up because she put on a light stocking and a dark one. She even went uptown like that and no one noticed it, if they did they didn't say anything, and she discovered it when she was getting ready to go to bed that night? . . . We wonder how Ted "Skin-head" Bain is making out with his honey business. . . . Alice Claymiller went over to her mother's home the other night and got a quart of cream to make some candy. She had several other items to carry out to the car, so when she got there she set the cream down on the running board of the car and went on home. Imagine her surprise when she got home to discover that she forgot to take it off the running board and she had no cream! . . . Birthday greetings to Lillie Benz and Keith Gruber. . . . Here is something that very few people know—Al Rebber has an interest in a gold mine—no kidding. It's true. But so far NO RETURNS! . . . Sure wish Merl Keesler would tell us what he lost. . . . Irma Huhn will have her third week's vacation now. So does Ray O'Brian. They tell me Golda Duff is on her vacation this week too! Some people have all the luck. . . . Everyone was so busy right before Christmas they couldn't see straight; especially Eva Scott who came to work with two different shoes on the other day. . . . Say those chickens sure must be laying the eggs for Henrietta Deck. It won't be long 'till we all look like an egg. . . . Besides it being Christmas and everything else, Thelma Wyss and family are moving! Which explains why she hasn't been on time every morning. . . . Irma Henny got so excited the other day when she was to attend a safety meeting. They were to have a show or something, anyway it was her day to make coffee for the girls—she had it all ready about 10 o'clock, just one and one half hours ahead of time. . . . We welcome the following people to Div. 1: Victor Jacobs, Bernard Kramer, Donald Carrier, Marcella Schwartz, Virginia Pelz, Deloris Gladbach, and Eva Hoover. . . . We of FHP Div. 1 express our deepest sympathy to the family of Carl Reitdorf, Jr., who died recently. Mr. Reitdorf was assistant to the cost supervisor. He will be greatly missed by his fellow coworkers. . . . Vern Amons was in his height of glory the other day when he was able to drive his car again. . . . Freeman White doesn't know how he is being missed! . . . Garland Roby is happy to be back on his old job again! . . . How many of you knew that Div. 1 had the one person at the Fort Wayne Works who can claim the title of having the most service? It is none other than Ed Boedeker, who works in Test and Inspection, he has 49 years of service. How he can still be so easy-going and so quiet after working with that bunch for as long as he has is something I can't understand! Incidently he is retiring in 1950. . . . Just remember, folks, that if the coming year is to be a success for you—you have to do your share and not leave it all up to God! My wish for you is that you have a very Happy, Happy New Year.

Shipping Group Holds Meeting Here

Members of Shipping Group No. 3 of the Apparatus Department's training course were visitors at the Fort Wayne Works Tuesday and Wednesday, Dec. 13-14, as a part of their training program. Members of the group are shown, above, during one of their tours: First row—(l. to r.) P. A. Lavelle, Philadelphia; J. R. Crombie, Schenectady; Herman Ebel, Fort Wayne; J. E. Cullen, Pittsfield; F. L. Coakley, West Lynn. Second row—C. R. Crompton, Schenectady; C. D. Uncapher, Fort Wayne; R. J. Little, Philadelphia; H. L. Wakefield, Somersworth, Mass. Back row—J. J. Robleski, and K. J. Gilber, both of the River Works, and H. A. Norr and G. F. Bond, both of Fort Wayne.

Apprentice BROADCAST

by Mildred Ellis

We hope everyone had a Merry Christmas and has recovered sufficiently from overeating to celebrate the New Year. . . . Congratulations to Everett Schmidt who graduated as a draftsman Dec. 23 and to Jack Kirlin who will complete the draftsmen's course today. . . . James Hoppel was heard describing his dream home with the hardwood floors in the basement and the cement roof(?) . . . Accident of the week: Jack Kirlin ran a knife into his wrist while trying to pry loose some hard taffy. . . . Garland Roby gave his friends presmoked pipes for Christmas. By Christmas he really had a case of tongue bite! . . . This Christmas warm spell gave Joe Rowan a bit of trouble. When the ground thawed the legs for the stand on his oil barrel broke through and the barrel went rolling. The next morning his stove refused to burn. Anyway, he had nice weather to make repairs. . . . Gene Werling sold Myron Auer a ball point pen for half-price. Myron gave Gene half-of-a-dollar-bill—and got away with it—for a few minutes. . . . Deepest sympathy goes to B. O. Smith, ardent sportsman and angler who finally admitted to the world there was only one place he could catch fish, after all those nasty things he said about Rome City. . . . Disappointments and surprises came to many as the first half session of bowling ended. The main thing, of course, is that everyone is spending a safe and enjoyable evening with his co-workers. . . . WISHING YOU A HAPPY NEW YEAR.

Wade Reed Is Granted U.S. Patent

Wade Reed

The U.S. Patent Office has granted a patent to Wade Reed on his invention of an improved oiling reservoir for outdoor applications.

Mr. Reed is a design engineer in the Fractional Horsepower Motor Development Engineering division. He has been employed by the General Electric Company since 1918 and has been in the FHP Motor divisions since 1934.

Mr. Reed's invention consists of a novel arrangement for sealing an oil reservoir of plastic or glass to a metallic base, which will form an oil-tight seal which will remain tight over a wide range of temperature.

HI-Spots OF BUILDING 4-2

Will anyone possessing a cocoanut or even knows someone that might have one please call Charles Curtis, phone 682, Bldg. 4-2, he wishes to send it to a certain hat company so that they can block his hats to fit. There seems to be some trouble along these lines. . . . We congratulate the following on their birthdays, not because they come on Christmas but because they relieve the ordinary boredom of just having an happening: Floyd Loraine, Florence Offerle, Luella Guy, and Clarence James. . . . Park Schemehorn and Herb Franke had their vacation last week and we wonder, taking the weather into consideration how their ice fishing came out? We imagine that like so many things it turned out—all wet. . . . We shall question True Sheets or Ed Glusenkamp but who is the girl that inadvertently put her sweater on backwards—but what did she do about buttons? . . . Now we come to probably the juiciest item of the current year—Ed Glusenkamp had a birthday. It would appear to an uninterested bystander that he probably received the most useless of all presents: to wit one moth eaten, worn out, badly bedraggled pair of long underwear. Accompanying him was our friend Harry Anderson who was blessed with a two-way stretch which didn't stretch. No fault of the writers, Ralph Reinking was a recipient of something of which he had no use whatsoever, but ask him what they were. Floyd Saylor received a wornout brassiere, all of which of course were modeled by those receiving them under suitable conditions. . . . We regret that our informant in the Tool Room and other sections have fallen down miserably on the job of providing us with any information that is going on among the people that really make Div. 15 function. . . . We have a letter from Mamie Allen which will be available to anyone wishing to read it, just see Delphia Drummond.

We are thankful for all bumper crops—except those caused by reckless drivers.

AD-LETS

FOR SALE WANTED FOR RENT LOST & FOUND

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ad will not be accepted unless accompanied by the name, pay number, and division of the employee. No works building or telephone number may appear in ad, only the home telephone number or address.

"Lost" and "Found" articles must be cleared through the Plant Protection office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone. Send all ads to WORKS NEWS office Bldg. 8-2.

CLOSING DATE FOR NEXT ISSUE
Tuesday noon, January 3, 1950

LOST AND FOUND

LOST—Silver colored earring, heart shaped with pink rhinestones in it. Lost at General Service Christmas party at the Squares club rooms.

LOST—Silver chain bracelet. Lost around cafeteria.

LOST—Ladies' yellow gold Elgin wristwatch with gold band.

LOST—Black, white, tan female beagle, 6 mo. old, tan collar and chain, child's pet, reward. 3218 Raymond.

LOST—Round yellow gold wrist watch with gold stretch band. Lost at C-E Club's children's Christmas party, Dec. 17.

LOST—$16 all rolled together. Lost between Bldg. 18 and Bldg. 6-2.

FOR SALE

PIANO ACCORDION—Almost new, 120 bass, four shifts, $150. H-40674.

GIRL'S BICYCLE—26", like new, $25. H-79682.

BABIES PLAY PEN—Good condition. 1803 Hale Ave. or H-3457.

1946 CHEVROLET—Aero sedan, one owner, excellent condition. A-68274.

BLACK SKUNK CHUBBIE—Grey opossum ¾ length coat, size 16, very good condition. H-58122.

LADIES' GREY WOOL SUIT—Nearly new, size 14-16. E-28231.

PHOTOGRAPH ENLARGER—Less lens, home made, $4. H-46208.

HOUSE TRAILER—24 ft., 1943 model, make me an offer. E-32225.

LADY DOVER MIXER—Like new. E-32634.

CUB SCOUT UNIFORM—Girl's dresses, skirts, suit, sizes 10-12. H-75382.

GIRL'S WHITE SHOE SKATES—One pair, size 2, $3.50; One pair, size 5, $5. H-60951.

GIRL'S GOLD CABARDINE DRESS—Like new, $5; grey dress with silver buttons, $2, both size 12. H-57431.

1947 KAISER—Good condition, original owner, priced to sell. 2511 Fox Ave.

25 WATT SOUND SYSTEM—Includes five trumpet speakers, two mikes, two-speed turntable, brand new, in original carton. E-36529.

1939 DODGE—New tires, with A1 '46 motor, $225. Robert Johnson, Hamilton, Ind.

RABBITS—Two doe, one buck, with breeding pen, from blue ribbon stock, $20, will deliver; extension ladder, two-wheel trailer, safety chain. H-28418 before 3 p.m. or A-87585 after 4 p.m.

SLIDE RULE—K&E, log-log, duplex, decitig, with case, $12. 1157 Cedar.

HOCKEY ICE SKATES—Size 5, $6. A-96881.

TUXEDO—Size 36, in best of condition. A-68522.

GIRL'S WINTER COAT—Blue, two suits, one plaid, one green; short for chubby girl, good condition, all size 14½, coat, $5, suits, $30 each. A-78755.

LADIES ACCORDION—120 bass, Venturi-Figli. H-19492.

FOR RENT

LARGE ROOM—For one or two gentlemen, use of telephone and garage. H-2976.

THREE SLEEPING ROOMS—Near C-E; newly decorated, in private home, all modern, phone, off street parking, gentlemen preferred. A-40325.

HOUSE—Six rooms, 1½ mi. west of Yoder, ¼ north. Everett Pace, Yoder, Ind.

WANTED

BOTTLED GAS STOVE—And large coffee urn. H-92402 after 4 p.m.

HOME FOR FIVE FOX TERRIER PUPS—Calvin C. Hapner, R. R. 4, Bluffton, Ind.

THANK YOU NOTE

I WOULD LIKE TO THANK ALL G-E EMPLOYEES—for their cooperation in providing more seats for the children at the C-E Club's "Kiddies' Christmas Party." My thanks also go to the committee and all G-E Club officials. Happy New Year to you all. . . . Ralph Hemminger, Chairman of the Entertainment Committee.

MISCELLANEOUS

SHARPENING SERVICE — Lawnmowers, saws, shears, knives, and also paper hanging. H-50681 or 4036 Robinwood Drive.

This week I have the pleasure of reporting on a group of people who probably see more and know less than any other in the Broadway plant. This is the General Service division, which takes care of the maintenance and repair of the Company's vast outlay of buildings. Nothing is too hard or too easy for this group. We shall glance at them from all angles. It has been my privilege to meet nearly all of the second shift electricians who are under the capable leadership of Verl (Pat) Patterson. Pat has charge of nearly all of the General Service people on the second shift. His co-workers with whom he has been associated for a number of years hold him in high esteem. . . . Floyd (Brownie) Brown shoots trouble on the west side. He is a likeable guy who would walk a million miles to do you a favor. . . . The chap who answers the electrical calls is Dave Mumma. Just last summer Dave started swinging at the little white pellet out Brookwood way in the Owl Golf league, and it almost took zero weather to make him stop. He also has a fine knowledge of small arms. . . . The four "Musty Steers" (excuse me, Musketeers) Tom Sparks, David Lantz, Clarence (Pat) Duhamell and Bill Lewis are really four of a kind. Where you see one you are bound to see the other three close by. Having just completed the installation of FLEX-A-POWER in Bldg. 17 we have seen them a great deal. Tom has the ambition of becoming the champion corn producer at Aboite. Dave Lantz is one of Grabill's outstanding small business men. He has earned that moniker by using his spare time to operate a canning factory in his home town. I understand that Pat Duhamell spent a vacation in Arizona quite recently. His ambition now is to reach pension age so he can hot foot it back to the land of sunshine. Bill Lewis, to whom all credit is due for making this missive possible, has quite a safety hobby. That is putting yellow tags on "Cherry Pickers." He has his eye on several decrepit work platforms but has run out of the necessary yellow tags. . . . Structural steel man Jack Smith and welder George Weeks are bosom pals even though Jack in his recent trip to Canada failed to provide George with a luscious venison steak. Howard Conner makes this a trio who have been Owls 10 years each and should know one another by now. George tells me that he has been a welder for 25 years. Howard is a great hunter and fisherman. Jack Smith's wife outdid him up in Canada where she shot a nine point buck. . . . It seems as though the General Service people work in the buddy system, and Mart Keefer and Horace Franklin are no exceptions. They take care of the cranes and elevators all over the plant. Along with the above mentioned that must be included is Walter Bilcer who follows the North Side Redskins because his two children are both enrolled there. Walt is on the fire department. . . . A softball and baseball umpire is Bill Rodocker. His favorite (and he doesn't know why) major league team is them "Bums" from Brooklyn. . . . They tell me that Charlie Barnhouse went hunting and only got wet feet for his trouble so he went home and shot a tame bunny for Sunday's dinner. He likes to follow the Huntertown Wildcats basketball team. . . . George Henschen lives the year around at South Shore on Big Cedar lake in a home that he built himself. He tells us that his better half caught a lot of pan fish this summer but he didn't do so good on bass. The Detroit Tigers are his favorite baseball team. . . . John Lauer, welder, who owns a 37 "Terrible Pain" says that he does all of his fishing in the summer time. He just couldn't go ice fishing. . . . In the moving gang there are some very likeable chaps namely Chester Schwartz, Charlie Woodward, Ernie Yost and Frederick McAfee, very obliging and easy to get along with. . . . We cannot overlook the two fellows who keep test equipment clicking in Bldg. 26. They are William (Bill) Travis and Al Klein, Jr. Bill is from the state of fine horses. Al adds that there are some good looking women in Kentucky, too. . . . The shop foreman on the second shift, Bldg. 20-1 is Ross Sills. He is in charge of machinists, sheet metal workers, welders, structural steel workers, electrical workers, garage men, painters, and quite a collection of the various crafts. Ross has a hobby of raising thoroughbred rabbits. Mrs. Sills helps take care of the bunnies too. . . . The boy who delivers the goods from the stock room is none other than Dewey Kumfer. . . . There are a few more of the General Service personnel that will be included in a column later. On behalf of all of this division I extend a HAPPY NEW YEAR TO ALL. . . . RANDOM NOTES: It has come to my attention that the Second Shifters do not take advantage of the Information Service of Your Works News. I personally can say that you will get an answer to your satisfaction. . . . The snow man that Mary Heymann, Bldg. 8-1 nurse, made is really cute. You should see it. . . . By the way, there are plans afoot to have a Club night on a Saturday night after the first of the year. We are hoping to put on a show along with a basketball game between the first and second shift Club basketball teams. If you have some musical or dramatic talent or if one of your children does, contact me and we will try to work it up for the show. . . . Come out next Tuesday morning and see this great Owl basketball team that is still undefeated in play.

Paul Traub is on vacation this week and has taken a trip to the southern part of the state. . . . Norma Krall is on the sick list again, and we hope that it will not be too long until she is back. . . . Addie Masbaum is the newest addition to our office. Addie is from Bldg. 17-1 and we are happy to have her with us. . . . Dorothy Medsker has the old technique. She went into one of our better eating places and ordered a steak. After eating half of it she called the waitress and complained that it was too rare whereupon she was served another big juicy steak. Nice going, Dorothy. . . . Clara Theisman doesn't usually look so out of shape. It's just that she has been doing a lot of square dancing lately. . . . The Birthday Club held its Christmas exchange party this week at the Berghoff Gardens with Norma Krall as hostess. Those present were: Joan Bailey, Lucile Werling, Kate Scherrer, Dorothy Askren, Dorothy Mills, Anna Lapadot, Florence Knight, Eileen Hennen, Dorothy Medsker, Clare Theisman, Jean Pappert, Marilyn Roehm and Belle Buchan.

Happy New Year, everybody. From all reports Santa really outdid herself in being good. By the way Ann Kensill got her roller skates. . . . Leona Hollis had her chimney cleaned out for Santa and set a trap for him. We haven't heard the results. . . . We hope that Santa brought Paul Strombeck a record player—doghouse size. He got in the doghouse for buying 200 records at one time. . . . Betty Lupton has a new excuse for being late. The whistle blows before she gets here. . . . Lewie Hoffman has no excuse for losing his toolbox anymore. It was welded to a solid surface. However, that doesn't go for his voice. He lost that too. . . . Last week when the clocks were fast, Helen Huhn and Vera Gennaitte were ready to quit 15 minutes early. . . . Violet Adams had the misfortune of losing her pet cocker spaniel. . . . Eileen Steinacker has dog troubles too. They have a little puppy that wants to cry at night, so someone has to talk to it so the rest of the family can sleep. . . . Marcille Thomas' dog ripped all the lights and decorations off their tree. . . . Deloris Wonderly didn't like the first day of winter, being that it was the shortest day of the year it cut down her talking time. Never mind, you can make it up next June. . . . Nellie Bellamy was Christmas shopping. She put down a package with a tie in it and someone took it. . . . We thought for a little while we were having a Fourth of July celebration. It was just Joe Matter's welding torch acting up. . . . Betty Blackburn wanted to play Santa Claus early. She was handed a gift box and told it was for Margaret Monnot, so she gave it to Margaret. . . . Congratulations on the blue bootied tax deduction at the home of Ralph and Mary Jane Gutman. The mama was a former co-worker. . . . JoAnn Kemery has a watch, but she is always asking the time. She never remembers to wind it. . . . It's "how dee do dee" to our newcomers on the early bird shift. . . . Sorry to hear that George Earl is in the hospital; also that Augusta Hoopengardner had the misfortune of falling and won't be able to work for some time.

Gallmeier Dies

Ernest C. Gallmeier died Tuesday, Dec. 20, at 7:10 a.m. at his home, 2509 Cortland Ave.

Mr. Gallmeier retired from General Electric in 1945 after 39 years' service. During most of his G-E career he worked as a stockkeeper and stock accumulator. In 1939 he was appointed to the Board of Safety and held that office until 1947.

He was a member of the G-E Quarter Century Club, the Trinity Evangelical Lutheran Church, and a member of the board of directors of the Lutheran Old People's Home at Kendallville.

Funeral services were held Friday, Dec. 23, at 1:30 p.m. in the C. M. Sloan Funeral Home, the Rev. H. E. Levihn officiating. Burial was in the Concordia Cemetery.

Inquiring Reporter:

WHAT ARE YOU LOOKING FORWARD TO IN THE NEW YEAR?

MARY B. REED

Bldg. 26-3

"I am looking forward to more settled labor conditions for everyone in the new year."

ERVIN F. BEILSMITH

Bldg. 19-2

"In the New Year I would like to see a definite start toward permanent world peace. I would also like to see more sound economy in the administration of our federal government, and more security in business."

JOAN FLORSTEDT

Bldg. 20-2

"I am looking forward to enjoying:
(sigh) 365 nights;
(ugh) 365 mornings, and working, 254 days."

VIRGINIA JOHNSON

Taylor St.

"I am looking forward to buying a home with at least six rooms and with a large lawn where I can have lots of flowers. I would like very much to have a few acres of ground to plant vegetables and have fruit trees. I would also like to raise a lot of chickens and perhaps a few other animals."

EDWARD C. GEBHART

Bldg. 4-2

"I am looking forward to a trip to Miami, Fla., and a visit with relatives who moved and are now making their home there."

STORY OF THE WEEK—She has a witness, she says, to this fantastic story. It seems Judy Clark reached the bus stop down town just in time to have the conductor close the door in her face. Judy proceeded to jump up and down in rage. A gasoline bus, heading for the garage, stopped and asked her the trouble. After relating her sad plight, he said, "Jump in and I will get you there in time," and promptly proceeded to take all side streets and shorts cuts to the G-E depositing her at the Fairfield gate house. The guard came rushing out to see what the trouble was. The conductor of the bus told the guard he didn't want to see her be late. . . . CHRISTMAS PARTY—Margaret Taylor entertained the girls of the DC division at a Christmas Party in her home on the Paulding Rd. last Tuesday. A very enjoyable time was had by all. Thank you, Margaret! . . . Jack Kirlin Blows His Top!—A week ago last Tuesday Jack Kirlin, of the AC division, got into a heated argument over the telephone. He said that Jan. 4 was on Sunday, the other person said it was on Wednesday. Who was right? When Mary Smoak passed out the calendars she gave Jack a 1948 one. (So Jack thought). So, Jack goes down and really bawls her out. A few days later the whole story came out. It seems it wasn't Mary's fault after all. Maurice Bennett and the fellows around him switched calendars on Jack. Everything is straightened out and everybody is up to date. . . . WE THE EDITORS would like to take this chance and thank each one of our reporters for their fine work they have done this year. They are Dorothy Brubaker, Billie Frain, Donnabelle Degler, Dorothy Lisius, Lela Omspach, Marge Murphy, Gladys Koehlinger, Irene Whelan, Mary Olson and Forrest Carlson. We also wish to thank Gloria Openlander for typing our column every week. . . . ABSENT MINDED—The other morning Lois Tritch came back from the candy wagon with a roll and a straw. Since she couldn't find any use for the straw she finally gave it to someone else. We were beginning to wonder, Lois, how you could drink a roll. . . . Isabel Bartholomew felt quite proud of her desk after giving it a good cleaning and throwing out everything she didn't really need. Later on she realized her gloves were missing. Perhaps after this, she won't clean so thoroughly. . . . STRUGGLING MILLIE—Anyone wandering by the G-E last Sunday afternoon could have seen Millie Blievernieht struggling with a large Christmas tree. The tree found its home in the Payroll Section and we want to thank Millie, Bertha McCague and Thelma Barbeau for the beautiful decorations. . . . SO SORRY—Vivian Baumgartner usually doesn't get up as soon as she sits down, but the other afternoon was an exception. She accidentally sat on an oil can. . . . CHRISTMAS PARTY—Payroll's Bowling Team had their Christmas Party and exchange last week at the Van Orman Hotel. The food was delicious. . . . CHRISTMAS EXCHANGE—The Production Section had a very beautifully decorated silver Christmas tree. The whole office had a "grab-a-package" exchange Friday afternoon. . . . PEOPLE WE ENVY—We envy Mary Rogers and Ralph Shoaf. They each had a little vacation time left so, they have used their free time for last minute Christmas shopping. . . . SIGN LANGUAGE—If you want to see something cute, watch John Reuille tell Walter Hahn (through sign language) whether to ride the elevator down or walk the stairs. . . . STARKEL GOES LITERARY—I am told that Bob Starkel is going literary. He wants to write a book about "My Friend." I'll bet that book will really be something. . . . EARLY OPENING—Betty Stahl couldn't wait until the Christmas exchange to open one of her packages, so she opened it on Wednesday. Don't you wish you would have waited until Christmas Day, Betty? . . . BEWARE!—Play boy "Joe Gardt" has the balloons out again. . . . CHRISTMAS VACATION—Claude Voss will be enjoying Christmas and New Year's along with his vacation. He and his family are heading for Florida. Lydia Wilkening is on vacation this week; her mother is visiting her from New York. . . . CHRISTMAS IN OHIO—Mary Ellen Duer spent Christmas weekend with her family in Ohio. . . . CHRISTMAS IN IOWA—Forrest Carlson headed toward his relation in Des Moines, Iowa for Christmas. . . . SOME GUY — I wonder why Diek Dochterman received four gifts in the office exchange and everyone else only received just one? . . . Your Editors, Walt Gerke and Gil Baker, would like to wish everyone a Happy New Year.

The best thing to hide slightly worn clothes behind is a nice, pleasant smile.

Bob Bunyan Edits Column For Transformer Div. 91

Bob Bunyan, Bldg. 26-1, is the Division Editor for "Tricks In Transformer Div. 91."

An employee of General Electric for about 15 years, Bob first worked at the Winter St. plant and then in Bldg. 17-1. For the last 10 years he has worked in the Transformer division. At the present time he does die setting.

His spare moments away from G-E are spent "catching the big ones." Bob had two super-sleuths to help him on his reporting job. His assistants are Edward Haas and Rosie McKinney.

INDIANA TECH DROPS G-E ROD, GUN CLUB

The G-E Rod and Gun Club met the Indiana Tech Rifle Club in the first match of the 1949-50 season in the Allen County Rifle League Tuesday night, Dec. 20. Indiana Tech won this match by the score of 1098 to 1079.

The team score was as follows:

G-E		Indiana Tech.	
K. Hart	277	E. Moore	289
O. Emrick	275	A. Christopher	266
L. Bland	264	J. Cummins	261
L. May	263	N. Torzynski	253
		Handicap	29
Total	1079	Total	1098

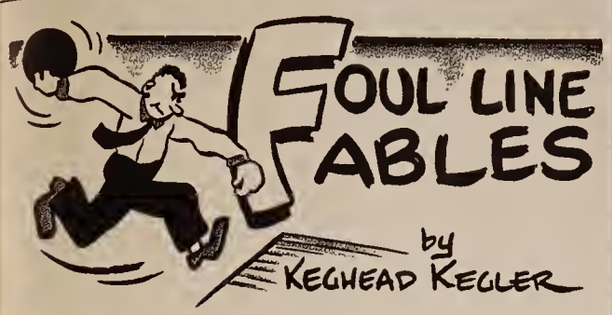
The G-E Rod and Gun Club defeated the DeKalb G-E Rifle Club Tuesday, Dec. 6, in a postal match by the score of 955 to 915.

This was a four position match.

Some people call it hard times because they can't borrow the price of a new auto.

"By George, I'm sure glad I thought of this!"

COPYRIGHT 1949 CARTOONS-OF THE MONTH



With all the looks of contentment on Tuesday, Christmas was wonderful for everyone. Let's hope the new year will bring understanding, kindness, thoughtfulness and forbearance to each of us that we may make every new day a better one for all. How about it, folks? . . . Tiz said Bob Olson is being economical with his own coffee grinder. That way he is sure of fresh coffee—sounds good. . . . Virginia Harris received a belated Christmas box Tuesday morning but imagine her disappointment when she found it contained only a mouse. . . . Our office, all decked out in its new paint, looks so fresh and bright. Spring cleaning a little early. . . . Ben Kapp stopped in to say "hello" to the gang and looked as chipper as ever. Hurry back, Ben. . . . Let's all send a get well wish and a prayer for a speedy recovery to Ruby Lydy who has been so very ill since the birth of her little girl. We are all hoping for good news soon. . . . Welcome back to the fold, Roger Crabill. . . . Walt Beeth celebrated his birthday recently, but couldn't say how old he is. . . . Fritz Stauffer wants more Swiss cheese with fewer holes, so he won't have to spit them out. . . . Has Ray Greek got something the girls go for? All the girls were holding his hand last Tuesday. It proved that he had a new diamond ring, presented to him by his wife, that the girls were interested in. Happy birthday, Ray, and we won't embarrass you by asking which birthday it was. . . . The fish brought in by Don Thomas were delicious. He does a good job of frying them, but we're still doubtful that he caught them. . . . Dick Nelson has found a good way to have the motor warm in his car these cold mornings. You merely go out at night, start the motor, go in the house and go to bed. Next morning if you've enough gas you car is nice and warm. It really works, Dick tried it. . . . Nothing seems to work for Frank Magers. The boys have been calling him on the phone at 6 a.m. but he still gets to work late. It takes a long time to walk five blocks to work. . . . Farming the new modern way is confusing, Shorty Dafforn just finished building a new chicken coop. Now he is selling all his chickens. . . . Frank Surface is like the song, "Laughing on the Outside, Crying on the Inside." He locked his car with the key in the ignition. . . . The office girls should be applauded for the lovely tree they put up in the hall. It's beautiful, girls. . . . We're glad to see Darrell Dennic back. Darrell was transferred sometime ago and has now returned. Good luck, Dennie. . . . Now we know what chain reaction is. Thursday noon Al Middaugh was eating a very sticky marshmallow candy bar when a third person got Al and Ray Debolt started arguing. When Ray and Al got face to face, a fourth party frightened Al from behind and Ray got the sticky mess right on top of his bald head. It ruined his new scalp Simonize. . . . Don Kruse, Tony Miller and Norb Lose broke with the dawn last Saturday and hit the trail to one of Norb's favorite hunting spots. After a few minutes on the road they reached their destination. (Kruse will contest this statement). After a few hours of successful hunting, they walked back to the car. Miller and Lose put their game and hunting coats in the truck. Kruse put in his hunting coat (no game). On the way to town, Miller with his scouting eye, noticed a farmer's daughter crossing a field. Opening the window to wave he spied a rabbit caught in the vines of fox grapes along the fence row. This was Don's big moment. He stopped the car, loaded his eight gauge and fired rapidly into the brush. When the smoke cleared he found he had taken down 14 fence posts, changed the course of a ditch and practically disintegrated his rabbit—but Don was happy, he got one. . . . If you would like to find some farm in Adams county, see Norb Lose. He is one of the few people who can get lost two miles from his own home, but he sure ought to know the county by now after being on a few hunting trips with his friends whose car had a tankful of gas. . . . We all want a happy and prosperous New Year for all of you.

M. B. A. SICK LIST

Rosmae Tucker, Avanelle Kratzer, Elmer Hatfield, Ward Grim, Mary Berger, Edith McKeon, August Hinrichs, Clarence Russell, Ned Greulach, Charles Day, Norman Griffin, Newton Mechling, Eveline Best, Vadas Putt, Dorothy Weiler, Samuel Rhoads, Royal Parisot, Gaylord Evans, Alta Mayle, Lenna Ferguson, Arietta Denney, Leona Scott, Raymond Quandt, Dora Aughenbaugh, June Richardson, Margaret Fletcher, Anna Minard, Goldie DeLong, Her-Volmerding, Clara Scherer, Russell Maxson, Norma Krall, Waneta Koehlinger, Elmer Hatfield, August Hinrichs, Donna Hayes, Juanita Harris, Agusta Hoopengardner, Norman Griffin, Gaylord Evans, Martha Arnel, Ruth Cutter, Laura Somers, Nelson Furthmiller, and Marion More.

Returned to Work

Ernest Lowe, George Waldschmidt, Edmund De Weese, Henry Mason, Donald Ertle, Gertrude Martin, William Waggoner, Winifred Scheurich, Harold Boles, Richard Templeton, Harrison Van Diver, Clarence Sapp, Perry Jeffries, Dorothy Childrey, Thomas Hildebrand, Ida Williams, Waneta Koehlinger, Joseph Schlotterer, Robert Campbell, Marguerite Dasher, Beulah Briner, Henry Tucker, Mildred Geerken, Aldyth Cotner, Roy Utter, Earl Vachon, Lizetta Worthman, Olga Welch, Morris Siples, Hope Hatfield, Kenneth Frick, Harold Moore, and Mary Berger.

The Apprentice boys snapped out of the doldrums to rack up three 600 series.

Marc Junk led the way with a 641 on scores of 235, 209, and 197. Joe Haas, with games of 210, 205, and 199, got a neat 614. Jack Kirlin came through with his first 600 series, a 606 on games of 224, 211, and 177.

Two hundred games were rolled by Gene Werling, 238; Milo Chasey, 209, and Don Hoffman, 202.

The Compasses are leading the league by seven big games.

Apparatus League

Art Thompson, getting his first 600 series, walked off with a chicken. Art had games of 196, 202, and 204 for a 602 total.

Two hundred scores were kegled by: Fred Schafenacker, 202; Arnold White, 225; R. Smith, 204; R. Wire, 202; W. Saalfrank, 203; H. Sexton, 223, and Bob "Sore Thumb" Blomker, 224 and 203.

Team No. 4 is leading the league in a tight race right down to the wire.

Interdivision League

Frank Matthews led the assault on the pins for the chickens. Frank had games of 195, 212, and 192 for a 599 and a chicken. Other chicken winners were Frank Iannelly, Russ Rose, and Nagel.

Two hundred scores were made by Herb Thiele, 232; Mardo Tobias, 204; Russ Rose, 224; Wayne Wiemer, 200; Paul Billman, 207, and Frank Iannelly, 211 and 202.

Decatur Bowling

G-E Fraternal League: Elks won two from the G-E Club in their battle for the cellar spot. Moose No. 7 took two from Preble.

Teeple Truck Line took two from K of C to increase their lead to six full games. K of C and Preble tied for second with Moose only one game back.

High Series: E. Faulkner, 628.

Two Hundred Scores: Stump, 266; H. Murphy, 214; C. McIntosh, 213; Ladd, 200; Zelt, 222; R. Lord, 202, and Alton, 217.

High Team Game—Teeple Truck Line, 1081.

Monday Night League: Office won three from Flanges to increase their lead to four games over the Flanges who are in second place.

Inspectors took two from Stators to tie for third and fourth place.

Two Hundred Scores: L. Zwick, 205, and G. Laurent, 202.

Dope by Dopey

We would like to take this moment to retract a statement made in the Dec. 9 issue of the WORKS NEWS to the effect that Erv Aumann's 703 series was the first in several years at the G-E Club alleys. Just last year Ed Kraft, in the G-E Annual Tournament, fired a 717 and, in a roll-off, Frank Matthews had a 720 series.

High scores for those trophies are Erv Aumann, 703; Bess Potts, 580; B. Somers, 269, and Ethel Koontz, 232.

Have you noticed the change in Adam Farrell lately? We found out last Wednesday evening that he's still the same old holler boy that we knew way back when. All he needed was Frank Matthews to spur him on.

Keghead rather enjoyed last week's vacation. Now we know where this column stands in the eyes of ye olde editor, Keghead ranks just about as low as a cowboy's spurs. If we need room in the news, just give ole Keghead a rest.

Back in 1931 the G-E Club bowling team won the city major league. Frank Quinn and Ted Schlup were members of the team. That same year the late George Jackson led all bowlers at the club with a 205 average. Seven hundred series were rolled by George Jackson, 709; Milt Bryan, 700, and McAtee, 705. That same year Joe Hambrock failed to carry a stubborn ten pin to post a 299 game (tough luck).

Here's a neat team total for one game rolled by a G-E team back in 1931: Frank Quinn, 191; Ted Schlup, 197; Eddie Schrantz, 199; George Luedeman, 253, and Hal Stewart, 300 for a 1140 total.

G-E Club Downs Salisbury Axle

The G-E Club avenged an early season defeat when they downed Salisbury Axle, 39-37, in a Zollner Piston preliminary game Thursday, Dec. 22.

After trailing 10-9 at the end of the first quarter, the G-E Club took the lead 21-19 at the end of the half and went on to win. Dick Bucher and Jim Walley paced the G-E Club scoring with 13 and nine points, respectively, while Bryson led Salisbury with 12 points.

The G-E Club has a season record of eight wins and seven defeats. They are playing .500 ball in the YMCA Industrial Basketball League, with a three and three record.

They will play Simpson Church tonight at the G-E Club gym. Game time will be 8 p.m. The G-E Club will play two YMCA league games next week. Tokheim will be the opponent Tuesday, Jan. 3, beginning at 8:15 p.m. in the Central high school gym. Their next game will be with Rea Wire at 7:45 p.m. Thursday, Jan. 5, in the YMCA gym.

G-E CLUB OWLS SCORE VICTORY OVER ECKRICH

The G-E Club Owls won their sixth game in a row from the Eckrich Packers. The score was 47-36. Indiana Rod & Wire beat Zollner in the second game, 30-23.

The Eckrich Packers led the G-E Club until the beginning of the final period, when the Owls turned on the steam and scored 20 points to clinch the game. John Anspach was high point man for G-E with 10 points. Bob McKeeman, of the Packers, who led at half, 24-15; scored 14 toward the losing cause.

The Indiana Rod and Wire team, led by Dick Sowers, got hot in the third quarter to settle the issue against Zollner, who just couldn't get going.

Everybody got quite a kick out of Harry Schrimp, who had the bottom of his shoe come off midway in the first period. Frank Ducheteau and Paul Waltz divided scoring honors with six points each for the Pistons, while Dick Sower was high for the winners with 12.

Industrials Add Baals To Squad

Bob Baals, above, is one of the new additions to the G-E Industrial Basketball team. Bob is 27 years old, 5 ft. 8½ in. tall, and weighs 165 lbs. He played with the G-E Firemen during the last two years and his speed and experience should greatly help the Industrial squad this season.

Small Motors beat the Apprentice School, 49-26, in an Interdivision Basketball League game Tuesday evening.

The winners took the lead in the first minute of play and held it throughout the game. Voors and Rosswurm were very effective for the winners with 14 and 17 points each.

The Test Engineers dropped one to the Firemen, 36-19, in a game which was fairly close for the first three periods. However, the Firemen turned on the heat in the last quarter and pulled away to a comfortable lead.

Director
Herbert Scherer, Taylor St.
Cletus Lothamer, Taylor St.

Rietdorf Dies

Carl Rietdorf, Jr., 51, died at 3:30 a.m. Friday, Dec. 16, at his home, 922 Illsley Dr. Mr. Rietdorf was employed by General Electric in 1913 as a cost clerk. He became Assistant to the Cost Supervisor, Specialty FHP Motor Div. 1, in 1947.

Funeral services were held Sunday, Dec. 18, at the Klaehn Funeral Home at 2 p.m. The Rev. Clayton Steiner officiated, with burial in Greenlawn Memorial Park.

The Big WIND
DIVISION 17
TAYLOR STREET
by Dorothy Heinzelmann

Ducky Drake's face was really red last week, almost as was Janice's. Now the story that yours truly heard was this way. Ralph Dennison has a habit of pulling on Ducky's suspenders every chance that he gets, and so when he saw Ducky standing in Penn's office he walked up and pulled, but he yanked just a little too hard as the buttons flew off, the two back buttons that is, and Ducky really had to grab in a hurry. They then asked Janice if she would be so kind as to sew them back on. This she did, and in the meantime Ducky had put his suspenders in Don Niles desk drawer to keep some kind individual from hiding them. The buttons are now all sewed back on, and so Ducky steps over to the desk (still keeping a tight grip on those trousers) and stoops over to get the suspenders, and to do so he had to leave loose of his grip on said pants, and down they came around his knees. Charlie says Janice took out of there so fast that he still doesn't know if she went around him or tunneled under him. . . . Frank Beatty started celebrating Christmas a little early this year, as he came into work last Friday a.m. with the wrong shirt on. However it didn't take him long to get home and change. . . . Oscar Schelper was ill the first part of last week, but we are glad that you were able to be back in time to help us celebrate Christmas, Oscar. . . . Bob Sweeney has lately been known as Santa's little helper, you've all heard of "Rudolph the red-nosed reindeer." . . . Wonder what it is that Ruth Leverton has that is so special in Ossian. . . . Vi Minnick really puts her heart into her bowling. As a matter of fact she must put her back into it too, as she couldn't make it in to work last Wednesday. . . . The 51 Frame sound room has added two more reptiles to their collection "Lil Tex" and "Lil Everett." . . . The girls in the winding section had their Christmas party at the Belmont. A little gift exchange and refreshments. were enjoyed by all. : . . Some of the girls in Div. 17 had their party last Thursday night at the Colonial. Those attending were Edith Carder, Eva Webber, Iris Hebble and Willie Palmer. . . . Harold Mosshammer, Bob Boone, and Troy Long are enjoying those lovely third weeks of vacation this week. . . . Noel Boling brought in a cake that his wife baked for the gang in 17x130, and we hear that Howard McVay ended up with the biggest piece. . . . When you go out with Tommy Williams, you can really save your nickels as we hear that she can give as good a rendition of Mule Train as Bing can. . . . Hope the foreman and set up men liked their nylon shirts. . . . HAPPY NEW YEAR TO EVERYONE.

STILL BETTER IN 1950!

COMPETING PRODUCTS get to be much alike on the surface, much alike as to price, much alike as to *first* performance.

That's because of the competitive struggle to offer customers so exactly what they like at prices they can and will pay.

In 1950, our customer will like a General Electric product—and buy it—not just for the good value he sees in it, but even more especially for the value he *believes* to be there *beyond* what he sees.

In fact, his final decision will be based *usually* on the additional *unseen* qualities he expects to enjoy in the future—such as our product lasting longer than a competitor's or giving better value for the money five, ten, or twenty years from the day he bought it.

He will be putting himself in the hands of all of us—putting his confidence in General Electric.

Let's justify that confidence!

In 1950—even more than ever before—let's build into our products the interest, skill, care and effort which—now and later—will prove that our customers are wise in trusting General Electric.

Let's do that because it's ***right.***

But let's also not forget that our jobs depend on our customers—just as our customers depend on us.

So let's do our work right for the extra reason that we want to get and keep the sort of reputation which will preserve our present good jobs and provide more good jobs in the future.

Let's resolve that our customers this year can depend on us for more reliability, service and value than ever before, and let's thus make sure we can depend on them for jobs and pay and security as never before.

GENERAL ELECTRIC COMPANY
